FOURTH YEAR NUMBER 1

Marketing Places Announced for Wheat Quota Referendum to Be in Foard County Friday, July 23

County to vote. A producer is eligible to vote if he will have more than 15 acres of wheat on his farm for harvest in 1955. In other words, he can vote if he would be affected directly by quotas, which apply only to farms with more than 15 acres of wheat. If quotas are approved, there will be marketing penalties on any excess wheat — produced outside the acreage allotment — and the full level of price support authorized for 1955 will be available for those who comply with their allotments. If quotas are not approved, there will be no quotas or marketing penalties, and price support for those who stay within their allotments will be at 50 percent of parity.

Voting Places Named

Farm allotment notices, as well as an explanatory leaflet giving the essential facts of the 1955 program were sent out to all wheat growers. The following voting places in the county will be open from 8:00 a. m. to 7:00 p. m. on Friday, July 23:

Margaret community, Margaret Gin office; Thalia community, Farmers Co-op. Station; Crowell community, basement court house; Foard City community, Foard City Church; Vivian community, basement court house.

Dr. John W. Raines Moves Here to Practice Medicine

Dr. John W. Raines, a native of Meridian, Texas, established offices in the bank building early this week and began his practice here yesterday. The young medical and surgical doctor had recently completed a year of private practice before coming to Crowell.

A graduate of Baylor University at Waco and Baylor University's School of Medicine in Houston, Dr. Raines received his internship in medicine and surgery from the El Paso General Hospital in El Paso.

Dr. Raines served approximately 2 years in the U. S. Air Force during World War II.

Obtaining the services of Dr. Raines, who was well recommended to local medical officials, and the capable services of Dr. Martin Kralicic, should be of inestimable value to the sick of the county, to the hospital staff, and to the citizenship of Crowell and Foard County.

MOTOR VEHICLE TOLL

The motor vehicle was the nation's No. 1 killer again in 1953, as in the last several years, with 38,300 deaths reported as a result of traffic accidents. This was the third largest such toll in history and only about 1700 below the all-time high of 39,969 in 1941.

Foard County News Entering Forty-Fourth Year of Publication

This issue of the News marks the beginning of the sixty-fourth year of continuous publication by Foard County's oldest news institution, The Foard County News.

Founded and edited by T. B. Harper for the past 25 years, the paper was first established in 1891 by the late J. L. Harper. Although changes in both ownership and location have transpired since Harper's beginning, the present location is the original site of the paper founded by Mr. Harper.

The first edition of the News was printed on the old "mule" press, almost two-thirds of a century ago, the News has many changes in both publication methods and mechanical

techniques in order to keep pace with progress. Today it maintains the facilities for either publication or commercial uses. In the last decade, extensive repairs have been made on the building and the presses, linotype, etc., which have increased the efficiency of the firm's production.

The present News staff includes the editor, T. B. Klepper; Mrs. T. B. Klepper, associate editor; Bill Klepper, linotype operator; Goodloe Meason, steno-typewriter and pressman. Don Gobin is currently employed in the news compiling department.

Through the years the cooperation of the people of Foard County has been a great inspiration to the News, and with the continued help of its readers, the News will continue to try to give adequate news coverage of timely events to its subscribers, and serve its advertisers in the best possible manner.

Date of Margaret Revival Changed

The date of the revival meeting to be held at the Margaret Baptist Church has been changed from July 25 to Sunday, August 1, it was announced Monday by the pastor, Rev. G. C. Laney. The pastor, Rev. G. C. Laney, of the past year for eight days and the Rev. W. B. Fitzgerald, pastor of the Baptist Church in Thalia, will do the preaching as was announced in last week's paper, with services being held both morning and evening.

News About Our Men in Service

Pvt. Jack B. Laquey, son of Mr. and Mrs. C. H. Laquey of Truscott, recently began eight weeks of Army basic training in the Antiaircraft Artillery Replacement Training Center at Ft. Bliss, Texas.

James E. Weathers, seaman, U. S. N., son of Mrs. R. E. Weathers of Crowell, returned to the United States July 13 after seven and one-half months in the Far East aboard the attack aircraft carrier USS Essex. The Essex docked at the Naval Air Station in San Diego after steaming over 57,000 miles during her third Far Eastern cruise being recommissioned in 1951.

More than 13,000 midshipmen, officers and men are embarked in 19 ships en route to Europe on the summer's first midshipmen cruise. Aboard the battleship USS Missouri is Sidney R. Black, seaman, USN, son of Mr. and Mrs. Homer Black. The eight-week cruise began June 7. Under the supervision of crew members of the training ships, midshipmen "learn by doing" shipboard jobs in navigation, gunnery, seamanship, engineering and communications. The ships will visit ports in Portugal, Spain, France, Belgium and the Netherlands before returning to Norfolk, Va., August 3.

Fewer Cotton Insects Reported by County Agent

Cotton insects continue to decrease in numbers with the hot dry weather that has prevailed here for some time, according to Joe Burkett, County Agent, after his weekly inspection of cotton fields. Some cotton is beginning to wilt during the heat of the day due to the hot dry condition. Alfalfa and feed crops are suffering and need rain badly. Some feed and alfalfa have burned severely and recovery will be slow when it rains.

Inspections of fields in the Thalia, Rayland, Riverside, Margaret, Vivian, Four Corners, Good Creek and Foard City communities showed a definite decrease in the number of harmful insects in all fields inspected by Mr. Burkett.

Fleahoppers continued to cause trouble in some fields east of Thalia, around the Riverside school house and a few fields in the Rayland area. In all cases there was a definite decrease in the infestations.

Insect infestations ranged from none to very light in fields inspected north of Crowell, east of Crowell, between Crowell and Thalia and in the Four Corners community.

All fields inspected around Margaret showed very low insect counts.

Fields around Foard City show very little insect damage. A few fields showed some grasshopper and jack rabbit damage around the edges. Grasshoppers continued to damage fields in the Vivian community but other insects were very low.

Flea Beetles Destroy Crop

Flea beetles completely destroyed Bob Carroll's cotton in the Good Creek community. J. B. Little's cotton was also almost destroyed by the same insects before he knew they were in his field. This is very unusual because the flea beetle isn't considered a cotton insect. These insects eat the cotton up so completely that it dies leaving nothing but bare ground.

The flea beetle can be controlled with 1 to 1 1/2 pounds of DDT per acre.

Inspection of Thad Hopkins' and Cecil Dunn's cotton and other fields in the Good Creek community showed very little insect damage, the Agent concluded.

Don Dean Swift Succumbs July 16 After Long Illness

Last Rites Held Sunday Afternoon at Baptist Church

Funeral services for Don Dean Swift, 12, were conducted at the First Baptist Church in Crowell Sunday afternoon at 4:30 o'clock with Rev. Emil V. Becker, pastor of the Baptist Church in Knox City, delivering the message for the service. He was assisted by Rev. C. T. Aly, who read the scripture, and Rev. Grady Adcock, who led in prayer. Both are local pastors.

Special music was rendered by Misses Mary Hitchcock and Blenda Coats of Knox City who sang two numbers, "God Understands" and "He Whispers Sweet Peace," with Mrs. C. T. Aly as accompanist.

Pall bearers were John Long, Hartley Easley, James Sandlin and Howard Henderson. Flower bearers included Mrs. L. E. Archer, Mrs. Howard Henderson, Mrs. Hartley Easley, Mrs. R. S. Carroll, Mrs. Moody Bursley, Mrs. Virgil Johnson and Mrs. James Sandlin.

Don Dean passed away at the home of his grandmother, Mrs. Preston Owens, following a long illness, where he and his mother and brother, Phil, had been making their home since the recent death of his father. He was born Nov. 8, 1941, in Wichita Falls. He was converted and joined the Baptist Church in February, 1951, and his church membership was with the First Baptist Church in Knox City, where the family formerly resided.

Don was an industrious boy, always busy with some profitable activity. During his illness, he read and typed out many of the well known Bible stories. He loved to read the Bible and often discussed it with his family and friends.

His use of his talents and abilities during his long illness proved not only a blessing to him, but an inspiration to all who came in contact with him.

Interment was in the Crowell Cemetery beside the grave of his father, Womack. Funeral Home was in charge of arrangements.

He is survived by his mother, Mrs. Troy Swift; a brother, Phil; his grandmother, Mrs. Owens, and paternal grandparents, Mr. and Mrs. Henry Swift, of Broken Bow, Okla.

His aunt, Mrs. Wm. E. Backus, of Los Angeles, Calif., has been here several months helping the mother and other relatives minister to him.

Out-of-town relatives attending the funeral were his grandfather, Henry Swift, and Ewell Swift of Broken Bow, Okla.; Rev. Clyde Swift of Texarkana, Ark.; Mrs. Harold Ray of Pittsburg, Texas; Mr. and Mrs. Marshall Capps and son of Olney; Mr. and Mrs. M. G. Swift and son of Levelland; Doris Ann Swift of Andrews; Mrs. Wm. E. Backus, Los Angeles, Calif.; Dr. and Mrs. Joe W. Belote and son of Slaton; Mr. and Mrs. Bill Owens of Truscott.

Out-of-town friends were Mr. and Mrs. Howard Henderson of Burkburnett, and Mrs. Homer Johnson of Winters, Rev. and Mrs. E. V. Becker, Mr. and Mrs. O. Caussey, Mrs. Carpenter, Mr. and Mrs. W. R. Brown, Mr. and Mrs. Wayne Hardin, Mr. and Mrs. W. C. Colson, Mr. and Mrs. Thomas, Mrs. Melvin, Mrs. Coats, Mrs. O. E. Cross and sons, Mrs. Cook, Mrs. Hitchcock, Mary Hitchcock, Blenda Coats and Mrs. Bradley, all of Knox City.

There were seventy-five men present at the Sunday morning meeting of the Down Town Bible Class, including seven visitors. The trio from the First Christian Church, Mr. and Mrs. Joe Ward and Mrs. Zelma Hulse, with Mrs. Bedford W. Smith, accompanist, rendered two numbers for the enjoyment of the large group present. Dick Todd introduced the visitors.

The message was delivered by the teacher, Leslie Thomas.

FIRST DEMOCRATIC PRIMARY TO BE HELD IN FOARD COUNTY JULY 24

Approximately 1,350 votes are expected to be cast in Foard County this Saturday in the Democratic primary election. These voters, which constitute the nine county precincts, will mark ballots containing the names of some fifty-five candidates seeking public office. Twenty-one of these

candidates are listed in the county races. The polls will open at 8:00 a. m. and close at 7:00 p. m.

Voting Places

Crowell voters will cast their votes in the court house as usual with the Good Creek community voting in Precinct No. 3, as a result of a consolidation of the

two boxes before the 1952 primary election. Listed below are the voting places of the respective voting boxes:

Precinct No. 1, southeast Crowell, votes in county clerk's office. Bob Abston is the presiding officer.

Precinct No. 2, northeast Crowell, votes in county judge's office. L. A. Andrews is the presiding officer.

Precinct No. 3, southwest Crowell, votes in southwest corner of basement in court house. Henry Blalock is the presiding officer.

Precinct No. 4, northwest Crowell, votes in county attorney's office. James Sandlin is the presiding officer.

Precinct No. 5, Margaret, votes at the Margaret school. Joe Orr is the presiding officer.

Precinct No. 6, North Thalia, votes at Farmers Station in Thalia. C. L. Adkins is the presiding officer.

Precinct No. 7, South Thalia, votes at Thalia School. Allen Shultz is the presiding officer.

Precinct No. 8, Foard City, votes at Foard City church. Grady Halbert is the presiding officer.

Precinct No. 11, Rayland, votes at the Rayland Gin. Mrs. Barney Martin is presiding officer.

Precinct 9, Absentee Box. John Cogdell is presiding officer.

Reserved Seats to Go on Sale Monday, August 2, for Five Home Games of Crowell High School Football Team

Reserve seats for the 1954 Crowell High School football games will go on sale Monday, August 2, at the office of L. A. Andrews, secretary of the Crowell School Board, located in the court house.

These optional reserve seat tickets will sell for \$1.00 and

will assure the holder of a good seat at all of the five home games. This will enable each fan to attend only those games that he wants to see by paying a 75c admission, and a child will have to pay only 35c. This plan proved to be very popular last year as about 200 local fans took advantage of it.

Home Games

The five home games for this season are as follows: Quannah, September 24; Memphis, October 1; Holliday, October 15; Chilli-cothe, October 22; and Paducah, November 12. The Quannah and Paducah games should be sell-outs.

The press box has been doubled in size, and the new electric scoreboard has arrived and will be installed before the first home game. Commercial fertilizer has been applied to the grass on the field which makes the turf better than usual.

Book Written by Former Crowell Girl Being Released

Mrs. Wanda Rose Liles Kellett, former Crowell resident and daughter of Mr. and Mrs. R. L. Liles of Pine Bluff, Ark., has written a book entitled "Wings as Eagles" which is being released this month by a New York publisher.

Mrs. Kellett was graduated from Crowell High School in 1940 and received a B. A. degree in speech at North Texas State College at Denton in 1945.

The book deals with the story of her husband's experiences in Japanese prison camps during World War II. Mrs. Kellett now lives in Tyler with her husband and three children.

Soil Conservation Service Reports That Many Cooperators Are Working Hard to Conserve the Water and Soil

The Lower Pease River Soil Conservation District reports two new cooperators this week, Donald R. Werley and Mrs. Mary Bell Barker.

Many cooperators with the Lower Pease River Soil Conservation District have been working hard recently to conserve the soil and water on their farms. A few of the many efforts are mentioned in the following paragraphs.

Henry and Lee Black have just completed a new farm pond on their farm one mile east of Foard City. Claude Orr is planning a new farm pond for his farm five miles southeast of Margaret.

Ray Hysinger has completed four miles of terraces on his farm

five miles northeast of Crowell. John J. Nichols has completed 27 miles of terraces on his farm six miles southwest of Thalia. Other cooperators who are planning to do some terracing on their farms are: Robert Long, Leo Cates, Crews Cooper, Henry Borchardt, Cecil Dunn, Merritt Carruth, I. J. Jackson, Hammonds Bros., R. C. Johnson, Darvin Bell, Mrs. Mary Bell Barker, Lee Whitman and Lewis Sloan.

Glenn Jones is sub-soiling 152 acres of wheat land on his farm 18 miles southwest of Crowell. He is breaking the soil 12 to 14 inches deep at about 70-inch intervals. This practice will cause his soil to soak up more water and therefore allow much less water to run off the land.

Dwight Campbell is doing an excellent job chiseling and stubble mulching, on the contour, on his farm at the northeast corner of the city of Crowell, local Soil Conservation employee report. This deep chiseling will cause the soil to soak up more water and the stubble will form a mulch on the surface which will decrease moisture evaporation. Several cooperators have a good cover of stubble left on the surface, but Mr. Campbell's farm is about the best the Soil Conservation men report they have seen of stubble mulching and chiseling.

New Officers for R. A. M. and Council Installed July 15

New officers for the Royal Arch Chapter No. 276 were installed at the regular meeting of the chapter last Thursday evening. T. B. Klepper acted as installing officer.

Officers installed to serve this year in the Council of Royal and Scept Masters are W. R. Moore, Thrice Illustrious Master; John W. Wright, Right Illustrious Deputy Master; D. R. Magee, Illustrious Principal Conductor of the Work; Merl Kincaid, treasurer; W. B. Carter, secretary; J. A. Stovall, Captain of the Guards.

ATTENDING YOUTH CAMP

Mrs. C. T. Aly is teaching a mission book at the Baptist District Youth Camp at Vernon this week, where intermediate and senior girls are gathered from all District 11 of the Baptist General Convention of Texas.

Also attending this meeting are Misses Latrelle Duckworth and Jo Helen Aly. The junior and intermediate boys camp will be conducted next week at the same place.

Dr. J. H. Wright, pastor of the First Baptist Church in Levelland, is the camp evangelist, and Dr. Dan Sharpy, missionary to Brazil, South America, is the camp missionary.

RETURN FROM BOSTON

Mr. and Mrs. Jeff Bruce returned home last Sunday night from a trip to Boston, Mass., where Mr. and Mrs. Bruce and their four children held a family reunion at the home of their oldest daughter, Mrs. C. E. Quinn, who lives in Boston. The other children are Bill Bruce of Houston and Mrs. L. N. Battershall and Miss Jane Bruce of Long Beach, Calif.

The trip was made by plane and they returned by way of Fort Worth.

ENTERS HOUSTON HOSPITAL

John Bradford, custodian of the court house, entered the Methodist Hospital in Houston Tuesday for treatment. He was dismissed from the Foard County Hospital last week and was taken to Wichita Falls and from there to Houston. Mr. Bradford was accompanied to Houston by his wife and two daughters, Mrs. Alton Cavin and Mrs. Leroy Gibson, and her husband, of Wichita Falls; and his sister, Mrs. Jim Owens, of Margaret.

Benjamin Franklin established the first American newspaper printed in a foreign language.

Dennis Garrett returned home Sunday after spending ten days at the Texas Lions Club for Crippled Children at Kerrville. He was accompanied home by his parents, Mr. and Mrs. Willie Garrett.

Un-election Board

The unofficial election returns will appear on the big election board on the north side of the court house again this year. The Foard County Democratic Executive Committee stated this week that the returns which will appear on this board will be unofficial and the returns of said election will not be considered official until the votes are re-counted by the committee Monday evening. The committee will meet at Shirley-Youre Drug at 8 p. m. Monday night for this purpose.

Early Reports Requested

Ray Shirley, chairman of the committee, requested this week that the precinct chairmen bring or call to him at the Shirley-Youre Drug store the results of the election in their respective precincts immediately after the votes have been counted. Mr. Shirley states that this cooperation will be a great help in getting the returns to the people as soon as possible after the polls are closed.

Everyone is cordially invited to come to Crowell Saturday evening after voting to watch the voting tabulations as they are received the various voting precincts of the county.

Executive Committee of March of Dimes Meets Tuesday

The Executive Committee of the Foard County Chapter of the National Foundation for Infantile Paralysis met in the Tuesday Bible Class room Tuesday afternoon to discuss the dire financial condition of National Headquarters and to make plans for Foard County participation in the Emergency March of Dimes to be staged on a national scale August 16-31. With the development of an effective vaccine almost assured for the near future and the patient aid program as urgent as ever in history, it was agreed that it would be unthinkable that either of these activities should be curtailed at this critical stage for the lack of funds.

Mike Bird has been named emergency campaign director for the Emergency March of Dimes. Those present at the Tuesday meeting were John Wright, J. A. Stovall, Mike Bird, M. M. Welch, Mrs. M. M. Welch, Mrs. Cecil Carpenter, Mrs. Dove Carlile, J. C. Autry Jr.

Fort Worth—The high temperatures that have gripped large portions of the country had an adverse effect on cattle trade Monday. Stocker and feeder interests at out-of-state points, especially in sections of the Cornbelt that have been sizzling under 100 degree plus temperatures, reported movement of stockers to the country very slow.

The blistering heat was causing some concern as to the corn crop prospects in some important areas and forage definitely deteriorated

badly in many sections where Texas cattle are shipped every summer.

The better kinds of calves sold at \$16 to \$18 at Fort Worth Monday and yearlings around \$15 to \$17.50 on the good kinds but order buyers reported sales slow out of second hands and shipping orders were behind a week ago with most dealers.

Canners, cutters and bulls fared well and drew generally steady prices, some cutter cows selling to better advantage than at last week's close. Fat cows were weak to lower as all packers exhibited a marked aversion to tallow.

Fat cattle were generally steady. I. S. Scott, Castro County, marketed a load of choice steer yearlings at \$21.50 and Marvin Beauchamp, Moore County, cashed two loads of good and choice heifers at \$20.50 that averaged 752 pounds. Beauchamp reported these heifers weighed 775 pounds prior to shipment—and he said had he sold them at home and taken a three per cent shrink, it would have made pay weights 751 pounds against the 752 they weighed at market. John Buttery, Oklahoma, had two loads of steers at \$19.25 and Roscoe Edwards, Montague County, sold two loads at 1,139 pounds at \$20.

The Garner steers from Coleman County drew \$20.25 and Leslie P. Burnett, had some fat heifers at \$21 with a few out.

Hogs Steady While Sows Lower
 Top grade hogs sold at \$24.25 at Fort Worth Monday, steady with the close of last week. Sows were 50 cents to \$1 lower, selling at \$14 to \$18.50.

Less desirable hogs either from a weight factor, or from their

lack of finish or undesirable types, sold from \$21 to \$24. Typical of the good hogs was a load averaging 251 from Arlington State College. These hogs averaged \$24.25, the extreme top being a little heavy.

Steady Prices on Sheep
 The sheep and lambs were considered somewhat less active from the standpoint of activity on Monday, and as was the case with all livestock that day took on an unusually large amount of alfalfa and were steady on all kinds.

Good and choice fat lambs sold at \$17 to 19, and were above that range slightly. Medium and medium kinds sold \$8 to \$10. Medium and choice stocker and feeders sold \$15 to \$15.50. Slaughterers earned \$9 to \$12.50 and slaughterers of the aged variety again sold around the \$3 range and old bucks crossed scales at mostly \$3.

West Texas Utilities Employees Win Court Decision Over Union

The United States Court of Appeals in New Orleans recently sustained the West Texas Utilities and its employees in their contention that the National Labor Relations Board had unfairly conducted a union election and had illegally prevented the company from presenting evidence on behalf of its employees.

The NLRB's petition for enforcement of its order directing the WTU Co. to bargain with the International Brotherhood of Electrical Workers was denied by the court which held the election to be illegal for the following reasons: 45 employee ballots which could have affected the outcome of the election were arbitrarily cast out by the Labor Board for reasons of its own, because Labor Board representatives questioned employees prior to voting, allowed union representatives to question voters publicly at polling places and for various other acts of misconduct and illegal procedure on the part of Labor Board representatives conducting the election.

The court ruled that the NLRB had prevented the company from presenting facts of evidence in behalf of its employees according to law. The election in question was conducted in December, 1951, by the Fort Worth Regional Labor Board at the request of the union (IBEW) for the purpose of determining union representation of the 213 employees in WTU's Production Department (Power Plants).

The effect of the court order is to render null and void the Board's certification of the union

as a bargaining agent for plant employees.

In May of this year, a company official said 76 per cent of the employees in the company's Production Department petitioned for decertification of the union as their bargaining agent. The petition, rejected by the Labor Board's Regional Director in Fort Worth, was appealed to the National Board in Washington. There the employees' appeal was again rejected without investigation by the Board stating that the petition was untimely in view of this case pending before the New Orleans Court.

In censoring the Labor Board for the arbitrary manner in which its agents and representatives conducted the election and subsequent investigation, the Court said, "The Board and all of its hearing agents should understand they are not representatives or partisans of either side in holding an election or hearings in which representations of employees is sought."

The Court also pointed out that the Labor Board is endowed with all three great powers of government, legislative (making rules for procedure) judicial (deciding the vital and important issues arising between employer and employee as well as between either of these and the union) and executive (initiating proceedings for enforcement of its decrees).

Increase in Delivery

Deliveries of nickel in 1953 by International Nickel, world's largest producer of the metal, amounted to 251,417,000 pounds. This was about 13 per cent greater than the average for the five years immediately following World War II.

In the News . . . 30 YEARS AGO

News items below were taken from the issue of The Foard County News of Friday, July 18, 1924:

Mr. and Mrs. I. M. Cates and their children enjoyed a family reunion on Beaver Creek last Sunday. All children and grandchildren except Mr. and Mrs. Jim Cook and children of New Mexico were present, thirty-three in all, with seven guests.

Austin, Tex. — Down to his bitter end moved the campaign for Governor of Texas.

Relatively short, the drive was one of the most intensive this state, notable for its violent politics, had ever seen.

Two men dominated the picture: Governor Allan Shivers, candidate for re-election; and his opponent, Ralph W. Yarborough of Austin.

Shivers Picture
Shivers stood foursquare on his record of achievement in office and pledged to continue, if re-elected, "the progressive program" he had worked for during his tenure.

Cited by the Governor were concrete figures showing that during his administration Texas has come far:

"From worst to among the best is the state prison system's record."

"Many miles of farm-to-market roads have been built and maintained. Generally, the state highway system has been improved."

"Pay of teachers and public employees has been increased."

"Considerable progress has been made in the state hospitals and special schools."

Title to our tidelands has been regained, and that victory meant \$32 million already realized for the State's school children, with untold billions yet to come."

Yarborough Described
As he recounted the record of his administrations, Shivers flung certain charges at his opponent.

Yarborough, he said, is the captive of people who don't want to get tough with the Communists, and who want to get the Texas anti-Communist law repealed.

Shivers further charged: That Yarborough has made no positive statement on the segregation issue.

That Yarborough has promised George Parr to call off the cleanup in Duval County.

That CIO Union bosses had placed a \$2 per head levy on members for a defeat-Shivers slush fund.

That Yarborough wanted schools run from Washington, not locally.

Yarborough Talks
Shivers' opponent, twice a candidate for the state's highest office, was making his strongest bid for election.

Whether it was true that he had powerful support from the CIO could not be proven.

But he had money to buy expensive time on the state's radio and television stations, and to produce a campaign newspaper for statewide distribution.

Yarborough also was the first gubernatorial candidate to completely ignore the rural press of the state, in his bid for office.

To reach the voters in the non-metropolitan areas, he has depended largely on TV and radio.

Some folks haven't liked the approach because it has crowded off their TV screens some of their favorite programs. Others have enjoyed politics' first big year on TV in Texas. Results of the approach will show definitely on July 24 when Texans go to the polls to record their choices for that and other offices.

Yarborough Campaign
Yarborough based his campaign principally on charges which Shivers described as "mudslinging."

Yarborough had these things to say:

That Shivers had made a secret deal with George Parr of Duval County.

That Shivers had caused the resignation of former Chancellor James P. Hart of the University of Texas.

That Shivers had made contradictory remarks about segregation.

That Shivers' Republican friends are trying to cheat Texas out of part of the tidelands.

On the positive side, Yarborough promised higher teacher pay and old age assistance.

Shepherd View
The information that Texas' tidelands fight is not yet over is no new development, according to Attorney General John Ben Shepherd in a reply to gubernatorial candidate Ralph W. Yarborough.

Shepherd issued his statement

FOR COMPLETE

shortly after a remark by Yarborough that the Attorney General had let it "leak out" that the federal government still refused to recognize state tidelands boundaries as more than three miles off shore.

The state claims over 10 miles in the Gulf of Mexico and has issued leases for much of that area.

Shepherd said the tidelands dispute involving the boundary location was made public as early as last October in a newspaper article.

Although declining to take issue in the political battle for governor, Shepherd said that "the true facts concerning the matter be made clear."

Water Solution
Passage of flood control legislation now before Congress is a major solution to the droughts in Texas, District near Colonel H. R. Hallock, the Fort Worth Corps of Engineers stated in Austin.

Legislation includes the Grand Canyon Dam for the Gulepe River near New Braunfels and six major reservoirs created in the Brazos River valley.

Hallock said that if the are built, many millions of feet of water can be stored during drought periods.

MONTGOMERY WARD HEIR'S BODY EXHUMED — With Cook County officials present, body of Montgomery Ward Thorne, 20, heir to mail order millions, is exhumed from Chicago grave in effort to cause of mystery death. As a surgeon said death was "natural" and hinted foul play. Other medical experts dispute his finding.

FRIENDS:

As your County Judge and Ex-Officio County School Superintendent, I have endeavored to serve you in a fair, impartial and economical manner, maintaining a progressive vision yet at the same time retaining a close watch on the finances of the county. It would be useless for me to elaborate upon my qualifications to hold such offices or to endeavor to enumerate the achievements attained during my tenure in office because, you, the people of the county, having had the opportunity to make your own observations, know whether or not it would be wise to retain me in such capacity.

I am grateful for the support which I have received in the past, but far more than your past support I appreciate the co-operation which I have received from the people of the entire county and if I have achieved any measure of success in office, such has been accomplished only as a direct and proximate result of such wholehearted co-operation.

I shall appreciate your vote and assure you that if I am re-elected I shall continue to exert my very best efforts towards discharging the duties of such offices in a fair, impartial and economical manner.

Leslie Thomas.

Since 1913 1,553,444 FORD CARS and TRUCKS have been BUILT IN TEXAS BY TEXANS!

Only Phillips offers this "First" in Motor Oils!

The toughest standard ever set up for automobile motor oil is the MIL-0-2104 Supplement 1 test. New TROP-ARTIC is the first all-weather motor oil to meet the requirements of this test. It is an oil which will serve you winter and summer . . . an oil so good it can double the life of an automobile engine!

Compared to ordinary motor oils, new TROP-ARTIC reduces wear 40% or more. It cuts oil consumption 15% to 45%. It keeps pistons and rings cleaner. It saves you money by increasing gasoline mileage.

TROP-ARTIC is a superior all-weather oil . . . S.A.E. 10W-30. Therefore it flows instantly for easy starting at sub-zero temperatures, and yet it retains the film strength necessary to prevent engine wear under high temperature driving conditions. Any car, in any climate, at any time of the year will perform better with Phillips 66 TROP-ARTIC.

Phillips 66 FLITE-FUEL is the new gasoline . . . the only gasoline . . . with the added super-aviation fuel component Di-isopropyl.

FLITE-FUEL brings you more power, higher anti-knock, longer mileage, plus controlled volatility, and the clean-burning qualities for which Phillips 66 Gasoline is famous. FLITE-FUEL and TROP-ARTIC are perfect companion products. They go together for better engine performance.

Soil Conservation District Urges Farm Families to Be Careful

O. T. Holmes, chairman of the Board of Supervisors of the Lower Pease River Soil Conservation District, requested this week that all farm families in the District participate in the 11th National Farm Safety Week, July 25-31.

Holmes reports that more accidents occur to farm families than any other occupation in the United States. He says this information comes from the National Safety Council of the USDA.

Recently in this District, a tractor overturned and pinned a farmer under it for 14 hours before he was found. Another farmer lost about six weeks work when a wheel ran off of his pickup and the vehicle overturned. Accidents like this can be reduced if farm people decide to be careful.

Nickel in Electronics

Stimulated partly by defense requirements, but also by growth in peace-time needs, there has been an increasing interest in nickel and nickel-containing alloys by the electrical and electronics industries. Currently important uses include cathode ray tubes, permanent magnets, non-magnetic materials, alloys with special expansion properties, springs in telephone apparatus and many other specialized applications.

News from the Congress

by Congressman Frank Ikard

This week the House passed the following resolution: "Resolved, that the House of Representatives reiterates its opposition to the seating of the Communist regime in China as the representative of China in the United Nations or any of its specialized agencies and supports the President in his expressed determination to use all means to prevent such representation." It is hoped that the effect of this resolution will make it clear that the House does not favor any procedure which would let Red China force its way into the United Nations by aggression. If the United Nations is to remain effective at all, it certainly cannot be subjected to the pressure of outlaw nations that would force themselves into membership by aggression and war.

Five Area Farmers Become Cooperators with S.C. District

Five farmers operating 2147 acres became district cooperators at a recent meeting of the board of supervisors of the Lower Pease River Soil Conservation District. They are: W. H. Grammer, O. C. Cannedy, A. W. Tabor, John J. Nichols, and Watkins & Evans. Each of the above new district cooperators will start a soil conservation program on their land that will include such practices as terracing, contour farming, cover crops, stubble mulching, pond construction, seeding grass, and proper use of range grasses.

EXPRESS THANKS

The Thalia and Riverside Home Demonstration Clubs want to take this means of expressing their thanks and appreciation to Geo. Self, Leslie Thomas, auctioneer, all other candidates and to each and everyone who helped to make the sale a success at Thalia Saturday night, July 17. (pd. adv.)

CARD OF THANKS

I want to express my deep appreciation for the kind treatment of the doctor and nurses during the time I have been in the Foard County Hospital. I am also thankful for the flowers and cards and kindnesses extended by friends and neighbors.

Stainless Steels in Defense

The defense programs of the United States, the United Kingdom and Canada accounted for an appreciable proportion of the 1953 production of chromium-nickel stainless steels. The military and atomic energy programs continued to absorb large amounts of these steels for applications in which their ability to resist heat and corrosion, coupled with high strength properties, was of major importance.

Ductile Iron Progress

Steady progress continued to be made during 1953 in Ductile Iron, a cast material of great usefulness, invented and developed by members of International Nickel's research staff. Licensees under the company's patent rights at the end of the year numbered over 250 in more than 20 countries. Castings now in commercial production are representative of a wide range of engineering components. The principal applications which account for large tonnages of Ductile Iron include paper mill and metal working rolls, gears, crankshafts, parts of textile machinery, agricultural equipment, machine tools, spun pipe and pistons, hydraulic rams and cylinders, dies, tire molds, gear box cases, hand tools, and heat-resisting items, are among newer uses which show promise.

Engineering Alloy Steels

Consumption of nickel in engineering alloy steels in the United States during 1953 was slightly higher than in 1952. As the year progressed it was possible for steel producers to make some progress toward restoring the regular nickel content of their product. With the easing of government end-use restrictions, emergency steels were replaced by the higher nickel content standard steel alloys for some heavy duty uses.

Foolproof Material

Because it is practically free from corrosion by both distilled and fresh water, Inconel, a high nickel alloy, is employed for water handling equipment where the most foolproof material is desired.

Clay Wayland of Phoenix, Ariz., arrived here yesterday for a visit with his sister, Mrs. Pearl Rodgers, and family.

TO THE VOTERS OF PRECINCT 3

I think I have contacted all of the voters of Commissioner's Precinct No. Three; however, should I have missed you, please consider this my sincere request for your vote and influence.

If elected, I will extend my every effort to make you a good Commissioner.

THANK YOU.

YOUR SENATOR REPORTS
by **Lyndon B. Johnson**
U. S. SENATOR

Recent events are driving home
— hard — the vital need for a
United America.

The latest development is the
rapid swing through Asia of Chi-
nese communist leader Chou En
Lai. In the course of that trip,
he visited practically every im-
portant Asiatic official.

Our officials can only speculate
as to the results of his discus-
sions. But certainly, they are not
a good omen for the free world!

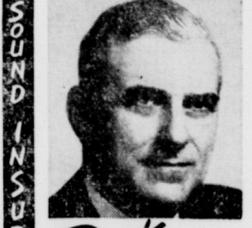

It is obvious that the commu-
nists are seeking to bring all of
Asia under their rule. The im-
portance of that objective cannot
be overestimated.

Exclusive of Siberia, nearly 1-
300,000,000 people live on the
continent of Asia. It is a treasure-
house of natural resources. It is
fertile and productive — capable
of enormous production in food
and fiber.

Mobilized under world commu-
nism, Asia's people, resources and
productivity would be formidable.

Against a threat of that mag-
nitude, Americans cannot afford
the luxury of partisan obstruction
and endless dissension. A divided
America will be a weakened Amer-
ica and in the modern world only
the strong will survive.

There are two paths to unity.
One is unity through fear; the
other is unity through faith and

Back BEN RAMSEY For LIEUTENANT GOVERNOR

BEN RAMSEY as a man who
has fought the battle of water and
soil conservation, knows it is the
state's foremost challenge. A
statewide coordinated program,
integrating flood control, soil con-
servation, power and recreation,
Ramsey says, is necessary to the
state's welfare and economy.

Drought Relief: I have been
working with State Agriculture
Commissioner John C. White and
other State officials to place be-
fore the Department of Agricul-
ture the facts about drought con-
ditions in a group of Central Tex-
as counties.

As I pointed out in an address
in the Senate, range conditions
in these counties are extremely
serious. There is practically no
grass left. Cattlemen already

confidence.
The communists have taken the
road of fear. They have achieved
unity through suppressing dissen-
sion. They have gained solidarity
by brutally crushing any opposi-
tion.

Nowhere — at any time —
have the communists ever won
a free election, not even in Rus-
sia. In every instance, they have
come to power when the people
were confused and divided and
unable to resist.

America must take the other
path—the road of faith and con-
fidence. We have usually found
our unity by talking out our dif-
ferences—by arriving at common
understandings.

That kind of unity is still the
most potent force in the world!

We may soon be faced with
the necessity of re-examining our
entire foreign policy. None of the
alternatives are pleasant. But we
will find our salvation if we face
the problems as Americans and
not as partisans.

Re-examination will serve no
purpose if the sole objective is to
prove that some policies of the
past were right—or some policies
were wrong. No truly American
interest is guarded by that atti-
tude.

But a searching re-examination
—with the objective of preserving
America for ourselves and our
children — will lead us out of
the darkness. It will achieve our
goals.

We have recently had a dem-
onstration of the power wielded
by a United America.

There was some discussion of
admitting Red China to the United
Nations.

Americans — with one voice
and regardless of party — roared
their indignation. They made it
clear—crystal clear—that they
would not tolerate the admission
into the United Nations of a coun-
try whose leaders had been brand-
ed "aggressor" by the United
Nations itself.

Those who were leading the
movement to bring Red China
into the United Nations have now
backed away from the idea. Both
the free world and the United
Nations itself are stronger as a
result!

The American people —through
unity — achieved a goal worth
striving for. That unity can be
and should be extended to all
the basic problems of saving our
cherished freedoms.

There are some who substitute
slander and vituperation for hon-
est discussion of issues. There
are some who are always intol-
erant in their statements and in
their judgments. There are some
who abandon the paths of rea-
son to go on wild emotional
excursions. There has never been
a time when we should pay less
attention to such people and more
time to logical thinking.

There will always be issues
that divide us. But those issues
do not include the safety and the
security of our country. Through
mutual trust and confidence,
Americans will unite and provide
the leadership that will turn back
the forces of communism.

If we are determined, this na-
tion, under God, will survive!

had to begin supplemental
feeding of livestock. The harvest
of oats and other small grains
was very small. The corn crop is
virtually a total loss. Water sup-
plies are dangerously low at sev-
eral points.

Cattlemen in these counties ur-
gently need protein supplements
and roughage or hay to sustain
their breeding herds. If these cat-
tle breeders are forced to sell
their foundation stock, it will
represent economic waste of the
most flagrant kind.

The cutoff day for the national
drought relief protein feed pro-
gram was July 15. We are con-
tinuing our efforts to get special
assistance for the drought-strick-
en counties.

REA in Texas: Rural Electrifi-
cation Administration loans to
electric and telephone borrowers
during the 1954 fiscal year, which
ended June 30, totaled \$241,800,-
000.

Texas led all other states in
both the number of loans and
total amount of loans. Thirty-one
loans totaling \$13,818,000 were
made to Texas electric co-ops dur-
ing the year. Nine telephone loans
totaling \$3,646,000 also were
made.

I have always supported the
REA program. Its continued prog-
ress is a source of great gratifi-
cation to me.

YOUR SENATOR REPORTS

Recent events are driving home
— hard — the vital need for a
— United America.

The latest development is the
— rapid swing through Asia of Chi-
— nese communist leader Chou En
— Lai. In the course of that trip,
— he visited practically every im-
— portant Asiatic official.

Our officials can only speculate
— as to the results of his discus-
— sions. But certainly, they are not
— a good omen for the free world!

It is obvious that the commu-
— nists are seeking to bring all of
— Asia under their rule. The im-
— portance of that objective cannot
— be overestimated.

Exclusive of Siberia, nearly 1-
— 300,000,000 people live on the
— continent of Asia. It is a treasure-
— house of natural resources. It is
— fertile and productive — capable
— of enormous production in food
— and fiber.

Mobilized under world commu-
— nism, Asia's people, resources and
— productivity would be formidable.

Against a threat of that mag-
— nitude, Americans cannot afford
— the luxury of partisan obstruction
— and endless dissension. A divided
— America will be a weakened Amer-
— ica and in the modern world only
— the strong will survive.

There are two paths to unity.
— One is unity through fear; the
— other is unity through faith and

Back BEN RAMSEY For LIEUTENANT GOVERNOR

BEN RAMSEY as a man who
— has fought the battle of water and
— soil conservation, knows it is the
— state's foremost challenge. A
— statewide coordinated program,
— integrating flood control, soil
— conservation, power and recreation,
— Ramsey says, is necessary to the
— state's welfare and economy.

Drought Relief: I have been
— working with State Agriculture
— Commissioner John C. White and
— other State officials to place be-
— fore the Department of Agricul-
— ture the facts about drought con-
— ditions in a group of Central Tex-
— as counties.

As I pointed out in an address
— in the Senate, range conditions
— in these counties are extremely
— serious. There is practically no
— grass left. Cattlemen already

confidence. The communists have taken the
— road of fear. They have achieved
— unity through suppressing dissen-
— sion. They have gained solidarity
— by brutally crushing any opposi-
— tion.

Nowhere — at any time —
— have the communists ever won
— a free election, not even in Rus-
— sia. In every instance, they have
— come to power when the people
— were confused and divided and
— unable to resist.

America must take the other
— path—the road of faith and con-
— fidence. We have usually found
— our unity by talking out our dif-
— ferences—by arriving at common
— understandings.

That kind of unity is still the
— most potent force in the world!
— We may soon be faced with
— the necessity of re-examining our
— entire foreign policy. None of the
— alternatives are pleasant. But we
— will find our salvation if we face
— the problems as Americans and
— not as partisans.

Re-examination will serve no
— purpose if the sole objective is to
— prove that some policies of the
— past were right—or some policies
— were wrong. No truly American
— interest is guarded by that atti-
— tude.

But a searching re-examination
— with the objective of preserving
— America for ourselves and our
— children — will lead us out of
— the darkness. It will achieve our
— goals.

We have recently had a dem-
— onstration of the power wielded
— by a United America.

There was some discussion of
— admitting Red China to the United
— Nations.

Americans — with one voice
— and regardless of party — roared
— their indignation. They made it
— clear—crystal clear—that they
— would not tolerate the admission
— into the United Nations of a coun-
— try whose leaders had been brand-
— ed "aggressor" by the United
— Nations itself.

Those who were leading the
— movement to bring Red China
— into the United Nations have now
— backed away from the idea. Both
— the free world and the United
— Nations itself are stronger as a
— result!

The American people —through
— unity — achieved a goal worth
— striving for. That unity can be
— and should be—extended to all
— the basic problems of saving our
— cherished freedoms.

There are some who substitute
— slander and vituperation for hon-
— est discussion of issues. There
— are some who are always intol-
— erant in their statements and
— in their judgments. There are
— some who abandon the paths of
— reason to go on wild emotional
— excursions. There has never been
— a time when we should pay less
— attention to such people and more
— time to logical thinking.

There will always be issues
— that divide us. But those issues
— do not include the safety and the
— security of our country. Through
— mutual trust and confidence,
— Americans will unite and provide
— the leadership that will turn back
— the forces of communism.

If we are determined, this na-
— tion, under God, will survive!

— ter, Annie Marie, who had spent
— two weeks with her grandparents,

have had to begin supplemental
— feeding of livestock. The harvest
— of oats and other small grains
— was very small. The corn crop is
— virtually a total loss. Water sup-
— plies are dangerously low at sev-
— eral points.

Cattlemen in these counties ur-
— gently need protein supplements
— and roughage or hay to sustain
— their breeding herds. If these cat-
— tle breeders are forced to sell
— their foundation stock, it will
— represent economic waste of the
— most flagrant kind.

The cutoff day for the national
— drought relief protein feed pro-
— gram was July 15. We are con-
— tinuing our efforts to get special
— assistance for the drought-strick-
— en counties.

Miss Pat Davis and Duane Cates Married July 10 in Hollis

The First Methodist Church in Hollis, Okla., on July 10 was the scene of the marriage of Miss Pat Davis, daughter of Mr. and Mrs. George Davis, and Duane Cates, son of Mrs. Monroe Cates and the late Mr. Cates. Rev. Bro. H. Eldins, Methodist minister, officiated in the ceremony. The bride was attired in a blue silk chanting afternoon dress with black accessories. Mrs. Cates attended Crowell Public Schools and Mr. Cates graduated from Crowell High School in 1953. The couple plans to make their home in Crowell.

HONORED ON 4TH BIRTHDAY

Larry Thomas Hughston was honored with a birthday party on Saturday morning, July 17, given by his parents, Mr. and Mrs. J. T. Hughston. Those who attended to help Larry celebrate his fourth birthday included Robert Lee and Jo Ella Myers, Lindet Weber, Lela Jo and Frances Cates, Hank Sauls, Cindy Erwin, Jon Ann Carter, Debra Rasberry, Tommy Rasor, Stephen Bell, Janie Hughston, of Crowell and Karen Fleisher and Cy and Johnny Long of Vernon. After several games were played, the honoree and his guests were served ice cream, punch and birthday cake.

B. & P. W. CLUB

The B. & P. W. Club met Thursday evening, July 15, at the home of Mrs. Eva Sloan. The meeting was a lawn party with ten members and three guests present. Guests were Claudia Carter, Dorothy Gettings and Inez Sloan. Hostesses Eva Sloan, Gusta Davis and Fern McKown, served a delicious picnic supper. A short business session was called by President Audrey Collins. Several games were played and enjoyed by the group.

TRUSCOTT H. D. CLUB

The Truscott Home Demonstration Club was represented by a delegation of five members at the annual home demonstration encampment held in Leuders, July 16 and 17. This encampment, which is sponsored yearly by the home demonstration clubs of Jones, Knox, Fisher and Haskell Counties, registered an enrollment of 100 H. D. members for the 2-day affair. Included on the agenda for the event were various activities including skits, parties, demonstrations, contests and other interesting items on the camp program. The Truscott group, composed of Mesdames Jack Brown, Oscar Solomon, Jack Hickman and Misses Mary K. Chowning and Naoma Brown, presented colorful demonstrations of pillow cases and dresser scarfs with tuba points. A spokesman for the club stated that the aluminum for the trays has arrived and those who ordered can obtain it now. Mrs. Jess Boykin of Ralls will be hostess for the next meeting of the Truscott club on August 12.

FOARD CITY W. S. C. S.

Despite the heat, the Foard City W. S. C. S. met at the church on Monday, July 19, with Mrs. W. L. Johnson presiding and with Mrs. J. M. Barker opening the service with a prayer. Mrs. Grady Halbert led a panel discussion as a means of giving a devotional on the need of meditation, of silence, in our daily lives. "You'll be led down the quiet ways of wisdom and peace in this mad world of chaos if you'll stand very still and wait for the voice from within," stated Mrs. Halbert. Service in the community was discussed by Mrs. Blake McDaniel. "The Christian home is the cornerstone of a Christian community," said Mrs. McDaniel. "Sad to say, neighborliness has suffered from the hurry and bustle of today. We talk about Christian fellowship but do about as much about it as we do about the weather." She urged the need for making the church community conscious as well as making the community church conscious. Mrs. Johnson led the group in repeating the Lord's Prayer in dismissal. Following the W.S.C.S. meeting a prayer service was held.

MRS. MARY D. BROWN

The picnic last Friday night was a big success, and I think everyone who attended enjoyed it.

This week the 4-H girls held their Home Demonstration Club women will have theirs. I hope you will go to this camp with us, because we always have a wonderful time and it does us all good to get away occasionally.

Remember, your picnic orders must be in by Friday.

Our recipe this week is for—

Uncooked Vegetable Relish
2 quarts (about 12 to 14 medium-sized) chopped, peeled tomatoes, 1 cup chopped celery, 3/4 cup chopped onion, 1/2 cup chopped green pepper, 2 teaspoons salt, 3 teaspoons sugar, 1 tablespoon mustard seed, 1/4 teaspoon ground nutmeg, 1/4 teaspoon ground cinnamon, 1/8 teaspoon ground cloves, 1 cup vinegar.
Method: Combine all ingredients and stir until well blended. Pour into jars and cover. This relish will keep in refrigerator 2 or 3 weeks. Yield—about 3 pints.

Texas Starts Campaign to Control Highway Speeds during Summer

Texas is one of thirteen Southern states which have joined with eleven Northeastern states in a concerted effort to control highway speeds during the peak period of summer travel.

Patterned on a similar program which was conducted in 1953 by the Northeastern states group, a "Slow Down and Live!" campaign will be conducted in 24 states from Maine to Texas this year from Memorial Day through Labor Day.

The Texas Safety Association, working jointly with the Texas Department of Public Safety, will act as coordinators in making the summer watchwords of the highways from Passamaquoddy to El Paso—"Slow Down and Live!"

The agreement of the 24 states to conduct the program has been announced by a joint declaration of the governors of the states participating.

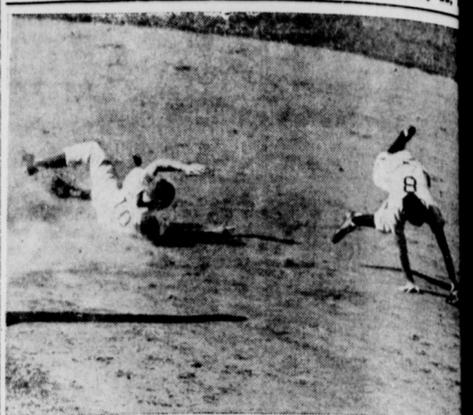

J. O. Musick, General Manager of the Texas Safety Association, has been named State Safety Coordinator for the project.

In explaining the reason for the campaign, Mr. Musick said: "Traffic accidents are more than an important social and economic problem—they are a national tragedy! The experience of states, counties and municipalities tells us that 9 out of 10 accidents result from the action of drivers afflicted with the 'in a hurry' complex—the 'me first' attitude. On the highways this viewpoint is expressed in the traffic violations involving speed, including: speed too fast for conditions, following too closely, failing to yield right of way, improper passing and plain, excessive speed."

Mr. Musick also pointed out that this program differs from other traffic safety campaigns in that it concentrates in a single area of traffic law enforcement—the violations associated with speed—during the peak period of summer traffic. "The campaign," he said, "is entirely under the direction of public officials, assisted by organized public support. It sets no unified policy as to methods of enforcement and has no 'axe to grind' regarding a particular speed limit. Each state, county and community steps up enforcement of its own statute or ordinance."

Balsa wood is about half as heavy as cork.

George Washington left this country only once, for a trip to the West Indies.

HEY, BUB, THIS IS BASEBALL, NOT TUMBLING—Bob Talbot, Cubs' outfielder, steals second base during game at Chicago as Gar Allie, Pittsburgh Pirates' shortstop, miffed but vain effort to throw from catcher. Des Allie's gymnastics, Talbot safe, and Cubs won game.

The principal application for palladium, of the precious platinum group metals, is for contacts in electrical apparatus. Important additional quantities are used for chemical purposes and in jewelry and dentistry.

The real name of George Sand, the writer, was Mme. Dudevant.

PLASTIC TANK WINGS

The Army has announced its 48-ton tanks can now pass water wings to cross deep streams and lakes and keep on going at the same time. The development of floatation equipment of the form of big floats made of a solid, foam-type plastic, being tested and found to be reliable.

TO THE PEOPLE OF FOARD COUNTY

Just a reminder to let you know that I shall appreciate your vote for Sheriff, Tax Assessor-Collector of Foard County, and to let you know that I am grateful for the many courtesies extended to me during this campaign.

As I have told most all of you, I do not have any promises to make other than that I shall do my very best to enforce the law in our county to the best of my ability in a fair and impartial way, to any one, and to assess and collect taxes on the same basis. I have not made any commitments to anyone other than the above.
