WILDCATS WIN OVER IOWA PARK 30 TO 14

The Crowell High School football team won its opening game Friday night by defeating the Hawks 30 to 14. It was a good game with the Wildcats taking the lead early in the second quarter when George Moss, one of Crowell's safety men, returned a punt 65 yards behind superb blocking for the initial touchdown of the game. Right halfback Guy Todd punched the extra two points over to make the halftime score 8 to 0.

Don Welch, left halfback for Crowell, made a 40-yard kick-off return to set the second touchdown up. Wesley Cummings, fullback for the Cats, ran the final five yards for one of his three touchdowns of the evening. Todd again scored the extra two points to make the count 16 to 0.

David Parkey, right half for the Hawks, scored Iowa Park's first score late in the third quarter on a 20-yard run. This touchdown was set up by a Crowell fumble. The extra point was no good to leave the score 16 to 6. The Wildcats made another touchdown in this quarter by virtue of a 70-yard scamper by Cummings. The middle of Crowell's line (Bill

Smith, center; Taylor Johnson and Jim Mack Gafford, guards; and Gary Carpenter and James Borchart, tackles) blocked well all evening, but really opened up a hole to send Crowell's fullback into the secondary for this longest run of the game.

Crowell's last touchdown came on a well executed pass play, quarterback Ronnie Bradford handed off to George Moss, left half, who in turn passed to Cummings 28 yards. The play netted 28 yards. Cummings passed to Todd for the extra points. Moss made a beautiful 58-yard run to set this touchdown up. Parkey scored another touchdown for the Hawks late in the game on a 28-yard run around his own left end. This score was set up by an intercepted pass. The extra points run was good to leave the final count 30 to 14.

Crowell led in statistics with 15 first downs to four; 306 yards rushing to 109 for the Hawks; 28 yards passing to 0; and two punts for a 30-yard average. Iowa Park punted eight times for a 35-yard average.

Gerald Howard, end; Danny Rader, tackle; Jerry Seiffert, center; Joe Barry, end; and Dale Doyal, halfback, are Crowell boys who played in this game but have not been mentioned. All of them did exceptionally well. Joe Barry and Taylor Johnson looked about as well on defense as Wesley Cummings, George Moss and Guy Todd did on offense for the Cats. David Parkey and Jim Gard stood out for the Hawks.

Play at Rotan Friday

Crowell journeys to Rotan this week for its second game of the season. This team, led by Davy O'Brien, son of the famous Sammy O'Brien, also defeated a class 2A team, Ranger, last week. Coach Thayne Amonett indicated that he would use about the same fifteen boys in this contest who looked so good at Iowa Park last Friday night.

August Cemetery Donations Fall Short of Needs

August cemetery donations are listed as follows by Mrs. N. J. Roberts:

Mrs. Madge Johnson, \$1.00; Mrs. M. S. Henry, \$5.00; Mrs. J. M. Hill, in memory of T. J. Ferguson; Freda Miller, Childress, \$5.00; Mrs. R. G. Gribble, \$5.00; T. H. Russell, Vernon, \$5.00; Mr. and Mrs. William Gafford, \$10.00; Mrs. Frank Cates, \$5.00; Mrs. Belle Schoelling, Tulsa, \$5.00; Mrs. C. R. Ferguson, Waco, in memory of T. J. Ferguson; Mr. and Mrs. W. C. Smith, in memory of Doyle Kenner; Henry Black, \$10.00.

Mrs. Roberts says: "This falls far short of our monthly expenses which run around \$200 per month. Our readers are aware that it's with their assistance that our work is carried out. In recent newspaper articles, our neighboring towns, both Vernon and Quannah, say they do not have sufficient funds to take care of their cemeteries, out of money supported by a city. Just this week a neighboring undertaker commented on the general appearance of our cemetery and inquired, 'Just how do you do it?' Our local paper lists those who do it each month. Our caretaker is on a salary. When you pay us, we pay him. We plan to have our annual rummage sale and will need volunteers to put this over."

To Receive Nursing Degree

Miss Sandra Choate, daughter of Mr. and Mrs. Gilbert Choate of Cleburne, former Foard County residents, will receive her B. Gorman, Bishop of the Dallas-Fort Worth Diocese.

Miss Choate is a graduate of Crowell High School and is the granddaughter of Mrs. J. J. Choate of Margaret.

Foard Production Up 3 Barrels-a-Day

While oil production in the North Texas District took a small drop last week, Foard County's production took a 3-barrel-a-day jump. Production was 2,415 barrels-per-day last week, while the preceding week, the total was 2,412 barrels per day.

Soil Conservation District and Grover Moore Win Awards

Announcement of Texas' six individual grand award winners and the state's three outstanding districts in a nation-wide soil conservation program was made this week by the Goodyear Tire & Rubber Co., sponsor of the event. Because of the high concentration of farming in Texas, the state is divided into three competing units, with six individuals eligible for grand awards. Most other states comprise a single competing unit.

The two winners in Districts 1, 2 and 3, in addition to receiving plaques as permanent symbols of their conservation accomplishments, the six Texans will be guests of Goodyear at the Wigwam resort and Goodyear farms at Litchfield Park, Ariz., in December.

Included in second place honors were the Lower Peace River Soil Conservation area in district 1, which named Grover Moore, Crowell, as its outstanding farmer-cooperator.

This year's competition is the 13th annual program sponsored by Goodyear. It provides awards for districts and individuals in the categories of organization, education, planning, promotion and accomplishment in soil and water conservation at the state level.

Funeral services for Mrs. Inez Ferguson, 51, wife of Henry T. Ferguson of Fort Worth, will be held in the First Baptist Church today, Thursday, Sept. 8, at 10 a. m., conducted by the pastor, Rev. Glenn Willson.

Little League Thanks Workers and Donors

Foard County Little League has closed its 1960 year with a very successful season, Ray Shirley, secretary, said Monday. "A lot of hard work was accomplished. Next year we still have a lot of work to do on our field, such as grass, finish painting and finish the dugouts. Maybe next season, we will have a big clock."

The Little League organization has expressed its appreciation to Revis Harris for the purchase of the score board, and also thanked the members of the Lions Club who worked at night. Mike Bird, who spent many hours working on the little league field, was also thanked for his efforts.

A financial statement of the league appears on another page in this issue.

Mail Carriers to Distribute 1960 Acreage Cards

Postmaster Alva Spencer announced this week that rural mail carriers will begin distributing 1960 Acreage Survey Cards to patrons on their routes about Sept. 14.

The Post Office and U. S. Department of Agriculture cooperatively make this survey each year. These reports, directly from farmers, are the basis for official estimates for Texas acreage of all crops harvested in 1960.

To be sure this community is well represented in the survey, Mr. Spencer urges each patron receiving a card to fill it out and return it to his mail box.

Rural mail carriers working on this project are Mrs. Merl B. Wright, Henry E. Thomson and Fred Gray.

9 out of 10 Taxpayers Make Less Than \$10,000 a Year

According to the Tax Foundation, about nine out of every 10 persons who file an income tax return make less than \$10,000 a year. It adds that if the government took 100 per cent of all taxable income above \$10,000, the extra revenue wouldn't even pay the interest on the national debt.

The Farmers Co-Op. Gin here in Crowell ginned its first bale Tuesday morning. The cotton came from the farm of Dave Adams, contained 1,800 pounds of seed cotton and the bale weighed 505 pounds. H. C. Duncan, gin manager, reported that this first bale was ginned free of charge to Mr. Adams.

First cotton was brought to the Rayland Gin Tuesday afternoon and it was ginned Wednesday.

The first bale belonged to Johnny Daniel of Wilbarger County.

Calena Marlow, eight-weeks-old daughter of Mr. and Mrs. Jimmy Marlow of Abilene, suffered two broken legs in an automobile accident Sunday morning when the car driven by her father collided with one driven by Ed Turner of Hardeman County.

Mr. and Mrs. Marlow and daughter and Oscar Keith Marlow were brought to the Foard County Hospital for treatment. The accident occurred on the Medicine Mounds road about 3 miles east of the Crowell-Quannah highway.

made no miraculous changes, but we fully realize that this is our last year to gain a foundation for college or for life itself.

Yes, we have strived and worked and grumbled for eleven previous years. All this toil was aimed at one goal—our senior year and graduation.

We were eager first graders back in 1948. We wanted to read, to write, to build—to build for the future. We climbed the ladder of learning, grade by grade, rung by rung.

Finally, we reached a new plateau—high school. Again we entered school, but this time we were eager freshmen. There were many new ways, new teachers, and new friends. We worked and cooperated with others and gained an understanding of our fellow men and a new maturity for ourselves.

At last, we are now on the final rung. We are seniors. Yes, we're still eager—eager to explore and to experiment and to step into a new way of life.

The school is still the same, yet it seems a little different—older maybe. The teachers appear a little more tired, perhaps because of their untiring struggle to help us to understand the necessary principles better. We can look back on many happy and many sad memories, and we can look forward to new and exciting experiences.

Yes, nine months will pass quickly, and then our senior year will just be a memory. However, it will also become a building block in each of our lives. As we begin a new climb up another ladder—that of college and jobs, homes and families—we will better realize the fruits of our efforts. We will have received rewards of knowledge and friendship—rewards that we can apply to our world—the world of the future!

Band Notes

by Martha Fish

Our Wildcat marching band consists of fifty members this year; this is quite a bit larger than last year. We lost seven good members last year through graduation, but we have gained about fifteen members this year, and to them we would like to say, "welcome!"

Our flag bearers, Kay Johnson and Jo Carol Cooper, look very nice in their gold corduroy uniforms. It is the first time in many years that we have had anyone to carry our flags, so we are very proud to have these girls.

Our drum majorette for this year is Sue Sanders. The majorettes are Faunice Fairchild, head majorette, Ruth Sanders, Carolyn Hickman, Ella Ann Cates, Paula Sparks.

Has everyone seen the new uni-

forms our cheerleaders are wearing? They have black skirts, sweaters, blouses and sack. The sweater lettering is in gold. The cheerleaders for this year are Margie Rasberry, head cheerleader; Carol Bell, Carria Driver, Alta Nell Bartley, Elly Wehba and Barbara Bell.

Well, I hear Mr. Hesse, our band director, calling; I had better get my horn and get ready to march. See ya all at Rotan Friday!

Miles' Mumbles

Good morning, sports fans. Were you at the game Friday night? Well, if you weren't, you missed a real thrill as the Wildcats tore up the Iowa Park Hawks' tune of 30-14. The ball carriers looked exceptionally good, but let us not forget the boys who gave them their running room. The line is equally important as the backfield just as the defense is as equally important as the offense. Let's remember not to give a few players on the team too much credit; without the rest they could do nothing.

Fans, we appreciate the support you gave our team last year, and you too looked good last Friday night. Remember that though it's a little far to Rotan for the game tomorrow night, we'll need you there!

Library News

The librarians of Crowell High School wish to welcome all the freshmen and new students. There will be a librarian on duty each period to help you and to answer any questions you might like to know about the library.

Books can be checked out for two weeks and magazines overnight. However, they can be rechecked if you haven't finished with them.

You may have two books checked out at a time. The reference books and the magazines on the rack are not to be checked out or taken out of the library.

If you need any help, please ask us. We are here to help you know and enjoy your library.

Fall Fashions

For the first fashion report of the season, let us look at the latest fall fashions for girls.

The return of the waist is a definite thing this year. Belts are going to be a big thing on the fall fashions. The tie belts are especially promising.

The overall look is not only fashionable but comfortable with slim jims or straight skirts and the loose fitting jackets to make

20,000 Watch Lake Sweetwater Rough Fish Killed Last Week

West Texas fishermen saw 17,000 pounds of fish taken from Lake Sweetwater over last week end, but only about one per cent by weight represented edible fish. Through a cooperative arrangement between the City of Sweetwater and the Game and Fish Commission, a complete kill was undertaken on the lake. It was treated with more than eight tons of chemicals.

Some 24,000 persons witnessed the treatment, and more than 1,000 boats belonging to fishermen of the area were on the lake Saturday and Sunday. Most of the kill was shad and carp, with quite a few bullheads, according to Marion Toole, director of inland fisheries. The program was developed and handled by biologists Larry Campbell of San Angelo and Leo Lewis of Wichita Falls and their staffs.

The workers said they saw two fairly large catfish, one weighing about 17 pounds, and another 12 pounds, taken from the lake. Practically every bass taken out weighed more than 2 pounds, indicating that there was no yearling bass stock in the lake. Only two crappie weighing more than one pound were observed.

The treatment was applied by a barge, which spread the dry chemicals on the water surface. Boat with spray tanks got into the coves where the barge could not work. Previously, some 18 miles of the watershed had been treated in hopes of stopping rough fish infiltration with the next flood waters.

The lake now is to be restocked with game fish produced from Game and Fish Commission hatcheries.

Many Forms of Competition

Writing in National Review Bulletin, Norvin R. Greene says: "It is utterly fallacious to assert that true competition does not exist except when one competitor seeks to undersell or cut prices below the others. . . . The truth is that price-cutting is one of the poorest mechanisms of competition. It usually leads to reduction or destruction of profits and eventually to deterioration in service to the public. There are many other more effective ways of competing. More effective advertising, better selling strategies, superior service to the public, more effective distribution systems, establishment and maintenance of reputation for quality and unquestioned reliability—all these are more worthwhile competitive factors."

Decline in Consumer Optimism Shown

A decline in consumer optimism and sharp curtailments in buying plans for the balance of this year are reported by a Newsweek survey. With the exception of new autos, buying plans for every category measured by the survey were down for the second quarter, both from the year before and the opening of 1960.

Charlotte Bronte published her famous novel, "Jane Eyre," under the pen name of Currer Bell.

"Kidney pad" or "kidney plaster" was the contemptuous name the cowboy gave the small riding saddle often used by Easteners.

Fake Real Estate Brokers Bilking Public

"Swindlers and sharp operators, notably including fake 'real estate brokers,' have recently been plaguing rural areas . . .

"In many cases, fast-talking visitors convince the property owners that if they are allowed to advertise for him on a national basis they will be able to get a better price than he is asking. They persuade the owner to sign a contract and pay an advance fee of perhaps several hundred dollars—and then, often enough, they are never heard from again."

So-Called Liberal Way

"There is a sizable group in this state and in the nation who believe that the only way a political candidate or a party can win at the polls is to espouse the so-called liberal way of life.

"If that term needs more definitions, we would say that the modern liberal is one who wants more and bigger governments, more bureaucrats . . . and more inflation."—Lambertville, N. J., Beacon.

Russian Offer on Debt

"Russia owes us ten billion eight hundred million or better than 1/18 of our national debt.

"The joker? Our generous taxpayers' representatives have offered to cross off the ten billion and settle for eight hundred million. But to date Russia has only offered three hundred million and if we don't settle for that she will probably start charging us interest on the total figure of OUR money and some generous soul in Washington is liable to pay it. With tax money, by the way, it figures out better than \$60 for every man, woman and child in the country."—Waldoboro, Me., Press.

Big Radio-TV Plans for Texas' Many Football Fans

Texans, accustomed to good radio and TV coverage of college football will get better coverage than ever this season, according to an announcement from the Humble Company, sponsor of broadcasts for the last 27 years.

In fact, the announcement said, most of Texas will be able to hear any Southwest Conference game or see any NCAA telecast being broadcast each Saturday.

More than 200 Texas radio and TV stations will be used to cover urban and rural areas in hundreds of cities and towns in the state.

During the season, coverage will include radio broadcasts of all Southwest Conference games, games played by Texas Western College, a weekly videotaped Southwest Conference Game of the Week on 20 television stations, and the 13 NCAA live telecasts. Humble will be a co-sponsor of the NCAA telecasts.

In addition, Humble will sponsor radio and video coverage of the 14 play-off AAA and AAAA high school football games in December.

New in the radio broadcasts this year will be a series of recorded interviews with people connected with the game.

They will discuss interesting sidelights and behind-scenes activities.

The popular Game of the Week, featuring Kern Tips, will be shown each Sunday at 5:30 p. m. in most areas of Texas. Games will be selected by the conference, videotaped, edited, and then shown on the big network the next day.

The NCAA games will start with a telecast of the Georgia-Alabama

game on September 17. Southwest Conference teams appearing in these live telecasts include Texas, Texas A&M, and Arkansas.

Recently the oil company's 23-man announcing staff attended a football seminar held in Houston. Conducting were Tips, who heads the staff, and Coach Jess Neely of Rice University. They discussed types of play and formations likely to be seen this season, rule changes made since last season, and football broadcasting practices.

This year the announcers will travel thousands of miles to bring southwest football fans factual and interesting broadcasts from 41 stadiums in 17 states. And fans seem to appreciate this, for surveys have shown that about two million people see or hear one of these college games each week.

So, when the season starts September 17, football fans in Texas will know—if they cannot go to the games—Humble will bring the games to them.

Advertising Is Wonderful Development

"Whether one realizes it or not, advertising is perhaps the most wonderful development of the modern commercial age. It is the maker or breaker of business, big or little. It is the one factor of successful sales that is most apt to be overlooked by the merchants and businessmen of small towns

and cities.

"Advertising is . . . the power that will make little concerns grow into larger success. It is a character. It cannot succeed if it is based upon untruth; it must build upon faith and integrity."

Hunters Should

Respect Farm and Ranch Property

Have you ever asked, and been refused, permission to hunt on someone's farm or ranch? If you have, you probably could not understand why the landowner refused your request. Ed Cooper, extension wildlife specialist, says that you were probably the victim of some earlier hunter's discourteous or irresponsible actions. You have a chance to prevent this same thing from happening to some other hunter, continues Cooper.

Landowner-sportsman relations need improving, and the next few months—the hunting seasons—are the best time to accomplish this. Cooper offers a few tips on hunting courtesy that will help you and the landowner become friends:
Ask permission to hunt on any land or water.
Respect property.
Obey the laws on bag limits, shooting seasons and shooting hours.
Inform the landowner when and where you will be hunting.
Do not invite friends to hunt with you unless the landowner has given permission.

Handle firearms in a safe manner at all times. Make certain that you do not fire toward people, buildings or livestock.
Offer to pay for any damages done the property of the landowner.

Offer to pay for the privilege of hunting.
Make sure that all gates are closed behind you.
Be courteous and friendly.
Cooper concludes by saying that the hunter should remember that the farm or ranch is a place of business for the owner. He will appreciate your respect and interest in treating his property as a means of livelihood.

Texas Residents May Obtain Proof of Age from Census Bureau

Last year, 10,610 residents of Texas turned to the U. S. Bureau of the Census for help in proving they were born. These persons were among an estimated 30 million United States residents who are without proof of age or birth. The historical records of the Census Bureau provide the only source of this information for most of these 30 million people.

Proof of age or birth is needed today to collect social security and other retirement benefits. It is needed to qualify for jobs carrying certain age or citizenship requirements. It is needed for some forms of insurance.

Since 1920, the Census Bureau has provided more than three and one-half million persons with copies of their census records on age, place of birth, citizenship, or kinship. Persons seeking such records should write to the Personal Census Service Branch, Bureau of the Census, Pittsburg, Kansas, for a Census Records Search Application form. A fee of \$3.00 is charged for a search of not more than two censuses for one person and for one copy of the information found.

Additional copies cost \$1.00 each. An expedited search costs \$4.00. Expedited searches are usually completed within a few days while the routine \$3.00 search may take up to 30 days, depending upon the backlog of requests and the ease or difficulty in locating the information.

The personal information in the records of the 1900 and later censuses is confidential by law and may be furnished only upon the written request of the person to whom it relates or, for a proper purpose, a legal representative such as guardian or administrator of an estate. Information regarding a child who has not reached legal age may be obtained upon the written request of either parent.

Fighting Losing Battle
"The railroad workers we fear are fighting a losing battle. Evidently they are battling against every effort of the railroads to eliminate unnecessary jobs in operation, but with rail lines being abandoned in many places it looks like the railroads are faced by necessity to do this. Modern equipment has done away with firemen on the old coal-burning engines and no one expects him to keep a job for sentimental reasons."—Knoxville, Iowa, Express.
