Highway Deaths Decrease in 1958

Governor Price Daniel said this week that preliminary figures, showing a 9 per cent reduction in Texas highway deaths as compared with 4 per cent for the entire nation, are a tribute to the tremendous efforts of Texans who have given so much time and energy to saving lives on our streets and highways.

The Governor said the tentative figures, compiled by the Statistical Services of the Department of Public Safety, indicate that more than 200 lives were saved in 1958 as compared with 1957 traffic deaths. "Final figures will not be known until the holiday and hospital reports are completed," the Governor said, "but it is certain that the statewide campaign for reducing highway fatalities in 1958 has been very successful."

Total traffic deaths for 1957 were 2,539, and up to December 19 the 1958 total was 1,126.

Some Native Grass Seed Reported in Short Supply

By JAMES H. HERRING

This is another year in which native grass seed dealers predict shortage in supply of the popular grasses such as blue grama and buffalo. Most commercial dealers still have a supply of these grasses but they point out a probable shortage in the near future.

Soil Conservation Service technicians advise producers in the Great Plains Conservation Program, that plans to use these grasses in mixtures on cropland shifted to permanent vegetative cover and overseeding rangeland following seedbed preparation (root plowing and chiseling) to purchase these seed now before the supply is exhausted.

On the other hand, other varieties such as native grass mixture containing little bluestem, big bluestem, Indian and switchgrass are about only one-half the price they were last year. Most commercial dealers have a normal supply of these grasses at cheaper prices than they have been in years. Also, sideots grama and switchgrass in numerous improved strains are available in normal supply on the market.

If you are interested in one of the following vegetative practices, contact your soil conservation district supervisor, SCS or ASC office for information on Federal cost-sharing assistance in the Great Plains Conservation Program or Agricultural Conservation Program: (1) Initial establishment of a permanent vegetative cover on cropland; (2) Initial establishment of contour or field strip cropping to protect soil from wind or water erosion; (3) Improvement of vegetative cover on rangeland by artificial reseeding for soil protection; (4) Initial establishment of a permanent vegetative sod waterways to dispose of excess water without causing erosion.

The SCS office in Crowell is offering assistance to farmers and ranchers in figuring recommended seeding rates and native grass mixtures. If you need this kind of assistance, please contact this office now to allow prompt services. Fourteen farmers and ranchers have requested this assistance. Some of them have already ordered grass seed to plant this spring if soil moisture permits.

Farm Workers Tax Deadline

An important deadline date for farm operators will soon be coming up. This date, January 31, 1959, is the final day when reports are due and social security taxes are to be paid on their 1958 employees, according to Erton F. Tate, manager of the Wichita Falls district office of the Social Security Administration.

Tate mentioned that not all farm employees come under the law. One of two tests must be met for coverage: (1) the cash remuneration paid by the farm owner to the employee must amount to \$150 or more in a calendar year; or (2) the employee must perform agricultural service for the employer in at least 20 different days during the calendar year for cash remuneration computed on a time basis (hour, day or week).

Tate said that only cash remuneration can be used in determining if the amount paid for agricultural service in a calendar year is subject to social security taxes. Cash remuneration includes checks and other monetary media of exchange, but does not include such items as board and lodging, clothing, etc.

The employer must keep all necessary records pertaining to those farm workers who are to be reported and he should deduct 2 1/2 per cent of gross cash wages from the worker's pay up to a total of \$4,300 for a worker for the year 1958. The employer contributes an additional 2 1/2 per cent. The report should be made and the total 4 1/2 per cent social security tax paid to the Director of Internal Revenue not later than January 31, 1959, for all reportable 1958 farm workers. For 1959, cash wages up to \$4,800 per worker must be reported. The tax will be larger on wages paid in 1959; 2 1/2 per cent should be deducted from the employee's wages, and the employer will match it with a similar amount. Tate further mentioned that it is extremely important that each employee's name and social security account number appear on the report. Complete reporting instructions may be obtained from any social security district office, or from any Internal Revenue office.

down and live? Let's really look at this business of living! We rush through each day as if everything had to be done at a particular time. Oh, yes, I know—there is really little time to loaf; lessons, sports, dates, etc., take almost every available moment. But perhaps in our rush we do not have time to enjoy anything to the fullest.

It seems to me that each day we should endeavor to do at least some one thing that is not on our daily agenda. We need some "new blood" so to speak, some bit of unexpected joy, some new acquaintance, some new activity, to help us keep from getting into a daily "rut." We need a spark to set our day aright.

This unexpected "something" may be very simple, but it may be just the challenge to spur us on to do our daily work more thoroughly, more efficiently.

Now, what am I getting to in all this fit of raving? Well, there really is something behind the thought of this article, and now I'll let you in on our secret. This last week Kay Johnson, the sophomore reporter for our Wildcat, received a letter from a person living at Warrensburg, Mo. The person stated that she had a friend, a former resident of Foard County, who lets her read the Wildcat each week. She was very complimentary about our paper and made us feel that she looked forward to each week's issue. The thing that she did when she wrote to us is an example of what I'm trying to "put over" in this editorial. We have been challenged by this unknown person to do a little bit better, to work a little bit harder, realizing that our efforts are being observed by the public. This is the "spark" that will keep our work from being purely a "job that must be done." The thing that she did—the very unusual thing—is that she not only had the idea, but in her busy living, she took time out to sit down to write to us!

Incidentally, we quote from her letter, "I am one of those ill-famed, horrible teachers (?) of history to one hundred and fifty unappreciative (?) high school students." So, see—this also proves another point that we've frequently stressed. "People are the same the world over!" Thanks, Mrs. Jack Thomas of Warrensburg, Mo., for your inspirational letter. May we continue to publish a paper worth your taking time out to read, and may we learn from the thrill it gave us—that we should all slow down and really live by doing those little things that make another happy. The returns will be great. So, may I repeat, "What the hurry? Let's slow down and live."

Senior Work Day Termed "Big Success"

On Saturday, Jan. 10, the seniors operated Adkins Phillips 66 Station in an effort to make money for the senior trip. The class members, working in shifts and being assisted by a regular station attendant, washed and greased 55 cars and sold approximately 2,000 gallons of gasoline. Their work added about \$150 to their coffers.

They also received an additional \$15.00 through donations from the following: Leslie McAdams, Frances Andrews, Jeanie Johnson, Thomas Hughtson, Greer Reinhardt, Oscar Gentry, Allen Sanders, Ed Dunn, Henry Black, Louis Beatty, Messrs. Griffin and Shomcoos of Bristow, Okla., and a colored man whose name was not learned.

The senior class would like to take this opportunity to thank all who had a part in making this senior work day the success that it was. To the many people who traded with us, to the room mothers who served free coffee to the customers, to our sponsors who did more than their share of work, and especially to Mr. Adkins, we wish to say that we deeply appreciate your interest in us and the help which you gave us.

Football Players Receive Awards

As has been the custom in the past, awards have been made to the football players, both lettermen and reserves.

Each letterman has received an attractive gold colored wool jacket, bearing the gold letter 'C' edged in black and striped with one black bar for each year that he has lettered. On the sleeve is a black patch in the form of the state of Texas. It bears the wording: Bi-District Champs, 1A, 1959.

The managers, Don Ray Polk and Don Keith Ingle, and the coaches, Thayne Amonett, Gordon Erwin and Glen Taylor, have also received this type jacket, with the following boys receiving jackets: Gerald Bradford, Ivan Cates, Jim Henry, Bobby Barker, George Moss, Don Welch, Taylor Johnson, Duane Nichols, Bobby Powers, Tom Crowell, Joe Barry, Bryant Thompson, David Carpenter, Gary Carpenter and Bill Graves.

Black sweaters with the gold 'C' and the bi-district sleeve patch have been received by the following way to spend leisure hours. Time, one of the most valuable things we possess, should not be wasted

foolishly. Jerry Fairchild and Ronald Yarbrough — Senior Personalities

Honor was placed on two seniors of CHS for being the only two students to make an average of 150 on all of their mid-semester tests. Just how did they do it? You guessed it, they were under the influence of the new "smart" pill manufactured by the Henry Black Co. of Crowell.

James Welch attended a school at the Texas Surplus Property Agency at Lubbock on Wednesday of last week in which he received instruction in the conversion and use of surplus electronics equipment. The teaching project, entitled "Electronics for Science and Physics" was conducted by George Garner of the Surplus Property Agency, formerly professor of physics at St. Mary's University in San Antonio.

Welch received valuable instructions in the use of available electronics equipment. He also acquired some equipment which was available, including a new 24 volt short wave radio transmitter and several other items. He was accompanied to Lubbock by Clark Hitt, Elementary School Principal.

Patsy McKee, Senior, Completes High School Work

Sad, but happy news has come to us with the beginning of this new semester. One of the girls in the senior class, Patsy McKee, has completed her high school work. She plans to work and look forward to her coming marriage to Louis Rettig, a 1958 graduate. We, CHS students, want to wish you, Patsy McKee, all the luck in the world.

Homemaking News

The FHA members met Thursday, Jan. 8, in the auditorium with their sponsor, Mrs. Doyle Kenner. Roll call was answered by 52 members. Diane Sledge, Peggy Cates and Lillie Polk were appointed on the committee to plan ways to make money for FHA.

It was reported that 28 cans of food goods were brought for the Christmas box that was delivered Tuesday, Dec. 23. Also, 48 Christmas cards were brought for the state hospital.

A skit on parliamentary procedure was given by 10 members. Refreshments were served in the Homemaking Cottage.

Library News

January Library Club meeting was postponed and will be combined with February meeting.

"Around the Clock, It's Always Book Time" was the theme used for the bulletin board display last week. It emphasized the importance of reading, a favorite pastime for many, as an excellent way to spend leisure hours. Time, one of the most valuable things we possess, should not be wasted

foolishly. Jerry Fairchild and Ronald Yarbrough — Senior Personalities

Honor was placed on two seniors of CHS for being the only two students to make an average of 150 on all of their mid-semester tests. Just how did they do it? You guessed it, they were under the influence of the new "smart" pill manufactured by the Henry Black Co. of Crowell.

Jerry Fairchild is 5' 4" tall, has blond hair, brown eyes, and is 17. Her favorite meal consists of chicken, mashed potatoes and lemon pie.

Jerry can always find time to go horseback riding or to go to a rodeo. When it comes to music, her favorite record is "My Happiness" by Connie Frances. Now comes movie time, Jeff Chandler and Elizabeth Taylor are her favorite stars, especially if they star in a "western" love story. Her pet peeve is a person who isn't truthful. The people she most admires are her mother and daddy.

Her hardest subject is chemistry, while her easiest subjects are math and English.

In school Jerry has been the head majorette, a beauty '57-'58, an FFA officer three years, and she is now on the Wildcat staff and annual staff.

After graduation, Jerry plans to attend Midwestern or Texas Tech. There she will major in elementary education and psychology.

Ronald Yarbrough is 6' 4" tall, has black hair, green eyes, and is 17.

A big delicious steak, french fries, gravy, topped off with caramel pie, is his favorite meal.

Ronald enjoys fooling with horses and making the rodeo circuit. "The Lonely One" by Duane Eddy is his favorite record. Ronnie always enjoys a good western movie. His best liked stars are Jeff Chandler and Jayne Mansfield. His pet peeve is people who smack when they chew gum. His most admired people are his parents.

Ronnie's hardest subject is English; his easiest is bookkeeping.

In school Ronald has been FFA King '58-'59, and has belonged to FFT three years, Dramatic Club one year, and the Crowell Roping Club.

As for "after graduation plans" he hasn't decided upon anything definite, but he thinks he probably will go to Texas Tech to study to become a veterinarian.

A Group Homemaking Project Is Completed

In September, Mrs. Moody Bursley gave two pieces of material to the homemaking classes to be used in any way that they wished. So, when the classes started making children's clothing, some of the girls decided to use Mrs. Bursley's material for two girls in grade school. The two selected were Trinidad Vellarreal and Esperanza Huizar, both in the 5th grade.

Peggy Cates, Virginia Hudgens, Judy Hollenbaugh, Joyce Latimer, Virginia Love, Barbara Goodwin and Virginia Williamson worked on this project as their time permitted, and when the dresses were finished, they were tried on the girls who looked very pretty in them. The homemaking students hope that these girls will enjoy wearing their dresses as much as they enjoyed making them.

The classes thank Mrs. Bursley for the material.

Jerry and Ronald were together Saturday and all day Sunday. This is getting to be a regular two-some.

We hear that Gayle was seen with a Q town boy Saturday and Sunday nights. It couldn't have been Billy Don Scott, could it, Gayle?

Hey, Carla! How does it feel to have two dates in one night? Shame on you.

Seen riding around Sunday afternoon were Mike - Judy and Bryant - Jo Carol.

Whose jacket is Virginia Williamson wearing? Good luck, gal!

A new steady in CHS—General Wheeler and Larry Hord. Good luck, kids!

What interests do Jimmy Mack and Ronnie have in Vernon? Could it be Vinell, boys? Jo Carol finally gave in and told her boy friends: R. H., Miles, Charlie, Bryant and Maurice.

Together Sunday afternoon were Gerald - Roxie and Bettie - David. Looks like this foursome is becoming quite regular.

It isn't every day that the clowns invade our fair city, but on Saturday, Bettie, Roxie, Kirk and R. H. enjoyed clowning as a part of the advertising for the senior work day.

Adelphian Club

January 7 marked the first meeting of the new year for the Adelphian Club with Miss Dorothy Erwin in charge of the business. Minutes were read by Mrs. Bert Ekern in the absence of Mrs. Jack Turner. Mrs. Henry Borchardt gave a financial report.

For the program, Miss Erwin gave a very interesting article entitled "Culture in Religion," written by Ina Corrine Graham. Culture is as differentiated in the many different countries as comparing Beethoven and boogie woogie, and we should have a greater understanding of the many different peoples," stated Miss Erwin. The highlight of the afternoon was Mrs. Fred Wehba, guest speaker who spoke of the culture, life and religion in her native land of Assyria. The culture of Assyria is closely associated with the church, who are descendants from Abraham and Jacob, and hold to Biblical traditions. Hospitality is taught and highly regarded in Assyria.

The club adjourned to meet on Jan. 21 with Mrs. Lewis Sloan and Mrs. Dwight Campbell as hostesses. Officers will be elected at that date also, and all members are urged to be present.

MRS. MARY D. BROWN

The Foard County Home Demonstration Council will have its first meeting of the year this Saturday, Jan. 17, at 2:30 p. m. in my office. At that time we will have presented all committee recommendations for 1959. Last year our council attendance fell off, so let's start out right this year and all try to come. I will be out of my office all next week Jan. 19-23, attending a workshop on lampshades and draperies in Vernon. However, I will be at home each night if you need to contact me for anything.

Cub Scout Den Meeting

Cub Scout Den II of Pack 49 held its regular meeting Wednesday, Jan. 7, at the home of the Den Mother, Mrs. Ray Shirley, with Mrs. Tom Ellis and Mrs. Chester Hord assisting. The meeting opened with the boys repeating the Cub Scout promise and singing "My Country 'Tis of Thee."

As the theme for January is "Cub Scout Newsmen," the Den visited the Foard County News office and watched the paper being printed. Then, they took a short tour of the historical items displayed in the court house.

For their activity period, the Cubs carved letters from potatoes, and did block printing with them. They were given patterns to make blackboards at home during the month.

The Den had perfect attendance with Joe Ray Burkett, Larry Ellis, Doyle Goodwin, Billy Hord, Bob Shirley, Randy Simmons and Dickie Statter present.

tion on Texas farms and ranches 24 per cent above last year, but is still below the 10 year annual average of 1,867,000 pigs. Fall farrowing, estimated at 127,000 sows, were 27 per cent above farrowing a year earlier. Fall litters average 7 pigs, which is a new record. Bulk of these fall pigs will reach slaughter weight during the spring of 1959.

Breeding intentions for 1959 spring farrowings in Texas point to a 40 per cent increase above the 1958 spring season. An unusually favorable ratio between grain costs and finished hog prices stimulated renewed interest in hog production. Bulk of this sharply increased spring farrowed pig crop will reach market weights during the fall of 1959.

Postmaster Spencer pointed out this information on prospective pork supplies was made possible by voluntary reports from farmers and ranchmen along mail routes served by J. W. Wright,

H. E. Thomson and C. S. Carpenter, combined with other reports from all parts of Texas and the nation.

The nation's 1958 pig crop totaled 94.8 million head—8 per cent larger than the 1957 crop of 88 million. Reports on breeding intentions indicate 8.3 million sows to farrow in the spring of 1959. This will be 12 per cent more than the number farrowed last spring, but only slightly larger than the 1947-56 average.

Business Begins with Public Permission

"All business in a democratic country begins with public permission and exists by public approval. If that is true, it follows that business should be cheerfully willing to tell the public what its policies are, what it is doing, and what it hopes to do."—Middlebury, Vermont, Addison County Independent.
