May Savings Bonds Sales in Foard County Total \$2,006

Bond sales in Foard County totaled \$2,006.00 during May, according to George Self, chairman of the Foard County Savings Bonds Committee. Total sales for the year are \$28,976, which is 29 per cent of the goal of \$100,000 goal.

Savings Bonds sales in Texas during the month of May were \$11,844,620. This represents an increase of 3 per cent over May 1962.

"I was happy to note the sales increase in Texas during May and feel confident that this is a direct result of the outstanding support given to the Freedom Bond Drive by bond volunteers, newspapers, radio and TV stations, organizations, and others. The Texas Bond Committee salutes these groups for their patriotic support of the bond program," Chairman Self said.

Gordon Erwin Installed as New Rotary President

Gordon Erwin, Crowell Grade School Principal, took over the reins as president of the Rotary Club of Crowell at the annual installation-of-officers program held last Thursday night at the Crowell School Cafeteria.

Dr. Walter Stapp, retiring president, is the new vice president of the club, and Marvin Myers is the new secretary. Other officers are Fred Youree, sergeant-at-arms; Marion Crowell, song leader; Miss Gayle Smith is the club pianist. Members of the new board of directors include the officers and Grady Graves, Glen Goodwin, Jack Seale and Ray Brown.

The out-going board of directors was composed of Grady Graves, Rev. Glenn Willson, Clinton McLain, Bill Bell, Ray Brown and Gordon Erwin.

Following the invocation by Rev. Willson, and the barbecued chicken dinner, Dr. Stapp introduced the special guests present, and Miss Smith entertained the group with two piano selections. Grady Halbert presented Dr. Stapp with a past president's pin, following the introduction of the incoming president and his officers.

Dr. Owen C. Berg, prominent Wichita Falls surgeon, and a camera enthusiast, showed the group a series of pictures of flowers, animals and snakes that he has taken while pursuing his hobby of photography. Dr. Berg is a member of the Wichita Falls Camera Club, and some of the pictures he showed here have been on a tour of camera clubs throughout the United States, and have been on exhibit in the International Salon.

A number of local guests, including the Rotary Anns, were present, as well as the following out-of-town guests: Dr. and Mrs. Berg of Wichita Falls, Mr. and Mrs. R. B. Gibson of Vernon, Tommy Johnson of Armandale, Va., and Miss Nancy Stripling of Dallas.

The Texas Highway Commission this week approved the expenditure of \$84,700.00 for construction of new Farm to Market Road mileage in Foard County as part of the 1963 FM Road Program, announced District Engineer Palmer Massey of Childress.

The District Engineer said 5.0 miles in this county will be involved. The work will be under the supervision of Howard W. Bartley, Senior Resident Engineer, Quanah.

The work authorized for this county is part of the new \$24 million FM Road Construction Program just announced by the Texas Highway Commission.

The Farm to Market Program is a yearly road-building undertaking of the Texas Highway Department under which statute specifies that \$23 million annually shall be spent for new FM construction. The 1963 program is financed for some \$24.1 million, more than a million dollars in excess of the basic statutory requirement.

New farm roads will be built in a total of 172 counties throughout the state, the total mileage being approximately 1,060. Of the new roads added to the highway system by this program, 69 per cent are school bus routes and 65 per cent are mail routes.

Texas now has a designated Farm to Market Road System of well over 36,000 miles including the new program, most of these miles having been built since 1949 under an expanded road building program.

In 1962 the Texas Highway Commission revised its goal for farm road mileage upwards from 35,000 to a total of 50,000 miles. The ultimate 50,000-mile farm roads network will be developed over a period of years and geographically distributed throughout the state.

Eleven Foard Countians Attend NTSU Last Year

Foard County was represented by 11 students at North Texas State University in Denton in the school year just ended, the Registrar's Office has announced.

During the nine-month session, a total of 11,479 different students were enrolled. They come from 218 of the state's 254 counties. Other states were represented by 419 students.

Dallas County again sent the largest number to NTSU, 3674. Other counties represented by large groups were Tarrant 1249, Denton 1033, Grayson 252, Collin 242, Harris 237, Gregg 183, Cooke 155, Wichita 150, Wise 129, Ellis 125, McLennan 119, Bexar 108, Smith 98, Galveston 97, Montague 84, Bowie 78, Parker 75 and Bell 75.

For the second year in a row, North Texas had the largest numerical gain among the state's higher education institutions. Enrollment in the 19 state-supported schools increased by 9,000 students. Of these, some 1,100 went to NTSU.

In anticipation of continued growth, the university this spring began work on two new buildings, a Student Union building, and a women's dormitory. These are the first steps in a building program that will nearly double the value of the physical plant within this decade.

Leaf Beetles Are Damaging Chinese Elm Trees Here

Many reports of elm leaf beetle infestations over the county suggest the advisability of prompt control efforts, according to Joe Burkett, County Agent. Large numbers of Chinese elm trees in Crowell and over the county are infested with the beetle.

Mr. Burkett says the larva (or worm stage) of the leaf beetle is what does the damage by feeding on the leaves of elms and skeletonizing them so that they dry up and drop off prematurely. This heavy defoliation weakens the trees and makes them subject to other insects and diseases.

These insects can be controlled with any of the following insecticides: Chlordane, DDT, Toxaphene, Dieldrin, lead arsenate, or Sevin.

W. T. U. Enlarging Sub-Station Here

An Abilene electrical contracting firm has a crew of men in Crowell at the present time enlarging the sub-station of the West Texas Utilities Co., and adding three new transformers.

Jack Seale, local manager, says that the industrial users—such as the city water works, the oil field, gins and elevators—will be placed on a new 12,000-volt circuit, and the regular 4,160 volt circuit will provide service for the remainder of the local WTU customers.

The work being done here is in line with the WTU's policy of the best service possible for its customers.

STATE CAPITAL
Highlights
AND Sidelights

TEXAS PRESS ASSOCIATION

Austin, Tex.—Creating of many new lakes in Texas has resulted in a money problem for the State Highway Commission. Commission Chairman Herb Petry Jr. of Carrizo Springs expounded on the situation when a Nacogdoches delegation headed by Carl Monk and County Judge F. L. Harris came to Austin to ask for a farm-to-market road from Nacogdoches to McGee Bend Reservoir, now 59 per cent complete. Petry said cities and lakes are draining heavily on state road funds. He pointed out that the State Highway Department worked up a plan for access roads to McGee Bend in 1959. That work has been proceeding in cooperation with the surrounding counties. But there was no new Nacog-

doches County road in the plan. State Highway Engineer D. C. Greer stated that the farm-to-market road law specifically authorizes use of that money for building roads to recreation areas. Petry said some people call these fish-to-market roads. **PADRE'S DEED** — Lawyers have drawn up the deed by which state-owned land in Laguna Madre will be transferred to the United States. This land is to become a part of the Padre Island National Seashore. But deed can't be signed by the School Land Board until the law authorizing the transfer takes effect on August 23. **VACATION** — Gov. John Connally and his family took off for the family ranch at Floresville

for a brief vacation. So far his vacation has been interrupted twice for speeches in Austin and Dallas. Connally also took along a pile of work to do. He has many appointments to state boards, commissions and courts to make. He gathered up a file of letters containing recommendations. These will help him decide whom to name to the two new Courts of Civil Appeals (at Corpus Christi and Tyler,) to the new Parks & Wildlife Commission, and to many other state boards.

He also obtained an opinion from Atty. Gen. Waggoner Carr, saying that the six justices he will name need not live in the districts at the time of their appointments. Only requirement is that they move into the district before they take oath of office.

RED REGISTER — Attorney General Carr is taking steps to force Texas' only known communist to register. But he has not decided where to bring suit. A 1951 law requires any communist remaining in Texas as long as five days to register with the Department of Public Safety. No one ever has registered.

Two weeks ago, U. S. Atty. Gen. Robert Kennedy notified the man, a resident of San Antonio, to register within 20 days under a Federal registration law, or face prosecution.

Carr picked up the ball and decided to try to make him register under the unused state law, too.

LIQUOR FINES — People still keep violating the liquor laws. Liquor Administrator Coke Stevenson Jr. reports that his agents filed 743 cases last month. There were 738 convictions, with 28 jail terms, for violations. Fines came to \$46,172 during the month.

The Lubbock district, mainly dry, was as usual the location of the largest number of cases among the 18 enforcement districts.

INSURANCE UP — Recommendations for higher auto insurance rates have been made to the State Board of Insurance, by insurance companies, and the Board's own staff.

Losses under current rates prompt a general statewide increase averaging 8.6 per cent. But there are variations.

Farmers and ranchers, who have chalked up a good non-accident record, will get substantial cuts. They will range from 20 to 30 per cent, in various parts

of the state. City drivers will face higher rates for their public liability insurance. Statistics show that where there are more cars there are more accidents.

State is divided into 26 rating territories. Drivers living in safer areas will pay less for their insurance.

Board will announce its decision soon, and new rates will take effect on August 1.

SEWER AID — State Health Department has compiled a list of 37 cities awaiting word that Congress has appropriated money to continue the federal-aid program for construction of sewage treatment facilities.

These cities have applied for \$4,067,626 worth of grants to help them build \$15,980,384 worth of projects.

Expected Texas allocation is about \$3,200,000. So some will have to do without federal aid—or wait for next year.

ETHICS — Three representatives who piloted a tough code of ethics bill through the House of Representatives still are trying.

Reps. James E. Nugent of Kerrville, Robert C. Eckhardt of Houston and Travis Peeler of Corpus Christi presently are seeking help from the Attorney General in drafting a new version for the next session of the Legislature. Later on they hope to talk with Governor Connally about it. Their bill zoomed through the House. But it was killed in the Senate.

It would prohibit state officials (and legislators) from having extensive business holdings in areas they regulate—or legislate.

SWEDES CELEBRATE—Some 1,300 Texans of Swedish descent gathered in Austin to observe the 125th anniversary of the arrival of the first Swede in Texas.

He was S. M. Swenson, who became quite a power in Texas affairs, and then brought hundreds of other Swedish immigrants to Texas.

Swenson family still operates a large ranch in Throckmorton and Jones Counties.

A program in two languages marked the observance.

CLERKS—Folks who keep the official records in the 254 court-houses of Texas had a convention in Austin.

County Clerk Val D. Huvar of Victoria County wound up as the new president of the County and District Clerks' Association of Texas.

Runnels County Clerk Frankie Beryman was named first vice president, and will move up to president in 1964.

SALES UP—Retail sales in Texas improved a bit in May, after a slump in April.

May sales were 4 per cent above April and 1 per cent above May, 1962.

RAINS ON THE RANGE — Ranchers got some breaks in some parts of the state, reports the U. S. Department of Agriculture.

Summer range and pasture feed prospects continued on the up-grade in the northwest part of Texas. Prospects also were improved by rains in the central and southeastern parts of the state. There ranchers had been culling herds, and sales had been heavy until the rains came.

BED-ROCK RULING — Securities Commissioner William M. King issued an order prohibiting further sales of stock in the Roka-Bed Corporation of Lubbock.

Firm was organized to make children's furniture, including a baby bed which would rock baby

Dog Project is Favorite of Farm, City 4-H Members

Further evidence that man is dog's best friend is borne out by the fast-growing 4-H Club dog care and training program. In four short years the number of boys and girls enrolled in the program has increased tenfold to nearly 20,000, reports the National 4-H Service Committee. By the end of 1963 another big jump in enrollment is expected. Sponsored nationally by the Ralston Purina Company, the carefully planned "pet" program has become popular with city 4-H'ers.

Learn Obedience
Obedience training is high on the list of things young dog fanciers accomplish. Even parents agree that a "well-mannered dog" is a joy both indoors and out. Among the important scientific facts boys and girls learn about dogs is how to keep them healthy, happy and a respected member of the family. As one 4-H dog club leader puts it, "Owning a dog is good discipline for the entire family." Being accountable for the dog's food and health needs, caring for the mother dog and her puppies, learning about breeds, and grooming for the show ring are some of the tasks

At a recent obedience demonstration this young dog handler put a trio of poodles through the paces. Besides teaching dogs cute tricks, 4-H'ers train them to obey commands that make for a well-behaved pet. That 4-H'ers undertake when they enroll in the care and training program. **4-H'ers Rewarded**
At the close of the 4-H Club year, members who show personal progress have an opportunity to compete in various ways for awards provided by Ralston Purina. Selection of winners is made by the Cooper-

Screwworm Eradication Calls for Ground Control

Ground control (immediate treatment of all wounds regardless of cause) is of major importance in the screwworm eradication program at this time. County Agent Joe Burkett said this week that it's that time of year when screwworm cases normally begin a rapid increase and cautioned all livestock producers to be even more alert in their checking for possible worm cases.

"The screwworm will be eradicated by your constant vigilance," Burkett said. He advised livestock producers to treat every wound regardless of cause, including those from castration, sheep shearing, docking, dehorning, wire cuts, or others, with an EQ-335 or 5 per cent Korlan as proved materials. These include smears or 5 per cent Co-Ral as a dust. These are recommended for use on all surgical cases, Burkett said.

He listed the use of .25 per cent (twenty-five hundredths) Co-Ral or .5 per cent (five-tenths) Korlan as sprays for control of livestock pests.

Burkett further suggested that all livestock be checked at least once each week for screwworm signs.

He emphasized the need for even better reporting of all worm cases and the importance of taking worm samples from every infested wound, and mailing in to Screwworm Eradication Program, P. O. Box 969, Mission, Texas. Postage free mailing tubes are available from the County Agent's office and numerous merchants over the county.

Stamps on Meat Mean Protection for Consumer

The purple and red ink stamps placed on meat by federal, state and municipal meat inspectors and graders are familiar to everyone but few know what the marks really mean. They are the seals of approval placed on meat as assurance of its quality and wholesomeness by meat inspecting and grading agencies in Texas.

A new publication of the Texas Agricultural Extension Service, L-585, "Meat Inspection and Grading in Texas" attempts to explain the history, purposes and methods of meat inspection and grading in the state. It tells of the early legislation which laid the foundation for meat inspection and grading and explains the three levels of inspection in the state.

The publication points out that the bulk of the meat slaughtered in the country is examined by federal inspectors. This includes all meat transported in interstate commerce. However, meat that is not inspected by the Federal government does not necessarily reach the consumer's table without being examined. The Texas State Department of Health now has a meat inspection program in which 24 Texas meat plants participate. In addition some 12 cities have local ordinances requiring meat packers in their municipalities to inspect meat under the state rules and regulations.

A much smaller part of the meat slaughtered in the state is federally graded. But, since grade is a good standard to use in the selling of meat, the livestock industry relies heavily on grades in meat trading. In addition to federal grades, many packing plants sell meat with their own grade and brand name affixed to it.

Meat grading has changed many times to meet the demands of changing consumer desires and the latest adjustment is the dual grading system for beef offered to packing plants on a voluntary basis since last year. The system adds to the old quality grade the newly devised yield grade for beef carcasses.

The leaflet assures that Texas consumers may have confidence in the meat they buy inspected and graded under federal, state and local regulations. For a copy of L-585, see the county agent or write the Agricultural Information Office, College Station, Tex.

Little League News

BY MARION CROWELL

It's a funny thing. The first and second game each night almost always parallel each other. For instance, last Tuesday night, the early game was a 20-3 rout. The second game also had a top-heavy score: 13-5.

Then along comes Friday night. Ford County Mill upset the Bankers' apple cart, winning in the last of the sixth. So what happens in the late game? Trailing by only one run in the sixth, Farmers Elevator has Billy Hord on third with only one out, and it looks bad for the Vets. Rudy Magee was up to the occasion, however, and struck out two in a row to keep history from repeating itself. But these were the best two games of the season.

Here's the official league standings, as of the end of last week, with the Vets leading the Bank by one-half game and with the Mill leading the Elevator by one-half game and with the Mill leading the Elevator by the same margin:

	V.	F.	W.	L.	%
V. F. W.	9	1	3	.723	
Bank	8	2	3	.692	
Mill	4	1	9	.321	
Elevator	3	2	9	.286	

This week's games, as with one week each season, may be decided by Little Leaguers who are NOT here, possibly even more than those who ARE here. With Boy Scout camp taking away boys like Rudy Magee, Larry Ellis, Paul Stapp, Billy Hord, Gary Cates and others, anything can happen this week.

Thanks to Bill Nichols' statistics on hitting, it is pretty easy to see why VFW is battling for the flag this season. Of its nine starters, seven are hitting above the .300 mark. That kind of hitting, along with Barrera-Magee pitching, makes it quite understandable why they're contenders. Two terrific 10-year-olds, Ken Sellers and Bill Lynch, add the "icing to the cake" for the Vets!

And the other top team, Crowell State Bank, while not boasting as many .300 hitters, has three really terrific hitters in Pete Matthews, Gary Eddy and Junior Carroll. Getting Matthews or Eddy out is really quite an accomplishment this season!

Sale of a Farm Is Taxable, Says IRS

The sale of a farm is taxable, says Murray C. King, Administrative Officer at the Vernon office of Internal Revenue. Mr. King points out that farmers must pay tax on any gain on the sale of their farm or other capital items, even though they may turn around and use the money to buy another farm or similar item.

In a letter to County Agricultural Agents, the District Director of Internal Revenue in Dallas asked the county agents to help IRS correct the erroneous thinking. The tax man advised farmers to check the tax consequences before they sell, trade, or swap.

Joe Burkett, County Agent, has pointed out that farmers can get a good general idea of taxes owed by reading the farmers tax guide furnished free by the Internal Revenue Service and available at his office.

The T. E. L. Sunday School Class of the First Baptist Church met in the home of Mrs. Arthur Sandlin June 27 with Mrs. C. A. Powell co-hostess. The president, Mrs. C. L. Cavin, presided. Mrs. J. H. Stapp opened the meeting with a prayer. The devotional was brought by Mrs. Mary Moore, reading Romans 12: 1-21, which gives the practical

duties of a Christian. She closed her devotional with a prayer. The social part of the meeting was in charge of Mrs. E. A. Dunagan, social chairman. She gave a very interesting Bible quiz and a musical quiz. She closed by reading a poem, "A Night in June," written by her mother's sister. Refreshments were served to 13 members and two visitors, Mrs. Clarence Carroll of Kerrville and Mrs. J. H. Stapp of Burnett.

Mrs. Bill Steiber of Houston visited last week with her parents, Mr. and Mrs. George Davis, and other relatives and friends.

Mr. King points out that farmers must pay tax on any gain on the sale of their farm or other capital items, even though they may turn around and use the money to buy another farm or similar item.

In a letter to County Agricultural Agents, the District Director of Internal Revenue in Dallas asked the county agents to help IRS correct the erroneous thinking. The tax man advised farmers to check the tax consequences before they sell, trade, or swap.

Joe Burkett, County Agent, has pointed out that farmers can get a good general idea of taxes owed by reading the farmers tax guide furnished free by the Internal Revenue Service and available at his office.

Mrs. N. J. Roberts, beginning her 37th year as president of the association, had this to say: "At our June meeting held last Friday, many problems connected with the general upkeep of our cemetery were discussed. There's always sexton's salary, water, tools, upkeep in general. We are especially concerned over the spread of the Johnson grass, and will somebody come up with a solution?"

"Right now the grounds are being completely gone over. Where plats are leveled and native grass given a chance, upkeep is much easier and the general appearance more attractive. Why not some body mow or pasture our vacant area near the house?"

The notion that massive federal intervention is the only solution to the problems confronting American education has been called "bunk" by Ladd Plumley, President of the Chamber of Commerce of the United States. Pioneer Circle Meets

The Pioneer Circle of the W. S. C. S. of the Crowell Methodist Church met with Mrs. T. F. Hughston on July 1 at 3 p. m. The meeting was opened by the group singing "Tis So Sweet to Trust in Jesus," after which Mrs. J. N. Ribble led in prayer.

Mrs. R. J. Thomas was program leader and her subject was "The Faith That Compels Us." The scripture was John 3:14-20. In the meditation, she told the story of a little boy who had heard the song, "God Will Take Care of You." "Do we really trust God to take care of us?" she asked.

"We have to work constantly to increase our faith," she said.

Called "Bunk"

The notion that massive federal intervention is the only solution to the problems confronting American education has been called "bunk" by Ladd Plumley, President of the Chamber of Commerce of the United States. He pins the same label on ideas that Russia is turning out super-scientists "while our own schoolmasters fumble along with inadequate schools and inept students (and) that everything will be worse tomorrow."

Two Minutes With the Bible

Rest

In Heb. 1:3 we read how the Lord Jesus Christ, "when He had by Himself purged our sins, sat down on the right hand of the Majesty on High." The tenth chapter of the same book tells us why He sat down:

"Every priest standeth, daily ministering and offering often-

times the same sacrifices, which can never take away sins: But this man (Christ) after He had offered one sacrifice for sins forever, sat down, at the right hand of God . . . for by one offering He hath perfected forever them that are sanctified (Heb. 10:11-14).

There were several articles of furniture in the Old Testament tabernacle, but no chair. The priest could not sit down, for the work of redemption was not yet finished. His daily sacrifices only emphasized the fact that "it is not possible that the blood of bulls and of goats should take away sins" (Heb. 10:4).

But this Man (Christ Jesus) sat down, because by His death on Calvary—by that one offering—He paid for all our sins and "obtained eternal redemption for us."

This is why Paul, by divine inspiration, now insists that salvation is "by grace," that "it is the gift of God," received "by faith" and "not of works, lest any man should boast."

God has much for His people to do, but before we can do anything for Him we must learn to trust Him for our salvation, to rest in the finished work of Christ. God is satisfied with Christ's payment for sin and together the Father and the Son are depicted as seated in heaven because the work is done. And now God would have us simply trust Him, entering into His rest:

"There remaineth therefore a rest unto the people of God, for he that has entered into his (God's) rest, he also hath ceased from his own works, as God did from His" (Heb. 4:9,10). "Unto him that worketh not, but believeth on Him that justifieth the ungodly, his faith is counted for righteousness" (Rom. 4:5).

Grandson of Local Couple Wins Texas Archery Tourney

The glittering career of Mount Pleasant's Hardy Ward, 13-year-old archer deluxe, reached another peak last week end. Young Ward is the son of Mr. and Mrs. Don J. Ward of Mount Pleasant and the grandson of Mr. and Mrs. Joe Ward of Crowell.

Ward, whose marksmanship with bow and arrow has become the envy of archers all over the Southwest, won the junior boys class of the Texas Championship Field Archery Tournament held in San Antonio.

Archers came from every corner of the state to compete for the championship and more than 300 were registered.

The courses were set up with 28 targets in the field round, 28 targets in the hunter round and 28 in the animal round. Hardy won first in all three rounds.

Shooting into a hard, gusty wind, he finished 90 points ahead of his nearest opponent.

Winning the Texas championship is only one of a long list of archery accomplishments for the young bowman.

During the past year, he has won 13 consecutive tournaments.

Since the year began, Hardy has been a busy young man on the archery tournament trail, which has led him to meets from Waco to Tulsa, Okla., to Shreveport, La.

His plans to enter the Southwest Open in Tulsa April 27-28 almost were wiped out by illness which placed him in the hospital.

But competition fever couldn't keep Hardy down long. He left the hospital and a day later defeated archers from such states as New Mexico, Texas, Oklahoma, Kansas, Minnesota, Wisconsin, Missouri, Nebraska and others.

His father, who is a Big Cypress District Boy Scout executive, first introduced Hardy to archery when he was five years old.

He didn't get into competitive archery until last year, when he was 12, and started virtually at the top. He placed third in the National Championship Field Archery Tournament and set a new world record in the animal round.

Since then, he's almost filled a house with trophies from winning firsts in 13 straight tournaments.

Locally, Hardy has made numerous exhibitions at service clubs, schools and other civic groups, demonstrating his skill.

With all those honors reaped within a year, what's left for the handsome, well-tanned youth?

The Enchanted Forest in California will hold the key to his next ambition—to win the 1963 National Championship tournament July 22-26.

memorial Day and Labor Day. Much of the work such as construction of tables and benches and fireplace grates was done during the winter months. Grounds were cleared last fall and this spring.

A developed campground site provides fireplaces, tent space, table and benches, and automobile parking spurs, with water and toilets to be shared by several units. Basic provisions to be brought by the camper include tents, bedrolls, cooking utensils and food.

Most campers prefer to use the developed sites, although camping in the 181 million acre National Forests is quite unrestricted. Those willing to carry food and equipment can camp almost anywhere, the USDA said.

Information regarding National Forest roads, trails, camp and picnic grounds, etc., is available from National Forest supervisors. A list of the field offices is available from the Forest Service, U. S. Department of Agriculture, Washington, D. C.

National Forests Are Popular as Vacation Spots

If you like the great outdoors, a vacation in one or more of the National Forests might be in order. In preparation for what the Forest Service expects to be their best year ever, camping facilities have been improved to take care of an estimated 125 million visitors with 37 million using camping and picnic areas during the summer.

The U. S. Department of Agriculture has announced that 9,700 new camp and picnic units have been built and 10,000 old ones repaired during the past year. The USDA said most of the visitors are expected between Me-

Farm Safety Week Set for July 21-27 by President

"Inspection Plus Correction Equals Protection" is the theme for National Farm Safety Week July 21-27. President John F. Kennedy, in proclaiming the week, called upon all Americans, especially those allied with agriculture, to unite their efforts to cut down the number of farm, home and highway accidents.

The Texas Farm and Ranch Safety Council, long active in the promotion of rural safety, points out the need for making farm and home safety a year-round effort. Prevention of accidents takes action by people and it must be continuous throughout every year, says the Council.

A very high percentage of all farm accidents can be traced to a specific cause, and carelessness is a major contributor, the councilmen say. A little checking close to home, they add, will likely reveal that most crippling or fatal accidents on the farm or in the home result from actions wherein people should know better.

The accident record of agriculture is not good and with the ever-increasing use of power machinery and allied equipment, the rate can be expected to move higher unless the people involved make up their minds to do something about it, warns the Council. Therefore, they add, it's up to farm families to find and remove hazards which can cause accidents and to practice safety in their daily living. The outstanding records in accident prevention by other industries of the nation haven't just happened, says the Council, but are the result of well-planned and conducted safety educational programs.

National Farm Safety Week is sponsored by the U. S. Department of Agriculture and the National Safety Council. They are in cooperation with the state agricultural Extension Service farm organizations, the press, radio, television and interested individuals and groups.
