sparkplug for economic growth

Payrolls pay off when new manufacturing industry begins operation in a town. Memphis, population 3500, is a good example. Pictured above is the Hall Plant, a unit of Burlington Industries, famous textile manufacturers. It brought a payroll to this Texas Panhandle town for more than 100 employees, mostly women, and has become n important addition to the local economy.

National studies show that payrolls, which come from 00 basic new jobs in a community, add 100 more homes uch as the total electric Gold Medallion home pictured left . . . increase retail sales by \$331,000 annually . . . reate three new retail establishments . . . bring 359 new people including 91 school children . . . and add 97 more car registrations.

This is another PATTERN FOR PROGRESS.

American industry is on the move . relocating, and establishing new product facilities all over the Nation. Here is another opportunity for communities to seek new manufacturing payrolls. WTU suggests that every community give serious consideration to this opportunity, since payrolls are, as we have seen, a sparkplug for economic development and growth.

JUDGE A

CANDIDATE

BY HIS

OPPOSITION!

Thalia, Texas

W. S. (BILL) HEATLY

During my 10 years as a member of the Legislature I have earned the opposition of certain special interest groups. The list includes those who want:

-LEGALIZED GAMBLING

-SALE OF LIQUOR BY THE DRINK

-TAX FAVORS FOR THE BEER INDUSTRY

There may be others from time to time, but these are always trying to defeat me and anybody who runs against me automatically has their support, financially and through paid campaign workers.

I urge voters of the 82nd Legislative District to check the source of organized opposition to re-election of Bill Heatly. Most of it comes from outside the district. Without exception my active opponents represent (sometimes innocently) those who belong in one of three categories:

(1) They want to get their hands a little deeper in the taxpayer's pocket.

(2) They want tax concessions; or (3) They want the right to engage in business now prohibited

not benefit them financially.

Based on 10 years of experience none of these ever supports legislation which does

I have a constructive voting record in the Legislature and have sponsored or actively supported such legislation as: (1) Exemption of farm implements from State sales tax; (2) Veterans Land Purchase Program, which is self-liquidating and doesn't cost taxpayers a single dollar; (3) Better care of indigent seniles and mentally and physically handicapped persons; (4) Hospitalization for recipients of Old Age Atsistance; (5) Constructive legislation on education, such as sponsorship of appropriations in last session \$167.8 million above previous biennium; (6) Continued operation of Rural Electrification and other measures of interest to people of my district.

It is easy to avoid opposition of special interest groups. All a member needs to do is vote for their pet measures!

In a job of this kind there is no substitute for experience. Lobbyists are never happier than when they can replace a veteran legislator with an in-experienced member who has only one thing in mind: getting special favors for his active supporters.

If you want a representative whose only obligation is to average citizens who want no favors,

VOTE FOR BILL HEATLY

FOR REPRESENTATIVE FROM 82nd LEGISLATIVE DISTRICT Democratic Primary, Saturday, May 2

(Political advertisement paid for by Bill Heatly)
