Symbol of Freedom

Back in 1776 in this month of July, the original 13 colonies wrote and signed a Declaration which established them as free and independent states.

In the 185 years since then, the United States of America has grown to 50 states and has become the most powerful Nation on earth.

But of more significance today, in a world filled with turmoil, it stands as a mighty bulwark against tyranny and the threat of oppression.

We of General Telephone join with all freedom-loving Americans in expressing humble pride in our heritage and the principles of liberty for which it stands.
