What the congress meant to Miss Drabek was a much deeper appreciation of 4-H Club work and determination to get boys and girls in her club to work harder so they will have a chance to attend. She is the daughter of Mr. and Mrs. Charles Drabek of Crowell and the granddaughter of Mrs. D. E. Todd of Crowell and Mr. and Mrs. Joe Drabek of Shiner.

Reports from most hunters who have been out are that the quail crop is short and a dog is especially valuable this year due to the lush growth of weeds and grass.

The big question this year is "what happened to the birds?" Earlier in the fall, a large number of birds were reported, but since that time and the opening of the season, many of the birds have mysteriously disappeared.

A large number of out-of-town hunters were on hand for the opening of the season, and several airplanes bringing hunters landed at the local airport Wednesday afternoon.

Prepare for College Now!

As the weeks fly by, the seniors are becoming alarmingly aware that their time for college preparation is running out. For some, entrance exam time for the school of their choice is drawing near; for others, a final decision upon a college has yet to be made. Within a short time, graduation and summer vacation will have come and gone, and many will be faced with their first year of college. Those who have prepared for college early will realize that their time, work, and plans have not been in vain. Those, how-

ever, who have neglected opportunities, may find—to their sorrow—that a little extra planning and working would have been a great benefit.

Therefore, it's never too early to begin thinking about one's college education. Freshmen and sophomores, you can start to inquire about various colleges and universities. You can think of the different lines of work that interest you and take subjects accordingly. Don't merely take easy subjects; try the course that will be of benefit. Juniors, you can make the final decisions; then, as seniors, your final plans may be taken care of. There will be, perhaps, entrance exams—such as ACT or SAT—to take. A visit to the school of your choice will help, too. Talk to other students in the college and get their opinion; however, don't rely on that alone. Get a first-hand view and form your own opinion.

So—take this advice and prepare for college now!

Exchange Student to Be in C. H. S.

The Spanish Club of Crowell High School will sponsor an exchange student from Mexico during the months of December and January. The student, Felipe Rios, is a resident of Guanajuato, Mexico, where his father is the lieutenant governor of the state.

While Rios is in Crowell, he will reside the first month in the home of Mr. and Mrs. Otis Gafford. Their son, Jim Mac, has been studying Spanish the last two years and is a member of the Spanish Club. Felipe will stay with other club members during the next month. He plans to study medicine when he finishes school, and he intends to earn his medical degree in the United States.

He and his mother left Guanajuato, Sunday, Dec. 4, for San Antonio, where they will shop for two days; then Felipe will come to Vernon by bus. There he will be met by representatives of the Spanish Club.

Captain Bobby Jack Stinebaugh of Igloo, South Dakota, a former experimenter under the Experi-

ment in International Living, and Henry Black made the arrangements for the student to come to CHS.

Cecelia Drabek Returns from Chicago

I was chosen on my 4-H Record Book to be one of the 33 Texans to represent 100,000 4-H'ers at 53rd National 4-H Club Congress in Chicago. My record won in home economics, and my whole trip was sponsored by Montgomery Ward & Co.

The Texas delegates met in Dallas on Nov. 25 and were given a tour of the bank and a "Send Off Luncheon" by the First National Bank of Dallas. At 1 o'clock Friday afternoon, we boarded the Texas Chief and arrived in Chicago at 9 o'clock on Saturday morning. We checked into the Conrad Hilton Hotel, the world's largest hotel. Then the whirl of largest hotel. Then the whirl of largest hotel.

TV men and radio agents were constantly asking questions. We met many international representatives as well as delegates from all of the 50 states. We got a sneak preview of "Tomboy and the Champ" which will be released for the public at Easter time. The days began early with breakfast sponsored by many different companies that are known as "Friends of 4-H." We were given many different types of meals that we had never heard of before. Lunch and dinner were also sponsored by many of the "Friends of 4-H," and they were accompanied by magnificent entertainment. Every night, after being treated with a wonderful dinner, dances, parties, concerts, horse shows, livestock expositions, or some other interesting event was enjoyed. Interesting places I visited and outstanding things I saw included:

grand ball room of Hilton, grand ball room of Palmer House, exhibition hall of Hilton, Top O' the Rock, Gibraltar Room, Prudential building, Orchestra hall, Studebaker Theatre, Illinois Central station, Museum of Science and Industry, Oak Park High School, International Harvest plant at Melrose Park, Chicago Symphony

Orchestra, Museum of Natural History, Aragon Ball room, International Livestock Exposition, matinee horse show, International Amphitheatre, Williford Room of Hilton, Waldorf Room of Hilton, Marshall Field, Lake Michigan, lake shore drive, McCormick home, Donnelly Printing Co., Chicago stadium, Lincoln Park Zoo, elevated trains and the Mississippi River.

After ten wonderful days, we the Texas delegation, returned home by way of Kansas City. The entire trip was a wonderful experience for me for it enabled me to meet people from all parts of our great nation and to share our ideas. We also changed expressions with those of the north. They adopted "You'll" and we adopted "Youse Guys."

I would like to thank all of the many "Friends of 4-H" who had a part in making this trip possible. I also would like to thank my parents, county and district agents, and all of my many teachers and friends who helped me to receive this magnificent honor of representing Texas at National 4-H Club Congress. It was wonderful to meet 13,000 people and to have something in common with them.

Band Squeaks

Now that all the football music has been filed, all one can hear is the sound of Christmas carols coming from the band hall. The band will lead the parade this week for the official Christmas opening. After the parade, they will assemble on the square to play Christmas carols.

The three seniors in the band are anxiously awaiting their band jackets. If they don't come in soon, there are going to be some seniors singing "The Band Jacket Blues"; however, they are supposed to be here sometime this week. The band talent show turned out very nicely, and the band would like to thank everyone who made it possible for the show to be presented.

C. H. S. Library

In Vernon on October 10, 1944.

Mary and James were presented with a bouncing baby girl. She is now five feet tall, and has blonde hair and green eyes. Judy Sandlin has one sister, Sherry, and a yellowish cat called Bubbles. Judy is in the library the second period and suggests very strongly that you read "Gone with the Wind."

Going Steady?

The boys were questioned about going steady and here are some of their opinions:

Wes: It's all right if you can go steady with a girl in every town and get by with going with them like I do.

George: Why please one, when you can please them all?

Miles: It's for the birds.

Ronny: I think it's o. k.

Bill S.: It's all right.

Bob B.: I like it.

Woody L.: I don't like it.

Jerry T.: I don't know. I never have gone steady.

Jim G.: It's all right.

James R.: It's all right.

Dale H.: It depends on the girl you are going with.

Home Demonstration Notes

MRS. VIRGINIA ILSENG

Everything we pick up has a note for Christmas. Here is a way to make your own candles for Christmas. You can use your imagination and skill to create many different effects. There still is time to make candles for your own home or for special gifts.

To make candles all you need is paraffin, time and a few simple kitchen tools. You can utilize bits of old candles, melt odds and ends of used candles, adding wax if you, if color is desired. If you need to start with fresh paraffin you will find it sold in one pound packages of four bars each.

The forms may be milk cartons, ice cream cartons, tin cans, Anchor the wick (medium string) by punching a hole in bottom of the form. Put the wick through the hole and tie a knot. Then tie the other end to a pencil or stick that is placed across top of the form. Pour melted wax into container and let harden. Snip the knot off bottom of candle, and fill in around wick with additional melted wax.

If paraffin has pulled away during cooling, pour one color at a time and let harden.

You will need extra paraffin for the frosting; one bar should be enough for a small candle. Melt in a sauce pan, add crayon for color, if desired. After the mixture has cooled slightly, beat with a rotary egg beater until frothy, then spread or dab lightly over candle with a spatula.

four weeks, they will have completed a requirement for the second class rank.

Jo Nell Bradford completed her cook badge and Jan Carroll passed the tree badge. Teresa Manning served refreshments.

Anglo-Saxon is the name given to Angles, Jutes and Saxons who migrated to Britain from Germany in the fifth and sixth centuries.

Bounty-jumper was a term used during the Civil War to describe men who enlisted in the U. S. Army to receive the government bounty, then deserted.

Question of the week: Was Sue love sick, school sick, or just plain ole sick last week?

Couples draggin' around Sunday afternoon were Alta-Danny, Carol-Jim, Pat-Barry, Carria-Ronny, Lynda-Bob, Genell-Henry F., Sharon-Billy D.

Well, seems like this has been a wild and crazy week. Let's make the next one just as interesting. O. K.?

Khrushchev's Last Stay in America Served Good Purpose

"Nikita S. Khrushchev's last stay in this country served a very good purpose. It dispelled any illusions people may have had about his friendliness, created on his official visit a year ago. Frustrated at every turn in his attempt to ride rough shod over the General Assembly, he took off the mask of geniality and showed all the ugliness which hid the man who had butchered his own people in the Ukraine, crushed the youthful patriots in Hungary, and cowed a third of the world's population wherever his saidistic reign is in control." — Beaver Falls, Pa., News Tribune.

American Workers Pricing Themselves Out of World Market

Norvin R. Greene writes in National Review Bulletin: "Our machinery builders are finding that to continue foreign sales in volume it is essential to have production facilities in low-wage European countries such as Britain, France, Germany and the Netherlands. . . The combination of an outstanding research-minded engineering group in the United States tied to low-cost foreign producers adds up to a competitive situation in world markets. In time, investments abroad return foreign-earned dividend dollars to U. S. stockholders. They do not, however, create more jobs and wages for American workers who are pricing themselves out of the world market."

P. T. A. Group Visits 7th and 8th Grades

In order to create interest in P. T. A. activities and teacher-child relationship, the P. C. of the P. T. A. have tried to find out what their children are doing in school and to publicize those facts. They found out that if interest is shown, every parent can find out what his child is learning and how that child is being taught.

Last week they visited the teachers of the 7th and 8th grades and found out many ways in which interested individuals or organizations can help. For instance, anyone having a good book that is of no value to them, should share them with the grade school library where they will be put to good use by the students.

The teachers interviewed expressed enthusiasm in visual aid teaching and stated that what a child sees, he remembers. PTA is interested in all phases of teaching and learning and can help by fostering an interest. The committee urges all citizens who pay taxes to have an interest in how their tax money is being used and to join and meet with P. T. A.

The committee also expressed appreciation to the Girl Scouts and Mrs. Ray Shirley for taking the responsibility of the children during the P. T. A. meetings.

Senator Byrd Fears Highway Money Is Being Wasted

Senator Byrd recently pointed out that gasoline taxes now total almost 50 per cent of the retail price of the fuel. He added: "Highway users are paying these tremendous sums to build a network of modern, high-speed state and federal highways. I am not altogether convinced that they are getting their money's worth. I am, in fact, gravely suspicious that some of their money is being wasted in gingerbread design and extravagance and, what is worse, some of it disappearing in loose administrative practices, irregularities and profiteering. And the costs, far from going down or even remaining the same, keep going up and up."

Hy-Way Simulator

Scientists at Socony Mobil Oil and Mrs. A. Company have designed a "hyway" that permits "travel" up to 100 m. per hour without moving an inch. Known as a "hy-way simulator" it reproduces almost every traffic and road condition the American motorist encounters: stop-and-go jams, high speed turnpikes, and steep up-and-down grades. It is being used to test tomorrow's car fuels.
