ROBERT H. BLAKE

Rotary Club to Be Host to District Governor August 10

The Rotary Club of Crowell will be host on August 10 to Robert H. (Bob) Blake, governor of district 579 of Rotary International, who is making his annual official visit to each of the 37 Rotary Clubs in his district.

He will address the local club and confer with President James H. Herring, Secretary Glenn D. Goodwin, and committee chairmen of Rotary administration and service activities.

Mr. Blake is president and manager of West Texas Printing Co., Inc., and owner of Blake Paper Co. in Brownwood and is a past president of the Hearne, Texas, Rotary Club. He has also been a member of the Rotary Clubs of Lompoc, Calif., and George West, Corpus Christi and Taft, Texas. Blake was the 1957 delegate from the Brownwood Rotary Club to the Rotary International Convention in Lucerne, Switzerland.

Mr. Blake was elected a district governor of Rotary International for the 1960-61 fiscal year at Rotary's 51st annual convention in Miami Beach, Florida, in June. He is one of 267 district governors supervising the activities of more than 10,000 Rotary Clubs which have a membership of nearly 5,000,000 business and professional executives in 116 countries throughout the world.

Wherever Rotary Clubs are located, President Herring asserted in discussing the governor's visit, their activities are similar to those of the Rotary Club of Crowell because they are based on the same general objectives—developing better understanding and fellowship among business and professional men, promoting community-betterment undertakings, raising the standards of business and professions and fostering the advancement of understanding, good will and peace among all the peoples of the world.

Day of Casual Summer Job Has Passed

"As schools around the country closed for the summer, a number of campaigns were started to help teenagers to get summer jobs. It was a good idea.

"But the drives, often sponsored by local and state governments, are running into some snags.

"Local regulations requiring working certificates even in summer, and the Federal minimum wage requirements, social security and income tax deductions often make hiring temporary help a lot of trouble.

"The day of the casual summer job, such a help to eager youngsters in other days, seems to be passing—one more casualty of creeping public and private bureaucratization." —Miles City, Mont., Daily Star.

Latest word from the copper mining venture proposed on the Johnson Ranch in northwest Foard County is that the American Lignite Products Co. of Ione, Calif., has discovered a better method of extraction of the copper and is now re-vamping the plans and specifications for the plant to be built at the mining site.

According to Bert Ekern, a telephone conversation between W. B. Johnson and officials of the company about ten days ago, revealed this information and that as soon as the blueprints are changed, the company will be ready to move in and build the plant, preparatory to the mining operations.

The mining company has recently acquired the copper mining rights on the Johnson ranch.

Federal 'Public Power' Unnecessary

"One of the most unnecessary government spending programs you can imagine is multi-billion-dollar spending for Federal 'public power.' Investor-owned utilities could do the job just as well, and perhaps a little more efficiently. There is actually little difference in cost. The big difference is that public power pays little taxes, and at the same time it eats into our American system of individual, free enterprise." —Ritzville, Wn., Journal-Times.

STATE CAPITAL Highlights AND Sidelights

TEXAS PRESS ASSOCIATION, INC.

Austin, Tex.—If the brackish, "hard as bricks" water common to many parts of West Texas can be made suitable for domestic use, Texas' available water supply would be materially increased.

To this end, the State Water Board has approved a demineralization research project to be carried out by the board, University of Dallas and Texas Electric Service Co. Board will put \$20,000 into the work.

Board engineers say total demineralization is not necessary and that it is possible the process can be accomplished at an economically feasible cost.

In another move to increase available water, the Board has set a series of hearings on cancellation of water appropriation permits that have not been used.

First 10 of the permits to be reviewed are scheduled for hearing Sept. 22. Some of the permits

date back as far as 1918. **DPS ASKS BOOST** — With more traffic to patrol and more crime to fight, the Department of Public Safety will ask the next Legislature for money to increase its staff.

Col. Homer Garrison Jr., DPS director, has presented a budget calling for \$16,461,260 for 1962 and \$17,720,166 for 1963. This compares to \$12,420,490 allocated to DPS for this year and \$13,353,272 for the new fiscal year beginning Sept. 1.

Requested increases would allow the addition of 200 new highway patrolmen, 10 Texas Rangers, four narcotics agents and four intelligence agents.

Supporting his request, Garrison made this grim forecast: 29,000 more major crimes will be committed in Texas in 1963 than in 1959. This apparently a continuation of the trend which saw major crimes rise 45 per cent in the past five years, rising to 175,837 in 1959.

PAROLE EXPANSION SOUGHT — Texas Board of Pardons and Paroles has a plan for saving the state some money.

But to do so, the Board says it will need more money to invest in enlarging the state's staff of parole supervisors. Since the paid parole system got under way in 1958, the Board says it has saved the state \$3,000,000. It costs that much less to pay a supervisor to

keep tab on a parolee than it costs to board and clothe a prisoner and make relief payments to his family.

The Board feels it needs a 70-man parole staff, rather than the present 40—to do the job. For this, the Board is asking an appropriation of \$1,400,819 for the next two years. This is an increase of \$180,837, or nearly a half million dollars, over the present biennium's appropriation.

Board contends this extra investment will save the state \$2,500,000 in prison costs, plus offering a better chance of returning more men to useful, law-abiding places in the community.

GIL FLOW UNCHANGED — Railroad Commission has announced an eight-day producing pattern for the Texas oil industry in August—the same as for July.

Daily allowable will be 2,630,000 barrels a day. A majority of producers appearing before the Commission said there is still an oil glut in Texas and continued restriction is needed to protect the market.

Commission action came in the wake of a declaration by the Bureau of Business Research in Texas. Even with foreign import limits, said Dr. John Stockton, supply outruns demand so that production has had to be held down to 8 to 12 days a month for the past two years.

Stockton foresees no improvement in Texas, he said, must develop new industries to bolster its economy or lose out to more dynamic areas.

PARKS SURVEY SET — State Parks Board has announced the Texas Research League will make a study of its operations and report to the next Legislature.

League is a privately financed, non-profit government research organization which studies state agencies at their own request.

State Auditor C. H. Cavness has recommended the Parks Board hire an auditor to keep track of the receipts from concessions operated in the state parks. Cavness also urged that the next Legislature act on a Legislature Council report presented to the 1959 session making recommendations for the continuing, expanding and abandoning of various parks.

Parks Board has designated a new state park, to be known as San Marcos State Park to be located near the proposed Canyon Dam site on the Guadalupe River.

SCHOOL REPORT CARD — State Commission on School Accreditation has weighed Texas public schools against state standards and found 54 wanting.

Inspection teams recommended disciplinary action against 20 schools and warnings of a need for immediate improvement by 34 more.

If a school loses its accreditation, the work of its students cannot be transferred to accredited schools with full credit.

Commission recommendations will be reviewed by the State Board of Education at its September meeting.

TRAFFIC TOLL CUT — While nationally the drop in traffic deaths for this year is one per cent, Texas has improved by nine per cent.

Texas traffic deaths up to mid-July of this year totaled 1,049, compared to 1,152 for the same period last year.

A veteran highway patrol officer said he believes the new auto insurance rates, which jump sharply for motorists with accidents or violations on their records, have contributed substantially to the better record.

But radar, he said, had the same effect until people got used to it and became indifferent again.

Mr. and Mrs. Howard M. Smith, and other relatives, dollyn Browning, daughter of Mrs. H. O. Clark and shower honoring Mrs. Jackson of Crowell in Thursday.

Mr. and Mrs. Jack H. children have returned from a vacation trip to the Billy Williams Lake Cliff Ranch at Creede, Colo.

Mr. and Mrs. Hilt Grishom and son, Rodney, of Wichita Falls visited last week with her parents, Mr. and Mrs. Sam Toie, and the Ira Toie family.

"Insurance" Given Against Old Age

There are more people over 65 years of age in the United States than there ever have been before. Statisticians tell us that we can expect this number to increase considerably in the coming years. Though most of us want to live longer, we do not want to be "old." It is, therefore, becoming more important for us to plan to live fully as we grow older, so we can enjoy those added years. Mrs. Eloise Johnson, extension family life specialist of Texas A. & M.
The only insurance against growing old seems to be to live fully and intensely day by day, to have useful interests, activities and hobbies, and continue learning something.
What you learn doesn't matter a great deal, according to the specialist, so long as it is interesting and worthwhile to you. Some things can be learned best alone; other things are more interesting learned in groups.
Start now to develop more varied and widening interests to provide insurance against old age!

Bankrupt

"If the United States government were assayed as an individual or even a corporation, it would have to be judged a bankrupt... the House Government Operations Committee, values its total assets at 265 billion dollars. Against the national debt of 290 billion dollars, that leaves a deficit of 25 billion.
 "Of course, this is simply theoretical. The true assets of this country are not merely real and personal property owned by the government. It is the property and earning power of its citizens, which it can tax to the diminishing point, as it does now with the greatest incomes at 91 per cent. But that can kill the golden goose. So maybe we'd better stick with the idea that the government is bankrupt, at least until its visible assets exceed the national debt."

Card of Thanks

I would like to thank each and every one for your thoughtfulness and helpfulness during the time Doyle was in the hospital. The beautiful cards and floral arrangements were greatly appreciated as was the special concern about his progress. Special appreciation to Dr. Kralicko, Dr. Stapp, all the special nurses and the hospital staff. Your prayers were especially appreciated. May God bless you.

Miss Royanne White and David Ramsey Married in Lubbock

The marriage of Miss Royanne White, daughter of Mrs. Evelyn S. White, to David Ramsey, was read in a double ring ceremony at 6 p. m. Saturday in First Presbyterian Church in Lubbock. The bride's mother is the former Miss Evelyn Sloan of Crowell.

The groom is the son of Mr. and Mrs. S. V. Ramsey of Lubbock.

Given in marriage by her uncle, Lewis Sloan of Crowell, the bride wore a dress of white lace over satin which floated to ballerina length. A white lace jacket frosted the dress and was designed with a high collar and long sleeves. She wore a shoulder veil of white illusion caught in a crown of chastity lace set with drop pearls. She carried a white orchid in a bouquet of stephanotis.

Miss Charmie Stinson was maid of honor and Wayne Ramsey of Kansas City, Mo., brother of the bridegroom, was best man. Miss Stinson wore a street length dress of mint green chiffon. The bride was led with white lace and a cummerbund of chiffon defined the waist of the dress. She wore a mint green bow hat and carried a crescent bouquet of green carnations.

The couple will honeymoon at his family's lodge on Blue Mountain Lake near Booneville, Ark.

Mrs. Ramsey is a 1960 graduate of Tom S. Lubbock High School and is now attending a business college.

Her husband is a sophomore at Texas Tech and is now employed at Homer G. Maxey and Company.

The Co-Laborers Class of the Methodist Sunday School met in the home of Mrs. A. R. Sanders on Thursday afternoon, July 28.

For opening exercise, the class motto was repeated in unison, "Pass Me Not O Gentle Savior" was the first of a number of songs.

Mrs. Jim Russell read the Bible scripture, Luke 16: 19 through 31. Prayer was led by Mrs. Ed Tharp.

Mrs. Clarence Bounds brought the lesson on "The Rich Man and Lazarus," from the Book of Sermons on the Parables. She stated "that every one of us has a Lazarus at our door. We need to study and determine who is the Lazarus at our door. Maybe we can help them. It wasn't Lazarus' poorness that took him to Heaven, Lazarus in this world had nothing but the mercy of God and this he took to Heaven with him."

A lovely refreshment plate was served to eleven members.

Home Builders Circle

Eight members of the Homebuilders' Circle met in the home of Mrs. Clyde Eddy where she and Mrs. Arthur Bell served as hostesses. The third hostess, Mrs. Jesse Whitfield, was out of town.

The program was based on the 23rd Psalm in which Mrs. Eddy presented from the Readers' Digest an article entitled "The Shepherd's Psalm." Mrs. Bell then directed a Bible quiz and read two poems.

Following the program, refreshments were served by the hostesses to the following: Mesdames Frank Cooper, Fred Collins, Howard Ferguson, Boss Johnson, Bob Thomas and Glenn Shook.

Truscott H. D. Club

The Truscott H. D. Club met in regular session July 28 at 2 p. m. in the club room with the president in charge. The meeting was opened with singing, a devotional, and games. Roll call was answered with a cold salad for a hot day.

In the business session, the following officers were elected for 1961: president, Mrs. J. R. Brown; vice president, Mrs. Edmund Tomaneck; secretary and reporter, Mrs. W. R. Owens; treasurer, Mrs. W. O. Corder; and council delegate, Mrs. W. M. Rake.

Secret pals were revealed with gifts and the club queen, Mrs. W. O. Solomon, was given a birthday shower of gifts.

The program on combining left-overs was given by Mrs. J. R. Brown and Mrs. W. O. Corder. They prepared a cottage cheese dip which they served with crackers, potato chips, cookies, and lemonade to the twelve members and two children present.

Mrs. Tom King was hostess to the West Side H. D. Club in the home of Mrs. L. G. Simmons July 26. For opening exercises, Mrs. Donald Norris read "Just for Today," and the group read "My Motto." Mrs. Herman Kinchloe gave an interesting program on safety hazards in the home and on the farm. She said July was ranked first as the month for fatal accidents. Eleven members answered roll call to a safety note. The club will have a picnic Aug. 9 at the city lake. Next meeting will be Sept. 13.

Price Campbell Retires as WTU's Board Chairman

Price Campbell this week was named honorary chairman of the West Texas Utilities Company's Board of Directors, stepping down from the active chairmanship he has held since 1955.

Cal Young, WTU president, said there are no immediate plans to name an active chairman to replace Campbell.

Campbell began his forty-five years of service in the electric industry when he was employed at Marshall, Texas, by the American Public Service Co., a predecessor of the West Texas Utilities Co.

He came to Abilene in 1920 as an engineer for the companies that were to become the West Texas Utilities. In 1930, Campbell was named president of the company and held that position until 1955, when he reached the mandatory retirement age of 65 and was named chairman of the board.

His election as honorary chairman came as a result of his attaining the mandatory retirement age for the board chairman. As honorary chairman, Campbell will be relieved of his administrative duties but will continue as an advisor.

Home Demonstration Notes

VIRGINIA JACKSON

The yearbook committee for the Home Demonstration Clubs will meet at 3:30 on Wednesday, Aug. 10, in my office. We will start on plans for next year's work.

Appetites are usually light in hot weather, but here is a dish that will be refreshing on a hot day.

Molded Orange Salad
1 tab. unflavored gelatin, 1/4 cup fresh lemon juice, 3/4 cup hot water, 1/4 cup sugar, 1/4 tsp. salt, 1 cup orange juice, 1/3 ounce pkg. cream cheese, 1/2 cup crushed pineapple, well drained, 2 to 3 oranges peeled and sliced.

Soften gelatin in lemon juice. Add water, sugar, salt; stir until gelatin dissolves. Add orange juice, blend into cheese. Chill.

When slightly thick, fold in pineapple. Pour into 8-inch ring mold, chill. Fill center with oranges.

Closing 'Escape Hatch'

"One of the largest rows imaginable is about to come to a head. The subject concerns the closing of an 'escape hatch' by which the country's cooperatives have been relieved from payment of

federal income taxes. "Cooperatives . . . started as small communal enterprises to help farmers in their purchasing and marketing. Mainly they were successful—so much so in fact that they began to branch out into such diverse pursuits as manufacturing, banking, insurance, utilities, oil production and refining and even radio stations.

"All of these pay little, or no, income taxes. Firms with which they are in competition are usually disgruntled because earnings of these are taxed up to 52 per cent."—El Dorado, Kansas Times.

Successful Fishing
"If fishing requires the mad pace that our daily routine requires, it provides little recreational value.

"The best example of successful fishing that we know of is a small boy or the man who simply dangles a hook from a cypress bridge or a shady bank. They may not have boats and fine tackle, they may not catch any fish, their relaxed attitude is right, they're having fun. The secret successful fishing is not catching fish, but taking it easy."—A Texas News.

Marilyn Monroe may not "it"—but she's got it better generalized.

Never knew how hard it to drive a bargain until I had a second-hand car.
