TWO POST OFFICES AND RURAL ROUTE IN FOARD COUNTY DISCONTINUED

Foard City Post Office Established Back in 1907

According to the best information obtainable, the post office was established in Foard City in 1907 and Frank M. Edwards was the first postmaster. He was followed by Dr. C. Macomber, community physician, and the succeeding postmasters were the late Hugh McLain, M. L. Owens, the late Buster Whitby, and Mrs. Cressie Farrar, who held the position until the post office was discontinued on March 31, Mrs. Farrar was postmistress for 13 years.

The first rural route was established in 1913 and A. L. Sloan, now of Crowell, was the first carrier. The late J. E. Atcheson delivered the mail for a few years and was succeeded by Grady McLain, who served until the rural route was discontinued March 31, along with the post office.

Mr. McLain was transferred to Knox City and is now carrier for Route 1 out of that town. He and his family have moved to Knox City to make their home.

Mr. and Mrs. Farrar will operate their store in Foard City for a while longer; however, their future plans are indefinite. Mrs. Farrar stated to a News representative Tuesday that for some time she and Mrs. Bradford of Margaret had received hundreds of requests from post mark collectors all over the United States for last-day post marks and also for autographs.

Foard City People Honor Postmistress and Route Carrier

The people of the Foard City community honored their postmistress, Mrs. Cressie Farrar, and their rural route carrier, Grady McLain, with a surprise party and basket supper in the recreation room of the Foard City Church Friday night, March 25, when they gathered there to express their appreciation for the unselfish service rendered during the time they had handled the mail for the community.

Mr. McLain was presented with a gold watch with suitable inscription on the back, and Mrs. Farrar was given a Duraflex flash bulb camera with all equipment.

Kenneth Halbert acted as master of ceremonies and presented the gifts.

The postoffice was closed and the rural route discontinued on Thursday, March 31.

Margaret Post Office Served This Area 75 Years

The 75-year-old post office at Margaret, oldest in this area, was closed at the end of business on Thursday, March 31, when Postmistress Lorena Bradford, wife of W. F. Bradford, delivered the last sack of mail to A. L. Shinn, mail clerk on the southbound Santa Fe train. Mr. Shinn is a veteran mail clerk on the Santa Fe of 42 years service.

The post office was established in 1880 about six miles north of Crowell at what was known as "Pease City" and B. E. Lower became the first postmaster and the late Mrs. Mary F. Wesley, wife of John W. Wesley, assistant. In 1881, Mr. Lower resigned as postmaster and Mrs. Wesley was named postmistress.

Pease City was abandoned in 1885 and the post office was moved to Old Margaret after Hardeman County was organized in December, 1884. Margaret was the first county seat of Hardeman County, and the post office established by Mr. Lower was the county's first post office. The Pease City post office served a large area including territory which was later to become Hardeman, Cottle, Motley and a part of Childress County.

Mrs. Wesley continued in charge of the office until her son, H. A. (Herb) became 21 years of age. He assisted his mother for about six years before assuming the duties of postmaster, and when he retired in the latter part of October, 1935, concluded a total of 55 years the Wesley family had been in charge of this office.

When Mrs. Wesley was appointed postmistress, Mr. Wesley was made mail carrier, making two trips a week, exchanging mail at Wortham, a cow camp two miles from where Vernon is now located. Following Mr. Wesley's resignation, the late S. J. Boman, manager of Boman & Co., a general store in Margaret, was made postmaster, and his daughter, Mrs. Bradford, was assistant. Mr. Boman served until 1939 at which time Mrs. Bradford became postmistress, a position she held until the close of business on March 31.

The early history of the post office was compiled and written by Mack Boswell over 20 years ago when many of the old-timers were still living. He is now editor of the Brownwood Bulletin. So it is, the march of time and progress, has closed an institution that had served its community well for a period of seventy-five years.

Final Rites Held Last Week for World War One Veteran

Final rites for Lee Roy Bratcher, resident of Crowell since he was very young and a veteran of World War I, were concluded Wednesday afternoon, March 30, at 2:30 o'clock with military services at the cemetery conducted by the Gordon J. Mr. Bratcher was well known for his ability as a chef and he had cooked at cafes and ranches for many years.

Diggs, Freddie Reichmayer, Joe Glover, Clinton McLain, Leonard Tole, Ray Iseng and Tom Ellis. Flag bearers and color guard included Glenn Goodwin, Otis Coffey, Ed Dunn and J. T. Agreement has been reached between the General Telephone Co. and Rural Telephone Association whereby the toll charge on rural telephones was released on April 1 in Thalia, Foard County and other communities of the county. This gives the rural telephone users extended area service at the regular monthly price of the telephone.

According to Miss Alma Patton, manager of the Crowell exchange, rural patrons who want local service should dial 8, and when they want long distance, dial 0.

Plans Perfected for Crowell to Have a Swimming Pool

Plans have materialized this week under the leadership of Mayor Hubert Brown and the City Council whereby Crowell is to have a new \$28,000 swimming pool.

Jack Turner has donated the half block of land north of his home for the site of the pool. Buster and Leo Cates and A. R. Sanders have agreed to donate the dirt work required in digging the hole.

The pool will be 100 feet long, 60 feet wide at one end and 40 feet wide at the other, and will be surrounded by a 6-foot-high chain link fence. A filtration plant will be located on the narrow end of the pool and the water will circulate continuously. On the other end will be located the dressing rooms, shower baths and toilets.

Whenever the pool has to be drained, the water will be pumped onto the grass at the football field.

The City officials will be in charge of building the pool and it will be leased to the Crowell Consolidated Independent School District for a 10-year period and will be operated by the school.

Leon Speer has been appointed to have charge of taking donations from the public. Mr. Speer will organize his workers in teams and make a thorough canvass for contributions.

Senior Class Donates \$200

The Senior Class of Crowell High School was among the first, if not the first, to make a cash donation. A check for \$200.00 was handed to Mayor Brown during the meeting of the Rotary Club Wednesday afternoon.

A swimming pool is a badly needed community recreation center and no doubt everybody will be glad to assist this worthy cause in every way possible.

THE CHALLENGE

Teaching is the greatest professional challenge in the world today. When teachers stop teaching, all other professions will cease. A nation is no stronger and no weaker than the people who compose it; and it is the responsibility of the teacher to preserve this strength by producing worthwhile, useful citizens. It is through education that citizens attain the maximum amount of perfectibility in all aspects of their daily living.

A field that is not farmed soon becomes wild and overgrown with useless matter which drains the soil of its richness and gives nothing in return. If it were not for education, people would fall to

recognize any similar waste in their pattern of living. Education therefore is a controlling force. Pupils in a classroom may come from uneducated homes, and they may never come under the influence of a preacher. Their future, therefore, lies in the hands of the teacher. In order to influence them morally, the teachers themselves must have high moral and spiritual standards. Moral education is a primal necessity of social existence.

The teacher and student must combine all the contributions of the past, the abilities of the present, and the hopes of the future. For the preservation of our Union they must conscientiously discharge the great branches of our public trust, faithfully to preserve it, wisely to administer it, and vigorously to improve it. In their hands lie our future at home, and our consideration and dignity abroad. — McMurry War Whoop.

BAND ATTENDS CONTEST AT JACKSBORO

At the Jacksboro Invitational Meet last Saturday, April 2, the CHS band made a good showing in concert playing, sight reading, solos, and ensembles.

They were given the second place trophies for the second best band in the class in both concert playing and sight reading.

E. L. Rickard, director, does not know for sure the division ratings in solos and ensembles, but he hopes to receive them by Wednesday. In competitive competition against all the other players of their particular instrument, Mr. Rickard does know how the following members rated: James Choate, first on trombone, and third on baritone; Robert Davis, second on baritone; Barbara Fairchild, second on oboe; Billye Elliott, second best twirler, and the twirling ensemble composed of Billye Elliott, Frances Kincaid and Nelda Brooks, made third place. Mr. Rickard said that the above students probably all received a division rating if they were placed in the top three.

SYMPATHY TO MRS. KENNER

The faculty and students of Crowell High School express their most sincere sympathy to Mrs. Doyle Kenner, whose brother, Carl Patterson, passed away Sunday, April 3. Mr. Patterson was long a resident of Benjamin.

LARGE NUMBER ENTER DECLAMATION CONTEST

Crowell High School had 23 students to try out for declamation this year. This is perhaps the largest number that has ever participated in the declamation try-outs in any one year. The four winners will represent Crowell at the district literary meet in Burkburnett on Friday, April 15.

The following seven junior girls presented declamations: Sandra Sanders, Carolyn Monkes, Patty McGinnis, Jana Black, Sandra Campbell, Betty McKown and Mildred Pendergraft. Jana Black was the winner with Carolyn Monkes being the alternate.

The seven junior boys were James Choate, Ray Thomson, Charlie Bell, Kerry Brown, Larry Love, George Morgan and Noel Wilkins. Ray Thomson was the winner in this group, with Charlie Bell winning the alternate position.

The five senior girls, Wanda Murphy, Francene Coffey, Joyce Ribble, Sandra Choate and Mary Hudson, Francene Coffey will represent Crowell at the District meet, with Wanda Murphy acting as alternate.

The four boys that tried out for senior declamation were: Gordon Graves, James Doyal, Melvin Washburn and Joe Calvin. Gordon Graves won in this department and Joe Calvin will be the alternate.

PRINCIPAL PROVES TO BE PRANKSTER

Breaking the April Fool tradition of students playing jokes on the teachers, Henry Black, among other faculty members, thoroughly enjoyed reversing the situation this year. His brightest moment of the day came when Sheriff Sherman McBeath and

OUTDOOR DRAMA AT THE RIALTO SUNDAY — Spencer Tracy, father of the groom in this case, bestows his blessing on Robert Wagner and Jean Peters in "Broken Lance."

Cinemascope western stressing family drama and filmed in color by DeLuxe. It's at the Rialto Theatre Sunday, Monday and Tuesday.

Deputy Dwaine Capps joined in the fun. The terrified victims—Sue Meason and Betty Sue Bartley. The two officers seemingly came when the girls were enjoying dinner in the home economics room, when they were "raided." After frantic arguments and denials, the law was convinced. However, Betty submitted some incriminating information about the previous Saturday night before they were allowed to leave.

QUITAQUE HIGH SCHOOL RODEO ATTRACTS CHS-ITES

Two students from CHS, Lowell McKinley and Bud Hammonds, were really "grabbi" leather" Saturday, April 2. They were attending the annual Quitaque High School rodeo, and riding, of all things, those "rip snortin', roarin', rarin' bulls." However, I'll wager that when Lowell climbed into the chute, the judges couldn't tell whose eyes were the bigger, Lowell's or the bull's. Nevertheless, Lowell agrees that all the rough rides and aches and pains were worth it, because he won his first award, fourth place. Congratulations, I think Bud will agree that the whole "affair" ended with a bang.

ABSENCES

The following students were absent one-half day or more due to sickness: Louis Rettig, Arleta Teague, Janis Crowell, Shirley Hough, Dwaine Orr, Charlene Borchardt, Albert Cates, Nelson Anderson, Johnny Webb, Janet Rashberry, Patricia Todd, Latrelle Duckworth, Peggy Golden, Barbara Hollen, Mary E. Norwood and Bettye Vessels.

The following students were absent one-half day or more due to other reasons: Mary Hudson, DuWayne Elliott, LaRue Diggs, Gaylon Whitley, Larry Rader, J. M. Cates, Joyce Ribble, Chun Gafford, Carl Wharton, Barbara Ford, Robert Kincaid, Frances Kincaid and Gordon Graves.

VOLLEY BALL SEASON STARTS

Coach "Tiny" Taylor's volleyball girls should see a good season this year, because they have all six members returning from last year's team that won district title. Those who return from last year's championship team are Sue Meason, Frances Kincaid, Billye Graves, Billye Elliott, Lena Faye White and Clara Fiske. Others who have reported to Coach Taylor are Zonell Eddy, Gail Knox, Peggy Long, Maxine Walker, Dana Roberts, Anna Marie Fiske, Joann Shultz and Charlene Hopkins. The girls play their first game next week.

KAT TELLS

To those who have survived April Fool jokes, we humbly dedicate this column.

Betty Sue and Sue are just now beginning to breathe again after their encounter with the law, and Mr. Hitt is busy thinking up ways to get even with Mr. Black, so on with the scandal.

Maxine was lonesome Saturday night because Dan had gone to a rodeo. They were together Friday and Sunday nights though.

Ask Carolyn Monkes about Mike's ring she wears around her neck. "Doesn't mean a thing," she'll tell you. We wonder!

Our nominee for most athletic couple is Ginger and Roy Don. They were double dating Saturday night because Dan had gone to a rodeo. They were together Friday and Sunday nights though.

Getting to be a regular Saturday night fixture at the Rialto are Marilyn and Bill.

Plans Being Made to Help Along Greater Gun Safety of Hunters

Howard D. Dodgen, Executive Secretary of the Game and Fish Commission, said last week that plans are being made to help along greater gun safety precautions in connection with hunting seasons.

The Executive Secretary said the need for greater attention to ordinary gun handling was emphasized during the last open seasons when a majority of the fatalities were attributed to youngsters.

phases to the reports," said the Executive Secretary. "Adult hazards seem to have been reduced, presumably because of safety efforts. But the youngsters' accident rate seems to have increased."

News from the Congress

by Congressman Frank Icard

It seems as though the hearings on legislation to limit the jurisdiction of the Federal Power Commission so as to prevent that commission from controlling the sale of gas by the independent producer will last much longer than anyone thought they would at the beginning. April 22 is now the date the committee seems to be shooting for to finish the hearings. The committee then will have to meet in executive session to finally approve one of the bills that have been introduced or to write a new one. Assuming that the committee does act favorably on the bill, it will then be at least the second week in May before they are in a position to ask for a rule to bring it before the House. It now seems to be a fair guess that the earliest we can expect to have the bill up for consideration in the House of Representatives will be sometime around the latter part of May or early June. The most outspoken opposition to the bill to date has come from the Republican side of the committee, the opposition being led by the ranking Republican member of the committee, Congressman Charles A. Wolverton of New Jersey.

This week I have attended a series of meetings arranged by a committee of grain sorghum growers from the Southwest concerning the support prices of grain sorghum. We have been explaining to the Department of Agriculture just what an extremely serious situation this important segment of our agricultural economy is in.

The House this week acted on the tax bill extending the 52 per cent corporate tax rate for another year and certain excise taxes and also acted upon the independent Offices Appropriation bill. This bill, as it finally passed the House, was cut considerably from what the budget estimates called for.

The extremely cold weather that struck Texas and the Southwest last week end also reached Washington. There was a great deal of concern here as to what effect the cold wave might have on the famous cherry blossoms; however, it now appears that they have survived the cold and that the 500,000 people who will come here from all over the country to see them will not be disappointed.

Easter Sunrise Service to Be Held at Truscott

A community Sunrise Easter Service will be held at the Methodist Church in Truscott next Sunday morning, it was announced here Monday.

Austin, Tex.—Two big proposals for the state's water conservation program won in the Senate.

One is Sen. Dorsey Hardeman's \$100 million state bond issue for aid to local projects. It calls for a constitutional amendment vote in September. The other is an enabling bill to start operations if and when the amendment is passed.

House sponsors on this, and on the Parish \$200 million bond bill to aid local projects have delayed calling for final action. They don't think they have enough votes.

Tax Blank
An openly hostile revenue and taxation committee shunted Rep. Jerry Sadler's \$160 million-a-year gas processing tax bill to subcommittee.

It would levy a 1-cent tax on all Texas gasoline and repeal the 4-cent gas sales tax. Opponents said it would bring a 19-cent cut in crude oil prices, costing Texas \$190 million a year.

The committee left buried the two bills embodying Gov. Shivers' original tax program. It included a 2-cent hike in the 4-cent gas tax and a 1-cent boost in the 4-cent cigarette tax.

This confirmed last week's report that administration forces had abandoned the two single-shot revenue bills and pinned new hopes on Revenue Chairman Stone's omnibus bill. It would permit increases in any of the 100-odd present taxes.

The billion and a half dollar House general appropriation bill (for two years) was passed by the Senate which substituted its own version.

When the House refused to concur in Senate changes, the way was opened for a joint conference committee to resolve the differences. Lieutenant Governor Ramsey has named five Senators to the committee and House Speaker Jim Lindsey five.

Delaying Action
Special session speculation again comes up.

Sen. Jimmy Phillips saw his filibuster record fall this week to Sen. Wayne Wagonmiller. Like Phillips, however, Wagonmiller lost his battle. As soon as he stopped talking, the Senate tentatively approved the bus registration fee measure he was

an ensemble. These individuals were competing against members from all 18 bands entered.

Other students playing solos but not placing in the top three include: Elizabeth Davis, alto saxophone; Jerry Fairchild, alto saxophone; Robert Fish, bass horn; Jeannie Johnson, clarinet; Gail Knox, clarinet; Bettie Linda Knox, clarinet; Patty McGinnis, flute; George Morgan, trumpet; Lula Scott, French horn; Linda Teague, clarinet; and Noel Wilkins, baritone.

Other twirlers entered include: Nelda Brooks, twirling solo; Barbara Fairchild, twirling solo; Frances Kincaid, twirling solo; and Sue Meason, twirling solo. A twirling duet, made up of Barbara Fairchild and Sue Meason, also was entered. Four additional students entered twirling solos in the junior division. They were Jerry Fairchild, Jeannie Johnson, Bettie Linda Knox and Sandra Sanders. These girls will try out in May for the positions that will be left vacant by graduation of Billy Elliott, drum major; and twirlers, Billy Graves, Frances Kincaid and Sue Meason.

Accompanying the band on the trip was George Fox and Allan Taylor, bus drivers; Mrs. Foster Davis and Mrs. Henry Fish, chaperones; Mr. and Mrs. J. B. Fairchild and Mr. and Mrs. Goodloe Meason.

fighting. When it was all over, weary Senators suddenly discovered the marathon talks had killed two full "House bill" periods in the Senate, with only one House bill passed in two weeks.

Observers saw that, with Shivers' entire program still hanging fire, and four more Wednesday filibusters in the Senate capable of killing all of it, a new switch in administration strategy might be possible.

Thought was that Governor Shivers might ask the Legislature to lay aside the tax bill and the appropriation whopper, and pass other legislation before theoretical adjournment May 11.

That would mean his calling a special session on taxes and the appropriation bill. Appropriations must be in effect Sept. 1 to keep the schools of government turning. He would have control in a special session, lacking now.

Point Won
At any rate, the Governor won his point on the bill regulating securities.

As the legislature headed for what looked like its worst jam in the final month of session, he made a firm request that the House adopt a Senate bill regulating securities, particularly bringing certain trust company stocks under state supervision.

"I hope the House will disregard frantic efforts of certain speculators, promoters and others," he said.

Land Case
Bascom Giles' legal troubles mounted when a group of San Antonio GI's filed a civil recovery suit in 53rd District Court.

Asking \$33,000 judgment against Giles, the veterans charged that he made that much in "personal profit" out of a veterans' land deal.

At the latest count, Giles faced two criminal indictments, charging conspiracy to commit theft of state funds and accepting a bribe; four felony theft charges, and four civil recovery suits.

Twice Giles has refused to testify in court about the veterans' land scandals and charges against him.

"Open Door" Bills
Attorney General Shepperd has expressed "deep hope that action will be taken on the Open Door to Good Government bills during this session of the Legislature."

Most of the bills have been reported favorably by the committee, he pointed out. Still are being held for committee study.

"They are sound, but proposals to aid better regulation in Texas, to give the bigger voice and to more reveal official wrongdoings," he said.

Shepperd referred to dealing with full public use of public records. All are pending in the Representatives.

Most of the 13 bills introduced and are in the Texas Press Association's other groups interested in government.

Cross Filing
Cross filing in politics is out as the result of a bill by both houses and the Governor.

This bill by Rep. Merrick of San Antonio, candidates to run for office of two or more parties for the same office.

Controversy arose over filing when Governor and other state candidates were in 1952 as the nominees of the Democratic and the can parties.

weakness of fat cattle and fat calves is the expected domination of the Easter dinner tables by ham and turkey. Nationwide promotion of Easter hams as handled by the National Livestock and Meat Board has all the purveyors of red meat certain that ham will dominate the holiday board.

The Texas Turkey Federation and the National Turkey Federation are also pushing turkey as an Easter dinner specialty and between this drive and the ham promotion the Easter lamb trade took a bad tumble last week.

Eastern seaboard wholesale meat dealers, the No. 1 handlers of lamb, openly expressed fears for the lamb market last week in the face of the all-out ham drive. Another factor that weakens the immediate cattle trade is the continuation of sub-normal moisture in much of the Southwest and the accompanying blowing of the soil. Even the most optimistic cattle buyers are wary of going into the summer without a season in the ground, and much of the Southwest needs rain right now.

Fed steers and yearlings and cows opened steady to 50 cents lower. Stockers and feeders were mostly 50 cents lower. Fat calves and bulls sold about steady at Fort Worth Monday. Top fat cattle were club steers which sold at \$26.50, and some commercially

fed cattle sold at \$23 and \$24. Fat cows drew \$12 to \$14.50, and canners and cutters sold from \$8 to \$12. Bulls \$10 to \$15. Fat calves \$21.50 down. Stocker calves and yearlings \$16 to \$22.

A good recovery from the lows of last week in sheep and lamb prices continued at Fort Worth Monday. Average prices of most sheep and lambs were fully \$1 and in sport \$1.50 to \$2 above the extreme low spots of last week's trade.

Good and choice fat spring lambs drew \$20 to \$23, and shorn fat lambs cashed at \$19 down. Old wethers drew \$13 down. Old ewes sold from \$5.50 to \$7, and old bucks drew \$4 to \$5. Yearling muttons sold around \$16 down.

Good and choice butcher hogs topped at \$8.25 at Fort Worth Monday. This was 25c above the close the week before. Less attractive butchers sold from \$17 to \$18, and packing sows sold for \$14 to \$16.

ROAD DELIVERY

Lansing, Mich. — One-third of all the motor vehicles shipped from factories to buyers today go by rail and boat. The others go over the highways. Before World War II, only 56 per cent of the deliveries were made via the highways.

Monel Gasoline Tanks

Light gauge Monel sheet is being increasingly employed for the gasoline tanks of many new motorboats because it resists corrosion and inhibits the formation of fuel gums that can clog gas lines and strainers. Its strength also provides a valuable safety factor. Another advantage of Monel for this use lies in the fact that it can be easily formed and welded and thus can be made into any approved type of motorboat gasoline tank.

International Nickel Output at Record High

Production of nickel by International Nickel from its own ores during 1954 set a record at about 275,000,000 pounds. This high output was made possible by the completion of certain mining and metallurgical developments climaxed years of planning and research and the progress made in Inco's underground mining expansion program.

A forerunner of the modern Navy destroyer called the torpedo boat destroyer was developed in 1894 to combat the threat of the Spanish torpedo boats.

New Iron Ore Recovery Plant

Steel erection for International Nickel's iron ore plant near COPPER Cliff, Ontario, was begun shortly before the end of 1955. The first unit of an operation which will ultimately recover about 1,000,000 tons of high-grade iron ore annually from the company's nickel-copper ore deposits in the Sudbury District, the plant will use an atmospheric pressure ammonia leaching process developed by Inco.

Versatile Nickel

A half century ago, the important applications for the metal nickel were relatively limited. Today, mainly through development, research and sales activities, its versatility has become well-known throughout the industrial world. Nickel is an important alloying element for steels — particularly stainless steels. It vastly improves the properties of cast irons, and is alloyed with chromium, iron, copper, aluminum and other elements to give special properties for mechanical, chemical, electrical and other purposes. It is employed in large quantities in plating and is a vital element in almost every branch of transportation and communication; in the processing and distribution of fuel, and in the production of natural resins.

MRS. MARY D. BROWN

At the Gambleville Club last Friday, Mrs. Buster Cates said that she had used the doughnut recipe several times already and her family really did enjoy them. As you know, this was Mrs. Bob Thomas' recipe that I had in the paper several weeks ago, so if your family likes doughnuts you might like to try it.

Homemakers interested in trimming the food budget or keeping family figures in line, can rely on non-fat dry milk solids or dry milk to help.

Dry milk is high in food value — only the fat, vitamin A, and some of the amino acids contained in whole, fresh milk have been removed. This means fewer calories.

It is less expensive than whole, fresh milk and can be stored without refrigeration in its dry form. After it has been converted to liquid form, it should be refrigerated.

There are many ways to use this nutritious food in family meals. It can be whipped for use as a dessert topping, chilled and used as a beverage, converted into a delicious buttermilk, or used

in any recipe that calls for milk. Use it in the dry form in preparing cakes, cookies, biscuits, muffins, other quick breads and cereals. In such recipes, mix the dried milk solids with the other dry ingredients and use water as the liquid.

One way to use dry milk is in a Cocoa Mix
4 c. nonfat dry milk, 1 c. cocoa, 1 c. sugar, 1/2 tsp. salt.
Mix and sift together 5 times. Store in tightly covered jar. To make beverage, use 1/4 c. mix to 1 c. water. Add to water stirring until smooth. Bring to a boil, stirring constantly, then place over boiling water and cook 15 minutes. Or cook over direct heat in heavy pan 3 minutes. Beat with rotary egg beater just before serving.

Diamond will burn, with sufficient heat.
