Crowell Wildcats and Archer City Wildcats to Play Here Friday Night

The Crowell Wildcats and Archer City Wildcats will play a 1A-9 conference game here tomorrow (Friday) night that should be very interesting. Neither team has anything but a mathematical chance at the district crown as they have only one conference victory each, but you can count on a contest that will be as spirited as the leaders would stage. Archer City defeated Holliday 27 to 6 last week, a team that Crowell beat 34 to 0 the week before. Crowell was a four-touchdown favorite last year when these teams met, but the Archer County boys took the game 7 to 6. They did the same thing here

four years ago. In fact, there has not been over two touchdowns difference in the score between these clubs in the past ten years. Both squads have the majority of the positions filled with freshmen and sophomores.

Coaches Thayne Amonett and Gordon Erwin plan on starting the same line-up that came so near upsetting the conference-leading Chillicothe Eagles last Friday night. Probable starting line-ups for the Archer City-Crowell football game that is to be played at Wildcat stadium tomorrow (Friday) night, at 8 o'clock, can be found on page 4.

HENRY FERGESON

Henry E. Ferguson to Celebrate 85th Birthday Nov. 6th

Mrs. Karl ten Brink of Electra will hold an informal birthday celebration at her home in Crowell on Sunday afternoon, Nov. 6, from 3 to 5 o'clock at which time her father, Henry E. Ferguson, and her daughter, Helen ten Brink, will be the honorees. Mr. Ferguson will be celebrating his 85th birthday. He came to Foard County, then a part of Hardeman County, in 1886, from Collin County with his widowed mother and other members of the family and has lived here ever since. He was a member of the firm of Ferguson Bros., retail druggists, for 43 years—1910 to 1944.

The Ferguson family came to Collin County, Texas, in 1881 from Cornersville, Tenn. Mr. Ferguson's mother had 14 children, 13 living to maturity. She was left a widow in 1876.

Mr. Ferguson has two brothers, T. J. Ferguson, 89, of Seymour, and C. R. Ferguson, 87, of Crowell.

Cemetery Rummage Sale to Continue

Considerable effort was put forth by a few women last Saturday to put over the rummage sale for the Crowell Cemetery Association, but not being satisfied with results, the ladies are going to open the doors of Mrs. Self's building again next Saturday. Mrs. N. J. Roberts, president of the Cemetery Association, announced Tuesday. She stated further: "We are not only asking for more clothes, particularly men's shoes and children's clothes, but we will have a bakery sale as well. The proceeds go toward improvements at the cemetery and we are expecting hearty cooperation from all our women. "If you don't want to bake a cake or pie, please send us the price of one—candy and cookies will sell. "Let's don't let a few women carry this responsibility."

Crowell Wildcats Defeated 26 to 19 by Veon Scott & Co. in Thrill-Packed Game at Chillicothe Last Friday Night

The Crowell High School football team lost another conference game last Friday night at Chillicothe by the score of 26 to 19, but the Wildcats certainly won a moral victory in the process. They were supposed to have lost this one to the undefeated Eagles by at least three touchdowns. Actually, they had the edge in statistics and a five-point lead at halftime. In fact, the score was 19 to 20 four minutes before the game was over.

and accounted for 219 yards of Chillicothe's 258.

Crowell jumped out into a 12-point lead early in the game when touchdowns were registered by halfback Jimmy Thaxton and fullback Ray Gibson. Crowell's line made up of Dwayne Boren and Louis Rettig, ends; Lindell McBeath and Jerry Pittillo, tackles; C. T. McDaniel and Ray Thomson, guards, and Harvey Smith, center, did some excellent blocking to carry the ball 71 yards on the first touchdown drive. Boren recovered a Chillicothe fumble on the Eagle 36-yard line to set the second score up.

A 15-yard roughing penalty helped to set Chilli's first score up in the second quarter. Scott, the "Scooter," ran the final 23 yards to pay dirt. He also kicked the extra point. Gibson came right back to score from 21 yards out, a play that carried right down the middle. Scott got off the longest run of the game just before the half for a 70-yard scamper and another Chillicothe touchdown. He was partially knocked off of his feet at the line of scrimmage, but recovered before another Crowell player could come in for the tackle. He ran the extra point over to make the halftime score 19 to 14 for Crowell.

Chillicothe Drives Broken Up
C. T. McDaniel's interception of an Eagle pass and Don Lee Daniel's recovery of a fumble broke up Chillicothe drives in the third quarter. However, a 16-yard run by Scott made the score 20 to 19 for the Eagles at the end of the third period.

Coach Thayne Amonett sent Larry Sledge in at quarterback for the Wildcats to try some passes late in the game. One of his heaves was intercepted by a Chillicothe back, Larry Lance, and returned 40 yards for another Eagle score. Sledge went to hitting his receivers with his passes in such a manner that should have tied the score up. He had two dropped across the goal line by would-be Wildcat receivers. The final score was 26 to 19.

Crowell defensive players who saw service and have not been mentioned were James Doyal, David Carpenter, Billy Everson, Edward Howard and Gerald Bradford. David Speer, fullback for the Eagles, gave Veon Scott quite a bit of relief on ball carrying duties for Chillicothe.

Crowell plays at home again this week against the Archer City Wildcats. This battle of "Wildcats" always proves to be very interesting. Archer City pulled an upset last year to take the Crowell boys by one point.

How about that! If those big polished apples fail to bring the proper results, Clifton, Sledge, Doyal and Grady McDaniel can say that they certainly made a try. For future reference, see Mrs. Davis or Mrs. Manard.

ice Evans, who is the most ardent interpreter of Shakespeare roles in the history of Broadway, has made a fortune producing and playing Hamlet, Macbeth, Twelfth Night and Richard II. He has grossed close to \$5,000,000 with Elizabethan plays and his own cut was \$1,500,000.

The Hallmark Greeting Card Co. risked producing a two hour production of Hamlet on TV after Evans had refused \$5,000 to do a five minute balcony scene from Romeo and Juliet for \$10,000. The response was incredible and the ratings indicated that from 8 to 12 million viewers had watched the show.

ARE YOU A FAN?

Bill Tucker, minister of the First Christian Church of Crowell, delivered a very interesting and informative address to the student body Oct. 21 at 10 o'clock. Mr. Tucker used as his text, "Make me a fan" and illustrated his point by comparing a Christian with a football fan.

The students were sorry to be informed that Mr. Tucker is soon to leave Crowell and move to Delaware. His influence has been much appreciated while he has resided here, and he will be missed by all.

OUCH!

October seems to be the month of birthdays around CHS. Many people, students as well as faculty members, may have received many traditional spankings. These birthday students are the following: Anna Marie Faske, Pat Cates, Lindell McBeath, Joe Pruitt, Zonell Eddy, Karen Hall, Gerald Denton, Peggy Long, Glenn Taylor, Joe Wheeler, De Ann Christian, Gay Johnston, Virginia Williamson, Marketta Painter and James Welch. Please give them your sympathy and consideration, for it will be your birthday soon and you may receive a few spankings too.

ENGLISH III CLASS VISITS RIALTO

Monday, Mrs. Sloan's third period English III class visited the Rialto Theater. This interesting experiment was brought about by the study of a theater vocabulary. After this study, Jimmy Rodgers, a member of the class, who is the assistant manager of the theater, invited the class to visit the theater.

Jimmy showed the class how the projectors work, the amplifier, how the reflectors use sticks of carbon that are ordered in 500 lots, told how they work and explained the lens.

The new Cinemascope lens cost \$400 each and the back-up lens \$100 each. Two of each of these lenses are used at one time. The equipment includes a tape recorder (used for playing music before the show starts), two rewinders, one of which is automatic.

Jimmy has been working for the local theater since he was 12. His first job was changing the names of the shows on the marquee, his second was popping pop-

LIFEGUARD DESIGN—A mother makes sure that her son is securely seated in a 1956 Ford Sunliner. The new Fords, which will be shown to the public Friday (September 23) incorporate five safety features in a "lifeguard design" intended to reduce chances of accidental injury. On all new Fords, safety-designed steering wheels, door latches and rear view mirrors are standard equipment. Wheels are designed to absorb force if the driver is thrown forward, reducing the chance his chest might strike the steering column hub. Safety door latches (lower left) will resist crash impact, and help keep passengers inside the car where they are twice as safe, according to testing figures. Mirrors have a special backing to help prevent shattering. Optional seat belts will withstand up to 4,000 pounds of force. Optional crash cushions for instrument panels and sun visors will provide added protection if a passenger is thrown forward.

CHS BAND PLAYS AT CHILICOTHE HOMEcoming

One of the features of the opening of the Chillicothe homecoming Friday at Chillicothe was the CHS Wildcat Band. The 45-piece unit has been working at top speed and has given good performances to make their class new uniforms even more impressive.

The band is led by Nelda Kay Brooks, junior. Majorettes are Barbara Fairchild, Bettie Linda Knox and Jerry Fairchild. A reception for the band was held at the Lions Club hall sponsored by the Chillicothe cheer leaders and pep squad.

EAGLES TURN BACK WILDCATS

The Crowell Wildcats beat Chillicothe in every respect from the statistic standpoint except the final score, which was 26 to 19 in favor of the Eagles.

The Wildcats wasted no time in scoring as they took the kickoff and marched 71 yards for the first score made by Jimmy Thaxton. Ray Gibson's running attempt for the conversion failed.

The Eagles fought back, but Dwayne Boren recovered Veon Scott's fumble on the Crowell 36 to stop the Eagle drive. Early in the second quarter, Floyd Bice recovered an Eagle fumble. Ray Gibson then plunged over the line for the Wildcats' second score. The try for extra point failed again.

The Eagles struck back for a score to make the count 12 to 7. Crowell continued the scoring duel on 31-yard scamper to paydirt by Ray Gibson. Gibson converted to make the half-time score 19-14.

It was all Chillicothe and Veon Scott the second half as the Eagles ground out two more TDs in each final period. Chillicothe's last tally came as a result of an intercepted pass. A pass that would have won the game for Crowell was dropped in the end zone. The rugged Eagle defense limited the Wildcats to only two first downs the entire second half. The final score of the hard fought game was 26 to 19 in favor of Chillicothe.

Crowell made 15 first downs to the Eagles' 13; 268 yards in the air on two completions out of six attempts and Chillicothe made 22 yards in the air on the same number of attempts and completions. Outstanding for Crowell were Gibson and Thaxton on offense, and C. T. McDaniel, Dwayne Boren, David Carpenter and Floyd Bice on defense. The Wildcats play host to Archer City's Wildcats here tomorrow night.

KNOTHOLE NEWS
The knothole sees all, hears all, and this week tells us. Seen after the Friday night ball game were Carolyn - Mike, Sandra - Jackie, Billy John-Mary Ann, and Nelda-Chun. Looks like Roma Jan had a visitor last week end. Coy was home. Freddie, what did you do last Saturday night. Looks as if things are getting sweeter every day between C. T. and Patricia. Could it possibly be Carolyn who is keeping Mike home, rather than his sore knee. It looks as though Francyne still has an interest in Quanah. Hoot thinks Mrs. Sloan's class is pretty easy after all. Sherman must be deaf if he can't hear all the gnawing during the noon hour. Could anybody tell whether it was Larry or Jana who was driving Larry's car Saturday night? State Capitol NEWS

by VERN SANFORD
Texas Press Association

Austin, Tex. — Speculation is running high that both Gov. Allan Shivers and U. S. Sen. Lyndon B. Johnson will have leading roles in the selection of the next Democratic presidential nominee.

Both have denied participation in any movement for a Southern coalition to block re-nomination of Adlai Stevenson.

Johnson denies that he is heading up a coalition. Nomination is up to the delegates, he said, and he will support whoever wins out. And, he is not a "conservative," the senator stressed, but a "moderate."

Johnson, before his heart attack last summer, was considered a likely future contender for presidential nomination. Some believe, should he regain his health sufficiently, he again will enter the picture.

Gov. Shivers, at the conclusion of the Southern Governors' Conference, took a slightly different approach. He said he will vote for the presidential candidate "I think is best for the future of my country, and I hope the Democrats can produce that man." He also said he knew nothing of a drive for Southern control.

DAK vs. DSE

Texas has two Democratic organizations, highly competitive, under way. Selection of Lt. Gov. Ben Ramsey as a harmony unity choice for Democratic State Committeeman so far has not reduced the competition.

Leaders of the Texas Democratic Advisory Council, set up by Speaker Sam Rayburn, say they plan to carry on organizational and money-raising efforts. This liberal group, organized to "carry on the functions of national committeeman" during the years Wright Morrow was barred from the seat, has raised money the past four years for the national party. It now is busy organizing for control of presidential conventions next year.

On the other side of the picture is the Democratic State Executive Committee, conservative pro-Shivers organization. DSE also is carrying on organizational and money-raising efforts and has no intention of stopping, according to State Chairman George W. Sandlin.

Nov. 4 to select a leader to replace Navarro County Judge Jim Sewell.

Outside observers have suggested a connection between the resignation of Sewell from the liberal group and the ousting by conservatives of Wright Morrow. It is part of an over-all effort, they hint, to rid both groups of extreme left and right-wingers and merge Democratic party factions for a strong voice in national affairs.

Third Shot Necessary

Officials of the State Health Department have declared that 3 Salk polio shots are necessary for maximum protection against crippling effects of polio.

Children who have had two shots should have the third "booster shot" early in the spring of 1956, the Department urged.

In answer to a series of questions, the Health Department explained that it is not known at present exactly how long protection from three Salk shots will last. Experts now estimate protection at about two and one-half years. Perhaps after that time, booster shots again will be advised.

Persons who already have recovered from polio also should have the shots, the Department said. There are three types of polio. Having a case of one type will not set up immunity against the other two. The Salk vaccine is aimed at giving immunity to all three types.

Only nine Texas children have been stricken with paralytic polio despite Salk inoculations, Dr. Henry A. Holle, state health commissioner, announced. The nine cases were among 473,830 vaccinated children.

Anti-Crime Strategy Outlined

A multi-fold educational program to reduce crime in Texas was proposed at an Austin conference of three law enforcement groups.

Suggestions included (1) greater publicity on the cost of crime, (2) establishment of a four-year college course in criminology, and (3) education of youngsters by a touring "crimobile" equipped with latest detection devices.

Participants were the Texas Law Enforcement Foundation, the Attorney General's Citizens Committee on Law Enforcement and the State Law Enforcement Advisory Council.

Booby Prize Stolen

Last year Austin received the "booby prize" in the Safe Driving Day contest. Award was a dented fender which was displayed—but not proudly—on the city hall lawn.

Painted on the fender, in white, was "Awarded to Austin, Texas, for Last Place in the First Annual Safety Bowl."

Theft of the "prize" was discovered last week when preliminary work began on the upcoming S-D Day. Nobody knows who took it, or when. "We never were too

Hunting Accidents Among Youth Show Need for Training

Failure of adults to properly guide youngsters in gun training seems mainly responsible for a high hunting accident rate this fall, reported the Executive Secretary of the Game and Fish Commission.

Thirteen gun fatalities to date, he said, found only two adults responsible and they died of self-inflicted wounds while hunting. Another adult was killed by a stray bullet fired by a sixteen year old. A mother died instantly when her 11-year-old son lost control of an automatic 12 gauge shotgun as he fired at a squirrel.

The nine other fatalities, according to the Executive Secretary, involved boys in their lower teens hunting with other boys without supervision.

Four of the fatalities involved .22 rifles, a favorite weapon of youngsters.

Included in the other fatal accidents were a ten-year-old boy who was pulling a .22 rifle when it was discharged, killing a fourteen-year-old companion.

Some time-worn causes were connected with non-fatal accidents already reported. A sixteen-year-old boy picked up a loaded, cocked gun by the barrel and it was discharged striking him in the chest. A twenty-year-old lad was shot in the legs when a companion fell down crossing a ditch and discharged his shotgun.

"It's pretty rough," said the Executive Secretary, "and the 13 gun fatalities to date this hunting season compares with only seven deaths reported last year. But hunting is the oldest custom and certainly is here to stay."

"But it does seem that we are asking too much when we send mere unescorted youngsters out with their own crowd with assorted firearms and expect them to observe safety precautions which simply are beyond their own capacity."

He said the toll certainly calls for cooperation by parents and persons interested in permitting youngsters to fully enjoy the outdoors.

Hallowe'en Dangerous Time for Youngsters

"The witches ride on Hallowe'en, and far too often death rides with them!"

That warning was given this week by E. C. McFadden, president of the Texas Safety Association, Inc., as he warned parents of the dangers that beset children on the streets and highways at Hallowe'en.

Speaking in support of the night traffic hazards program, which is being sponsored throughout October by the Texas Safety Association, Department of Public Safety and the National Safety Council, Mr. McFadden said that each year many youngsters meet death or serious injury as they gaily

happy about getting that thing in the first place," said Captain Bob Miles of the Austin Police Department. "We didn't keep up with it very closely."

"But the best way of avoiding danger is to see that all trick and treating is done in the daytime," Mr. McFadden said. "At night see that the youngsters are entertained indoors."

He also warned drivers to be on the alert for young goblins roaming the streets both in the daytime and at night. After dark, he said, drivers should drive slowly and with the greatest care.

"Those ghosts that haunt our streets on Hallowe'en are very much alive," Mr. McFadden said. "Let's see that they stay alive!"

Texas Tech Shows All-Time High with Enrollment of 7,154

Texas Tech's fall enrollment is 7,154, a new all-time record high, an official Registrar's Office report reveals.

The previous all-time high was 6,257, set last fall.

Arts and Sciences is the largest of Tech's six academic Divisions, with 2,545 students. Next are Engineering, with 1,910; Business Administration, 1,505; Agriculture, 821; Graduate School, 384; and Home Economics, 373.

Women are outnumbered almost three to one by men in this year's student body but the girls are enrolled in all of the college's divisions except one.

Forty-nine are studying engineering, long considered primarily a man's field. Arts and sciences attracted the largest number of women, 1,392, and Business Administration, 394.

Only Agriculture is an all-male domain at Tech this fall.

Also bucking educational traditions are seven men enrolled in Home Economics, and for good reason. Food demonstration is becoming a promising field for men, particularly in television, and more and more men are entering interior decoration, food management and food buying, Home Economics officials said.

PLANE CRASHES INTO APARTMENT HOUSE — 3 DEAD

Mrs. Betty Jean Wolf, an 18-year-old bride, was one of three persons killed when a single-engine Bonanza airplane piloted by millionaire sportsman Joel Thorne, 40, crashed into the side of an apartment house in North Hollywood, Calif., killing three persons and injuring nine others.

Tech has the largest freshman class in its history, 2,657. Sophomores number 1,699; juniors, 1,350; and seniors, 1,064.

Business Men Advised to Beware of Debt Adjustment Agencies

Possible pitfalls in doing business with debt adjustment agencies by persons who think they are "hopelessly" in debt were outlined this week by Charles T. Lux, of Austin, executive vice president of the Retail Merchants Association of Texas.

Lux said such agencies, sometimes called pro-raters or budget plan houses, were numerous in the East and California, but had only recently penetrated into Texas, thus far only in the largest cities.

These firms, operated by persons who pose as "professional budgeting experts," offer to "rehabilitate" people who have found their earnings cannot meet payments for the debts they have incurred, Lux said.

They propose to do this by setting up payment schedules for each debt, budgeting earnings and arranging with creditors to carry the account until the debt is paid.

Soil Conservation District Will Enter National Contest

The Lower Pease River Soil Conservation District has entered the national Soil Conservation Awards program sponsored by the Good-year Tire & Rubber Co. of Akron, Ohio, it has been announced by District Chairman O. T. Holmes of Medicine Mound.

Members of the Lower Pease River district will compete against other soil conservation districts in the state. Non-partisan judging committees, selected from Texas' outstanding exponents of the soil conservation movement, will determine the state's outstanding district for the period May 1, 1955, to March 31, 1956, on a basis of total points scored in performance of regular district duties.

Grand award for one member of each winning district governing body and the top cooperating farmer or rancher named by the district will be a one-week, expense-free, vacation trip to Good-year's fabulous winter resort, the Wigwam Guest Ranch on Good-year Farms, Litchfield Park, Ariz., in December, 1956.

Members of the Lower Pease River district governing body who will compete for the Good-year award are: O. T. Holmes, H. L. Ayers, W. C. Howard, Grady Halbert and G. Y. Gillespie.

National winners of the Good-year Soil Conservation Awards will be honored at the seven regular meetings of the National Association of Soil Conservation districts. Plaques will be awarded at state conventions to the hundred first and second place winning districts.

1955 State Fair of Texas Breaks All Attendance Records

Breaking all records, the State Fair of Texas wound up with a total attendance of 2,611,271 for the 16 days and 17 nights of its 1955 exposition.

The fair broke its own national attendance record of 2,506,463 set at last year's fair, and also established a new world's record for single-day attendance at any annual fair. The big day was Saturday, Oct. 15, when the crowds totaled a fantastic 323,224.

A total of 82,337 fairgoers saw the State Fair Auditorium attraction, "The Pajama Game," and "Ice Capades" attracted over 100,000.

The junior livestock and poultry auctions for steers, lambs, pigs, turkeys and broilers resulted in total sales of \$173,027 for the hundreds of boys and girls who took part. The junior livestock shows were the largest in the fair's history.

Dates of the 1956 State Fair of Texas have been tentatively set for Oct. 6 through 21.

One important change will be made in the format of next year's fair, due to the way the calendar falls. The Texas-Oklahoma football game will be played on the second Saturday of the fair, rather than the first, and this schedule will hold for the next three years.

As a result, Rural Youth Day, which this year attracted over 100,000 boys and girls from all parts of the state, will probably be moved to the opening Saturday of the fair, rather than the middle Saturday.

The opening day football feature of the 1956 exposition will be a night game in the Cotton Bowl between Texas A&M and Texas Tech.

Keep Your Checking Account Above the "Safety Level"!

Yes, it's embarrassing—and it doesn't make a good impression—to be "caught short" and not have enough funds in your checking account to write the check you want to write.

Maintaining an ample balance at all times is good business practice. Then you are always prepared for any emergency which may arise or any opportunity to make a profit by having ready cash in your checking account.

It pays in many ways to keep your checking balance above what you consider the "safety level."

'Trick or Treat' to Aid Food Program for Foreign Countries

The young people of Texas are having fun turning Hallowe'en into a project whereby the hungry people of the world may be fed. Many communities are turning this time into one where children are taught sharing and understanding of people in other lands. The project is sponsored by the Christian Rural Overseas Program (CROP) in cooperation with various state groups, such as the Council of United Church Women, United Christian Youth Movement, local church councils, churches, and ministerial associations. The U. S. government has offered certain surplus commodities to the churches and CROP, at Hallowe'en, concentrates on powdered milk. Money, collected by Texas youth, will help distribute this body-building commodity. \$100 will distribute 20,000 pounds and \$50 will distribute 10,000 pounds. For every dollar collected, \$20 worth of powdered milk can be distributed to hungry boys and girls around the world. CROP distribution is made by church agencies to those most in need, regardless of race, creed or nationality. To aid in promoting this project, the children of the Crowell Methodist Church's Sunday School will, under the direction of their leaders, ask for donation for this purpose, instead of "tricks or treats" on Hallowe'en. The children and young people of any other denomination who care to cooperate in the plan are invited to do so. Mrs. R. G. Rasberry and Mrs. Lee Black are sponsors of the children's work in the Methodist Sunday School. Young people will conduct a house-to-house, adult supervised canvass and then return to their central meeting place for traditional Hallowe'en festivities. In addition, Texas will raise enough money to purchase a half carload of powdered whole milk. This is not available as a surplus commodity and will cost upwards of \$6,000. It will be sent to Korean hospitals for advanced cases of tuberculosis. Distribution of surplus milk will be carried on throughout the Orient and Near East. 52,000 TONS OF STEEL Almost 52,000 tons of steel was used in constructing the Navy's USS Forrestal, newest and largest aircraft carrier in the world. 3,500 MEN The aircraft carrier USS Forrestal will carry a crew of 3,500 officers and enlisted men. The ship is expected to commence fleet operations in early 1956.

Business Men Advised to Beware of Debt Adjustment Agencies

Possible pitfalls in doing business with debt adjustment agencies by persons who think they are "hopelessly" in debt were outlined this week by Charles T. Lux, of Austin, executive vice president of the Retail Merchants Association of Texas.

Lux said such agencies, sometimes called pro-raters or budget plan houses, were numerous in the East and California, but had only recently penetrated into Texas, thus far only in the largest cities.

These firms, operated by persons who pose as "professional budgeting experts," offer to "rehabilitate" people who have found their earnings cannot meet payments for the debts they have incurred, Lux said.

They propose to do this by setting up payment schedules for each debt, budgeting earnings and arranging with creditors to carry the account until the debt is paid

Keep Your Checking Account Above the "Safety Level"!

Yes, it's embarrassing—and it doesn't make a good impression—to be "caught short" and not have enough funds in your checking account to write the check you want to write.

Maintaining an ample balance at all times is good business practice. Then you are always prepared for any emergency which may arise or any opportunity to make a profit by having ready cash in your checking account.

It pays in many ways to keep your checking balance above what you consider the "safety level."

Soil Conservation District Will Enter National Contest

The Lower Pease River Soil Conservation District has entered the national Soil Conservation Awards program sponsored by the Good-year Tire & Rubber Co. of Akron, Ohio, it has been announced by District Chairman O. T. Holmes of Medicine Mount.

Members of the Lower Pease River district will compete against other soil conservation districts in the state. Non-partisan judging committees, selected from Texas' outstanding exponents of the soil conservation movement, will determine the state's outstanding district for the period May 1, 1955, to March 31, 1956, on a basis of total points scored in performance of regular district duties.

Grand award for one member of each winning district governing body and the top cooperating farmer or rancher named by the district will be a one-week, expense-free, vacation trip to Good-year's fabulous winter resort, the Wigwam Guest Ranch on Good-year Farms, Litchfield Park, Ariz., in December, 1956.

Members of the Lower Pease River district governing body who will compete for the Goodyear award are: O. T. Holmes, H. L. Ayers, W. C. Howard, Grady Halbert and G. Y. Gillespie.

National winners of the Good-year Soil Conservation Awards will be honored at the seven regular area meetings of the National Association of Soil Conservation districts. Plaques will be awarded at state conventions to the hundred first and second place winning districts.

1955 State Fair of Texas Breaks All Attendance Records

Breaking all records, the State Fair of Texas wound up with a total attendance of 2,611,271 for the 16 days and 17 nights of its 1955 exposition.

The fair broke its own national attendance record of 2,506,463 set at last year's fair, and also established a new world's record for single-day attendance at any annual fair. The big day was Saturday, Oct. 15, when the crowds totaled a fantastic 323,224.

A total of 82,337 fairgoers saw the State Fair Auditorium attraction, "The Pajama Game," and "Ice Capades" attracted over 100,000.

The junior livestock and poultry auctions for steers, lambs, pigs, turkeys and broilers resulted in total sales of \$173,027 for the hundreds of boys and girls who took part. The junior livestock shows were the largest in the fair's history.

Dates of the 1956 State Fair of Texas have been tentatively set for Oct. 6 through 21.

One important change will be made in the format of next year's fair, due to the way the calendar falls. The Texas-Oklahoma football game will be played on the second Saturday of the fair, rather than the first, and this schedule will hold for the next three years.

As a result, Rural Youth Day, which this year attracted over 100,000 boys and girls from all parts of the state, will probably be moved to the opening Saturday of the fair, rather than the middle Saturday.

The opening day football feature of the 1956 exposition will be a night game in the Cotton Bowl between Texas A&M and Texas Tech.

Again the 12 markets reported

over 100,000 hogs on Monday and this put pressure on butchers at all points as well as adding to the difficulties of beef cattle and calves.

At Fort Worth cattle and calves faced weak to 50 cents or more lower offers. Comparative prices included: good and choice steers and yearlings \$18-22; common and medium kinds \$12-17. Fat cows \$9.50-11.50; canners and cutters \$6-9.50; bulls \$9-13; good and choice slaughter calves \$16-17.50; few heavier kinds \$8-15; stocker steer calves \$21 down; heifers \$17.50 down; steer yearlings \$19 down; stocker cows \$8-12.50.

Average \$96.09 Head

The special Hereford Stocker and Feeder sale held at Fort Worth last Friday attracted 2,219 head that sold for a gross of \$213,226.90, or an average of \$96.09 per head. Top price was \$25.50 paid for a 20 lot from the League Ranch of Benjamin.

Hogs Sink Lower

Butcher hogs opened weak to 25 cents lower at Fort Worth Monday, and topped at \$14.50 to \$14.75. This was the lowest figure for top hogs here since the final days of the OPA, which went out of existence July 1, 1946. Sows sold at \$11 to \$13.50.

New York reported 8 to 12 lb. pork loins at 37 to 40 cents per pound Monday. On Sept. 16, these 8 to 12 lb. pork loins were quoted at 53 to 55 cents per pound there at wholesale meat levels.

Lambs Advance 50c

Fat lambs of good and choice kinds sold for \$18 to \$20 at Fort Worth Monday, on a strong to 50 cents higher market. They were the only class of livestock able to make an advance at the market that day. Feeders were strong at \$16.50 down. Old ewes drew \$4.50 to \$5.50, and aged wethers \$8 to \$12. Yearling muttons sold around \$12 to \$15.50, some culls below that.

Wyoming Sheep at Ft. Worth

Two big truck loads of fine yearling bucks pulled into Fort Worth late last week from near Cheyenne, Wyoming. They were halted here for feed and rest, en route to New Orleans. The

shipment will then take a plane and their new home will be the range lands of Peru. Their owners reported that the combined truck and plane trip was worked out not only because of the speed, but because it would be cheaper than a boat trip. That's what they said!

"Bang!"

Almost \$2,000,000 worth of explosives are used annually by International Nickel in the Sudbury District of Ontario where the company conducts the largest metal mining operation of its kind in the world. The explosives used to erect nickel-copper from the earth at a rate of 1,000,000 tons a month.

Time to Get Going

The chairman of the Citizens' Committee for Reorganization of the Executive Branch of the Government says: "The Hoover Commission, its great work well done, has passed into history. Now it is up to good citizens everywhere to make history by seeing to it that the Commission's recommendations get a full and fair hearing, looking to maximum action in 1955-56."

About 45 per cent of these recommendations can be accomplished by administrative orders, without new laws or changes in laws, so action there should begin immediately. When Congress meets again, there should be no avoidable delay in getting legislation started to effect other reforms which, in the words of the Commission's final report, would "strengthen the economic, social, and governmental structure which has brought us, now for 166 years, constant blessings and progress."

"MR. UNIVERSE" HELPS U. S. TEAM WIN—Tommy Kono of Sacramento, Calif., is winner of the light heavyweight (181 pounds) lifting title, and also winner of the coveted "Mr. Universe" title, at the championship competitions in Munich, Germany. In the opinion of Bob Hoffman of York, Pa., the American coach of the U. S. Weightlifting Team, the extra 5 points which the "Mr. Universe" title should have earned were not added to the 25 points given to the U. S. team when the reports from Munich gave 29 points to the Russian team to declare them to be the champions. Tommy Kono is shown displaying his muscles during the "Mr. Universe" event.

that are constantly seeking new information about the world in which they live.

Perhaps this is why Jesus chose children as a symbol of the regenerated. It is also the reason that children are so receptive to the Word of God and eager to put their faith in His Son. Statistics show that more people become Christians during childhood than at any other period of life. It is the duty of Christian parents and Sunday school teachers to see that children hear and understand the message which the Bible contains.

The Lord Jesus said, "Verily, verily, I say unto you, He that heareth my word, and believeth on him that sent me, hath everlasting life" (John 5:24).
