## How to Keep a Free Press FREE

SELDOM does Freedom of the Press disappear, in one annihilating blow.

In countries where the Press has been chained, there was first a period when it failed to realize and resist the beginnings of its end - the first encroachments on its freedom. There were powerful interests which wanted certain facts "kept out of the newspapers." There was pressure here and pressure there to have the truth withheld.

Before the Press of any nation succumbs to tyranny, there always has been a period of failure to speak out.

Here in America there is only the limitation of national security - the necessity to protect and preserve confidential military and scientific information - which can be accepted by a Press that is determined to stay free.

America's newspapers have made, and will continue to make, a conscientious effort to protect that security - at the same time keeping the people informed as fully as possible on all matters concerning their welfare. So long as American newspapers pursue that policy fearlessly, our Press, our people and our country shall remain free of tyranny.

### IN THE NAME OF JUSTICE

San Antonio, Tex.—A tamale salesman who can't speak English had a driver's license finally after justice went out of its way to

help him get one. The salesman, Fabian Hernan-dez, 29, was hauled into court for the fourth time for driving without a license. Asked, "Why in the world don't you get a license?"
Hernandez replied that he had been to the state highway license department several times, but no one there could understand what he wanted.

Arresting Patrolman Raymond

Church offered to go with Hernandez to get the license—but Church can't speak Spanish.

A Spanish-speaking secretary solved that problem, and Hernandez passed the test with flying colors. Judge Harold Hall was so pleased he dismissed the last two tickets against the tamels sales. tickets against the tamale sales-

## It's one of Chevrolet's dollar-stretching Delrays!

The handsome Delrays are the lowest priced of all the low-priced Chevrolets. And they're full-size Chevrolets—wider, lower and nine lively inches longer. In size, in style, in fine details and construction, no other car priced so low gives you so much!

When you're thinking about buy-ing a car because of its extra-low price, there are two things it pays to watch for. First, be sure you get full measure when it comes to size. Don't settle for a cut-down bargain model. Second, be sure you get all the equipment and conveniences that you'd normally

expect to be standard in a car. Chevrolet's Delray models are the lowest priced in the line. But they're full-size Chevrolets-and they're equipped to do you proud. Nothing else near the price has what's in this package. See and drive this big beauty soon at your Chevrolet dealer's!
