AND CROWELL INDEX

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, SEPTEMBER 8, 1938

\$2.00 A YEAR EIGHT PAGES

## Apartment With George Self

Some time during September an exploration crew consisting of about fifteen families will be in Crowell to do work for the oil company, according to an announcement made by George Self, president of the Farmers and Business Men's Association. All available apartments in town will be needed in order to house these people. Plans for these people in Crowell and assistance of all Crowell citizens is needed.

## RS.S. HOWARD UCCUMBS IN THALIA HOME

## Funeral Services Held Tuesday; Interred in Crowell Cemetery

Sam Howard died in her home in Thalia Monday morning at 4:45 o'clock after a brief illness, although she had been in bed for the past four weeks.

Funeral services were held in the Crowell Assembly of God church Tuesday afternoon at three o'clock with Rev. Joe Bradley, pastor of the church, officiating. Interment was made in the Crowell Cemetery with the Womack Funeral Home in charge of arrangements.

Mrs. Howard, daughter of Mrs. E. Hammonds, of Floydada, was born in Jack County, Texas, April 18, 1880, and was married to Sam Howard at Jackshoro on August 27, 1907. To this union three children were born, all of whom survived.

Mrs. Howard moved to Foard county about twenty years ago with her husband and family and made her home here since that time.

Mrs. Howard was converted in 1910 and was a member of the assembly of God Church at the time of her death.

She is survived by her husband, Mrs. Mrs. Hammonds of Floydada; three sons, O. C. Howard, Tom Howard of Corpus Christi, and her son, Andy Hammonds of Floydada; and Tom Hammonds of Roger Mills, Okla.; two daughters, Mrs. Ellen True of Lockhart and Mrs. Minnie Preston of Foard; three grandchildren and a host of other relatives.

Funeral services were held at the home of the out-of-county relatives named above were present for the funeral services.

## Old Age Pension Payments Show Increase Here

The Old Age Pension payment for Foard County during the month of August showed an increase over the previous month, according to figures obtained in the office of the county clerk, and also an increase in the number of persons receiving the payments.

Seventy-six persons in the county received \$984 during August, compared with 74 persons being paid \$979 in the previous month. The amount of the August payments ranged from \$6.00 to \$18.00.

The August payment raised the total Old Age payments in Foard county for the first eight months of 1938 to \$7,548.00.

## New Store Owner Arrives with Family

E. J. Periman, new owner of the drug store, arrived last Saturday morning with his wife and three children, Ernest Jr., and Bobbie, from Dallas. They are now located in the Walk-Talk home.

A deal was closed last Thursday whereby Mr. Periman became the new owner of the drug store and the name was changed to Periman's Drug Store.

Mr. Periman had been a resident of Dallas for the past seventeen years and had owned and operated a drug store in that city. The store was recently sold to his brother, R. L. Periman.

Mr. Periman took charge of the business last Thursday, however, he announced this week that he is planning to conduct a formal opening at an early date.

## J. D. WRIGHT FUNERAL HELD HERE SUNDAY

### Pioneer Foard Citizen Died at Margaret Home Friday

Funeral services for J. D. Wright, 76, were held from the First Baptist Church in Crowell Sunday afternoon at 4 o'clock with Rev. Cecil Baggett, a former pastor of the deceased, officiating, who was assisted by Rev. W. B. Fitzgerald, local Baptist pastor. A special musical number was a vocal duet rendered by Mrs. Ab Dunn of Margaret and her sister, Mrs. Bob Thomas, of McLean.

Mr. Wright died at his home near Margaret Friday morning, Sept. 2, at 8 o'clock following a long illness. He came to this county with his family in 1900 and had resided in the Margaret community since that time.

pall bearers were, Bax Middlebrook, R. H. Blevins, O. C. Allen, Carl Bradford, J. W. Jones and Ab Dunn.

Flower girls were the following granddaughters: Mrs. Pearl Bean, Mrs. Raymond Clapp, Mrs. Liscomb Clapp, Mrs. Hazel Carr, Mrs. Viola Wright, Misses Juanita and Dorothy Wright and Ruby Jean Pruitt.

John Dunn Wright was born in (Continued on Page Five.)

### Sells Drug Business

T. P. Reeder, veteran druggist of this city, who sold his drug business last Thursday to J. E. Periman of Dallas, had operated Reeder's Drug Store for the past twenty-one years. He came to Crowell in 1917 from Knox City and bought the Owl Drug Store. The name of the store was changed to Reeder's Drug Store many years ago, although the location has remained the same.

Mr. Reeder and family will continue to make their home in Crowell and he will look after his farming interests in this county.

## THALIA WILL HAVE SIX-MAN GRID SQUAD

### Aspirants Report for First Practice Monday

Members of Thalia High School's first football team, which is a six-man team, started workouts Monday under Coach W. C. Bowden, who arrived in Thalia Sunday and is filling a vacancy in the faculty made by the resignation of R. D. Wheelock.

Practice opened Monday afternoon and uniforms were issued to seventeen players who reported and the first drill was held Tuesday afternoon. Coach Bowden will devote the first week in training the fundamentals, as six-man football is a much faster game than regular football and requires more running and play on the part of each individual player.

A meeting will be held in Oklahoma Friday night at which time officials will arrange a schedule for the Class C conference. Schools expected to be included in the conference are: Thalia, Five-in-One, Odell, Medicine Mound, Kings High, South Lockett, Harrold, Megargel and North Side Vernon. It is expected that Thalia will meet its first opponent the latter part of next week.

### New for Foard County

Thalia's six-man football team will bring to Foard County a new brand of football, and many local grid fans are looking forward to attending the first six-man game held in this county.

The six-man game calls for faster play, more passing as every man on the team is an eligible player. (Continued on Page Four.)

## 3-DAY VISITING PERIOD WILL BE HELD THIS WEEK

### Forest Service Nursery and Shelterbelts to Be Seen

A three-day visiting period will be conducted Wednesday, Thursday and Friday of this week in Foard County to enable every one to see the shelterbelts and Forest Service Nursery in the Rayland community in the eastern part of the county, according to an announcement made Tuesday.

Officials of the Forest Service and Extension Service will conduct visitors from Crowell Wednesday and Thursday. Friday morning the trip will start at Thalia and Friday afternoon at Rayland.

Transportation will be furnished from the starting points, according to the announcement.

### BIRTHS

Born to Mr. and Mrs. Rurell L. Scott, a girl, Lula Anna, Sept. 3.

## ENROLLMENT OF LOCAL SCHOOLS MARKS RECORD

### Crowell Schools Open Monday With 612 Pupils Enrolled

A record enrollment for the Crowell schools was registered with the opening of the 1938-39 term Monday morning, Sept. 5, according to figures released Wednesday by Superintendent I. T. Graves.

There were 612 students to register Monday morning for the record enrollment, as the next highest enrollment was recorded in 1935 with 566 students. There were 511 pupils enrolled at the opening of the school term last year.

There were no opening exercises on the first day of school this year for the first time in the history of the school, due to repair work being done in the auditorium. The registration of high school pupils was transferred to the ward school building last Saturday because of other work being done in the high school building.

The large enrollment for this year can be attributed to the transfer of several rural schools to (Continued on Page Five.)

## Mayor Urges Public Not to Damage Park Equipment and Trees

C. T. Schagal, mayor of the City of Crowell, asks the public to aid in the maintenance of the new city park by not breaking or destroying any of the equipment or trees in the park.

Following is a statement released by Mayor Schagal Wednesday:

"The city park is now open for the public and citizens are welcome at all times to avail themselves of the facilities constructed for their use. The committee appreciates the general attitude of the public in making and helping to keep the park a clean and inviting place to visit.

The committee has passed an age limit of 12 years for those participating in the wading pool and the swings. These regulations are very important due to the fact that the swings are not strong enough to carry older persons, and the pool was not constructed to accommodate larger children.

The above regulations must be observed and the cooperation of the public will be greatly appreciated. Come and bring your children."

## Automobile Wrecks As Driver Dodges Street Barricade

An automobile driven by Foster Woods of Lubbock crashed into and demolished an automata computing pump at Raymond's Magnolia Service Station one block west of the square early Monday morning when the driver attempted to steer the car around the barricade placed at the intersection of the streets last Sunday.

Two tires, two fenders and the front bumper of the vehicle were ruined.

The vehicle was approaching the barricade which had been placed to detour traffic around the streets in the business section of Crowell, which are undergoing repairs, and the driver steered the vehicle from the pavement, crashing into the pump. Officials stated that the automobile was traveling at a speed in excess of the speed limit.

Other occupants of the car were Mr. Wood's mother, wife and daughter, all of whom were bruised and badly shaken in the crash.

## New Administrative Assistant Assumes Duties; Boston Gone

J. S. Harper of Quannah assumed duties as administrative assistant of Foard County Monday morning after Jody F. Boston, administrative assistant, had been transferred to Seymour in the same capacity, leaving Saturday.

Mr. Harper had been connected with county agent's office in Hardeman County for the past four years and is well acquainted with the duties of the office he is now filling. He and his wife moved to Crowell from Quannah the first part of this week.

Mr. Boston came to Crowell several months ago to replace Roy Huckabee, who had been transferred to Haskell, as the assistant county agent of Foard County. A few months ago, he became administrative assistant in charge of the AAA office in the Foard County agent's office and served in that capacity until being moved to Seymour.

# CROWELL WILDCATS WILL OPEN 1938 GRID SEASON TOMORROW NIGHT WITH HASKELL IN NON-CONFERENCE GAME

## Probable Starting Wildcat and Indian Line Ups

The probable starting lineup for the Crowell Wildcats and the Haskell Indians in the game Friday night at 8 o'clock are as follows:

No.	CROWELL	Wt.	Position	Wt.	HASKELL	No.
70	B. Fitzgerald	190	Left End	145	Cousins	No.
87	Gafford	175	Left Tackle	200	Wilfong	
66	Dunn	143	Left Guard	160	Scott	
99	J. Fitzgerald	173	Center	140	Ballard	
73	H. Sollis	140	Right Guard	145	Simmons	
77	Johnson	167	Right Tackle	180	Barnett	
80	Canup	151	Right End	150	Bailey	
83	Branch	147	Quarterback	150	O. Henshaw	
95	Meason	151	Left Half	170	S. Henshaw	
85	Orr	140	Right Half	150	McMillin	
65	Owens	142	Fullback	160	Rogers	

**Crowell Reserves**  
 Linemen—Bailey 160, 97; Mitchell 154, 60; Clark, 90; Diggs 154, 67; M. Sollis 133, 93; Thompson 145, 25; Russell 132; Saunders 134; Brisco 138.  
 Backs—Joy 135, 75; Smith 170, 89; Ownbey 140, 45; Gibson 146, 55; Brown 121, 35.  
 Coach—Grady Graves.

**Haskell Reserves**  
 Ray Buford 130, Thomason 150, Cook 160, Laird 150, Oates 120, Huff 175, Wiseman 160, Kuenstler 170, Reeves 140, Gholson 130, Post 120, B. Buford 140.  
 Coaches—Perry Mason and Scott Whitaker.

Officials—Joe Forrester (Denton) referee; John Smith (McMurry) umpire; Burns McKinney (Hardin-Simmons) headlineman.

## District Court Convenes Here Mon., Sept. 12

The September term of district court will convene in Crowell Monday morning, Sept. 12, at 10 o'clock at which time investigation of charges will be made by the grand jury.

Those impaneled for grand jury service in this term of district court, and are to appear at the court house at 10 o'clock Monday morning are as follows:

O. N. Baker, Cap Adkins, Charles D. Ferguson, T. H. Matthews, Earle Steele, R. G. Whitten, V. A. Johnson, Buford Randolph, Silas Moore, Roy N. Barker, C. O. Nichols, R. N. Beatty Jr., H. M. Phillips, Jeff W. Bruce, O. B. Davis, and T. L. Ward.

Persons impaneled for petit jury service are to appear at the court house Monday morning, Sept. 19, at 10 o'clock, at which time trial of criminal cases will be started.

## Trench Silo Demonstration Staged Monday

A trench silo demonstration was held on the J. L. McBeath farm eight miles east of Crowell Monday afternoon under the supervision of E. R. Eudaley, Extension dairy specialist, and Farm Agent John Nagy.

The meeting was opened with a review of the trench silo work that had been done in Foard County by Mr. Nagy. There are twenty-four trench silos in the county with a total capacity of 1,597 tons, and 1,397 tons of feed was stored in the silos last year.

A campaign was started at this meeting to increase the number of trench silos in Foard County to forty or more for 1939.

Mr. Eudaley took charge of the program and with silage feed and (Continued on Page Four.)

## FIRST BALE OF COTTON GINNED BY T. W. LEWIS

The first bale of cotton to be ginned in Crowell this year was ginned at Farmers' Co-Operative Gin in Crowell by T. W. Lewis on Saturday, August 27. The cotton was raised on the Ferguson Brothers' farm south of Crowell.

Mr. Lewis and Henry Johnson brought bales of cotton on the same day, although Mr. Lewis arrived at the gin first, but neither of the bales drew the premium offered by the Farmers and Business Men's Association, as the premium bale had to weigh 500 pounds or more. Mr. Lewis' bale weighed 480 pounds and Mr. Johnson's 481 pounds.

Mr. Lewis returned to his farm and had another bale of cotton picked. This bale weighed 514 pounds and he received the \$11.25 premium.

With the exception of 1928, this year's first bale was ginned the latest of any during the past ten years. In 1938 the first bale of cotton was ginned on Sept. 3. The years of 1936 and 1930 hold the earliest bale record with August 11 as the ginning date.

At present there have been 12 bales of cotton ginned at the Farmers' Gin in Crowell since the season opened.

Cotton in Foard County is opening rapidly and the busy season is expected to open between now and October 1.

## Truscott School Opens Mon. Sept. 5

The 1938-39 term of the Truscott schools was opened Monday morning, Sept. 5, with A. F. McMinn as superintendent.

Jack Roberts, former superintendent of the Truscott school, delivered the main address of the opening exercises. Songs by the student body were led by Mrs. J. G. Acker, who also gave a special song. A safety talk was given by Miss Lelah Jones. A discussion of high school subjects was made by B. L. McCoy and a talk on literature was delivered by Miss Eileen Motley.

Following announcements by Supt. McMinn, students went to their respective rooms, where books were issued.

## Dr. Wade Fox and Family Visit Here

Dr. and Mrs. Wade Fox and children, Peggy Jane, Polly Lou and Billy Wade, of Asher, Okla., spent last Friday and Saturday in Crowell visiting old friends of Dr. Fox, who was reared in this community. He attended Crowell High School and left here with his parents, Mr. and Mrs. W. W. Fox, in 1921 when they moved to Oklahoma. He received his degree to practice medicine in the Oklahoma University and has been located in Asher for eight years.

It was learned from Dr. Fox that his mother died about four years ago and his father lives at Stratford, Okla., a short distance from Asher.

## Coach Grady Graves' Crowell Wildcats completed their fourth week of workouts and are ready to open the 1938 season with the heavy and experienced Haskell Indians in a non-conference game on the local gridiron Friday night (tomorrow) at 8 o'clock.

Crowell Boys Ready  
 Coach Graves gave the Wildcats a last tune-up practice Wednesday afternoon, after which the uniforms were hung up until game time tomorrow night. Up until Monday of this week, the Wildcats had suffered no injuries in workouts or the two scrimmage games held, but after practice Monday afternoon Coach Graves had two players on the injured list.

Crowell team will be made up of five of last year's starters, B. Fitzgerald, Canup, Johnson, Orr and Meason; three of last year's squadmen, Gafford, Branch and H. Sollis; and three rookies, Owens, Dunn and J. Fitzgerald.

Haskell Strong  
 Coach Perry Mason will also place his Indians on a gridiron for their first game here tomorrow night. The Haskell boys are all veterans, all of whom saw service during last season and seven of whom were starters.

The Indians will average 159 pounds per man, with the weight ranging from 140 up to 200 pounds. The line will average 160 pounds, about the same as Crowell's, but the Indians will hold an advantage of over 12 pounds per man in the backfield. Haskell's backfield averages 157 pounds.

Reports from Haskell are that 7 of the starters against Crowell last year returned to the squad this year. Last year the Indians were strong and a much stronger team will be placed on the Crowell field Friday night. Crowell won over the Redskins last year by staging a last half rally to overcome a two-point lead and set the final score at 14-2.

The starting Wildcats in tomorrow night's game who saw service in the Crowell-Haskell tilt last year are Fitzgerald, Canup, Johnson, Hugh Sollis, Meason, Branch and Orr.

Seven of the 1938 Wildcats played in the Haskell game last year and remember the power of that eleven. For that reason the local gridmen are expecting one of their hardest games of the season tomorrow night.

Sollis and Joy Back  
 Hugh Sollis and Raymond Joy returned to the squad this week. Sollis returned Sunday from South Texas where he had been for the past several weeks and was in uniform Monday. Joy was in uniform for the first time last Friday but did not work out again until Tuesday.

Sollis has been working in one of the open guard positions since his return to the team. He played in this position in several games, although he practiced in a backfield position last year. Sollis will strengthen the line as he will bring weight, speed and experience to the guard position.

Wildcats Heavier  
 The Crowell team for this year is several pounds heavier than the squad of 1937. Providing the starting line up remains intact, Coach Graves will have an eleven on the field that will average nearly 155 pounds per man. The players in the line will average about 161 pounds, and the average weight of the backfield will be about 145 pounds per man.

## Wildcats' Schedule

The 1938 football schedule as mapped for the Crowell High School Wildcats is as follows:  
 Sept. 9—Haskell, here.  
 Sept. 16—Nacona, there.  
 Sept. 23—Paducah, there.  
 Sept. 30—Iowa Park, there.  
 Oct. 7—Open.  
 Oct. 14—Throckmorton, here.  
 Oct. 21—Holliday, here.  
 Oct. 28—Burkburnett, there.  
 Nov. 4—Seymour, here.  
 Nov. 11—Chillicothe, here.  
 Nov. 18—Archer City, there. (\* Denotes conference games.)

## Margaret School Opened Monday

Margaret school was opened Monday morning with Erwin Reed as principal and Mrs. Jimmie Hembree, primary teacher.

The opening exercises consisted of a short program which included a talk by Rev. E. A. Irvine, Methodist pastor.

Forty-one students registered Monday and others are expected to enroll during the week.

Margaret High School students are attending school in Crowell.

### Items from Neighboring Communities

#### MARGARET

(By Mrs. John Kerley)

Miss Lenora Bradford of Crowell spent the week-end with home-folks.

Mrs. J. C. Berry, Mrs. Arthur Bell and Mrs. W. T. Dunn visited in Quannah one day last week.

Mr. and Mrs. Oral Wharton and children returned to their home at Taboka Sunday after a week's visit with her parents, Mr. and Mrs. John Taylor, also attending the reunion.

Mr. and Mrs. Mathew Bledsoe returned to their home in Los Angeles, Calif., after several days' visit with relatives here.

Orville Grimm of Thalia was here Sunday.

Mrs. Nena B. McGill and daughter, Nena B., of Dallas visited John Taylor and family over the week-end, also attending the Wesley-Taylor reunion.

Mr. and Mrs. J. G. McKinney, Mr. and Mrs. Dubb McKinney and three children and Mr. and Mrs. Paul Miller of Vernon, visited W. T. Dunn and family also attending the reunion Sunday.

Mrs. Tom Bryan and children of Carlsbad, Mrs. Jack Berry and Alf Guffey of Roswell, N. M., returned to their homes Monday after several days' visit with relatives here.

Mr. and Mrs. Logan Vantine, Mr. and Mrs. John and Miss Daisy Bob Vantine of Quannah visited W. T. Dunn and family Sunday.

John Warren and sisters, May and Ethel, of Littlefield visited friends here Sunday while en route to their home after spending Saturday night with Ed Stanley and family of Vernon.

School started here Monday with Rev. Irvin Reed and Mrs. Jimmie Hembree as teachers. Robert Bonnell has been employed by the school board as buss driver and janitor. Miss Ruth Smith was formerly employed as teacher, but resigned recently to teach at Granbury.

Mr. and Mrs. S. B. Middlebrook and little daughter, Joyce Ann, spent Monday night Tuesday with his sister, Mrs. Melvin Moore, and family of Lorenzo.

Mr. and Mrs. Bob Thomas of McLean spent the week-end with relatives here.

Luke Bledsoe and family moved Friday from Gambleville to the Johnson house in town.

John Wesley of Iowa Park, George Wesley and Jimmie Moore of Riverside were here Tuesday.

Earnest Churchwell of Rayland visited friends here Monday.

The first bale of cotton for the season was brought in Thursday by E. Kenner and the second bale Saturday by Fred Vicer. Several others are pulling bolls this week.

Carl Roberts, Bill Ewing and Miss Geraldine Roberts of Iowa Park spent the week-end with relatives here and attended the reunion.

Mr. and Mrs. Greer Reinhardt

**H. SCHINDLER**  
DENTIST  
Office Hours:  
8 to 12 and 1 to 5  
Crowell, ——— Texas

returned to their home in Los Angeles, Calif., Tuesday after several days' visit with relatives here. Betty Jo Russell went with them to stay with her mother, Mrs. Mary Lou Russell, after spending several months with her grandmother, Mrs. Ella Fry.

Wilson Starnes of Crowell visited friends here Sunday.

Mrs. Sam Searbrough and little daughter, Charlene, of Sanford and Mrs. Ray Hysinger of Gambleville visited friends here Wednesday.

Miss Eva Dell Morrison left Sunday for Good Creek where she began her school Monday. She will stay with Mrs. Stinebaugh during the school term. She was accompanied by the family and Miss Zelma Ferguson, who spent the day with Mr. and Mrs. Billy Godwin.

William Blevins had another turn for the worse Saturday night after being up several days, but is reported clear of fever again at this writing.

Fred Priest left Tuesday for a few days' visit with Bill Ewing and family of Iowa Park, after spending Sunday and Monday with home-folks. He is employed at the Swaim Garage in Crowell but is on his vacation.

Mr. and Mrs. J. D. Mahoney of Quannah visited Mr. and Mrs. John Taylor Sunday.

Mr. and Mrs. Earnest Pollock, Mr. and Mrs. Will Grimm, Mrs. Reta McGill and Mr. and Mrs. L. Morris of Oklahoma City, Mr. and Mrs. Sam Taylor and Fred Taylor of Elreno, Okla., and Miss Mary Helen Pollock of Dallas were here Saturday. They also attended the reunion.

Mrs. Charlie Stephens and son, Virgil and Rayburn Taylor, of Los Angeles, Calif., arrived last week. Virgil went to Clovis, N. M., where he had a contract for work, after a short visit here. Mrs. Stephens is visiting her daughter, Mrs. C. T. Murphy, and family and Rayburn Taylor is visiting Mr. and Mrs. John Taylor. They expect to remain here about two months.

Rev. and Mrs. C. D. Baggett and children, Dwayne and Elaine, of Sprinzhill, Okla., spent from Saturday until Sunday afternoon with friends here.

A number from here attended the funeral of J. D. Wright at Crowell Sunday afternoon.

Mr. and Mrs. V. N. Priest of Vernon visited his mother, Mrs. Cora Priest, Sunday.

#### GAMBDEVILLE

(By Opal Garrett)

Mr. and Mrs. Johnny Marr of near Crowell spent Sunday with her parents, Mr. and Mrs. C. W. Carroll, and family.

Delton Higgs left last Wednesday for Melrose, N. M., where he will work.

Mrs. Roy Alston and daughter, Jimmie Ruth, spent from Monday until Wednesday of last week with Mr. and Mrs. Dave Alston and family of Crowell.

Rex Traweck visited his parents, Mr. and Mrs. Boggs Traweck, of Antelope Flat Thursday.

#### TOO LAZY TO WORK

Austin—A number of Texas motorists have devised unique schemes in order to avoid repairing punctured tires.

In one instance two highway patrolmen reported they came upon a woman attempting to change a tire on a South Texas highway. The officers smilingly repaired the puncture, inflated the tire and put it back on the wheel.

As they drove away one of them looked back and saw a man walk out of a roadside brush, climb into the car with the women and drive away—laughing.

The State Fair of Texas will honor its founders and pay a tribute to the newspapers of Texas for their success in building the "world's largest and most beautiful" during its first fifty years, with a monument to be unveiled on opening day, Saturday, October 8, which is also Press Day.

Every newspaper in Texas has been invited to send in a front page of its paper, upon which has been published a story on its community, which will be placed in a metal chest and placed in a crypt under the tablet "acknowledging a debt of gratitude to the Press of Texas."

The monument will stand eight feet tall on a base six feet in height. It will be finished in sand and ground granite. The monument is being executed by Jose Martin and Roul Josset.

#### WITCHCRAFT IS OLD, BUT SVIL ATTRACTS ATTENTION

The notion that some people have the power to work an oppressive or even destructive influence upon others by the power of incantation or reliance upon some fanciful alchemy is as old as recorded history. It has been encouraged at times into a system of knowledge and employed by the crafty and malicious to prey upon the ignorance of the people. At times it has been devoted to crusades against religion and spread so widely that masses of people have been cast into frenzies by the fear of witches. In Germany more than 100,000 were executed as witches in one year, and even in the American colonies death sentences for witchcraft were executed.

The obvious protection against witchcraft is education, asserts a writer in the Indianapolis News, but when the belief fastens itself upon credulous people, the law must deal with the fact of their belief, not its causes. Defense under the law usually takes the form of suits for damages or criminal action to protect the good name of persons whose standing is injured by the effect of loose accusations of witchcraft, but despite all that can be done, the evil creeps at times and attracts the attention of people who have not forgotten the literature and lore of their childhood.

#### THOUGHTS OF SERIOUS MOMENTS

He who should teach men to die, would at the same time teach them to live.—Montaigne.

Charms strike the sight, but merit wins the soul.—Pope.

Whatever is worth doing at all, is worth doing well.—Chesterfield.

Washington, D. C., has more than 500 statues.

### Domestic Allotment Plan Being Urged by West Texas C C

Abilene, Aug. 30.—Adoption of the Domestic Allotment Plan to "assure the welfare and development of West Texas agriculture" is being urged by the West Texas Chamber of Commerce following re-approval of the plan by the WTCC agricultural board.

The plan was first endorsed by the organization at its 1935 convention in Plainview. All affiliates are being asked to work for enactment of the legislation.

WTCC officials contend that West Texas did not receive just allotments as compared with other agricultural states under government farm control programs in recent years. "The policy of acreage and crop control is discriminatory to West Texas wheat and cotton producers and is stagnating our agricultural welfare," they declared.

Under the old Bankhead bill, West Texas farmers were forced to produce 45 per cent less cotton, while certain states east of the Mississippi were allowed to produce more cotton, it was pointed out. Foreign markets are being lost because while cotton acreage is being reduced in this country, it is being increased in other countries, it was said.

Under the Domestic Allotment Plan, a farmer can control his own acreage, secure subsidy payments on the portion of this crop domestically consumed and be free to get what he can on the balance of his crop in the foreign market, WTCC officials said.

Present government formula for making wheat loans and possible use of this formula for making cotton loans was termed by the board as "unfair and discriminatory to West Texas producers."

WTCC officials say they do not want the cotton loan formula mixed with freight rates. "Should the cotton loans be made on basis of the wheat loan formula, our West Texas producers will again suffer a penalty and differential greater than producers in other sections," they said. Officials pointed out that for cotton, on basis of equal hauls, Texas pays 49.54 per cent higher freight rate than Arkansas, 71.87 per cent higher rate than Missouri and 2 1/2 times higher than Louisiana.

### Foard County 57th to Enter West Texas Soil-Water Contest

Abilene, Aug. 30.—September 1 has been set by the agricultural board as the deadline for entries in the first annual West Texas Chamber of Commerce Soil and Water Utilization contest. All counties which expect to enter the competition for \$1,000 in cash prizes must file official entry blanks by that date.

Seventy-three West Texas counties with farm and ranch land totaling 55,000,000 acres have entered the contest to date. County with the best record in soil and water conservation and utilization work will receive \$500 as first prize. Second prize will be \$300 and third will be \$200.

Winners will be announced at the 1939 convention of the organization. Local committees in the winning counties will administer the prize money in promoting junior agricultural work.

Counties which have entered the contest to date are: Baylor, Borden, Dawson, Dickens, Fisher, Floyd, Howard, Jack, Jones, King, Llano, Lynn, Midland, Palo Pinto, Scurry, Taylor, Throckmorton, Tom Green, Val Verde, Wichita, Wilbarger, Yoakum, Brisco, Cottle, Oldham, Reagan, Reeves, Menard, Terrell, El Paso, Martin, San Saba, Coryell, Archer, Eastland, Haskell, Sterling, Mitchell, Glascock, Iron, Brewster, Jeff Davis, Stephens, Garza, Hood, Rains, Clay, Nolan, Hansford, Culberson, Coke, Kent, Winkler, Stonewall, Sutton, Wheeler, Foard, Callahan, Young, Wise, Knox, Hudspeth, Upton, Blanco, Bosque, Hall, Loving, Lubbock, Farmer, Pecos, Crosby, Erath and Parker.

Foard County was the fifty-seventh West Texas county entered in the contest. County Judge Claude H. Callaway, Crowell, is chairman and John Nagy, Crowell, is secretary of the committee organized to promote activity in the contest in the county.

#### STREET AND HIGHWAY FATALITIES IN JULY CONTINUED DECREASE

Austin, Aug. 30.—Texas highway patrolmen charged 5,174 drivers in traffic complaints and warned 23,314 others during the month of July when Texas was credited with a continued decrease in street and highway fatalities, according to state police reports.

During July 278 patrolmen investigated 280 traffic accidents, recovered 34 stolen automobiles and apprehended 43 fugitives while working with local peace officers. The force was credited with traveling 751,351 miles in automobiles and 84,259 miles on motorcycles enforcing traffic regulations.

The report stated that 75 drivers were arrested for intoxication, 283 were charged with misde-

meaner intoxication and eight were arrested for leaving the scene of an accident. Patrolmen also rendered first aid treatment to 44 travelers and assistance on 20,991 occasions.

In the same report Chief Fred Hickman of the highway patrol announced a 14.5 per cent reduction in traffic deaths for the first seven months of the year.

One-Minute Stories of 100 Texans

(By W. T. Carley)

General Santa Anna Antonio Lopez de Santa Anna, self-styled "Napoleon of the West," though not a Texan, played an important role in the annals of Texas history, and deserves a place in these historical sketches.

Born of pure-blooded Spaniards, Santa Anna first saw the light of day in Jalapa, Mexico, June 13, 1792. At the age of 14 he became a cadet attached to a regiment of Spanish soldiers at Vera Cruz, and started his long military career.

At 29 he had seen 11 years of active military service, and due to his peculiar manner of impressing his superior officers, enjoyed steady promotions... At 32 he assumed the presidency of Mexico, and between 1824 and 1851 was president of the Southern Republic on seven different occasions.

At 44 he brought his invading army to Texas. For a short time held the future of the Southwest in his hands, but on the field of San Jacinto was ignominiously defeated in the Sixteenth Decisive Battle of History.

He lived for 40 years after the San Jacinto loss, and during his last exile in 1872, penned his memoirs. This original manuscript, now a part of the famous Garcia collection of the University of Texas Library, was bought in 1921 for \$100,000, and is now valued at more than a million dollars.

He died in his native Jalapa, June 21, 1876, alone and in squallor, suffering the most abject poverty. Thus closed the career of a former Texas ruler that fought more battles than Washington and Napoleon combined, and one that still holds more lure for the historian than any character that has crossed the stage of the Western Continent.

Arrangements are being made with Texas A. & M. College to help promote a Texas Agricultural Workers Day at the State Fair of Texas. Such a day would attract many agricultural leaders throughout the State.

Dallas Agency Will Handle Campaign to Advertise Texas

Fort Worth.—Telling the world about Texas, a national advertising program to inform national industrial executives about the State's natural advantages and manufacturing opportunities, was under way today under leadership of the Texas Institute of Natural Resources and Industrial Development.

Taking full advantage of the widespread interest in Texas created by the Centennial and Pan American Expositions, the program will focus interest on the many opportunities for business and manufacturing development offered by the State, Jesse McKee, chairman of the Five-Year Industrial Campaign Committee of the Institute, announced. Appointed today to handle the national campaign about Texas was Tracy-Locke-Dawson, Inc., Dallas advertising agency, which directed advertising for both the Centennial and Pan American, and worked with the Dallas Chamber of Commerce on the Industrial Dallas campaign which attracted national attention some years ago.

"National advertising about Texas will place the State among the many states and sections now using this means of getting new businesses and residents," Mr. McKee explained. "Among those already using this method are New York, California, the New England states, Pennsylvania, Washington, Nebraska, New Jersey and among the Southern states, Louisiana, Mississippi and North Carolina. Texas must advertise itself if it is to profit by the current movement of manufacturing plants to Southern states."

"Emphasis will be laid in the advertising on the highly specialized research facilities and statistical service offered free to companies and investors interested in Texas by the Texas Institute of Natural Resources and Industrial Development," Mr. McKee said. The Institute, founded 18 years ago, has gathered a tremendous amount of information about every section of Texas from which it will prepare specialized reports without charge for interested manufacturers and industrialists.

INTERESTING FACTS OF THIS AND THAT

Corn is grown in every state in the Union. The "Little Church Around the Corner" is an Episcopal Church. The tail of a comet always points away from the sun.

The swifter death is the gallows. It is a fraction of a second quicker than the electric chair. The emerald is the softest precious stone.

The earth curves about eight inches to the mile. POISONOUS SNAKES About 2,000 persons are bitten by snakes every summer, according to an estimate by Dr. Raymond Ditmars, curator of reptiles of the New York Zoological Gardens, but it is believed that many cases are not reported to health authorities. It is also estimated that about 300 cases of snake bite, or approximately 15 per cent, result fatally.

Poisonous snakes are found in all the states of the Union except Maine, New Hampshire and Vermont, and these consist of two principal families. One family is known as the pit viper, and includes copperheads, moccasins and

SAFETY SLOGANS

111,000 persons were killed in accidents in this country last year. Practice caution. Nearly 11 million persons or one of every twelve were injured in accidents in this country last year. Practice safety habits. It is much better to lose a minute and save a life than it is to lose a life and save a minute. Drive carefully. Whatever the requirements of the state law, when you approach a railroad track, common sense tells you to be sure that a train is not coming from either direction.

Blessed is everyone that feareth the Lord: that walketh in his ways.

Time does march on, and as it marches on it brings many changes. One of these is the fade-out of the circus...

Dale Carnegie says that it is true of 90 per cent of the people you meet that if you praise them you are a swell fellow...

After hearing 25,000 cases of domestic complaints in one year, Mrs. Ethel R. McDowell, of the Chicago Social Service Division...

Colorado, which impetuously rushed to vote into its constitution \$45 a month old-age pension...

The young people of today, while they may have their faults, do see some things pretty straight.

When a disappointment it is to meet up with a man who has education and opportunity...

People are essentially alike in size, shape and mineral composition.

About the worst sort of punishment that can come to a man is the realization that he made a fool of himself yesterday.

It is estimated that \$67,000,000 is spent annually by auto owners on anti-freeze mixtures.

SMITH TOO BUSY

Because Henry Hofer, a blacksmith at Sharpburg, Pa., has so much work to do that he starts at 5 a. m. every morning...

Silo

(Continued from Page One)

stacked feed he demonstrated the advantages of a trench silo, explaining many points most important of which, is the length of time feed can be kept in this manner.

Mr. Eudaley stressed that farmers watch the milk production of cows during cold or extremely hot and dry weather.

He stated that they must have fifty pounds of water for each gallon of milk produced, therefore, he pointed out, cows must get part of that water in feed.

Another advantage stressed was the cheaper storage. According to Mr. Eudaley, it is cheaper to store feed in trench silos than it is in barns, stacks or any other form of storage.

Dry feed is lacking in Vitamin A, which is necessary to the animal body, and silage is rich in this vitamin. He stated that Vitamin A could be recognized in a cow's butter.

The size of a trench silo should be governed by the number of stock to be fed from it. There are a great number of the silos that are too large for the stock being fed from them, causing a waste of feed.

Any kind of feed can be stored in a trench silo, Mr. Eudaley stated. There have been occasions when cotton stalks have been put in a silo.

Farmers are inclined to want to know how little water can be used instead of how much. This can be determined by putting water on feed until it packs well in the trench.

Trench silos are excellent storage places for corn or green sorghum heads, according to Mr. Eudaley. These two types of feed require water before the silo is covered with dirt.

Precaution should be taken in covering silo. The dirt covering should range from 12 to 18 inches or deeper to keep air from reaching silage.

The depth of a silo should be governed by the hardness of the ground. The silo should be dug deep enough to reach ground hard enough to give a good base.

Under normal conditions it is believed that some fish, like the shark for instance, should live for 100 years and more.

In The News 15 Years Ago

The items below were taken in whole or in part from the issue of The Foard County News of Sept. 7, 1923.

Grand Jury List The grand jury for the September-October term of district court which convenes on the 24th of September, is as follows: H. W. Banister, S. S. Bell, E. W. Burrow, H. D. Lawson, M. G. Colton, E. O. Trawcock and Bud Greening.

Trades Day Winners Listed below are a few of the winners of contests at the successful Trades Day staged in Crowell last Monday. Each merchant gave a prize to be used in the contests, of which there were over thirty.

Shower for Bride-Elect Miss Una Self was the honor guest at a pretty party at the home of Mr. and Mrs. R. B. Edwards given by Mrs. Herbert Edwards and Miss Lottie Woods on Tuesday afternoon.

Crowell Schools Open The Crowell school started out Monday morning under favorable conditions. As an expression of general interest in the school, a fairly large representation of the patrons were present at the opening exercises.

Thalia Grid (Continued from Page One) pass receiver, and more scoring as the field is only 80 yards long and 40 yards wide.

Coach Bowden is well pleased with the boys reporting for practice because several of them have both weight and speed. The Thalia boys became acquainted with this type of football when Mr. Wheelock ran a spring training period during which two games were played.

Those who reported for practice and were issued uniforms are J. F. Matthews, Travis McKinley, Dale Earthman, Joe McKinley, Albert Earthman, J. M. Owens, Duane Capps, Robert Dunn, Rudolph, Matias, Loyd Gray, Bill Swan, J. D. Sandefur, Cleidon Sims, Glenn Tole, George Solomon, Louis Ward and Sammy Payne.

Wildcats (Continued from Page One) large, black numerals on the front and back, with black stripes on the arms.

Two Wildcats Hampered Bernice Fitzgerald suffered a knee injury Monday afternoon which has kept him out of uniform during the past two practice sessions, and there is some doubt whether he will be able to see service in the game tomorrow night.

John Lee Orr, veteran backfield man, is suffering from a boil under his arm. He will be able to be in the line-up for the first game, but it is feared that the work of this fast stepping back will be hampered, which would slow the Wildcats' offense.

Macchiavelli Observation The famed Italian master of the method of governing by artifice, Macchiavelli, observed that two things are necessary for a political coup—the opportunities and the man.

Arab Terror in Palestine

NOBODY'S BUSINESS BY JULIAN CAPERS JR.

Austin.—Threatened renewal of the widely criticized confiscated oil policy under which nearly four millions of barrels of confiscated oil were dumped upon the market at an average price of 27 cents per barrel...

Gov. Allred, several Senators and independent oil men were lined up on one side, opposing the "dumping" of "hot" oil, seized by the State, acting through the Attorney General.

Sadler Comes To Austin Jerry Sadler, nominee for Railroad Commissioner over C. V. Terrell, came to Austin and joined vigorously in opposing heavy sales of confiscated oil at this time.

Thompson To Remain Ernest Thompson announced he will not resign to accept appointment as President of West Texas Tech, but will remain to serve out his four years as Railroad Commissioner.

House, since two strong opponents have withdrawn and a third failed of re-election to the Legislature. Morse is an experienced, able legislator, but he has been the floor leader for sale of liquor by the drink advocates, and this may provoke opposition to him as speaker at the last minute.

Vaccination for School Children May Avoid Illness

Austin.—Dr. Geo. W. Cox, State Health Officer, in a statement issued at Austin this week, urged all local boards of health and boards of education to pass regulations making mandatory smallpox vaccination and diphtheria immunization for all school children before they are allowed to register for the fall school term.

"School children are exposed to so much infection during the school year that where a definite preventive against a disease is known, parents should be urged to take advantage of this knowledge. Vaccination may save a period of prolonged absence from school, doctor's fees, and even life itself.

4-H Club Activities

The expenses of the entire flock have been paid and 63 cents left from the sale of fifteen of her 43 chickens according to Evelyn Johnson, poultry demonstrator for the Riverside 4-H Club.

Games in which the entirely take part can be very able according to Louise Shattuck of the Riverside 4-H Club who lectured that as one of her goals in the Having More Family Fun demonstration, and who has taken her family a number of new games.

Two of the most sensational high acts ever brought in to this country will be presented free daily on the grounds at the Golden Jubilee Celebration of the State Fair of Texas, Oct. 8 to 23.

A nature scrap book was lectured as the third goal. Louise says of her book, "My book is divided into sections. The first section consists of nature scenes, second is of wild flowers, the third of wild animals, and the fourth of birds and butterflies. My book is not near complete. I expect to add more and more to it."

# Locals

Plenty of rugs of all kinds. Good prices.—W. R. Womack.

Amos W. Lilly attended a sheriff's convention in Amarillo from Tuesday until Friday of last week.

Special low prices on lawn mowers—lawn hose, etc.—W. R. Womack.

J. R. Beverly left Tuesday on a business trip to Ft. Sumner, N. M., and will be gone for several days.

W. R. Kenner of Burkburnett is here visiting relatives and friends. Mr. Kenner is a former resident of this county.

Mr. and Mrs. William Holwick of Tulsa, Okla., spent the week-end in the home of Mrs. Holwick's parents, Mr. and Mrs. L. I. Saunders.

Mr. and Mrs. Dub Young of Fort Worth arrived in Crowell Tuesday morning for a visit with Mrs. Young's parents, Mr. and Mrs. P. H. McLain, and other relatives.

Complete line of poultry and dairy feeds. Sell your poultry, eggs and cream to us.—Ballard Produce.

J. C. Roberts, who lives near Wichita Falls, was here Saturday afternoon on business. Mr. Roberts and family are former residents of Foard County, moving to Wichita County the first of the year.

Lawrence Kinsey of Munday, employe of the International Harvester Co., was here Monday. Mr. Kinsey and family returned last week from a trip to Canada, visiting cities of the United States en route. In Canada they visited the cities of Montreal, Toronto and Ottawa.

Plenty new living room, bed room, dining room, and breakfast room suits, and new couches and rockers.—W. R. Womack.

Mr. and Mrs. W. M. Kelley and Mr. and Mrs. Homer Ketchersid returned to Crowell last week after a visit in the home of Mrs. Kelley's sister, Mrs. S. E. Brasher and family of Gatesville. This was the first time that Mrs. Kelley and Mrs. Brasher had seen each other in twenty-one years.

Plenty Water Spar varnish and enamels.—W. R. Womack.

J. Y. Welch visited in the home of his daughter, Mrs. H. D. Huffstader, of Dallas Sunday and Monday. He was accompanied by Crowell Tuesday by his daughter and son, Miss Frances and James, who had been visiting in the home of their sister for the past five weeks.

Plenty new gas and oil heaters.—W. R. Womack.

Dick Todd left Crowell Sunday for Texas A. & M. College in College Station, where he will enroll as a senior, after spending the summer in the home of his parents, Mr. and Mrs. Jeff Todd. He entered the grid training session of the Aggies Monday.

A Zenith table model farm radio with battery and Wincharger, only \$50.95.—W. R. Womack.

Mr. and Mrs. B. A. Moncus visited last week with Mrs. Moncus' brother, Thad Hoot, and family at Tuxedo near Stamford. Mr. Moncus had not seen Mr. Hoot in thirty years. They returned home Sunday.

Plenty wall paper.—W. R. Womack.

Mrs. S. E. Woods and Miss Lottie Woods returned to Wichita Falls Monday morning after visiting for several days with Mrs. J. A. Johnson.

Complete line of poultry and dairy feeds. Sell your poultry, eggs and cream to us.—Ballard Produce.

Mr. and Mrs. J. W. Allison returned Monday from Covina, Calif., where they spent three months visiting in the home of their son, Herman Allison, and family.

Plenty of radio tubes and batteries—Winchargers, too!—W. R. Womack.

A. Y. Beverly is in Dallas this week on business.

**IN OKLAHOMA CITY**

Miss Mary Frances Self entered the Oklahoma University Hospital for Crippled Children in Oklahoma City Sept. 1 as a student dietician for a year's work. Miss Self majored in dietetics and nutrition in Oklahoma State University at Norman last year and did work on her master's degree.

**GOES TO BRADY**

Miss Edith Carter left this morning for Brady where she will assume duties as physical education teacher in high school. Miss Carter is a graduate of Sul Ross State Teachers' College in Alpine.

Plenty Johnson's Glo-Coat. Buy one, get one free!—W. R. Womack.

**CARD OF THANKS**

Words can not adequately express our appreciation for the kindness shown us during the illness of our husband and father. The floral offering was beautiful.

Mrs. J. D. Wright, Children and Grandchildren.

Plenty radios, all types, Zenith and Watterson.—W. R. Womack.

**ROTARY CLUB**

The regular meeting of the Crowell Rotary Club was held at the Crowell Lunch Room Wednesday with the program in charge of Guy Wells. Three articles in the current Rotarian Magazine were discussed by Mr. Wells, George Self and Recie Womack.

Wednesday was the birthday of Charlie P. Sandifer, one of the new members of the club, and also the anniversary of the date he arrived in Foard County from Col. in County forty-nine years ago.

Wednesday was also the anniversary date of the arrival in Crowell of W. Frank Kirkpatrick thirty years ago.

Plenty genuine Winchargers, \$15.50, \$17.50 and \$39.50 with Zenith radios. Also 32 volt, 650 and 1,000 watts.—W. R. Womack.

Mrs. B. F. Ringgold will leave Saturday for Omaha, Neb., where she will make an extended visit in the home of her daughter, Mrs. Wm. E. Wells, and husband.

John Allen Fish and Hughes Fish of Vivian visited in the home of their uncle, T. B. Klepper, and family Wednesday and Wednesday night. They will leave next week for Lubbock where they will enter Texas Technological College.

Mrs. C. W. Thompson returned Friday from Pilot Point where she had been for several weeks on account of the illness of her mother, Mrs. Florence Ragland. Mrs. Ragland is improving.

Dr. and Mrs. R. L. Kincaid have returned home from an extended trip to New York City and points in Canada. They also visited places of interest en route home.

**TRUSCOTT**  
(By Chrystalene Chilcoat)

Mrs. O. Cash, Chrystalene Chilcoat, Mrs. J. W. Hutton, Miss Exa Faye Hutton and Miss Opal D. Bohannon of Knox City visited Mrs. Cash's sister, Mrs. John Black, and family.

Dennis Eubank, who has been working in Tulsa, has returned to his home here.

Grady Hudson of Benjamin transected business here Sunday. Misses Geraldine Cure, Alice Horne and Winnie Horne of Gilliland visited friends here Sunday.

Mrs. Frank Brown and children, Frank E. Jr. and Bennye Joyce, who spent the summer in Mexico, have returned to their home here.

Mr. and Mrs. Jack Roberts and daughter, Elizabeth Anne, are visiting Mr. and Mrs. V. W. Brown and family and other friends here.

Mr. and Mrs. Homer Houston of Delwin are visiting her mother, Mrs. J. M. Chilcoat, and family.

Miss Mary Jo Chilcoat, who spent the summer with her sisters, Mrs. Barton Abbott of San Angelo and Mrs. Edward Ratliff Jr. of Sonora, has returned home.

Carlton Browder, who has been visiting Mr. and Mrs. Joe Morris of Boonsville, returned home last week.

Mr. and Mrs. Barton Abbott and children of San Angelo are visiting friends and relatives here.

Mrs. Lawrence Abbott and small daughter, Linda Carol, of San Angelo are visiting her parents, Mr. and Mrs. A. S. Tarpley.

Misses Doris Marie and Opal Jean Browder, who have spent the past few weeks with their grandparents, Mr. and Mrs. Joe Morris, returned home last week.

Derward Horne, J. T. Cook and G. H. Byrd of Gilliland were visitors in Truscott Sunday evening.

Lee J. Stout, who has spent the summer in Throckmorton, has returned to his home here.

Rev. Joe W. English is holding a meeting in Tuxedo this week. His wife joined him Sunday where she will spend a week.

Ed L. Turner of Abilene has been visiting his mother, Mrs. S. S. Turner, this week.

A. F. McMinn and J. B. Chilcoat made a business trip to Benjamin Tuesday.

Mrs. Bob Meyers, who has been visiting relatives in Littlefield, O'Donnell and McKinney, has returned home.

Miss Eileen Motley, who spent the summer in her home in Dallas, has returned to resume her duties as English teacher for the 1938-39 term.

B. L. McCoy, who has spent the summer in Amarillo and McLennan, has returned to his position as principal and coach for the 1938-39 school term.

Miss Frances Pettis, who has been taking a beauty course in Dallas, has returned to her home to spend a few days with her mother.

Miss Willie Lou Combest of Sherman, who has been visiting friends in Gilliland and Truscott, returned to her home Sunday.

Mrs. Delbert Cook, who has been visiting her daughter, Mrs. Doyle Combest of Sherman, has returned to her home in Gilliland.

**Several from Foard Attend Vernon Dairy Show Last Tuesday**

Several persons from Foard County attended the Wilbarger County Dairy Day program held in Vernon Tuesday. Those reported to have attended were H. Greenlee, Mr. and Mrs. John Nagy, C. D. Hamey, J. M. Bartow and Mr. and Mrs. Joe Drabek. E. R. Eudaley and G. G. Gibson, Extension Service specialists, were judges. About \$75 in cash and merchandise were awarded winners in the contests. Fifty-six head of registered and grade cattle were exhibited and selected samples of butter, milk, and cottage cheese were exhibited.

The program also included talks by the Extension Service specialists. Mr. Eudaley discussed "More Milk Per Acre" and Mr. Gibson spoke on "Looking Ahead With Your Dairy Herd." County Agent Fred Rennels, who introduced the speakers, briefly discussed the value of good dairy cattle.

The show was the first held in this section in which cattle were classed according to confirmation to dairy standards instead of being grouped as first, second and third place winners. All cattle meeting a certain standard were given "A," "B" and "C" ranking and awarded blue, red and white ribbons, respectively.

**Enrollment—**

(Continued from Page One)

Crowell. The entire student body of the Black school; the high school grades of the Foard City, Vivian and Margaret schools were all transferred to Crowell this year by contracts with the Crowell Independent School District school board.

According to figures released, there are 236 students in high school, or 32 more than last year, and an increase of 69 pupils over last year in the grammar grades. There are 376 grammar school students enrolled at present.

### NEGROES OWNED SLAVES

Few of the present generation, particularly in the North, know that before the Civil War a great many free negroes in the South owned other negroes as slaves. Some interesting facts concerning the subject are given in Prof. Carter Goodwin Woodson's book, "Free Negro Heads of Families."

He shows that as far back as 1830 one-seventh of the negroes in the country were free, some of them rich, owning large plantations and other valuable property. In 1857 one negro in South Carolina owned 200 slaves, in Louisiana, four negroes owned respectively 87, 50 and 47 slaves. Many others owned smaller numbers, it being estimated that 40,000 free negroes owned nearly 100,000 slaves at one time.

The story is told of a Charleston negro who admired a female slave owned by a neighbor and bought her for a wife. Later on when she failed to behave herself as he thought proper, he sold her at a profit of \$50.

### Seize of Paris Balloons

During the siege of Paris in 1871 there were 64 balloons sent up with 91 passengers, 354 pigeons and 3,000,000 letters.

### WHAT WE THINK

(By Frank Dixon)

The three major problems that face the farm industry, as I see it, are: Lack of organization among producers, the uncertain part that nature plays in crop production, and the inability of the farmer to pass on the multitude of taxes that have come into being the past few years.

Practically every other industry in this country is organized to the degree that it controls the price at which any commodity can be put upon the market. This control is exercised regardless of whether there is just enough of the article for demands or ten times as much as the consumption demand requires.

This is not only true of manufactured products but it is also true to a large degree of labor. It has even reached the point when the federal government not only says how many hours an employer may work his employees but what he shall pay them. Any employer found guilty of working his employees more hours or paying less per hour than the law states is subject to a heavy fine and a prison sentence or both. In some instances for slight infractions of technicalities of this law employers have been fined thousands of dollars and the fines turned over to the employee.

This country acquiesces to this sort of a thing yet if the same law should continue to say, as it has an equal right to do, that it likes them and a like prison sentence should be imposed upon anyone paying less than a dollar a bushel for wheat or ten cents a pound for hogs or fifty cents a pound for butter fat, regardless of the supply on hand it would be doing no more for the farmer than it is now doing for labor.

Re-sale prices of manufactured articles can be protected by law, and are.

In addition to this the above groups can and do pass on every tax that is levied. In reality they pay no taxes at all. Acting in a fiduciary capacity they merely collect the taxes from others before they pay them out. The farmer alone cannot do this. He finally pays all the taxes. He cannot pass them on because the government has chosen to give him the power to demand a price and give him legal sanction in securing it.

To this man made condition is added the uncertainty of the elements and pests in the production of a crop.

I can see no hope for the farmer until he organizes as these others have organized. When and if he does, Congress, because of the votes the industry represents, will listen to him, and he with these other groups will receive special legislation.

Until this comes to pass, farm relief in my opinion will fall short of results and this basic industry will continue to trail all others from the standpoint of financial return in proportion to capital investment and hours of labor involved. It cannot prosper unprotected in a field in which all other members are given protection, in some instances by the most drastic of laws.

Tuskegee Institute was founded in 1881.

### BADGER SETS EXAMPLE IN CLEANLINESS AND HEALTH

Human beings are less "health-minded" than any other branch of animal life. Wild animals instinctively do what is right for the preservation of their health. Humans not only have to be taught painfully and laboriously, to seek fresh air, exercise, clean food and adequate rest—but they actually create an environment inimical to health, asserts a writer in Pearson's London Weekly.

A striking instance of how the lower animals can set us an example in domestic hygiene is provided by the badger. His burrowing and excavation is muddy work, but he takes care not to carry soil into his home. He wipes all four feet energetically on the "doormat" before he enters.

He springs clean regularly, remakes his bed by replacing used bracken and grass with fresh supplies, and in a skilled manner he actually makes ingenious sinks for storing remnants of food.

Humans can't teach him much about cleaning and hygiene—but they might learn from him.

Miami, Florida, has a thousand restaurants.

### "HOT CHECK" ARTIST

Austin.—State police issued a warning today to rooming house operators against the "hot check" operations of a woman who has gleaned a small fortune in Texas towns.

The woman—about 35 years old and neat appearing—usually applies for a room for herself and husband and presents a check for one or two months' rent. The checks range from \$20 to \$35. She secures the landlady's endorsement on the check while her husband waits for her in an automobile, sometimes with a child. After the check is cashed at a bank or business place the couple leave town.

Officers, who have investigated nearly 50 such complaints, said the woman always tells her victims that she and her husband plan to build a tourist camp or open a beauty parlor in the town.

All Texas passenger agents are hard at work trying to arrange the lowest transportation rates to Dallas for the Golden Jubilee Celebration of the State Fair which were ever in effect.

Mrs. C. F. Henry and daughter, Mrs. Tommy Cagle, and children of Quanah, visited Mr. and Mrs. M. C. Adkins a few days last week.

M. P. Payne of Fort Clark, Texas, visited his mother, Mrs. Ed Payne, here this week.

Miss Tommie Grimsley went to Red Springs Saturday where she will teach school.

Mrs. M. C. Adkins and daughter, Mildred, visited in Wichita Falls Wednesday. They were accompanied by Mrs. C. F. Henry and Mrs. Tom Cagle of Quanah.

Erma Oliver and son of Fort Worth visited his brother, Eudale, and family and his sister, Mrs. G. W. Scates, a few days last week.

Mrs. R. C. Huntley, Mrs. Juanita Huston and children and Bobbie Huntley visited Mr. and Mrs. J. C. Levell in KMA Sunday.

Mrs. Ben Hogan and daughter, Mary Jo, returned home Thursday from a visit in Denton.

Mrs. M. H. Jones has returned home from several days' visit with relatives in Krum.

Mrs. J. Y. Lindsey and son returned home Thursday from Bowie where they have been visiting relatives the last week.

Mrs. C. H. Wood and daughter, Geneva Jo, and Mrs. W. J. Long and daughter, Norma Jean, visited in Wichita Falls Friday.

## SIDE LIGHTS

By MARVIN JONES  
Member of Congress From Texas

Miss Eunice Banister of Fort Worth visited her parents, Mr. and Mrs. H. W. Banister, last week.

Mr. and Mrs. A. M. Bryson returned to their home in Mineral Wells Tuesday after several days' visit with his sister, Mrs. E. S. Flesher, and family here.

Marshall Franklin and Bill Ryder of Truscott were visitors here Saturday evening.

Cecil Shelton and family of Denton visited Mrs. T. J. Wood and other relatives here a while Sunday afternoon.

Carl Matthews and family of Denton visited his parents, Mr. and Mrs. J. F. Matthews, a few days last week.

Buster Roberts visited his sister, Mrs. Raymond Oliver, and family near Knox City last week.

Mrs. Bill Hudgens and children have returned from a visit with relatives at Ralls.

C. C. Lindsey, who has been very ill the last two weeks, is slowly improving.

Mr. and Mrs. Elwin Matthews of Lubbock visited his parents, Mr. and Mrs. J. F. Matthews, here last week-end.

Archie Dunn and family of Rayland and Mr. and Mrs. Elmer Dunn of Crowell visited Jim Dunn and family here Sunday.

Misses Jean Long and Geneva Wood went to Wichita Falls Tuesday to enter a business college.

Miss Ruth Banister left Saturday for Fort Worth to enter a business college.

Oran Chapman and family of Silvertown visited his parents, Mr. and Mrs. W. G. Chapman, last week-end.

Miss Floy Huntley visited Miss Selma Jo Davis in Crowell last week-end.

Mr. and Mrs. W. B. Shook of Iowa Park visited her mother, Mrs. A. C. Phillips, last week-end.

School opened here Monday morning with a large attendance. The teachers are, J. L. Coppage of Springtown, Supt.; J. B. Rennels of Riverside, principal; W. C. Rowden of Dallas, coach; Misses Faye Johnson of Petrolia, Anna Hoeltdt of Bowie, Katherine Griffin of McKinney, and Kathleen Cameron of Stephenville.

Bertha Shultz has charge of the lunch room. M. H. Jones is janitor and Buster Lindsay, Clyde Seif, Eudale Oliver and J. C. Jones, are the bus drivers.

Those who attended the Abston reunion and picnic in Lugert, Okla., Sunday from here were, Mrs. J. A. Abston, Mrs. A. C. Phillips and children, Tom Abston and children, Bob Abston and family, John Thompson and family, J. G. Thompson and Eddie Abston. There were 68 friends and relatives who attended.

Jno. W. Wright and family visited relatives in Goodlett Monday night.

Mr. and Mrs. Raymond Grimm and Mrs. O. M. Grimm visited relatives and friends in Glenrose last week-end.

Mrs. Pete Gamble and son, Wayne, and Mr. and Mrs. Oran Ford visited Glenn Gamble and family in Petersburg a few days this week. Wayne will stay a few weeks.

Jim Drake and family of Oklahoma City visited his sister, Mrs. T. M. Haney, last week-end.

The Arkansas Gazette has been published for 118 years.

## Two Minute Sem

(By Thomas Hastwell)

No Nation is Greater Than Homes; A Christian people desirable in all forms of government but more so in a democracy in any other type of government for the reason that in a democracy the leaders are chosen by the people. It is important that the leaders come into office with high concepts of right and wrong but that the people who place in power have those qualities of mind and conscience that will enable them to choose wisely in those hands shall rest the responsibility of directing the course of the nation. This being true it is important that the people shall be such that out of them come men and women who not only to rule, but what is as important, qualified to whom their rulers shall be chosen to build the greatest of the empire that the world has ever seen. Our ships may plow the seas laden with the product of our skill and genius, our industry may be bursting with goods but unless we have back of them the meaning of security, a Christian home, whether a mansion or a cabin, is the stone of this democracy; a home will never be greater than homes.

A group of influential were advisors of Andrew son, and known as the Cabinet.

When farm machinery is shipped, the following rates prevail:

Domestic rate Export rate  
Per cwt. Per cwt.

Indianapolis to Galveston 1.04 44  
Indianapolis to New Orleans .75 44  
Chicago to Houston 1.05 47½  
Chicago to New Orleans .80 47½  
Moline, Illinois, to Houston 1.02 47½

On iron and steel, the following rates prevail:

Chicago to San Francisco 1.02 40  
Gary, Indiana, to New York .47 34  
Pittsburgh, Pa., to New York .33 20

In other words; 2 plows shipped from Moline, Ill., to Houston, Texas, loaded on the same platform, unloaded on the same dock; the one to be used by a Texas farmer pays a freight rate of \$1.02 per cwt.; the one being shipped abroad pays a freight rate of 47½¢ per cwt.

The excuse for lower freight rates on manufactured products going into export is that by shipping the products abroad, factories are enabled to run full tilt and thus to sell their products even at home cheaper than if they ran part time.

Revolutions may be bloodless. Men of science "remaking" the world today are waging just such a revolution—not behind barricades, but in research laboratories. Through their efforts, economic inequalities so often the cause of international strife gradually may be reduced to a minimum, according to Dr. Harrison E. Howe in the current Rotarian Magazine.

"Wars are often occasioned by the scramble for supplies of raw materials, natural resources," declares Dr. Howe, who is editor of Industrial and Engineering Chemistry. "It has been said that 27 different natural products are necessary in an industrialized nation. If a nation possesses 23 of these within its borders, as the United States does, it truly may be called highly self-sufficient; but if a nation has only six of them, as Germany does, it is not naturally self-sufficient."

Nations believing themselves to be handicapped and underprivileged may turn to their chemists, he believes, for chemical analysis and science in general greatly broaden the industrial base, increasing the number of raw materials that may be used to produce finished products. Thus the chemist may use the basic elements in whatever form or place they may be found—nitrate from the air, byproduct from the sea, camphor from turpentine.

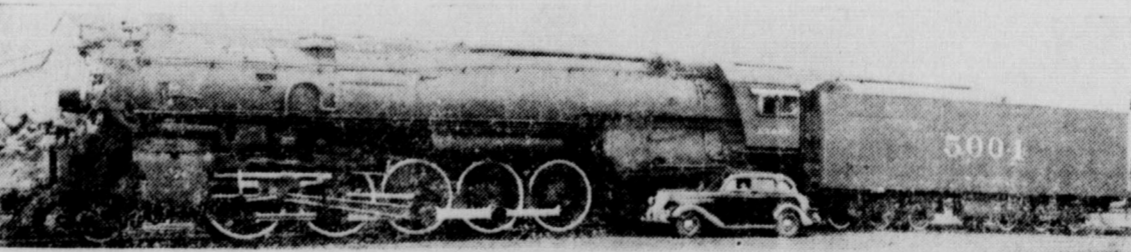

"A shortage of natural wool, coupled with hopes of realizing national economic self-sufficiency, has caused Germany and Italy to produce substitute and artificial wools synthetically," continues Dr. Howe. German's Zellwolle is made from wood fiber and Italy's wool is made from casein. Modern glass cloth is a triumph of chemistry, ceramics, and engineering in the United States where rayon has also been developed for so many uses.

Synthetic rubber though not so cheap as natural rubber is better for many purposes, the scientist reports. Russia is making a synthetic rubber, Sovprene, mostly from alcohol derived from potatoes; Germany makes what it calls Buna from butadiene starting with acetylene; the best-known American synthetic rubbers are Neoprene, using acetylene; Thiokol from ethylene, chlorine, and sulphur; and Koroseal, made from vinyl acetate and a plasticizer.

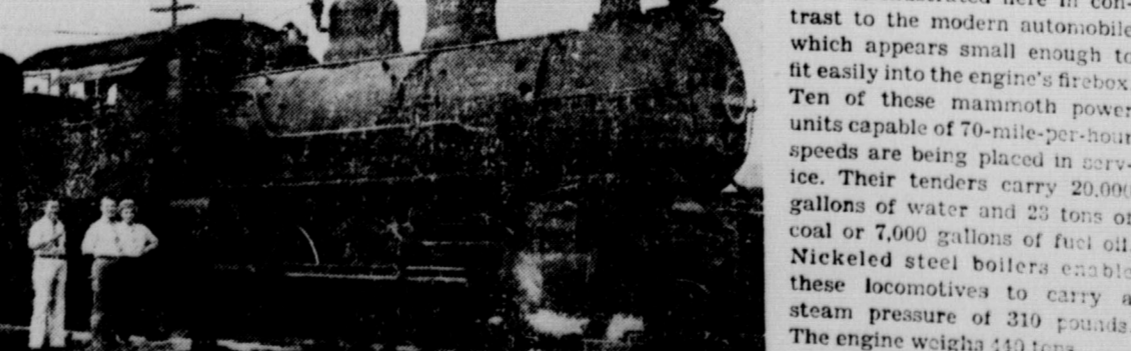

This is the chemist's way to peace, concludes Dr. Howe, for by using chemistry and industrial science, nations can have a wider choice of raw materials. Every day chemists are showing how nations more and more can make what they need from materials in their own backyards.

The tango dance originated with African negroes.

## Fifty Years of Locomotive Development

(Above)—Santa Fe Railway's new 5001-class of freight locomotives is illustrated here in contrast to the modern automobile which appears small enough to fit easily into the engine's firebox. Ten of these mammoth power units capable of 70-mile-per-hour speeds are being placed in service. Their tenders carry 20,000 gallons of water and 23 tons of coal or 7,000 gallons of fuel oil. Nickel-plated steel boilers enable these locomotives to carry a steam pressure of 310 pounds. The engine weighs 440 tons.

Fifty years ago, No. 684 was the latest thing in Santa Fe freight power. She served her heyday when freight train speeds averaged 10 miles per hour and 30 cars made a big train. Today, she is the last survivor of her class. At the Yopoka shops she pulls mightily as she shows her modern sisters, as shown above, around the locomotive shop yards. She came from the Baldwin locomotive works in 1838 just 50 years ahead of No. 5004, which represents the latest engineering developments in steam freight engines.

## Chemistry Reduces Sources of Strife, Asserts Scientist

Revolutions may be bloodless. Men of science "remaking" the world today are waging just such a revolution—not behind barricades, but in research laboratories. Through their efforts, economic inequalities so often the cause of international strife gradually may be reduced to a minimum, according to Dr. Harrison E. Howe in the current Rotarian Magazine.

"Wars are often occasioned by the scramble for supplies of raw materials, natural resources," declares Dr. Howe, who is editor of Industrial and Engineering Chemistry. "It has been said that 27 different natural products are necessary in an industrialized nation. If a nation possesses 23 of these within its borders, as the United States does, it truly may be called highly self-sufficient; but if a nation has only six of them, as Germany does, it is not naturally self-sufficient."

Nations believing themselves to be handicapped and underprivileged may turn to their chemists, he believes, for chemical analysis and science in general greatly broaden the industrial base, increasing the number of raw materials that may be used to produce finished products. Thus the chemist may use the basic elements in whatever form or place they may be found—nitrate from the air, byproduct from the sea, camphor from turpentine.

"A shortage of natural wool, coupled with hopes of realizing national economic self-sufficiency, has caused Germany and Italy to produce substitute and artificial wools synthetically," continues Dr. Howe. German's Zellwolle is made from wood fiber and Italy's wool is made from casein. Modern glass cloth is a triumph of chemistry, ceramics, and engineering in the United States where rayon has also been developed for so many uses.

Synthetic rubber though not so cheap as natural rubber is better for many purposes, the scientist reports. "Wars are often occasioned by the scramble for supplies of raw materials, natural resources," declares Dr. Howe, who is editor of Industrial and Engineering Chemistry. "It has been said that 27 different natural products are necessary in an industrialized nation. If a nation possesses 23 of these within its borders, as the United States does, it truly may be called highly self-sufficient; but if a nation has only six of them, as Germany does, it is not naturally self-sufficient."

Nations believing themselves to be handicapped and underprivileged may turn to their chemists, he believes, for chemical analysis and science in general greatly broaden the industrial base, increasing the number of raw materials that may be used to produce finished products. Thus the chemist may use the basic elements in whatever form or place they may be found—nitrate from the air, byproduct from the sea, camphor from turpentine.

"A shortage of natural wool, coupled with hopes of realizing national economic self-sufficiency, has caused Germany and Italy to produce substitute and artificial wools synthetically," continues Dr. Howe. German's Zellwolle is made from wood fiber and Italy's wool is made from casein. Modern glass cloth is a triumph of chemistry, ceramics, and engineering in the United States where rayon has also been developed for so many uses.

Synthetic rubber though not so cheap as natural rubber is better for many purposes, the scientist reports. Russia is making a synthetic rubber, Sovprene, mostly from alcohol derived from potatoes; Germany makes what it calls Buna from butadiene starting with acetylene; the best-known American synthetic rubbers are Neoprene, using acetylene; Thiokol from ethylene, chlorine, and sulphur; and Koroseal, made from vinyl acetate and a plasticizer.

This is the chemist's way to peace, concludes Dr. Howe, for by using chemistry and industrial science, nations can have a wider choice of raw materials. Every day chemists are showing how nations more and more can make what they need from materials in their own backyards.

The tango dance originated with African negroes.

When farm machinery is shipped, the following rates prevail:

Domestic rate Export rate  
Per cwt. Per cwt.

Indianapolis to Galveston 1.04 44  
Indianapolis to New Orleans .75 44  
Chicago to Houston 1.05 47½  
Chicago to New Orleans .80 47½  
Moline, Illinois, to Houston 1.02 47½

On iron and steel, the following rates prevail:

Chicago to San Francisco 1.02 40  
Gary, Indiana, to New York .47 34  
Pittsburgh, Pa., to New York .33 20

In other words; 2 plows shipped from Moline, Ill., to Houston, Texas, loaded on the same platform, unloaded on the same dock; the one to be used by a Texas farmer pays a freight rate of \$1.02 per cwt.; the one being shipped abroad pays a freight rate of 47½¢ per cwt.

The excuse for lower freight rates on manufactured products going into export is that by shipping the products abroad, factories are enabled to run full tilt and thus to sell their products even at home cheaper than if they ran part time.

Revolutions may be bloodless. Men of science "remaking" the world today are waging just such a revolution—not behind barricades, but in research laboratories. Through their efforts, economic inequalities so often the cause of international strife gradually may be reduced to a minimum, according to Dr. Harrison E. Howe in the current Rotarian Magazine.

"Wars are often occasioned by the scramble for supplies of raw materials, natural resources," declares Dr. Howe, who is editor of Industrial and Engineering Chemistry. "It has been said that 27 different natural products are necessary in an industrialized nation. If a nation possesses 23 of these within its borders, as the United States does, it truly may be called highly self-sufficient; but if a nation has only six of them, as Germany does, it is not naturally self-sufficient."

Nations believing themselves to be handicapped and underprivileged may turn to their chemists, he believes, for chemical analysis and science in general greatly broaden the industrial base, increasing the number of raw materials that may be used to produce finished products. Thus the chemist may use the basic elements in whatever form or place they may be found—nitrate from the air, byproduct from the sea, camphor from turpentine.

"A shortage of natural wool, coupled with hopes of realizing national economic self-sufficiency, has caused Germany and Italy to produce substitute and artificial wools synthetically," continues Dr. Howe. German's

CHURCHES

Margaret-Thalia M. E. Church

We will have our regular preaching services at Thalia Sunday. This will be the first opportunity we have had for services since the revivals began. We hope that every member will be present and urge all others who are not in services some where else, to meet with us.

We plan to elect new superintendents for the Sunday School at the morning service. These officers are to take office by the first of October with all teachers and other officials.

Last Sunday we re-elected officers at Margaret: Ray Hysinger was elected general superintendent; S. J. Boman, adult superintendent; Mrs. W. A. Dunn, young people's superintendent; and Mrs. W. T. Blevins, superintendent of children. All adult classes will elect officers at the Sunday School Sunday morning and the Board of Christian Education will elect the others next week.

E. A. IRVINE, Pastor.

Christian Science Church

Sunday School at 10 a. m. Sunday services at 11 a. m. Wednesday evening services at 8 o'clock.

Sunday, Sept. 11, 1938. Subject: "Substance". The public is cordially invited.

Christian Science Services

"Substance" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, September 11.

The Golden Text is: "Blessed are they which do hunger and thirst after righteousness: for they shall be filled" (Matthew 5:6).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Lay not up for yourself treasures upon earth, where moth and rust doth corrupt, and where thieves break through and steal: But lay up for yourselves treasures in heaven, where neither moth nor rust doth corrupt, and where thieves do not break through nor steal: For where your treasure is, there will your heart be also" (Matthew 6:19-21).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Paul and John had a clear apprehension that, as mortal man achieves no worldly honors except by sacrifice, so he must gain heavenly riches by forsaking all worldliness" (page 459).

Baptist Training Union

The Baptist Training Union of the First Baptist Church of Crowley will meet at 7 o'clock Sunday evening. The B. T. U. enlarges the vision. "Where there is no vision my people perish," reads the Word of God. A vision means a renewed interest, a deeper spiritual life, that Gideon can take three hundred and conquer. A vision means that one can see, maybe not like John from the Isle of Patmos, but surely we can see a Heaven that is populated with the redeemed and a vision of what it would mean to us if our friends missed the portals of glory. A vision—seeing for God—is the work of the B. T. U.

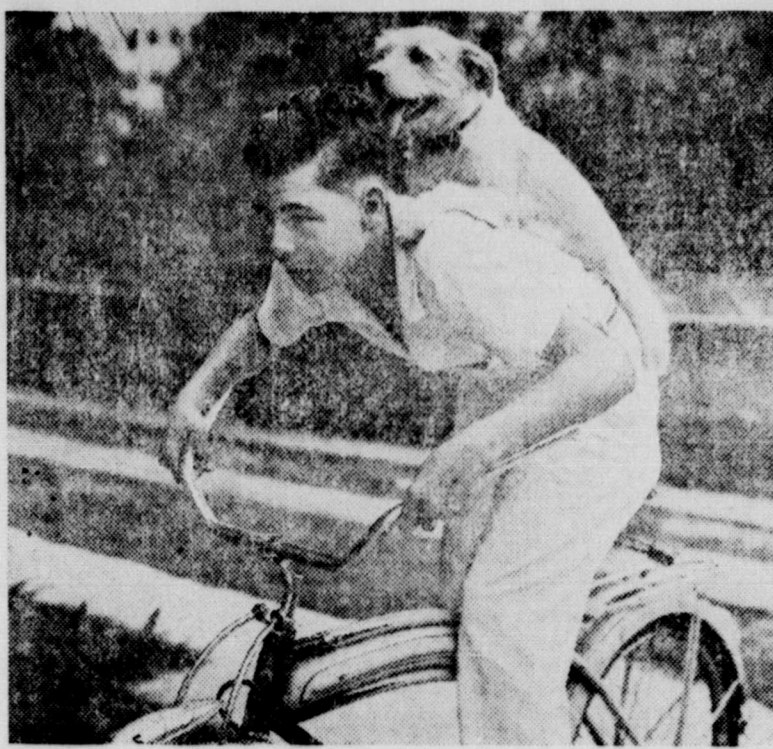

We have a union for every member of the church. Visitors are welcome.

Margaret Curtis, B. T. U. Director.

Intermediate B. Y. P. U. Program

Subject: "The Price of Preparation." Song—"Living for Jesus." Prayer: Preparation Thoughts—Virginia Adams. Song—"Where He Leads Me." Bible Drill—James Starnes, leader. Business period—Marjorie Bradford, president, in charge. Program period—Carl Connell, Group Captain No. 1, in charge. First: "Why Prepare?"—Billie Owenby. Second: "Results of Preparation"—James Lee Braswell. Third: "Preparation is Possible"—Leroy Gibson. Fourth: "When Does It Begin?"—Roy Lee Weathers. Fifth: "Is Stopping School Wise?"—Wanda B. Evans. Sixth: "Making Sacrifices"—Billie Diggs.

Rex Is Expert Hitch-Hiker

By climbing up on the back of his master, Jimmy Danahy, and digging his hind paws in Jimmy's pants pocket, Rex gets free transportation around Miami, Fla., via his master's bicycle.

Seventh: "The Long View"

Harvey Crosnoe. Story: "Preparation Pays"—Edna Lou Brisco. Secretary's Report. Song.

The Senior B. T. U.

The Senior B. T. U. of the First Baptist Church will meet at 7 o'clock Sunday evening.

We urge the young people to come to our union. We are studying the Life of Edgar Young Mullins. It should be of interest to all young people to know how he grew to be a great Christian leader. We hope you come with a prepared lesson, for we have something new for you.

—Reporter.

Presbyterian Church

Regular morning preaching services next Sunday, preceded by Sunday School at 10 a. m. led by W. F. Kirkpatrick. We would especially like a full attendance this Sunday, and welcome any visitors who may be able to come with us.

C. C. DOOLEY, Pastor.

Brief Bits of News From Here and There

The printing trade celebrates this year its 300th anniversary in the United States.

After pitching two innings against the Philadelphia Athletics recently, Lefty Grove the 38-year-old Boston Red Sox southpaw left the field and went to the locker room. For the second time within a month his arm became paralyzed. It is predicted he will never pitch again. If this is true he leaves the game with a record of 271 victories, more than any other pitcher now playing baseball. This year he achieved nineteen victories and four defeats.

Recently 95,000 spectators at Akron, Ohio, viewed the national soap box derby run by boys in home-made racing wagons without engines or pedals. The city of Akron has constructed a concrete inclined track 1100 feet long on which these races are run each year. The winner this year was Robert Berger of Omaha, Nebr. The first prize was a \$2,000 scholarship. The second prize was a Chevrolet sedan and the third prize a Chevrolet coupe. There were 12 entries. A requirement is that boys build their own racers at a cost not to exceed ten dollars.

The city of Akron, Ohio, recently constructed a concrete inclined speedway 1100 feet long especially for the National Soap Box Derby which has been held at Akron every year since 1935.

A number of successful operations have been performed in which the corner of the eye has been successfully transferred from one living person to another person and sight restored. Recently two operations of this type were performed in which corneas were removed from the eyes of dead persons and grafted upon the eyes of living persons who were blind, partially restoring their sight. It is estimated that the nations 50,000,000 industrial employees lose about 400,000,000 work days a year through illness.

In 1932 only 180,000 bicycles

but miss the glorious privilege of leading some other soul to Christ.

There is joy in living if, in living, we are serving. There is joy in serving if our service is as unto God, and for the express purpose of leading some other soul to know Jesus.

Sheep Sense

Richardson, Secretary Breeder-Feeder Ass'n.

Conditions in the wool market are favorable for starting a flock with a comparatively low investment. Many people who have enterprise only when the market is high, initial investment, pay high initial prices for a losing battle and then experience high initial losses. The smart ones buy when the market is low and sell when the market is high. Sheep are not expensive at low cost. Sheep are no exception to the rule that good judgment is the key to success in any business.

"The Cattleman" Releases Special Edition for A. & M.

Fort Worth, Sept. 1.—High tribute to the outstanding part it has played in the development of the Texas livestock industry was given by the Agricultural and Mechanical College of Texas today when "The Cattleman," official publication of the Texas and Southwestern Cattle Raisers Association, Inc., released its current issue as a special Aggie number. Breaking a precedent in the making of trade journals, "The Cattleman" devotes most of the 76-page issue to A. & M. for the expressed purpose of "bringing about a better understanding and appreciation on the part of livestock producers for the school and its work."

Even the cover was designed to bring a thrill of remembrance to the many thousands of ex-Aggies scattered over the Southwest—carrying as it does a picture of the chorus and music from the school anthem "The Spirit of Aggie-land."

Nearly 30 articles and a photo section take the stockmen of the state on an instructive journey behind scenes in the institution which, as the magazine points out, is only one year older than the Cattle Raisers Association.

Tad Moses, for several years the editor and himself an A. & M. Ex-Student, has spent several months assembling the copy, and the issue marks the first time that he has contributed a personal column, an article of reminiscences of college days which he calls "I Remember."

Other writers, furnishing a rather complete picture of the school's methods, are college officials like Dr. T. O. Walton, the president; Col. Ike Ashburn, executive assistant to the president; department heads, instructors for the college proper, and officials of the Agricultural Experiment Station and the Agricultural Extension Service.

Texts not only include all phases of animal husbandry, but touch on such subjects as football—showing that many of the Aggie grid-iron "great" have come from the cow camps of the Southwest. Joe Rount, all-American guard in 1936 and 1937, for instance, is the son of an association member.

Quoted in the introduction to this issue is the following from the address by H. P. McGill, retiring president, at the Association's convention in San Antonio this year: "I know of no agency rendering more useful service to the business generally than the Texas A. & M. College. In every move for better methods of production, ranch sanitation, livestock improvement, for a more enlightened livestock and agricultural people through education, and a more economic and liberal social position, the college has shown a high quality of leadership."

Its graduates and former students are numerous among cattlemen in this organization and they occupy positions of leadership among all organizations connected with agriculture in this state.

When I think of the several hundred fine young men that this college sends back to the soil each year with a scientific background, I know it will be only a short time when more cattle and better cattle will be raised in Texas on less acreage, and all beef type animals raised in Texas will be fed in Texas and on Texas feed."

In accepting the designation of the September issue as a special college number, President Walton of A. & M. said: "Texas will never be able to discharge its debt of gratitude to the cattlemen of this State. I am sure that as the result of the review of the work of the College in 'The Cattleman,' there will come a new understanding of the possibilities of the usefulness of this institution, and that we will be invited into larger fields of service to the cattlemen and their faith may be rewarded by an outstanding performance by their sons, as citizens of Texas."

DeWitt County was named for Green DeWitt, the empresario.

England printed its first medical book in 1480.

Travel TEXAS

Industrial development is taking place so rapidly in Texas that if you haven't visited the metropolitan centers of your state in recent months, you've a real adventure before you. Texas is in the economic spotlight of the nation and it's mighty interesting! Why not spend your vacation this year just traveling around to see "the changes"? Take the whole family for an exploration trip thru Texas.

Our Weekly Sermon

"SUCCESSFUL LIVING"

By Rev. Chauncey B. Nordland, Extension Department, Moody Bible Institute, Chicago

Text: I am come that ye might have life.—John 10:10.

Most people conduct their lives as though living, in itself, was the most important task before them. They seem to have lost sight of the fact that the most important thing, after all, is not living in this life, but preparing in this life for a larger life which is still to come.

With the many suggestions that are forthcoming from every source as to the secret of successful living, it will profit us to consider briefly some of the things that the Lord Jesus Christ set before His disciples and, through them, before us. He ever sought to inculcate in them the importance of putting first things first and laying the emphasis in one's life on those things that are of vital importance.

Jesus said, "I am come that ye might have life." He spoke to living men, but He spoke not of physical life, but of that infinitely more important state, spiritual life. To His disciples He gave certain challenges. One of these challenging words is to be found in Matthew 16:24, "If any man will come after me, let him deny himself and take up his cross, and follow me." We must have an intimate relationship with Jesus Christ which makes us a vital part of Himself. The child of God, who follows Jesus Christ with simplicity of faith, discovers that life will take on a new meaning to him, and there will be a fullness of life that has never been experienced before.

Another saying of Christ is, "If ye continue in my word, then are ye my disciples indeed" (John 8:31). The Word of God is a cleansing force. It is a source of life for those who would truly live. We have the right to visit in any field of literature, but we are to live in the Bible. By living, we mean just this—to make it a vital part of our daily life's program; to read it devotionally that our souls may be refreshed; to study it and become so filled with its message that we are able to interpret it and pass it on to others. One might well sound out a clarion call for a return to the Bible as the Word of God. We have departed from it. It is the most widely circulated book in all the world, but is among the least known books in the world.

On another occasion Jesus said, "Ye are my disciples if ye have love one to another." The love that Jesus here refers to is not mere sentimentality, but is that which the apostle John speaks of in his first epistle when he refers again and again to the importance of the people of God loving one another. The secret is this—having at heart the highest and best good of others. I shall not soon forget a group of young people graduating from a Bible Institute who, for the motto that they might carry with them into Christian service, decided on one word, "Others." It is rather significant to notice now, after the lapse of

**Miss Myrtle McKown Married to Fred T. Merrill on Aug. 22**

Mr. and Mrs. C. M. McKown of Altus, Okla., announced last Wednesday the marriage of their daughter, Miss Myrtle, to Fred T. Merrill of Sulphur, Okla., which took place on Aug. 22 at 10:30 p. m. at the home of Mr. and Mrs. R. N. Stroud.

The ring ceremony was read by Mr. Stroud, Justice of the Peace, and the only attendant was Harley Hurt of Altus.

Mrs. Merrill was born and reared in Crowell and was a member of the 1937 graduating class of Crowell High School.

Mr. Merrill is the son of Mrs. Beatrice Merrill of Sulphur and is employed by the Ice Service Company of Southwestern Oklahoma and is now stationed at Altus.

Mr. and Mrs. Merrill will make their home in Altus.

**Couple Celebrates 25th Anniversary Wed., August 31**

The twenty-fifth wedding anniversary of the marriage of Mr. and Mrs. Frank J. Halenack was celebrated at their home six miles north of Crowell on Wednesday, Aug. 31. Refreshments were served throughout the afternoon and a dance was held at night.

More than sixty relatives and friends of Mr. and Mrs. Halenack were present for the occasion. They received many useful gifts.

Those present for the celebration were, Joe Halenack and daughter, Louise, Mr. and Mrs. Fred Halenack and family of Crowell; Mr. and Mrs. Chas. Matyssek and Mr. and Mrs. Louis Halenack and family of Thalia; Mr. and Mrs. Chas. Halenack and family of Vernon; Tillie and Robert Kubicek and Frankie Vanek, Mr. and Mrs. Emil Kubicek and family of Thalia; Fred Vecera, Mr. and Mrs. Chas. Machac and family, Mr. and Mrs. Henry Hrabal and family, and Henry Machac, of Crowell.

**Jay Christian and Miss Leona Higgs Marry in Vernon**

Jay Christian and Miss Leona Higgs, both of Crowell, were married in the Vernon Methodist parsonage Monday afternoon with Rev. W. A. Wright, pastor, reading the ceremony.

Mr. Christian is the son of Mr. and Mrs. Jim Christian of Crowell. He was born in Sanger but was reared in Foard County, where he attended the Crowell schools.

The bride is the daughter of Mr. and Mrs. W. E. Higgs of Crowell. She was born in New Mexico but moved to the county at an early age and had made this her home since that time. She also attended the Crowell schools.

Mr. and Mrs. Christian will make their home in Crowell.

**Shower Given for Mrs. Preston Henry, Truscott Bride**

Mrs. Preston Henry was honored with a shower Wednesday afternoon of last week given in the home of Mrs. A. F. McMinn of Truscott.

An interesting program was conducted after which games were played.

Following the program Mrs. McMinn served refreshments to twenty-seven ladies as follows:

Mrs. Strange, Mrs. Jolly Myers, Mrs. L. B. Balcom, Mrs. O. J. Witte, Mrs. Marion Chowning, Mrs. Grady Spivey, Mrs. Bill Stokor, Mrs. J. M. Chilcoat, Mrs. J. B. Chilcoat, Mrs. Clyde Myers, Mrs. Hardy Glascock, Mrs. Buck Spivey, Mrs. J. B. Eubank, Mrs. J. P. Dea, Mrs. Jack Whitaker, Mrs. John Henry Kenner, Mrs. Joe W. English, Mrs. J. G. Acker, Mrs. Roy Browder, Mrs. Wayne Young, Mrs. L. J. Abbott, Mrs. N. R. Barr, Mrs. C. A. Bullion, Mrs. Carl Haynie, and Mrs. Lily Smart.

**Miss Anabel Carter Weds Oklahoma Man**

According to information received by relatives here, Miss Anabel Carter, daughter of Mr. and Mrs. W. B. Carter of Lubbock and former citizen of Crowell, was married last week to J. H. Stark of Tulsa, Okla. Mrs. Stark graduated from Crowell High School in 1931 and received an A. B. degree from Texas Technological College in 1935. She has taught for the past two years at Ackerly.

She is a granddaughter of G. A. Mitchell of Crowell. Mr. Stark is in the employ of an oil company at Tulsa and the couple will make their home at that place.

**GAMBLEVILLE H. D. CLUB**

"A tour of kitchens" was the interesting feature of the Gambleville Home Demonstration Club, after the regular meeting Thursday, September 1, at the home of Mrs. O. A. Solomon.

The kitchens visited were: Mrs. Guy Morgan of the Gambleville community; Mrs. Walter Thomson, demonstrator of the West Side Club, Misses Rosalie and Bernita Fish, demonstrators of the Vivian Club, and Misses Myrtle and Naomi Fish also of Vivian.

Two new members, Mrs. Roy Mitchell and Mrs. Clarence Garrett, and two guests, Mrs. Wilson Solomon and Miss Gayola White, were present.

The next club meeting will be at the home of Mrs. E. W. Kidd on Thursday, Sept. 15, at 2 o'clock. Mrs. Dave Sallis will have charge of a program on "Lighting the Home."

**LIBRARY NOTES**

Negley Farson—aviator, engineer, foreign correspondent, athlete, rover and writer—is a personality so colorful, so vibrant, so magnetic that the story of his life, "The Way of a Transgressor," is an adventure. This story is an autobiography, a saga of an experiment in living, boldly carried out.

"The Way of a Transgressor" tells of youth, first adventures abroad, adventures in Britain's Royal Flying Corps, romance and marriage, and experiences with dictators and diplomats. It is truly an autobiographical record which is as fast moving as fiction. This book is considered the grandest yarn of any type that has ever been printed.

Sinclair Lewis has said of it: "A grand picture of a grand man who found every hour exciting."

**VISITOR ENTERTAINED**

Mrs. J. F. Long and her son, James Everett Long, were hosts to their guest, Miss Beth Weatherall, of Electra last Thursday morning with a sunrise breakfast at the Country Club.

There were sixteen guests who enjoyed the early swim and breakfast.

Miss Weatherall was again honored on Friday night in the Long home with a 600 party. Lunch and wafers were served at the conclusion of the games.

**EXECUTIVE BOARD MEETS**

Mrs. Thomas Hughston was hostess to members of the executive board of Crowell P. T. A. last Saturday afternoon.

Each chairman of standing committees told of her plans for the year. New ideas were presented and great enthusiasm for the year's work was shown.

The hostess served a delicious refreshment plate.

Parents of children from near-by schools are invited to join the local association.

**MISSIONARY SOCIETY**

Mrs. A. Y. Beverly and J. H. Lanier were hostesses to the Missionary Society on Monday, Sept. 5.

The subject for the lesson was "Beautiful, but Can It Be." Mrs. M. S. Henry was leader and gave a spiritual devotional. The scripture on which her remarks were based were from Cor. 1:26-31.

Mrs. E. L. Yeats gave a topic on Mexico. Mrs. Grover Cole, who had recently attended a Missionary meeting at Childress gave a very interesting report of suggestions given at that meeting concerning social service work. A vocal duet was rendered by Mrs. Yeats and Alvin Yeats.

On Monday afternoon, Sept. 12, Mrs. M. S. Henry will review the minutes of the Women's Annual Conference, which met in Snyder on April 17. A full attendance is expected to be present at the Methodist Church at 4 p. m. for this review.

Mrs. Beverly and Lanier served dainty refreshments to fifteen members and one visitor, Mrs. C. H. Allison.

**FOARD CITY P. T. A.**

The Foard City Parent-Teacher Association held its first session with a called meeting, Monday, Sept. 5.

Organization and activities for the year were discussed. The following committees were appointed: Hospitality, F. U. Powell, chairman; finance, Mrs. J. M. Glover, chairman; publicity, Miss Caldwell, chairman; program, Mrs. Ruth Marts, chairman; membership, Mrs. Gamble, chairman.

**Moving Pictures Taken of Shelterbelt at Rayland Saturday**

George Louis of the Bureau of Information, Washington, D. C., made moving pictures of cultivation by T. F. Lambert's sons on his shelterbelt near Rayland Saturday.

This belt was planted in 1936 and now has excellent growth due to the care the trees have received by Mr. Lambert. The pictures will be used in various educational work by the Forest Service.

Texas towns are more conscious of their existence than ever before and wish to tell the world about it. More than 100 Texas towns will celebrate special days at the Golden Jubilee Celebration of the State Fair of Texas, Oct. 8 to 23, and many of these towns as special features of their celebrations are holding reunions of people who have moved from their homes. Several towns will send special trains to the State Fair.

Oil companies distribute 125,000,000 road maps per year.

special committee was appointed with Mrs. Autrey as chairman.

Regular meetings in the future will be held on the third Friday of each calendar month.

**Descendants of Henry Baker Hold Annual Reunion**

Two hundred and fifteen people registered for the fourth annual reunion of the descendants of Henry Baker and their relatives and friends at the Cynthia Ann Park battlefield near Margret last Saturday, Sunday and Monday, Sept. 3, 4 and 5. The descendants of Henry Baker include the Baker, Hardy, Ross, Taylor, O'Connell, Wesley and Dunn families, and many others, who were present for the reunion.

Mrs. J. S. Hardy of Waxahachie, only living daughter of Henry Baker, attended the reunion. This is the second time she has been able to attend.

Saturday night a shower of rain interfered with the playing of games. Sunday morning services for the Methodist Church in Margret were held at the picnic grounds, with Rev. E. A. Irvine delivering the sermon for the occasion.

Monday morning was devoted to planning the program for 1939 and in the afternoon all in attendance departed for their respective homes.

**Dallas Man Entertains Guests at Big 4 Ranch Round Up at Truscott**

Mart Ebeling of Dallas was host to a group of his friends from the Dallas Athletic Club at the annual round-up of the Big 4 ranch near Truscott last week-end. The visitors were entertained and rodeo part in the round-up and rodeo staged Saturday. Barbecue and picnic lunches were enjoyed Saturday and Sunday.

The group arrived in Crowell Friday night and were guests of Mrs. Ethel Scott at a dance in the dining room of the Premier Hotel at which a large number of friends from Chillicothe, Vernon, Paducah and Crowell were present. Mr. Ebeling entertained with a square dance at the Big 4 ranch house Saturday night.

Those from Dallas were: J. B. Nichols, president and owner of the Farm and Ranch magazine in the city; Bob Hunsaker, owner of the Hunsaker Motor Freight Co., and wife; O. E. Blanton, vice president of the Liberty National Bank, and wife; Eddie Barrs, writer of the "Rialto Ramblings" column in the Dallas Dispatch; Dick Lantham and son, Richard; Mr. and Mrs. Tom Harris, Jack O'Brien, associate editor of the Farm and Ranch magazine; Mr. and Mrs. Jim Bailey, Miss Clodette True and Bill Elliott, Mr. and Mrs. Charlie Featherston of Wichita Falls and Mrs. Scott of Crowell were also guests at the ranch.

Saturday morning the group left for the Big 4 ranch, where they remained until Monday morning. The ladies returned to Crowell Saturday and Sunday nights as guests of Mrs. Scott, while the men remained at the ranch and "roughed it."

Several of the "tenderfeet" tried their hand at "bronc busting" during the rodeo and Mr. Nichols and Mr. Hunsaker became fairly adept in the art of staying on top of a bucking horse. Mr. Harris roped and threw a calf and promptly fainted.

A Dallas elevator boy and a colored bus boy were brought to the ranch by Mr. Ebeling and, according to those present, the bus boy, "Sambo," proved to be a good entertainer as he was always into some funny predicament. His attempts at throwing a lariat rope proved much entertainment but were ended when he accidentally roped a pig, which drug him a long distance before he could untangle himself from the rope.

Mr. O'Brien, motion camera enthusiast, took over two hundred feet of pictures of ranch life in technicolor. The pictures included shots of the round-up, rodeo and the visitors.

The barbecue for the two-day outing was prepared by M. M. Clark of Mineral Wells, with the aid of several Truscott cowboys, who also helped stage the rodeo.

Ten inches of snowfall equal an inch of rain in water content.

**LOYALIST VETERAN**

Abraham Sobel, 23-year-old Bostonian who testified before the house committee investigating un-American activities in Washington, that he was one of 23 American young men who had been recruited by Communists for service in the army of loyalist Spain. He said many of his companions were virtually prisoners there and could not come home in spite of their desire to do so.

**Stewart Hamblen Democratic Nominee for Congressman**

Stewart Hamblen, son of Rev. and Mrs. J. H. Hamblen of Abilene and a popular radio entertainer of Los Angeles, Calif., for the past seven years, was elected Democratic nominee as Congressman from the eleventh district of California in the recent Democratic primary held in that state, according to a news item appearing in the Abilene Reporter-News last Saturday.

Young Hamblen's race for congress was his debut in politics. The incumbent did not run, but the former Texan defeated a field which included a man who had been an aspirant for the office in several previous races. Hamblen must still face the GOP nominee in the November general election. Officials reported that the animal dashed into the road suddenly and Mr. Howard did not have time to stop or steer the vehicle around the horse. Property damages were estimated at about \$100.00.

Mr. Howard was en route from Corpus Christi to Crowell to attend the funeral of his sister, Mrs. Sam Howard.

**WINS FISHING PRIZE**

Floyd Thomas won the prize offered by W. R. Womack for the largest bass caught with artificial bait and was awarded twenty dollars in fishing equipment. The contest closed Friday, August 30, and Mr. Thomas caught the prize-winning bass, which weighed three pounds and six ounces, at the city lake only a few days before the contest closed.

**HORSE KILLED BY CAR**

A horse was killed last Wednesday when it ran into the road directly in the path of an automobile driven by M. A. Howard. The accident occurred nine miles south of Crowell on State Highway 16. Officials reported that the animal dashed into the road suddenly and Mr. Howard did not have time to stop or steer the vehicle around the horse. Property damages were estimated at about \$100.00.

Mr. Howard was en route from Corpus Christi to Crowell to attend the funeral of his sister, Mrs. Sam Howard.

**Former Foard County Man Dies at Denton**

Funeral services for I. E. Huffaker, 62, former Foard County resident, was held in Denton Sunday afternoon at 5 o'clock. Huffaker died Friday morning in his home in that city.

At the time of his death Huffaker had been yardman at Teachers' College since 1922. He was a son-in-law of M. W. Wallen, pioneer resident of this county.

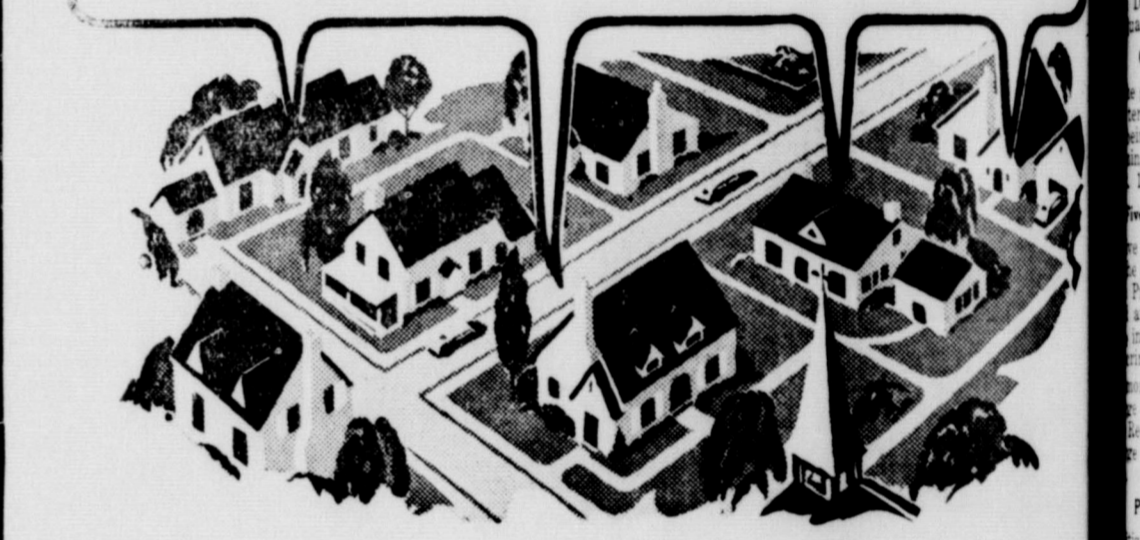

Survivors are his wife and children, Mrs. Otis Moore Grier, and Herbert Huffaker, teacher in the Galveston schools.

Mr. and Mrs. Huffaker had in Foard County for 12 years before moving to Denton in 1922.

Relatives from Foard County who attended the funeral were John Wallen, Mr. and Mrs. Owens, Mr. and Mrs. O. E. Nell, Mrs. John L. Hunter, Mrs. Dewitt Barron.

Uvalde County was named a governor of Coahuila.
