LAND JUDGING TEAM AT NATIONAL CONTEST

Foard County's 4-H land judging team is one of five Texas 4-H teams which will compete in the 9th annual National Land Judging Contest which will be held in Oklahoma City April 28-29 at the new State Fairgrounds.

The team, composed of Bob Borchardt, Jerry Settiff, Don Welch and Bennie Hopkins, left Crowell Wednesday for Oklahoma City and was accompanied by Joe Burkett, Foard County Agent, under whose direction the team has won many honors during the past two years.

Selection of the five teams to represent Texas at the national meet each year is made at Texas A&M College.

The Crowell team, which participated in the Lower Pease River

Soil Conservation District contest earlier in the year, won the district title the past two years, placed in the state's top ten teams in 1958, and in the top five in 1959.

Burkett said that he, along with members of the team, wished to thank the Lower Pease River SCD board of supervisors for all the help, encouragement and cooperation given them. He also said they owed thanks to Marvin Myers, vocational agriculture teacher of Crowell High School, and staffs of the Soil Conservation Service offices in Quanah and Crowell for assistance in coaching and instructing the team.

The Lower Pease River Soil Conservation District is sponsoring the Crowell team's trip to Oklahoma City and paying all their expenses during their four-day stay in that city.

Soil Conservation Service technicians, headed by Bomer Harris and James Herring, work unit conservationists at Quanah and Crowell, respectively, have assisted in instructing 4-H and FFA land judging teams of the two counties for the past several years.

The tour will start at the administration building which is in the center of the grounds.

Eldon Shoemaker, business manager of the Vernon hospital—which is a branch of the Wichita Falls State Hospital—says that the hospital has a capacity of 448 patients and is full most of the time. Eighty-four people are employed at the hospital, with an \$18,000 per month payroll.

Those under 15 years of age will not be permitted to take the tour, Mr. Shoemaker stated.

Proposals Unreal

England's Manchester Guardian says "Only a screwdriver can detect an atomic bomb concealed in a crate, and only a million screwdrivers wielded by an army of men could ever make sure that a country even as small as Britain had dismantled its nuclear weapons. This is what makes the disarmament proposals at Geneva seem unreal. The disconcerting impression is left—equally by the Russian and the Western proposals—that both sides continue to stage an elaborately false play. Each wants to pretend before world opinion that it is doing everything possible to secure disarmament. Neither believes that it can really be brought about."

Things That Will Destroy America

The late President Theodore Roosevelt once said: "Americanism means the virtues of courage, honesty, justice, truth, sincerity and hardihood—the virtues that made America. The things that will destroy America are prosperity-at-any-price, safety-first, instead of duty-first, the love of soft living and the get-rich-quick theory of life." And former President Hoover says: "We are in the midst of an increasing moral slump, as witnessed the increase in major known crimes."

The Crowell High

WILDCAT

Editorial—

I Wonder . . .

It is natural for people to be curious. Strange noises, colors, and events make us want to know the reasons behind them, and we can't bear to be left "in the dark" about matters that arouse our curiosity.

What we're asking is this: Is there a right and wrong way to be curious? Is there an intellectual type of curiosity? What difference would the type of curiosity make?

There are different types of curiosity. A good curiosity causes us to seek new things and to advance continually with new ideas and ideals.

Without this type of curiosity, one would be at a "standstill" as a person or a nation. Yet, curiosity can be misused when directed toward selfish ends, such as prying into one's personal matters which are no concern of ours. Thus, we must regulate our curiosity so that it will be a creative outgoing to right rather than to wrong.—Jo Frances Long.

It is natural and healthy to be curious, but we must learn not to overdo curiosity. Curiosity about matters that concern and advance us is definitely good; however, curiosity about other people's affairs stops being curiosity and starts being intrusion.—Monte Churchill.

Juniors Honor Seniors

The annual Junior-Senior banquet was held Thursday, April 14, at 8 p. m. in the school cafeteria. The juniors and seniors were greeted at the door by "native" girls dressed in saris. Each guest was decorated with a lei and an Hawaiian greeting of "aloha." The theme of the banquet was, of course, Hawaiian and the decorations included sea shells, palm trees, and a beach scene. Bill Graves gave the invocation. Junior class president, Margaret Faske, gave the welcome; senior

class president, Tom Crowell, gave the senior response. Miss Ann Brooks of Quanah sang "My Isle of Golden Dreams." Dutch's Cafe of Quanah served the delicious meal. After the meal, Kay Johnson read the junior prophecy; Loy Hopkins read the senior will. The two classes sang "Auld Lang Syne," and Don Welch gave the benediction.

The banquet was lovely and impressive, and the senior class wishes to thank the junior class for presenting this long-awaited occasion.

After the banquet, the tables were removed and the floor was cleared for the prom. A band composed of high school band directors from the vicinity supplied the music for the prom which was indeed as lovely and successful as the banquet—it provided the perfect close to a wonderful evening.

New Cheerleaders Are Elected

The annual elections for the girls who will represent CHS as cheerleaders next year was held last Wednesday. Each girl led first the candidates and then the student body in the yell of her choice. The student body voted on two girls from each of next year's senior and junior classes, and one each from next year's sophomore and freshman classes; the senior girl who received the most votes automatically became head cheerleader. The candidates had been previously screened and approved by the teachers and school officials; so each girl was qualified to represent CHS. Those selected are as follows: head cheerleader, Marge Rasberry; second senior, Carole Bell; juniors, Alta Bartley and Carria Driver; sophomore, Elly Wehba; freshman, Barbara Bell.

The Wildcats want to congratulate all of these girls and to wish them the best of luck during next year's sports season.

Miss Virginia Rae Raspberry and J. M. Cates Wed Last Friday

The home of Mr. and Mrs. R. G. Raspberry was the scene of the wedding last Friday evening of Miss Virginia Rae Raspberry and J. M. Cates Jr.

The ceremony was conducted by Rev. Glenn Willson, pastor of the First Baptist Church of this city. Parents of the couple are Mr. and Mrs. Ramon Raspberry and Mrs. Lillian Cates, all of Crowell.

Mrs. Jerry Young of Vernon provided nuptial music including the traditional wedding marches. The nuptial space featured the fireplace, flanked on either side by a pedestal basket of white gladioli and a seven-branched candleabra decorated with greenery and a white satin bow.

Given in marriage by her father, the bride was attired in a ballerina-length gown of white embroidered organdy over taffeta, fashioned with a scalloped neckline, long petal point sleeves, fitted bodice and bouffant skirt. Her tulle veil was held in place by

a crown of tulle petals. She carried white gardenias surrounded by white split carnations and stephanotis.

Miss Janet Ann Raspberry, sister of the bride, was her only attendant. She wore a ballerina-length dress of mint green embroidered organdy over taffeta designed with a round neckline, fitted bodice and bouffant skirt. Her headband was of white lace and she wore short white gloves. She carried a nosegay of mint green split carnations surrounded by white net.

Ivan Cates, brother of the groom, served as best man. Ushers were Duane Johnson and Don Tole. They also served as candlelighters.

Reception

Mr. and Mrs. Ramon Raspberry, parents of the bride, were hosts following the wedding at a reception at the R. G. Raspberry home. The bride's table featured a white linen cloth. A circle of smilax entwined with white stephanotis edged the table. The bride's and bridesmaid's bouquets added color to the arrangement.

Home Demonstration Notes

VIRGINIA JACKSON

Today's Home Builds Tomorrow's World is the theme for the week of National Home Demonstration observance which begins May 1 and runs through May 7.

Last year, home demonstration clubs offered more than 30,000 homemakers in Texas opportunities to learn and use information to improve their home and strengthen their family life. Today's home demonstration program takes into account that today's homemaker—and her family—face increasingly complex adjustments to the world around them. Fast-changing living patterns, family roles, and family relationships in the home and community are broadening the number and scope of problems confronting families.

The seven clubs of Foard County invite you to visit one of their clubs and learn about home demonstration work.

OVER BACK-COUNTRY ROADS AT 45 WITH A SKY-HIGH LOAD OF TIMBER

Chevy middleweight shows the big rigs how it's done!

That's a 6303 medium-duty Chevrolet powered by a 283-cu.-in. V8. But there's sure nothing medium-duty about the load. Mr. J. E. Blankinship, Arkansas logging contractor, says both of his torsion-spring 6303's "move along at 40 to 50 miles per hour with 55,000 pounds gross weight and maintain a 5-trip-a-day schedule with no trouble at all." Figure the money you save when you've got a medium-duty truck that can cover 30,000 back-country miles a year with a high-tonnage load!

We've never seen anything like the amount of praise truck owners are heaping on Chevy's new torsion spring suspension. Owners like the fact the truck handles a whole lot easier, can move faster off the road without beating the driver to death and shaking loose all the sheet metal. They like the idea of extra thousands of miles before trade-in! ... Drive a '60 Chevy just once. It's a whole new experience.

(Chevy middleweight averages 200 miles of back roads a day dogging timber out of the woods and delivering it to the mill at Crossett, Arkansas.)
