John Wright Is Elected V. P. of Texas Postmasters

John W. Wright, Thalia Postmaster, was elected first vice president of the Texas Branch, National League of Postmasters, at their annual convention held in Waco on Monday, Tuesday and Wednesday of last week. Mr. Wright, during the past three years, has held vice presidencies in the organization, and is scheduled to be elected president at the convention to be held in Dallas next June.

Mr. Wright also conducted memorial services for the deceased postmasters of Texas during the convention Monday morning.

Mrs. Wright accompanied her husband to the convention.

Pioneer Thalia Lady Observes 89th Birthday

Mrs. M. E. Moore, pioneer resident of the Thalia community, reached her 89th birthday on Tuesday, June 12. Mrs. Moore came to what is now the Thalia community in 1890, before Foard County was organized, to visit her sister, the late Mrs. Dave Nowlin. The next year, the same year Foard was organized, she was married to M. E. Moore, and has lived in the Thalia community since that time. She and her daughter, Miss Odessa, live on her farm south of Thalia.

Mrs. Moore also has two sons, Bill and Jim Moore, both of the Thalia community.

Baylor County to Vote on Bonds for New Highway

A county-wide election will be held in Baylor County on June 30 for the issuance of \$60,000 in bonds to buy right-of-way for the proposed Crowell-Seymour highway, according to an article appearing in the Baylor County Banner of June 14.

The election was ordered at a meeting of Baylor County's commissioners' court on May 22.

The Banner stated that should the \$60,000 worth of bonds be voted, there would be no increase in the present tax rate of the county. The bonds will be issued against an already existing tax which has been in effect since 1951.

Game and Fish Commission Wants to Continue Game Refuge in Northwest Foard County for Three More Years

In the fall of 1950, the State Game and Fish Commission set up a wildlife management area in Foard County. This refuge consisted of some 165,000 acres of land in the northwest part of the county. This same year, the Game and Fish Commission released some 115 deer in the refuge. They had been trapped on the King Ranch in South Texas.

Due to the dry weather in South Texas at that time, the deer were very poor when they arrived here and several of them, through injury and otherwise, did not survive the move. However, in the next two years, farmers and

ranchers in the area reported seeing many of the deer with fawn following them.

The local game warden, Charles Boynton of Quanah, seems to think there are several deer on the refuge now, although they have not increased as rapidly as desired.

The Game and Fish Commission, through the efforts of Senator George Moffett of Chillicothe, has offered to extend the closed season on deer in the refuge for another three years, with the probability that more deer will be shipped to it from South Texas. They are asking the same people who are now in the game management area, who wish to cooperate, to sign a letter of intent which was recently sent to them.

George Self, who has been acting as secretary for the project, stated to the News that several had already sent the letter back and he urges all who wish to be included in the refuge to sign and return the letters at once. Mr. Boynton thinks that with a new supply of deer, added to what are already here, the project should be a success within three years.

The land owners who cooperated with the project in 1950 were: W. B. Johnson, Hagan and Leslie Whatley, Merl Kincaid, Paul Shirley, Hartley Easley, Mrs. George D. Self, V. A. Johnson, J. A. Marr, Teague Estate, Mrs. J. B. Rasmussen, Carroll Brothers, Leslie Thomas, Leslie McAdams, C. D. Shamburger Estate, Wishon Estate, C. A. Bowley, Miss Johnnie Fay Easley, C. O. Nichols, Tom L. Burnett Cattle Co., J. H. Free, Curtis Ribble and Grady Halbert.

Shirley Named Co-Chairman of 1st Dist. Demos

Shirley, Foard County Democratic chairman, last Friday elected as co-chairman of the 1st Senatorial District Democratic organization.

Shirley was named to the post at a meeting held in Wichita Falls at which time Democratic Party of the district met with P. Price Daniel, who was in Wichita Falls in behalf of his campaign for governor.

Senator Daniel greeted his supporters from Wichita, Wilbar, Baylor, Montague, Foard and other area counties at a reception last Friday morning in the Kemp Hotel.

Glenn Goodwin Buys Half Interest in Borchardt Chevrolet

R. H. (Henry) Borchardt has announced the recent sale of one-half interest in the Borchardt Chevrolet Co. to Glenn Goodwin, long-time employe of the company. Name of the firm will remain the same, Borchardt Chevrolet Co., local dealer for Chevrolet automobiles.

Mr. Goodwin has been associated with Mr. Borchardt, both as an employe and partner, since Jan. 19, 1938. He has been in charge of the bookkeeping department and has also served as assistant sales manager. Mr. Borchardt became sole owner of the business by purchasing the interest of his partner, H. K. Edwards, in 1939.

Other employes of the company are Miss Lula Bowley, assistant bookkeeper; Johnnie Wright, car salesman; R. C. Sanders, in charge of the parts department; and I. L. Denton, Fred Ford and Billy Joe Halenack, mechanics.

Barney Sanders is manager of the Borchardt Magnolia Station.

W. B. McCormick of Los Angeles Visits Here Last Week

W. B. McCormick of Los Angeles, Calif., was in Crowell from last Thursday until Monday visiting in the home of Mr. and Mrs. J. R. Beverly and with other Crowell friends. Approximately forty years ago, Mr. McCormick and his late wife were residents of Crowell when he was manager of the Haskell Telephone Co. and she was chief operator in the Crowell exchange.

Moving to Los Angeles over thirty years ago, he was employed in the electrical department of Metro-Goldwyn-Mayer Motion Picture Studios in the production of lighting effects for motion pictures.

He retired from this position effective May 1 and has been in Texas making plans to move back to this state. He has purchased a location on Lake Belton, near Temple, and has had a double garage erected on the lot. He is returning to Los Angeles this week to dispose of his home in that city and will return to Temple in about two or three months and at that time will let the contract for building a home on the lake.

THIS WEEK
—in Washington

With Clinton Davidson

A couple of college professors have been studying the outlook for farmers for the next 10 years, and some of their conclusions may be worth putting away for future reference.

John D. Black of Harvard and James T. Bonnen of Michigan State are called to Washington frequently by officials and Congress to give advice on farm programs and legislation. They've written a booklet giving their ideas of what farming will be like in 1965.

There will, they predict, be a million fewer people on farms by 1965, but they will be producing 17 per cent more food and fiber on fewer acres than now in cultivation.

Each worker on farms will be producing about 25 per cent more in 1965 than in 1955. Output per worker has almost doubled since 1940. There will be fewer small farms and more with 300 acres or more.

There will be 15 per cent more Americans to feed and clothe in 1965, and each of them will be eating 4 per cent. They'll eat less potatoes, wheat and other cereals, but more meat, dairy and poultry products. Even so, they'll spend a 4 per cent smaller percentage of their income for food.

Government production controls and price supports will have to be continued during the next 8 or 10 years, Black and Bonnen think. They see further cuts in acreages of cotton, wheat and feed grains, cotton by 4 million acres, wheat by 18 per cent and feed grains by 13 per cent.

Land taken out of crops will be put into grazing and soil conservation. Yields per acre on land remaining in cultivation will increase by another 20 to 25 per cent. Cost of production per unit will be slightly less.

The outlook for livestock growers is the brightest. Demand for beef will rise by about 20 per cent. Prices for beef cattle will increase by about 25 per cent by 1962, then decline until 1965, the professors predict.

Hog production will increase by about 15 per cent, the same percentage as the population increase. Hog prices are likely to average about \$19.50 a cwt. around 1965, an increase of about 5 or 10 per cent over recent years.

The future for dairymen looks good to Black and Bonnen. They predict that farmers will be getting 12 per cent more milk from about the same number of cows. Fluid milk prices will average 10 per cent higher, but butterfat prices will decline.

The outlook for poultrymen is just so-so. Egg production is expected to increase by 30 per cent, but per-capita consumption of eggs will go up by about 13 per cent. Egg prices will average about 38¢ a dozen. Broiler production is expected to increase by 36 per cent, with prices in 1965 at about 25¢ a pound.

The professors see more trouble ahead for potato growers. Per-capita consumption is down one-third in 25 years to an average of 100 lbs. and is expected to decline to 90 lbs. by 1965, when prices will average \$1 to \$1.10 per bu.

They see more trouble ahead and daughters, June and Janice, of Ogden visited Mr. and Mrs. John Fish Friday night.

for cotton and tobacco farmers. Demand for cotton both at home and for export will decline, prices probably will drop by a half. Tobacco growers face acreage cut of 25 per cent, prices 5 to 10 per cent lower in 1965, they predict.

Highway Accidents Mount in Heavy Summer Travel

Take safety with you and enjoy your vacation. Toss caution to the winds and there may never be another vacation trip, warns the Texas Farm and Ranch Safety Council. For they point out as motor travel booms, traffic accidents, especially in rural areas, also zoom upward.

The Council offers a few suggestions for cutting the summer accident toll. Give the car a thorough check-up before starting on the trip and watch for signs of trouble along the way. Don't block vision by improperly loading the car for good vision is a must for safe driving.

Be prepared for emergencies. A first aid kit, maps, permits if needed, identification, a flashlight, a tool kit and maybe a few spare parts should be carried along.

Much of the responsibility for a safe trip rests with the driver. Fatigue greatly reduces his efficiency. Plan the trip, urges the Council, to allow for rest stops during the day and a good night's sleep each night. Don't, they caution, try to drive and take in the sights at the same time.

Know the laws of the states in which you expect to travel for ignorance of the law is only an excuse. Use traffic signs as a guide for safe driving. They are for your protection.

Traffic will be a problem during the vacation season in all parts of the country. Don't get in a hurry nor drive faster than conditions justify, warns the experts. Be adaptable and fit your driving to the peculiarities and conditions that exist in the areas where you drive. Respect the rights of others and remember, if safety rides with you, you and your family can look forward to next year's vacation.

Texas Oil Pioneers

PATILLO HIGGINS
by William A. Owens

(Editor's Note: Sketch compiled from records of "Oral History of Texas Oil Pioneers," University of Texas. Persons who can contribute additional information, documents, or photographs of early oil fields should write to the Archives Collection, Box 7787, University Station, Austin, Texas.)

The Lucas Gusher, which came in at Spindletop, January 19, 1901, is the biggest event in Texas oil history. Pattillo (Bud) Higgins, whose name will be forever identified with the discovery of Spindletop, was one of the most colorful of Texas oil pioneers.

Born at Beaumont in 1863, and brought up at Beaumont and Sabine Pass, Higgins was acquainted from boyhood with the sour wells on the Big Hill south of Beaumont. He had seen gas bubbles rise to the surface of the wells; he had heard men talk of prospecting there for oil and gas.

After trying his hand at rail-roading and lumbering, Higgins began burning bricks. With the promise of capital, he went to Dayton, Ohio, to study methods of making bricks. In the plants he visited he saw that kilns were fired with oil and gas. Immediately he saw the advantage of this fuel at Beaumont, where coal was very expensive. He came home with the idea of developing oil and gas at Spindletop.

His scheme sounded too fantastic to men in Beaumont with money to invest. To prove his point, he put a board top over one of the shallow wells, inserted pipe, and piped a kerosene can full of natural gas. He took the can to Beaumont and demonstrated how the gas would burn with a hot blue flame. At least some men were convinced. With George Carroll and Captain O'Brien he founded the Gladys City Oil, Gas and Manufacturing Company, chartered in 1892, and named for Gladys Bingham, a little girl in Higgins' Sunday school class.

Then began a series of unsuccessful test wells that drained the resources of the company and dimmed the faith of Beaumont people in Pattillo Higgins. He argued oil so insistently that people began to laugh at him.

Then, when Higgins had been forced to sell his stock in the company, he persuaded Anthony F. Lucas, a mining engineer who had been prospecting for sulphur

in Louisiana, to have a look at Spindletop.

Convinced of the prospects for oil, in spite of several adverse reports from geologists, Lucas decided to drill. His first well, unsuccessful, left him broke. He then turned for help to capitalists in the North and East.

The story of how the Lucas Gusher was drilled belongs with the stories of such pioneers as Al and Curt Hamill, stories to appear later.

When the well blew in, Pattillo Higgins was out in the woods seeing after some timber. When he rode his horse back to Beaumont that night he found himself a center of the oil fever. Attitudes toward him had changed. People forgot they had ever called him "crank," "millionaire." They listened with respect to what he had to say about oil at Spindletop.

After Spindletop, Higgins had a long and successful career exploring for oil in the Gulf Coast area, with the discovery of Barber's Hill as one of his outstanding achievements.

In his 90th year he recorded on tape his reminiscences of his early days in the oil fields. He died last year at the age of 92.

Grass Roots Opinion

Highland, Ill., News Leader: "Economic freedom is the freedom to risk everything on an idea and get into the thick of competition, in the hope of building a profitable enterprise. By contrast, socialism discourages risk-taking, stops competition, and profits hardly anyone."

Sac City, Iowa, Sun: "An individual who gets into debt so far that he can never wiggle out, soon goes bankrupt. What happens to a nation that remains head over heels in debt and makes no payments on that obligation? Certainly the credit of that nation will hang in the balance."

Carlsbad, N. M., Current-Argus: "The proposed bill to free natural gas producers from federal control has played hob with party lines in Congress. . . . The issue is not whether natural gas rates may be raised or lowered; that is a side effect. The real issue is whether the federal government should be granted the power to go to a gas well and tell the producer what price he can get for his product as it flows into the line and heads for a city. It seems to us this is an unwarranted grant of power to the federal government. . . ."

When the German zeppelin Hindenburg, burned at Lakehurst, N. J., May 6, 1937, 36 people were killed.

THE OIL WAY TO A GREEN THUMB

Effective, unbreakable greenhouses are built today from versatile oil-based polyethylene, a popular plastic packaging material for fresh fruits and vegetables. These simple plastic greenhouses can be put up at very low cost by do-it-yourself gardeners. A model hothouse was recently built for \$477, about three cents to the usual construction dollar. If built from conventional materials, the structure would have cost \$15,000. The new plastic greenhouse is said to be particularly resistant to snow, hail—and little boys.

CANNERY ROW

In the oil industry, a "barrel house" is a place where hundreds of different types of lubricating oils are blended and canned. Many of these high-quality lubricants are especially compounded to meet the customer's specifications. On an average day, the "barrel house" can turn out as many as 15,000 different containers, ranging from one-quart cans to 55-gallon drums. But there's not a single "barrel" among them. That's because the oil "barrel" is really only a unit of measure of 42 gallons.

The Practical Value of Buying where You Live

For instance . . . meditate for a minute on what a comfort it is to have people around you. Particularly people like doctors, plumbers, druggists, firemen, preachers, mechanics, taxpayers, and the like.

These all come with towns. Towns

come with business. Your business. Every nickel you spend in some other town helps to send some of these handy people away from here.

Maybe it even helps to eliminate YOUR job. Certainly it decreases the profits on whatever business you

are in, and reduces the value of any property you may own in this area.

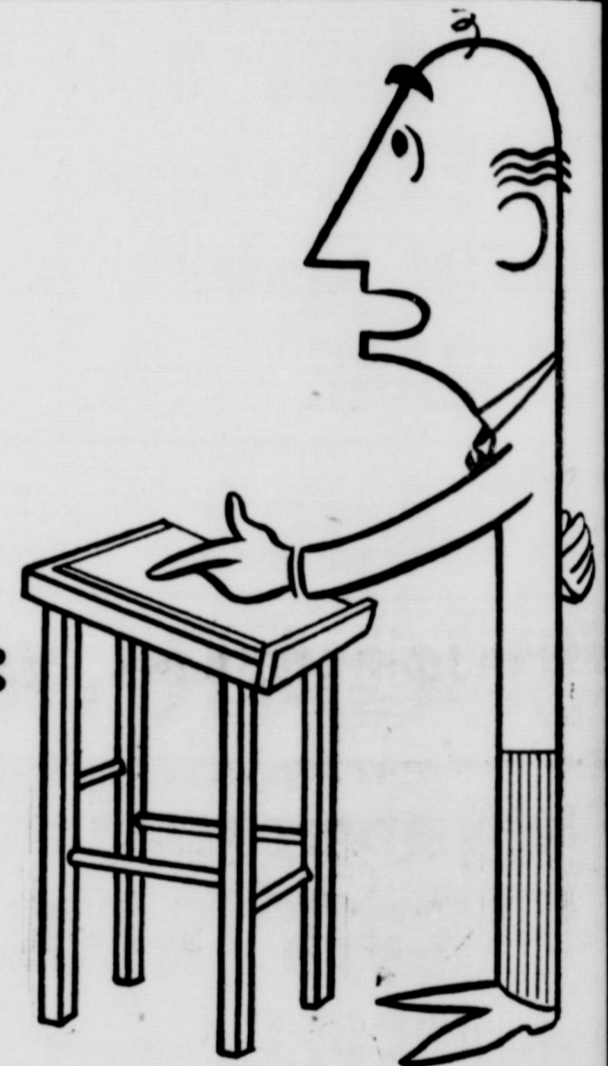

We're social critters, and depend on each other for many things. But when you scratch somebody else's back, be sure he stands where he can scratch yours in turn!

People are mighty peculiar sometimes, aren't they? For instance, you would never take your nice watch down to Andy Calvin's Welding Shop and let him tinker around with it and try to repair it—just try to save a few dollars. Certainly not, you'd take it to our town's expert watch repairer, Henry Dixon, with whom repairing watches is a profession—not a sideline—and who has all the various proper tools and equipment to determine exactly what is wrong with your watch. Then, after he completes the repair, he has a machine with which he can tell exactly IF the watch is really and completely right—if the watch is a tiny bit fast—a little slow—or just right.

But there are people who will take their TV sets to instruments perhaps four times as valuable as their watch) and let the butcher, the baker and the candlestick maker all tinker around on it, trying to pay a legitimate expert a \$3.00 service charge. A short time ago we were called out to a man's house to repair his TV set. He had a bad tube in his TV. His antenna wasn't delivering proper signal strength to his TV; and his REA lines weren't delivering proper voltage to his set. It literally takes a "floating laboratory" to determine all these things. It can't be done without proper instruments.

Please believe me—the \$3.00 service charge is the best investment you EVER make!

Sincerely,

Marion Crowell.

GLAMOROUS, SURE-

but a tomboy at heart!

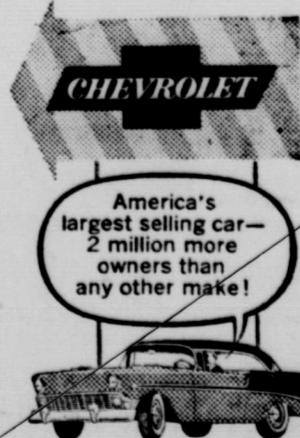

Turn Chevy out on the road to discover its real charm! For this is the beauty that recently raced 2,438 miles in 24 hours to set a new round-the-clock competition track performance record!

It happened at the famed Darlington Raceway, Darlington, S. C. A regular production Chevrolet with 225 h.p. poured it on for 24 straight hours, averaging 101.58 miles per hour, to top the Indianapolis stock car record by 280 miles!

Add that to Chevy's unparalleled record in stock car competition—and you come up with the low-priced beauty that outshines every-

body! No maybes about it. Here's proof of pep and performance that means safer, happier highway driving. Few cars at any price can hold the road with Chevrolet's grace. And it's got the stamina to stand the gaff for 24 straight scorching hours at a pace that few other cars would even attempt to match! Drop by—you'll see you can't beat Chevy for a buy, either!

Acreege Reserve Program of Soil Bank Underway

Requirements for participation in the 1956 Acreege Reserve Program under the "Soil Bank Act," Public Law 540, were announced this week by Secretary of Agriculture Ezra Taft Benson. County Agricultural Stabilization and Conservation Committees, which will administer the program, will announce locally when the program agreements are available for signature by farmers in the county office. At that time they will have full information on the terms and conditions.

In announcing participation requirements for the 1956 Acreege Reserve Program, Secretary Benson stated:

"We have proceeded with all possible haste since enactment of the Soil Bank legislation to present a sound 1956 program to farmers. It is true, however, that the program for this year is in a sense a special program designed to meet the time limitations and the requirements of the legislation for 1956.

"For that reason, 1956 will not present a fair trial of what the program can accomplish. The rates set are for the 1956 program only. Before next year's crops are planted, however—including fall seeding of what this year, we will have an opportunity to plan and develop a more comprehensive program.

"The Soil Bank makes available beginning especially in 1957 a way to reduce our farm surpluses, to safeguard our soil and water resources, to give a lift to farm prices.

Under the 1956 Acreege Reserve, farmers who are eligible to take part in the program may earn payments in connection with one or more of the commodities specified in the law—corn, wheat, upland or extra long staple cotton, peanuts (except Virginias and Valencias for which there is no surplus), rice, and most types of tobacco—by reducing their acreage of the crop below the farm's established allotment for base acreage in the case of

corn). Under the basic rules of eligibility established in keeping with the law, acreage designated for the Acreege Reserve must: (1) be representative of the land used for the crop, (2) result in the harvesting of an acreage of the basic crop less than the farm allotment or corn base acreage, and (3) not be grazed, cut for hay, or cropped for the entire 1956 calendar year. Noxious weeds must also be controlled on the "reserved" acreage.

In order to participate in the Acreege Reserve, a farmer must comply with all acreage allotments or corn base established on the farm.

The 1956 program, as provided by the law, contains special provisions and payments which enable farmers to participate this year. Any farmer who otherwise complies with the provisions of the Acreege Reserve will be eligible for payment if:

1. He has underplanted his Soil Bank corn base or his allotment for cotton, rice, tobacco, peanuts, or wheat (when planted to Spring wheat) and he certifies that he underplanted (a) in anticipation of complying with the 1956 Acreege Reserve or (b) because of adverse weather conditions; or

2. He has underplanted his 1956 allotment for winter wheat and certifies that this was done because of adverse weather conditions; or

3. He has complied with his Soil Bank corn base or his farm allotment for a particular crop, but an acreage of the crop was not harvested because of destruction by natural causes; or

4. The farmer is in an area where an established final date set for the basic commodity for his area is subsequent to May 28 and he plows or otherwise physically incorporates the crop into the soil, or clips, mows, or cuts the crop after May 28 and prior to June 30 or the established final date, whichever is later. (The "established final date" will be the same as the last date on which the acreage of a basic crop may be adjusted in order to bring it into compliance with the acreage allotment of the regular production adjustment program).

Maximum and minimum acreages of the basic crops which may be placed in the acreege reserve have been established as follows (except that where the allotment is less than the specified acreage

MRS. C. H. WOOD

Rex Snowden of Tyler spent Monday night in the C. H. Wood home. Mrs. Snowden and children, Mike and Patti, who spent the past two weeks with her parents, returned home with him Tuesday. They were all dinner guests in the home of Mr. and Mrs. Sim Gamble Tuesday.

Rev. and Mrs. C. C. Lamb, Dana Loy Roberts, Wanda and Arios Moore attended the MYF sub-district meeting at Margaret Monday night.

Mrs. Maggie Hammonds spent the week end with her sister, Mrs. Roy Watts, in Vernon.

Rev. and Mrs. C. C. Lamb attended a council meeting of instruction for junior summer camp at Ceta Canyon July 9 through 13. The Lambs will be helping at the camp.

Mrs. Zola Greening and Mr. and Mrs. Walter Williams of Crowell visited Mr. and Mrs. C. Lindsey Sunday.

The Edgar Johnsons of Vernon and the Waldon Johnsons of Crowell were Father's Day dinner guests in the home of their parents, Mr. and Mrs. W. A. Johnson. Mrs. Pearl Smith of Vernon visited in the Johnson home Sunday afternoon.

Mr. and Mrs. Mitchell Jackson and children of Snyder spent Father's Day with her parents, Mr. and Mrs. J. C. Jones. They were accompanied as far as Rotan en route home by Mrs. Daisy Dwigins who spent the past month here with her sister, Mrs. M. H. Jones.

Mrs. O'Neal Johnson, Mrs. Billy Johnson and daughter, Debbie, went to Kansas Sunday where they visited Billy and Jimmy Johnson in the harvest fields. Mrs. Billy Johnson and daughter remained for a longer visit.

Edward Shultz and Joye Weeks of Vernon and Mr. and Mrs. Hugh Shultz of Margaret were Sunday guests in the Lee Shultz home. The Hugh Shultzes visited Allen Shultz Monday.

Mr. and Mrs. Dick Blevins and Mr. and Mrs. B. Stevenson and son, Jimmy, of Fort Worth spent Sunday with Mr. Blevins' brother, Charlie Blevins, and family.

Mrs. Lucille Mints of Paducah spent Father's Day with her father, G. A. Shultz, and family.

Mrs. Rose Pulley left Saturday for her home in Pensacola, Fla., after spending the past months at the bedside of her mother, Mrs. W. A. Caldwell, who passed away here last week.

Bob Powers spent last week with his grandmother, Mrs. F. C. Harrison, and his cousin, Raymond Huntsman, at Knox City.

Mr. and Mrs. A. L. Petty of Fort Worth, Callie Ramsey and Mrs. Pauline Jimison of Spur and Mrs. Rose Pulley of Pensacola, Fla., were out of town relatives here for the funeral of Mrs. W. A. Caldwell, last Wednesday.

Mrs. John Wright and daughters and mother, Mrs. H. W. Banister, and their guest, Mrs. Wade Corzine, and daughter, Janice, of California all spent the week end with John Hugh Banister and family in Dallas.

Mr. and Mrs. Eck Koontz of minimum or maximum, the total allotment shall be considered as the minimum or the maximum):

For wheat, the maximum is the larger of half the wheat allotment or 50 acres. The minimum is the larger of 10 per cent of the allotment or 5 acres.

For cotton, the maximum is the larger of half the allotment or 10 acres. The minimum is the larger of 10 per cent of the allotment or 1 acre.

The payment which a farmer may earn for participating in the Acreege Reserve will be determined by multiplying a base unit rate by a yield factor. The national average rates for 1956 crops are: cotton, 15 cents per pound; wheat, \$1.20 per bushel.

The payments will be determined as follows:

For underplanted the allotment for cotton or wheat (when planted to spring wheat), the payment rate will be based on the normal yield for the designated acreage. For underplanting 1956 winter wheat, because of adverse weather, the payment will be \$4 per acre.

For destruction due to natural causes or for plowing or otherwise physically incorporating the crop into the soil, or for clipping, mowing, or cutting the crop, the payment will be based on the smaller of an appraised yield for the field or the normal yield for the farm, but will not be less than \$6 per acre.

Provisions of the Conservation Reserve part of the Soil Bank will be announced as soon as practical. Under this part of the program, a farmer will be able to earn two types of payment—an annual payment to help compensate for income which he would have received if the "reserved" land had been in crop, and a payment representing a percentage of the cost of establishing conservation practices on such land.

The same acreage on a farm may not be included under both the Acreege Reserve and the Conservation Reserve parts of the Soil Bank.

Participation in the Acreege Reserve program will be on a voluntary basis.

Our Weekly Sermon
Only One Way
"Getting the bugs out" is standard procedure whenever anything as complex as a new airplane is delivered. The trouble with Central African Airways' brand-new Vickers Viscount prop-jet was that the bugs were not, in fact, airplane-type bugs at all, but a swarm of 75,000 bees which came hiving out of nowhere soon after the plane landed in Salisbury, to take up happy residence in one of its wings. Central's mechanics scattered, and the airline called in a local beekeeper. Blow gas or smoke into the wing, he advised.

No, said the airline engineers: formic acid from the dead bees might hurt the metal or the rubber on the gas tanks. "Then there is only one way to get rid of them," the beekeeper said, "you will have to take the plane apart."

But the airline preferred to look for a shorter plan. They asked for suggestions on what to do about the bees. Answers came in from all over. One man, from Durban, thought that garlic might drive the bees away. A Londoner suggested tying a horse under the wing. "Bees," he wrote, "don't like the smell of horses, but wrap him carefully, so he won't get stung."

A local housewife urged them to give the bees a good whiff of bruised lemon-rose leaves. C. A. A's chief pilot decided on more drastic action. Taking his place at 17,000 feet, he bunched, banked and looped—but when he got down again, the busy bees were still happily humming in the wing.

At week's end airline officials finally decided that there was no short cut possible—there was nothing to do but wheel the brand new plane into a hangar, take it apart, rid the pieces of the troublesome insects, and then put it back together again.

Just as there seemed to be only one way to rid the new airplane of the bees which had attached themselves to it, there is only one way in which we can get rid of the sins which can keep us out of heaven. There is forgiveness and cleansing for those who put their faith in the Lord Jesus Christ, who came into the world to save sinners.

Some believe that they have found other ways to achieve this, but it is the part of wisdom to accept the Bible's teachings on this matter: "Jesus said . . . I am the way, the truth, and the life: no man cometh unto the Father, but by me" (John 14:6).

A local housewife urged them to give the bees a good whiff of bruised lemon-rose leaves. C. A. A's chief pilot decided on more drastic action. Taking his place at 17,000 feet, he bunched, banked and looped—but when he got down again, the busy bees were still happily humming in the wing.

At week's end airline officials finally decided that there was no short cut possible—there was nothing to do but wheel the brand new plane into a hangar, take it apart, rid the pieces of the troublesome insects, and then put it back together again.

Just as there seemed to be only one way to rid the new airplane of the bees which had attached themselves to it, there is only one way in which we can get rid of the sins which can keep us out of heaven. There is forgiveness and cleansing for those who put their faith in the Lord Jesus Christ, who came into the world to save sinners.

Some believe that they have found other ways to achieve this, but it is the part of wisdom to accept the Bible's teachings on this matter: "Jesus said . . . I am the way, the truth, and the life: no man cometh unto the Father, but by me" (John 14:6).

against:
1. Legislation exempting a child from compulsory attendance at integrated schools.
2. Legislation "perfecting" laws against intermarriage of Negroes and white, and;
3. Use of interposition to halt federal encroachment on states rights.

Majority approval presumably would constitute a mandate for action by the next legislature.

Historically, such voter referendums seldom have been used. And not too successfully. Present procedures, still substantially unchanged, were set up with the passage of the Terrell Election Law in 1907.

In the nearly 50 years since then, referendums were held only three times. And failed to pass twice. In 1908, a prohibition proposal was voted down more than two to one. In 1919 the people rejected three to one a proposal to call a constitutional convention.

But, in 1932, Texans voted overwhelmingly in favor of repealing the federal prohibition amendment. A year later the legislature followed suit and ratified the repeal amendment.

This was the last referendum submitted until this year.

In other action the State Executive Committee certified a list of 31 candidates for statewide office. It ignored a charge by Reuben Senterfit that Price Daniel's name was ineligible to appear on the ballot because he had not resigned his U. S. Senate post.

Fort Worth was selected by the committee as the site for the Sept. 11 state convention. Principal business at that time will be naming new party officers and deciding on a general election platform for the Democratic gubernatorial nominee.

GOP CHOOSES CORPUS — Texas Republicans will hold their August 28 state convention in Corpus Christi. GOP nominees for state office, presidential electors, a new state chairman and a general platform will be decided upon at that time.

Selection of the convention site was made at the party's state executive committee meeting in Austin.

Committee members sent Pres. Dwight D. Eisenhower a telegram asserting their confidence that he will carry Texas and be re-elected in November.

REDISTRICTING URGED — Demands that Texas congressional districts be realigned were heard at both political party meetings.

Texas was allotted an additional congressman after the 1950 census. Since the legislature has rejected redistricting bills for the past two sessions, the extra man is elected by the entire state.

Bill Elkins, candidate for congressman-at-large, told the Democratic executive committee the main plank in his platform is to have the office he seeks abolished.

Republican National Committee man Jack Porter said the GOP legal committee might seek federal court action to force the legislature to redistrict.

"It's not fair to have the same representation from districts of 100,000 as you do from areas with more than a million," Porter charged.

PEARSON BLAMED AGAIN — In a report made public by the Insurance Commission, TV man Drew Pearson received the brunt of the blame for luring Texans into investing money in the now defunct US Trust & Guaranty Co.

The report was based on answers to questionnaires sent draft purchasers by the state liquidator's office.

Questionnaires were answered by 3,608 purchasers. They reported investments of \$4,711,132. Nearly half of them charged Pearson with influencing them into buying. This because of his personal, oft-repeated statement that "You can put your trust in U. S. Trust."

Because Pearson personally recommended the purchase, the TV broadcaster several months ago pledged to refund all "profits" made on his commercials. As of this writing the Insurance Commission's records do not reveal any such repayments by Pearson.

CIVIL IMMUNITY DENIED — Public officials are not immune from civil liability for acts in connection with their duties. An Austin district judge so ruled in a case involving two

former employees of the Insurance Commission.

Examiners Larry W. Blanchard and Robert K. Butler are among more than 50 defendants in a \$6,890,000 damage suit. It was filed by the state liquidator against those allegedly responsible for the 1954 collapse of the big General American Casualty Co. of San Antonio.

PARR TRIAL DELAY EXPECTED — Another six months delay seems likely before the trial of George B. Parr on income tax evasion charges takes place. Parr's plea to have the trial in Laredo, rather than Austin, was rejected by the US Supreme Court. U. S. Attorneys promptly asked Judge Ben H. Rice of Austin for an early setting, preferably in July. But Parr's attorneys said they will file for a rehearing before the Supreme Court. Such action could keep the case from coming up until January of 1957.

Parr was first indicted in 1954. He is charged with filing false returns in 1949, 1950 and 1951 and failing to pay the government \$86,000.

DIED IN 1935 — Huey Long, shot while in the Louisiana capitol, died September 10, 1935.

TOO MUCH BUTTERING UP NO GOOD FOR CRUDE
Once petroleum is found, it may take all an oil man's skill, ingenuity—and money—to coax it to the surface. Some crude oils, such as those having a high wax content are so sluggish that they "butter up" at temperatures of 90 degrees Fahrenheit or less. One solution to this problem is to construct costly heating plants near the producing wells. By heating the hydraulic oil that circulates to the pumps down the well, enough heat is introduced down the well to keep the crude oil liquid and flowing.

INVENTOR OF CELLULOSE
John Wesley Hyatt, the inventor of celluloid, also invented the flexible roller bearing and founded the Hyatt Roller Bearing Company, now a division of General Motors, in 1892.

Miss Elaine Brooks Becomes Bride of Duane Stanton Holly

Nuptial vows were solemnized last Saturday evening for Miss Claudia Elaine Brooks, native of Crowell and daughter of Mr. and Mrs. F. Claude Brooks of 4817 West 10th in Amarillo, and Duane Stanton Holly, son of Mr. and Mrs. Lewis E. Holly, also of Amarillo.

Dr. H. Clyde Smith, pastor, read the double-ring service in San Jacinto Methodist Church in Amarillo. A white satin kneeling bench under an arch of lighted tapers centered the altar. Fan shaped arrangements of white gladioli and daisies flanked the arch and woodwardia palms completed the setting.

Mrs. Jack Brooks of Vega, organist, played "O Promise Me," "My Heart at Thy Sweet Voice," and "Calm as the Night" as a prelude. Miss Donnie Plunk sang "Ah, Sweet Mystery of Life," "Because" and "The Lord's Prayer." The traditional marches were used for the processional and recessional.

Candles were lighted by Miss Kathryn Eckman of Panhandle and Mrs. William W. Sherwood. They wore similarly styled ballerina length dresses of net over taffeta in pink and blue, respectively. Their wristlets were of sweet-

heart roses. Mrs. Max Jordan of Umbarger was her cousin's matron of honor and maid of honor was Miss Carolyn Bursay of Crowell. They wore ballerina length dresses of net over taffeta in blue and pink, respectively, styled with fitted bodices and full skirts. Their bouquets were of Better Times roses tied with streamers of matching ribbon.

Johnny Hohenshelt of Sayre, Okla., was his cousin's best man, and William Sherwood was groomsmen. Serving as ushers were Max Jordan of Umbarger, Jack Brooks of Vega and Bob Wachsmuth of Port Neches.

As flower girl Deborah Lawson wore a frock of white nylon organdy and a headband of pink rosebuds. She carried a pink satin and tulle basket. Johnny Wachsmuth of Port Neches, carried the rings on a satin pillow of interlocking hearts.

Escorted to the altar and given in marriage by her father, the bride was attired in a floor length gown of white chantilly lace and ruffled net over satin, designed with a fitted bodice, picture-frame neckline and long tapered sleeves. Her shoulder length veil was attached to a bandeau of white satin trimmed with rhinestones and pearls. She carried a cascade bouquet of white fringed carnations and angel feathers.

Mrs. Brooks, mother of the bride, wore a navy shantung suit with white accessories. The bridegroom's mother, Mrs. Holly, wore a tulle lace dress with pink accessories. Both had corsages of pink carnations.

Following the ceremony, the bridal party was feted at reception in the garden of the Brooks home. Welcome lamps marked the entrance and formed a half circle around the serving table. Draped with a full length cloth of satin and tiers of net ruffles, the table was centered with an arrangement

of pink roses. Mrs. Warner Cook served the tiered cake and Miss Frances Risdon ladled punch. Mrs. Jerry Zeigehorn registered the guests.

For the wedding trip to New Mexico and Colorado, the bride traveled in a beige linen suit with brown accessories. Her corsage was of white carnations.

The bride is employed by Security Abstract and Title Co., and the bridegroom is with the passenger-traffic department of the Panhandle and Santa Fe Railway Co. They will be at home at 4325 Polk.

Mr. and Mrs. Holly, parents of the bridegroom, entertained with the rehearsal dinner on Friday evening.

Attending the wedding from Crowell were Mrs. W. C. McKown, Mr. and Mrs. William E. Wells, Mrs. A. Y. Beverly, Mr. and Mrs. Moody Bursay and Miss Carolyn Bursay.

Miss Johnson and Mr. Bradford Will Be Married in August

The engagement and approaching marriage of Miss Bertha Jeanette Johnson of Lubbock, daughter of Mrs. A. L. Johnson of Crowell, and her late husband, to C. F. Bradford of Slaton, son of Mr. and Mrs. Curtis Bradford of Margaret, was announced in Crowell this week.

The wedding has been tentatively set for the latter part of August, and the couple will make their home in Slaton.

Miss Johnson is a graduate of Crowell High School and is now attending nurses' classes at the Methodist Hospital in Lubbock and will receive a graduate nurse's degree on August 27.

Mr. Bradford attended the Margaret and Crowell schools and is now employed with the Santa Fe Railroad in Slaton.

Miss Kay Meason and Mr. Brown of Hamlin Married Last Sunday

Miss Kay Meason of Hamlin, daughter of Mr. and Mrs. Beadle Meason, was married to Hoyle Brown, also of Hamlin, last Sunday, June 17.

The wedding ceremony was performed in the Histon Community Baptist Church west of Hamlin.

The groom is the son of Mr. and Mrs. H. W. Brown of Hamlin and is employed by the Westbrook Well Servicing Equipment Co. of Hamlin.

The couple will reside in Hamlin.

Mr. and Mrs. Goodloe Meason and Mrs. Jack Lyons of Crowell attended the marriage ceremony, the bride being their niece.

Reception Honors Mr. and Mrs. Robt. Graves

On Saturday evening, June 9, during the hours from seven to ten, Mr. and Mrs. Grady Graves entertained friends at the Adelpian Club house with a reception honoring their son, Robert, and his bride, the former Miss Lou Jane Mitchell, of Stephenville.

Guests were greeted at the door by Mr. Graves and received by Mrs. Graves who presented the bride and groom to friends who called during the evening. Mrs. Graves' sister and her husband, Mr. and Mrs. J. D. Beahn, of Fort Worth, completed the receiving line.

Mrs. Gordon Graves presided at the registry table, which was adorned with a large heart-shaped arrangement of yellow and white snapdragons outlined with yellow nylon ruffles, against a round golden tray. Bisque cherubs held streamers from a large white satin bow which marked the pages of the guest register.

Misses Carolyn Bursay and Jo Ann Fox invited guests into the candlelight dining room where Mrs. Roy Barker and Mrs. John Rader poured punch from a beautifully appointed refreshment table. Featuring a color scheme of green and white, the milk glass punch bowl at one end of the table was balanced by an arrangement of white asters and smilax from which ran three large streamers of white satin ribbon, terminating in double bows at the edge of the table which was laid with a floor length cloth of dark green linen. All table appointments were of milk glass.

Additional candlelight came from the buffet arrangement where a miniature bride and groom stood before eight cathedral tapers banked with smilax and white asters.

Arrangements of white asters, gardenias, snapdragons and bells of Ireland, were placed throughout the club house. Misses Bettye Davis and Janis Crowell provided a delightful musical background for the party. Assisting in the house party were Mrs. Clark Hitt, Mrs. Moody Bursay, Mrs. Vance Favor, Mrs. Walker Todd and Gordon Graves.

Mr. and Mrs. Robert Graves will be at home at 1314 Glen Garden Drive, Fort Worth.

SUCKED INTO INTAKE

Oslo, Norway. — Erlind Dahle, Norwegian air force sergeant, was sucked head first into the air intake of an F86 Sabre jet fighter plane. Before the pilot could switch off the engine, Dahle had almost disappeared. His only injury, however, was a dislocated shoulder.

OUT-OF-TOWN GUESTS ENTERTAINED

Mrs. Ed Zak of Seattle, Wash., and Mrs. John Binion of Denver, Colo., who have been guests in the homes of their parents, Mr. and Mrs. Hubert Brown and Mr. and Mrs. Dwight Campbell, were named honorees at a delightful coffee given by Mrs. Ray Shirley in her home last Thursday morning from 9:30 to 11:30 o'clock.

Arrangements of daisies and gladioli were placed at vantage points throughout the receiving rooms.

Other out-of-town guests were Mrs. Bill Johnson of Two Harbors, Mich., guest of Mr. and Mrs. Clinton McLain, and Mrs. A. V. McCombs of Las Cruces, N. M. Hostess of her mother, Mrs. J. M. Hill.

A corsage of miniature roses was given each one. Coffee and cake were served to fifty guests.

RIVERSIDE 4-H CLUB

The Riverside 4-H Club met at Mrs. Grover Moore's home Tuesday, May 12. The club elected officers. They are as follows: Wanda Moore, president; Eddis Burkhardt, vice president; Vicky Farrar, secretary; Janice Morris, reporter.

There were 9 girls who attended. Mrs. Brown showed the girls how to check drinking water to see if it was safe. When business was over, they had refreshments.
