

## This n That

By Lucy Burfield

Have you purchased your copy of the new book being circulated in Baird these days? The book, entitled, "Early Days in Callahan County", was written by a local author, B. C. Chrisman. Mr. Chrisman has very skillfully and colorfully captured early day events in this county in beautifully written passages. Copies of this book may be obtained from City Drug and the Baird Star.

BAIRD YOUNGSTERS are to be complimented on the very fine way they conducted themselves Halloween night. Tuesday morning, there were no usual soap smears on store windows and this writer evidenced no overturned trash cans or other signs of Halloween misbehavior.

DID YOU KNOW that consumers who buy from mail order catalogs support one of the most expensive forms of advertising?

The catalogs distributed by Sears' mail order division cost five cents for each dollar sales. In contrast, the company spends less than 2 cents per dollar sales on local retail advertising.

From \$60 million in catalogs advertising the company derives approximately one billion dollars in sales. From \$80 million in newspaper advertising, more than \$4 billion dollars in local retail sales is stimulated annually.

In each case the consumer gains from the advertising investment. Shopping information and the low cost of large volume distribution more than compensate for the advertising expense.

It is significant, however, that both the seller and the consumer profit more when effective advertising and selling is done locally. Sears, like every major chain store, realize that it must take on the characteristics of an independent local store to attain maximum results.

Unfortunately, some local merchants are unable to recognize their natural advantages. The larger stores spend lavishly to attempt to create an image of being friendly, reliable, and locally centered. These qualities are inherent in the smaller independent retailer. Yet, the consumer may overlook the difference when the local merchant neglects to inform the public of his distinctive services.

Too often, resultant failures which are blamed on overwhelming competition, are really failures in advertising.

## RANGER TAKES BAIRD 39-7

The Bears lost to the Ranger Bulldogs 39-7 in District 10-A play in Ranger Friday night, to retain their winless record for the season.

Baird's only touchdown came in the fourth quarter when quarterback Tommy Bearden ran two yards to score. The conversion was kicked by J. D. Faircloth, bringing Baird's total score to 7.

This Friday, the Bears will travel to Albany. Kickoff time is 7:30 p. m.

### Baird Crop Drive Nets \$30 Here

A dozen young people from the different churches in Baird united Monday night and collected \$30. for the Christian Rural Overseas Program.

Rev. Albert Cooper, pastor of the First Methodist Church served as Chairman, expresses his gratitude to the young people who helped and if you would like to donate, the drive is still open.

## Tuesday Important Day For Citizens

Tuesday's general election looms as one of the most important voting days ever to occur in a so-called "off year" when the presidential race is not on the ballot.

Political observers, viewing the light turn-out in the Spring primaries, are justifiably alarmed about the prospects of a small vote.

Their concern is mirrored by statistics. Since 1936, the average turn-out in a non-presidential election has been a dismal 33.4 per cent of the eligible voters.

This should not be the case this year. Next Tuesday, the fate of 16

Congressional Amendments will be determined by you.

Next Tuesday, a spirited U. S. Senate race will end -- a race in which your vote must last six years.

### United Fund Still Short of Goal

Workers in the Baird United Fund report excellent response from local donors, with \$1,745.59 having been collected so far. Many donations are still needed before the goal of \$4,200 can be reached.

Charles Walker, Campaign Chairman, urges everyone to dig a little deeper this year than ever before for this very worthy cause.

Local organizations, whose share of United Fund proceeds are used entirely in Baird, are the Goodfellows, Baird Youth Club, Heart Fund and Library Fund.

Other organizations, who use a portion of their funds locally are the Cancer Fund, Polio Fund, Girl Scouts, Red Cross and Salvation Army.

### Baird Man Injured In Pickup Accident

Earl Blakley, 40, of Baird was injured Saturday five miles northeast of Abilene when his pickup smashed head on into a borrow ditch.

He was treated and released from Hendrick Memorial Hospital after stitches were taken in his lip, Saturday night.

According to Highway Patrolman, Jack Shields, the Blakley 1962 pickup came south off FM 1082, smashed into the rear of a car where the road intersects Texas 351 and then slammed into the ditch. Driver of the other car was not injured.

A twelve member jury at Cleburne reached its verdict at 8:45 Thursday morning, giving Paul Neeb a five year probated sentence. The jury deliberated around seven hours to determine the guilt or innocence of the 42 year old Callahan County man.

The seven man, five woman jury began their deliberations Wednesday, November 2, at 4:10 p. m. in Cleburne to determine Neeb's fate, who was charged with the September 19 shooting of Charles A. Ingram.

### 27 Students Make Honor Roll

The first six weeks of school showing good progress as 27 students make the honor roll in Baird High School as announced by Principal Ed Cotten. "A" Honor Roll-All grades 90 or above.

Freshmen: Ada Black, Marion Odom, Barbara McPherson, Tommy Townsend.

Sophomores: Franklyn Alexander, Juniors: Kerry White, Seniors: Cathy Townsend, Kenny Townsend, Carley Carrico and Joyce Howard.

"A" Average, average of 90 or above.

Freshmen: Sonny Collins, Rea Corn, Paula Godfrey, Howard Gordon, Cindy White and Donny Rowe.

Sophomores: Ronnie Hughes, Alan Towler, and Laura Smith.

Juniors: Elaine Henry, Evelyn Smalley and Jean Myers.

Seniors: Tommy Bearden, J. D. Faircloth, Peggy Gordon, Robert Green and Marcia Petty.

In his charge to the jury, Judge Jackson of the 18th District Court, instructed them to return a not guilty verdict, if they felt self defense was involved in the shooting.

After two days of testifying by Neeb in his own behalf, covering subjects from his pipeline job in Arizona, to his home in New Mexico, to his parents home in Baird, to locate his wife and children, only to find she was in love with Ingram and wanted to marry him.

Leading up to his testifying Wednesday, and leading attorneys for both defense and prosecution, a deputy and newsmen to a dry creek bed where two pistols and a portion of a box of shells lay partially covered with mud and leaves. One was a .38 caliber and the other a .25 caliber automatic.

Neeb trying to prove his honesty as he led the officials to the spot, said "I am honest and always have been."

Neeb related in court the events that led up to the shooting of Ingram, when he went to the Ingram house to get his son's television. Arguments between the two men over the affections of Neeb's wife, Ingram asking him to leave and Neeb preceding to get the T. V., Ingram reaching to his left rear for his gun and Neeb then pulled a gun from his belt and started shooting.

Defense attorney Thomas urged the jury to return an acquittal and said Neeb's honesty was proven when he asked to testify and then led officers to the guns.

Prosecution attorney Bob Mahanay said it would be a great injustice to turn Neeb loose. "He needs to be taken out of society for the safety of people around him."

A more humorous event during pre-trial duty in Cleburne was when Judge Jackson was checking all prosecution and defense witnesses for the Neeb trial. For some unknown reason Callahan County Judge Byron Richardson didn't report on Oct. 31. Judge Jackson then fined him \$100.00 or so many days in jail. Callahan County Sheriff Homer Price then said, "That's alright Judge Jackson, he can lay it out in my jail."

The fine was later revoked.

## Early Days In Callahan County

Here at last is a thoroughly readable historical account of Callahan County - its beginning and its growth - in a well chronicled story that doesn't leave one fact of its fascinating evolution, from untouched buffalo land to fast moving modern day living, unturned. With the fastidious hand of a perfectionist, author B. C. Chrisman has delved into archives of libraries, historical societies, and private collections of letters and data to paint a remarkable picture of West Texas.

Historically accurate as man and his written accounts can make it, Early Days in Callahan County begins even before the establishment of the county, in an effort to picture the world that spawned the westward movement. The turmoil of the Civil War... the need for new life, new beginnings, new dreams were all part of the move west and Chrisman tells here of the preparation this new land made,

with Forts and trails to speed along the great exodus from the East.

Although this book is remarkable from the historical standpoint with detailed accounts of the first telegraph lines, the Chisholm and Butterfield trails, the Forts, the Indian problems, the great heart of it is its account of the people. This is, after all, a history of one spot on the Texas map and the people who made it.

Rightfully author Chrisman devotes many of this 400-page book to pioneer people who came to Callahan County to build homes and who stayed to help build a nation. The ranch people, who turned wild prairies into cattle land, their trials and tribulations, are all here to be read and remembered. Even the brands that must have signified the hides from Longhorns to Angus and Hereford are here. Malby, Russell, Eubanks, McCoy, Hart, Windham, Merchant, Hatchett, Snyder, Dyer, Gilli-

land, Cutbirth, Flores, Berry, Ross and many others.

The story of Callahan County includes many people and many places. There are chapters dedicated to each town and community, Atwell, Admiral, Cottonwood, and small places no longer known other than by name.

Early day merchants, doctors, lawyers, professional men of all walks, are here in the pages of this book. Readers will particularly enjoy the portions dedicated to Dr. T. E. Powell, Dr. R. L. Griggs and others. Schools also come in for their part of the attention -- Dr. Collier and his family who contributed so much to the education of this pioneer country. You'll also find chapters on the lawmen of the County and their colorful experiences.

As if in adding jewels to an already golden crown, the author has studied his book with numerous pictures of places and people who played such a

large part in Early Day Callahan County. These are particularly clear, vivid and excellent reproductions.

If you have ever lived in Callahan County, in any part of it, in all probability you will find yourself somewhere in the pages of this book. Even if you haven't lived here but you still like a "wallpaper" good story of the real West, as it was lived by real people, you'll enjoy this book.

Author B. C. Chrisman would like to thank the many people who made this book possible, and to add to that list, Gene Swinson, who did the cattle brands included, and A. Dill, who did the picture on the jacket.

Callahan County extends its appreciation to Mr. Chrisman for the immeasurable work he did in giving its history a lively vivid book it can be proud of. Few places are so fortunate as to have a historian of this stature to guarantee that it will be known and remembered.

## FALL SCREWORM OUTBREAKS CONTINUE FOR SIXTH WEEK

Callahan County has had 3 confirmed screwworm cases during the two week period ending October 22, County Agent Jerry L. Lackey reported today.

The fall screwworm outbreaks continued for the sixth consecutive week, when 38 Texas counties had 123 confirmed cases. This brings the past six weeks total to 679, the largest number of cases reported since 1963.

Livestock producers are urged to continue their animal inspection activities and to collect and mail specimen worm samples to the Screwworm Eradication Laboratory at Mission. Collect specimens from all wounds found on livestock and

wildlife. Vials for sending in the specimens may be obtained from the County Agent's office, stated Lackey.

When specimens have been confirmed as screwworms, the farm or ranch will be treated or "hot-spotted" with sterile flies as soon as possible. Areas will not be hot-spotted until the specimens have been confirmed.

The group planned a bicycle hike for Saturday Nov. 12, at 10 a.m. They will cycle to the lake and have a sack lunch.

Any girl who is interested in girl scout work are invited to attend the regular weekly meetings held each Friday at 3:34 p.m. at the Girl Scout Hut. Parents are welcome to visit if they wish and are urged to support and encourage their daughter's work so much that much can be gained from their experience in learning by working together.

## OPLIN OBSERVATIONS

DAPHENE FLOYD

Mrs. Arthur (Pete) Frymire and daughters Jill of Sweetwater, were host for a surprise birthday party last Friday afternoon honoring her mother, Mrs. Albert Betcher Jr., at her home in Oplin. Mrs. Betcher or Era to all of us, opened her gifts with three of her sisters, Mrs. Sebe Monroe of Lawn, Mrs. Bessie Summerour of Baird and Mrs. Walter Johnson of Novice present to help present gifts. The birthday cake and punch were served to Mmes. Robert Windham, Lester Johnson, Jack May and Bland, Sebe Monroe, A. O. Clare, John Jordan, B. G. Poindexter, Walter Johnson, Lucien Pierce, Walter McBride, Alex McWhorter, Ray Floyd, Floyd Summerour, Freida Straley and Stella Yost. Several neighbors and friends who were unable to attend the party, called to wish Era a Happy Birthday.

Arile Nobles entered Callahan County Hospital last Sunday with what the doctor feared was a kidney infection or stones.

Friends and relatives in Oplin received word last Tuesday of the death of Jack Gorman, who was a resident of New Mexico. His wife is the former Libby Poindexter, and the couple were former residents of Oplin. Stevens Funeral Home of Coleman was in charge of arrangements and burial was in Novice Cemetery.

Someone is always remarking that Oplin doesn't have any young people, but let Halloween come around and more little "spooks" show up from somewhere. The Ray Floyds had 16 of them to knock at their door. Please do not accuse me of being prejudiced, but I think Jimmy Windham took the prize. Jimmy had me fooled, for I introduced myself and asked the young lady where she was from. You see Jimmy had on a blonde wig, a dress and eye makeup. What I mean he was a cute teenage girl. You parents should be proud of your youngsters for you have nice mannered children.

Mrs. E. F. Green from San Monica, California has been visiting at Baird with Mrs. M. N. George. After a month's visit here, she will leave Thursday for her home in California.

## CARD OF THANKS

We would like to thank everyone who helped to make our MFT Halloween Carnival a success this year. Our thanks and appreciation go especially to the business merchants who donated prizes and to everyone who worked so hard at the booths, Saturday night.

Mrs. R. E. Greene, MFT Pres. Mrs. Ray Black, Chairman.

Hi. Well here I am. The spooks  
didn't get me, although I saw  
several Friday night at the Hal-  
loween Carnival at Putnam. It  
was a real good Coronation. All  
of the kiddoes looked so pretty  
and did real good. The stage was  
very pretty. All in all, it was a  
good get-together.

We really been having pretty  
weather, but Mr. Weatherman  
talks like we will have some  
cold weather this week. Well, I  
don't care. Guess it is time for  
some winter.

Think John McIntyre is start-  
ing to strip cotton today, (Mon-  
day). He really has some good  
cotton.

We are sorry about Mr. Wag-  
ley of Putnam getting hurt Fri-  
day morning while working un-  
der a car. The car fell on him,  
chushed him up pretty bad. He is  
in Hendrick Memorial Hospi-  
tal in Abilene. He is in the in-  
tensive care unit but was doing  
as well as could be expected last  
night. We hope he comes along  
OK, but it will be a good while  
before he's well.

Mark and Ollie Burnam spent  
the week visiting in Midland  
with their daughter, Mary  
Everett and family.

Betty Mobley, Mabel Carrico  
and I were in Baird last Tues-  
day, visiting and attending to  
business. Visited with D. A.  
Yarbrough, and with Mr. and  
Mrs. Wilburn Carrico. Also stop-  
ped by the Baird Star office and  
met Mr. and Mrs. Burfield, who  
are our new publishers and edi-  
tor. Was so good to meet them.

Guess I better get this in  
the mail, so be sweet and I hope  
to see you next week.

**TEXAS IS ON THE MOVE!**

In virtually every field of endeavor, our state has made dramatic progress  
the past four years under the strong leadership of Governor John Connally.  
His administration's bold, yet sensible programs have helped provide new  
opportunity and a better way of life for all our people.

**IMPROVED EDUCATION** — Since 1963, state investment in higher education has  
doubled, and faculty salaries have increased 40%. State support of local  
public schools have increased 44% in four years, including a \$100 million  
teacher pay raise enacted in 1965. Technical and vocational training pro-  
grams have been vastly increased; junior college enrollment doubled during  
the current bi-ennium. Special literacy programs for migrant workers and their  
children have been expanded. A college student loan fund of \$85 million has  
been established. And a special Governor's Committee on Public Education  
currently is studying all facets of elementary and secondary education.

**WATER RESOURCES DEVELOPMENT** — Long range planning and development  
have been given top priority. \$100 million in bonds have been issued for  
development of needed storage facilities; authorization has been granted to  
expand this program to \$200 million for the next two years.

**CONCERN FOR THE AGED AND NEEDY** — Since 1963, assistance to our elderly  
has been increased 27%. The Governor's Committee on Aging is contin-  
ually working for the benefit of our senior citizens.

**OUTDOOR RECREATION** — More than \$2 million has been invested in improving  
ten of our most attractive state parks during the past two years to provide  
additional recreational facilities.

**INDUSTRIAL EXPANSION** — A record 855 new industrial plants have been estab-  
lished the past three years, moving Texas into second place in the nation in  
industrial expansion.

Last year, more than 23,000 new jobs were created in manufacturing alone  
— the best year ever for the Texas labor force.

**INCREASED TOURISM** — More than 12 million tourists visited Texas last year,  
adding more than \$900 million to the state's economy, and creating 140,000  
new jobs. The state's tourist advertising program has been sharply expanded.

**MENTAL HEALTH AND MENTAL RETARDATION** — New emphasis on prevention  
of mental illness and mental retardation has been achieved through estab-  
lishment of new community centers, replacing the former practice of "ware-  
housing" patients. Investment for research into causes of mental disorders  
has doubled the past four years.

**BETTER HIGHWAY TRANSPORTATION** — Texas has more farm-to-market roads  
than any other state — more than 35,134 miles. We lead the nation in  
construction of interstate highways, at a cost 40% below the nation's average.

**COMBAT AIR AND WATER POLLUTION** — New legislation for public health, "The  
Clear Air Act of Texas," provides state action to combat air pollution. Similar  
vigorous action has been initiated to control pollution of Texas streams, bays  
and estuaries.

**NEW CULTURAL GROWTH** — The Fine Arts Commission was established in 1965  
to nurture the cultural enrichment of Texans. The state's cultural heritage  
will be preserved and portrayed in the state's pavilion at HemisFair '68 in  
San Antonio.

**BUSINESSLIKE ADMINISTRATION** — With unprecedented teamwork, our state  
government has operated responsibly and efficiently. The Legislature has  
finished its work on time in each session. Following a pay-as-you-go policy,  
we have maintained a healthy surplus in the general revenue fund without  
curtailing essential services.

**HEALTHY, GROWING ECONOMY** — Business activity rose 11% last year, as  
Texas continues one of the brightest growth areas. Employment and income  
are at an all-time high, unemployment at an all-time low. Despite increased  
responsibilities, our state government costs only \$168.78 a year per citizen,  
fourth lowest in the nation. No broad-based tax has been enacted the past  
four years. Texas still has no personal income or payroll tax, no corporate  
income tax, and is one of few remaining states with a limited sales tax of 2%.

## "WEEKLY MEDITATIONS"

### "Unpossessed Possessions"

There remaineth yet very much land to be possessed. Joshua 13:1.

There are great corporations in this country that have "Unclaimed Dividend Accounts." The checks made out and mailed are very often returned with the notation "Addressee moved and no forwarding address." This text deals with the Israelites and their failure to claim all that God had promised to them.

Any fair-minded person will recognize that the history of the Christian church has been one of great victory and conquest. Yet as we view this world in which the church exists, we have to admit that there remains a great area of life to be possessed. Many there of people who are called Christian, but there are many more who are not. There is no single nation that can rightfully call itself Christian. At our very door, there are unpossessed possessions. The great doctrines of the Bible, the mystery of God's grace and love, we have not made our own as we should.

Why is the land not possessed? Why is the world not Christian? Why is it that our beloved America is not wholly Christian? It is due to atheism. That form of atheism which makes a profession of faith in Christ, and then lives as if God and Christ do not exist.

It is due to the simple fact that we do not believe in the "Onliness" of the Kingdom of God. What business would continue if men practiced toward it the same devotion they do to the church? Those movements that have succeeded in the world have succeeded only because people believed in them and gave themselves to them. The Christian Gospel is the most worthwhile movement the world has ever seen. It demands and deserves more than we are and have, but we give it so little. Again, we are satisfied to sit down in the well-watered plains of Jordan. Why trouble ourselves with work we don't have to do?

The land should be possessed, because God demands it. It should be possessed because the HEAD of the Church commands it. The church is under orders, "GO", "TEACH", "PREACH", "MAKE DISCIPLES."

The land should be possessed because safety counsels it. The Israelites did not drive out the enemies, and they were continually coming down and giving them trouble. The Christian who does not by the power of Christ banish evil from the highlands of his soul will find himself in jeopardy. The failure to Evangelize will prove disastrous to the church. May our attitude be that of Caleb, who said, "Give me this mountain," knowing

that the sons of Anak, even giants lived there. For he said, "If so be the Lord will be with me, then I shall be able to drive them out." There remaineth very much land to be possessed, and the day of opportunity still lingers with us. May our possessions truly become our own.
