GEOLOGISTS MAKE FAVORABLE REPORT ON WEST TEXAS

By the most significant geological development of the year related to the Texas oil bearing structure. Bulletin No. 1847, issued by the Bureau of Economic Geology, Texas University, Austin, under the direction of Dr. J. A. Udden. The map made credited a great and intensified activity in the region covered have served to confirm conclusions of geologists in employ.

A bulletin was prepared from examination made by Dr. J. A. Beede and A. Liddle, members of the staff of the Udden. By the authority of prominent men there has been preparation of the map of Texas the outline of what they called the Marathon fold.

The course this great fold is to swing in a northerly direction of the Marathon mountain in a path that leads to Red River region of what has been called river uplift.

The region is of special moment in the region of west-central Texas. The Marathon fold, and indicates a demarcation between the Wichita mountains in south-western Oklahoma, which seems to be what Messrs. Beede and Liddle mentioned as the Red river fold.

It throws an irregular, roof-like structure of great extent across the counties of that part of the state and it is delineated as a zone of width, embraces the choicest of probable oil producing territory between the Bend Arch, which extends through the Eastland, Young and Young counties' area that is known as the Llano East-syncline, which has regional importance upon the Staked Plains.

The immediate importance of this picture is apparent to the oil fraternity of the mid-continent, which has been diligent in making the regional alignment of oil-bearing formations along the transcontinental series between Oklahoma and Red river producing and the Tampico district of Mexico. Its area as demarked recalls the text book statement of a deformed high-folded zone extending from Mexico across the United States into Canada.

With respect to the part of the fold in Foard county, the records confirm to the results of regional report made last year by A. Hill, consulting geologist of Tulsa, Okla., which was the nearly complete contribution of geological literature of the territory made previous to the university.

In fact, Fisher county as the seat of original investigation, Hill explored the entire trend of surface features of disturbance from Foard to the north to Coke on the Hill report has been the result of wide study and discussion of dependent geologists and in large measure it has been verified and confirmed. The present drilling of some wells in Fisher, Jones, Nolan, Scurry, Bonwell, Haskell, King, Knox and other counties is testimony to the sense felt by the fraternity in report.

Nearly all of these counties, oil is found in upper sands. That formations lie upon higher relative surface levels than would be possible if no folded zone were present. All geologists and the drillers exploring the region agree. A majority of these tests in the zone have been able, though none have yet reached the deeper strata. It is significant that nearly all of them are drilled with cable tools and by operators that have ample finances to the holes to any practical depth. The correlation theory of these geologists is correct the strike the outcrop extends "from the northern Salt Fork through the Diablateau to the Glass mountains and there northward to Coke county, and to Red river. Indeed, the line of the Woodward and Green mountains of western Oklahoma and eastern panhandle of Texas is strikingly similar to the Coke countercut, and there is a strong probability that the whitehorse sandstone conformable with the underlying strata. The length of the outcrop of unconformity in the main part of the state would be about 700 miles, counting the sinuities."

American Legion to Have Club House

The American Legion, Gordon J. Ford Post, No. 130, met in regular session Tuesday night, May 18, 1920, and adopted the following resolutions: For God and Country, we associate ourselves together for the following purposes: To uphold and defend the Constitution of the United States of America; to maintain law and order; to foster and perpetuate a one hundred per cent Americanism; to preserve the memories and incidents of our association in the Great War; to inculcate a sense of individual obligation to the community, state and nation; to combat the autocracy of both the classes and the masses; to make right the master of might; to promote peace and good will on earth; to safeguard and transmit to posterity the principles of justice, freedom and democracy; to consecrate and sanctify our comradeship by our devotion to mutual helpfulness.

The American Legion will also in the near future expend some twelve hundred dollars for a club house. This will be a modern club for ex-service men only, with the exception of monthly banquets to which the public will be invited.

A call meeting will be held next Tuesday night. All ex-service men are urged to be present. All post members should come out and bring a "Buddy" with him.

A. D. MAGEE,
Post Commander.

Minor crime is said to be on the wane, and prohibition is given credit therefor. Major crime increases and the war is blamed. It seems that our people have quit being drunk and disorderly and are now robbing and killing.

The Marathon fold is geologically more complicated than the Bend, the report says, but it is very similar. On the latter there are "noses," while on the former there are terraces. The Sheffield terrace is the largest in the extreme Southwest region, extending 15 miles into Crockett county and is approximately 12 miles wide. "From the standpoint of the oil operator it is worthy of note that the rather complicated conditions of this structure are likely to be repeated and other different structures are likely to occur beneath any slight structure or area of flattened dip throughout the whole of west and northwest Texas, where the Double mountain beds of the Permian are found."

"In Foard County," says the report "the carboniferous is known to be 500 feet above its normal undisturbed position." This again directs attention to the Hill report. The latter says: "It is of moment that the known presence of bituminous areas eastward and westward of the folded zone have geographical and geological continuity from the Des Moines river basin in Iowa to the Eastland county region in Texas, occurring here further southward than any other known point on the American continent. The fact of the presence of coal of that series is not only confirmatory but conclusive that the sedimentations of the Pennsylvania formation throughout the great region mentioned were identical as to age, water encroachments, land and marine organisms, and shoreline demarcation. Herein may be pointed out the striking analogies of oil and gas production in Kansas, Oklahoma, and Texas as related to the aerial distribution of Pennsylvania coal measures."

"Much detailed work, both surface and subsurface, is needed to study more in detail the nature of the Marathon fold," concludes the university bulletin. "Especially is such needed between the Sheffield terrace and the disturbance in Coke county and along the probable position of the fold between Coke and Foard counties. There is no known reason why commercial deposits of petroleum should not be found along the Marathon fold under conditions similar to those existing along the Bend Arch, if reservoirs are present."

The late Sigler well in Wilbarger county, the continued flow of 44 gravity oil from the 2,485 foot level between the eight and ten inch casing in the Sears test on the Fisher-Jones county line, the good gas pressure in the Kouri No. 1 in Haskell county, and the numerous showings of oil in many of the tests in adjacent areas to the alignment of the Marathon fold as mapped by Messrs. Beede and Liddle, appear to fully verify their report, though their manuscript was not released until January of this year, and all of the above well results have happened since then.

HOPES TO COMPLETE CHURCH BY NOV.

Conditions look favorable for an early completion of the Methodist church. Practically all the material is now on the ground and a good crew of men is now on the job. The first of the week work opened up with nine brick layers at work and the wall has been climbing rapidly.

A News reporter was shown over the building this week and had the plans and arrangements explained. When the building is completed it will be a very fine structure. It is being built with the view of making it one of real service. All arrangements have been made looking to that end. The basement will be used for an assembly room and recitation rooms for the various Sunday School classes. From the basement will lead out three passways from the north, south and west to steps leading into the main auditorium, so that passing from the recitation rooms to the auditorium can be effected with little commotion. Rooms will be provided for each class according to the grades into which the school will be divided. Each recitation room will be provided with light from windows in the building and with proper ventilation, which will offer surroundings of comfort for class room work.

The first floor above the basement will be the main auditorium and will have a seating capacity of 500. The balcony will seat 300. This will be the actual seating capacity without additional chairs, counting each occupant as an adult. It can be seen that it will easily seat 1,000 people comfortably.

One thing worthy of mention is the fine ventilation of the auditorium. It has large windows, which will allow the usual south breeze free passage, thus making it possible for a crowded audience to be comfortable in the warmest weather.

To appreciate this splendid building one must visit it and see the conveniences it will have to offer, and then one can not realize just what that will mean until it is completed and brought into service.

Bro. Hamblen hopes to have the building completed, paid for and dedicated by November, and if nothing happens to interfere with plans and the progress now being made his plans will be realized. With tireless energy he has devoted his time to this work for several months and can see this vision now taking concrete form. This will be a building of which the Methodists will be proud and of which the town will be proud, because it will reflect in a large measure the high Christian spirit of the people.

Wheat Promises Fairly Good Yield

Foard County will not have such a wheat crop as it had last year, but there will be a pretty good crop. Last year it looked like the whole world was in wheat in Foard County and we made a record breaking crop. This one would have been a normal one if the acreage could have been gotten in. As it is there will be lots of grain made, whether it rains any more or not. It can't keep from making. The ground has been soaked by another 2½-inch rain, coming Friday and Saturday of last week, and wheat is assured. Of course, the yield can not be approximated at this time, but the indications are good for something like 15 bushels. We might be surprised with a bigger yield, then we might not make so much.

All things considered, the outlook for a great crop year is real good. With the present store of moisture row crop farmers are starting in with splendid encouragement.

WEST TEXANS INTERESTED IN ORIENT

Practically all West Texas is interested in the retention of the Orient railroad, and influential forces are at work to bring to bear upon the Interstate Commerce Commission the necessity of retaining it. They will be prepared to make a strong fight for the road, for it is a necessity to the development of this country.

At San Angelo a vigorous fight was launched Monday by various business interests from Texas, Oklahoma and Kansas. In the meeting were representatives of the Texas Cattle Raisers Association and the West Texas Chamber of Commerce, as well as delegates from the other two states. These were to consolidate data in evidence that the road is a public necessity and to arrange a hearing after May 24, before the Interstate Commerce Commission.

It is said the Orient has an opportunity to secure a loan of \$4,000,000 from the Government's \$300,000,000 revolving fund and for connection of present lines with properties in Mexico, provided the Interstate Commerce Commission can be convinced the proposition is "good." Of course, that is where the rub will come. It is likely those fellows up at Washington still have the old idea that this country is fit only for a habitation for wolves and prairie dogs. But those who know are convinced that we will have the greatest country in the world when it is developed. And without the Orient its development will be slow. It is an admitted fact that the road has never been a paying proposition, but it is comparatively new yet. The fact is the road has not yet been completed, and when the objective points are once connected, the road should be one of the great lines of the country.

DERRICK AT BEVERLY WELL COMPLETED

The derrick at the Beverly well has been completed and drillers will be ready to spud in as soon as the engine arrives and is placed on the ground. This piece of machinery is expected to arrive any day, so that it is not likely to be very long before things will be ready for work to commence.

ATTEND GRAIN ASSOCIATION

Messrs. J. W. Bell, Everett Bell, T. L. Hughton and B. W. Self left Wednesday for Galveston to attend the Grain Dealers Association which meets in that city Friday. M. L. Hughton of the First State Bank joined the party and will go to Houston to attend the Bankers Association in that city.

J. W. Bell Attended Railroad Meeting

J. W. Bell attended the railroad meeting at San Angelo Monday. There were a number of the road officials in attendance and he says the meeting should be one of great benefit. Mr. Bell thinks it will not be a difficult proposition to show the Interstate Commerce Commission that the Orient is a public necessity. One of the officials told him that since the war much of the freight that had formerly gone over the Orient had been shifted to other lines and that more of the Orient's traffic was now empty cars than formerly. This would be changed with an extension of the line into Mexico.

The Orient people are confident that when the road is completed to the objective point in Mexico it will be a better paying proposition and they are asking for \$3,500,000 from the Government floating fund of \$300,000,000 not as a donation but as a loan with which to complete the road so that it can be made self sustaining.

A strong representation will be sent to Washington when a hearing can be had to put the matter up to the Interstate Commerce Commission.

H. E. FERGESON BUYS THE BOMAR HOME

H. E. Fergeson this week purchased the modern home of Mr. and Mrs. E. P. Bomar in the northeast part of town and will occupy same in the near future.

Mr. Bomar has bought a ranch near Alpine where he and his family will make their home in the future. Mr. Bomar and son, Mance, will leave this week, while Mrs. Bomar expects to go some time next week.

Mr. and Mrs. Bomar have lived here for many years and their leaving is a source of regret to their many friends.

"The Melting Pot" Completed Tuesday

When the members of the Senior class of the Crowell High School undertook the task last fall of getting out an annual for the school they met little encouragement. When the boys, Milburn Hart and Clarence Benham, business manager and editor-in-chief, respectively, figured with the News for the printing to be done some six or seven months later no definite price could be made, owing to the constantly increasing price of paper. So that could only be approximated, and that too with a guarantee of higher figures than were at the time submitted. In view of these conditions we could not feel enthusiastic over the proposition and therefore did not encourage it. The boys met conditions all along that would have led many not even to tackle a job like it, or after having started, to abandon it. To undertake such a job without having had any experience of the kind, with discouragements all along the line, and with the knowledge of an approximate cost not less than four or five hundred dollars and with not a cent to start with required some real old grit.

The job was turned over to the boys Tuesday morning and they say they feel amply paid for their efforts by the achievement and by reason of the valuable experience they gained.

All the Senior class will prize this piece of work very highly because it is the first of the kind ever gotten out by the Crowell school and because it represents successful effort against great odds. That fact itself will be one of the most valuable lessons they could get from it. These young folks are soon to enter real life where they will have to overcome opposing forces by hard work and determination, which is one of the lessons they learn in school work. So a task, such as they undertook in the publishing of the first issue of "The Melting Pot," is educative in the highest sense and is a splendid test of the real metal of the boys and girls.

CROWELL WINS OVER TRUSCOTT

A lively game of baseball was played on the local ground Tuesday afternoon between the Crowell and the Truscott teams, the scores standing at the close 6 to 2 in favor of Crowell. Considerable interest is manifested by the people generally in these games, as is evidenced by the large attendance. Several came up from Truscott to witness the game.

Owing to a lower wheat market there was a decline of \$1.00 per barrel in flour last week.

More than 6 inches of rain fell at Yokum Friday night, the heaviest on record in the last eight years.

All rainfall records for the month of May were broken in Dallas this month when the figures reached 12.87 inches.

Difficulty is encountered in the effort to set casing in the Wheat well in Hardeman county. The depth of the hole is 2,730 feet.

The onion growers of Texas are figuring on an income for the year of \$3,000,000. Onions are making a "strong" pull for a fat bank account.

A bellboy in a Dallas hotel is reported to have found a purse containing \$1,400 and he refused a reward of 50 cents. We don't blame him.

Chattanooga, Tenn., has been chosen by the Southern Baptist Convention as the next meeting place in 1921. The time set for the Convention is May 12.

At least one man in Parmer County, another West Texas county, is interested in raising thoroughbred hogs. One man up there recently paid \$2,500 for a Duroc Jersey boar.

The heavy rains at Sweetwater Friday night, amounting to 4 inches, brought the total precipitation within a week to 10 inches. High waters forced out a bridge on the Orient for the second time within the week.

People work themselves, and the Congressmen, to death getting laws and then expect the laws to enforce themselves. Laws are not automatic, and everybody should see that the law is obeyed.

Four thousand tons of shelled peanuts reached Galveston last week from China and Japan. Is there any better soil in the world for peanuts than Texas soil? And think of the millions of idle acres.

SCHOOL BOARD FAVORS REPAIRING SCHOOL BUILDING

That the Crowell school building needs some repair work done is evident from the fact that considerable inconvenience has been felt by the teachers and pupils this term on account of leaks in the roof. It has been found necessary a few times for some of the grades to suspend school for a day at a time on this account, so the school board, seeing the necessity of remedying this trouble, voted favorably to making the repairs.

It is roughly estimated that something like \$3,000 will be necessary to make these repairs and the matter is being looked into to ascertain whether or not bonds can be voted to meet this expense. If bonds can be voted, it is probable that an election will be called for the amount needed. If bonds can not be voted that will not prevent the roof from leaking when it rains, then the only thing to be done is to dig up the cash and have the building repaired. Our people will not let this condition of affairs remain long, so that it will be done, and no doubt, before the beginning of another term of school.

MRS. MARK HENRY IS HONOR GUEST OF FEDERATED CLUBS OF HEREFORD

The Federated Clubs of Hereford have had the pleasure of having in their midst the past week their District President and State Vice President, Mrs. Mark Henry, of Foard County, Texas. Mrs. Henry has just conducted a very enthusiastic and successful District meeting in Amarillo, and came from there to Hereford to visit an old friend of hers, Mrs. J. Frank Potts, and to get in personal touch with the clubs and their work here. The first District is very fortunate in having Mrs. Mark Henry as their President as she is acquainted with the conditions in West Texas and the Panhandle which makes her better qualified to aid West Texas Clubs in Federated work.

On Thursday afternoon a reception was tendered Mrs. Henry by the Federated Clubs, viz: The Mothers' Club, The Music Club and The Bay View Club, to which all the women of the town were cordially invited, also the invitation was extended to the ladies of Summerfield, who are interested in the organization of a club in their town. The reception was held in the First Christian church, the parlors and the main auditorium being thrown open for this occasion. Potted plants were artistically arranged so as to add a touch of color and beauty and while the crowd was gathering Miss Elizabeth Tatman gave several beautiful musical selections. Mrs. Sherm Williams and Mrs. H. H. Hawkins received the guests at the door and presented them to the receiving line which was composed of the honor guest, her hostess, and the Presidents and Secretaries of the various clubs. In the Sunday School room delicious punch was served by Messdames McLean, Tynes, Betts and Stocking. When the guests had all arrived, Mrs. B. F. Guthrie expressed the sentiments of the ladies when she said, "Are we not more than fortunate in being privileged this afternoon to hear from the lips of one who is a leader among the club women of our State concerning the vital problems of which her own thought is helping to shape the solution? Honored indeed are we to have such a one as our guest and doubly honored in that she will speak to us and give us the inspiration that comes only from those whose lives are aflame with the spirit of highest service."

Mrs. Henry, in a very earnest manner, talked of the great good to be derived from Federated work and she contrasted the clubs of twenty five years ago with the clubs of today—showing a broader, greater vision, impressing her audience with the fact that through cooperation of Federated club work, "service" to mankind has no limit. Every woman present was made to realize that club work makes her a better friend, neighbor, wife and mother, and that its various departments are so planned that no matter what her talent, there is a place for her in which her individual efforts are needed to "carry on" this great work. The "highest possible development" and "service to mankind" is none too high an ideal, and it is upon this ideal that club work is based. The world's war taught us that any organization to be successful must be "inclusive" as well as "exclusive."

MARGARET MUSINGS

Margaret has another wet plank in the platform and if it continues the whole platform will sail down Mule Creek.

Our people, including the preacher, are doing as the disciples did in old scripture times—they have gone a fishing.

Since lumber has jumped from \$30 to \$100 per thousand our people are doing more building than they have done in three years.

Our electric company has the town wired and the material on the ground to start the electric light system. We look for a reduction in the price of kerosene.

We have not time to write more for the weeds are encroaching on our Joe Bailey and Hoover gardens, and we have not quite recovered from yesterday's festivities.

We have parties here selling oil stock in the Wilbarger fields. We invested all our money in the Little Motor Kar Company and are saving our earnings now to invest in Foard county oil. Better invest our money at home and if we lose the money will still be here, or better still, wait and let the other fellow do the financing.

There are an immense amount of grass hoppers hatching which will be heard from later unless something is done to exterminate them. Now is the time to poison them while they are still in bunches, or get an appropriation while the legislature is in session to appropriate ten million dollars to be used in exterminating them. It would beat fighting flies and screw worms.

For the 79th time we celebrated our birthday on the 18th. Our good wife cooked us a dinner that would have been a feast for the gods, if they could have gotten it. One lady (God bless her) brought us a delicious cake, (the kind our mother used to make.) One lady handed us her check for \$100, and even Uncle Jake contributed \$2.85. We had a lot of congratulations from New York and Pennsylvania and other foreign countries, and strange to say, they all came on the exact date of our birth, May 18th, 12:30 p. m., 1841. Who would not live always?

For Colds, Catarrh or Influenza

Do you feel weak and unequal to the work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong!

An old, reliable blood-maker and herbal tonic made from wild roots and barks, is Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or liquid form. It will build up your body and protect you from disease germs which lurk everywhere. One of the active ingredients in this temperance alterative and tonic is wild cherry bark with stillingia, which is so good for the lungs and for coughs; also Oregon grape root, blood root, stone root, Queen's root—all skillfully combined in the Medical Discovery. These roots have a direct action on the stomach, improving digestion and assimilation. These herbal extracts in the "Discovery" aid in blood-making and are best for scrofula. By improving the blood they fortify the body against an attack of grip or colds.

Catarrh should be treated, first, as a blood disease, with this alterative. Then, in addition, the nose should be washed daily with Dr. Sage's Catarrh Remedy. Send 10c for trial pkg. of Medical Discovery Tablets or Catarrh Tablets to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

HIS CONSCIENCE IN REVOLT

Killer of Condors Refused to Practice Profession for Any Paltry Remuneration.

In his book, "In the Wilds of South America," Mr. Leo E. Miller tells us that when he went into Argentina on a collecting trip he found an Italian who claimed to be the champion condor hunter of all South America. During ten years he had killed more than sixteen thousand of the magnificent birds. His record for one day was 114. Naturally, they had become greatly reduced in number, for a condor lays no more than two eggs, and it takes many months to rear the young.

The man's method was to drive a burro to some lonely gorge among the bleak mountain tops favored by the birds and then kill the animal. He was very particular in stating that the burro had to be fat—a poor one would not do for bait. He then spread nets about the carcass, and when the condors had gathered about to feast he pulled a rope and ensnared them. On one occasion he snared 67 at one throw of the net. The captured birds were dispatched with a club and the long-wing feathers extracted, to be exported to France to decorate women's hats.

With his accumulated wealth he built a powder mill, but it promptly blew up, and he was virtually penniless. Of course there were condors in the mountains—in fact, he knew of a ledge where more than eight hun-

dred birds were accustomed to congregate to spend the night; but the price of feathers had gone down 50 per cent. He ended his speech in a very dramatic manner.

"What," he said, "me go out and slaughter such a wonderful, magnificent and rare as the condor for ten pesos each? No, señor! Not me!"

A wife reports that her husband left her home in Chicago last week looking for a cheap cut of meat. He hasn't come back yet.

Games are very good things, but they are not everything.

Mexico City has at last fallen into the hands of the rebels. Carranza appears to be going the way of Diaz, and the former leaders.

MINORITY SELFISHNESS

Congressman Nelson of Wisconsin made a sensible speech in the National House of Representatives a few days ago. He condemned the selfishness of both capital and labor in unmeasured terms, saying "no true and self-respecting representative or senator can submit to the selfish and self-centering demands of organized labor on one side, demanding less hours with increased pay, including Plumb plans and coal strikes, and on the other side, the utter selfish and greedy lust of power and special privileges so forcibly expressed by the Steel Trust in its Pittsburgh steel base, and the past method of the Standard Oil Co. in strangling all competition, and the old railway method of first destroying competition and then raising rates, and the all pervasive monopoly of the packers' combines.

"I am persuaded that 60,000 millionaires made by war profiteering during the four years of the Great War and the labor unions demanding billions in increased wages and shorter hours have been indifferent in a large degree to the welfare of our public, the third side in the great triangle of our Nation's interest, who have been long-suffering and patient to the very limit. Both capital and labor have, in my judgment, not been willing to remedy the great need of our social and economic life today for a larger production, a better distribution, and for a larger conservation for the common good of all. Each seemingly is demanding the last pound of flesh from the patient and long-suffering public.

"Between the fight of the 4,000,000 to 5,000,000 of organized labor on the one side, and organized capital on the other, the 5,000,000 or 40,000,000 of unorganized labor, and the rank and file of our American citizenship, the long-suffering and patient public has been sacrificed between the upper and the nether millstone, which has been grinding the public without regard and mercy. And today, this patient and long-suffering majority is arising to the intelligence of the fact that it is utterly sacrificed to greed and lust of capital and utter selfishness and disregard by organized labor.

Now let both unite with the ranks of American life and industry and demand the square deal to all, and special privileges and class legislation to none. Let us be the servant of all but the slave of none."

PROMINENT MERCHANT FOUND LASTING RELIEF

In a South Carolina county-seat a prominent merchant suffered for years with eczema. Money was not a consideration if he could only be relieved from the terrible itching, burning, and irritation. He scratched his back at nights until it bled, but the soreness only became worse. He visited Western Springs, and consulted various physicians, but never found a permanent cure until a friend brought Zemerine to his notice. He tried this great treatment, and now sings its praises highly. Zemerine is a wonderful treatment for diseased skin, especially eczema, tetter, rash, itch, and similar disorders. It is sold upon the fairest basis imaginable—your money will be returned if it doesn't help you after a fair trial. If you can't get Zemerine at your druggist send \$1 or 50 cents to the Zemerine Chemical Co., Orangeburg, and a jar will be sent you direct.

TEXAS REPRESENTATION WILL INCREASE

Texas now has in Congress 18 representatives. The growth of her population during the last ten years will entitle Texas to rank among those holding third place in percentage of growth. The following is the prospective increase:

Unless there is to be a readjustment of Congressional representation the 1920 census will make possible the addition of sixty nine members of Congress. Texas will be entitled to 22 instead of 18 members in the National house of Representatives.

The prospective increase of 69 members, as a result of the present census is calculated by states as follows: Alabama, 2; Arkansas 2; California, 4; Colorado, 1; Connecticut, 1; Florida, 1; Georgia, 2; Illinois, 3; Indiana, 1; Kansas, 1; Louisiana, 1; Maryland, 1; Massachusetts, 2; Michigan, 2; Minnesota, 1; Mississippi, 2; New Jersey, 3; New Mexico, 1; New York, 8; North Carolina, 2; North Dakota, 1; Ohio, 3; Oklahoma, 4; Oregon, 1; Pennsylvania, 6; Tennessee, 1; Texas, 4; Virginia, 1; Washington, 3; West Virginia, 1; and Wisconsin, 1.

THE STATE OF TEXAS

To all persons interested in the welfare of Pearl Gilland and Calvin Moncus, minors, Mollie Gilland has filed in the county court of Foard County, an application for Letters of Guardianship upon the estate of said minors, which said application will be heard at the next term of said court, commencing on the first Monday in June, A. D. 1920, the same being the 7th day of June, A. D. 1920, at the court house thereof, in Crowell, at which time all persons interested in the welfare of said minors, may appear and contest said application, if they see proper to do so.

Herein fail, not, but have you before said court, on the said first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Crowell, Texas, this 12th day of May, A. D. 1920.

MARIE HARRIS,

Clerk Co. Court, Foard Co., Texas.

THE STATE OF TEXAS

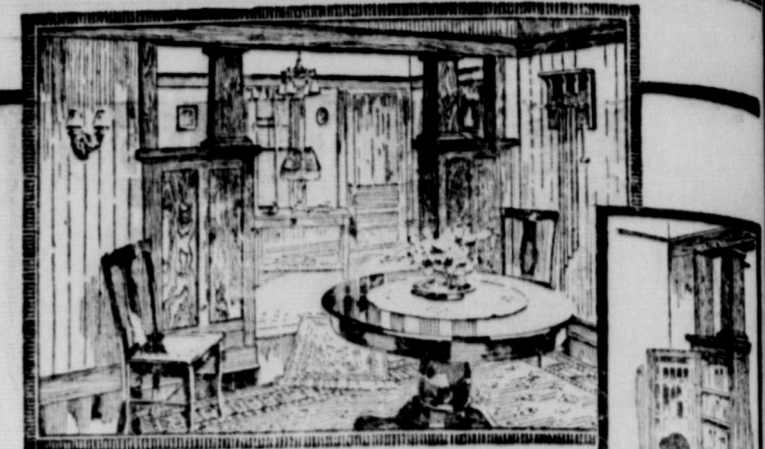

To all persons interested in the welfare of Veda C. Clifford, John Clifford and Letha L. Clifford, minors, Collie Clifford has filed in the County Court of Foard County, an application for Letters of Guardianship upon the estate of said minors, which said application will be heard at the next term of said court, commencing on the first Monday in June, A. DEATH BATTLE OF CALOMEL IN SOUTH

Dodson is Destroying Sale of Dangerous Drug with His "Liver Tone"

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's Dodson's guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't silitate so let them eat anything afterwards. 60

Just because you have some credit don't think you have to use it.

ASPIRIN FOR COLDS

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing precise directions for Colds, Pain, Headache, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for more than 20 years. Handy tin boxes of 12 tablets cost few cents. GOING, GOING—
 That's the news print situation. Nobody knows how soon it will be gone entirely, so far as the small papers are concerned.

To us little fellows, it seems as though the big city dailies are playing the "hog" with their forty, fifty or seventy page Sunday editions, full of a lot of stuff nobody that reads, and their six or eight editions a day. They are able to get their paper because they have it contracted for by the carload a year or more in advance and filling their orders in keeping the mills so busy that the surplus supply available for the smaller papers is decreasing steadily.

The big Sunday editions could be reduced at least one half and the number of daily editions limited to two, without seriously injuring anyone. If the big dailies would do that, they could then release a part of their contracted paper for sale in the open market and the paper dealers would have no kick coming since they get several times as much for paper sold that way.

Congress has been investigating the newsprint shortage for months past

but, like most investigations, it has been prolific of much noise and nothing else. The congress appears to be making a very thorough job of it—the amount of time consumed on it has any significance—and while they are about it perhaps they will discover why newspapers are having to pay fourteen cents a pound for what cost them around two cents before the war.

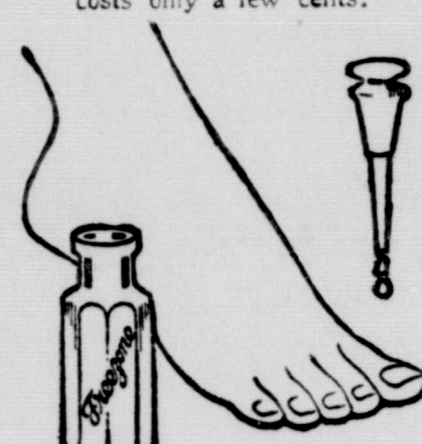

Many of the smaller newspapers have had to suspend already and more are on the way but if they can just hold on until the appropriation for the investigation is used up, Congress may do something about it.—South-west Plainman.

TRESPASS NOTICE
 All parties are warned to stay out of my pasture and not trespass in any way on same. This is sufficient to the wise and if it is heeded it will save prosecution and a consequent payment of fine.—J. R. Bell. 50p

Bethman-Hollweg scored some good sense when he warned Germany not to use the submarine.

Fifteen per cent of the advance price of sugar, amounting to 100 per cent, went to labor, according to labor leaders.

Lift off Corns!
 Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

It Helps!

There can be no doubt as to the merit of Cardui, the woman's tonic, in the treatment of many troubles peculiar to women. The thousands of women who have been helped by Cardui in the past 40 years, is conclusive proof that it is a good medicine for women who suffer. It should help you, too.

THE STATE OF TEXAS
 To the Sheriff or any Constable of
 Foard County—Greetings:

Emma P. Rader, executrix of the estate of Powell Rader, deceased, having filed in our County Court her final account of the condition of the estate of said Powell Rader, deceased, numbered 147 on the probate docket of Foard county, together with an application to be discharged as executrix of said estate.

You are hereby commanded, that by publication of this writ for twenty days in a newspaper printed in the county of Foard, you give due notice to all persons interested in the account

for final settlement of said estate, to appear and contest the same if they see proper so to do, on or before the June term, 1920, of said county court, commencing and to be holden at the court house of said county, in the town of Crowell, on the first Monday in June, 1920, the same being the 7th day of June, 1920, when said account and application will be acted upon by said court.

Given under my hand and the seal of said court, at office in Crowell, Texas, this the 13th day of May, A. D. 1920.

MARIE HARRIS,
 Clerk Co. Court, Foard Co., Texas.

Mrs. Simeon Shaw, of Canyon City, Texas, with chalk drawings, pictured "service" and made a short talk as she saw "service" during the war. Mrs. Henry told the story of an ideal home as written by Sam Walter Foss in that beautiful little poem entitled, "The House by the Side of the Road," which is a splendid illustration of "service" of today. While Mrs. Henry related the story connected with the writing of this poem, Mrs. Shaw illustrated it in such a way that each guest carried the picture home with her to be an inspiration in the future.

At the close of the program, Mrs. Henry called for questions, and by special request, Miss Swisher sang "Perfect Day."—The Hereford Brand.

CALLAN ACQUITTED

Llano, May 18.—After being out since 3:30 o'clock Saturday afternoon, the jury returned a verdict at 2:30 p. m. Monday, acquitting James Callan on a charge of murder in connection with the killing of Victor Billings in Menard County on Nov. 12, 1918. The jury was composed of cattlemen, farmers and business men. The case was brought to Llano County on a change of venue from Menard County.

Billings was a young trader who had been buying and selling horses, driving them on foot through the country. He was 27 years old. He had never before seen Callan; Callan did not know him.

Testimony adduced by the State was that Callan shot Billings, that the bullet entered the back and that Billings was unarmed.

Under the questioning of Dayton Moses, defense witnesses testified that Billings had left the gate open between Callan's scalp pasture, a tick-free pasture, and the Rasmussen ranch, a ticky pasture. The gate had repeatedly been left open and Callan had spent much time in trying to get the pasture rid of ticks.

Callan and his son, Russell Callan, were going home when they found the gate open again. They closed the gate and soon overtook Billings. It was between dusk and dark. Callan testified he asked Billings if he left the gate open. Billings said he did. A lively conversation followed, in which there were oaths, but no epithets. Callan testified that Billings, dressed like a cowboy, shifted the reins from his right to his left hand, whirled his horse in Callan's direction, whereas, believing his life in danger, Callan fired. He fired from the hip, without again looking, and did not know that Billings had turned.

Witnesses who examined the tracks of the horse the day after the killing, testified that the tracks showed the horse had turned.

The State produced only two witnesses, and rested after Callan testified.

JUNIOR LEAGUE PROGRAM

The Junior League will have for their lesson May 23, the 27th chapter of Judges. Each leaguer is requested to read the chapter and bring questions to the league from this chapter.

Every member is requested to be present as there will be an election of officers.

AN OVERSIGHT

In publishing the graduates of 1920 in last week's issue we failed to mention the names of Misses Maud Ferguson and Ruth Elliott. We mentioned the fact that there are 13 graduates but named only 11. How the mistake occurred no one knows. Also the fact of an address to be given by Rev. Adams of Quanah on Monday the 24th.

THE STATE OF TEXAS

To all persons interested in the welfare of Veda C. Clifford, John Clifford and Letha L. Clifford, minors, Collie Clifford, guardian of the estate of said minors, has filed in the county court of Foard county, an application to make, execute and deliver an oil, gas and mineral lease on the following described land belonging to the estate of said minors, situate, lying and being in Foard county, Texas, and being an undivided three-sevenths of one-half of the following described two tracts of land: First tract: the north one-half of section No. 515, in block A, H. & T. C. Ry. Co. surveys, containing 320 acres. Second tract: all of section No. 3, block 44, H. & T. C. Ry. Co., containing 414 1/2 acres of land, which said application will be heard at the next term of said court, commencing on the first Monday in June, A. D. 1920, the same being the 7th day of June, A. D. 1920, at the court house thereof, in Crowell, at which time all persons interested in the welfare of said minors, may appear and contest said application, if they see proper to do so.

Herein fail not, but have you before said court, on the said first day of the next term thereof, this writ, with your return thereon, showing you have executed the same.

Given under my hand and the seal of said court, at office in Crowell, Texas, this the 13th day of May, A. D. 1920.
