LIONS CLUB CARNIVAL WILL BEGIN TONIGHT

"Fun for all" is the slogan for the annual Lions Club Carnival which begins this evening (Thursday) and continues through Friday and Saturday nights.

The carnival rides arrived here Monday and are set up on the southeast corner of the square.

Carnival director Jack Spikes says there will be two more rides available this year than in the past, and the local Lions Club

will have a number of booths, such as a doll rack, knife board, miniature bowling, and a new idea in colorful prizes and gifts ever offered by the club will be available this year to those who visit the carnival.

Every dollar of money that is taken in at the carnival as profit will be used in sponsoring local community service projects.

The Crowell club is one of the many Lions Club in the area which use the carnival idea to raise money for their local community service projects, such as the purchase of eye glasses for needy children and the sponsoring of playgrounds and play areas for children and youth.

A grand time is being planned for all who attend the carnival, and every person in this area is invited to attend.

News About Our Men in Service

SP5 Ray Gibson arrived home Saturday from a two-year tour of duty in Germany. He received his discharge from the army at Fort Sheridan, Ill., and arrived in Dallas Saturday morning and was met there by his father-in-law, J. E. Ingle. Mr. Ingle was accompanied to Dallas by his son, Tom, and J. T. Tamplin.

Winners Named in Girls' 4-H Contest

Nine 4-H Club girls entered the bedroom improvement contest, the Virginia Jackson, Home Demonstration Agent, announced this week.

The top winners in the junior division were Sandra Weathered and Jean Burkett. Winners in the senior division were Gena Adcock and Wanda Moore.

Other girls entering the contest were Betty Ann Welch, Gayle Bassell, Sandra Ellis, Lynda Bebell and Cecilia Drabek.

Miss Jackson says the girls are commended for the fine job they did on their bedrooms.

Judges for the contest were Mrs. Monroe Kareher, Mrs. J. A. Farr and Mrs. Elton Carroll.

Mrs. Melvin Everson Killed Saturday in Tulsa Car Accident

Mrs. Melvin Everson, daughter-in-law of Mrs. Ike Everson of Crowell, was fatally injured in an automobile accident in Tulsa, Okla., Saturday morning at 9 o'clock.

Mr. and Mrs. Warren Everson, Mrs. Ike Everson, Mrs. Ernest Everson, Mr. and Mrs. Dayton Everson and small daughter and Mr. and Mrs. Duane Boren left Monday morning for Tulsa to attend a funeral which was held there Tuesday.

Mrs. Everson is survived by her husband four small daughters.

Warning Issued About Dumping Oil in Sewer Lines

E. H. Shrode, City of Crowell water superintendent, reminded Crowell residents that it is unlawful to dump oil in the city's sewer system, and that anyone caught is subject to a fine.

The oil clogs the sewer system and also harms the disposal plant.

All residents are asked to refrain from this practice, which Mr. Shrode says, has been done several times in the past few weeks.

Good Crowd at Turkey Shoot

A good crowd attended the turkey shoot at Martin Jones farm last Sunday afternoon. Truscott, Quannah, Vernon, Childress and Crowell were all represented at the shoot. Twelve prizes including turkeys, blankets and sheets were given to the winning shooters.

Another shoot will be held in the near future.

The VFW, who sponsored the shoot, appreciates everyone's patronage.

Must Be Controlled

"Like any other momentum force in our society, organized labor must be subjected to controls in the broad public interest. Like any other momentum force, it must be allowed sufficient freedom within the framework of control so that it can perform its destined function.

"We believe that this principle of controlled freedom has the approval of the great majority of the American people." — Fredonia, N. Y., Censor.

Inclement Weather Fails to Dampen Boy Scouts' Spirits

Scoutmaster DuWayne Elliott and his Boy Scouts braved a rainy and cold day on Saturday, Oct. 31, but in the true spirit of Scouting they went through in flying colors. The Scouts set up a cooking fly in the steady morning rain and prepared their kettles of delicious Scouter's stew. Some ten Scouts worked steadily all day long to prepare the food for the guests of the evening.

As the cold rain abated in mid-afternoon, the Scouts hurried to set up their outside demonstrations. In the short time between the cessation of the rain and the demonstration time, the Scouts set up a first aid demonstration, signaling demonstration, knot tying demonstration, fire by flint and steel demonstration, bad weather cooking fly, and showed their lashing work on the gate and on the knot bar. The boys were disappointed in the small attendance at their demonstration from 4 to 6 p. m., yet, they were aware of the uninviting nature of the cold weather.

Some 150 of the over 200 guests who had purchased tickets or were expected, came for the evening meal of hot stew, coffee, pickles, and bread. Most of the guests avoided the chilly weather and damp ground by being served in the Methodist church basement.

Wage-Price Spiral

"It is appropriate now that the people, government officials, union leaders and workers themselves honestly consider the potentialities that another wage-price spiral may create in our country. Russia's boast for half a century that America would spend itself into bankruptcy may be possible if our dollars keep falling in value to a point of inflation equal to that of the German marks following the end of World War I . . ."

Effect of Spiraling Wages

"It doesn't take an expert economist with a flock of degrees after his name to see the adverse effect that ever upward spiraling wages, cost of living and taxes are having on this nation's economy. It takes just plain 'horse sense' to appreciate the danger." — Woodburn, Ore., Independent.

'59 Savings Bonds Sales in County Total \$98,069

Savings Bonds sales in this county were \$98,069, George Self, chairman of the Foard County Savings Bonds committee said this week. Sales for September totaled \$8,101. "Sales for the first nine months of 1959 were \$98,069, or 81 per cent of the yearly goal of \$121,000," Mr. Self added.

E and H bond sales in Texas amounted to \$115,170,463 during the first nine months of this year. This figure represents 63 per cent of the yearly sales goal.

"The new improved interest rates on E and H bonds will aid thousands of Americans who are already buying savings bonds and will help induce others to purchase the new 'best ever' savings bond," Mr. Self pointed out. "All bonds purchased since June 1 of this year now earn an attractive 3 3/4% interest when held to maturity and old bonds earn at least 3% more than before. Considering the safety, ease of purchase and the new attractive interest rates, savings bonds are truly the 'best buy ever.'" Chairman Self concluded.

3,668 Bales Cotton Ginned by Foard Gins Through Last Week

In the weekly report by the Vernon Texas Employment Commission office, there have been 3,668 bales of cotton ginned thus far in Foard County this season.

New Texas Marriage Law Alters Custom

Strict marriage laws in Texas went into effect Thursday, Oct. 16, according to Mrs. Cornelia McDaniel, Foard County clerk. The new regulations affect young women under the age of 18, and young men under the age of 21.

The new law was passed by the 56th Legislature. Persons under those age limits, when applying for a marriage license, must have their parents or guardian appear with them, and the parents must give their written consent to the marriage in the presence of the county clerk.

Marriage license applications for those under the prescribed ages must remain on file in the county clerk's office for three days before the license can be issued.

All persons, regardless of age, must present a certified copy of their birth certificate, drivers license, poll tax receipt, passport or visa or any other document issued under a current law of the state which bears the applicant's full name, correct birth date, and a description of the applicant by which he can be identified, Mrs. McDaniel said.

Applicants for marriage licenses must also swear before the county clerk that there are no existing conditions which would bar marriage between the persons applying for license.

Lions Club Meeting

Twenty-eight Lions attended the regular club meeting Tuesday and were hosts to four guests: O. D. Hsing of Duncan, Okla., Clark Brown, Ivan Cates and Bud Hallsell.

Lions president Kenneth Halbert reported an inter-club visitation last week with the Vernon club. Six local members participated in the visitation. Freddie Riethmayer and Norman Davis were officially inducted into the club.

The program was presented by Charles Branch. An instrumental group composed of Branch, Clark Brown, Ivan Cates and Bud Hallsell offered several selections. Dr. Walter Stapp will present a program on interesting African topics next week.

States Rights Invaded

"For years we've been led into the belief that everything must emanate from Washington. States rights have been invaded. More and more controls have been placed over the public. Gradually we're transferring power into the hands of government at all levels. We're giving up independence and putting on the harness of regimentation.

"The United States achieved greatness on the basis of individual freedom, free enterprise, free competition. The United States built up the highest economy the world ever has known when free enterprise was given a reasonable incentive." — Roseburg, Ore., News-Review.

American Wealth

From National Review Bulletin: "American wealth depends on 1) capital; 2) technology; 3) a commercial spirit. There is no nation in the world that can hurt us provided we 1) permit capital formation; 2) encourage technology by appropriate tax legislation; and 3) free our entrepreneurs and our workers from the restraints of cartel, union and government . . ."

A. D. A. IS UP AT LOCAL SCHOOLS

The membership and average daily attendance in the Crowell Public Schools for the first six weeks of the school year is up over what it was for the first reporting period of last year.

The membership is 547 in comparison to 534 for the first six weeks of last year. The A. D. A. is 530.60 for this same period. It was 519.86 for the first reporting period last year.

The ninth grade group had the best percentage of attendance in the entire school with 99.70. The seventh grade led in the intermediate department with 98.80. The second grade led for the primary department with 97.59.

Superintendent Graves states that the increase in enrollment is partially due to the road construction that has brought quite a few families into the community. He further states that the percentage of attendance generally drops down in the winter months, which will probably hurt the attendance for this six weeks.

Quiet Halloween Reported by Sheriff and Deputy

Sheriff P. W. Taylor and Deputy Duane Cates Monday morning expressed the opinion that Foard County has the finest group of young people anywhere.

Taylor and Cates on Halloween night heard radio reports from several neighboring towns reporting vandalism, gang fights and many other acts of a malicious nature by youths.

They said that no reports of vandalism or other malicious mischief were received by them Saturday night or Sunday and expressed their appreciation to the young people for their good behavior.

Former Editor of the News Died Oct. 22nd in Abilene

J. L. Martin, 85, former owner and editor of the Foard County News from 1913 to 1917, died in Abilene on October 22. He had lived there since 1946 when he retired as an active newspaper publisher.

Mr. Martin, prominent early-day newspaper man, spent 59 years in the publishing business. He taught school for 10 years before entering the newspaper business. He completed his sixth novel, "A Backwoods Professor and the Three R's Method" in 1953.

He was president of the West Texas Press Association in 1927, its initial year, and was actively associated with the organization for many years. He was honored at the silver anniversary meeting along with other past presidents.

Mr. Martin's wife died in January, 1958. His son, Jimmy Martin, is editor of the Electric Times in Abilene, magazine of the West Texas Utilities Co. Two daughters of Mr. Martin also survive.

Rev. Otis Strickland to Speak Nov. 9 to Baptist Brotherhood

There will be a meeting of the Brotherhood of the First Baptist Church held in the basement of the church Monday evening, Nov. 9, at 7 o'clock. Refreshments will be served.

Rev. Otis Strickland, president of Decatur Baptist College and former pastor of the Crowell church, will bring the message.

All men of the community are invited to attend.

Move to South America

San Crews Jr., son of Mr. and Mrs. S. T. Crews of Crowell, has gone to Salvador, Brazil, where he will reside with his family for an indefinite period. His wife and three children, Judy, Margaret and Sam, who have been residing in the family home in Midland, will leave Sunday to join him in Brazil.

Mr. Crews is employed by Brantly Drilling Co. of Midland.

Carelessness Major Cause

"Whether it is deer, pheasant, duck or rabbit, it is always good to enjoy the colorful fall days of the woods and open fields.

"Unfortunately, hunting accidents in recent years have multiplied to an alarming degree — mainly because the number of hunters has increased. Every hunter knows the rules of safety as every motorist knows the rules of the highway, but accidents happen with guns as well as with automobiles.

"Ninety-nine times out of 100, hunting accidents are caused by carelessness. A cardinal rule of the hunter is to never carry a loaded gun in the car." — Jefferson, O., Gazette.

Last Rites for Truscott Pioneer Held Monday

Funeral services for R. B. Glidewell, 75, pioneer resident of the Truscott community, were held Monday afternoon in the Truscott Methodist Church with the pastor, Rev. David Stephens, officiating, assisted by Rev. Homer Stephens, pastor of the Truscott Baptist Church, and Rev. Carl Hudson, pastor of the Crowell Methodist Church.

Interment was in the Truscott Cemetery under the direction of Womack Funeral Home of Crowell.

A special musical number for the services was a duet, "O Love That Will Not Let Me Go" sung by Rev. Stephens, and Rev. Curtis Stephens, with Mrs. Curtis Casse serving as pianist.

pall bearers were Earl Burgess of Gilliland, Floyd Roberson, Paul Bullion, J. M. Chowning Sr. and Monroe Cash of Truscott, and Farris Caddell of Knox City.

Assisting with flowers were Mrs. Warren Corder, Mrs. H. P. Gillespie, Mrs. Floyd Roberson, Mrs. Ruby Hickman and Mrs. H. O. Clark.

Russell Burr Glidewell was born May 7, 1884, in Kentucky and passed away at his home in Truscott Sunday, Nov. 1. He came to Texas in early youth and in 1908 was married to Miss Saphronia May Booe in Belts, Texas. In 1925 he moved his family to Knox County and the Truscott area had been his home since that time.

He was an active member of the Truscott Methodist Church through the years he had lived in that community.

He is survived by his wife; four daughters, Mrs. O. L. Brummett of Berger, Mrs. Elmo Glasscock of Dallas, Mrs. O. J. Shook of Chattanooga, Tenn., and Mrs. W. D. Lindsey of Victoria; four sons, J. T. of Victoria, A. G. of Vidor, Joy L. of El Paso, and Russell B. Jr. of Truscott and Fort Worth; one sister, Mrs. T. L. Reynolds of Katy; 22 grandchildren, 11 great grandchildren; and a host of other relatives and friends.

Methodists Emphasize Total Enlistment

Throughout the Methodist Church the conference year 1959-1960 has been designated by the bishops as "The Year of Enlistment." During this year by means of special services, visitation, and prayer groups, each local Methodist church will endeavor to find the people in the community who are not Christian and who are not in the church, and those who are in the church but are not fully participating. An effort will also be made to win these persons to Christ and to a place in the fellowship of the church. The training of persons to lead in the work of the church is a part of this program. Finally, its aim is to keep all church members in Christ's service.

As a part of the larger program, the Northwest Texas Conference of the Methodist Church has asked all its churches to become actively engaged in conducting a "Year of Enlistment" campaign in the local community. Training sessions have been held for all districts to aid the local churches in their planning. The Methodist Church in this community has taken part in this training. In the Children's District, of which the Crowell church is a part, it has been decided that each local church is to give special concentration to the "Year of Enlistment" during the week of November 15-19. The week is to begin with a great youth rally at First Methodist Church in Chillicothe on Saturday night, Nov. 14. Beginning on Sunday in many of the churches over the district, there will be special preaching services which will continue until Thursday night. In other churches there will be programs of visitation, and other activities involving all members of the church.

WILDCATS TAKE 38-0 WIN OVER MUNDAY MOGULS

The Crowell High School football team came one notch closer to the district championship last Thursday night when it won over the Munday Moguls by the score of 38 to 0. Thirty-one points of this score were marked up during the first half. This gave the Crowell coaches an opportunity to substitute freely in the second half and give some needed experience to some of the younger boys on the squad. The following Crowell boys were injured and unable to play in this game: Fullback Jim Henry, left end Bill Graves, left tackle Gary Carpenter, and right halfback Bobby Barker.

Wesley Cummings, left halfback, scored four touchdowns, and right end George Moss scored one. Cummings ran 67 yards, 11 yards, 1 yard, and took a screen pass from quarterback Ivan Cates and went 56 yards for his touchdowns. Moss caught a 32-yard pass from Cates for Crowell's other TD. Cummings ran two extra points over; Guy Todd caught a Cates pass for two points and fullback Duane

Foard County Receives Rain During Week

Over one inch of rain has been recorded by the government gauge here during the past week.

A slow drizzle last Friday and Saturday amounted to .52 of an inch and a hard shower Tuesday morning also measured .52 inch. Amounts varied over the county and a heavy rain was reported east of town about noon Tuesday.

The rains have delayed the cotton harvest, which was in full swing all last week.

All of the wheat in the county is now up and the moisture will greatly benefit the young wheat. Temperatures recorded here during the past week follow:

- Thursday: high 70, low 44.
- Friday: high 69, low 59.
- Saturday: high 54, low 44.
- Sunday: high 65, low 46.
- Monday: high 72, low 55.
- Tuesday: high 75, low 62.
- Wednesday: high 68, low 51.

Wildkittens Win Over Paducah 24 to 0 Monday Night

The Crowell Grade School football team won another conference game here last Monday night when the Wildkittens defeated the Paducah Grade School team 24 to 0. This is the same team that defeated Crowell last week. Danny Phipps ran for two touchdowns and Jimmy Pendergraft for one in this important conference game.

Other boys playing for Crowell were Johnny Black, Jimmy Hudgens, Terry Mason, Larry Henry, Edward Morales, James Corder, Ken Ferguson, Bill Harris, John Carl Boychard, Woody Lemons and Jewel Harris.

The Crowell "B" team won its scrimmage 12 to 0. These teams were made up of reserves from the regular high school teams. Don Welch and Dale Doyal scored the touchdowns.

Monday comes here next Monday night for Crowell's last game of the season unless the Wildkittens get into the play-off contest with the Eastern champion for the district crown. These teams tied 8 to 8 at Munday four weeks ago.

Deputy Sheriff Apprehends Man Wanted in Wichita

A Wichita Falls man being sought by the Wichita Falls police officers, was apprehended along with his woman companion, by Deputy Sheriff Duane Cates several miles south of Crowell about 2:30 Sunday morning.

The man was held in the Foard County jail for the Wichita Falls authorities who came for him Monday morning.

Man's Right to Work

"A man's right to work at his chosen occupation is one of the most fundamental American rights. That right is being violated constantly by compulsory union membership. Men are being forced, against their will, to become members of labor organizations and pay tribute for the right to earn a living. Many union members are against this but are powerless to stop the big labor bosses." — Humboldt, Iowa, Independent.

Does Us Little Good

"It is fine for us to enjoy religious freedom with the right to worship as we please, but it does us little good unless we really worship." — Canton, Ga., Tribune.

Apprehensive About Inflation

"Persons who remember the horrible post-war I conditions in Germany, when it took a wheelbarrow of marks to buy a loaf of bread, are apprehensive that this country is headed for a similar situation unless inflation can be halted. The steel industry says it is seeking an end to the upward spiral in the adamant stand it has taken against higher wages. One thing is certain: if Big Steel gives in, wages will soar in every other industry." — Kansas City, Kansas, Press.

Cheating and Cheaters

Cheating is a present factor in all phases of life. Some of the students in CHS have expressed their opinions on cheating in school, and they have brought out some very good points.
 Let's share these ideas.
 Margie Raspberry says: Cheating—this word has been heard through many a generation. We have heard this word used in all walks of life and many times in connection with the classroom or sports. We seem to have a deno-

tation of this word, but do we realize the effect it has on our lives?

Are you helping yourself when you cheat? Yes, you may make a good grade, but have you really accomplished anything or done yourself any good? No, you have only made a good grade. A person who cheats not only hurts himself, but also his influence on others. Our friends know us for what we really are. Likewise, our instructors know our capabilities and can tell from our work when we are cheating.

There is another word—"honor." This word means to show honor toward or respect for by rendering due obedience and courtesy.

If we cheat on tests or anything else which we set out to do, we cannot uphold this word "honor" as we should. We should all strive to be persons of honor rather than persons known as cheats.

Arlos Moore states that: Some CHS students are quoted as saying: "Cheating is fine if you don't get caught." But who never got caught? Maybe the teacher did not catch the person cheating, but some time or another, the person will need the information that he didn't learn. Then he is caught.

Then, why cheat if you are going to get caught? Why not learn the material the hard way? After all, life is not easy, so why not start facing up to the task today? Editor's note: A question for the future will be: "Do teenagers respect their parents?" Please let us know what you think about this problem.

Senior of the Week

Miss Crowell High, FFA Sweetheart, class favorite, friendliest girl, head cheerleader—all of these are honors which have been accorded to Jo Frances Long. She also has been a class officer for three years, a member of FFA for four years, an FHA officer for two years, a member of the Sub-Junior Columbian Club, having held an office in this club for three years, a cheerleader for four years, a member of the Student Council for two years, and a Student Council officer one year. Jo has many favorites: namely, the color, yellow; shrimp; football; Paul Newman and Elizabeth Taylor. Her favorite pastime is her job of cheerleading, and she also enjoys listening to good music, riding horses, and cooking. Typing is her favorite subject, and English IV is definitely her hardest.

Her mother and her two sisters are her most cherished people because they are the only members of her family whom she has left. Jo is 17 years old, is 5' 2" tall, and has auburn hair and brown eyes. After she graduates, she plans to attend college, and there she will major in education. Jo, we all want to wish you much success with your future plans.

Library Business

On Friday morning during the first period, the high school librarians had a great treat. A business visit was paid to the library by three young ladies: Sherrie Wilson, Sherri Speer and Peggy Raspberry. They are members of Mrs. Sloan's first grade room. They checked out a book of James Whitcomb Riley's so that Mrs. Sloan could read "Little Orphan Annie" to them at their Halloween party. It does us good to see people so young patronizing our library, and it helps us realize how really important the library is. These children are learning at a tender age that the library is their friend and that it is here for their use and convenience. By turning to the library, they can more fully understand how using it often can make their

lives richer and fuller, as ours would be should we use the library more faithfully.

Many thanks go out to you, Sherrie, Sherri, and Peggy, for your visit, and we sincerely hope to see you back in our library again real soon.

Thanks are due for Bonnie Little, Carolyn Denton and Wanda Moore for their "ghostly" bulletin board. They entitled it "Who-o" and were just saying in short that they hoped each and every one of you had a scary Halloween.

In closing this week's visit with the readers of the Wildcat, the Library Club would like to offer a sincere "thank you" to the '59-'60 annual staff and its sponsor, Mrs. Doyle Kenner, for their donation to our library. They gave us a 1958-59 annual of Crovell High School which will be kept in the library office with all the other annuals. We certainly do appreciate this gift, annual staff and Mrs. Kenner.

Football Jackets Ordered

The football boys ordered their jackets and sweaters last week. The jackets are Eisenhower style; black with gold trimming. The sweaters are the same as they always are. The lettermen will not be announced until the end of the season. We, especially some of the girls, hope the jackets come in soon, for winter weather is just around the corner.

Band News and Views

For the last home game, the CHS Band presented a striking halftime performance. It featured the majorettes who did a very exquisite and daring routine with fire batons. For this special show, they wore black and white cowboy uniforms with black hats. The band did a wonderful job of the marching routines which were very complicated. Mr. Hesse stated that he was very proud of their progress on these routines, and he hopes their further improvement will be as noticeable as it was this last week.

Sports Spots

Russian or Swedish or French or Outer Mongolian, we'd try saying "we won" that way, too. The 38 to 0 victory over Munday last Thursday night exhausted our ways of congratulating our mighty Wildcat team in English. Those boys, even with Jim, Bill, Bobby and Gary out, just seemingly can't be stopped!

Wesley and Guy Jr. made most of the yardage and scores. Slim played some good ball too. James B., a partially new member, saw some last half action. George M. and Ivan C. added a lot to Crowell's winning power, too. If we had room, we'd like to list every guy on the team, because we know that all of them did a great job! Henrietta is waiting for us tomorrow night, so let's go all the way over them!

Halloween Sock Hop

The dance held Saturday night seems to have been a big hit with all. There were only a handful there, but those few did really "rock" until about 10:30. The place was totally a house of jazz until everyone got uninterested and out out. It was cool until the crying end. Everyone of you dads and your chicks be sure to come to the next jump, O. K.?

Accessories for Accent

An accessory, according to Webster's New World Dictionary, is something extra as an article of clothing worn to complete one's outfit. In the fashion world an accessory can be many things. Jewelry, a purse, gloves, vest, cuff links, hat, scarf, and so on are all accessories. They are more important than you might think. They can dress your clothes both up and down. For instance, a simple pair of gloves or a tie can change the ordinary into something special, or the lack of them can make something special just ordinary.

A bright scarf is a very helpful accessory. So is a flower. They can be used in many different ways. Mrs. King has several pretty scarves and flowers, and they always add just the right touch to her outfit.

Sweaters are very useful. They can be interchanged with various skirts, making a new costume each time. Carol Bell had on a very pretty gray one last week which helped to bring out the colors in her skirt.

A great deal of jewelry this fall is made to look like watches or clocks. It is both pretty and interesting. Gaye Ramsey has a very cute bracelet with several watch faces and large numerals on it.

These are just a few examples of accessories. Take a look at people and notice just how many different accessories there are and how they can completely change something.

Ugly Sticks

Whom would you hit with an ugly stick? Ugly sticks have become a fad since one popular recording mentioned them. So we gave CHS students a chance to use one.

Wanda James: an ugly person. Charlotte Sledge: Pod. Janey B.: Dale J. Carolyn Aydelott: Henry Black, so he'd quit saying, "Scatter." Ha. Arlos M.: I'm not made at anyone. Larry F.: I'd better not say.

Jerry Don E.: The girls of C. H. S. (ha ha).

Jimmy Henry: Amoneff. Linda Johnson: Anybody who happened to get in my way.

Griff's Boners

Father: Remember, son, beauty is only skin deep. Son: That's deep enough for me. I ain't no cannibal.

A canny Scot was engaged in an argument with a conductor as to whether the fare was to be five or ten cents. Finally the disgusted

conductor picked up the Scot's suitcase and tossed it off the train just as they were crossing a bridge. It landed with a mighty splash. "Hoot Mon," screamed the Scot. "First you try to rob me and now you've drowned my boy!"

A truck driver pulled up alongside one of those tiny foreign cars stalled on the highway, poked his head out, and asked, "What's ya trouble, pal? Need a new flint?"

Tin You I bought a wooden whistle, but

it wooden whistle. So I bought a steel whistle, but it steel wooden whistle. So I bought a lead whistle, still they wooden lead me whistle. So I bought a tin whistle, and now I tin whistle.

News and Nonsense

Wow! Halloween was terrific—how 'bout that dance Saturday night? We surely were glad to see everyone having a good time. Couples were Jerry and Janis, Pod and Charlotte, Taylor and Linda, Jimmy W. and Judy B., Wes and Jo, Dale and Janey,

Jackie and Sue, Don and Linda, Mike and Judy.

By the way, it seems that several Crowell boys took an interest in Tillie McAdams from Cisco. The girls have their eyes on Max Price—a real doll from McMurry. Let's all go to Henrietta Friday and support the Wildcats!

At the Plaza Saturday night were Butch and Alta, Jim and Carol, Roy W. and Jo Carol, Bob and Ginger, Claudene, Vicky, Donnie and Earlyn, Jim M. and Gaye.

Death a Year in Discarded Ice Box One Too Many

One death a year in a discarded icebox or refrigerator is one too many.

With that thought in mind, the National Safety Council warns against discarding cabinets—preparers of food when in the kitchen, but so often destroyers of young lives when put on the back porch, in the back yard or on junk heaps.

The suffocation of children in discarded refrigerators and iceboxes, though declining because

of the public's increased awareness of the problem, is an especially needless form of accidental death," the Council said.

Death in discarded cabinets came 18 times in 1955, 11 the following year and 14 in 1957, latest year for which figures are available.

Nearly 50 million refrigerators, iceboxes, freezers and other airtight cabinets are in use today, according to the Council. And they're being carted to junk piles—or, worse yet, kept in the basement as an extra cabinet, or left in the back yard—at a rate of about a million a year.

Critical period is May through September. That's when most vic-

tims lose their lives in discarded cabinets.

Typical of the tragedies was the recent suffocation of two Indiana brothers 5 and 3 years of age. They crawled into a refrigerator and pulled the door shut, locking themselves inside. The cabinet's insulation probably muffled the boys' cries for help, authorities said.

How can such mishaps be avoided?

1. Teach children to stay away from discarded cabinets.
2. Remove the door if you discard a cabinet.
3. Remove latch stops so the doors can't lock. This can be done, usually, by removing a few screws.
4. Drill holes in the cabinet and remove the rubber gasket around

the door.

"Better yet," the Council said, "destroy the cabinet."

Most states have legislation prohibiting abandoning, discarding or storing the death-dealing devices where they cannot become coffins for children, the Council pointed out.

Clamps Needed on Unions

"About a half a century ago, it was necessary for the government to put clamps upon arrogant heads of business. It has now come to pass where public sentiment is reaching the conclusion that the same sort of clamps will have to be applied to labor bosses who practice high-handed tactics."

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

Austin, Tex.—Though it hasn't any Los Angeles-type smog or London "pea soupers," Texas, in common with most of the civilized world, has "dirty air" problems.

Industrial smoke, automobile exhaust, incinerators—even small town cotton gins—are among the factors that pollute Texas air.

State Health Department used the approach of Cleaner Air Week during its observance, to remind Texans of the importance of the air they breathe. During one day, says the Department's October bulletin, a person must breathe 30 to 35 pounds—or a whole roomful—of fresh air.

Texas by no means has the problems of cities like London where in 1952 several thousand died during a period of excessive air pollution. But, says the Department, "the problem is already present and growing in areas where no action is being taken."

Every citizen can help, says the Bulletin. Improper heating appliances in homes give off tons of uncombusted material and burning of leaves and trash in the back yard adds irritating agents to the air.

HOW MUCH TIDELANDS?

Texas now await a decision by the U. S. Supreme Court on how much of its tidelands the state owns.

U. S. attorney general claims the state owns a strip only three miles out from the coast. Texas officials say it is three leagues, or 10 1/2 miles.

That Texas owns some tidelands was established by a 1953 act of Congress giving states control of their submerged lands to their "historic boundaries."

Gov. Price Daniel and Texas Atty. Gen. Will Wilson argued before the high court that a historic boundary of three leagues had been established in the days of the Texas Republic and was agreed to by the U. S.

Opposing federal argument is that the U. S. has insisted on a three-mile limit for all countries for many years as a matter of "national policy."

Texas' oil-bearing tidelands, particularly those further out, are believed to be worth many millions in revenue for the state public school fund.

STRAWS IN THE WIND

Indications keep piling up that a special Legislative session to raise teacher pay and a third-term race by Governor Daniel are strong possibilities.

Letters favoring the teacher pay session are greatly increasing, according to the governor's office. A representative of the Texas State Teachers Association said teachers are not "cooling off" in their drive and are not planning to wait until 1961. Several union labor groups have endorsed teacher raises and offered to help in the drive.

A recent State Democratic Executive Committee newsletter notes Daniel's popularity in polls and quoted him as planning "to keep the door open."

Which probably means the governor will keep the political pot in simmering suspense until very near the Feb. 1 filing deadline.

FIRST WATER LOAN MADE

Texas Water Development Board has made its first loan under the \$200,000,000 program passed by the Legislature in 1957.

Lower Nueces River Water Supply District received \$3,000,000 which will be used to complete the \$21,000,000 Wesley Seale Dam.

Under the program, the Development Board sells bonds and loans money to local governments to pay part of the cost of water conservation projects. Program is self-liquidating. Board is presently paying 3.56 per cent interest on the bonds and charging 4.06 per cent on loans.

White River Municipal Water District in West Texas is expected to receive the next loan. It is seeking aid for a \$4,000,000 project to supply water to Crosbyton, Post, Falls and Spur.

SCHOOL SUPPORT PROBLEM

Gaining public support for schools will hinge on how well schools adapt to new demands, State Commissioner of Education J. W. Edgar warned school leaders.

Dr. Edgar told the Texas Association of School Boards of new curriculum changes, including beefed-up high school mathematics courses, now being tested in Texas schools.

School board members noted that, despite the hue and cry for better schools, a winning football team still gets more public support than anything else.

Education

Commission Director Ralph Green said the pay levels are now 30.5 per cent higher than the average five years ago.

Widest range of salaries is at the University of Texas. Top pay there is \$16,000 for nine months, \$10,392 average for full professors, \$4,551 average for instructors.

Questions on K's Visit

Time magazine poses some cogent questions concerning the Khrushchev visit: "Is he seeking a genuine thaw in the cold war that might lead to forms of peace? Is he seeking an American acceptance of the status quo of Communist conquests, a softening-up of American will? Is he trying to shore up his own status in Communism's labyrinthine society, and if so against whom—against an aggressive Communist China, against restless captive peoples, against hostile Kremlin cliques? Is the sum of Khrushchev's intentions that he means to show that his is the face of the future?"

"God Bless Our Native Land"

A striking parallel between the history of ancient Israel and the history of America is suggested in Deuteronomy 8.

"Thou shalt remember all the way which the Lord thy God led thee." God has wonderfully led in the history of the United States. Our forefathers fled religious persecution to establish a new nation in a new country where they might worship God in peace. Duplicating something of Israel's experience, they passed through a period of early testing. They knew cold, hunger and privation, but they also knew that they could count on God's faithfulness. It is good to remember our past.

"The Lord thy God bringeth thee into a good land, a land of brooks of water, of fountains, and depths that spring out of valleys and hills . . . a land wherein thou shalt eat bread without scarceness, thou shalt not lack anything in it." People who visit America from other countries stand amazed at the abundance of everything which we enjoy. Seeing our great cities, our crowded highways, our stores loaded with every conceivable kind of merchandise, they call this "the land of plenty." Never in history has there been so high a standard of living. We must remember that God wrought this and these blessings spring from the fact that our forefathers feared God and kept His commandments.

"Beware that thou forget not the Lord thy God." When any nation enters a period of plenty, it enters a period of danger to its national existence. Moses warned Israel lest she forget God "when thy herds and thy flocks multiply, and thy silver and thy gold is multiplied, and all that thou hast is multiplied."

Israel became rich and powerful and forgot the God who had said, "Thou shalt remember the Lord thy God: for it is He that giveth thee power to get wealth." Israel perished. Any nation can likewise perish. America's hope is found in believers who seek to turn our country back to God.

Confirmation of Fact That Governments Can Go Broke

"Michigan is one of the most affluent states in the nation, with vast industrial areas. Yet, on Feb. 2, Governor Williams, with his bank credit shut off and his treasury unable to meet payrolls . . . appealed to industry for prepayment of taxes due April 15 . . . This should be an undeniable confirmation of the oft-repeated prediction that a government, state or national, can go broke. However, we fear that it will take more than this warning to convince federal bureaucrats they can't go on spending what we don't have."—Covington, Tennessee, Leader.

Troop I Girl Scouts

Troop I of the Crowell Girl Scouts was entertained with a Halloween party in the home of Mrs. Ray Shirley last week. The leaders, Mrs. Shirley and Mrs. Mike Raspberry, were hostesses. The girls had a traditional Halloween party by making popcorn balls, dunking for apples, and having their fortunes told. They made ghosts from suckers covered with a white paper napkin. "Witches brew" of hot chocolate and a pumpkin decorated cake were served. Present were Rosa Lee Latimer, Ella Holenbaugh, Linda Whitley, Dena Todd, Sharon Mapp, Paula Veera, Shirley Mike Raspberry, Merida Taylor, Gayle Russell and Karen Shirley.

Defense Spending in 1958

Total defense spending in the last fiscal year came to \$41,217,000,000. U. S. News & World Report shows how it was divided: Army, \$9,350,000,000; Navy, \$11,704,000,000; Air Force, \$18,993,000,000; Defense Department, \$1,170,000,000.

Farmers Should Be Able to Decide for Themselves

Farmers would have a better chance of making more money if they could decide for themselves—without government interference—how best to use their land, labor, and capital, the Chamber of Commerce of the United States reports.

With the demand for farm products constantly increasing, farmers are in a growing and thriving business, the Chamber points out. But many individual farmers are not benefiting.

President Erwin D. Canham of the Chamber notes that excess food supplies drive prices down, thus preventing farmers from selling at satisfactory prices. Yet the federal program of supports continues to encourage over-production of some foods.

Between 1948 and 1959, average net profits of farmers selling \$10,000 or more a year of food dropped almost one-third. These farmers accounted for almost two-thirds of sales.

"Improving farm incomes is an understandable and worthy objective of federal farm programs," Mr. Canham states, "but I do not see how we can achieve this objective by treating farmers as plants in a government hothouse."

Programs to dispose of public cost of excess foods both abroad and at home merit careful study, Mr. Canham believes, but past experience shows that these programs displace sales which farmers otherwise would have made.

Den 2 Cub Scout Meeting

Den 2 of the Crowell Cub Scouts held a regular meeting Wednesday of last week at the Ray Shirley home, with Mrs. Tom Ellis and Mrs. Chester Hord assisting Mrs. Shirley. As five boys had their birthday in October, the den mothers gave a combination birthday-Halloween party.

The boys painted chocolate faces on marshmallows with toothpicks. Following this activity, games were played, fortunes were told, and the Cub Scouts served hot chocolate and cake from the dining room table which was decorated in a Halloween motif.

The den chief, Ken Ferguson, was present, along with Larry Ellis, Bob Shirley, Billy Hord, Rudy Magee, Paul Stapp, Gary Eddy, Dickie Statter and Hughie Hollenbaugh.

News items below were taken from the Friday, November 1, 1929, issue of The Foard County News:

Fred Rennels won the football guessing contest last week over four other contestants. T. B. Richmond was second, Merl Kincaid third, Irving Fisch fourth, and Herbert Edwards fifth.

Mrs. E. A. Dunagan was one of the poultry prize winners at the Dallas Fair poultry show. She won first prize on a pen of young Buff Orpington chickens, winning a blue ribbon and five dollars.

Construction work is now underway on the concrete platform on which the German cannon will be placed on November 11th.

An organized effort, fostered by the county agents of this section, is being made in an effort to rid this part of Texas of wolves.

Crowell High School defeated Knox City 14-0 last Friday and will meet Matador here Friday.

Dr. Charles T. Ball, president of Eastern University of Philadelphia, will conduct a revival at the First Baptist Church beginning Sunday.

Foard County had 80 marriages in 1928, compared with 91 in 1927.

Miss Ludell Green was crowned queen of Crowell High School in a carnival and program at the high school Wednesday night.

Cotton ginned in Crowell up to Thursday afternoon amounted to 3,853 bales.

Mr. and Mrs. Truett Neill and Leon Solomon of Rayland visited relatives in Thalia Sunday.

R. G. Nichols and family of Black visited in Thalia Sunday.

Tom Nichols is working this week at the Moore Ranch.

F. L. Ownbey, living south of Crowell, has a nice flock of 300 White Leghorn pullets.

Seven-tenths of an inch of rain fell here Saturday night.

Mrs. J. T. King returned Monday night from Anson where she has been visiting her son, Clyde King, and wife.

Dangers of Communism Must Be Taught to Millions

"Every American has been exposed to the dangers of communism and its world-wide domination of the will of man and his dignities and freedoms.

"But we don't have to be convinced. The people who must be convinced are the . . . millions who have lived in the most horrible poverty for generations and have never had hope for the future.

"When the communistic overlords come along and hold out a promise to these people it is sometimes the only promise they have ever heard. They have nothing to compare it with—nor do they know that complete domination is the final communistic objective . . ."—Kingman, Arizona, Mohave County Miner.

Attempts Made to Curtail Freedom of the Press

"There have been . . . attempts in recent years to curtail freedom of the press. The idea behind this action is that an ignorant public is much easier controlled than well-informed citizenry. Certain government officials, in most cases appointive rather than elective, have taken it upon themselves to decide what is good for us to know and what is not, in regard to their particular departments. . . Constant alertness is the only defense against this constant stripping at our heritage—constant alertness and the proper exercise of the voting right."—Bernice, La., News-Journal.

Public Interest Is Hurt

"As the public interest is hurt more and more by such long-drawn out labor disputes, the over-riding public right to industrial peace will have to take precedence and a way found to prevent such disruptions of the economy without undue trespass on the rights of workers."—Beaver Falls, Pa., News-Tribune.

Will Pass Milestone

Time forecasts that during the last quarter of this year the U.S. economy . . . will pass a long-awaited milestone far ahead of schedule. We will be producing, earning, spending and investing at the rate of \$500 billion—half a trillion—a year. This works out to the production of about \$11,000 worth of goods and services for each of the country's 45 million families.

THIS WEEK -In Washington

With Clinton Davidson

A full study of the two-price plan, combined with revitalized research, can open new and more profitable large-scale markets for farmers, in the opinion of two outstanding Senators from the Pacific Northwest.

Too little is being done under present farm programs to help either the farmer or the consumer, Sen. Warren G. Magnuson and Henry M. Jackson, both of Washington State, told us in an interview on farm problems.

The consumer-taxpayer, they agreed, today carries a double burden. His tax bill includes subsidy payments intended to hold down production as well as more charges on excess production.

Meanwhile, they said, farm income continues to decline and farmers' costs continue to climb.

Two-Price Plan Urged

Senators Magnuson and Jackson contended both farmers and consumers would be far better off under a two-price system for wheat. That is the program which Congress passed in 1958, but which was vetoed.

Such a system would return to growers a fair price for that portion of their crop consumed domestically for food, such as a loaf of bread, cake mix, etc., and permit open market sale of the remainder for export, livestock feed or for industrial uses.

Actually, the Senators said, the price of wheat products would be increased very little since only about four cents worth of wheat now goes into a loaf of bread. The savings in taxes would more than offset the added cost.

The Washington Senators urged that the Senate and House Agriculture Committees give serious consideration to increased emphasis on research to find new and expanded uses for farm products.

Surpluses Over-Emphasized

Both of the Senators feel that too much blame is placed on "mounting surpluses" as the cause of every farm ill. "Surpluses are a relatively small part of total farm output," they agreed, "representing only five to eight per cent of annual production."

This compares, Sen. Magnuson pointed out, with a 100 per cent increase in egg and poultry production, a 300 per cent increase in oilseed production and a 47 per cent increase in corn since 1939.

Sen. Jackson maintains that "our ability to produce more food and fiber than we consume should be considered a blessing rather than a curse." The problem, he added, is to find sensible ways to utilize our God-given abundance.

Both Senators agree that research into the development of new markets for our agricultural abundance "nowhere nearly matches our production gains."

Only a small amount, compared with the total farm program costs, goes for research to develop additional markets, they said.

A two-price program, when coupled with expanded research, is worth trying, the Senators told us, as a way of both raising farm income and getting the twin burdens of subsidy and carrying charges on storage off consumers' backs.

Need to Sell Capitalistic Idea to the World

"What we need to do in the United States, in Great Britain, and in the other democratic countries, is to sell the capitalist idea to the world. Capitalism, with its defects and its advantages, is a saleable product and is the most workable system, and the most beneficial system, for the average working man and the average citizen. —Arabi, Louisiana, St. Bernard Voice.

No Such Thing as Free Lunch

"There is no such thing as a free lunch . . . not even when the Government provides it. Every lunch has to be paid for . . . by somebody. The same is true of Government aids, benefits and services. —They are not free. All of these things have to be paid for by somebody, and that somebody is we . . . the people." —Carrizo Springs, Texas, Javelin.

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M.D. Commissioner of Health

This is a noisy world we live in—there's no doubt about that. And things are getting noisier!

Sounds like the loud radio next door or all of the neighboring kids enjoying their games with squealing delight are major offenders.

Medical experts show that noise where we work, where we live and sleep, where we travel and from work can cut down our efficiency, impair our peace of mind, our health and our comfort.

Noise, they reveal, brings sleeplessness, tired nerves, and poor digestion.

Noise is measured in units of decibels. When the noise level reaches 70 decibels or more, it has a definite ill effect on the digestion.

Normal sounds in a business office will combine to create a noise that measures 60 decibels. A noisy office often hits 70 decibels.

A whisper five feet away amounts to 25 decibels. The loud radio next door probably registers

65 or more. An automobile horn blasted at you from a distance of ten feet jumps the count to 120 decibels, hurts your ears, and probably makes you mad. An ordinary conversation averages 50 decibels.

Occupational deafness seems to be more and more common. As our cities become noisier, there is more deafness among road builders, bus and traffic drivers, printers, and traffic policemen.

Organizations of employers and insurance groups are analyzing this hazard and beginning to develop control techniques.

Experts tend to agree that a sudden loud noise causes about the same reaction in a person as does a great fright and may be followed by a general feeling of depression and loss of vitality.

Surveys of the most annoying noises list automobile horns, squealing brakes, city buses, cutouts, and motorcycles as the worst offenders.

Close to the top among other objectionable sounds are those from overloud radios—that belong to someone else—factory whistles, riveting, pneumatic drills and noisy games and parties.

Strangely enough, barking dogs and yowling cats were not given as too annoying.

(A weekly feature of the Public Health Education Division, Texas State Department of Health.)

Temporary Tax

"The Federal gasoline tax has gone up another cent from three to four cents per gallon in order to keep the Federal highway program going. But the increase is only for a 22-month period. After that the tax will drop back again to three cents. However, the odds are 10 to 1 that 22 months from now, and even 22 years from now, motorists will still be paying that additional one cent tax. If you have any doubt about it just consider the fact that the Federal gas tax was first imposed during World War II strictly as a temporary war measure. But it was dropped after the conflict? No, indeed. Instead it was increased and now is being increased again. It all adds up to the fact that there is no such thing as a temporary tax—at least, not as far as Uncle Sam is concerned." —Anaheim, Calif., Bulletin.

Undecided About Future

"Too many of our high school graduates go on to college with no idea about what they want to make of themselves. Some go because it is the thing to do; others because they can get a few more years of loafing at the expense of their parents. As a result, many of them come out with a degree that has no meaning, yet they expect it to open the door to a high-salaried job." —Italy, Texas, News-Herald.

Use of Force Gets Okay

"Although the committee on national education policies originally rejected a resolution advocating the use of force, when needed, to maintain classroom discipline, the American Federation of Teachers has now given its approval. The teachers said, however, that force was not a desirable thing in itself. They said it just sometimes could not be avoided." —Antigo, Wis., Journal.

Beatnik Is Proud

"A North Carolina editor says about the only difference between an ordinary bum and one of those so-called beatniks is that the ordinary bum is either ashamed of his status or is indifferent. The beatnik, on the other hand, is proud of his low spot on the totem pole of human society." —Carlsbad, N. M., Current-Argus.

Dozes for Fraction of Second

"Nearly every motorist who has done late night driving can recall instances where he has dozed for a fraction of a second. Your eyes close, the head dips, then you straighten up with a sudden awareness bordering on panic. It might take only the time for a snap of the finger to regain control. In such an experience, you brush against the wings of death." —Waltham, Mass., News-Tribune.

\$300 Million on Research

"The petroleum industry spends more than \$300 million a year on research, and more than \$6 billion a year in capital development and modernization. Looking ahead, it has been estimated that oil will spend another \$77 billion between 1958-67 to guarantee expansion and facilities for tomorrow's increased demands." —Louisburg, N. C., Times.

TVA Not Helping Area Grow

"In Tupelo, Mississippi, one of the first towns to get TVA electricity, the Tupelo Journal had this to say: 'The time has come for TVA to back up and admit that the fastest growth in the South has taken place outside the TVA area and we who live within its borders are still as a whole just about the poorest people in America.'"

"So the tax supported TVA, which we in Texas have helped to the tune of over hundreds of million dollars as our share has not helped the people keep pace with the rest of the South."

"It seems this business is a losing proposition. I would like to see my share." —Alice, Texas, News.

In order to originate football broadcasts this fall, The Humble Company will require the services of 91 broadcast crew members . . . exclusive of the services of the TV technicians, who become so numerous you can't count 'em. That would be 19 announcers, 15 radio engineers, 10 supervisors, and at least 47 spotters.

PRIZES OFFERED FOR 1st, 2nd, 3rd PLACES!

(Although this is addressed to Chevrolet owners, we'd be glad to have you read it, no matter what make you now own or plan to buy. It might well be as interesting and significant to you as to the Chevrolet owner.)

TO THE MORE THAN 16 MILLION PEOPLE WHO OWN CHEVROLETS

The first and the latest—the 1912 and the 1960 Chevrolet. The progress represented here is the result of continuing efforts to make your new Chevrolet always more beautiful, more useful and more valuable in every respect.

You belong to the largest family of owners in the automotive world.

We hope you're proud of that. It must give you great satisfaction to know that your judgment in choosing Chevrolet has been confirmed by so many other people.

We know that we can hold your preference and your loyalty only by meeting our responsibilities to you fully and completely from the day you buy your Chevrolet to the day you trade it in. And so we'd like to talk with you about our responsibilities as we see them, and what we are doing to meet them.

Our first responsibility, we think, is clear: To design and build products that satisfy your needs and your wants to the highest possible degree. To that end, we have done these things for 1960:

Made the 1960 Chevrolet more economical, roomier, more quiet and comfortable, easier to handle and maneuver. Introduced the compact and revolutionary Corvair. Produced a new line of Chevrolet trucks with unprecedented advances in efficiency, cargo handling, driver comfort and ability to get a job done.

But it isn't enough to design and build the kinds of products you want. They must be built right. Solidly. Carefully.

Let us assure you of this: Chevrolet's fine reputation as a solid, well-built, dependable product is being safeguarded by more checks and inspections and tests, than ever before.

Along with your Chevrolet dealer, we want you to have available the finest and most complete service facilities. That is why we: Conduct training schools for Chevrolet dealer mechanics. Study and recommend improved service equipment and techniques. Maintain the industry's most complete parts warehouse system.

Finally, neither Chevrolet nor your Chevrolet dealer has any intention of forgetting you after you buy. To help keep you happy with your Chevrolet, we have established a department new to us, and so far as we know, new to the automobile industry. This is the Chevrolet Department of Owner Relations, whose only job is the coordination of Chevrolet and Chevrolet dealer activities so that you enjoy utmost satisfaction during your entire period of ownership. Through this department, and through all the other extraordinary steps we are taking, Chevrolet and your Chevrolet dealer hope to keep you a happy member of the Chevrolet owner family.

Columbian Club

The Columbian Club met in the home of Mrs. Guy Morgan on October 28 with the president presiding. The committee for the coming year was appointed, as well as other business.

The devotion was given by Mrs. R. J. Thomas, who used the second chapter of Ephesians as a basis for her title, "What It Takes to Be a Christian."

Mrs. Grady Halbert was lesson leader. The roll call was answered by naming the teachers who had helped more in school days, either in literary lines or in music.

Mrs. D. R. Magee talked on the subject, "More Education for Our Money." Mrs. Halbert spoke on the general subject of better schools.

The hostess served refreshments to ten members. The next meeting will be with Mrs. R. J. Thomas on November 11.

Adelphian Club

The Adelphian Club met Oct. 28 in regular session with Mrs. Martin Kralchick serving as president in the absence of Miss Dorothy Erwin.

Mrs. Norman Davis was leader for the afternoon. She introduced James Herring of the Lower Pease River Soil Conservation office. He gave a very interesting program on how they help farmers save their soil and preserve their water. He also stated that the Soil Conservation Service has other responsibilities other than soil and water. They are responsible for radio-active fallout in this territory.

Mrs. Mike Bird was hostess for the afternoon and served a delicious refreshment plate.

West Side H. D. Club

The West Side Home Demonstration Club met in the home of Mrs. Tom King October 27. Mrs. Oscar Gentry and Mrs. King were hostesses. Opening exercise was "Do you just belong" and "Prayer" read by the group. Roll call was answered by "the gift I would like to have for Christmas."

An interesting program on Christmas ideas was given by Mrs. Henry Ross and Mrs. L. G. Simmons. Several were shown which could be made at a low cost. Mrs. Simmons received the hostess gift.

Refreshments of Cokes and cookies were served to 13 members and 1 visitor. The next meeting will be in the home of Mrs. Jim Henry November 10 with Mrs. Henry and Mrs. Billy Halencak as hostesses.

Truscott H. D. Club

Ten Truscott Home Demonstration Club ladies honored their elected queen, Mrs. Marie Gillespie, on October 29 with a luncheon at the community center in Truscott. Mrs. Gillespie has filled all elective offices for the club and is now serving as council delegate and on the finance committee. A sweater was presented the queen as a token for services she has rendered.

Miss S. C. Kinsey, agent, met with the group in the afternoon for a program on insurance. The club meets again on Nov. 12 at the community center with Mrs. Carlton Browder as hostess.

Something of a Joke

"It seems at times as if 'government by the people' is something of a joke. In spite of the fact that officials are elected, measures frequently pass Congress which are in opposition to the public's will.

"But action during 1959 has done much to bolster the democratic theory. . . . Now John Q. Public is fighting mad about labor disgraces and his ire is making itself felt in Congressional halls." —Oberlin, Kansas, Herald.

Motorists are getting so concerned over the number of miles they can get per tank of gas that the auto manufacturers are going to be forced to enlarge the size of the tanks.

Replies to Critics

The New York Times says: "Disturbed and angered by a spate of rumors, reports, speculations and accusations that he is now taking a softer line toward what he has denounced as Communist imperialism, President Eisenhower has taken steps to repudiate any such insinuations. . . . In reply to such misinterpretations President Eisenhower served notice at his Gettysburg press conference that he stands on his past policies and that he will pull no punches in his talks with Mr. Khrushchev in support of them. . . . He does not propose to abandon the subjugated nations, whose hopes for freedom have been stirred anew by his Captive Nations proclamation. He will not agree to mere paper pacts on disarmament. He has no intention of recognizing Communist China or inviting Premier Chou to visit this country at this time. And he most certainly will not make a 'deal' with the Soviets to partition the world behind our allies' backs."

Results in Little Progress

Editor Don Robinson of The American Press observes: "Having kept up fairly well with the so-called progress of our educational system in small-town America, as reported in country newspapers, I am becoming increasingly convinced that all the fancy school buildings, the demands for more and more extra curricula requirements for teachers, and the insistence on higher education for all nit-wits, has resulted in little progress. . . . In my opinion, a group of fifteen or twenty children, gathered together in a small building for the sole purpose of learning, and taught by a teacher who is more concerned with their welfare than her own, would still give a much finer education than is available in our present million-dollar monuments to learning."

Beefing About Spendthrifts

"Americans do a lot of beefing about the spendthrifts on Capitol Hill or in their State Houses, but the truth of the matter is we make those legislators spendthrifts even when they don't want to be one. . . . We do not award any Congressional Service Medals to those who spend their time trying to introduce economy. Nobody ever put up a monument in any town or city square to the stubborn gent who saved a few million during his tenure of office. We called them pinch-pennies, tight-wads and bums on the tail of progress. It is not popular to be an economist, in fact, in many cases, it is political suicide." —Reynoldsville, Pa., Star.

Big Cost in Farming

"One big cost of farming is often overlooked. A last year's survey by Michigan Farm Bureau showed the average farm accident costs about \$700 in property loss alone. Ten per cent of the 6,000 members surveyed had accidents during the year, with property losses totaling \$70,000, medical bills amounting to \$50,000, and injuries costing 64,000 man-hours of labor.

"And most of these costs could have been prevented, if the victims had only lived and worked safely." —East Lansing, Mich., Farmer.

Best Reliance

"Despite the changes that newer horrors of atomic weapons and guided missiles have made military concepts of warfare, roads will again be our best reliance for the sort of job done in World War II when they handled 90 per cent of all domestic military freight and 97 per cent of the face of wartime conservations of fuel and scarce materials, other means can compare in efficiency with long trains rolling on steel under a single source power—that deliver nearly a times the ton-miles per fuel dollar that highway transport can provide." —Wapakoneta, Ohio News.

THE BIG CHANGE

is TO an

ELECTRIC RANGE!

If you're like most homemakers, you'll agree to this: seeing your family sit down to a delicious dinner is one of the biggest thrills any woman can have. But—how often can you really enjoy it, when you're tired out, exhausted, after hours of battling with a balky, old-fashioned stove. Well, if that's your situation, get ready for something wonderful to happen—to you! Just start cooking with a modern, automatic electric range. Here's cooking that's faster, easier, cleaner—a range that does the work for you, turns itself on and off so that you don't even have to watch the food cook. You'll find that you'll enjoy dinner, too, along with the rest of the family. This is really living better—and cooking better—electrically. See the new automatic electric ranges on display today at your electric appliance dealer.

It's so inexpensive to cook the modern electric way. The average family served by WTU can cook a complete meal the easy, fast electric way for less than three cents (3¢).

(Continued from page 2)

on Halloween were Bill and Don. Seen Friday were Bill and Marquita, Fred and Patsy, Don and Mary Ellen. Note to teachers: Please don't disturb the naps of the senior girls. The slumber party at Wanda's kept them awake Halloween night.

Janise, the scandal wants to know if you have fallen in love. Guess Jerry Don will wait next time. Enjoying the ball game Thursday night were Jim and Carol—usual, isn't it? A fine canteen followed the game. Couples were Charles and Janey, Jackie and Sue, Taylor and Linda, Pod and Charlotte, George and Carolyn.

Riverside

MRS. CAP ADKINS

Mrs. Johnnie Zuhn attended a Texas-Louisiana convention of Lutheran Churches in Dallas last week, returning home Friday.

Mrs. Tom Ward of Chillicothe and Mrs. Edmond Ward of Quannah visited Mrs. T. L. Ward Tuesday.

Mrs. Mary Matthews and son, Pete, of Wichita Falls visited her parents, Mr. and Mrs. Cap Adkins, during the week end.

Paul Rotenberry of Abilene was a dinner guest of Mrs. John S. Ray and mother, Mrs. W. A. Mussetter, Sunday.

Mr. and Mrs. L. Kempf and Mrs. James Bowers visited Mr. and Mrs. H. A. Lawler of Vernon Monday.

Mr. and Mrs. Ward Kuehn spent the week end with her parents, Mr. and Mrs. Eddie Jones, of Vernon.

Mr. and Mrs. George Key of Rayland and Mr. and Mrs. Joe Standee and daughter of Vernon visited Mr. and Mrs. Dave Shultz Sunday afternoon.

Mr. and Mrs. S. B. Farrar and family and Mr. and Mrs. Deloyd Robertson visited Mr. and Mrs. J. T. Hudgens and family of Grayback Sunday afternoon.

Mr. and Mrs. Thomas Holland of Fort Worth spent the week end with her parents, Mr. and Mrs. Oliver Holland, and family.

Mr. and Mrs. George Paulson and Mr. and Mrs. Herman Thomas spent the week end with Mr. and Mrs. Spencer DuBose and Mr. and Mrs. Archie Tubb of Edmondson.

Jackie Kidwell of Lubbock spent the week end with her parents, Wes and Jo.

Janey, did you have fun this week end? Could Dale be the reason? Wanda surely was happy, too. Don was home.

Heard Kay and Jo had quite a week end. Despite all the trouble Sunday night, Kay and Jerry, Jo and Eddy had a ball.

A frequent Thalia visitor is Wanda—seeing Billy. What's this we hear about Jo Carol and Wesley?

Why were Jackie and Taylor mad at Sue and Linda Sunday? Couples seen at the dance Saturday night: Taylor - Linda, Judy-Mike, Sue-Jack, Linda-Don, Kay-Max, Wes-Jo Frances, Janie-Dale, Janis-Jerry Don, Charlotte-Pod, Judy-Jimmy W.

Couples seen at the Plaza: Carra-Lonnie, Carol-Jim, Gaye-Jim Mack, Alta-Butch, Earlyn - Donnie, Jo Carol-Roy W., Vickie - Claude Dean, Sharon - Billy Doyle, Fred Youree-Dianne Sledge.

Was everybody happy Saturday night? The scandal would like to know. Wonder what Bobby, Guy Jr., Jackie and Denny did Friday and Saturday at Dallas?

What's the matter with Dale and Judy S.? See you at the ball game! Be sure and tell us all news and nonsense, including your best friend's secrets, O. K.?

Menu Monday: Light rolls and butter, meat balls with barbecue sauce, spaghetti, buttered peas, cabbage, celery and apple salad, fresh tomato slices. Tuesday: Corn meal muffins, pinto beans with bacon, weiners with kraut, cheese wedges, fresh tomatoes and onion slices, sliced peaches. Wednesday: White muffins, roast and gravy, creamed potatoes, whole green beans, carrot strips, apple cobbler. Thursday: Hot dogs, French fries, peanut butter candy, fruit and cookies. Friday: Light rolls, fish sticks, macaroni and tomatoes, candied sweet potatoes, celery sticks stuffed, orange cake.

Illegal Fishing

Tops the List of Violations

Fishing without licenses topped the list of game and fish violations in September, according to E. M. Spratt, director of law enforcement, Texas Game and Fish Commission.

One hundred and ninety-eight persons were charged with fishing without the required licenses. Game wardens arrested 15 for failure to have resident hunting licenses.

"Everyone had substantial notice that new licenses would be required after August 31," said the director. "Many people go right on fishing without a license, either because they put off buying one or because they forget about one until they're in the boat and fishing. Nevertheless, a violation is committed and it cannot be overlooked."

Hunting out of season did not pay off for 22 persons who were caught in the act. Trespassing dropped far below the monthly average, while hunting with unplugged guns jumped up a notch or two. Another 14 were charged with hunting from an auto and 17 were hunting doves in closed season. A dozen hunters had too many doves.

Nine persons were charged with killing quail out of season and another 8 shot squirrel in closed season. An all, 43 persons were charged with killing game out of season.

A total of 369 charges were filed during the month by State game wardens. The persons charged paid a total of \$7,115 in fines and \$679 in court costs. One person served time in jail, 5 pleaded not guilty, 3 appealed to a higher court, one had his fine suspended, and 31 cases were dismissed.

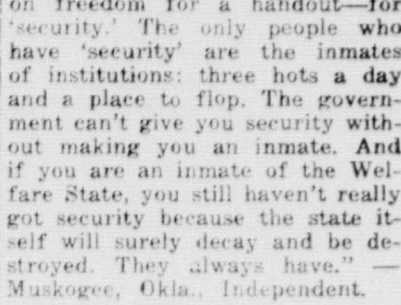

Older Worker Valuable Asset According to Nation's Business, the older worker could be one of the most valuable assets in the competitive business world of the 60s. It cites a government survey showing that some 45 per cent of manufacturing workers over 40 produce more per manhour than the younger men. The older worker also has some special attributes—experience, greater dependability, mature appreciation of job responsibility.

Like a Handful of Sand

"Someone has said that freedom is like a handful of sand. The second you relax any of your fingers, it starts slipping away from you. We've relaxed our grip on freedom for a handout—for 'security.' The only people who have 'security' are the inmates of institutions: three hot a day and a place to flop. The government can't give you security without making you an inmate. And if you are an inmate of the Welfare State, you still haven't really got security because the state itself will surely decay and be destroyed. They always have." —Muskogee, Okla., Independent.
