Premier Side Oats Grama Proves Its Worth

Certified seed growers in the state have produced their first crop of Premier, a new variety of sideoats grama, and reports indicate they are very pleased with the results, according to Joe Burkett, county agent. The Texas Agricultural Experiment Station, developers of Premier, took a survey of growers and found that most thought the new strain was as good or better in every way than Coronado, Uvalde, Vaughn or El Reno.

All of the growers surveyed said they would recommend Premier to their friends because of its outstanding qualities. One of Premier's greatest advantages over other commercial varieties is its ability to grow under limited moisture conditions. Another is its tendency to retain its spikes after maturity, thus allowing more time for harvesting.

Forage production is another of Premier's strong points. The seed germinate readily, and the seedlings develop into mature plants in approximately 120 days. This, coupled with the plant's ability to produce long, broad leaves, makes for a bountiful forage production in a relatively short time. Premier is recommended for the area bounded by Lubbock, Sonora, Stephenville and Marfa. Burkett says that although Foard County is not included in these boundaries, all indications are that Premier will do well here.

Requirements Are Relaxed for Social Security Benefits

"Changes in the social security law in 1960 reduced the amount of work needed to get benefits," reports Erton F. Tate, district manager of the Wichita Falls social security office.

"For benefits to be paid to a worker or his family when he reaches retirement age, dies, or becomes disabled, he must have worked under social security for a certain length of time," said Tate. Just how long a person must work depends upon his date of birth, or when the payment of survivors or disability benefits is involved, upon the date he dies, or becomes disabled.

As an example, anyone who reaches retirement age (65 for men and 62 for women) this year will need to have no more than 34 years of work. Until the change in the law, a person of this age would have needed at least 5 years. Also, the survivors of workers who died after June 1954, and who were not eligible for benefits previously, may now qualify in many cases.

Anyone who believes that he or she may qualify for payments as a result of this change in the law should get in touch with their social security office promptly.

Deer Kill in Dimmit County Heavy in '60

Dimmit County, along the Texas-Mexico border, produced some of the top deer hunting of the past season, according to the annual report of Herbert Ward, supervisor of game wardens and a resident of the county.

This was the fourth year of hunting under regulatory authority. There were 316,461 acres of land opened to hunters, who bagged 1794 bucks and 142 doe for a total kill of 1936 deer. They also got 67 turkeys.

There were 2425 hunters, representing a 17 per cent increase in hunter success. This surpassed all other previous records for the county.

It is estimated the landowners received \$68,735.50 in lease money from the deer crop.

Business Runs Poor Third in Survey

"We get a sinking feeling in our stomachs as we read that in a survey among high school students on the question 'Who contributes most toward improved living standards—business, government, or union leaders'—business ran a poor third."—Bridgewater, S. D., Tribune.

STATE CAPITAL
Highlights AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

Austin, Tex.—After hours of fiercely critical debate, the House voted by a surprising 149-to-10 to attack the state's fiscal problems by working first to retire the deficit as an emergency matter.

This is the approach advocated by Gov. Price Daniel and Speaker of the House James Turman. Several who spoke against the deficit-retiring resolution voted for it. Agreeing to retire the deficit, however, is not the same as agreeing on how to do it. Some new measures, big and broad, have been introduced.

Rep. George Hinson of Mineola has submitted an omnibus tax measure which he says will bring in \$293,000,000 over a two-year period. It is backed by Governor Daniel.

Hinson's bill includes levies on natural gas pipelines, power-driven objects and parts, utilities, stock transfers, jewelry and watches, construction materials, soft drinks, beer, wine, liquor, restaurant meals.

According to the governor's office, the bill would provide revenue for an \$800 a year teacher pay raise and other spending but is not aimed at wiping out the deficit.

Reps. John Allen of Longview and Forrest A. Harding of San Angelo are proposing an even bigger one. It is a 2 per cent general sales tax to raise an estimated \$317,000,000.

Rep. Ben Atwell of Dallas has introduced, as promised, his "Texas broad-based excise tax."

It is not called a sales tax, but in the language of the bill, imposes "upon each separate sale at retail of tangible personal property within this state an excise tax of 2 per cent." It has a long list of exemptions, including some already-taxed items.

CO-OP BILL KILLED — REA electric co-op hopes for more city privileges were tumbled by a 77-to-64 House vote.

Several years ago, the Legislature passed a law authorizing co-ops to continue to serve the same customers when a co-op area is annexed by a city. This year the co-ops sought permission to add new customers to existing lines annexed areas.

Opponents charged that this would put a government-subsidized operation in competition with private enterprise. Spokesmen for private utilities declared they have to pay 27.1 per cent of their in-

come in taxes compared to 1.6 per cent for co-ops.

Co-op leaders say that, after taking electricity to areas the private companies wouldn't serve, they are now in a life-or-death struggle.

ANNEXING CURB PASSED—No longer would Texas cities be able to reach out and annex "all out of doors" under a bill passed 139-to-5 by the House.

It provides that cities would be encircled by a zone in which they would have control of building and sanitation codes, but would not have taxing powers. A portion of this zone could be annexed each year.

Also, cities would be required to get city utilities to an annexed area within three years.

LOAN LAW SOUGHT—House Banking Committee is engaged in one of the sessions' toughest and most difficult tasks—hammering out new regulations for the small loan industry.

A constitutional amendment voted by the people last November removed the blanket prohibition against interest of more than 10 per cent and gave the Legislature authority to set interest rates and regulate the loan industry.

Five bills are under study. In general they provide for a maximum charge of 3 per cent per month on loans under \$100, less for larger loans. Whether credit insurance should be included in maximum charges allowed is one of the questions at issue.

NEW INSURANCE RATE BILL—As a new approach to auto insurance rates, Sen. Grady Hazlewood of Amarillo has introduced a bill to require legislative approval of State Board of Insurance orders.

Hazlewood said his first approach, a bill directing the board to make certain changes in the present auto rate plan, had been "bottled up."

On the other side of the Capitol, the House Insurance Committee voted out favorably a "flexible rating" bill that would take away from the Insurance Board the authority to set auto rates.

A few days earlier, Atty. Gen. Will Wilson issued an opinion that under present law, only the State Board, not the companies, can set these rates.

Prior to his resignation as the chairman of the State Insurance Board, Penn J. Jackson had suggested letting individual companies

set up their own merit rating plans on an optional basis.

MOUTHFUL — Texas A&M College exes, famed for their fierce defense of the school's traditions, have a problem.

Sen. W. T. Moore and Rep. B. H. Dewey, both of Bryan, are sponsoring bills to change A&M's name. There's more prestige in being called a "university" than a "college," they say.

Proposed measure would change name to Texas State University and Agricultural and Mechanical College, with a view eventually to making it just Texas State University.

Getting Patriotism Out of School Classrooms

Donald Wrynski, Public Relations Director of California Interstate Telephone Co., said recently, "... The subversive elements are now getting patriotism out of the school classrooms the same way they got God out. He did not blame the educators who, he emphasized, are governed by what the citizens demand. He blamed parents and other citizens who should have the welfare of our country uppermost in their minds at all times and demand that all schools conduct regular programs emphasizing the importance of our way of life, stressing

the importance of private enterprise, respect for the emblems of our Country and the history of the struggles that made ours the greatest nation in the world."

Could Put Many People Out of Work

"In Washington today, the legislative machinery is being lubricated for the effort to increase the minimum wage to \$1.25 per hour. There are some people who think it's sinful to oppose an increase in the minimum wage law. They hold that opposition to it is heartless. Yet many of the same people may find themselves unemployed should the minimum wage law be increased to \$1.25 per hour."—Simsbury, Conn., Herald.

Girl Scout Troop II Observes 49th Birthday of Scouts

Girl Scout Troop II is busy observing the 49th anniversary of the Girl Scouts of America. The theme of this year's birthday celebration is "Honor the Past—Serve the Future."

The girls went to the north park Saturday afternoon for a nature hike and study of bird nests. They were lucky in being able to observe the small red-headed woodpecker family preparing their nest.

Judy Whitley, Lela Jo Cates and Jan Carroll planned and set up an outdoor fireplace. They demonstrated their knowledge of fire regulations, permits and community rules. Virginia Stapp told how charcoal was made and the girls used charcoal in preparing the hamburgers. Janis Whitley and Ann Russell planned the games. Cindy Erwin and Jo Nell Bradford arranged a centerpiece and selected the singing grace.

On Sunday, March 12, the girls with their family's permission, attended the First Christian Church in a group. The other girls wore their uniforms to their own churches.

At the regular troop meeting on Mar. 1, a nature treasure hunt was enjoyed. Ann passed the requirements for the animal raiser badge. Jan served refreshments. Guests from the first grade were taught a singing game at the March 8 meeting. The guests were Robert Brooks, Nell Everson, David Stapp, Mary Lou Kralicke, Dale Carroll, Betty Whitfield, Leo Jay Whitley and Susan Davis.

Mrs. Glendon Russell is leader and Mrs. Cecil Carroll assistant leader of this troop.

Home Demonstration Notes

MRS. VIRGINIA ILSENG

A healthy skin requires a healthy diet. Teenagers with weight or complexion problems should take special note of the foods required for healthy bodies. This applies for adults, too.

Needed foods include fruit juices and raw fruits and vegetables. These bulky foods stave off hunger, a thought that weight watchers should keep in mind. Fatty, greasy foods such as chocolate or rich cakes and pastry are definitely taboo, if you have skin problems or are watching calories.

Milk, lean meats, eggs and other protein foods are needed daily for healthy skin, bones and tissues.

Between meal snacks are important to all teenagers, even those who are reducing. Most teens do not get enough food to provide adequate energy when they eat only three times a day. Athletes, especially need extra helpings of food and wholesome between meal snacks.

Appetites are not spoiled by between meal eating if snacks are appropriately spaced. They also prevent teenagers from gorging themselves at meal time.

Peppermint Alaska Pie

1 2/3 cups graham cracker crumbs (finely rolled), 1/4 cup sugar, 1/4 cup softened butter or margarine, 4 ounce jar chocolate sprinkles, 1 qt. vanilla ice cream, 1/2 cup crushed peppermint candy, 3 egg whites, 3/4 cup sugar.

Thoroughly blend graham cracker crumbs, sugar, softened butter or margarine, and chocolate sprinkles. Press firmly against bottom and sides of 9 inch pie plate. (The easy way is to press crumbs into place using an 8 inch pie plate.) Bake in a moderate oven (375 degrees F.) 8 minutes. Cool and freeze.

Soften ice cream slightly and stir in crushed peppermint candy. Pile into crust and freeze until firm. Just before serving, beat egg whites with sugar until stiff. Spread meringue over pie, sealing edges to crust. Bake in hot oven (500 degrees F.) 3 to 4 minutes. Serve immediately. Makes 6 to 8 servings.

The March Garden Club meeting was held at the home of Mrs. O. B. Davis with Mrs. Ed Huskey and Mrs. Guy Morgan as assistant hostesses.

The program topics were "Herbs and Wild Plants Used as Food," by Mrs. Ray Duckworth, and "Herbs and Wild Plants Used as Medicine," by Mrs. L. A. Andrews.

A report was given on the planting of the shrubs at the cemetery. These were purchased by the Garden Club. These consisted of a landscape planting at the entrance gate and four flowering quince for the center.

Plans were made for a flower show toward the middle or last of April. The hostesses served a delicious refreshment plate to ten members.
