## Grady Halbert First Rotarian in District Elected Honorary Foundation Fellow

Grady Halbert, member of the Rotary Club of Crowell, District Governor of 1956, became the first Rotarian in this district to become an Honorary Foundation Fellow because of his contribution to the Foundation Program of his own club. He will be a member of the District 186 committee by Sidney District Governor, and will serve on this committee for the next three years.

Understanding and good will among nations—an investment in the future peace of the world.

**Background Information**  
The objects of the Rotary Foundation are:  
1. The promotion of Rotary Foundation Fellowships for advanced study.  
2. The fostering of any tangible and effective projects which have as their purpose the furthering of better understanding and friendly relations between the peoples of different nations.  
3. The providing of emergency relief for Rotarians and their families wherever war or other disaster has brought general destruction and suffering.

**Brief History**  
Conceived in 1917 at the International Convention in Atlanta, Ga., it was almost dormant for twenty years, with little growth until 1937 at the Nice, France, convention, when a plan was announced for raising \$2,000,000 for the Foundation.

In 1947, Paul Harris, founder of Rotary, passed away and, immediately special impetus was given the Foundation by many contributions being sent in from Rotarians everywhere in his memory. Mr. Harris had expressed the hope that whatever Rotarians might want to do in his honor, there was nothing he desired more than world understanding and good will among nations. The year of 1947 also marked the inauguration of the first Rotary Foundation Fellowship for advanced study.

**Accomplishments**  
From 1947 through the academic year of 1956, over 800 fellowships for advanced study had been awarded to qualified graduate students for one year of advanced study in countries other than their own. Each Rotary district in the world is eligible to put forward a candidate every other year and each club in an eligible district may sponsor an applicant. This district, No. 186, is eligible this year and the Rotary Club of Crowell hopes to sponsor a qualified candidate for this fellowship.

**Foundation Research Fellowship**—This is a special type of fellowship for the purpose of bringing well qualified persons from one country to another to study and learn about existing facts and techniques in medical and allied professions, social, scientific, and educational fields which are not generally known and applied in the country from which the person comes. The Foundation has granted fourteen persons this Research Fellowship. Relief for Distressed Rotarians—Over 12,000 food and clothing packages have been sent to former Rotarians, their widows or children, in war-devastated countries. In addition, through funds of the Foundation, families have been re-united and aid has been given to prisoners of war, etc.

This Year's Goal for the Foundation—Rotary International has set as a goal for the Foundation for the Rotary year of 1956-57, for every one of the approximately 9,000 clubs in 99 countries of the world to be a 200 per cent contributing club to the Foundation, which is an amount representing a total of \$20.00 per member.

The Rotary Club of Crowell was the first club in District 186 to reach this bracket and is now in the 300 per cent category and expects to reach 500 per cent through the Birthday Gift Plan by early 1957.

**Revival in Progress This Week**  
Revival services at the Baptist church are growing in interest and attendance, according to a large choir, led by Earl Rogers, director of music of the Baptist Church at Sun- day, furnishing inspirational music. The leader is well known about Texas for his evangelizing ability. His solos striking and inspiring.

W. B. Fitzgerald, pastor of the church, is doing some wonderful teaching of the Gospel, Rev. A. J. local pastor, stated, the response of the people of the county is encouraging.

## THIS WEEK

-In Washington

With

Clinton Davidson

The 84th Congress has gone, leaving behind it more than 4,000 new Federal laws, including the appropriation of more than \$65 billion for running the Federal Government another 12 months.

It might take you as long as six months, working 8 hours a day, just to read all of those laws. And if you stacked the \$65 billion into one pile of \$10 bills it would take you nearly 400 years just to count the 6 1/2 billion of them.

The average person in this country works a day and a half out of every week for the Federal Government, and another half-day for State and local governments. That is the current tax bite, both directly through income taxes and indirectly through numerous other taxes.

One out of every six employed people in this country is on the payroll of a government agency—Federal, State or local. And the payroll makes up only a small part of the total budgets of government agencies.

The Federal Government, in terms of employees and spending, is the George Wesley home, night in the George Wesley home. Mr. and Mrs. Raymond Mears of Farwell visited the Charlie Gray family and Mr. Gray in a Vernon hospital during the week end.

Bud Gray is visiting relatives in Carlsbad, N. M., and also in Old Mexico.

Mr. and Mrs. Johnnie Matus and family visited Mr. and Mrs. Robert Kubicek of Rayland Monday night.

Mr. and Mrs. R. N. Swan and the Trammel boys visited her parents, Mr. and Mrs. D. H. Skelton of Vernon Sunday.

Mr. and Mrs. Herschell Butler and Ann of Chillicothe were dinner guests of her parents, Mr. and Mrs. R. G. Whitten, Sunday.

Mrs. Buck Hudgeons of Vernon was a dinner guest of her daughter, Mrs. S. B. Farrar, and family Sunday.

Mr. and Mrs. Dave Shultz, Billy Doyle and Norman, Mr. and Mrs. Carl Shultz and family of Vernon all visited Mr. and Mrs. Paul Johnson and Mr. and Mrs. Richard Johnson of Crowell Sunday afternoon.

is approximately 100 times as large as it was 100 years ago, and it is 10 times as large as it was before World War I.

Contrary to the wit who once remarked that we are "fortunate that we are not getting all of the government we are paying for," we actually have been getting considerably more than we have been paying for. In the past 25 years, Washington has spent almost \$300 billion more than it has collected in taxes. That's the public debt.

We once had a Vice-President, Henry Wallace, who said that we shouldn't be concerned over the size of the public debt because, after all, we only owe it to ourselves. Maybe so, but our grandchildren will be trying to pay it off.

There are some 4,000 Federal departments, agencies and commissions in Washington. Yet, fewer than half of all Federal employees work in Washington. In several, if not most, States, the number of Federal employees is larger than the number working for the State and local governments.

Take, for example, just one of those 4,000 Washington bureaus—the Agriculture Department. Out of 61,000 full-time employees, only about 7,000 work in Washington. There are another 20,000 part-time USDA employees all of whom work outside Washington.

Government checks, for per diem work, go to an additional 90,000 to 100,000 part-time field workers for just one USDA agency, the Agricultural Stabilization and Conservation Service. To supervise those workers, the USDA maintains 2,961 county offices employing some 13,000 full-time employees.

Federal Government still is growing. Additional employees will be hired to administer many of the 4,000 new laws. For example, it probably will take 10,000 more workers to administer just one of those, the Soil Bank program.

### OUTPUT GAINS

Since the end of World War II, Canadian nickel producers have increased their annual rate of nickel production by some 95,000,000 pounds.

# State Capitol NEWS

by VERN SANFORD  
Texas Press Association

Austin, Tex.—Today's favorite riddle among Capitol seers is: "How will the new legislature 'go'—Conservative or Liberal?"

First primary voting results assured substantial turnovers in both houses. Fifty-four newcomers are certain in the 150-member House. At least seven "freshmen" are assured in the 31-member Senate.

Second primary returns could boost the turnover to 65 in the House, 11 in the Senate.

One astute, non-partisan observer hazarded a guess that the 55th Legislature will be "slightly more liberal." But he emphasized this was only a guess, necessarily based on campaign statements. Many things can happen to change these positions.

Only way to be sure, he commented, is to watch "em vote a few times." This is especially true, he pointed out, for the newcomers.

Senate newcomers include three men who defeated incumbents outright. They are Charles F. Herring of Austin, who won over Sen. Johnnie B. Rogers; Henry B. Gonzales of San Antonio, who defeated Sen. O. E. Lattimer, and Hubert R. Hudson of Brownsville, victor over Sen. Rogers Kelley.

In the Lubbock area, Ex-Rep. Preston Smith and Rep. Carroll Cobb are in a runoff after both edged out Sen. Kilmer Corbin.

Two other senators are in runoffs. They are Sen. Doyle Willis

of Fort Worth, contested by Rep. Joe Pyle; and Sen. William Shireman of Corpus Christi, opposed by Bruce Reagan.

Rep. Floyd Bradshaw of Weatherford won the post of the late Sen. Wayne Wagonseller. Two other senators did not run again. Sen. Gus Strauss of Hallettsville will be succeeded by Culp Kreuger of El Campo. Sen. Warren McDonald will be replaced by Rep. Bill Wood of Tyler.

Long-range guesses are that the conservative-liberal balance in the Senate will be "about the same as before." But the House is termed "still a jig-saw puzzle." Both conservative and liberal forces in the House will be without some of their staunchest advocates in past sessions.

Forty-three representatives retired. Among them were such liberal leaders as Reps. Dolph Briscoe of Uvalde, Maury Maverick Jr. of San Antonio and D. B. Hardeman of Denison. Twenty-eight men have been elected to fill vacancies; 15 are yet to be decided in the second primary.

Eleven incumbent representatives were voted out in July. Casualties included such known conservatives as Reps. J. O. Gillham of Brownfield, W. G. Kirklm of Quessa and Stanton Stone of Freeport. Other conservatives were among the 11 incumbents involved in runoffs.

This year's House turnover is only slightly larger than the average of one-third. Largest in recent history was in 1939, the year W. Lee O'Daniel first became governor and the House got 91 new members.

**DANIEL CITES NEGRO VOTE**—Bloc voting in negro precincts, dominated by members of the National Association for the Advancement of Colored People, will be a major issue in the run-off campaign. So stated Sen. Price Daniel in an Austin speech to campaign workers.

The candidate for governor cited election returns to show that big-city Negro precincts, where the NAACP is strongest, gave his opponent, Ralph Yarborough 87 per cent of the votes, compared with only 5.8 per cent for the Senator.

Typical of the Negro boxes, said Daniel, were Box 157 in Houston, which gave Yarborough 398 votes

to only 2 for Daniel.

Others mentioned were Box 68 in Houston, with Yarborough receiving 926 votes to Daniel's 35; Box 120 in Fort Worth, where Yarborough scored 458 to Daniel's 6; Box 59 in Fort Worth, Yarborough 454, Daniel 3; Box 309 in Dallas, Yarborough 436, Daniel 3; Box 226 in Dallas, Yarborough 322, Daniel 8.

**POLIO VACCINE FOR ALL**—The lid is off on polio vaccinations.

State Health Commissioner Henry Holle reports that federal allocation of Salk vaccine had ended. Shots are now available commercially for any person of any age. More-than-adequate supplies make the change-over possible.

For Dr. Holle it was the end of a several months' fight to get shots for persons 20 years of age and more.

Health Department statistics show that 16 per cent of all Texas' paralytic polio cases this year and 29 per cent of polio deaths hit persons over 19.

So far this year Texas has had 668 polio cases, 15 of them fatal. During the same period last year 701 cases were reported. Health officials credit vaccinations for the drop.

**STATEWIDE RAIN MAKING BACKED**—A statewide rain making effort may be launched to combat Texas' prolonged drought.

Sen. George Parkhouse of Dallas has called a September meeting of the Texas Water Resources Committee to study this possibility.

First to advance the idea publicly was O. G. McClain, Corpus Christi member of the committee.

A petroleum geologist, McClain contended that rain making is the "most economical, permanent and equitable way to get more water."

Even "with complete conservation and development," he said, the water supply still would be terribly inadequate. What we need are some good rains. We cannot legislate them. They are not coming naturally. The only alternative is to work for them.

**EMPLOYMENT DOWN AFTER PEAK**—Rain and strike settlements are the twin keys to Texas' unstable employment outlook.

Texas jobholders hit an all-time high in June. More than three million, said the Texas Employment Commission. But by July the drought and the steel strike had dragged the figure down.

Whether the employment picks up in August hinges on improvement of agricultural conditions and ending of labor disputes. Although the strike in the steel industry has been settled, two Texas plants are affected by the steel union strike against aluminum manufacturers.

**WESTERN SUPER-ROAD**—A superhighway to El Paso is being considered under the new federal-state building program.

"We've been looking for a long time for an East-West alternate route to U. S. Highway 80 through far West Texas," says DeWitt Greer, state highway engineer. "And our chances are increased with all this new federal money for interstate and defense highways."

**VETERANS' LAND JUDGEMENTS**—State recovery of veterans' land funds eventually could total \$3,000,000.

An Austin district court has

just awarded the state \$112,742 from a South Texas dealer. This brings the present recovery total to \$1,770,000.

Still pending are suits involving another \$1,130,000. This recovery program has been a mammoth job. Few people realize how intensive this investigation has been. "Investigations of the Land Office and the Veterans' Land Program," says Atty. Gen. John Ben Shepperd, "have been the most extensive and thorough in the State's history."

Latest reports from the Attorney General's office show that 35 cases have been filed, 24 have been tried, and the state has won them all. Twenty-three grand juries have been active in 18 counties. Every transaction of the Land Office has been checked. Over 200 witnesses have been called in to testify. And every bidder on every type of lease has been contacted.

How thorough the investigation has been is indicated by the fact that the bank accounts and income tax statements of employees of the Land Office for the past ten years were voluntarily submitted and carefully examined.

In addition each of the 16,000 veterans who purchased land under the program has been contacted. Also the 3,000 whose applications had been denied. A total of 800 depositions and 30,000 questionnaires were examined and four separate courts of inquiry held.

Making independent investigations have been the FBI, Internal Revenue Department, U. S. Post Office, State Auditor, Department of Public Safety, five Legislative Committees, the AG's office and the American Legion.

**PARK IMPROVEMENTS SUGGESTED**—Local community management and better fire-fighting equipment have been suggested for the state parks system. In his annual report of the State Parks Board, State Auditor C. H. Cavness observed that fire-fighting apparatus generally "seems to be inadequate."

He also called attention to "several parks, including certain his-

## Dove Season Set for Sept. 1 thru Nov. 28

Texas will have ninety-five half days of mourning dove hunting this fall, divided between north and south zones, the United States Fish and Wildlife Service advised the Game and Fish Commission.

The north zone season will run from September 1 through October 17, and the south zone will begin October 12 and continue through November 28.

This is an increase of five half days over the 1955 season. The Washington agency sets the seasons since mourning doves are migratory game. It generally follows the recommendations of the states.

Shooting periods will be from twelve o'clock noon to sunset. Limits will be ten per day and ten in possession. Kaufman County in northeast Texas has a special regulation by state law, closing the dove season in the Combine community.

The Executive Secretary said field reports state that Texas has an amazing mourning dove population despite the merciless torial parks, that we think would better serve their communities if given to the communities for complete operation and management."

**SHORT SNORTS**—Prices received by Texas farmers crept up one per cent during the month ending in mid-July, says the U. S. Department of Agriculture. Price increases were noted for potatoes, commercial vegetables, hay, wool, cotton and most small grains.

Texas Game and Fish Commission will begin mailing out some 700,000 new hunting and fishing licenses on Aug. 21. New permits will be needed beginning Sept. 1. Applications for the fall antelope hunts now are ready, said the commission. Deadline for requests is Aug. 31.

Texas lawyers will show off their swanky new Austin headquarters to National Bar Executives Aug. 25. An air trip to Austin is dated as part of the American Bar Association convention Aug. 24-26 in Dallas.

## Hunting and Fishing Licenses to Be Mailed to Dealers August 21

The new hunting and fishing licenses for the state's fiscal year beginning September 1 will be mailed from Austin August 21, according to E. W. Kinney, chief license clerk for the Game and Fish Commission.

Approximately 350,000 fishing and 350,000 hunting licenses in all will be shipped to the state's 2500 licensed agents in 254 counties.

Old licenses will be void after midnight, August 31. Resident hunting licenses cost \$2.15 and include two tags for deer hunting. Resident fishing licenses cost \$1.65.

The consignments will include the special non-resident license for migratory bird hunting, such as ducks, geese and doves. These cost \$5. A special five day non-resident fishing license costs \$1.65.

drought. Native birds comprise the bulk of the bags in the early season while migrating birds from the north bulwark the local numbers later in the fall.

The afternoon's program on World Fellowship was under the direction of Mrs. Blake McDaniel, who brought an article from the booklet, "To the Ends of the Earth." An account of a good

She described the manual labor of the group in the building of a church and how racial differences disappeared, only to return to America to be reminded almost immediately of this country's racial problems. As spiritual life secretary, Mrs. Jack Welch gave an inspiring message on the omnipresence of God. Sentence prayers concluded the service.

### You Can't Clip a T. V. Program!

Dorothy Kilgallen, the columnist and television star, recently had something pleasant to say about newspapers as reading matter. "You can read on a train crossing the desert or on a plane at 17,000 feet above the Atlantic—no static, no fading, no blips," says Miss Kilgallen. "You can read in a bathtub or while hanging onto a pole in a crowded bus. You can read as much or as little as you want, as fast or as slowly as you want. "And if you read something you like, you can tear it out and save it to read again some day. I enjoy radio and television, and I am gainfully employed by both, but I must admit they have their drawbacks. Did you ever try to clip a television program and paste it in your scrapbook?" Here's why the newspaper holds the dominant place in the homes and hearts of Americans. And here is why—to touch on the world of commerce from which all of us draw our livings—the newspaper remains an unsurpassed means of advertising goods and services.

## Several New Books for Young People Received at Library

Several new books for children and teen-agers have arrived at the Foard County Library, according to Mrs. L. A. Andrews, chairman of the library committee for the County Federation of Women's Clubs.

The books, which are different from the ones the young people find in their school library, are valued at \$52.00 and were selected by Mrs. E. C. King.

Mrs. Andrews explained that four new books are received at the library every month, three of which are for young people's reading enjoyment. For children up to nine years of age, there is a book from the Junior Literary Guild.

One is a selection for the older boys and older girls group, and each month there is an alternation. The third and fourth groups include books from the Young People's Literary Guild and Adult Literary Guild.

Among the selections for children up to age nine are "Try Again, Tommy," by Joyce Boyle; "Not Too Small After All!" by Eleanor Clymer; "What Susan Wanted," by Sally Scott; "Frog Went a-Courting" by John Langstaff; "Magic Island" by Clifford Webb; "Hippolyte, The Crab King," by Joy Anderson; "Windy Morning" by Harry Behn; and "Fortune Hill" by Cora Cheny.
