**Origin of Rotary Given
As 50th Anniversary
of R. I. Approaches**

Great events often have insignificant beginnings. So it was with Rotary. The service club idea was pioneered on the night of Feb. 23, 1905, when four men met in a Chicago business office. One was a lawyer, one was a merchant tailor, one was a mining engineer, one was a coal dealer. For several years the lawyer, Paul P. Harris, had been thinking about organizing a club which would be based on the idea that men in business and the professions could be personal friends. That night these four Chicagoans agreed to launch this unique organization, which was destined to become one of the most potent world-wide movements of modern times.

Other men were quick to recognize the worth of the new organization and it grew rapidly. The name "Rotary" was selected because originally the members met in rotation in their various places of business. Soon Rotary Clubs were organized in other cities throughout the United States and spread to Canada, Europe, South America, Asia, Africa and Australia. By 1922, Rotary had encircled the world with Rotary Clubs on the six continents banded together as Rotary International.

Shortly after the organization of the first Rotary Club, it was realized that Rotary could serve a wider purpose than its original aim of promoting understanding and fellowship among its members. Rotary soon became a factor for the promotion of many different types of community-betterment activities, for constructive work with crippled children and underprivileged children, and for the promotion of high standards in business and professional practices.

As the Rotary ideas of friendship and service to others spread from country to country, Rotary's worldwide fellowship of business and professional men became a powerful force for the advancement of international understanding, good will and peace.

February 23, just 50 years after the founding of the first Rotary Club by four young men in Chicago, there are 8,400 Rotary Clubs located in 89 countries of the free world. From the original four members, the organization has grown to 400,000 Rotarians, differing widely in language, customs and economic, political and religious concepts but united in their devotion to the Rotary ideal of service to mankind.

Speaker Jim Lindsey had sent a separate House investigation resolution to a different committee, state affairs.

Ex-Land Commissioner Bascom Giles, head of the Veterans' Land Board until Jan. 1, invoked the Constitution and refused to testify as to his business dealings with several persons named in testimony about block deals.

C. O. Hagan and C. P. Earners, principals in much of the land-sale testimony, followed L. V. Ruffin in refusing to testify.

Insurance Hearings

Hearings started in both houses of the Legislature on a long list of bills to "clean up the insurance mess."

Sen. Searcy Bracewell told a Senate committee his bill to firm up capital requirements was "tough." The committee put it in a tenderizing sub-committee for three weeks.

It would raise minimum requirements for future legal reserve life companies to \$25,000 capital and \$125,000 surplus, all in cash or bonds. Smaller existing companies would continue, but would be limited in size of policies and re-insurance, until they reached the minimum. Those with investments of minimum capital and surplus in office buildings or real estate mortgages would have three years to convert to cash.

The House Insurance committee heard the three state insurance commissioners and others propose corrective measures, including state regulation of the sale of insurance securities.

Shepherd Wants 13 Laws

Attorney General John B. Shepherd asked for legislation "to prevent another Daval County."

Speaking to 200 publishers at a Texas Press Association convention in Austin, Shepherd revealed that his legal skirmishes with Boss George Parr disclosed many shortcomings in Texas laws.

He recommended 13 bills, and asked the editors to help effect passage.

Most of the bills would tighten control over county funds and call for annual published reports of expenditures.

Suggested Taxes

Tax proposals continue on the penny basis set by Gov. Allan Shivers' program. His two-penny gasoline tax hike, good for \$10 million a year, was introduced earlier by Rep. Charles Murphy of Houston.

Rep. W. G. "Cotton" Kirkin of Odessa introduced the other Shivers' bill, the one-cent cigarette levy, good for \$15 million a year.

Rep. Curtis Ford of Corpus Christi offered the familiar penny-a-thousand-foot natural gas deduction tax bill. He figured it would bring in \$32 million a year.

And, Rep. Jerry Sander of Perella dropped in a penny-a-glass, \$4.30 per barrel, beer tax, estimated to produce \$16 million a year.

All faced an ultra-conservative revenue and taxation committee.

From Rep. Jack Bryan of Buffalo came a proposal to place a three per cent gross receipts tax on establishments engaged in storing or parking motor vehicles.

Bills in the Hopper

Approved by the House of Representatives, was a bill to increase the pay of state officials. If acceptable to the senate, the pay scale will go to \$25,000 for the governor; \$20,000 for the attorney general; secretary of state, \$17,500.

Sen. A. M. Akkin Jr. of Paris and Rep. Barefoot Sanders of Dallas are sponsoring a plan to provide \$45 million for new school building construction. It would let school districts vote higher bond issues, up to 10 per cent of the assessed property values.

Two representatives, John T. Cox of Temple and Jack Welch of Marlin, have submitted a bill seeking the death penalty for second conviction under the Narcotics Code, and permitting conviction on uncorroborated testimony of an accomplice.

Sen. Doyle Willis of Ft. Worth has a bill to close beer taverns on Sunday.

A bill to limit the building of lodges in state parks was introduced by Rep. Ben Atwell of Dal-

New Officials

While the veteran land probe rolled on, newly appointed State Land Commissioner and Veterans Land Board Chairman J. Earl Rudder borrowed Ray Clark Diebel from the State Auditor's Department and named him executive secretary of the board.

Lawrence Jackson quit this position after Rudder replaced Bascom Giles.

Gov. Shivers will have a new Secretary of State early in February. He appointed Al Muldrow, Brownfield farmer-rancher-businessman to succeed C. E. Fulgham, who resigned to return to Lubbock. Like Rudder, Muldrow is a World War II veteran.

VIVIAN H. D. CLUB

"Americans have the greatest abundance of food of any people in the world, yet we have the poorest eating habits," said Mrs. Mary D. Brown to the Vivian Home Demonstration Club which met in an all-day meeting with Mrs. W. O. Fish Thursday, Jan. 27.

"If we learned better eating habits when we are young, we would not have so many restricted diets and illnesses when we grow older," continued Mrs. Brown. "By good eating habits, we include the preparation of foods. By using more broiled foods rather than fried, we practice this." Mrs. Brown demonstrated, as she served a meal consisting of broiled chicken, broiled peach halves and whole grain corn.

"Leaders," was the poem used by Mrs. James Sandlin as she opened the business meeting. Mrs. Allen Fish gave a report from Council and Mrs. Clyde Bowley gave the report and recommendations from the marketing committee which were adopted.

A money donation from the club was sent to the polo fund. The next meeting will be with Mrs. Allen Fish Feb. 10 when Mrs. Brown will again be present.

Those present included the following visitors: Mrs. W. R. Henderson and daughters of Vernon, Mrs. Chester Hord and Billy, Mrs. Bert Mathews, Mrs. Ray Brown, Bert Mathews, Mrs. Ray Brown, of Crowell, and Mrs. Henry Fish,

THE BIG TEST . . . In a series of color transmits and animated copy panels, this dramatic Fisher Body exhibit in the GM Motorama of 1955 shows how Fisher Body engineers conduct a roll-over test at the General Motors Proving Ground.

The first picture shows a driverless 1955 Chevrolet Bel Air as it is towed toward a ramp at approximately 50 miles an hour. The second picture shows the car rolling over. In the third picture the car starts its second roll. The final picture shows the car right side up just before being driven away.

Damage to sheet metal, of course, is inevitable, but the primary purpose of the test is to study the strength of the basic body structure.

News from the Congress

by Congressman Frank Ikard

No legislation has reached the floor of the House yet. The committee on Ways and Means continues its hearings on the question of extending the Reciprocal Trade Act for a period of three years. This week several witnesses from Wichita Falls appeared before the committee. They were J. P. Coleman, president of the National Stripper Wells Association, D. C. Norwood, president of the North Texas Oil and Gas Association, and George Anderson, the new Executive Vice President of that group. They were pointing out the disastrous effect that excessive oil imports would have on the domestic oil industry. The impact of excessive imports would have a greater effect in Texas probably than any other state. Since we produce about 60 per cent of the oil produced in this country, we would have to absorb a greater proportion of the imports in our market. Since 1941 the imports of oil have risen from about 5.5 per cent of the domestic demand to a level of 13.7 per cent in 1954. If imports continue this steady increase, they can have only a deadly effect on the domestic industry.

This week the House unanimously approved the president's request to draw which we would defend Far East. This action is evidence to the world that the United States will not appease aggressive nationalism. I hope, however, that resolution will not be passed by anyone as setting a precedent that the President must move our forces as he thinks for the welfare of this country would be a sad day if it were easily achieved because a situation could arise where he would not act at night or instantly out having time to consult one.

This week the House also impossibly voted to continue more years its Special Commission on Small Business whose job is to investigate the problems of small business men insofar as relate to the government's oppress unfair competition committee will do an outstanding job.

Wyoming granted woman suffrage in 1893.

Dallas Couple Plan to Adopt Orphan Girl

Mr. and Mrs. Harry W. Black of 3223 Maryland, Dallas, who took care of Cheryl Hambrick for a month during the critical illness of the child's mother, Mrs. Lily Hambrick, a cancer victim, who died Tuesday of last week, are now prepared to accept her as their very own. The little 6-year-old girl's father was killed early Sunday, Jan. 23, in a fire that destroyed their home in Dallas.

Mrs. Black is the second daughter of Mrs. Joe Orr of Margaret. After the Dallas News told Cheryl's tragic story, the Blacks were almost overwhelmed with calls from folks wanting her — wires from Michigan, Ohio, Connecticut, and Florida, and from all over Texas.

According to the Dallas News story, several weeks before, Mrs. Hambrick had asked Mr. and Mrs. Black to take care of her little daughter. The father, before his death, agreed, too, that he wished the Blacks to adopt Cheryl.

A. W. Lilly of Zephyr, a former Foard County sheriff, is here visiting relatives and friends.

Minister Wm. Tucker, Mrs. Tucker and their two children attended a ministers' meeting held in Clovis, N. M., Tuesday.

Monday brought \$20 and down a year ago this week.

Old ewes, however, were selling well ahead of current prices a year ago. Monday's values of \$6 to \$8 on killers compared with \$6 to \$9 last year and some light-weight fancy ewes were selling to \$10 and above for slaughter. Feeder lambs at \$17 to \$20.25

WILLYS 4-Wheel Drive TRUCK

NOW 53% MORE POWER

The Truck that goes through sand, mud, snow, ice, over rough open country or up 60% grades

Performance under severe difficulties — performance when you have to get through — that is the known performance the Willys 4-Wheel-Drive Truck can deliver.

On smooth roads, under normal weather conditions this Truck operates economically on 2-Wheel-Drive, just as does any ordinary truck.

When heavy snow blocks highways, or you have to take off over rough open country or mud-heavy roads that bog down other trucks, you can shift instantly into 4-Wheel-Drive — and get through. Yes, a Willys 4-Wheel-Drive will get you through when others fail.

The 4-Wheel-Drive principle, made world famous by the 'Jeep', with power delivered equally to each one of the four wheels, distinguishes this truck from any vehicle in its weight class.

Powered by the great 6 cylinder 115 H.P. Super-Hurricane engine, this sturdy truck climbs up to 60% grades with full payload.

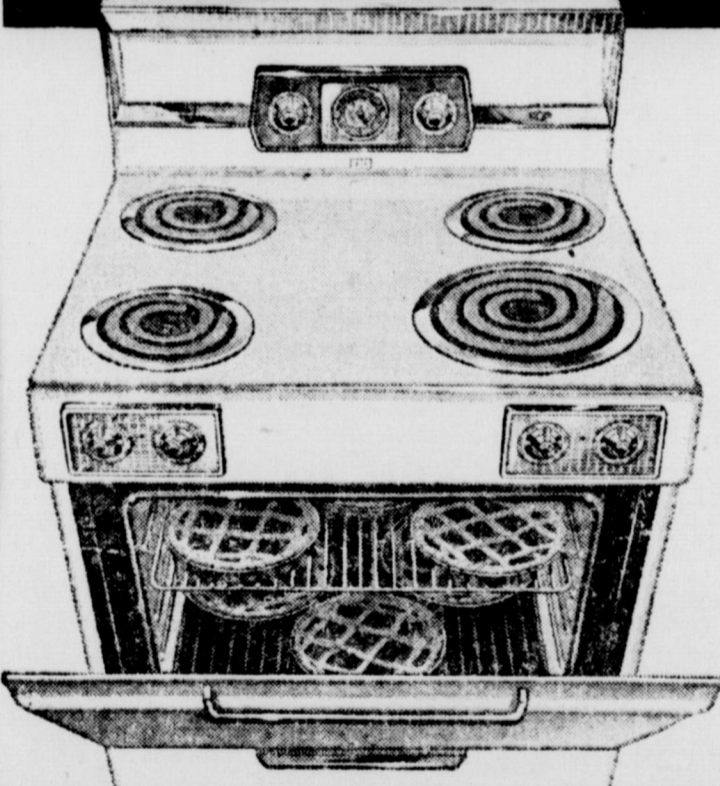

If your business demands getting your payloads through without fail, see the Willys truck at Willys dealers today. WILLYS MOTORS, INC., Toledo 1, Ohio.

Home Demonstration Notes

MRS. MARY D. BROWN

By now all of the clubs should have heard the committee recommendations and voted on them. Remember, these recommendations are goals which we are working towards during the year.

Last Monday, Mrs. Walter Thomson, County THDA chairman; Mrs. Verda Bell, County Council chairman, and I attended a training meeting in Benjamin on Texas Home Demonstration Association work. This meeting was very informative and I wish that more of you could have attended.

This month each club is to elect a nominee for delegate to the District THDA meeting to be held in Archer City April 14. From these 7 nominees the THDA committee will elect 3 to attend the District meeting as delegates.

Also this month each club is to elect a nominee for County THDA chairman. This chairman will take office after the state meeting in August.

Our recipe this week is for **Eggs A La King**

1/4 cup butter or margarine, 1/4 cup flour, 1 teaspoon onion salt, 1/4 teaspoon pepper, 2 cups milk, 2 tablespoons ketchup, 1/2 cup cooked or canned peas, 2 tablespoons chopped pimiento, 1 cup sliced, canned mushrooms, 6 hard-cooked eggs, sliced, 6 slices tomato, 3 English muffins.

Melt butter; add flour, onion salt, and pepper; blend until smooth. Gradually add milk, stirring constantly until thickened. Add ketchup, peas, pimiento, mushrooms and sliced eggs. Heat thoroughly. Broil tomato slices 5 minutes. Split English muffins in half; toast. On each half place broiled tomato slice. Pour creamed mixture over. Serves 6.

In 1953, 8,600 pedestrians were killed in U. S. traffic accidents.

Boy Scout Week to Be Observed Feb. 6-12

Through many varied activities the nation's 3,660,000 Cub Scouts, Boy Scouts, Explorers and adult leaders will observe the 45th anniversary of the Boy Scouts of America during Boy Scout Week Feb. 6 to 12, with its theme, "Building for a Better Tomorrow."

Boy Scout Week is the largest annual single observance by young citizens. Since Scouting's incorporation in Washington, D. C., on Feb. 8, 1910, more than 22,750,000 boys and leaders have been enrolled.

The 95,000 units in all parts of the nation, its territories and overseas bases, will dramatize through demonstrations, exhibits, window displays, and "pot luck" dinners with parents participating the purpose of Scouting and the rich heritage it has in this country.

Boy Scout Week completes the National Conservation Good Turn the Scouts have undertaken at the request of President Eisenhower, their Honorary President. Members will report to their sponsoring institutions and public officials their accomplishments in arousing "public recognition of the need for adequate protection and wise management of our soil, water, mineral, forest, grassland and wildlife resources."

President Eisenhower will honor in the White House during Boy Scout Week the 12 Boy Scouts and Explorers having the most outstanding records of conservation.

Mavourneen is an Irish word meaning "my darling."

In 1953, 2,140,000 Americans were injured in traffic accidents.

High Nichel Alloy Production

The production of high nichel alloys at the rolling mills of International Nichel in the United States and the United Kingdom continued to expand in response to defense requirements during 1953. In these countries and Canada there were broad applications of the Nimonic and Inconel series of nichel-chromium alloys in components of both jet and reciprocating aircraft engines. Mo-nel, a nichel-copper alloy, and Inconel continued to be used in industry in approved uses. Incoloy, a nichel-iron-chromium alloy, found continued demand for use in heat-resisting applications.

Spedding on U. S. streets and highways injured nearly 700,000 men, women and children last year.

How to tell if it's a modern short-stroke engine: check the specifications of bore and stroke. In a short-stroke engine the "stroke" is as short as, or shorter than the "bore."

Make sure you get Money-Saving short-stroke power. Only FORD has it in every truck!

THIS YEAR, the truck industry is beginning to follow Ford's lead to modern short-stroke V-8 engines. Shorter stroke prolongs piston life up to 53%. Engines last longer! You get more usable power. You can save up to one gallon of gas in seven!

But here's the big thing to remember: FORD and only Ford gives you a short-stroke engine in every size truck from Pickups to tandems—available now! Ford, most experienced builder of V-8's in the business, has four short-stroke V-8's and the industry's most modern short-stroke Six.

So, before you buy any new truck this year—look under the hood! Go modern! Go short-stroke! Go Ford Truck—the Money Maker!

New Ford Trucks for '55 give you modern short-stroke power in every one of over 190 models! Shown: new F-600, GVW 16,000 lbs., with choice of three short-stroke engines!

GM'S BIG SHOW MAKES DEBUT

GM OPENS 1955 MOTORAMA—New cars are introduced to the accompaniment of a Broadway musical revue in the General Motors Motorama of 1955, shown here as it made its nationwide debut in New York's Waldorf-Astoria Hotel January 19. A specially-designed stage provides "flying turntables" for the 1955 GM cars and an elevated platform for a 26-piece orchestra—as well as a 900-square-foot pool of water and other features. The Motorama, which also highlights experimental dream cars, a "Kitchen of Tomorrow," a fashion show, and other attractions, will move from New York to Miami, Los Angeles, San Francisco, and Boston.
