## Mrs. Emily Girsch Succumbed in Hospital Tuesday

### Funeral Services Held Wednesday at Methodist Church

Mrs. Emily Girsch, pioneer resident of Crowell and an active Sunday School teacher in the Crowell Methodist Church for many years, succumbed in the Foard County Hospital early Tuesday morning from injuries sustained in an auto accident on Friday, August 10.

Funeral services for Mrs. Girsch were held in the Methodist Church Wednesday afternoon at 5 o'clock conducted by the pastor, Rev. Grady Adcock.

Interment was in the Crowell Cemetery beside the grave of her husband, with Womack Funeral Home in charge of arrangements.

Pall bearers were Merl Kincaid, H. E. Thomson, Jeff Bruce, Grover Cole, Ray Duckworth and Foster Davis.

Miss Emily Purcell was born in Brazos County March 2, 1876, daughter of the late Mr. and Mrs. D. S. Purcell. After the death of her father she came to Crowell in 1906 with her mother and her cousin, Ed Boggs, and had made her home here since that time.

In 1932 she was married to M. J. Girsch of Marquette, Mich., who passed away here on Feb. 1, 1947.

For many years, Mrs. Girsch was a door-to-door saleslady, selling women's ready-to-wear. During this time she was also engaged in writing fire insurance, and continued her business activity until receiving the injuries that proved fatal. She also served as treasurer of Foard County for several terms.

Mrs. Girsch was an active member of the Methodist Church from girlhood and was in charge of the primary department of the Crowell Methodist Church Sunday School until her failing health would not permit. For a long period she was adult leader of the Epworth League of the Methodist Church, and was an active member of the Woman's Society of Christian Service.

Mrs. Girsch is survived by three cousins, Ed Boggs of Houston, Mrs. J. W. Thompson of Bryan and Mrs. Tom Strepy of Hico. She is also survived by a stepson of her sister, Allen Vannoy of McAllen; one stepson, Ralph Girsch of Seattle, Wash., and three stepdaughters.

## Rev. W. D. Brooks Resigns as Assembly of God Pastor

Rev. W. D. Brooks has resigned as pastor of the Crowell Assembly of God Church after serving the church for the past two years. He has accepted the pastorate of the First Assembly of God Church in Naacogdoches, Texas.

Rev. and Mrs. Brooks and their son, Damon, expect to leave Monday of next week for their new home.

## News About Our Men in Service

S-Sgt. Donald E. Reynolds, son of Mr. and Mrs. Charlie Reynolds of the Good Creek community, will leave his base in England en route to the United States on Sept. 16. He will fly to New York on Sept. 18 and expects to be home the latter part of September. S-Sgt. Reynolds has been stationed in England for more than three years.

## 22nd Annual Reunion of Baker Descendants to Begin Saturday

The 22nd annual reunion of the descendants of Henry Ward Baker will be held at the Wesley Park near Margaret next weekend. Other relatives and friends of Foard County and various other states will attend the reunion, which is always held on the Labor Day week end.

Morning worship services will be held Sunday morning at which time all babies will be baptized.

Thomas Ross of Olton is president, Mrs. John Wesley of Iowa Park is secretary-treasurer, and J. D. Mahoney of Dallas is program chairman.

## Crowell Schools to Begin New Term Next Monday Morning, September 3

The Crowell Schools will start classes next Monday morning, according to Superintendent Grady Graves. The school buses will have the children at the school at 8:30 a. m. and classes will begin immediately. There will be a short schedule run off the first day with the children being returned home by 12:30. The second day will start with the regular schedule of 9:00 until 3:30. The school cafeteria will start serving lunches on Tuesday.

**Faculty Meeting Saturday**  
There will be a faculty meeting next Saturday morning at 9:00 o'clock for the purpose of making final plans for the opening day. All employees of the school are required to produce health certificates for the first time this year.

## Raspberry Well Down to Pay Depth Wednesday

Humble Oil & Refining Co.'s well on the Jack Raspberry land in northwest Foard County had reached a depth of 6,150 feet Wednesday morning. A test was scheduled to be run Wednesday. The well is in the northeast corner of section 35, SPRR Co. survey and is an offset to the Canyon Reef producer of the Tennessee Gas Transmission Co.'s No. 1 C. M. Carroll.

**No. 1 E. M. Gamble**  
Newport Oil Company and Sherman Wagoner No. 1 E. M. Gamble, a 5,900 foot wildcat 2 1/2 miles east of Crowell, had reached a depth of approximately 4,350 feet Wednesday, it was reported. The project is located 330 feet from north and west lines of section 2, MEP&P survey.

## Crowell Fire Department Donates \$100 to Families of Firemen Killed at Dumas

The Crowell Volunteer Fire Department last week contributed \$100.00 to the Dumas-Sunday relief fund for families of the fifteen firemen who lost their lives in the recent Dumas-Sunday disaster. The State Firemen's and Fire Marshal's Association stated that as of August 21, over \$22,000 has been given. Contributions have been sent in from volunteer fire departments and citizens from all over Texas and also included one donation of \$236 from Monroe, La., Fire Fighters Local No. 629.

In a letter to the Fire Department of Texas, Olin Culbertson, secretary of the state association, said: "The firemen of Texas and their many supporters and friends have indeed done a splendid thing in providing these funds thus far. It is heartwarming in these times when there is so much talk about materialism, selfishness and 'chasing the dollar' to see such a generous and warmhearted response to the request for the relief of our fellow firemen's families in trouble, as demonstrated in the fine manner in this case."

## HARLAND HALLMARK DIES

Harland Hallmark, a former Foard County resident, passed away in the Baptist Memorial Hospital in San Antonio Tuesday following a long illness.

## Foard County Now Included in Hay and Roughage Program for Texas

Walter T. McKay, state director of the Farmers Home Administration, this week advised Glenn E. Womack, FFA county supervisor, of the designation of Foard, Hardeman and Wilbarger Counties under the Hay and Roughage Program for Texas.

Applications to participate in the Hay and Roughage program will be received immediately at the ASC office in the court house in Crowell.

The Hay and Roughage Program was worked out between the Governor and the Secretary of Agriculture to provide emergency assistance to farmers and ranch-

ers in the state's designated disaster counties. Under the program the local county FFA committee will determine each applicant's eligibility and will issue a certificate good for \$7.50 per ton on roughage actually purchased. The applicant will then apply the certificate on the purchase price of roughage from any dealer he chooses. The dealer endorses the certificate and draws a draft on the Emergency Drought Committee's account.

Applications may be filed through December 31, 1956. Roughage under the program includes hay either baled or loose, cotton seed hulls, peanut hulls, corncobs, sorghum bundles or ensilage.

## Mother of August Rummel Succumbs in Vernon Tuesday

Mrs. Lena Rummel, 74, of Vernon, and mother of August Rummel of Crowell, died suddenly Tuesday morning in a Vernon hospital after suffering a heart attack. Mrs. Rummel and her late husband, W. M. Rummel, who died 19 years ago, lived in the Margaret community several years before moving to Wilbarger County.

Funeral services were held at the St. Paul's Lutheran Church in Vernon Wednesday. She is survived by three daughters, Mrs. Minnie Graf of Hinds, Mrs. Mary Bodling of Lockett and Mrs. Alice Strand of Chicago, Ill.; seven sons, Gilroy of Wellington, Luther of Dumas, Bill and Aubrey of Vernon, Robert of Lockett, Hugo of Hinds and August of Crowell; 18 grandchildren and 9 great grandchildren; two brothers, Paul Stolle, Altus, Okla. and Otto Stolle of Taylor; two sisters, Mrs. Alma Fluhmann and Mrs. Maude Kubitz of Vernon; several half brothers and half sisters, and also several step brothers and step sisters.

The only new subjects being offered this year are the alternate courses in the schedule; chemistry instead of physics, and Spanish II instead of Spanish I. The high school students were enrolled last spring. There are fifty freshmen, fifty-six sophomores, forty-seven juniors, and twenty-six seniors, making a total of 179. There will be close to 600 pupils in the entire school, Mr. Graves said.

## Faculty Changes

There have been only two changes in the faculty from last year. Mrs. Moody Bursey will teach English in the 8th and 9th grades, and Truman Boyd will teach seventh grade history. Mr. Boyd has been engaged for half-time work. These two teachers are replacing Mrs. Carrie Hart and Mrs. Elmo Todd in the faculty.

Mr. Graves added that fifteen of this year's teachers have masters' degrees and the balance of the faculty has bachelor degrees.

## Emergency Feed Program Extended

Walter T. McKay, state director of the Farmers Home Administration, has advised Glenn E. Womack, county supervisor, of the extension of the Emergency Feed Grain program in Foard, Hardeman, and Wilbarger counties.

Farmers Home Administration county committees may now take applications from farmers and ranchers through October 1, 1956, to provide feed for basic livestock herds through October 31, 1956.

The emergency feed grain program is now authorized in 185 counties in Texas, Mr. McKay advised.

## RECEIVES MASTERS' DEGREE

Mr. and Mrs. H. D. Poland returned Monday from Wichita Falls where they visited their daughter, Mrs. Dick Todd, and family, and attended graduation exercises of Midwestern University last Friday morning at 10 o'clock. Mrs. Todd received her master's degree from the university at that time. She is a teacher in the Wichita Falls schools.

## EMPLOYED AT McCLAIN'S

Tip Albus of Rhineland has accepted a position as a combination helper in the meat department and grocery department of McClain's Super Market.

## Miss Anna Marie Faske Chosen Farm Bureau Queen in Contest Friday Night

At the annual Farm Bureau's Queen contest of Foard County held Friday evening in the High School auditorium, Miss Anna Marie Faske of Margaret was judged the winner and received her queen's crown from H. T. Cardwell Jr. of Vernon, who interviewed each of the contestants. They were asked about their hobbies, their future plans, and why they thought farmers should be organized and active participants of the Farm Bureau. Miss Faske, a senior in Crowell High School, cited sewing as her hobby and to attend the University of Texas with home economics as her major to be her ambition.

Miss Carolyn Monkres of Crowell, runner-up for the queen's title, said she liked to cook and also enjoyed the new swimming pool in Crowell. Miss Clara Faske, a sophomore in Midwestern Uni-

versity at Wichita Falls, and Miss Barbara Fairchild, who plans to enroll in that institution in September, told of their future plans. Miss Faske is majoring in home economics with the roles of teacher or home demonstration agent in mind, while Miss Fairchild has chosen mathematics as her major.

Out-of-town judges, Miss F. Hodge, J. G. Simmons and O. K. Boyle, were unanimous in their decision, basing their scores on personality, poise and appearance of the contestants. Tabulation of their scoring indicated all four girls were more than well qualified to be acclaimed the queen of Foard County. Each contestant was presented an engraved expansion bracelet, a gift from the Foard County Farm Bureau; and Queen Anna Marie was also given a nosegay of pink carnations.

Proceeding the contest, master of ceremonies Glenn Jones introduced Mrs. V. A. Johnson, who announced the numbers on the program. Little Misses Shirley Mike and Debra Sue Rasberry, accompanied by their grandmother, Mrs. Paul Shirley, sang two clever songs. Misses Judy Adcock and Mary Kay Coffey sang two numbers with Miss Linda Adcock at the piano. Mike Manard and Barry Barker gave piano selections, and Miss Roma Jan Spikes entertained her listeners with a monologue.

When the program was concluded, the photographer took several pictures of the queen as well as of the group as a whole. Miss Anna Marie Faske will compete in the District Farm Bureau Queen Contest in Vernon Friday night, August 31, at 7:45 in the Wilbarger Municipal auditorium.

here in the July primary, received 275 votes Saturday and Yarbrough received 411.

In the contest for attorney general, Will Wilson, who led in a 4-man race here in July, polled 373 votes Saturday, while his opponent, Tom Moore, received 174.

The only local race saw Floyd (Doc) Borchardt, a past commissioner of Precinct No. 3, regain the office by virtue of a 15-vote margin over his run-off opponent, Harry Traweck. Borchardt received 85 votes and Traweck 70.

## Swimming Pool to Close Tomorrow

Tomorrow (Friday) will be the last day that the Crowell Municipal Swimming Pool will be open this summer. It has been very successful this first season under the direction of Gordon Erwin, manager. The Crowell Public School has the pool leased from the City for the first ten years.

It appears that the pool will at least break even financially during its first year of operation. A complete financial statement will be published in the September 13 issue of The Foard County News.

A survey made on neighboring pools indicated that the pool would be very popular during the months of June and July and drop off in attendance during August. This has proven to be the case with the Crowell pool, too. There had been an average of 156 swimmers per day during the first two months of the summer. The average dropped down to 96 per day for the month of August.

## County's Budget Adopted by Court Last Monday

Total receipts to the county for all purposes are expected to reach a total of \$140,000.00 with beginning balances of approximately \$50,000.00 was the information furnished by County Judge Leslie Thomas to a News representative who attended the meeting of the Commissioners' Court Monday morning at which time the 1956-57 budget was considered.

## School Board Budget Hearing to Be Held Monday Night

A public hearing on the 1956-57 budget of the Crowell Consolidated Independent School District will be held on Monday, Sept. 3, at 8 p. m. in the court house.

At that time the Board of Trustees will consider the budget for the school for the coming year. Any taxpayer rendering property for taxation in the school district has the right to be present and participate in the meeting. L. A. Andrews, secretary, said.

## ENTER OLD MODEL CAR IN PARADE AT SANGER

Mr. and Mrs. Nick Chatfield and children, Sharon and Wayne Nickie, drove to Sanger last week end to attend a community fair and enter their 1932 model Oldsmobile sport roadster in the parade. This car has been restored in the last several months by Wayne Nickie and the trip to Sanger was made in it.

## JOHN SHIRLEY SUCCEUMS

Mr. and Mrs. Sherman Nichols, Mr. and Mrs. Claude Nichols were called to Rousing Springs Tuesday on account of the sudden death Monday of John Shirley, brother-in-law of Grover, Walter and Claude Nichols.

Mr. Shirley was reared in Foard County and lived here for many years. He was a cousin of Paul Shirley and was reared by Paul's parents.

## Parking Space on Highway at Baptist Church Widened

Construction work on widening the parking space on the highway south of the First Baptist Church on East Commerce is underway. The curb has been moved back and filled in by the State Highway Department.

William Simmons, local contractor, built forms and poured the concrete for the new curb and sidewalks. Following completion of that, the State Highway Department will put in the base and hot-top the parking area.

When this work is completed, it will give considerably more space for cars to park off the highway and will at the same time lessen the possibility of accidents. The widening process runs from the church building to the Phillips "66" Station.

## Boys Working Out for Football

Coaches Thayne Amonett and Glen Erwin have only 23 boys working out for football at the present time. They are trying to get ready for the first game at Seymour next week. A few boys at Coach Amonett had been training on to come through this season failed to show up, including letterman Don Lee Daniel. Few more have turned in their forms since practice started. Fredrick Youree, freshman end, received a serious shoulder injury Tuesday evening's workout and will probably keep him out of most of this season.

Lettermen who are still working out are: Prinitz Gidney, Gerry Bradford, Roy Don Payne, Fry Pittillo, Louis Rettig, Ray Amson, Edward Howard, David Spencer, Billy Everson, Melvin Ashburn, Gordon Cates, James Neal, and Harvey Smith.

Other prospects are: Dale Rettig, Larry Sledge, Henry Faske, Calvin Ivan Cates, Jimmy Henry, Duane Nichols, Bill Graves, and Crowell and Don Tole.

The Crowell squad had a joint practice with the Lockett team this morning (Thursday). They will have a similar workout with Floydada team here Saturday morning starting at 6:30 o'clock. The local fans are invited out to see how the team will shape up at the opening game at Seymour next week.

Austin, Tex.—National party candidates have been decided. State Democratic primaries are over. Texas' political focus now shifts to the upcoming state Democratic convention.

Nervous tension is apparent in Liberal-Loyalist ranks. They are fearful of losing control of the Sept. 11 meeting through the Conservatives' executive committee left in power last spring. That committee decides which of numerous contesting delegations will gain seats.

Navarro County Judge Jim Sewell, Liberal-Loyalist spokesman, asked recall of the "recessed" spring convention on the eve of the new convention.

It was apparently without hope. Permanent Chairman Raymond Buck of Fort Worth said he could see no reason for it. Executive Committee Chairman George Sandlin termed the Liberal demands "the cry of the vanquished." He has promised all contestants a fair shake in credentials hearings.

U. S. Sen. Lyndon Johnson may play a key role again. He has said he will be present. He assured Liberals in Chicago that he will use his influence to install leaders who will work for party victory in November.

**SHEFFIELD GETS 10 YEARS** —B. R. Sheffield of Brady is the second person to be convicted in the veterans land scandals. Sentence was assessed at 10 years.

Former Land Commissioner Bascom Giles is now serving a six-year sentence.

A Lubbock district court jury found Sheffield guilty of passing a forged instrument. No conviction was sought on a second count of aiding a notary public in making a false acknowledgment.

Prediction was made, meanwhile, that the state may end up making a profit instead of losing money from its veterans land troubles.

**NEW DROUGHT PLAN READY**—A new drought aid plan now is ready to help Texas farmers and ranchers buy roughage for livestock.

Applications for roughage should be filed with County Farmers Home Administration offices. If determined eligible by the local FHA committee, the farmer is issued certificates valued at \$7.50 per ton. Certificates may be applied on the purchase of roughage from any dealer.

Another phase of the expanded federal relief program also is moving forward. Texas Drought Emergency Committee has recommended that 106 counties be made eligible for increased aid in grain buying.

At present farmers in 185 counties may get \$1 per each 100 pounds of grain bought for livestock feed. If approved by the U. S. Dept. of Agriculture, the 106 counties would receive 50 cents extra per 100 pounds.

Mr. and Mrs. B. L. Bates visited last week with Mr. and Mrs. Mann Tackett and others in Seymour.

The meeting at the Truscott Methodist Church closed Sunday. It was reported they had a good meeting.

### Goose Shoot Opener Same As For Ducks

The only changes made in Texas' 1956 waterfowl hunting regulations were those requested, reports Howard D. Dodgen, executive secretary of the Game and Fish Commission.

Zero hour on the opener, Friday, November 2, will be at one half hour before sunrise, like all other shooting days, and the goose

### WATER TEST CASE SLATED

Texas water laws will be tested in a suit filed by the state in behalf of 15 domestic and livestock users in South Texas.

Suit was filed by the State Board of Water Engineers in district court at Karnes City. It seeks to protect riparian owners along Cibolo Creek from withdrawals by irrigators. Hearing is to begin Wednesday.

Board Chairman R. M. Dixon said irrigators have rights only to the storm and flood waters from the creek. These have been non-existent for a long time, he said.

Since the suit is the first of its kind ever filed, the decision is expected to set state-wide precedent.

### SUITS BLOCK U. S. TRUST PAYMENTS

Pending lawsuits are blocking distribution of some \$2,000,000 among US Trust and Guaranty Co. creditors.

State liquidator J. D. Wheeler said he had hoped to start making payments shortly after July 1. But now, he said, payment must await a decision on two suits making special claims.

One group, known as the Preferred Depositors Assn., seeks priority in payment. PDA is made up of some 300 or 400 people who bought "investment certificates" from the defunct firm. They claim about \$6,000,000 is due them. Waco creditors also have filed suit. Their claims total \$1 million.

Both suits are in Judge Charles O. Betts' district court in Austin. They are expected to come up in late September.

### DEAF SCHOOL DELAYS OPENING

Large scale construction projects will delay fall opening of Texas School for the Deaf until Oct. 15.

Work under way includes building of 19 new cottages and one large classroom building and remodeling of two existing buildings.

It is the first real construction work at the school in 100 years, said Superintendent John Grace.

Holidays have been shortened, and the school's closing date extended to June 14 to make up the lost time.

and duck seasons will begin simultaneously. Traditionally, twelve noon was the starting time for the waterfowl season.

Last year when the duck season was extended to seventy-five days and the opener for the latter was delayed fifteen days.

At its last meeting, the Game and Fish Commission asked the United States Fish and Wildlife Service to make the duck season opener conform to a conservation measure and to a venience to the hunters. It suggested the earlier legal opening hour for the first day of the same reason.

The new regulations provided change in the sunset close for night shooting period and place bag limits as in recent years. Limits are five ducks per day and ten in possession and five geese per day and five in possession. The geese limit shall contain more than two geese or its sub-species of white-fronted geese or geese.

**Mountain of Meat Is Moved**

Best thing to do with a commodity is to move it. That truism has been outstandingly successful with the meat industry and interested groups. In 1955, livestock and meat

production reached new high records. It was clear that all this meat couldn't be moved smoothly from the farms and ranches of the producers to the homes of the consumers unless something special was done. That was done.

The National Live Stock and Meat Board generated consumer interest with educational activities in and out of the schools. The American Meat Institute,

representing the packers, and individual companies in the meat industry, further stimulated consumer interest through advertising and promotion.

The Department of Agriculture carried on a program in which public attention was drawn to the excellent values meat offered.

Retailers cooperated to the full in promoting increased meat sales. The "mountain of meat" was moved—and moved into consumption, not storage.

**Children Starting School Should Have Complete Physical**

"Children are not really ready to enter school until they have had a complete physical examination," Dr. Henry A. Holle, Commissioner of Health reminds parents. All boys and girls enrolling in the kindergarten or first grade classes of Texas schools should be taken to their physicians, or to a public health clinic, for an immediate physical check-up if they have not had such an examination in recent months.

It is important to act as promptly as possible. This is recommended in order to allow time for medical treatments or corrections that may be necessary before school opens. No youngster should be permitted to begin a school career with less than the best possible physical equipment.

As most persons know, vaccination against smallpox is necessary. Those who received this immunization in infancy should be vaccinated again in order to assure a high degree of immunity, and those who have never received this protection should be vaccinated without delay.

Dr. Holle urges parents whose children have not received Salk poliomyelitis vaccine to have this administered before entering school. The safety and efficiency of this prevention has been proven and all children should be protected against this crippling disease.

Diphtheria immunization is also an important safeguard for all boys and girls about to enter school. Those who have never been immunized against this disease should receive toxoid shots now. Children who were inoculated against diphtheria when they were babies should now have a "booster dose" in order to maintain their immunity at a sufficiently high level.

Other immunizations that the individual physician may recommend are also desirable as further health protection. Whooping cough, typhoid fever and tetanus are among the diseases against which the doctor may advise safeguards.

**Game Law Violators Get Heavy Penalties**

Texas Justices of the Peace continued to belabor persons caught telephoning fish, according to the monthly arrest report announced by the Director of Law Enforcement for the Game and Fish Commission.

Six different \$200 fines were levied for using the old fashioned magneto-type electrical device to shock and subdue game fish. Costs on each of these cases averaged almost \$40.

The individual fine for three Fort Worth men arrested on telephoning counts was \$50, with costs added.

Justices of the Peace also moved to discourage night hunting of deer, which shows a season rise this time of the year when the whitetails begin re-appearing after the procreation period.

Several \$100 fines plus costs were assessed. Three Beeville men caught by game wardens while trying for some pre-season venison paid fines totaling more than \$200, in addition to court costs.

Cases filed included a Llano man who was fined \$125 for using a wire trap to take fish and having more than the limit; a Houston man fined \$25 for running deer with dogs; a Pampa man and a Kingsville man each fined \$50 for hunting wild turkey in closed season.

It cost a Lake Dallas man \$25 for shooting fish with a rifle. The same penalty was assessed against a Longview man for killing a dove out of season and against a Jayton man for killing a quail.

The monthly bag of persons fishing without a proper license was one hundred eighteen. Usual fine for this charge was \$10 plus costs.

**Radiation Effects on Cotton to Be Studied**

Seems there is no end to where cotton may go as a modern textile, with serious efforts being made to improve its qualities and markets.

The latest study to be announced deals with how cotton is effected by radiation. The work will be done at the Massachusetts Institute of Technology this fall, reports the U. S. Department of Agriculture.

Under a contract recently signed with the Department, M. I. T. scientists will seek to learn whether atomic or electrically-generated radiation can be used to make useful new textile products from cotton or to improve the value of cotton in its present uses.

Among the things to be studied are the effect of radiation on the durability of cotton, its strength, elasticity, and ability to absorb dyes. Cotton has already been much improved for certain uses by treatment with various chemicals. How radiation will affect these chemical treatments will also be studied under the M. I. T. contract.

**'57 Wheat Soil Bank Program Available**

The Acreage Reserve program now available for participation by farmers for their 1957 winter wheat crop is the second of four such programs authorized for wheat and the other "basic" crops, according to Robert G. Shrauner, chairman of the State Agricultural Stabilization and Conservation Committee. Winter wheat growers who wish to take part in the 1957 program should call at the County ASC office and sign an agreement.

The Soil Bank legislation, enacted late this spring, authorizes such a program for basic crops over a 4-year period, that is, through 1959. Each acreage reserve agreement, however, covers the particular crop for only one year at a time. For 1957, the program is being made available early enough so that most farmers should be able to make their plans before planting.

Chairman Shrauner explains that the whole purpose of the Soil Bank's wheat Acreage Reserve is to help farmers reduce the acreage of wheat below acreage allotments, thereby, reducing excessive supplies of the crop. Land "reserved" under the Acreage Reserve may not be cropped or grazed for the period of the contract. For this reduction in his wheat acreage, the farmer receives a payment to offset the income he would otherwise have received from the diverted acres.

The chairman emphasized that placing wheat in the acreage reserve will not reduce future wheat acreage allotments.

Farmers who wish to divert land from the production of tilled crops to a conservation use may also designate acreage for inclusion in the conservation reserve for periods of up to 10 years, or up to 15 years for tree practices. For this, they may receive two types of payment: an annual payment for "reserving" the land from production, and a contract covering a substantial part of the cost of carrying out an approved conservation practice on the land.

**Facts on Wheat Situation Listed**

Wheat producers in Texas must soon make a decision on whether or not they will reduce their allotments further under the Soil Bank program. Weather conditions, especially from the moisture standpoint, haven't been too favorable for the past several years for most Texas producers and this, according to John G. McHaney, extension economist, could be a big factor in the final decision.

But regardless of the weather, wheat surpluses continue to build up and stocks of wheat in the nation were estimated at 1,030,000,000 bushels on July 1 last. McHaney points out that wheat carryovers have increased from 307 million bushels in 1949 to more than a billion bushels on July 1, 1956 — an increase of 236 per cent.

The nation's first billion bushel wheat crop was produced in 1915-16 and the next one didn't come until 1944-45 but for the next nine years, except 1951-52, the annual harvest exceeded the one

billion bushel mark. Since the 1953-54 season, production has declined but continued to exceed 900 million bushels annually. Since 1951 harvested acreage has declined 23 per cent in the nation but production by only 4 per cent. In Texas, during this same period, harvested acreage has dropped 25 per cent with a similar drop in production. Drouth has been the big factor here. Texas normally produces only 7 per cent of the nation's wheat crop and hence has only a slight effect upon the total production of the nation.

Production per acre in the nation has climbed steadily and coupled with falling exports, surpluses have climbed. Foreign wheat production is on the increase and this has cut exports, says McHaney. The decline in domestic per capita consumption has about offset the increase in population, therefore, total consumption has remained fairly stable.

There is hope, points out the economist, that surplus stocks by 1960 can be brought in line with domestic and export demands. He also predicts further improvements in production technology, the introduction of improved varieties and strains, continued increased yields and an expansion in the use of fertilizers, moisture conserving practices along with new irrigation methods. Diet changes from starchy to protein foods is expected to continue so long as

incomes remain high but McHaney believes wheat consumption is approaching a minimum consumption level. He also believes the 1956 agricultural act and other government programs will help reduce the present surplus.

### That Budget Surplus

During the last fiscal year which ended June 30, the federal government had a budget surplus of somewhat more than \$1,750,000,000. This was the first time federal revenues have exceeded expenditures since 1911, and only the fourth time since 1930.

Even so modest a surplus as the recent one is gratifying. It would be a great deal more so had it been the result of a real economy program. It was not.

Actually, spending in the 1926 fiscal year was about \$5 billion greater than initial estimates. The surplus came from a combination of two factors—a record business boom, coupled with very high tax rates. Even a comparatively mild downturn in business activity could quickly wipe out a surplus and replace it with a deficit.

The moral is that the need for economy in government grows more, not less, acute. We have a splendid blueprint in the Hoover Commission reports. These constitute the most exhaustive and most authoritative studies of the federal government's financial and spending set-up ever made. They are entirely non-partisan, the various Task Forces having been balanced with membership drawn from both the major parties. They

go into every phase of government operation—paper work, budgetary practices, personnel, procurement, property management, government business enterprises, and so on. Total savings, if all recommendations were followed, would run to many billions a year.

Some of the Hoover proposals have been put into effect. Many others—including the most important—have not. These should have high priority on the agenda when Congress convenes again.

### New Markets for Agriculture

It has been proposed that Congress appropriate \$100 million to finance a program for finding new uses for farm products. The American Meat Institute urges that basic research be stressed in carrying out that program.

In a statement to the Senate Committee on Agriculture and Forestry, the Institute observes that "In spite of the wonderful advances made by science, there are great gaps in our basic understanding of the natural laws and the biological processes." It lists a number of areas vital to progress in the livestock and meat industry in which augmented re-

search is needed. These include studies of the chemical composition and characteristics of meat and meat by-products, carcass quality of beef and pork, meat preservation, nutritive value of animal fats, meat flavor and tenderness, new commercial uses for animal by-products, physical and chemical properties of meat proteins, and meat pigment research. In the case of farm products other than meat, of course, there are comparable areas where basic research could open new horizons of knowledge.

The Institute's suggestions is a sound one. Research—basic as well as applied—has been the very heart of industrial progress. But in this all-important field agriculture has so far lagged behind. There is every probability that over a period of time research could create and develop vast new markets for the products of agriculture. That, conceivably, could prove the solution to the vexing farm surplus problem.

### Dove Season Opens Saturday, Sept. 1

Mourning dove hunting prospects in Texas seem "rather mediocre" by moisture, according to the Executive Secretary of the Game and Fish Commission.

He said field reports indicate that native birds which comprise the bulk of the present population have been "cut down somewhat" by lack of water and feed.

Howard D. Dodgen, executive secretary, pointed out, however, that where water and feed exist there should be "pretty good hunting" for the north zone opening at noon Saturday, Sept. 1. South zone hunting of mourning dove opens October 12.

"Our field men agree," he added, "that there probably will be tremendous concentrations of doves around tanks still containing water, especially if there is feed nearby."

"This condition will work hardship on the bulk of the hunters since the fleet birds simply will not be scattered enough to accommodate the majority of them."

"Reports indicate that a strip across the northern part of the state is more favorable," he said. "The Panhandle while dry in places still is lush as compared to the areas hardest hit by the drought."

Mr. Dodgen emphasized that hunters "should keep a few routine things in mind," citing: hunting is from twelve o'clock noon until sunset; daily and possession limits both call for ten doves; danger from fires is very high; permission should be obtained from land owners at all times; game should be promptly drawn to avoid spoilage in heat; great care should be taken not to shoot in the vicinity of field workers or livestock; Texans may hunt doves in their own home county without the usual \$2.15 hunting license; persons over sixty-five or under seventeen do not need dove hunting licenses; rules of safety should be observed; guns must be plugged to restrict shell content to

three; hunting on public lands is unlawful. Concluding, Mr. Dodgen stated: "Watch your bag limit particularly your fellow hunters around a popular water hole. You can knock ten birds quicker than you think. Our wardens stand strictured to cover these concentrations closely. They have other choice than to file on the caught abusing the limit. Fox wardens who operate in Texas since mourning doves are a trophy game, have like responsibilities."

### TELEVISION NEWS

It's "voltage-variation" time again. In other words sometimes the line voltage in your home (that you plug your TV into) is completely normal... sometimes it's HIGH! It's rough on radios and TV sets, as reflected by my business the past week. Here's what happens: many mornings are fairly cool and a lot of air-conditioning is left off until around noon. Without this loading, line voltage is unusually high. In the afternoon everyone's air conditioner is being used, then line voltage is normal. Thus, as you watch your TV on the abnormal high voltage of mornings, you apply excessive voltages to components in your TV and, all too often, breakdowns to tube, etc., happens.

What's the answer to this problem? The ideal way would be a voltage regulator that maintained about 110 volts at ALL TIMES on your TV set. Such a regulator transformer is available, but it's expensive (about \$50.00). Another type regulator (really a ballast) merely blunts the initial surge of the current, and this—of course—helps some. These are inexpensive (about \$2.50), but are not so effective as still another type voltage controller: An "up ten—down ten" transformer with which you can RAISE voltage ten volts, DROP voltage ten volts or run normal voltage (about \$6.00). Still another type has a meter on front and shows the voltage reaching your set. (About \$15.00). Now is an ideal time to add some sort of voltage regulation to your TV set!

Sincerely,  
Marion Crowell.

## Time Is Near for Planting Winter Cover Crops

The time for planting winter cover crops is almost here and interest in these legumes is high this year.

The two most popular winter legumes in this area are Austrian winter peas and vetch. Vetch is often planted with rye, which serves as a nurse crop for the vetch while it is small. These legumes will serve as cover for the land this winter, protecting it from both wind and water erosion. With proper management, these legumes can also be grazed.

Care should be taken to see that enough vegetation is left to provide adequate cover for the land. Next spring, these legumes will furnish a green manure crop if they are turned under while still green.

## To The Voters of Foard County

Once more we are called upon to exercise our religious and patriotic duty to our God and country. First to our God who gave to our ancestors this great country in which we live, and second, to our Constitutional form of government that was handed down to us by our ancestors.

The constitutional form of government has all but slipped from our grasp, due to our neglect in God, and our desire for personal gain with no regard to those who may be, either here with us, or those to follow in our foot-steps for years to come.

The same party who four years ago tried to deprive Texas of her Tidelands has been named for the office of President of this great Country of ours; along with a man who would like to see, both the white and black races destroyed through mongrelization with each other.

It is true that Dwight D. Eisenhower has not given us all the things he promised to do if elected; but with a Democratic Congress and Senate against him, how could he do such a thing?

Now we are on the brink of war with Egypt. This war we can avoid with Eisenhower as our President, a Republican; but every Democrat President we have ever had, we have been in a war. Personally, I do not like war, as I have been in one and know what it means. A father or mother who would want their son and daughter killed in a war in order to receive \$10,000 of insurance furnished by the government; to me is not much father or mother. Eisenhower can keep us out of war and we should look to God for guidance in his election. Those who would care to help in his election can do so most conveniently by contributing to the Foard County Republican Fund for Eisenhower. Our 418 voters who went with us in 1952 have been assessed about 22c each for this election. A few of those have passed on to their final resting place while others have moved to other states or cities. Give what you can, if you can, to your Foard County Republican Chairman.

All donations confidentially accepted.

WILLIAM E. WELLS, Chairman

Foard County Republican Party.

#### Our Weekly Sermon

Remedy for Difficulties

It was a quiet day at the White House. Then an important mes-  
sage came through to Adminis-  
trative Assistant Fred A. Seaton  
and he burst into President Eisen-  
hower's office, unannounced—a  
thing which he has the authority  
to do when urgent matters arise  
and the President is alone in his  
office.

To Mr. Seaton's astonishment,  
the President was on his knees  
in silent prayer beside his desk.  
Profoundly embarrassed, the as-  
sistant turned immediately to  
leave, but at that instant the  
President arose and motioned him  
to state his business. Mr. Seaton  
began to apologize, but in a mat-  
ter-of-fact voice President Eisen-  
hower told him it wasn't neces-  
sary. Then, after the assistant had  
delivered the message he was  
making a crucial decision that  
could mean peace or war in the  
Far East and had been praying  
for divine guidance to choose the  
right course.

That President Eisenhower  
prays is well known. He began  
that public practice with his in-  
augural address. His cabinet meet-  
ings open with prayer, and he has  
called for nation-wide periods of  
prayer.

But the President's faith is also  
a personal faith, and the above  
incident, described recently in a  
national magazine, shows that he  
prays in private, as well as in  
public. It is safe to assume that,  
even as he looks to God for guid-  
ance in national affairs, so he  
looks to Him for guidance in the  
personal affairs of his life.

How about us, as individuals?  
Do we pray only in church as the  
minister intones the words and  
thoughts for us? Or do we pray  
in private, fervently seeking God's  
guidance and help in every phase  
of our everyday life?

Billy Graham says that prayer  
is the most important spiritual  
exercise that we can have. He  
adds that often the reason we  
may be having difficulties in our  
work, home life, or social affairs  
is because we do not spend time  
daily in prayer.

The Bible makes it clear that

### RECORD COBALT DELIVERIES

International Nickel's deliveries of cobalt in 1955 set a new high record at 2,637,000 pounds, compared with 1,317,000 pounds in the previous year. This element has been used since ancient times as a coloring agent in glass and pottery. Currently cobalt's largest single use is in cobalt-nickel-chromium-base alloys, which are required in the manufacture of high-temperature, high-strength parts, particularly as applied to the jet aircraft engine.

## Home Demonstration Notes

MRS. MARY D. BROWN

In September the Home Demonstration Clubs will start meeting again. Your leaders will give a demonstration on Jury Duty which I'm sure you will all want to attend. Since women are being called to serve on juries, it will be good for all of us to learn more about it.

Also in September, I will give a demonstration on Life Insurance. This, too, is something we all need to know more about. I think if each of you will bring one life insurance policy with you, you will find it easier to follow this demonstration and get more from it.

There are several out of county meetings scheduled for September, so I will have to meet with most of the clubs at their second meeting. I will meet with the clubs as follows: Riverside, Sept. 4; West Side, Sept. 11; Vivian, Sept. 13; Foard City, Sept. 19; Thalia, Sept. 20; Gamberville, Sept. 21; Margaret, Sept. 28.

Our recipe this week is for: **Marvelous Broiled Chicken**

- Split chicken in half lengthwise for broiling. Break drumstick, hip and wing joints to keep bird flat during broiling.
- Rub entire surface of chicken with cut lemon, squeeze lemon with melted butter or margarine. Sprinkle with a mixture of 1 teaspoon salt, 1 teaspoon sugar, 1/4 teaspoon paprika, and 1/8 teaspoon black pepper for each half.
- Place chicken halves in bottom of broiling pan—not on rack—so that chicken is kept moist in the juices. Brush with melted butter, margarine, or salad oil. Place skin side down.
- Place broiler 5 to 7 inches from source of heat. Chicken should be broiled slowly. Regulate heat or pan position so that chicken just begins to brown lightly in 10 minutes.
- Turn and brush with fat 2 or 3 times (about every 15 minutes) during broiling to brown and cook evenly. Total cooking time varies from 35 to 50 minutes.
- Test for doneness: The chicken is done when meat on the thickest part of the drumstick cuts easily, and there is no pink color visible. The drumstick and wing joints will yield easily to firm pressure.
- Serve on warm platter skin side up. Pour the pan drippings over the chicken.
- If giblets are served with broiled chicken, coat the liver and pre-cooked heart and gizzard with fat, season and broil just long enough to brown—about 15 minutes.

## Miss Gloria Billington Married in Ft. Worth

Miss Gloria Billington, native of Crowell and daughter of Mr. and Mrs. J. T. Billington of Fort Worth, former Crowell residents, was married last Saturday at 8 p. m. in College Avenue Baptist Church in Fort Worth, to Lester Earl Benner, son of Mr. and Mrs. Sam Benner of Newark, Ohio.

Rev. Curtis Vaughan of Southwestern Baptist Theological Seminary officiated.

Charles Duke, organist, and Devan Hamilton, vocalist, provided music.

Miss Shirley Thompson was maid of honor, and Mrs. Wilbert Hall of Austin was matron of honor. Bridesmaids were Misses Carol Owens of Vernon, cousin of the bride, and Carolyn Johnson of DeKalb. They wore identical waltz-length gowns of aqua crystalline over tulle with fitted torso, scooped neckline and bouffant skirts.

Larry Smith of Dallas was best man, and Gary Todd, cousin of the bride, Ronnie Burt and Tom Lyles of Graham were groomsmen. Noel McKinley of Portales, N. M., and the groomsmen ushered. Timothy Lee Thomas II, nephew of the bride, was ring bearer.

The bride was given in marriage by her father. She wore a gown of candlelight satin with front fastening bodice and bouffant skirt with a two-tiered peplum extending into a chapel train. Her fingertip veil was caught to a seedpearl tiara and she carried a bouquet of white orchids with cascades of stephanotis. The gown had been worn by her two sisters, Mesdames Tim L. Thomas and R. E. O'Flaherty, in their weddings.

Members of the house party at the reception in the banquet hall of the church were Mesdames Thomas, O'Flaherty, J. D. Todd and Kenneth Benner of Newark. Following a trip to Colorado they will live in Fort Worth where both are students at TCU. Out-of-town guests included W. B. Owens of Vernon, Mrs. M. L.

## Shower Held for Mr. and Mrs. Joe Gordon

Mrs. Joe Gordon, the former Miss Robbie Fluhman of the Five-in-One community, and Joe Gordon, son of Mr. and Mrs. Cleveland of Margaret, were honored with a miscellaneous shower Wednesday evening, August 22, in the home of Mrs. A. B. Owens in Margaret.

Mrs. Owens greeted the guests and presented them to the bride, her mother, Mrs. Otto Fluhman; and sister, Mrs. Jimmie Ritter; and Mrs. Cleve Gordon, mother of the groom.

The honoree was attired in a pink and white cotton and silk dress and wore white accessories, her chosen colors.

The refreshment table was covered with a white embossed damask cloth, centered with a reflector with a ceramic epergne filled with pink carnations and white stock and greenery, on which stood the miniature bride and groom. Pink satin ribbon streamers bearing the names "Joe—Robbie" in gold letters and crystal candle holders with gold tipped pink candles added to the decorative scheme. A large crystal punch bowl placed at the other end of the table, surrounded by white stock and greenery, held the fruit punch, and dainty cookies and mints served to the guests. The guest napkins were white. Mrs. John L. Hunter and Mrs. J. S. Owens presided at the table.

Mrs. Tom Smith attended at the register table where guests recorded their names in the white bride's book.

Mrs. Bill Murphy and Mrs. Lewis Painter displayed the many beautiful gifts arranged in an adjoining room.

The hostesses presented the bride with a beautiful carnation corsage and each one gave her individual gifts.

Hostesses for the occasion were Mesdames Ray Hysinger, W. A. Dunn, Tom Smith, Dink Russell, C. W. Ross, J. S. Owens and A. B. Owens.

If you want a short time bargain rate on the Fort Worth Star-Telegram, it is \$3.75 for 3 months, daily and Sunday, by mail. Daily without Sunday, \$3.25. Phone or see any member of the News force.

## Miss Waechter Marries Harry D. Hayes in Ft. Worth Last Friday

The marriage of Miss Sherrol Lynn Waechter, daughter of Mr. and Mrs. W. L. Waechter of Fort Worth and granddaughter of the late Dr. and Mrs. C. B. Graham of Crowell, to Harry Donal Hayes of Fort Worth, took place in the Trinity Lutheran Church in Fort Worth at 8 p. m. last Friday. Following the wedding ceremony the bride's parents were hosts at a reception at their home, 3424 Wellington Road. The bride is also the great granddaughter of the late Mr. and Mrs. E. T. Kirkman, who were among the early pioneer settlers of Foard County.

The bridegroom is the son of Mr. and Mrs. Harry Tracey Hayes of Brownwood, who were present for the wedding.

Mr. Waechter gave his daughter in marriage. Her gown was a white Chantilly lace and nylon tulle over satin, designed with an illusion yoke having a jewel neckline set off by a pearl necklace. She carried a white orchid on a white Bible, with her grandmother's wedding ring inside, and a sixpence in her shoe.

The bridal pair left following the reception on a trip to New Orleans.

## R. C. Sanders and Miss Weaver to Marry

Mr. and Mrs. J. W. Weaver of Vernon have announced the engagement and approaching marriage of their daughter, Peggy, to R. C. Sanders of Crowell.

The groom-to-be is a son of Mr. and Mrs. B. F. Sanders of Crowell.

The wedding date has been set for Saturday, Sept. 1.

Miss Weaver was a member of the 1935 graduating class of Vernon High School where she was a member of the Sports Club and Future Nurses Club.

Mr. Sanders graduated from Crowell High School and served with the U. S. Marine Corps. He is presently employed by Borchardt Chevrolet Co. here where the couple plans to reside following their marriage.

## T. E. L. CLASS

The T. E. L. Class of the First Baptist Church met August 26 in the home of Mrs. Curtis Ribble for its regular business and social meeting. Mrs. I. L. Denton was co-hostess.

Mrs. C. T. Aly had charge of the meeting in the absence of Mrs. Doyle Callaway. She read scripture from Acts, 14-15. The group sang "My Faith Looks Up to Thee."

After a short business meeting, Mrs. Denton led the social hour in a very interesting Bible quiz. Ice cream and cake were served to Mrs. C. T. Aly, Mrs. I. L. Denton, Mrs. C. L. Cavin, Mrs. Mary Reed, Mrs. Curtis Ribble, Mrs. C. A. Powell and two visitors, Mrs. W. R. Womack and Mrs. Ada Burkett.

## MARGARET M. Y. F.

Fourteen were present at the regular Wednesday night meeting of the Margaret M. Y. F. James Choate rendered trombone solo music accompanied by Noel Wilkins.

Several out-of-town visitors were present Wednesday night. They were Mrs. J. R. Gore, Mrs. Felbert Beck, Darold Beck, Ronny Beck, and Sylvia Swaim. The seventeen attending joined together to polish the floor, giving particular attention to the area around the piano.

Eighteen attended the Sunday meeting. The increased attendance is encouraging.

## RIVERSIDE 4-H CLUB

The Riverside 4-H Club met at the home of Janie Bowers on August 23 at 2:30. Mrs. Mary Brown showed the girls how to put the hem in the dress and make the belt. When they get this done, the dress that they have worked on very hard will be finished.

There were six girls who attended and one visitor.

The next meeting will be held at Virginia Hudgens' home on Sept. 15.

## MISSIONETTE CLUB

The Missionette Club of the Assembly of God Church met in the home of Patsy Ribble on Friday, August 17, at 3:30 with nine members present. The study was on the Horst family of China.

For recreation the members worked on a string quilt that will be sent to China. The group was dismissed with prayer.

The next meeting will be held in the home of Linda Ferguson on Sept. 7 at 3:30 o'clock.

All teenagers from the ages of 12 through 16 are invited to attend.

## ROTARY CLUB

The program Wednesday noon for the Rotary Club was one of international information with Grady Halbert in charge. Miss Marcia Kincaid, senior journalism student in the University of Texas, gave an interesting and informative talk on her association with students of foreign countries on the University campus.

Visiting Rotarians were Roy Sansom and W. E. Hancock of Quanah.
