THE GOVERNOR'S RACE

Voters who desire to express
themselves through their ballot, an intelligent
choice for Texas' next governor find
themselves in much the same pre-
dicament as did the man who wanted
to view the forest but couldn't see it
for the trees.

There are so many candidates in
the field, and so many issues, both
pertinent and foreign to any consid-
that the more one hears and reads,
the more confused he is apt to be-
come.

With all their experience and
training, editors are finding it no
easy task to pick and choose from
the present candidacies. In a few
instances, editors have espoused the
cause of one of the announced gub-
ernatorial candidates. Most of them,
however, are watching and waiting,
either for some development which
will prove the superiority of a pres-
ent candidate, or for the announce-
ment of some "dark horse" whose
abilities and qualifications will make
him stand above and apart from the
rest of the gubernatorial forest.

BUREAUS THREATEN THE U. S.

It should be remembered that
progress is not entirely a "manufactured
article." It is not merely a mat-
ter of having more luxuries than the
rest of the world.

Progress is meaningless unless we
can retain our rights as individuals.
We have 35 per cent of the world's
railroad mileage; 60 per cent of its
telephones; 80 per cent of its auto-
mobiles.

Two hundred years ago the popu-
lation of the American colonies was
650,000; now the population of the
United States is well above 120,000,000.

One hundred and fifty years ago
the total wealth of the world was
100 billions; now the total wealth of
this nation alone is nearly 350 bil-
lions.

These facts are signposts of ma-
terial progress, higher wages, indus-
trial preeminence. But there is a fly
in the ointment—a big and active
fly. Liberty, individual and indus-
trial, is menaced by a growing dic-
tatorship of officialism.

One fact cannot be too often re-
peated: Our magnificent material
progress will have been in vain if
we lose our liberty of thought and
action through bureaucratic domina-
tion.

Competition From Filipino Workers Scored by Ousley

Dallas, Texas, May 1. (UP).—
Southern cotton and corn growers,
dairy producers and hog raisers are
being subjected to disastrous competi-
tion for the principal benefit of a
few foreign capitalists, in the opin-
ion of Clarence Ousley, Dallas agri-
cultural expert and former United
States assistant secretary of agri-
culture.

United States' retention of the
Philippines is what Mr. Ousley bases
his statement upon. And in a com-
prehensive survey of the situation,
which permits Filipino laborers to
compete with Texas farmers, Mr.
Ousley declared that the principles
of American government and consid-
erations of human justice are scorned
and repudiated by the continua-
tion of American domination over the
islands.

Conditions of unfair competition be-
tween the Texas farmer and the na-
tive Filipino farmer can never be
reconciled while American agricul-
turalists know that their brown
contemporaries across the Pacific labor
for 20c a day, Mr. Ousley points out.

"The American farmer," he says,
"wears clothes, pay taxes, sends his
children to school and church, eats
other things besides rice and coco-
anuts. You cannot do that and compete
with 20c labor."

"What of the proper considerations
and actual facts of the selfinterest
of the American people?" asks Mr.
Ousley. "This, he said, 'is treated
in this presentation, because it is
which should govern a people as
powerful and rich as we are and as
righteous we profess to be, and yet
it is a very real concern and a
perfectly proper motive."

"The bald economic fact is that
our tariff policy, which admits Philip-
pine coconut oil free of duty, dis-
astrously depresses the value of
American cottonseed oil, which is an
important part of the American cot-
ton crop, and in less but considerable
degree, depresses the value of Amer-
ican butter and lard. Cotton produc-
ers, dairy producers and hog pro-
ducers (who are mostly corn produc-
ers) constitute the great majority of
the American farming operators,
whose industry on the whole is at
present the most serious problem of
the nation. We have made a mis-
take of farm relief by national legisla-
tion, but in spite of appeal we continue a
tariff policy which subordinates the
well being of American farmers, our
citizens, our bone and sinew, to the
supposed well being of the Filipino
swains of war whom we made our
wards over their protest.

"Thus we are subjecting Ameri-

seed oil by 1934.

Low Tag Numbers Carry No Privileges

Austin, Texas, May 1. (UP).—
The first 100 Texas automobile li-
cense plates are issued generally by
long established customs, but drivers
of cars with these low numbers get
positively no speeding or other priv-
ileges. State Highway Engineer Gib
Gilchrist says.

The new state motor police have
been instructed to treat everybody
alike. The issuance of the low num-
bers direct from the department was
begun as a practice long before the
department's police were established,
Gilchrist pointed out.

Now, though a motor policeman
may know that the car bearing li-
cense No. 1 is the car of Ross Ster-
ling of Houston, chairman of the
State Highway Commission, it is to
be stopped if found speeding, if its
tail light is out at night or if any
other of the numerous road rules are
violated.

reserved in this way have been taken up. Holders have to pay the same license fees as others. There are 29 left. The demand for low numbers, however, is considerable. Many people have kept them year after year. No. 13, once held by Ted Read of Austin, now is held by K. H. Schmidt of Austin, tax collector. Lieut. Gov. Barry Miller of Dallas has No. 2. Former Gov. Pat M. Neff has No. 3. W. R. Ely, member of the State Highway Commission, has No. 4.

Capt. L. G. Phares of the state motor police has No. 6. Former Asst. Atty. General Paul Page, now of Houston, has No. 7. Newspaper men have the next two numbers, Claud Terr, chairman of the State Board of Control, has No. 10. Roy Tennant of that board has No. 80. Asst. Atty. Gen. R. M. Tilley has No. 11 and Ranger Capt. R. W. Aldridge No. 12. Wyatt C. Hendrick of Fort Worth has four of the low numbers—Nos. 60, 61, 62, and 63. Martin W. Ander-
sen of Harlingen, former Austin newspaper man, has Nos. 21 and 22. State Highway Engineer Gilchrist has No. 99 and No. 100 is on the automobile of John Darrouzet, Galveston attorney.
County clerks in the various counties have been notified that the numbers have been given to the counties so represented in their counties. The fee is paid to the county which gets its share as though a routine number were issued.

IT'S WISE TO CHOOSE A SIX

A demonstration tells you why it's wise to choose a six

Everywhere, buyers are agreeing "It's wise to choose a Six." And if you want to know why, get a demonstration of the Chevrolet Six.

Learn what an amazing difference two more cylinders make—in smoothness, in silence, in flexibility and in comfort.

And learn what a difference all of Chevrolet's other modern features make—the four long semi-elliptic springs—the four Lovejoy hydraulic shock absorbers—the weatherproof 4-wheel brakes—and the sturdy hardwood-and-steel construction of the luxurious Fisher bodies.

It will take only a few minutes to confirm all the reasons why it is wise to choose a Chevrolet Six. So come in today. See it. And investigate Chevrolet's easy payment plan—one of the most liberal in the automotive industry.

Coronated Letters are Good Form

No longer is an apology expected for a typewritten letter to a friend. On the contrary, most of us have to apologize when we write in longhand.

Love letters are the only ones that people are willing to take the time to decipher. All others should be coronated. And if more love letters were coronated, there might be fewer breach of promise suits.

Portable Typewriter Is Popular Graduation Gift

The Foard County News now has the agency for both the Corona and Remington portable typewriters, as well as the L. C. Smith line in the big standard machines.
For graduates a portable typewriter is the ideal gift. In spare time one can easily learn to write on these machines which have the same key-board and features of a big machine. A course in touch system comes with each machine. A portable typewriter is absolutely the finest thing that a college student can have and if the graduate will not get to go to college it is even more important that he or she should know typewriting.
These machines come in most any color desired and convenient monthly payments for them can be arranged. Come around to our office and look them over or have us bring a machine to your home for demonstration.

Quanah Parker— (Continued from Page 1)

Quanah Parker lived in another world than the one which now does him honor. He lived at a time when the Comanches came to a fork in the road. There were no sign posts to point the better route. One road was the Indian road and this was a continuation of the trail which had been followed by red men always. It was the way of the open prairie and led across dim trails of the war parties of generations. It led into the land of the vanishing legion of buffalo upon which Comanches had depended for their food since Niopol, the Indian god, had made this land for his people. There were many familiar landmarks along this route. The other way was into strange surroundings for it was the way of the white man. It carried the band into the land of a new God where the tepee of the Medicine man was laid aside for brick hospitals; where the religious chants around the camp fires would be discarded for solemn worship; where every custom must be changed.
As the tribe stood undecided at the cross road of life, Quanah Parker, as great tribal leader, was the Moses who led his people from the wilderness of doubt into the new road and became the pioneer of Indian education. It was Quanah who urged his people to beat their spears into plow shares and to know war no more. It was Quanah who inspired his people to plant corn and till the soil. He was the defender of their rights, the champion of the weak, the friend of the oppressed.
The event described above is of particular interest to the people of this section since Cynthia Ann Parker, mother of Quanah Parker, was captured in Foard County, a few miles northeast of Margaret. The spot of the recapture was officially marked about two years ago with members of the Comanche tribe, headed by Baldwin Parker, Quanah's son, present for the ceremonies at this event.

Mrs. Raspberry— (Continued from Page 1)
gray paint and the other one was hard-oiled, and, after trying a half-day with a paint remover, we failed to get the paint off, we decided to try lye water. This gave good results and then we applied a strong vinegar water to stop the lye from eating into the floor. I used a dark oak varnish stain for the first coat over all the floor and then used a clear "walk-on" varnish for the second and third coats. We then painted doors, windows and baseboards a cream color in order to cover up old paint which was a blue-gray. We used three coats of the paint.
Next we hung the paper. We selected the paper we did because the colors are soft and restful and not outstanding and did not have to be matched in hanging. The shades are buff so as to give a warm light to the room and harmonize with the color scheme and the draperies are of a color and material that would be durable to wear and laundry well.
In selecting the pictures we had in mind soft, cheerful colors. We made a book-case and a foot-stool and a box for radio batteries and used the same varnish to finish as we used for the floor.
We selected waste-paper basket, light fixtures and small rug to give color to the room.
So if you have a problem you can't solve get your hammer, some nails, a can of paint and call your county demonstrator and in a short while your problem is solved. I now have a nice living room 20x14 feet, of which we are all very proud. The total expense was \$33.50.

NOTES FROM HISTORY

Importation of slaves has proved disastrous to many a nation. In the thirteenth century the rulers of Egypt imported from Circassia a number of male slaves who were called mamelukes.
These mamelukes were instructed in military arts in which they became so proficient that they turned on their masters, assassinated the sultan, appointed one of their own number to that office and then ruled Egypt for 263 years.

to the military academy he transposed the initials on his trunk to U. H. G.

Luckily the congressman who had secured his appointment made a mistake in his name so the young farmer boy was enrolled at West Point as Ulysses S. Grant, a name that he retained to the end of his days.

THE IDEAL GIFT FOR GRADUATES FOARD COUNTY NEWS

In boyhood Benjamin Franklin became a vegetarian as a matter of efficiency and economy. He found that vegetables were more easily eaten than meat and were less costly. As a vegetarian he decided he would have more time for reading and more money to spend for books.
It was a standing rule in the household of his father never to discuss food. In later life Franklin says the habit had become fixed and he gave but little thought to food.
General Grant's boyhood name was Hiram Ulysses Grant. Fear that the initials H. U. G., spelling "hug," would make him the subject of jokes among his fellow cadets at West Point caused him to change his name.

HUNT EAGLES IN PLANES El Paso, Texas, May 1. (UP).—A speedy airplane spouting destruction, will be employed by Dick Crawford, Marfa, Texas, rancher, in an effort to exterminate hordes of ravenous eagles who have seriously devastated his sheep flocks.

Mr. Crawford contracted with two El Paso fliers, R. B. Langford and Clarence Robey, to fight the eagles for him. He said that he had found it impossible to cope with the swift and astute birds who immediately soar out of range when he appeared with a shotgun.

A sergeant of the El Paso police department handles the shotgun from a cockpit of the plane. This, believed to be the first airplane eagle hunt in Texas history, started late in April.

"Konjola's Work Miraculous," Says This Lady

Waco Lady, Lifetime Resident, Enthusiastic About New Medicine That Relieved Stomach Ailment

"Konjola made a new person of me," said Mrs. Lillie Collins, 3617 Homan Avenue, Waco. "For the past few years I have had a severe case of stomach trouble. The food I ate failed to digest, gas formed and I was subject to chest pains and heart palpitations. I was always tired in the morning. Pains in the small of my back from affected kidneys often

MRS. LILLIE COLLINS kept me from doing my housework. I often suffered with numbness in my hands and feet and was extremely nervous. I began to get relief immediately after I began the Konjola treatment. The gas on my stomach after meals has now been eliminated and I no longer find night risings necessary. I sleep well and am no longer nervous. I am free from back pains and my kidneys have been regulated until they function perfectly. I have not an ache or a pain in my body. The results I got from Konjola were miraculous and I heartily recommend this medicine to all who suffer as I did.

Konjola has become the most talked of medicine in America because it makes good. And Konjola makes good in the most stubborn cases when given a fair trial. Six to eight bottles are recommended for usual cases.

Konjola is sold in Crowell, Texas, at Ferguson Bros. Drug Store, and by all the best druggists in all towns throughout this entire section. (Adv.)

TEXON TALES It don't look to me like hair pins would be very good pins. They was a boy come in the Texon Cafe and sat down but he read a sign saying "We serve meals just like you get at home," so the boy just got up and walked out.

A young guy down here says all this talk about saving part of what you make and getting up in the world is fine but what if you can't even get a job nowhere. He could probably cuss the country then. These bad years we can always scratch our head and cuss the dry weather. They ain't no use of a man not doing nothing.

We seen a good many drunks while over to see Bill Nix and Allen Holder rope calves. One fellow says you ain't seen Jones have you and the other one says why no I never seen him but I was talking to him a while ago. Another bird says why I seen him three times. He musta been pretty full. Anyway Holder and Nix are at drug stores, probably curb service roped at Midland last Sunday for a fifteen hundred dollar purse. They rope in Chicago on July 4th. Holder is one of the world's best ropers and looks like he may have the world's best roping horse. We are getting a pretty good crop of riders, ropers and polo players down in this community. Polo is going by leaps and bounds. They's one guy over to San Angelo who refuses five thousand dollars apiece for polo ponies. However you can get horses lots cheaper at Texon than that. Texon plays San Angelo at San Angelo next Sunday so if you are interested in good polo come down.

According to last week's Ford ad in the News you can get Fords now at drug stores. Probably curb service too. Just drive up to any drug store and honk, the skeet will bring you out a new Ford, maybe.

Wonder if we could swap Dr. Hill some snake eggs.

TEXON TATTLER. HIS ARMOR INCOMPLETE

El Paso, May 1. (UP).—If L. G. Maitland had just had a wrist watch—but go on with the story. One day last fall, D. E. Sherwood, El Paso real estate man, got into an argument with Mr. Maitland. Whereupon Sherwood produced from somewhere a shotgun and fired one, twice, three times.

The first charge of shot hit a tobacco can in the pocket of Maitland's coat; the second spent itself upon a thick salesman's order book in Maitland's hip pocket. The third caught Maitland's left wrist and carried it, hand and all, along. The facts were developed at a trial of Sherwood on a charge of aggravated assault. Sherwood, pleading self defense, was acquitted.

Dallas, Texas, May 1. (UP).—The general conference of the Methodist Episcopal Church, South, to be held here starting May 7 will bring 1200 persons, including 600 delegates and 600 visitors, to Dallas every day for the 21 days of the convention, according to Dr. A. J. Lamar of Nashville, Tenn., publishing agent for the denomination.

The Dallas meeting will be the twenty-first session of the general conference. The meetings are held every four years, and the last session was in Memphis. The conference met in Dallas in 1902. Forty-eight annual conferences will be represented at the Dallas meeting.

Bishops of the church, thirteen in number, will preside at the sessions in turn. The Methodist Episcopal Church, South, operates chiefly in the south and west and in foreign countries.

Dr. Lamar has made arrangements for publication of a daily paper during the conference, with the Rev. C. D. Bulla as editor, assisted by Lee Watkins.

RECENT BRIDE HONORED WITH SHOWER TUESDAY

Mesdames Mark Henry and George Self were joint hostesses at a shower honoring Mrs. John Wislon, a recent bride, on Tuesday afternoon at the home of Mrs. Henry. The house was artistically decorated with roses and other cut flowers. The guests were received by Mrs. Self. After being served to punch they passed into the library, where they were greeted by Mrs. Henry and presented to the bride and her mother, Mrs. J. R. Allee. From the library they went into the living room where an interesting program was given. Mrs. Arnold Rucker at the piano and Mrs. Alva Spencer on the violin, gave two selections. Mrs. Baxter Johnson read "Blue Roses," and "A Welch Classic." Mrs. Jimmie Doolen sang Rucker accompanying on the piano, and Mrs. Spencer on the violin. She also sang "Because," accompanied by Mrs. Rucker. Mrs. J. H. Lanier, Jr., gave two negro dialect readings, "The Bridgroom" and "Gwine to Marry Jim," after which Mrs. Rucker and Mrs. Spencer played "Traumerlei."

At this time Mrs. Self made a very pretty and appropriate talk by way of presenting the gifts to the bride. The door into the dining-room was opened and the bride was led therein, where numerous beautiful gifts of silver, china, linen, glassware, quilts and other things awaited her. The guests were asked to view the pretty gifts, then they were again served to punch, poured by Misses Lella Ben Allee and Annabel Carter. The punch was served from an immense cake of ice so hollowed out as to form a perfect bowl. This was surrounded by pink and blue larkspur, thus making a very attractive center. Mesdames T. L. Hughston, W. B. Carter, A. Y. Beverly, J. E. Beverly and T. B. Klepper assisted in various places throughout the reception rooms.

BIRTHDAY DINNER SURPRISE

Mrs. Woodie W. Smith was surprised with a birthday dinner at the Baptist parsonage Wednesday evening. The event was sponsored by Mrs. George Allison and Mrs. Arthur Bell.

Those present were Mrs. Allison and daughter, Frances; Mr. and Mrs. Arthur Bell and son, Jeff; Mrs. Adolphus Wright and daughter, Theda LaVerne; and Aunt Harriett Russell.

After a delightful social hour ice cream and angel food cake were served to fifteen members and 4 visitors. We will meet May 6, at the home of Mrs. Claude Callaway.—Reporter.

Local Delegates Will Attend Woodmen Circle at Graham, 2-3

A number of national, state and district officers will attend a Woodmen Circle district convention to be held May 2 and 3 in Graham. Four districts comprising 26 counties, are combining for the meeting.

National Junior Past President Henrietta A. Thomas of Fort Worth; National Director and State Supervisor Etta Davidson of Houston and National Drill Instructor Jeanie Willard of Denison will be in attendance.

District managers who are arranging the convention are Mrs. Pearl T. Somers of Wichita Falls, supreme delegate, Mrs. Tressie Goldsticker of Stamford, state attendant and former chairman of the national legislative committee; Mrs. Della E. Sappington of Fort Worth, state musician, and Mrs. Lois Hardin of Breckenridge. Mrs. Olena White of Dallas, state captain, and a number of other state officers will take part in the meeting.

The following members of grove No 288 are planning to go to Graham for the meeting: Mrs. Ella Rucker and Mrs. A. E. McLaughlin.

An unusual feature of the meeting will be the Traveling Gavel which Mrs. Davidson will use in presiding. The society's national president, Mrs. Mary E. LaRocca of Omaha, Nebraska, sent Mrs. Davidson the gavel to use throughout May in recognition of Texas leading the country in new business last February.

The sessions will consist of initiation of candidates, exemplification of the ritualistic work, a school of instruction, talks by the officers and members, and a program of entertainment.

The officers and many of the members who will be in Graham for the district convention will join the pilgrimage to the Shrine of Fraternity, June 25, 26, and 27 when the society dedicates the first building of its new Home for Aged Members and Orphan Children at Sherman.

Texans Rank High in Patented Inventions

Texas inventors consistently keep their state near the top of the list in the number of patents issued each week by the United States Patent Office. This week Texas received twenty-three patents, covering a wide diversity of mechanical and artistic ingenuity.

In proportion to population and industrial organization, Texas is outstanding in its inventive activity, according to Clarence A. O'Brien, Washington patent attorney, whose recent analysis reveals that the originality of Texans is not restricted to particular fields, nor is it confined to limited areas of the state. Almost every locality is frequently represented.

Five of this week's patents were granted to Houston inventors, two of them going to Walter L. Church, who secured protection on a casing cutter and a pipe holder. Dallas received four patents. Three cotton picking machines are listed in this issue, two of which are the invention of Texans, one by Walter L. Turner, of Paris, and the other by Henry A. Janacek, of La Grange. One woman inventor is included in the state list: Lula H. Robinson, of Dallas, who has devised a new shade and curtain support.

A complete list of the patents granted Texans this week is: Casimir Cutter, Walter L. Church, Houston; Fuselage for airplanes, Walter K. Dwell, Houston; Expansion Joint in concrete pavements, Jean H. Knox, Dallas; mechanical cotton picker, Walter L. Turner, Paris; churn, Thomas E. Williamson, Kirkland; vehicle bumper, Arden Hancock, Houston; well-boring apparatus, Monroe W. Carroll, Beaumont; device for handling building materials, Clarence W. Waddell, Dallas; Hill dropper, Frank J. Boss, Edinburg; cotton picking machine, Henry A. Janacek, La Grange; pipe holder, Walter L. Church, Houston; metallic culvert, Jack B. Chambers, Houston; toy horse, Charlie Westerlund, San Antonio; automatic tractor steering device, Mark B. Williams, Plainview; flame arrester, Miles F. Yount, Beaumont; liquid-spraying machine, William H. Thompson, Wichita Falls; combination make-up cathead and friction hoist, Walter W. Foster, Wichita Falls; shade and curtain support, Lula H. Robinson, Dallas; Dynamometer, Clyde V. Temple, McCamey; airplane wing, Joseph F. McKendie, Abilene; safety airplane control stick, Joe Ben Lievre, San Antonio; Beehive frame hook, Laurence F. Wilson, Dallas; measuring instrument, Carl G. Hershey, El Paso.

WHAT A DIFFERENCE 90 DAYS MAKE!

TODAY A TODDLING CHICK... in 90 days a proud pullet about to lay. There's something to think about! Tiny bones and little muscles have grown several times in size... a delicate fuzz has sprouted into hundreds of feathers... a chick weighing grams has grown into a pullet weighing pounds... all in 90 short days!

A wonderful change... and only one thing can do it... good feed! This year consider Purina Startena Chow (mash) and Purina Chick Chow (scratch) or All-Mash Startena Chow for the first six weeks... and then Purina Growena and Purina Intermediate Hen Chow until your pullets are laying at 16 weeks.

Put these Chows before your chicks. You will see pullets that are built right... pullets that will lay eggs aplenty in fall and winter when eggs are always worth good money.
