### Could Hardly Be Expected to Succeed

"Russia is now employing a powerful capitalistic persuader, incentive payments, in an effort to increase farm output and make good repeated promises to raise the standard of living and improve the national debt. . . Since free enterprise has always been the motivating force behind farmers the world over, the regimentation of collective farming in Russia could hardly be expected to succeed."—Denver, Colo., Western Farm Life.

### Two Minutes With the Bible

Be Ye Reconciled

Reconciliation postulates alienation. Only enemies can be reconciled. Thus God's message of reconciliation takes us back to Adam, the father of the human race, who first rebelled against God, and explains why God must deal with us all on the same level, as sinners who need salvation.

In Rom. 5:12 we read: ". . . By one man sin entered into the world, and death by sin; and so death passed upon all men, for that all have sinned."

Thank God, though, the message of reconciliation is not concerned exclusively with the "one man" by whom sin entered into the world. Indeed, it is chiefly concerned with the "one Mediator between God and men, the Man Christ Jesus" (1 Tim. 2:5).

"Therefore as by the offence of one judgment came upon all men unto condemnation; even so the righteousness of one the free gift (of salvation) came upon all men to justification of life."

"For as by one man's disobedience many were made sinners, so by the obedience of one shall many be made righteous" (Rom. 5:18,19).

It is by this other "one Man" and His death on Calvary, then, that sinners may be reconciled to a holy God. In Col. 1:21,22 Paul, the apostle of reconciliation, writes to believers:

"And you, that were once alienated and enemies in your mind by wicked works, yet now hath He reconciled."

"In the body of His flesh, through death, to present you holy and unblemished and unrepentable in His sight."

Thus "when we were enemies, we were reconciled to God by the death of His Son" (Rom. 5:10). And thus, too, the apostle pleads: "We pray you in Christ's stead, be ye reconciled to God. For He hath made Him to be sin for us, (Him) who knew no sin; that we might be made the righteousness of God in Him (II Cor. 5:20,21).

### Not So Before

"Our government is spending hundreds of millions of dollars annually in disease prevention, in research and in other ways which involve health, so much so that it is not strange that many citizens

—Page 2—  
**Foard County News**

zens are wondering how necessary it is to give to the various departments and canvasses for funds for and for that association. This must be a fearful amount of application. This was not so when the government entered the scene.—Virginia, Minn., Mesabi News.

### Poll Says Farmers Oppose Tighter Government Control

"The nation's farmers overwhelmingly oppose tighter government controls, if a poll readers of the nation's farm magazine is any indication. Only four per cent of over 100,000 Farm Journal readers who in ballots voted in favor of compulsory quotas advocated a farm program being pushed by the present Administration."—Liberal, Kansas, Southwest Times.

### New Force in Japan

"As Tokyo's famed Times' expressed it recently, power of Japan's women grown tremendously since they were given the suffrage after the war. A great change has taken place in the picture of U. S. citizens have had of the traditional Japanese housewife excessively modest, retiring, son who was almost a mere household servant. Japanese women have discovered a propensity organizing. Now Japanese politicians have suddenly realized they must recognize a new political force in Japan, the Shufesha Federation of Housewives Association."—Ontario-Upland, Daily Report.

### Deserves More Investigation

"We don't quarrel with the basic idea of foreign aid—help other freedom-seeking nations enable them to grow stronger more easily resist communism. But, when the United States deeper into debt to help set up a treasury surplus in nations, something is wrong. aspect of foreign aid deserves great deal more investigation."—Charleston, Tenn., The Record.

## If you take your truck for granted

...it's a good one!

A truck that doesn't call for a lot of attention, that just does its job every day, is a great asset. This is the thing most users tell us they like about Chevrolet trucks—their reliability. And this, of course, comes from quality. Sound engines, strong frames, double-wall construction, insulated cabs, separated bodies and cabs, tight tailgates . . . are some of the features that help Chevrolet trucks work longer and bring back more of your investment at trade-in.

If you wish you had a truck that cost you less thought and attention, put your money on quality. Make your next buy a dependable Chevrolet truck.

## Only Electricity Provides Flameless Cooking

Every homemaker likes to "cook cool" . . . and a modern electric range lets you do just that! Flameless electricity concentrates the heat where it does its work, at the same time getting rid of flame-caused fuel grime deposits on kitchen walls, cabinets and accessories. Be a cool cook in a clean kitchen. Cook electric!

**Nothing Constructive and Large Can Be Negotiated Either**

Walter Lippman writes: "In all of Western Europe . . . there is a conviction which does not exist equally in this country, that the balance of nuclear power as against the Soviet Union is an accomplished fact. Quite generally, the Europeans believe that the East-West political stalemate which results from the nuclear deadlock is not soon going to be broken, and that therefore while there will be no nuclear war, and no small conventional wars about Berlin and Germany, nothing constructive and large can be negotiated either."

## Slow Down and Live Program Cites Dangers of Speed

Sgt. D. R. Dowdy, Highway Patrol supervisor of this area, says the current "Slow Down and Live" summer campaign has played an important role during the last several years in acquainting motorists, especially vacationists, with the danger of speed and the ever-present hazards of the highways during the crowded summer months. Many vacationists from other states will be in Texas for the first time this summer. Some of them will be unfamiliar with the roads and road signs. Many of them have only a smattering of knowledge of traffic laws of their own state, and little or no information about those of other states where they will travel. Commercial drivers and motorists who travel the highways day after day have little difficulty in distinguishing the stranger, even before seeing his license tag. Unless motorists show courtesy and consideration to the vacationing driver and try to help him, they may discover that their own speed will cause an accident involving the tourist who may suddenly slow down to make an unexpected turn or to get his bearings. Those who live and drive in Texas must remember that we would be just as bewildered in another state as this motorist is in our own state. It is under such circumstances that we must do some thinking for him, we must drive defensively.

The sergeant stated the out-of-state traveler, however, is not so much a threat to our safety as the native selfish motorist who drives

dangerously and discourteously with no regard for traffic laws, signs or signals.

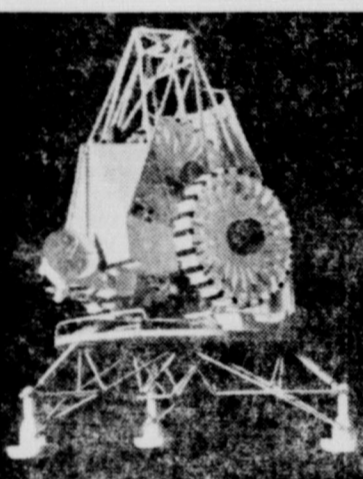

Throughout prior years, accident statistics prove that more accidents occur in the last six months of the year than in the first six months. With this thought in mind, the veteran patrol supervisor cautioned all motorists to exercise due care while traveling on the streets and highways. "Drive unto others as you would have them drive unto you," he said. The sergeant stated that this golden rule is a challenge for the motorists of Texas to reverse the trend shown in prior years for the last six months of the year.

## Horse Division Organized

Charlie Morris, chairman of the Cattlemen's Roundup for Crippled Children, announced the establishment of a horse division of the roundup. In announcing this division, he named Ed Heller of Dundee as chairman of the new division. Heller has been a chairman for the general division of the Cattlemen's Roundup for the past two years and will be in charge of the entire southwest area for the horse division. He pointed out that this was an opportunity for the horsebreeders of the southwest to support a most worthy project. He also stated that the sale for the colts and horses will be on Sept. 29, the same day as the cattle sale, at the Abilene Livestock Auction Commission.

## From the News THIRTY YEARS AGO

News items below were taken from the Friday, July 22, 1932, issue of The Foard County News:

A general rain fell over Foard County Thursday, and amounted to 2.20 inches.

Miss Texas Gamble and Oran Ford, young Foard County couple, were united in marriage at a wedding in Oklahoma Sunday.

Miss Lucille Shultz, daughter of G. A. Shultz of Thalia, became the wife of Oscar E. (Gotchie) Mints of Thalia in a marriage performed at the Baptist parsonage in Thalia Sunday morning.

It is expected that about 1,100 ballots will be cast by voters of Foard County in the first Democratic primary here Saturday.

Considerable interest has been shown by the farmers of this section relative to summer curing of hogs since the publication in the News last week of an article about this matter in which Eli Smith, local manager of the West Texas Utilities Company, stated that his company would be willing to remodel its ice vault for a curing plant if sufficient interest was shown in this matter.

The annual picnic of the 4-H Club boys and girls of Foard County will take place on Friday at the Gribble Park about 3 miles southeast of Crowell.

The Gambelville school will begin its 1932-33 term on Monday, July 25, and will no doubt set some kind of record for the early opening of a school in Foard County.

As a result of action taken at the meeting of the city council Tuesday night, no interest, penalty or costs of any kind will be charged on delinquent city taxes that are paid before Jan. 1, 1933.

The candidate speaking at Thalia Saturday night was well attended and the ice cream and cake sold by the Methodist ladies amounted to \$16.00.

The 1832 wedding at Margaret was well attended Saturday evening and the ice cream sales and admission were a little more than \$7.00.

Thirty-two cars of wheat have been shipped from Margaret this season.

Mrs. W. B. Johnson and Miss Frances Hill have returned from a visit in Oklahoma City.

Mr. and Mrs. Virgil Smith of Crowell and Fay Cates of Thalia spent last Saturday night and Sunday visiting Miss Oneta Cates, who is taking a nurses' training course in West Texas Baptist College in Abilene.

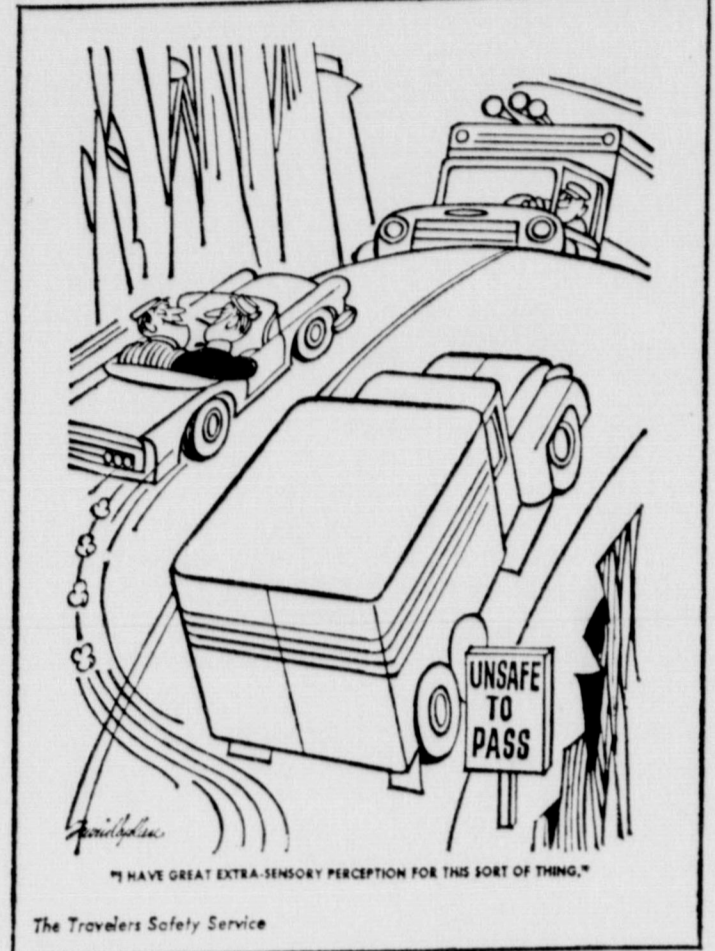

Frank Meason and family visited this week with relatives at Farwell.

Pat McDaniel was here this week from Ralls visiting relatives.

Miss Lennis Woods, who is an employe in the insurance office of Leo Spencer, left Sunday for Canyon where she will spend a two weeks vacation visiting relatives.

Joe Drabek returned Sunday from Cameron, Texas, where he attended the 20th annual state convention of the Roman Catholic Union of Texas, an insurance organization operating exclusively in Texas. He also visited his son, Charlie, at LaPorte.

### Profit Picture Dark

"The profit picture in this country is serious. In relation to sales, profits of manufacturers after taxes last year amounted to only 4.2 cents of each dollar of sales and have fallen steadily. In 1950 it was 7.1 cents on each sales dollar. Profit is the life blood of American industry, yet each year it grows smaller and smaller."  
East Prairie, Mo., Eagle.

## Foard City H. D. Club

"Have you a friend?" was read by the hostess, Mrs. E. V. Halbert, when the Foard City Home Demonstration Club met at the recreation room Tuesday afternoon, July 20.

Roll call was answered with "how I can help a 4-H member" by five members and five visitors: Misses Dena Todd and Karen Shirley of Crowell, Penny and Gwynn Stout of Wichita Falls, who are visiting their grandparents, Mr. and Mrs. Grover Owens, and Sandra Darnell of Greenville, who is visiting her grandparents, Mr. and Mrs. F. A. Traweck.

Mrs. Glenn Jones gave the council report and the treasurer a financial report. A sympathy card was signed and sent to the Welch family.

Misses Todd and Shirley, 4-H Club members, brought a very interesting program, "The Egg and You." They prepared and served "Goldenrod Eggs," and then led the group in playing several games.

The hostess served iced punch and cookies.

A program on first aid will be presented by Mrs. Glenn Jones at the last July meeting.

## 48% Increase in Social Security Taxes to Be Necessary by 1968

Benefits already promised, and enacted into law, will require a 48 per cent increase in Social Security payroll taxes between now and 1968. The current maximum of \$150 a year will rise to \$222; the 1968 rates for the self-employed will be \$331. Costs of the proposed measure which would provide medical benefits to everyone drawing SS benefits would have to be added to these. Those costs are estimated to be at least \$1.1 billion for the first year, increasing to about \$5 billion annually within 10 years.

## A New Look

There is said to be a new trend on the American college scene causing consternation among professional liberals, the socialists and the communists. Students are inclined to line up with cool logic the ranting of the wild-eyed theorists and followers of socialist-communist ideas. They no longer consider smart to be pink and look to belittle integrity, morality, patriotism, Pinks advocating overthrow of marriage, the U. S. Constitution, government ownership and other trends. Statism in some form, have received coolly and sometimes some very embarrassing editions.

On almost every campus in country there is said to be a rising conservative organization of students challenging the status of the professional liberal-socialists. These youngsters proclaim that they want and believe in freedom and the right to their own destiny. They are afraid of the big Red Threat they've found it's fun to expose the myths of socialism. Isn't it about time for the of us to follow their example? Scandal Sheet, Graham.

America's Largest Independent Telephone System

**To supply your needs**

When construction requiring wire, cable and other materials is under way, when you want a new telephone or an extension, this new equipment should be available without delay.

That is why General Telephone maintains many supply centers such as the one pictured.

In these supply centers experienced people must anticipate months in advance what equipment and materials will be required for both expansion and repairs.

It is another way the folks at General Telephone work hard at the job of providing you with the good telephone service you want, when you want it.

**Cancer Has Always Been a Fearsome Disease**

Ever since the first spark of life appeared on this earth, cancer has been one of the most fearsome, most enigmatic diseases mankind has had to contend with. But we know more about it than is generally realized. We know enough, in fact, that a diagnosis of cancer need not be considered a sentence of death.

We know that all types of cancer are different since they affect different tissues of the body. We know cancer has no respect whatever for age, although it does occur more frequently after 40. Conversely, we know it ranks high as a cause of death among children.

Cancer is not inherited, although a tendency towards cancer sometimes occurs in families.

We know that cancer is not contagious or communicable from one person to another. We know that certain agents or conditions will cause certain types of cancer or are factors in causing cancer.

For example, exposure to sunlight over long periods of time (farmers, seamen) is known to cause skin cancer. Certain chemicals such as aniline dyes may cause cancer in experimental animals.

An injury or prolonged irritation of the mouth or lip area such as sometimes comes with habitual pipe smoking is also a factor in causing cancer. Prolonged exposure to x-ray or radium may also cause cancer of the skin or other parts of the body.

Perhaps the most important thing we know about cancer is that many cases can be cured by early removal by surgery or by irradiation with cobalt, x-ray, or radium or a combination of these techniques. Rapid strides are now being made in treatment of certain types of cases with chemical compounds.

Since it can be cured, why do more than 10,000 people die in Texas with cancer each year? Because by the time the disease is recognized it is too far advanced for effective treatment. Many of these persons could be saved by early diagnosis and treatment.

If this one cardinal fact could be drilled into the minds of people until it moved them to have periodic health check-ups, cancer deaths could be greatly reduced.

(A feature of the Public Health Education Division, Texas State Department of Health.)

Mr. H. W. Banister of Thalia spent Saturday night with her sister, Mrs. Grover Nichols, in Crowell and attended the wedding of Shirlia Nichols and Tommy Lamb.

Mr. and Mrs. Grady Graves of Archer City spent the week end here visiting Mr. and Mrs. Thayne Amonett, and family. Mr. Graves is coach at Archer City High School.

L. V. Johnson, who has been visiting in Dallas with a daughter, Mrs. Lloyd Armstrong, at 2702 Anzio, has returned to Odessa where he has been living the past year with Mrs. W. C. Golden and J. C. Johnson.

Harold Banister and daughter, Mary, of Houston visited his mother, Mrs. H. W. Banister, last week. They had been vacationing in California and Colorado. His wife remained in Denver for a longer visit with her relatives.

Mrs. Bob Echols and children of Pampa were here last week visiting her parents, Mr. and Mrs. A. R. Sanders.

Mrs. H. W. Banister has returned from a two weeks vacation trip. She spent some time in the homes of two of her sons, Harold and Bryan, and their families, in Houston; also in the home of another son, John Hugh, and family in Dallas. She also visited a granddaughter, Mrs. Bob Thompson, and family in Conroe. They have a new baby daughter, Melissa, who is a granddaughter of the John Hugh Banisters and great grandchild of Mrs. H. W. Banister.

## Lamb-Nichols Nuptials Read at Grover Nichols Home

At an early evening ceremony Saturday, July 14 in the home of the bride's grandparents, Mr. and Mrs. Grover Nichols of Crowell, Miss Shirlia Ann Nichols, daughter of Mr. and Mrs. Claren W. Nichols of Crowell, became the bride of Tommy Dwight Lamb, son of Mr. and Mrs. Thomas Lamb of Quanah. Stanley Neeley, Minister of the Church of Christ, officiated at the double ring ceremony at 8:30 p. m.

The marriage vows were repeated in an impressive setting. The couple stood in front of the bay window in the living room. Two beautiful arrangements of white and blue chrysanthemums with jade foliage were on either side on white step tables. The tops of the tables held identical lamps with blue lights. Charles and Mike Nichols, brothers of the bride, turned on the lights.

Mr. Nichols presented his daughter for marriage. The bride was attired in a short length dress of sheer white tulle. It was fashioned with a fitted all over embroidery bodice with low round neckline, short cap sleeves and bouffant skirt. Her bouquet of white and blue chrysanthemums atop a white Bible, a small white satin hat with white veil completed her costume. She wore a three-strand white pearl necklace, and carried the tradition of wearing something old, new, borrowed and blue. She also had a good luck penny in each white slipper.

Her only attendant was Mrs. Herbert Nuttall, of Quanah, matron of honor. Mrs. Nuttall chose a sheer white and yellow nylon organza short length dress fashioned similar to that of the bride. Her bouffant skirt and fitted bodice were complemented with a low round neckline dotted with rhinestones with short cap sleeves. She wore a three-strand white

and yellow bead necklace. Herbert Nuttall attended the groom as the best man.

The bride's mother chose for her daughter's wedding a blue sheer dress with white accessories. The groom's mother chose a sheer printed dress with white accessories.

Immediately following the ceremony, a reception was held in the dining room. The refreshment table was overlaid with a white lace cloth over blue, the bride's chosen colors. The crystal service was on one end of the table and the three-tiered cake with a miniature bride and groom atop, was on the opposite end. Two white lighted candles in crystal holders were in the center of the table. After the bride and groom cut their cake, refreshments of punch and cake were served to close friends and relatives by Miss Sue Morris of Quanah and Mrs. Carrie Davis and Mrs. Daisy Thompson of Crowell.

Mr. and Mrs. Lamb have established their home at 309 East 6th Street, Quanah.

Those attending the wedding were Mr. and Mrs. Herbert Nuttall, Harold Lynn, Tyler, and Miss Kaye Bart, Weldon Wright and Miss Faye Burt, Miss Sue Norris, Arthur Aranda and Miss Ann Fitzpatrick, Mr. and Mrs. Thomas Lamb and daughter, Linda, and son, Bobby, and Jimmy Ashford, all of Quanah; Mrs. Mattie Davis, Mrs. Carrie Davis, Mrs. Daisy Thompson, Mr. and Mrs. Stanley Neeley, Mr. and Mrs. Claren Nichols, and sons, Mike and Charles, and Mr. and Mrs. R. G. Nichols of Crowell and Mrs. H. W. Banister of Thalia.

## Ice Cream Supper and Shower Honors Thalia Minister

Mr. and Mrs. Welton E. Nickel and family were surprised Sunday evening after Church of Christ services in Thalia, by an ice cream supper and a shower on the lawn

of the parsonage. A large crowd attended. Tables were set up on the lawn and games were played throughout the party.

A very generous shower was received by the Nickels from the members of the church where Mr. Nickel is minister.

## Truscott H. D. Club

Mrs. J. M. Chowning was leader for the study of "Diabetes and Cancer" at a meeting of the Truscott Home Demonstration Club July 12. She introduced the guest speaker, Mrs. Clyde Cobb, whose subject was "Diabetes and what I can do to help a diabetic." Ways of detecting and controlling the disease were given. Mrs. W. M. Rake and Mrs. H. A. Smith discussed new treatment for cancer, and told of the progress made in cancer research.

Mrs. J. R. Brown conducted the brief business session and presented a gift to Mrs. Cobb. Mrs. J. G. Acock gave the devotional, reading the 23rd Psalm, and prayer was offered by Mrs. W. O. Corder. At the close of the meeting, refreshments were served to members, Mrs. Cobb, and another guest, Karen Skellenger. The next regularly scheduled meeting is on July 26.

## West Side H. D. Club

The West Side Home Demonstration Club met in the home of Mrs. S. H. Ross Tuesday, July 10. Mrs. Donald Norris read the opening exercises, a poem entitled "I Want to Know Myself." Roll call was by Mrs. Norris and answered by members on "what I would like to have in next year's book."

Two of the 4-H girls, Dena Todd and Karen Shirley, gave a demonstration on egg cooking and it was served to the members. Also cookies and punch were served by the hostess to 8 members and four visitors: Mrs. Tom King, Mrs. J. C. Prosser and children, Jean Burkett and Miss Linda Williams of San Antonio.

Next meeting will be at Mrs. Jim Free's home July 24.

## Margaret H. D. Club

Roll call was answered with "a way I can help 4-H members," when the Margaret Home Demonstration Club met in the community house July 13.

Mrs. Hugh Shultz was in charge of the business meeting. She announced that the West Side Club

## LITTLE LEAGUE NEWS

by MARION CROWELL

Well, another Little League season is history, thanks to the good judgment of Bill Bell, Houston Adkins, Marcus Mills and Bud Myers. It would have been an utter impossibility to have re-assembled truly representative teams of either the Yankees or Braves after tournament time, and this way, instead of having one champ, we have two. And, as I said concerning their tie game of a week or two ago: each of these two teams was just too good to lose out in the championship race.

So, congratulations to the

1962 season!  
Home run hitters this year were more evenly distributed than ever before, as Steve Gray, Eddie Eavenson and Bob Bird blasted the old agate out of the park four times.

Gary Toles, with a tremendous hitting streak just before season end, wound up as hitting champion with a big, fat .585, and had three home runs in the final weeks of play. A few others hit well: Bob Bird .478, Steve Gray .392, Ronny Eavenson .363, Buddy Myers .488, Lynn .463.

For an All-Star team to have any luck in the playoffs, it must have quite a bit of depth in the lineup. Does our squad of this year have that? Of the 14 boys on the squad, NINE of them were or less regulars on the team. Can they hit? Barring an average for the entire squad, the team speed is good, and some terrific glove men. We would say we've a nice All-Star team this year. Go out to Mat tomorrow night and see the demonstrate their wares.

The new white uniforms were specifically for the All-Star game were donned on Monday night the first time, and the kids looked real sharp. Keeping sharp in should be no problem this year. In these new white uniforms the Foard and Knox County youngsters truly "look like a ball team."

July 16, 1927: The use of rine aircraft in the direct support of ground units was employed for the first time in combat. Major Ross E. Rowell led a force of six bombing planes in the attack and bombing a force of 500 dits, who unsuccessfully attacked a small Marine garrison at Nicaragua.

July 15, 1958: The 2nd Edition, 2nd Marine (Reinforced), landed in Lebanon to port the local government.

**Demographers Warn There Are Too Many People in the World**

Walter Briggs of the Herald Tribune News Service writes: "The world is rapidly on the way to smothering itself, the demographers warn us. There are too many people, they warn, on too few acres for such nations as India and Red China to feed themselves. The tidal wave of human birth is diluting the accomplishments of economic assistance to many of the underdeveloped countries. Unless something is done, it is asserted, much of mankind is doomed to eternal poverty."

**STATE CAPITAL Highlights AND Sidelights by Vern Sanford**

TEXAS PRESS ASSOCIATION

Austin, Tex.—U. S. Supreme Court's decision that federal courts have power to review acts of state legislatures in reapportioning representation was met with an uproar from many states.

"Reapportionment" is the business of redistricting a state to determine the number of legislators according to an area's population. National and state constitutions both provide for re-examination of representation in legislative assemblies every 10 years.

An area frequently gains or loses representatives to the state house. This happened in Texas recently, when a 1961 redistricting act by the legislature took effect.

Working under a constitutional amendment adopted in 1936, limiting cities to one representative for every 700,000 inhabitants, Texas' representative districts got a pretty thorough going over.

The 31-member senate body was not greatly effected by the reapportionment, however, since the law states that the senate "shall never be increased and no single county shall be entitled to more

than one senator."

What the U. S. Supreme Court would hold about such a constitution, in view of a congressional provision for two U. S. senators from each state regardless of population, won't be known until the question is put to its nine justices.

There is some reason to believe, however, that the higher court would look with disfavor of this State's constitutional provision limiting House representation to one member for every 100,000 inhabitants after a county attains a population of more than 700,000.

In the event citizens dissatisfied with the situation in Texas ever go to court for a reshuffling, they'll be armed with the information that 11 urban counties have a little more than half of Texas' 9,579,677 inhabitants and more than a third of the 150 members of the House of Representatives.

**HOPE FOR TRAPPED FISH**—An "escape route" for thousands of fish which risk death daily in a shallow pool off Padre Island is planned by the State Game and Fish Commission, which estimates that tons of game fish have died in a nine-mile hole north of Port Mansfield over the last 10 years.

Howard Lee, the commission's director of field operations, said red fish and trout swim into the shallow pool in the course of their north-to-south migration, "and don't recognize the fact that there's only one way out."

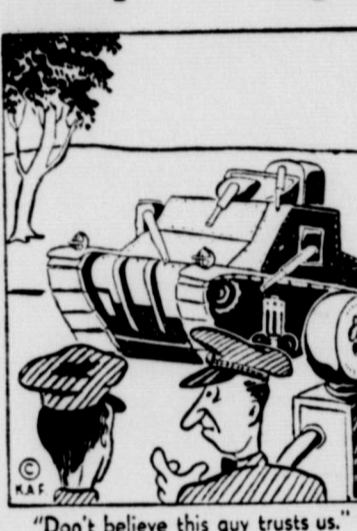

As the temperature increases in late spring and summer, the water level drops. Fish then are caught in a dry water pool created by drifting sands and are trapped there until death releases them as food for birds and other scavengers in the area.

Dredging of a six-foot deep, 50-foot wide channel running 4,000 feet through Laguna Madre into the Intracoastal Canal is expected to put a stop to the waste of fish and make them available for "harvest"—a Game and Fish Commission euphemism for fishing.

Up to now, fishermen have been unable to get to them in the pool trap without trudging through long distances of mud and sand.

sibility that a single deviated well might be drawing the allowables for eight or 10 wells on a lease that are actually dead.

Officials also revealed that the deviation survey is being extended to a single well in the Webster Field in Harris County. Operators have been asked to give permission for the survey under a new policy which allows the operator to volunteer permission before a court order is sought.

**Short Shorts**

Deficit in the State General Revenue Fund, which dipped to \$89,000,000 in March, was \$28,351,556 on July 9, according to State Treasurer Jesse James.

Land Commissioner Jerry Sadler says the waiting list in the Texas Veterans' Land Program has been reduced to less than 16,000. He figured his office would pass No. 94,000 this week, so any veteran applicant can estimate when his number will come up, since 1,000 contract forms are sent out each week.

Gov. Price Daniel reappointed Joseph B. Hutchison of Arlington and Lloyd Gregory of Houston to the Battleship Texas Commission and named Mrs. Murray Ezzell of Port Neches and C. H. Coffield of Houston new members. Also he appointed Weldon Cabisnis of Rockport to the Gulf States Marine Fisheries Commission.

Eleven Texas firms were among the 42 recently granted permission to issue \$22,050,375 in stocks by the State Securities Board.

A report by State Auditor C. H. Cavness showed that the Texas Surplus Property Agency, which disburses federal surplus property to schools, colleges and other public agencies, had an income of \$608,606 during fiscal 1961, while cost of operations was \$692,798.

**Who Should the Public Believe?**

"... when it comes to medical care, who should the public believe—the professional men of medicine or the liberal politicians who want to buy votes with a handout of free hospitalization? The answer should be obvious—health is a matter that should not be turned over to political witch doctors."—Hagerstown, Md., Herald.

**CROOKED-HOLE DRILLERS CUT OFF**—Texas Railroad Commission has severed pipeline connections and set zero allowables for all wells on leases in the East Texas Field on which deviation or inclination surveys have shown a crooked-hole oil well.

Chairman William J. Murray of the Commission says that the order covers 62 leases.

Attorney General Will Wilson advises that when a deviated well is found on a lease, the whole lease is to be questioned until proven otherwise.

Before the wells involved can be restored to production, operators must have inclination surveys made on each one, and must have production tests to determine each well's actual ability to produce. Wilson said production tests were required because of the pos-

**Card of Thanks**

We wish to acknowledge sincere appreciation of the many expressions of kindness shown us during the lengthy illness of Mrs. Cecile Carroll, who passed away at her home on July 15, 1962. Her funeral services were held at the Crowell Methodist Church on July 17, 1962. Her remains were interred in the Crowell Cemetery. We wish to thank all those who called, wrote, or in any way expressed their sympathy during our recent bereavement.
