# Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

Austin, Tex.—With the bottleneck broken on a tax bill for regular spending, legislators began to look down the road.

Rep. Murray Watson of Mart proposed a resolution that pointed out the lawmakers' uneasiness about having more rough decisions before the year is out.

Watson's resolution called on Gov. Price Daniel to say immediately whether he would call another special session to raise money for the Hale-Aikin school improvement program.

Hale-Aikin proposals, which include an \$800 a year salary boost for teachers, would cost an estimated \$120,000,000 a year. There have been repeated rumors that the governor will recall the Legislature next fall to enact Hale-Aikin. Also floating around is the rumor that a 1 cent per gallon hike in the gasoline tax is being "saved" for that purpose.

Watson charged, "I think there's been a definite deal made with the Texas State Teachers Association . . . Somebody else should know what's going on here instead of just the governor and the teachers' lobby."

Governor Daniel's supporters called this unfair. They declared that the governor, like everyone else, couldn't tell how it would be until after the dust settled from the fracas over raising money for the basic budget.

AT LAST—When the Legislature finally voted out the new \$185,000,000 tax bill, it voted it out in a big way. Tally was 29-2 in the Senate and 115-24 in the House.

This is well over the required two-thirds to make the bill effective immediately on the governor's signing.

House, which had been hamstrung for seven months on the tax issue, came unstrung so suddenly it surprised the bill's advocates. Voting ended good naturedly with "yea" votes recruited in the atmosphere of an old-fashioned revival meeting.

Most talked-about feature of the new bill is a severance beneficiary tax of 1.5 per cent on natural gas. It was the first time the Senate had approved this tax. Many House members had said they would not vote for any bill that didn't include it. It will bring in an estimated \$15 to \$18,000,000 over two years if not ruled unconstitutional.

Three-fourths or more of the bill's revenue will come from selective sales taxes. Newcomers are a 3 per cent tax on jewelry and furs, a 3 per cent tax on hotel and motel room rentals, 3 per cent on boats, motors, cameras, air conditioners, 25 per cent on tobacco products other than cigarettes.

Taxes on cigarettes will go up 3 cents a pack; liquor and wine, 20 per cent; motor vehicle sales, from 1.1 to 1.5 per cent.

Utility gross receipts will go up 20 per cent, and the corporation franchise tax will go up by 75

dren, Jerry and Teena, of Grand Prairie, Mr. and Mrs. Lee Whetstone and children, Ricky and Debbie, of Wichita Falls, Mr. and Mrs. M. T. Haire and sons, Michael, Robert, David and Stephen, of Vernon.

Mr. and Mrs. Truman Quillin and children of Vernon and Mr. and Mrs. Bill Lynch and children of Crowell visited the J. C. Jones Sunday. The Quillin children remained for a visit here.

Mr. and Mrs. Toy McCurley observed their 28th wedding anniversary in their home at Waggoner farm headquarters near Thalia Monday.

Mrs. Willie Giles and daughter, Ouida, of Virginia and her mother, Mrs. Bessie Rake of Vernon, visited Mr. and Mrs. C. C. Lindsey Sunday.

Luther Blain of Paducah and sons, Milton of Abilene and Calvin of Cypress, Calif., visited Mr. and Mrs. C. C. Lindsey Saturday.

Guests in the G. A. Shultz home Friday were Mr. and Mrs. Gotchie Mints, Danny and Ronnie, of Paducah, Mr. and Mrs. G. K. Smith and Susan of Hollis, Mrs. Mary Grace Shives and Sharon and Pam of Fort Worth.

Nan Sue Shultz spent the week end in Archer City with Miss Shirley Cearley.

MISS MARY K. CHOWNING

Mr. and Mrs. Jess Boykin of Rule spent Wednesday visiting in the home of Mr. and Mrs. Jack Hickman and family.

Mr. and Mrs. W. W. Walker of Willow, Okla., spent several days last week visiting here.

Mrs. O. W. Causey of Knox City spent Friday afternoon visiting 21 to 35 years of age—and they are badly needed.

CITY BUSES LOSE OUT—Another cause, apparently lost for this year, is that of exempting city bus systems from the state gasoline tax.

Rural area senators, led by Sen. Wardlaw Lane of Center, voted it down.

City spokesmen say the buses, needed by low-income people, can't stay in the black unless they get tax relief. San Antonio's transit system went to the wall, was taken over by the city.

Senator Lane made a scathing attack on "taking care of Highland Park" (a swank Dallas suburb) when the state is having a hard time finding money "to pay the old age pensioners."

DANIEL OPPOSES FEDERAL TAX—Governor Daniel asked the National Governors Conference to join him in opposing an increase in the federal tax on gasoline.

Congress is considering President Eisenhower's recommended 1.5 cent per gallon increase to pump new life into the federal highway building program.

Governor Daniel charged the federal government would have plenty of money for the highway program if it would quit using gasoline tax money for other purposes. He said further gasoline taxing should be left to the states, which need the money worse.

Earlier this year the governor mentioned the gasoline tax as a possible source of additional future revenue. State gasoline tax is presently 5 cents a gallon; federal tax, 3 cents a gallon.

This fetching miss from Farron, Utah, whose theme song is "Remember the A-La-Mode," is America's Miss Dairy Princess. She was accompanied by Mrs. Anne Reeve, whose husband Lew is publisher of the Ocala (Wis.) Sun. Mrs. Reeve is the chaperone for Carol's journeys about the country.

Miss Dairy Princess was introduced in the House, addressed the Senate, and was the recipient of complimentary resolutions from both branches of the legislature.

Then the lawmakers settled down to work again.

## Methodist Pastor to Attend National Boy Scout Jamboree

A. B. Ruff Jr. of Wichita Falls, chairman of the Boy Scout Leadership Selection Committee for the 1960 National Jamboree, stated today that his committee has selected Rev. Carl Hudson of Crowell to be one of the 21 unit leaders for the seven troops of Boy Scouts from the Northwest Texas Council who will attend the National Boy Scout Jamboree near Colorado Springs, Col., July 22-28, 1960. Each of these troops will be made up of 37 boys and three adult unit leaders. Rev. Hudson will be one of the three leaders to accompany a troop of Boy Scouts from the Central District, which is composed of Crowell, Vernon, Chillicothe and surrounding communities.

Rev. Hudson, commenting upon his selection for this leadership position, expressed the hope that at least five Boy Scouts from Crowell's Troop No. 49 will attend the National Boy Scout Jamboree with him. Presently, M. L. Speer is the only Scout who has sent in his registration. These registrations must be sent to the Northwest Texas Council of the Boy Scouts of America office in Wichita Falls on or before Sept. 15, 1959, for the boy to be assured of a place in a troop.

Rev. Hudson will leave this week end for his vacation during which he will attend Region 9 Wood Badge Training Course on the Philmont Scout Reservation near Cimarron, N. M. The Wood Badge Training Course is the most advanced Boy Scout leadership training that is offered to adult Scouters. This course is offered to a selected group each summer who are carefully chosen on the basis of their outstanding unit, district and council leadership contributions. Rev. Hudson and Dr. Tom Lindsey of Vernon were the two men chosen from the Central District for Wood Badge training this summer. These two men will return to the district to share their training experiences with the local Scouters of this district during the fall, winter and spring months.

## HELP STRENGTHEN AMERICA'S PEACE POWER

When you're four, protection is as simple as holding Father's hand. But parents know it involves a lot more than that—like keeping the world a peaceful place.

But peace isn't kept by just wanting it. Peace costs money. Money for strength to keep the peace. Money for science and education to help make peace lasting. And money saved by individuals to keep our economy strong.

U. S. Savings Bonds help provide this money. So every Bond you buy helps strengthen America's Peace Power.

**Two Chevy middleweights prove their rawhide stamina!**

**Top hands on high-country hauls!**

Ask any trucker who's been over Wolf Creek Pass, 10,850 feet up in the San Juans: a 9-mile pull to the summit and low gear all the way down. Mr. C. H. Phillips of Alamosa, Colorado, has a 6403 and a 6503 Chevrolet truck that are up over this route the year round, taking sheep and beef to pasture, later marketing the stock in Denver. In less than a year, his Chevy middleweights have averaged about 50,000 miles of this kind of treatment—and they're going stronger than ever!

Watch Chevy trucks at work out in range country. It's a sight to see the way they pack into high-up mountain pastures and handle through brush and rock like a cowman's favorite cutting horse. Take any truck work for that matter. Chevy middleweights probably handle a bigger variety of jobs than any trucks alive. About anything you name, including work that used to be reserved strictly for bigger rigs. When a truck's built the way a Chevy is, lean-muscled and rawhide-tough, it takes to ugly trails the same way most trucks roll over the highway. It just keeps going, without a big to-do, but looking good every mile of the way. How they do it is your Chevrolet dealer's department. He'll be glad to supply details and specifications on the type of models you need.

News From the Congress

by Frank Ikard, 13th Dis. In 1956 the program to build an interstate highway system was initiated. It was the program's original concept that it would provide a system to connect the principal defense centers in the country with limited access highways and also provide a system of expressway type roads whereby motorists could drive from the East to the West Coast or from the Canadian Border to Mexico without encountering a traffic light or having to drive through city traffic. The legislation creating this system provided that these purposes should be accomplished by a system of not more than 40,000 miles of highway. It was estimated that over the life of the program, the cost would be approximately \$25 billion. Currently, this highway program is bogged down because of a shortage of money, and the President has several times this year asked the Congress to increase the gasoline tax by a cent and one-half a gallon in order to provide the additional funds that he thinks necessary. During the past week the Committee on Ways and Means has been holding hearings on the President's request and to determine the reasons that the highway trust fund is inadequate. During the hearings it developed that after actually locating the highway it was determined by the Bureau of Public Roads that the system could have been built for 1452 miles less than originally

Believes Efforts Are in Vain

"Sometimes an editorial writer believes all his efforts are in vain, that nobody reads these lines, and much worse, nobody cares. We were going through our letter file this week, and we were amazed at the number of letters of appreciation we had received in our ten years here. . . ."—Lebanon, Ky., Marion Falcon.

estimated, but instead of "saving" this 1452 miles, the Bureau proceeded to add that many miles to the system which increased the cost of the whole program by a billion and a half dollars. As the program was originally conceived, it was thought of as a highway system that would connect urban areas; however, since starting the system, the bureau has changed this so that now 42 per cent of the funds are spent to provide expressways within cities. These two things, along with an acceleration of the program provided by Congress last year are largely responsible for the current deficit. It would seem that rather than increase the gasoline tax at this time and further encroach on a traditional source of states' revenue and to increase everyone's tax burden, it would be better to stretch this program out for a few more years.
