Savings Bonds Sales for County Total \$76,607 in 1959

George Self, chairman of Foard County's Savings Bonds Committee, reports that June bond sales in Texas were 11.4 per cent greater than May sales. Bond sales in Foard County totaled \$76,607 for the first half of 1959. This represents 63.3 per cent of the year's goal for the county.

Sales in Texas for the first half of 1959 were \$81,960,468 or 44.9 per cent of the year's goal of \$182.5 million.

"The fine sales increase shown in June points up the fact that thousands of Texans are interested in an investment where their principal and interest are fully guaranteed by the U. S. Treasury Department. I believe strongly in the bond slogan 'Part of Every American's Savings Belongs in Savings Bonds'", Mr. Self stated.

V. F. W. Auxiliary Sponsoring National-Wide Essay Contest

The opening of its 25th annual National High School Essay Contest was announced this week by the Ladies Auxiliary to the Veterans of Foreign Wars. The topic will be "Civil Defense—An American Tradition."

Students in all public, private and parochial high schools are eligible to enter the contest. National prizes are: first, \$1,000 cash; second, \$500; third, \$250; and fourth \$100; plus 20 cash honorable mention awards. In addition, the federal office of Civil and Defense Mobilization will award a \$100 U. S. Savings Bond to the first-place winner in each state. State and local contest winners also receive additional Auxiliary awards which vary with the community.

The essay contest was started by the VFW Auxiliary in 1935 to encourage young people to think and write on patriotic subjects. During the last school year, more than 35,000 students from all 50 states and the District of Columbia entered the national contest.

Further information on the 1959-60 contest may be obtained from local Auxiliary unit, or from the Essay Department, VFW Auxiliary, 416 West 34th St., Kansas City, 11, Mo.

Jim Riley Gafford Succumbs in Local Hospital Tuesday

Funeral Services Held at Crowell Methodist Church

Funeral services for Jim Riley Gafford, 41, World War II veteran, were held from the Crowell Methodist Church at 4 p. m. Wednesday, conducted by the pastor, Rev. Carl Hudson, assisted by Rev. Garner Berg, pastor of the Thalia Methodist Church.

Burial was in the Crowell Cemetery under the direction of Womack Funeral Home.

Mr. Gafford was admitted to the Foard County Hospital Tuesday morning and passed away about 5:30 that afternoon.

Pall bearers were Foster Davis, Guy Todd, A. B. Owens, Homer McBeath, L. A. Andrews, John Cogdell, Houston Adkins and Moody Bursley.

Assisting with flowers were Mrs. Milton Hunter, Mrs. Howard Bursley, Mrs. Guy Todd, Mrs. J. T. Brooks, Mrs. A. B. Owens, Mrs. Henry Borchardt, Mrs. Homer McBeath, Mrs. L. E. Painter, Mrs. Milburn Carroll, Mrs. Sherman McBeath, Mrs. Virgil Johnson, Mrs. Robert Hammonds, Mrs. Floyd Ferguson, Mrs. John Rader and Mrs. Alton Higginbotham.

Jim Riley Gafford was born Sept. 7, 1917, the son of Mrs. C. E. Gafford of Crowell and her late husband, Veteran of the Marine Corps in World War II, he was in the service four years, spending 26 months overseas. He fought with the Marine Corps on Guadalcanal and the Solomon Islands.

After being discharged from the service, he returned to Crowell and entered the trucking business. On July 22, 1957, he was married to Mrs. Juanita Long of Thalia.

Mr. Gafford graduated from Crowell High School with the class of 1935. He was a member of the Crowell Methodist Church. Having a jovial disposition and being always friendly, he had a great host of friends in this area.

Survivors include his wife and three stepdaughters, Mrs. Don Hatfield of Wichita Falls, and Jo Frances and Mary Bob Long, of the home; his mother, Mrs. Gafford of Crowell; three brothers, Bill, Otis and Ed, of Crowell; two sisters, Mrs. George Davis of Crowell and Mrs. Weldon Hammonds of Floydada; and a number of other relatives.

Rotary Club Meeting

Raymond Halenecak was welcomed into the Rotary Club at the Wednesday noon meeting of the club last week by Marion Crowell.

Program for the meeting was in charge of Glen Goodwin and was a highway safety talk by Lt. Jack Higginbotham, highway patrolman of Amarillo. He was accompanied to Crowell by Sgt. D. R. Dowdy, patrolman from Childress.

Miss Janis Crowell, a former pianist for the club, was a visitor at this meeting and served as pianist for the group singing.

Other visitors were Rotarians Walker Todd and Sam Breedlove of Quanah.

4-H Boys Attend District Camp at Buffalo Gap

Five Foard County 4-H boys attended District 4-H Camp at Buffalo Gap last week. Those attending the camp—Wednesday, Thursday and Friday—were Seth Halbert, Dan Mike Bird, Dallas Texas McCarty, Randy Adkins, and County Agent Joe Burkett.

The district is composed of 22 counties and 160 boys and their leaders were in attendance.

One of the highlights of the camp was a tour of Dyess Air Force Base, a Strategic Air Command base, near Abilene. In addition to this, they took part in study groups on safety, study groups on various phases of 4-H work, swimming, baseball, horse-shoe pitching and washer pitching.

The Foard County group was very active in that they were awarded seven ribbons as winners in the play-offs of the various recreational contests.

At night, the group was entertained by movies, demonstrations, and talks of interest to 4-H Clubbers. One of the highlights of the night meetings was a magician act put on by Rev. Porterfield of Anson.

New Game Area Once Historic Cattle Spread

When the Game and Fish Commission takes over some 28,000 acres of the old Matador ranch in Motley County for a wildlife management area, it will be part owner of one of the most historical ranching spots in the State.

The Matador ranch was put together in the late 1870's after a cowboy by the name of Henry Campbell sold a group of Chicago financiers on providing a huge spread of rich grassland for a ranch that would run thousands of head of cattle.

The Game Commission recently contracted for the purchase of 28,000 acres, plus for slightly more than \$700,000. It will be used as a game management area, primarily for turkeys and upland game. Since this area once supported a heavy buffalo population, there will be some deer stocked on the property.

"Negotiations have been in progress for some time," according to the executive secretary of the Game and Fish Commission, H. D. Dodgen. "When we get final possession of the property, extensive plans will be made to set up the management area."

This area is out of what is known as the East ranch, about six miles north and west of Paducah. It is well watered and good range land, with ideal habitat conditions for upland game, according to Mr. Dodgen.

American Business Faces Four Main Problems

J. E. Corlette, president of the Montana Power Company and the Edison Electric Institute, believes that American business faces four problems: industrial competition from foreign manufacturers; the federal government in business; totally or partially tax-free businesses; and the trend to have government do everything for the people, with resulting controls.

THREE NEW WILDCATS TO BE DRILLED IN COUNTY

Three new wildcats in Foard County have been staked this past week as follows:

E. B. Clark Drilling Company, et al., of Wichita Falls, will drill a 6,300-foot wildcat one mile north of Margaret and six miles northwest of the Thalia pool as the No. 1 Henry A. Faske, 660 feet from the

south and 2,090 feet from west lines of section 356, block A, H&TC survey.

Two more tests will be drilled in the vicinity of Shell Petroleum Co.'s No. 1 Chester Ford northwest of Crowell. They are: Shell Oil Company No. 1 Tom Bursley, 3 1/2 miles north northwest of Crowell, 467 feet from north and east lines, section 480, block A, H&TC survey.

Rig has been set up and drilling is now in progress on Shell Oil Company's No. 1 W. L. Pechacek, North Crowell, 487 feet from north line, 2173 feet from east line, section 505, block A, T&C survey.

Recent reports from the Magnolia Petroleum Co. No. 1 Tom Bursley is that they are still working with the well and hope to bring it in as a producer soon.

Revival in Progress at Foard City Methodist Church

A revival which began last Sunday at the Foard City Methodist Church will continue through this week with closing services on Sunday night, August 2.

Rev. Clarence Stephens, pastor of Highland Heights Methodist Church in Sweetwater, is doing the preaching for the services. Rev. Stephens is the father of the Foard City pastor, Rev. David Stephens. Services are held at 7 a. m. and 7:30 p. m. each day. Everyone is invited to attend the remaining services.

Sheriff Calls Attention of Stock Farmers to Proposed Regulations

Sheriff P. W. Taylor called the attention of Foard County stock farmers this week to a notice he has posted on the bulletin board in the court house.

It is the "Proposed regulations of the Livestock Sanitary Commission of Texas pertaining to inspection, treatment and vaccination of livestock at livestock market centers."

The regulations were approved by the Livestock Sanitary Commission of Texas on July 6. Following hearings, the regulations will then be either rejected or approved.

Sheriff Taylor advises Foard County stock farmers to read the proposed regulations and then notify the commission of their feelings toward either approval or rejection.

To Attend 1960 Jamboree

ROTARY AND FARMERS TIED IN LITTLE LEAGUE

Foard County Mill's Cardinals, cellar occupants of Little League play during the first half, hung a defeat on previously-undefeated Rotary's Braves on Tuesday night, July 21, thereby throwing Rotary and Farmers Elevator into a first place deadlock as of Sunday night, July 26. Farmers Elevator won both its games last week, and V. F. W. lost a pair.

In the "upset" game of July 21, Foard County Mill capitalized on wildness of Brave pitchers along with the four-for-four hitting of Ronnie Clifton, and with two hits each for Jackie Brown

and Randy Adkins, to score 13 runs, while Jackie Brown, Cardinal hurler, kept eight Brave hits fairly well scattered and held the Rotary aggregation to 10 runs. Jon Berg and Mike Gamble each hit safely twice for the Braves. This was the 8 p. m. game, and was one of the most exciting games of the season.

In the 6 p. m. contest, Farmers Elevator hit VFW quickly with the knockout punch of 21 runs in the first inning as 27 men batted in the wild first frame, and Lynn Myers hit a 3-run home run. Larry Henry hit a grand slam homer in the fourth, and Mike Leija hit safely three times, with Seth Halbert hitting two doubles in the first inning.

Thalia Cemetery Issues Plea for Funds

Mrs. Cap Adkins, president of the Thalia Cemetery Association, said Tuesday that the cemetery is in need of funds to help purchase a mower for the cemetery, and also needs funds to help pay the caretaker.

Mrs. Adkins said, "We also wish to ask those who work their own lots to please dispose of the waste that you cut or dig up. When you put it on the walks or on someone else's lots, it has to be carried off, or burned up by the caretaker before the mower can be used. So please dispose of the waste yourself."

SOIL SAMPLER—This picture shows Jack C. Williams, soil conservation expert of the Soil Conservation Service from Quanah, examining a one-inch core of undisturbed soil taken by the power soil sampler mounted in a Soil Conservation Service pickup truck. The soil sampler is being used in the Foard County survey which is being made in cooperation with the Lower Texas River Soil Conservation District.

SOIL SURVEY OF FOARD COUNTY NOW UNDERWAY

Foard County has been selected to complete soil survey by soil conservationists of the Soil Conservation Service, James Herring, who is in charge of the Crowell work unit of the SCS, said Monday. All of the farm and range land in the county will be surveyed by these technicians during the next two or three years. Work has already started in the wheat land around Crowell.

The soil survey will assist the agricultural agencies and farmers in planning and carrying out a better program for management of soil and water resources.

Jack C. Williams of Quanah and L. Dixon of Vernon are two soil scientists of the Soil Conservation Service now working in the survey.

The survey is being made in cooperation with all national and agricultural agencies. When the survey is completed, a report will be written describing the soils of the county. One section of the report will discuss management practices that have given favorable continuous yields while conserving the soil. Another section will describe expected yields of crops on different soils over a long period of time.

"Soil Survey Report of Foard County" will be published in bulletin form and copies will be available to anyone upon request.

FOARD COUNTY RECEIVES MORE RAIN THIS WEEK

Tropical storm Debra, which lashed Texas coast over the week end, was felt in Foard County Monday morning as the warm front moved north over the county and dropped a total of .7 inches of rain in Crowell. The county also received more moisture Wednesday night when .8 inch of rain fell in Crowell, and east of Crowell, over an inch fell, and over an inch reported in most other parts of the county.

Another heavy downpour Monday afternoon left about half an inch of rain, which fell in about 15 minutes.

This brings the total rainfall for the month of July to 3.70 inches. Four and one-fourth inches were recorded here in June. This brings the year's total to 13.83 inches, which is above the amount received during the first seven months of the average year here.

Mrs. W. O. Fish reported that the Vivian community received 2.45 inches early Thursday morning of last week.

The abundance of moisture received here this summer has been a great boon to the cotton and feed crops, which never looked more promising for a bumper crop. Most stock tanks are full, and pastures are covered with an abundance of grass and weeds, which in addition to being of benefit to stock farmers, will provide plenty of cover and feed for what local hunters hope will be another bumper quail crop.

Rains of the summer have also been felt in the sub-normal temperatures here this summer. The mercury has reached a high in the lower 90's on most days, with lows in the upper 60's and low 70's. Normally, during July, the temperature advances beyond the 100 mark nearly every day.

High and low temperatures for the past week follow: Thursday: high 93, low 66. Friday: high 94, low 70. Saturday: high 92, low 71. Sunday: high 89, low 68. Monday: high 86, low 69. Tuesday: high 91, low 71. Wednesday: high 94, low 73.

Three New Vehicles

Three new cars were registered here last week: July 20, Layton S. Mayes, 1959 Chevrolet 2-door; July 24, Clarence and Jimmie Bounds, 1959 Ford 4-door; July 24, Walter S. Bolibruch, 1959 Chevrolet 4-door.

Norman Robinson Humble is holding a "get acquainted day at the Humble Station" at the corner of First and Commercial next Saturday, August 1. Robinson is a new citizen in the community and is anxious to be acquainted with the people. This will be an all-day affair with balloons for the kids and favors for all who visit the station that day. An announcement ad appears on page 3 of this issue.

Thomas Jefferson is remembered as the author of the Declaration of Independence. However, the World Book Encyclopedia states that he was also the foremost American architect of his time, a translator of Greek plays, a pianist and the inventor of the dumbwaiter and the swivel chair.

STATE CAPITAL
Highlights
AND Sidelights
 by Vern Sanford
 TEXAS PRESS ASSOCIATION

Austin, Tex.—Tired reading of the Texas legislature?

Well—my friend—you're not alone. Seems like most everybody feels that way—including many members of the House and Senate.

Okay, then, for a little diversion let's look north and see what has been going on in our neighboring states.

Oklahoma's legislators also faced a financial crisis. How did they meet it? First, they cut some needless expenses, eliminated waste and duplication. Then they appropriated for 18 months instead of 24. But they did not increase any existing taxes. Fortunately for them, financially at least, Oklahoma voted in liquor and they now have some brand new tax income—or will very, very soon.

Oklahoma, it must be remembered, has a state income tax and an across-the-board two per cent sales tax—two things Texas doesn't have.

Putting the state in a better light, collection-wise, Oklahoma legislators swiped Uncle Sam's idea and added a state withholding tax. This to assure more collections from their income tax.

Six months of continuous session has just been ended in the Sooner state. Although their financial problems are solved for the next eighteen months, after that, a sizeable hike in taxes is expected.

Texas legislators have met almost continuously since January 13. They may even have to go into a fourth special session. But if they do, they will earn the wrath of the old folks whose pensions stop in mid-August unless a sizeable tax bill is enacted. There is no doubt about it in Texas, the people are disgusted. And the legislators are disturbed.

There is much talk that many parents, Mr. and Mrs. Dave Shultz, Kay Ann Taylor visited Teresa Wright of Thalia Sunday.

Rev. Gerhard Weise of Lockett visited Mr. and Mrs. Herman Schwarz and Joan Tuesday.

Mr. and Mrs. J. Q. Simmonds of Vernon visited Mr. and Mrs. R. G. Whitten Sunday.

Mr. and Mrs. Vernon Morton and son of Amarillo spent the week end with their parents, Mr. and Mrs. Alton Farrar, Weldon and Terry Farrar, who had been visiting their sister the past two weeks, returned to their home here.

Mrs. Johnnie Matus and children visited Mrs. Bert Cerveny and family of Vernon Thursday afternoon.

Mr. and Mrs. Floyd Bice of Vernon visited his parents, Mr. and Mrs. Henry Bice, Sunday night.

Mrs. Roy Ayers has been visiting her mother, Mrs. George Kampen, of Houston in Dr. Brown's hospital in Vernon.

Jimmy Moore of Vernon spent from Thursday until Saturday with Arlon Moore.

Mr. and Mrs. G. W. Lynn and granddaughter of Odell spent Sunday with her sister, Mrs. Herman Schwarz, and family.

Michael Lester of Iowa Park is visiting his aunt and family, Mr. and Mrs. Alton Farrar.

Bonnie Lou Kidwell is spending the week with her aunt, Mrs. Seth Boyd, and Mr. Boyd of Northside.

Mr. and Mrs. G. W. Scales of Vernon visited Mr. and Mrs. Ignac Zacek Sunday afternoon.

Mr. and Mrs. Raymond Skelton and family of Olton visited his sister, Mrs. R. N. Swan, and family Wednesday night.

Mrs. John S. Ray and mother visited Mr. and Mrs. Grady Halbert and family of Foard City Wednesday.

Mr. and Mrs. S. B. Farrar and family spent Sunday with his cousin, Frank Farrar, and family of Olton. They were accompanied by Mrs. Farrar's parents, Mr. and Mrs. Buck Hudgens of Vernon, who visited Mr. Hudgens' brother, Jim Hudgens, and wife of Olton.

Mrs. Ewald Schroeder has received word that her sister and husband, Mr. and Mrs. Max Reinsch, of Galveston are unharmed after being in the storm Debra.

Mrs. Floyd Ferguson of Crowell visited her parents, Mr. and Mrs. L. Kempf, and family Friday afternoon.

Mr. and Mrs. Clifton Skelton of Dallas and his mother, Mrs. G. H. Skelton of Vernon visited their sister and daughter, Mrs. R. N. Swan, and family Friday.

Mr. and Mrs. Henry Bice and grandson spent from Wednesday until Sunday visiting her sisters, Mrs. J. H. Bice and family and Mrs. C. J. Mallard and family of Palestine and the Bice's daughter, Mrs. Bud Showers, and family of Dallas.

Arle Cato of Fort Worth visited Mr. and Mrs. R. G. Whitten Saturday afternoon.

Mr. and Mrs. Monroe Karcher were visitors in Duke and Altus, Okla., Sunday.

Roy Martin Shultz of Thalia spent Saturday night with Billy Doyle Shultz.

Big Bird Crop Now Indicated for Fall Hunt

Right now conditions are favorable for a top bird season for fall, according to W. J. Cuthbert, assistant secretary of the Game and Fish Commission.

At its last meeting, the Commission also made available to breeders, on condition of authorizing the sale of brood quail at \$3 per pair to be used to raise quail for lease only. Such broodstock not be available until next fall.

Birds for stocking farms and ranches also are available to owners at 50 cents each. Landowners desiring birds for stocking purposes should contact their game warden for further information.

The Commission also has leased 300 gray Francolin quail from New Delhi, India, to this country through cooperation with the U. S. Fish and Wildlife Service.

"Conditions are excellent now in the field," the assistant secretary said. "We've had moisture recently that weeds are coming along fine for cover and feed. If nests are destroyed by flood waters, they should be very plentiful."

Chamber music refers to particularly designed for performance in a room or small hall only a few musicians.

Mr. and Mrs. Ed Cox of Iowa Park spent Monday night visiting her sister, Mrs. Florence Good.

Rev. Homer Stephens, pastor of the Truscott Baptist Church, has announced there will be a revival beginning Aug. 30 and running through Sept. 6. Rev. Percy Cox of Fort Worth will hold the meeting.

Occupancy of the first of these buildings to be completed has just been made by the Texas Employment Commission. Its six hundred employees now are housed in the \$2,400,000 structure.

A total of 11,000 pieces of office equipment were moved out of eleven downtown Austin locations into the new six-story building.

TEC began some 24 years ago with a staff of 25 employees in the state headquarters and 50 local offices. Now employed are 2,300 persons, with 93 local offices throughout the state.

GOVERNOR SIGNS BILLS — A bill by state Senator Bill Fly extending the time for removal of the offices of the State Board of Insurance from the International Life Building in Austin has been signed by Gov. Price Daniel.

The Commission rents some ten floors of the building. However, the rent is paid by the various insurance companies in Texas.

Earlier, Senator Fly secured passage of a bill calling for the removal of the Insurance Commission from that building and the construction of its own office headquarters. Work has not yet been begun on the new building.

Other bills signed by Governor Daniel include one by Sen. Hubert Hudson, authorizing certain water districts to waive immunity from liability for negligence of its agents; a bill by Sen. Charles Henry relating to monies appropriated to the State Board of Barber Examiners; and two bills dealing with hunting and fishing. One, by Rep. Sam Parsons, would authorize the Game and Fish Commission to allow fishing and hunting of migratory waterfowl on lakes and rivers located upon a common boundary with other states. The other, by Rep. Zeke Zbrank, related to the catching of catfish from the Trinity River.

LONG INVITE POCKETED—A second attempt to get legislative approval of an invitation to Gov. Earl Long of Louisiana to address the Texas legislature has failed. The latest effort, by Rep. Bill Jones of Dallas, drew little support.

Jones said that his invitation was a matter of "common courtesy" to the governor, who had expressed a willingness to address the Texas legislature when he came through the state recently.

TRINITY PROJECT PRESENT.—An application from the Trinity River Authority to "appropriate" \$40,700 acre feet of water per year from the Trinity River and to store 1,579,000 acre feet, or nearly a two-year supply, has been received by the State Board of Water Engineers.

Hearing has been set for Monday, August 31.

The Trinity River Authority proposes to build a dam six miles southwest of Livingston in Polk County.

Its request calls for 95,200 acre feet of storage devoted to municipal use; 672,600 acre feet for industrial use; and 72,900 acre feet for irrigation purposes.

Bird Crop Indicated Fall Hunt
 Now conditions are favorable for a top bird season, according to W. J. Cuthbert, secretary of the Texas Commission.
 At its last meeting, the Commission also made a resolution available to the public. A resolution was passed at the sale of quail at \$3 per pair and on condition of used to raise quail for only. Such broodstock available until next fall for stocking farms also are available to the public at 50 cents each. Land-sirring birds for stock should contact their varden for further information.
 Commission also has 300 gray Francolin from New Delhi, India. The birds were brought to the country through the U. S. Fish & Wildlife Service.
 Conditions are excellent in the field," the warden said. "We had a very recent crop of quail along fine for and feed. If nests are destroyed by flood waters, they are very plentiful."

Taxco, Mexico—We all like vacations, and for mine you can't beat the land of tortillas, frioles, siestas, fiestas and beautiful senioritas South of the Border.
 At this time of the year Mexico is literally in full bloom. The bougainvillea and the poinsettias display their beauty everywhere you look. Life moves at a leisurely pace in gaily bedecked land.
 Down here the natives call this the "rainy season." That means a thirty or forty minute shower about mid-afternoon every day, then clear skies and a freshness that smells as if the heavens had just given the earth a bath.
 There is both a touch of the "old world" in Mexico and a beginning of the new world of business, science and industry. Its people are gracious and friendly. Their hospitality is warm and sincere.
The Best Time to Go
 Ask George Billingsly, hospitable, goateed manager of Taxco's Hotel de la Borda, when the best time is to visit Mexico, and he'll tell you "Anytime is a good time, but I think I'd pick November if I had to make a choice."
 In the fall the rains have ceased and the vegetation is lush. All of Mexico becomes a tropical wonderland of green valleys presided over by snow-capped mountains.
 The hotel here is as interesting, historically, as it is comfortable with modern conveniences and excellent food. It is located on top of a hill from which more silver has been taken than from any other mine in the world. It overlooks the city of Taxco, 190 miles southwest of Mexico City.
 Jose de la Borda was a Frenchman who discovered the rich silver lode more than 200 years ago. It has been mined continually since then. Nobody knows how many millions of pesos worth of silver has been taken from the mine.
Silver City
 Taxco (pronounced Tasco) is in many ways a silver city. Silver built its lovely red-tile roofed homes and the gold and silver decorated Santa Prisco church, one of the most magnificent in all of Mexico.
 Silver not only is mined here, but is refined and formed into beautiful jewelry by some of the finest silversmiths in the world. Their craftsmanship attracts tourists and other buyers from many nations.
 If you like to just "browse," there are more than 100 shops that sell nothing but silver jewelry and ornaments. Prices are a fraction of what you'd pay in the States. You are in a bargain hunter's paradise.
 But if, like us, you just want to rest, relax and enjoy life, Taxco comes as close as anything we've found to being the ideal spot.
 Many have failing eyesight, deafness, stiffening of the joints and muscles, diminished sense of smell and other physical failings.
 Man's deeds attract more attention than his creeds.

Miss Betty Louise McKown and Harry M. Cooper III Wed

Miss Betty Louise McKown and Harry M. Cooper III, both of Fort Worth, were married at 8 p. m. Saturday in the First Presbyterian Church in Fort Worth by Rev. Dan Goldsmith.

The bride is the daughter of Mrs. Fern McKown and the late Ralph McKown of Crowell, and the bridegroom's parents are Mr. and Mrs. Harry M. Cooper Jr. of Baghdad, Iraq.

Miss Shirley Fox of Crowell attended the bride, and Roy Scott was best man. Julian McCurtain and Wes Madsen were ushers.

The bride was escorted by her uncle, Otis L. Nicholson. She wore a ballerina-length gown fashioned of Chantilly lace and antique taffeta. The long torso bodice of lace featured a high neckline and short shirred sleeves. She carried a white orchid atop a white Bible and wore an heirloom cameo brooch and pearl earrings.

A reception was given at the home of Mr. and Mrs. R. H. Dana.

For a trip, the bride wore a blue linen sheath with white accessories. The couple will reside at 5436 Wedgmont Circle N in Fort Worth. The bride is a member of Alpha Iota.

Guests from out of town included the bride's mother; Mr. and Mrs. L. V. Russell of Hattiesburg, Miss., and Miss Shirley Fox of Crowell.

Reception Sunday Afternoon Honors Mrs. C. W. Thompson

A reception which reflected the high esteem, love and friendship which Mrs. C. W. Thompson holds in the hearts of Crowell and Foard County residents, was held in the basement auditorium of the Methodist Church Sunday afternoon between the hours of 3 and 5 with the officers of the Woman's Society of Christian Service serving as hostesses. Mrs. Thompson plans to move to Abilene in the near future.

Mrs. J. A. Bell, president of the W. S. C. S., greeted the guests and presented them to a receiving line composed of Mrs. Thompson, the honor guest; Mrs. Crockett Fox of Abilene, her daughter; Mrs. T. B. Klepper, her cousin; and Misses Lauri Fox of Abilene and Cathy Thompson of Iraan, little granddaughters of the honoree.

Mrs. Grover Cole, social service chairman of the society, directed guests to the register, where Mrs. R. J. Thomas, chairman of supplies for the organization, received their signatures. They then went to the dining table where a number of the officers alternated in serving punch, cookies, mints and nuts. Guests were seated for a conversation period.

A lovely arrangement of shasta daisies centered the table which was laid with a pink cloth. Pink napkins were used.

Incidental piano music was provided during the first hour by Mrs. Paul Shirley and during the second hour by Mrs. Allen Sanders.

In the News . . . 30 YEARS AGO

News items below were taken from the Friday, August 2, 1920, issue of The Foard County News:

Will Rogers, Jim Minnick and Big Boy Williams, Hollywood movie star, will play with the Uplifters Blue polo team in Los Angeles Sunday afternoon.

Morris Taylor Johnson was in a Vernon hospital several days last week suffering from blood poisoning in his leg.

Mrs. W. R. Ferguson had her tonsils removed one day last week.

Elbert Scales and wife of Crowell visited Wallace Scales and family of West Layland Wednesday night.

Jimmy Minnick Jr., who lives on his father's ranch near Foard City, has been awarded the first \$25.00 reward since the inauguration of the auto-theft column.

The new combination Victor radio and phonograph received by Womack Brothers last week has attracted considerable attention.

Herbert Edwards left Wednesday night for St. Louis where he will remain for two weeks buying merchandise for R. B. Edwards & Co.

Mr. and Mrs. S. S. Bell and son, Arthur, made a trip to Carlsbad, N. M., last week.

J. R. Beverly and Marion Hughston returned Saturday night from a trip to Big Spring.

Allen Fish went to Oklahoma City Wednesday with a load of cattle.

Irving Fisch made a business trip to Frederick, Okla., Saturday. His father is putting in a dry goods store there.

John Hugh Banister has returned home from Bellevue where he has been conducting a meeting.

Mack Edens purchased a Chevrolet coupe Tuesday.

Farmers Co-Operative Society of Crowell will operate two gigs this season.

A rig is now being moved from the tracks at Margaret for the oil test that is to begin on the farm of Mrs. Valeria Owens.

The Humble Co. is shutting off sulphur water at 3,850 feet in its No. 1 L. K. Johnson which is located 16 miles west of Crowell.

It is expected that the Fain-McGaha & Shell Petroleum Company's No. 1 T. A. Johnson which offsets Shell's Tarver No. 1, will be brought in as an oil well Friday morning.

The City Council has agreed to pay 10 per cent on paving the street from the square north to the Christian Church.

Jimmy Cotten, former resident of this city and lately a resident of Harlingen, has returned to Crowell and is now associated with Leo Spencer in the insurance business.

W. W. Griffith says that he will begin installing new furniture in his hotel Friday.

Foard County Little League News

by Marion Crowell, President

As this column is being written, two weeks of play remain in our local Little League. Don't you wonder how strong we are in comparison with other leagues? This writer has an opinion on the matter. He saw the final game at Munday last Saturday night as the Haskell All-Stars won over Sheppard Field 4-3 in a corker of an 8-inning game. Although he readily admits being prejudiced, this writer thinks: OUR KIDS COULD TAKE EITHER TEAM! It's just a shame, especially, that a pitcher of the calibre of Barry Berg couldn't be pitching in a Little League play-off.

If you missed the exhibition put on last week between games by our own "pee-wees," you really missed a good show. Man, the enthusiasm of these little guys! Perhaps by the time you read this, we will have shown them off for the second time between games.

Attention, mothers of Little Leaguers! We want each and every one of you in the bleacher section next Tuesday night, in a group. Each one of you will wear a big card with the number (or numbers) of your son (or sons), and you'll be introduced when your son goes to bat. Help us get the word around to all the mothers. This is one night when we shouldn't lack for enthusiasm!

The Munday Little League field is a beauty. The entire field (except for the base paths) is solid grass. It has SIXTY lights, six on each of six poles, twelve each on the other two. Truly this field, in case we ever get self-satisfied with our field, gives us something to "shoot for!" . . . Sheppard Field has a long, tall pitcher, about two inches taller than Ken Ferguson, and with the co-ordination of a grown man . . . and he could throw hard, hard . . . but, with a man on third, he cut loose with a wild pitch, and his ball game was lost. (He had previously hit a home run with two men on base for all his team's scoring.) The first Haskell catcher had a weak arm . . . couldn't peg second . . . so Sheppard ran and ran . . . until Haskell replaced the catcher with a stronger-armed one . . . the Haskell pitcher (who pitched the final six innings) reminded me somewhat of Barry Berg . . . maybe not quite so fast and certainly not with Barry's control . . . yes, I still think: our kids could have taken 'em!

Khrushchev Imprudent Man

Max Accoli writes in The Reporter: "Perhaps Khrushchev, by raising the issue of Berlin and of Germany, thought that the time had come to cash in on a superiority in missiles and similar weapons that, in the years ahead, may make Russia stronger than we. If this is so, he has proved to be a singularly imprudent man. For the two major powers still have, and are likely to maintain for quite some time, a capacity for reciprocal obliteration. The greater the destructiveness of the new weapons, the less their usefulness as a threat. Between powers that communicate with each other by attrition-diplomacy, aggressiveness never pays. When the means of warfare are of immeasurable and universal destructiveness, ultimate can serve no purpose."

Mr. and Mrs. Fred Collins and daughter, Betty, went to Novice Sunday for their daughter and sister, Margaret, who had spent the week there visiting relatives.

News From the Congress

by Frank Ikard, 13th Dis.

Currently there is much speculation about when Congress will adjourn. It is hoped that adjournment will come not later than August 15th; however, it is entirely possible that Congress might be held over until Labor Day if it develops that agreement cannot be reached on a labor reform bill. Like most other members of Congress, I am most anxious to get through here in order to be able to spend some time at home.

Next year, 1960, the Federal government, as is required by law, will be conducting the census. While it seems that there is much foolish information compiled in the process of taking the census, the information gained is actually used more by the business community and individuals and by state and local governments than it is by the Federal government. Many decisions with reference to the location of utilities, roads, schools, hospitals, water supplies, and other phases of private and local planning are tied closely to the numbers and types of people in a particular area and the rate at which a given city or town is changing in size. Census information is used in the establishment of new industries, new retail outlets, and nationwide as well as local sales efforts.

Not the least important is the way the census figures will affect our government, for a re-apportionment of the Representatives in the House will be determined in the distribution of the population in keeping with the Constitution, and the figures will have a similar effect on the Legislatures of all the states. Before April 1 of next year, every householder will receive a census form which he or she will be asked to complete and hold until the door-to-door enumerator calls for it. This is the basis of the count of the population. Even though questions asked may seem personal and sometimes exasperating, most of the information is necessary to get a true picture of what the United States in 1960 will be like.

Gary Eddy spent four days last week in Abilene visiting Mr. and Mrs. Larry Dan Campbell, and daughter, Cathy.

It was the tiny town of Chireno where oil was first discovered in Texas.

American Institution

"The weekly newspaper is truly an American institution, where else in the world would you find a system of journalism where near the completeness of the American weekly newspaper. Nowhere else in the world would you find a newspaper primarily interested in the lives of its readers, the trivia of events that make the life of all of us."

"Many have said over the years that the weekly newspaper is disappearing because it is totally unnecessary. They have been wrong. The weekly has become stronger and has become more firmly entrenched in the American way of life. . . . Somerset, Ky., Journal."

Miss Mary Sam Crews of Abilene is visiting her parents, and Mrs. S. T. Crews, Mrs. Crews and daughter, Mary Margaret, have returned to home in East Columbia.

Wash & Josh

were fightin' again this morning. It all started with an argument over which month had the most rainfall last year.

Now fightin' never settled much of anything. Of course Wash & Josh didn't damage each other much but they sure wasted a lot of energy.

All this could have been avoided if Wash & Josh had just looked in the local newspaper's files.

Greenbelt Bowl Players to Report Monday, Aug. 10

All players of the Greenbelt Bowl football teams will report to Childress on Monday morning, August 10. Players will meet their coaches, draw their equipment, and hold their first practice session during the afternoon. At 5 p. m., group pictures will be made of each team.

Dr. Bob Jones, game chairman, has asked each player to nominate a candidate for the Greenbelt queen. Three judges will select the 1959 queen from the nominees. These judges will not reveal their identity, but will talk with the girls and will observe their activities during the three days that they are in Childress.

The players and their nominees and parents will be invited to an old-fashioned picnic on Thursday night, Aug. 13, in Childress city park. At that time all queen nominees will be introduced and the public will be invited to the ceremonies.

All towns are invited to participate in the parade with sheriff's possees or other types of parade units. Towns that have candidate queens are invited to enter a float for their queen or provide a convertible with town signs or decorations. The parade will start immediately after the arrival of the special train from the Dallas-Fort Worth area.

Senator Moffett Says He Favors Natural Gas Tax

The News has received a further statement about taxation from Senator George Moffett, as follows: "The proposed severance beneficiary tax on natural gas pipelines has attracted widespread interest. I am often asked about my attitude concerning it," states Senator Moffett.

"When the tax bill first came before the Senate some time ago, it contained an increase in the present production tax on gas at the mouth of the well, for which I voted. An amendment was offered to add a pipeline severance beneficiary tax to the bill. I voted for the amendment. It failed of adoption by a vote of 11 for and 19 against.

"This same severance beneficiary gas pipeline tax will be before the Senate again at this session, and I fully expect to vote for it. I firmly believe enough votes will be added to the 11 of us who voted for it before so that it will become a part of the new tax bill. I hope so."

Soil Conservation District to Be Honored with New Stamp

Cooperators of the Lower Pease River Soil Conservation District are among those honored by issuance of the world's first soil conservation stamp.

The new stamp, to be issued on August 26 at Rapid City, S. D., is "a tribute to the nation's conservation farmers and ranchers including the cooperators of the Lower Pease River Soil Conservation District, which has been operating since Dec. 18, 1944," Grady Halbert, member of the board of supervisors said Tuesday.

"The 4-cent stamp is in recognition of the farmers and ranchers who are demonstrating good soil stewardship," Halbert said. "It is a salute to their soil conservation districts, and to the professional workers of state and federal government who help them."

Halbert said local observance of the issuance of the soil conservation stamp is being planned.

Fish Hatchery, Like Farmer, Faces Hazards

Hatching and raising fish for stocking is similar to planting and raising farm products for the market, according to Joe Marks, director of Engineering, Texas Game and Fish Commission.

"Some years we raise large quantities of fish, and others we don't do so well," said the director. "It all depends on the weather, insects, disease, and other factors nearly like those facing the farmer each year."

Various types of insects attack the eggs during spawning, many destroy fry before they can grow, and others cause diseases later after the fish are old enough for stocking.

When insects appear in destructive numbers, fish hatchery attendants treat the water with a mixture of gasoline, kerosene, and oil, which forms a surface coating. The attacking insects require oxygen. When they surface, the mixture enters their respiratory system and kills them.

Weather also can be very destructive to fish hatching. When the water temperature gets too low, the male parent sometimes leaves the nest. Since he is needed to protect and fan the eggs his departure means a loss of eggs. Of course, if the water gets too low, the eggs will freeze.

Moffett Issues Statement on Legislature

The News has received the following statement from Senator George Moffett, who represents the 23rd Senatorial District in the State Senate at Austin, of which this county is a part:

"I frequently receive inquiries concerning my attitude on the various proposals to raise revenue to wipe out the State's deficit and provide necessary funds to operate the State government for the next two years," stated Senator Moffett.

"I have voted five times for a complete bill which would provide the revenue to meet the State's obligations which are authorized by law. Among other things, I have voted for an increase in the taxation on cigarettes, whiskey, wine and beer. I have voted five times for an increase in the tax on natural gas, including the so-called 'severance beneficiary' natural gas tax.

"Those persons who have served on school boards, church boards, city councils and other public agencies can realize full well how difficult it would be to get a much larger group, such as the 181 members of the Legislature, to agree on a public question, and particularly a tax bill. I have voted for every reasonable proposal that has been placed before us. I hope an agreement can be reached soon. I want to get back home."

DEADLINE FOR LABOR RACKET REFORM

by Vant Neff

Let's face it. We have been delivered into the hands of the labor bosses. The high command of organized labor is - next to the U.S. Government itself - the most powerful force in America. Did we say "next to the Government?" It may be that the union bosses are the strongest force. Surely nothing now stands between them and absolute power but the 86th Congress. With only a short time left until Congress recesses, the question is: will Congress stop this abuse of power before it's too late?

The union power grab is only too obvious. Take, for instance, the Teamsters official who was quoted in the McClellan Committee hearings. This official admitted that what he was doing was against the law. But he boasted, "you could go to the Department of Justice and you can go to the Los Angeles Sheriff's Department, and it won't do you any good. The union has plenty of money and we would fight it."

You can see the results. Day after day the long parade of fearful men pass before the McClellan Committee... men who dare not sleep without shotguns by their bedsides... men who have seen others "purged" because they did not cooperate quickly enough to suit union gangsters... men who risk their very lives by coming before the Committee in the first place. All this is happening right here in America!

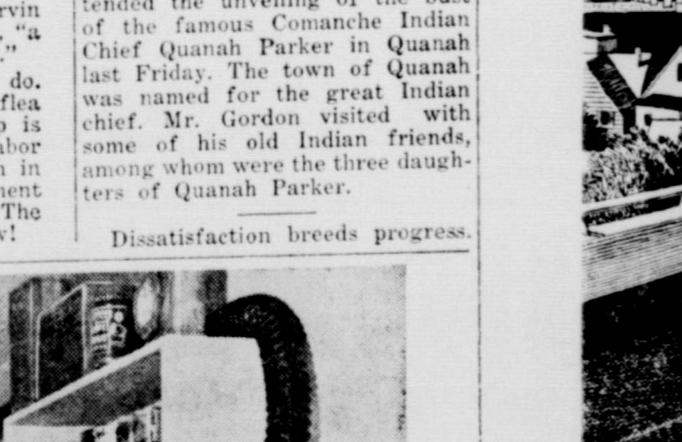

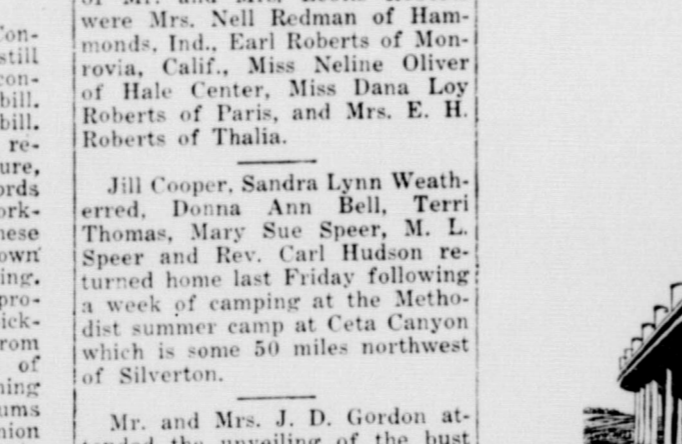

The danger sign is up. "If we cannot get effective legislation now," warned Senator McClellan, "God help the country!"

Yes, it's up to the 86th Congress. Fortunately, there is still time. The House is now considering the Kennedy-Ervin bill. It's called a "labor-reform" bill. But it is actually a labor reform bill in name only. Sure, it contains some nice words about the basic rights of working men and women. But these provisions are so watered down that they mean next to nothing. Kennedy-Ervin offers no protection against blackmail picketing... no protection from secondary boycotts. Worst of all, it does absolutely nothing about the thugs and hoodlums who have muscled in on union leadership. The Kennedy-Ervin bill is, as one Senator said, "a flea bite to a bull elephant."

And a "flea bite" won't do. The country is fed up with flea bites where a bulldog grip is needed. We must have a labor reform law with real teeth in it. The deadline is adjournment day for the 86th Congress. The time to enact a law is now!

FALL-OUT SHELTERS

FALL-OUT SHELTERS are the best way for rural Americans to protect themselves from a massive nuclear attack which could unleash dangerous radioactive fallout throughout the country. Some of the shelters recommended by the Office of Civil and Defense Mobilization are not as elaborate as this one, which includes an auxiliary generator and an electric air filtering and ventilating system. However, all recommended shelters should include the basic features shown here—a place to sleep; food, water and medical supplies, and at least eight inches of concrete or an equal weight of other materials for shielding the shelter against fallout.
