F. W. Leading Foard County Little League with Rotary Braves Second

During the good right pitch-arms of Duane Simmons and Mike Bird, VFW's Veteran Mike Bird and wide atop Foard County Little League as of Monday, June 15. In the first inning, the charges of Williams and John Wheeler defeated.

The second place was the Rotary Braves, a team that looks to be a strong, and a team that has lost only one game—season opener, a game in which the two Berg brothers did participate.

With one victory, Farmers Eleven is in third place, and is a team that—on paper—figures as a par with the top two teams.

Monday night, June 15, at 8 p. m., the fastest, best-played game of the season thus far was played, with the contest taking one hour and fifteen minutes.

Large Crowd Is Expected for Santa Rosa Parade

More than 20,000 people are expected to crowd the streets of Vernon the afternoon of Wednesday, June 24, for the colorful Santa Rosa Roundup parade which annually heralds the opening that night of the world-famed Santa Rosa Roundup and Quarter Horse Show.

A two-mile-long parade, featuring scores of floats, bands and more than 1,000 horses ridden by members of 25 Texas and Oklahoma riding clubs, will start at 3 p. m. June 24. Hundreds of dollars in prizes will be offered for the most colorful floats.

The Vernon Chamber of Commerce and Santa Rosa Palomino Club will sponsor a barbecue immediately following the parade for members of all visiting riding clubs.

Rodeo performances are scheduled each night from June 24 through June 27 at 8 o'clock, rain or shine. More than 200 top rodeo performers, including 1958 world champion cowboy Jim Shouder, will be on hand for this famed rodeo.

A prize list of \$8,000 has been posted, to which will be added entry fees, making lucrative prizes for members of the rodeo circuit.

The world championship rodeo again will be produced by the nation's foremost rodeo producers, Lynn and Jake Beutler of Elk City, Okla.

Rex Allen, western singing star of motion pictures, radio, television and records, will head a glittering array of specialty acts, which also include famous rodeo clowns, Gene and Bobby Clark, Billy Busch and his trained horse, Sir Roger, and the famed mounted drill of the famous Santa Rosa Palomino Club.

Advance rodeo tickets may be obtained by calling LI2-6868 or by writing Santa Rosa Roundup Ticket Headquarters, Vernon, Texas.

Thalia Girl Injured in One-Car Wreck Sunday Afternoon

Miss Janie Wright suffered severe face lacerations Sunday afternoon in a one-car accident about three miles east of Thalia.

Miss Wright was driving the automobile belonging to her grandmother, Mrs. H. W. Banister, at the time of the accident.

Highway Patrolman Duane Capps of Vernon, investigating officer, said Miss Wright apparently lost control of the vehicle on the dirt road and the car overturned. It was termed a total loss.

Miss Wright, daughter of Mrs. John Wright of Thalia, was admitted to the Crowell hospital.

Marketing Quotas Proclaimed June 1; Farmers Vote July 23

Marketing quotas for the 1960 wheat crop were proclaimed on June 1 by Secretary of Agriculture Ezra Taft Benson. This seventh successive proclamation of wheat marketing quotas is required by a wheat supply that is 99.6 per cent above the normal supply level.

The Texas share of the 1960 allotment will be 4,092,251 acres, which is nearly 7,000 acres less than the 1959 allotment of 4,099,094 acres.

Benson proclaimed a national wheat acreage allotment of 55 million acres, the minimum permitted by law, and announced state shares of the national allotment. He also set July 23, 1959, as the date for a referendum to determine producer approval of disapproval of quotas and announced a 39-state commercial and a 10-state non-commercial wheat-producing area for 1959.

If producers approve marketing quotas, under the proclamation announced June 1, the national average support price available to eligible growers in the commercial area will not be less than the minimum support to be announced before the referendum. On the basis of the present supply of wheat and present legislation, the legal minimum wheat support price for the 1960 crop would be at 75 per cent of parity. Individual farm marketing quotas will be the normal production or the actual production from the farm acreage allotment, whichever is larger.

The 1960 national wheat acreage allotment of 55 million acres is the minimum fixed by law and is the same as for the 1958 crop. If the allotments had been determined solely on the basis of the law's supply formula, the 1960 allotment would have been zero acres.

Fox Family Holds Reunion Here Sunday

The children of the late Mr. and Mrs. C. C. Fox, pioneer residents of this community, gathered here for the week end for a family reunion at the home of Mr. and Mrs. H. E. Thomson Sunday.

There were five sisters and two brothers and their families here for the annual get-together. One brother, Roy M. Fox, and one sister, Mrs. Thomson, live in Crowell.

Out-of-town relatives attending were Mr. and Mrs. Charles Dickerson and Mr. and Mrs. Crockett Fox and daughter, Lauri, of Abilene; Mr. and Mrs. Adrian Thompson of Paducah, Mo. and Mrs. J. E. Daniel of Vernon, Mrs. Bertha Berdine and daughter of Springfield, Mo.

Studies by The Travelers Insurance Companies show that driver error caused 85 per cent of the highway accidents in 1958.

458,000 BUSHELS WHEAT HARVESTED THIS YEAR

The 1959 wheat harvest in Foard County was almost completed by Tuesday afternoon and the elevators of the county had received approximately 458,000 bushels. It is not known at this time whether or not any grain has been stored on the farms.

In the issue of the News of June 19, 1958, the elevators had reported receiving 1,236,000 bushels. The crop this year will be probably 50,000 bushels more than a third of last year's total crop. Of course, the yield per acre has been very poor, but in some instances over the county the yield per acre has been as much as 25 bushels to the acre on un-

Flower Taken from Porch of Former Crowell Resident

The following item is taken from the column written by Glen Shelton on the front page of the Wichita Falls Record-News last Thursday morning, June 11.

"Fleeced Flower — Somebody swiped a beautiful Coleus plant from the porch of Mrs. H. L. Jinks of 1407 Fourteenth Street, and whoever did it, I hope brings it back. For Mrs. Jinks is a shut-in and loved her flower which gets a brilliant red. Pranks are one thing; but pilfering a plant from an elderly shut-in is something else. Return it, boys, please."

Mrs. Jinks is a former Foard County resident and was reared in the Black community. She is the daughter of the late Mr. and Mrs. W. R. Tuttle and a sister of Mrs. C. E. Gafford of Crowell, Mrs. Emma Howard of Sacramento, Calif., and Mrs. Greg Laurence of Van Vleet, Texas.

Shower at Bradford Home Thursday Honors Miss Boyd

The C. F. Bradford home was the scene of a lovely bridal shower given on Thursday afternoon, June 11, to honor Miss Mary Joan Boyd, bride-elect of H. C. Payne.

Mrs. W. A. Dunn and Mrs. Bob Thomas greeted the guests and presented them to the honoree, Miss Boyd, and the groom-elect's mother, Mrs. Coy Payne. Mrs. Joe Bledsoe presided at the guest register, at which about sixty-five ladies signed.

In the dining room, the bride's chosen colors of rainbow were in evidence throughout. The table was covered with a lace cloth over a blue background and was centered with a miniature bride and groom, surrounded by a colorful wreath of sweet peas. Mrs. William Bradford and Mrs. Tom Smith served punch from a beautiful bowl also surrounded by a wreath of sweet peas. The reflection of the sweet peas into the bowl of pink punch revealed a beautiful rainbow glow. White napkins bearing a bride and groom of silver design were used.

Displaying the gifts and assisting with other hostess duties were Mesdames Hugh Shultz, C. T. Murphy, Jack McGinnis, Jim Owens, C. F. Bradford and A. B. Owens.

Texas Lakes Described in New Bulletin

List of fishing lakes and streams in Texas now is off the press and available for public use, according to the Director of Information and Education of the Game and Fish Commission. This list has been compiled from seven articles which appeared in the Texas Game and Fish magazine.

The lakes are listed according to the watersheds, including the Colorado, Brazos, Trinity, Red, Rio Grande and a number of the smaller streams. The bulletin also describes coastal fishing spots and tells what accommodations are available.

Although there are several new lakes not listed, the brochure is one of the most complete compilations ever published. The series was prepared by L. A. Wilke, editor of the Texas Game and Fish magazine from information supplied by river authorities, municipalities and the Corps of Engineers. Copies of this bulletin No. 38 can be had by writing the Game and Fish Commission, Walton Building, Austin, Texas.

Threat to Foundation of Our Democratic System

The newspaper reporter representative of the public average citizen does not have to attend meetings of officials empowered to spend money, or to travel around stations to make sure the pays are doing their jobs counts on the newspaper to do this for him. When officials begin to withdraw from this representation of the people, the very foundation of our democratic system is endangered. — Media, Pa., Daily Worker

20 Years Later...
SAME STATION—DIFFERENT WAGON

The setting is the same as 20 years ago but, otherwise, these pictures tell a graphic story of two decades of station wagon development. The photograph at top was taken at the Wyandotte, Mo., New York Central station in 1939 as Chevrolet introduced its first station wagon model—a unit featuring a body made of wood and steel. In contrast below is a 1959 all-steel Nomad with luggage rack, wraparound windows, folding seats, electrically operated tailgate window, dual headlights, etc. A further note on station wagon history... In 1939, less than seven out of every 1,000 cars built were station wagons. Today, about every sixth car is a wagon. Five of Chevrolet's 15 passenger car models are station wagons.

Five Costs Which Determine Selling Price of Any Product
Economist Fred G. Clark points out that there are five costs which make up the selling price of any product, made anywhere in the world, under any system, at any time. These are: The cost of goods and services bought from others; the cost of payments to government (taxes); the cost of wearing out tools (depreciation); the cost of human energy (payrolls and benefits); the cost of using tools (profit).

Television News
I've mentioned this before in this column, but quite a few people have bought TV since that time, so I herewith speak of it again. June and July are the months of the year when we here in the Crowell area are troubled quite a bit with a unique type of interference that varies from just a slight "cobweb" type effect all the way to heavy black bars that mix in with our picture to create all sorts of havoc. If the mixture gets heavy enough our sound is all garbled with other sound, and many times we get an overall effect that sounds more like the roar of an airplane than anything else.

This interference or "skip" as we call it is not from stations in this section. It's from stations thousands of miles away (like Charlotte, North Carolina, or Florida or California). Sunspots and other electronic disturbances cause gases to be ionized fifty miles above the earth's surface. TV signals get up into this "electronic sandwich" and ride along between the two sets of ionized gases, eventually dropping thru on someone with terrific strength. It works both ways, of course, and—when we're bothered here—our Wichita Falls channels are probably bothering someone back on the other end of the line.

What can be done about it? There's just one thing we can do. Just wait around a while until it goes away. Most usually, it bothers around 6 or 7 p. m. and leaves about 8 or 9 p. m. Another possibility—although very unreliable—is that you just MIGHT pick up your favorite program on some other channel. Try especially channel 2, 4 or 5. And don't be surprised if it's coming to you from California, Florida or even Cuba!

Foard County Little League News

by Marion Crowell, President

Just about anything can happen in some of the Little League games. Last Thursday night, in that 27-26 contest between Rotary and Foard County Mill, just about everything DID. You probably saw in the paper the other day where a Paducah kid-baseballer executed an unassisted triple play. Well, during this particular ball game, the Rotary catcher had a chance to get three men. Three men rounded third base in one bunch and headed for the plate. About that time the ball came in to the plate. All three runners turned, scrambled back for third, and—when the dust had cleared—the ball had been thrown away and all three runners had scored!

Rev. Carl Hudson has been working out the minor leaguers daily all this week. At last report he told me he has had about twelve reporting for this instruction. There are still more who should be chasing the little white horsehide around. If we can get enough out for two teams (18), we plan to put these kids on display in the lights—so—if you're in Little League age—and not playing with a Major League team, don't miss this chance to play!

Other plans for the immediate future include a Fourth of July All-Star game wherein two teams will lock horns that are selected from the entire league personnel. Yes sir, big things are up ahead for Little League!

If all the boys were as strong on desire as Jack Spikes' daughter, Vicki, we would never worry about Little League candidates. Vicki would like to play Little League baseball, and she doesn't mind telling the world about it. "Why, Darling," consoled her father, "you're not a boy... you're a little lady."
"I don't want to be a lady," shouted Vicki, "I want to play Little League baseball!"

Will Bob Mike Bird continue hitting at his present clip? Just now he's hitting about .700 and has blasted one over the fence in each of his last two games. This little guy is a real crowd pleaser... he's colorful even when conferring with his pitcher... and he's apparently already picked up that Yogi Berra nickname... wonder what he told that pitcher the other night? (You won't find out from Bob!)

When carriages first came into use during the 16th century, they were scorned by men as suitable only for women and children.

No rest for this Chevy... round the clock the engine never stops!

At Washington's bustling National Airport, Allied Aviation Fueling counts on its radio-equipped Chevy to get crews and tank trucks to the right planes at just the right time. Aside from occasional time out for the usual service, its Thrift-master 6-cylinder engine has been running 24 hours a day for the past 9 months!

Once you've got that kind of endurance working you don't worry much about lost job time. Breakdowns go out of style the day your Chevy goes into action. The fact is, Chevrolet trucks are dead set on dropping the word "downtime" right out of the English language. And they just might, if precision engineering and top-quality materials have anything to say about it. Chevy trucks are put together to stay together—incorporating the most advanced chassis developments, the most efficient 6-cylinder and V8 engine designs. They're built to last, built to keep Chevrolet's hard-earned reputation for reliability flying high.

Going into the real heart of Chevrolet advantages is where your dealer comes in. He'll show you, in feature after feature, that you can't buy more truck dependability—in any weight class—at any price.

No job's too tough for a Chevrolet truck!

Accident Toll
Always Bothers Game Wardens

A game warden's life has its excitement and dangers and he is sometimes a man to be envied. But, according to the Director of Law Enforcement, Game and Fish Commission, many times this man to be envied has his moments of sorrow, moments that no one would want to share.

Each year hundreds of persons, including many innocent children, are victims of one type of accident or another. "Our lakes, streams, rivers, bays, and beaches take their toll of sportsmen, swimmers, and boatmen every year," said the director, "usually because of carelessness."

Wardens stationed at or near these lakes and other waters many times aid in rescuing victims of accidents and carelessness. They also help in the search for the less fortunate with grappling hooks. "The lifeless body of a small child, who only the day before played in the school yard, is not a pretty sight," continued the director, "but this is a sight seen often by wardens."

Since its opening, Lake Houston has taken the lives of 37 persons, ten of these children, according to Warden Martin Peterson of Humble. "If these people had been

wearing some sort of life preserver," said the director, "many of them would be walking the streets and playing in the school yards today."

The Humble warden said, "It tears my heart out to see a drowned child without a preserver — a child that had faith in someone who was supposed to be looking after him."

Live to Be 500?

Would you like to live to be 500 years old? Scientists say such a life span would be possible if your normal body temperature were only eight degrees cooler.

Heat has an adverse affect on longevity. The hard work as much as four times as hard at a given task during summer than in winter. The older you get, the harder it is to withstand heat. In one of last summer's heat waves, 84 per cent of the casualties were in the 45-plus age group.

To help increase your years, doctors advise: Keep your weight down, regulate your exercise, learn the dangers of heat and humidity.

Man has always lamented his short life. Job said, "My days are swifter than a weaver's shuttle" (Job 7:8). David observed, "Our days on earth are as a shadow, and there is none abiding" (I Chronicles 29:15). "Thou hast made my days as a handbreadth; and mine age is as nothing before thee" (Psalm 39:5). The apostle James wrote, "Your life is as even a vapor, that appeareth for a little time, and then vanisheth away" (James 4:14).

What a dark picture—were it not for the Bible's good news that there is eternal life in Jesus Christ, who could say in truth, "I am the resurrection, and the life: he that believeth in me, though he were dead, yet shall he live" (John 11:25). "He that believeth on the Son hath everlasting life" (John 3:36).

God has set limits on your physical life, but He offers you spiritual life that has no end.

Five hundred years? That would be wonderful. But it cannot approach eternal life, which is free to you through Jesus Christ.

Reasonable Approach Needed to Labor Law Reform

"What we need is a reasonable approach to labor law reform. What we need to do is to make sure that no labor leader, good or bad, and no employer, good or bad, can violate the principles of honesty and fair play or the rights of individuals in the conduct of labor-management relations." — Middlebury, Vermont, Addison County Independent.

How long should a tractor last?

Every once in a while you'll find a tractor that is still going strong after forty or more years. But if you're like the average farmer, your tractor lasts about ten years. Will you have the cash to replace it when the time comes?

There's an easy way to build such a reserve. That's by setting aside part of what your machines earn each year in safe, sure Savings Bonds.

U. S. Savings Bonds are a real friend, too, when farm emergencies or illness strike unexpectedly. And they can help send the youngsters to college and build Mom that new kitchen.

Why not get in the Bond Habit this year? There's no safer way to save for your future and "grow" machinery replacements.

Your banker can show you how Savings Bonds fit into your future. See him today.
