## OWNER HOME CALLS FOR HELP

paper does not regret the space given by the free publicity given to the Buckner Orphan Home. If there is one institution in Texas that needs help it is the Home. It is financed by a fund, and every one knows that the Buckner Orphan Home is not usually a charitable institution, its doors are open to all denominations as well as to those not identified with any denomination. That being the case its call is to you whoever you may be. We are publishing this appeal, not addressed to the church or public and is as follows:

A ship is at sea and all is well. It may be many days during which there is no communication between it and the rest of the world save news of passing interest. Storms may threaten, engine troubles of importance may develop and yet there is no call for help. A day finally comes when wireless stations along the coast and on every vessel within a few miles pick up the wireless message: "S. O. S. Save Oh Save! We have had no epidemic; the children are enjoying the same good health as usual here. Typhoid, nor cholera, nor 'flu' nor anything else is here. We call for extra sacrifices on the part of surgeons and doctors, nurses, or extra liberality on the part of the people to meet the expense at such a time. We have had no fire; our buildings are firmly on strong foundations. Every door and window, floor and staircase and casement is in good condition. Buildings nor contents, furniture, nor fixtures, neither property nor persons have been burned; we call for extra giving upon the part of our friends to repair or replace such loss.

We have not lost confidence in our country; they are everywhere in numbers, and they believe in work and workers here. We are glad that there are many of them who gladly share a last dollar or a crust with these children. We believe that they are ready for extra giving at every time extra giving being necessary. Yet—

We have no money for current support; we saw it coming; but the bank has failed and we have notified us for that it is so. We shall need a hundred thousand dollars for the year of the Convention year; but a circumstance that is more to the point is that we need twenty-five thousand dollars right now as soon as it can be sent in. Bills already received and outstanding obligations amount to that much.

We have no fear but for the possibility of some to feel that the other fellow will make it all right. It cannot be made right unless you, beloved one, make it right. So, if you believe in the work, send us your check for a liberal amount, and use your influence to get others to come to our help.

## TEXAS SCHOOLS THIRTY-NINTH IN EFFICIENCY

Washington, May 25.—For an all-time record the public schools of Texas rank thirty-ninth in the nation, according to the results of a comparative study of state school systems made public by the Russell Sage foundation today.

Montana has the best all round school system in the country, the report said. Oklahoma ranks thirty-third and Louisiana forty-sixth. The foundation's educational measurements are found by taking the official showing the number of children attending school, the amount of training they get, the progress they make, the amounts expended for buildings, supplies, the salaries paid teachers and other similar items and coming these factors into a single index number which shows the general standing or efficiency of the schools. The Texas schools were found to be 76 per cent efficient and Montana ranked 76 per cent efficient.

## EDWARDS & ALLISON GROCERY SOLD TO McCASKILL

A deal was closed yesterday where J. W. McCaskill is now owner of Edwards & Allison grocery store. McCaskill also bought the brick building which was owned by J. W. Allison.

Mr. McCaskill was at one time in the feed business and is no stranger to the people of Crowell, and we predict for the grocery store the same good patronage enjoyed by it under the management of B. W. Wallace.

## After 45 Years Visit Old Tennessee Home

Forty-five years ago most of Texas was a frontier country. No wonder when folks left the eastern states to make this their home it was frequently predicted that they would soon be back at the old home place.

It was in 1875 that F. G. Ferguson and his brother, N. P., left the old home in Tennessee and came to Grayson County, Texas. The next year the entire Ferguson family followed. They remained in Grayson County until 1885, when they all came to Foard County and have resided here since that time.

F. G. Ferguson and wife left Monday of this week for a visit in Tennessee, this being the first one they have made since leaving in 1875. It is interesting to think about the changes that have taken place within the last 45 years. They have come in hundreds of ways. Many people have moved out, others have died, others have been born and grown to maturity, so with the exception of a very few of those who have survived like Mr. and Mrs. Ferguson for half a century the population will be almost entirely a new one. This fact together with the fact that changes have taken place in the development of the country will make these visitors think they are in a strange land. But the visit with the relatives they have there and some old acquaintances will make it worth a great deal to them. Mr. Ferguson says he does not know when they will return. They are placing no limit on the visit but will stay until they get ready to come home.

## ORIENT ROAD MEN JOIN AUTO SPEED RACE PARTY HERE

The Orient railroad delegation, composed of representatives of communities along that railroad in West Texas, en route to Washington, to press their claims before the interstate commerce commission June 3 for a loan of \$3,500,000 to the road, joined with the Vernon Hinkle party here Saturday and will go as far as Indianapolis with the Fort Worth delegation who will witness the international sweepstakes race in the Hoosier capital.

The party numbered fifteen members at noon Saturday but when the train left the station at 8 p. m. about twenty members were in the party being swelled by the late arrivals. W. L. Aldwell, Sonora, is in charge of the delegation. Practically every town along the railroad from San Angelo to Sonora was represented. There were also members from other towns along the line.

That the commission will grant the loan was the opinion expressed by Alex Collins, San Angelo lawyer, who was in the party. "While the track will not be taken up if the loan is not granted, the road might be crippled until it could not give service," he said. "The livestock industry has flourished greatly since the road has been built. If it had not been for the Orient in transporting cattle to better pasturage during the drought which has gripped the cattle country south of San Angelo, thousands of dollars would have been lost to the rancher."

The \$3,500,000 if loaned by the commission will be used towards meeting deficits which soon fall due, other debts and repairing the rolling stock of the railroad, Collins said.

Personnel of the party includes: J. W. Waggoner of Hamlin, G. W. Walthall of Crowell, Alex Collins of San Angelo, R. Theis of Big Lake, George H. Sheppard of Sweetwater; Mmes. Ida Williams, Lilly Allison, James Connell and Messrs. S. E. McKnight, James Connell, W. L. Aldwell and Miss Hattie Cusenbery, all of Sonora; Joab Campbell of Eldorado and E. M. Dudley of Ozona.—Ft. Worth Record.

Mr. and Mrs. Leo Spencer will leave this afternoon for Rochester, Minn., where they will have their son, Markham, examined by Mayo Bros.

## Will Lay Corner Stone of M. E. Church Today

The corner stone of the Methodist church will be laid this afternoon at 3:00 o'clock with an appropriate program, under the auspices of the Masonic Fraternity. The Vernon Commandery will leave Vernon at 8:30 this morning to be present and assist in the services this afternoon.

Mr. and Mrs. Walford Thompson are now making Crowell their home. Walford has accepted a position with J. H. Self & Sons and is delivering gasoline and oil.

## W. TEXAS CHAMBER WANTS EXHIBITS

J. C. Wells, exhibit man, and W. H. Wright, publicity manager, of the West Texas Chamber of Commerce, were here Tuesday and Tuesday night. The business of these gentlemen was to get co-operation with our people in the matter of making an exhibit of the products of our county at the State Fair next fall.

They met with a few of our citizens Tuesday night, but on account of the rain late in the day only a few could attend. The meeting had been announced in time for a good representation if the rain had not come just as it did.

The proposition is for Foard County to make an exhibit at the State Fair and then the West Texas Chamber of Commerce will take the best of what our county puts up at the fair and will use it in an exhibit they will make in some 15 states in the Union. There is no cost attached to our getting Foard County products before the various states, so far as we are concerned. All the cost there is to us is that of making the exhibit at the State Fair. The West Texas Chamber of Commerce bears the expense of putting this stuff before the people of other states.

This is one of the best ways in which this country can be advertised and it is an opportunity that Foard County can not afford to overlook.

This matter will be taken up by the Foard County Chamber of Commerce and worked out. We are in better condition than ever before to work matters of this kind through the Chamber of Commerce which we now have in good working condition.

This will be an opportunity for this county to get on the map by some real good advertising and we must and will use it.

## O. E. S. Officers Were Elected Last Week

At the regular meeting of the Order of Eastern Star last Thursday evening, the following officers were elected for the ensuing year:

Mrs. T. L. Hughton, W. M.; T. B. Klepper, W. P.; Mrs. C. W. Beidleman, A. M.; Miss Lottie Woods, C.; Miss Ella Edgin, A. C.; T. N. Bell, treasurer; Mrs. Allan R. Sanders, secretary.

The retiring Worthy Matron, Mrs. E. P. Bomar, closed a very successful year. Under her leadership much interest in the work of the chapter has been manifested and many new members have been initiated. A rising vote of appreciation was given Mrs. Bomar by the chapter. She left Friday for her new home in Alpine going by way of Dallas.

N. J. Roberts, the retiring Worthy Patron has served many years in this capacity and has been faithful to the duties of the office.

After the election of officers was completed ice cream and cake were served by the refreshment committee.

## THE YOUNG LADIES MISSIONARY AUXILIARY

The Young Ladies Missionary Auxiliary met Tuesday, June 1, at four o'clock, with Miss Oberia Hamblen.

After the business was attended to Mrs. Mark Henry took charge of the lesson. As the book, "Adventures in Faith in Foreign Lands," could not be secured by all the ladies, we read the introduction and studied the first pages of lesson I. At the close of the lesson a Bible contest created much interest for all present. Immediately afterwards we were served delicious ice cream and cake.

We were delighted to add to our roll the three new members, Misses Lora Mae Hamblen, Francis Clark and Minnie Ringgold.

We will meet June 15th with Mrs. D. W. Cock. We urge every member to be present and bring some one with you.

A MEMBER.

## SHIPS ELEVEN CARS OF STEER YEARLINGS TO CLAY COUNTY

B. J. Glover, foreman of the Halsell ranch, loaded eleven cars of steer yearlings at Crowell last Friday to be shipped to Mr. Halsell's ranch in Clay county.

Mr. Glover says the grass in Clay county produces bigger and better beavers, hence the yearlings from this ranch are taken there every year where they are kept till ready for the market.

Charlie Woods is here from Vernon visiting friends.

## GRAIN HARVEST OPENING EARLY

The first wheat farmer to begin cutting wheat, so far as we have learned, is Zeke Bell. He has already cut two days and says his wheat is good. Zeke has 875 acres in small grain, 175 of which is oats and 700 in wheat. Asked as to what seemed to be the promised yield since he has commenced cutting, he said, "my crop will average up better than it did last year." He said the straw was not as high as that of last year and some of his wheat not so thick on the ground but it has a better head and is much easier handled.

Next week we shall see numbers of farmers cutting down their wheat. The harvest is now on us and we shall see the busiest time we have witnessed since last summer when the big 1919 crop was upon us.

What the labor situation is going to be we can not say yet. However, we have not heard very much said about it. There seems to be a good number of new people in the county, we judge some of them have come to work in the harvest. The situation does not appear to be as serious as last year.

## WILL ATTEND NATIONAL MEETING OF FEDERATED CLUBS

Mrs. M. S. Henry left Wednesday for Des Moines, Ia., where she will attend the National Meeting of Women's Federated Clubs to be held in that city. Mrs. Henry is president of the first district of women's federated clubs. She anticipates a pleasant trip as well as one of great profit to her in that work.

Accompanied by her husband, Mr. Henry left to go by way of Plan where she will visit her father a few days before leaving for the Des Moines. Mr. Henry will attend to business in Dallas.

## Officers Catch Big Bunch of Gamblers

Sheriff L. D. Campbell and City Marshal Lovelady made a lucky catch of gamblers one night last week when they sacked 10. Two of these we understand had come in from other sections and in a large measure were thought to have been influential in leading some of the boys into the gambling business.

All such meanness as gambling ought to be put down, and it can be if the citizenship of the town and country will co-operate with the officers. That is what the officers want. They can and will handle this thing if they have the co-operation they should get. So it comes down to the proposition after all, the people are responsible for conditions, good or bad, because they require good or allow bad to exist. That does not mean that they are responsible for all crime, but it does mean that they are responsible for a continuation of the same if they do not rise up and help the authorities to put it down.

## HONORING MRS. E. P. BOMAR

On Tuesday afternoon at the home of Mrs. Jack Roberts, the Ladies Aid of the Christian Church gave a very pleasant reception honoring Mrs. E. P. Bomar who left for her new home in Brewster County on Friday.

The house was decorated in cut flowers and music mingled with the pleasant conversation. Two contests, "The Books of the Bible," and "A Recipe for a Spiritual Cake," were enjoyed. Mrs. C. R. Ferguson won the prize, a pair of silk hose, and graciously presented them to the honor guest.

The members of the Columbian Club of which Mrs. Bomar was a member were guests for the afternoon, and Mrs. C. R. Ferguson, in token of the esteem and love of the Columbian ladies, presented Mrs. Bomar with a beautiful silver vase. The presentation speech was beautiful and expressed the wish that the fragrance of the flowers that the vase may hold in the years to come be a gentle reminder of happy associations with Columbian.

A dainty ice course was served while a pleasing Bible drill was conducted by Mrs. Kincaid.

Mrs. Roberts was assisted in receiving by Mrs. Mrs. S. C. Auld.

Mrs. Bomar has been a valued member of the Ladies Aid since its organization, and our prayers go with her to her new home. May she find pleasant places and pleasant work in the Master's vineyard wherever she may go.

A GUEST.

## Secretary Chamber of Commerce on Job

We stated in last week's issue that the Chamber of Commerce had secured the services of Grover C. McGown as secretary. Mr. McGown was in Ft. Worth last week winding up his affairs with Clay-Robinson Co., with which firm he had been associated, and arrived early this week to assume his duties as secretary of the Chamber of Commerce.

Mr. McGown is getting things in shape to enter upon this work and will have office quarters somewhere on the square. He will assume these duties in the hope that our people throughout the county will co-operate heartily with him. Everybody in the county will be solicited to enlist his services in this organization for the benefit it will be to the whole county. As has been stated before, this is to be a county organization and proposes to benefit the county as a whole.

## WITH OUR READERS

M. R. Shirley has ordered his paper changed from Houston to Hico. Hico is in Central Texas and Houston is in South Texas. Mr. Shirley is making his way back towards the land of sunshine and happiness. He was too long in this country ever to make anything but a westerner. So we expect his next move to be to Foard County.

W. L. Brisco is making his home at Acme and of course wants the News. We are starting him the paper with this issue.

While M. L. Bird was up from Vernon this week he had his paper set up a notch.

Dave Sollis, public auctioneer, said he thought we needed some help and he had decided that he would subscribe for the News. When we told him that we had not sent out the S. O. S. call yet, he said then he would just subscribe anyway.

P. P. Cooper wants the News for another year. Mr. Cooper has been a reader of the paper for many years and does not feel like trying to tread life's tiresome pathway without it in his business.

J. M. Speck wants the paper to keep going to his son, Guy Speck, Post, but since we did not know that, Guy's name was dropped when the time expired. Mr. Speck renews.

Mrs. E. Wynn sent us \$2.00 last week to have the paper sent to her granddaughter, Mrs. Robert Wynn, Bastrop, Texas. Mrs. Wynn is the mother of Mrs. W. R. Tuttle and while she is getting old in years she is very active. She is one of those old time women, like which there are few, living to a ripe old age and as spry and happy almost as a girl of 16.

Mrs. W. F. Minnick writes in to say that they are going to their Colorado ranch and that they want their paper changed from Clarendon to Kenton, Okla. They are spending their vacation on the ranch.

L. T. Burnside of Crowell becomes a new reader with this issue of the News. Mr. Burnside is a painter and decorator.

Other renewals are: R. C. Moore, Crowell; J. D. Carrington, Clovis, N. M.; Mrs. Georgia Pittillo, Crowell, and Rev. Paul Mosler, Bomarton.

## BUILDING ROOMING HOUSE AT VERNON

M. L. Bird was here the first of the week from Vernon. Mr. Bird has not left Crowell and moved to Vernon, but he is interested in the building of a 30-room rooming house in that city, and so he is giving that matter some of his time, which takes him away from home. This piece of property is one block east of the postoffice in Vernon and according to Mr. Bird's claim will be one of the swellest rooming houses in the city when it is completed. We do not understand that Mr. Bird expects to run a rooming house, but he is confident that such an investment is a safe one at Vernon.

## Masonic Lodge Elected Officers Monday Night

Crowell Lodge, No. 840, A. F. & A. M., elected officers for the ensuing year, as follows:

Dr. M. M. Hart, worshipful master; Albert Magee, senior warden; W. S. J. Russell, junior warden; S. C. Auld, treasurer; J. A. Stovall, secretary; Ben Whitfield, tiler.

Officers appointed were: Grady Magee, senior deacon; Herbert Edwards, junior deacon; C. A. Adams, senior steward; Russell Beverly, junior steward; J. W. Beverly, chaplain.

## WILL VOTE BONDS FOR SCHOOL BLDG.

The necessity of repairing the school building has been a matter about which most of our people have been concerned for some time, but this has not been regarded as imperative until within the last few months. When a month or two ago the wind and rains storms damaged the roof and forced temporary suspension of work in some of the rooms, it became evident that such condition must not be allowed to continue long. Added to this handicapping of school work has been a feeling of fear that the building is not safe when crowded with people. As to the safety of the building assurance has been given by builders who have examined it that there is little cause for fear that the building is liable to fall. Still that does not entirely remove that fear.

With the view of repairing the building and making it such as that there need be no fears as to its safety the school board is taking steps to procure funds with which to do the necessary repair work. They have ascertained the amount of bonds that can be voted according to valuations and have found that in addition to the bonds already voted by the district we can vote as much as \$9,000. So an election is being called for that purpose and if these bonds are approved we can go right ahead and repair the building.

With that amount it has been figured that the fire walls can be torn down and rebuilt and a new roof added. The idea is to make these fire walls, which are only 9 inches thick, 13 inches instead, and cut them down in height so that strong winds will be less likely to blow them in. Those who have examined the building say the danger from the fire walls falling in with a strong wind is the only thing that would render the building unsafe, if indeed it is unsafe at all. This repair work can be done they say and it will be made safe and comfortable for all purposes for which it may be used.

The matter will be rushed through as rapidly as possible in order that the repair work may be done in time for the building to be ready for the school when the fall term opens.

Everybody wants a good, safe, comfortable school building, and there is no fear that the people of the Crowell Independent district will be willing to vote bonds for this work.

## WRITES FROM NEW MEXICO

A letter received from J. D. Carrington Monday says the family is comfortably situated and is enjoying the home and surroundings in that country. Since Mr. Carrington permits us to publish his letter we are taking no unjust liberty in doing so and are glad to give it here. Addressing the News he says:

Of course, I hear from you once a week as long as the News keeps coming, but you hear from me only once a year and that is about the time my subscription expires. I am sending you subscription of \$2.00 for which please keep the News coming to me at Clovis, N. M., as I still have a little interest at Crowell and feel an interest in Foard County and especially in Crowell people.

I notice in the News that you have a man by the name of Jno. R. Edmonds who is going to make Crowell his home. Judging from what you have to say about him he must be from Quitman, Texas, my old home county. If so, I feel safe in saying that you will never regret having him in your midst.

I know you are going to have the wave of prosperity continue in Foard County this year. If I were hooked up to farm I would like to be in Foard County, but as I have to work at common labor in some town I think Clovis the best place I ever lived. I am not getting rich, but have an easy job that my family can live off the wages I get. I have no expensive or hard work to do.

This town has had a building boom ever since I have been here. It is 12 years old and claims about 7,000 population.

You may publish as much or as little of this, just so you send the News.

Yours truly,  
J. D. CARRINGTON.

## FOUR TEACHERS ACCEPTED

Among the teachers who have been elected for the Crowell school next term four have accepted, Misses Lottie Woods, Ruth Martin, Venus Cock, Inez Sloan.

## ALL-AMERICAN

A Sturdy, Dependable Truck

Model 1 - 4,000 Pounds Maximum  
Model 1 1/2 - 6,000 Pounds Maximum  
Model 2 1/2 - 8,000 Pounds Maximum

EVERY ALL-AMERICAN has ample strength to carry its full rated capacity and plenty of power to pull its load under the most severe conditions. That is why All-American owners everywhere are so well satisfied with the performance of their trucks.

For, after all, you judge the real dollars and cents value of a motor truck by what it will do for you. And on that basis we want you to measure the All-American. Here is a truck that is not only well-built and constructed of the best units—but one that lives up to every claim we make for it.

The All-American Truck is made in three sizes—Model 1, Model 1 1/2 and Model 2 1/2. So, whatever your haulage needs may be, we have an All-American that will do the work at low operating and maintenance expense.

Come in and see the All-American. Let us show you how it fits your business.

## You Have Heard That Clothes

## Were Going Down

## HAS ANY ONE SHOWED YOU?

We have reduced the price on 185 fabrics in the present season's line from \$4 to \$17.50 and in addition to this reduction we will for one week only, commencing Saturday, June 5th, make a special discount of 15 per cent on every pair of extra trousers ordered with a suit.

Why not wear clothes tailored to your individual measurements, made as you want them and from the fabric you like. They are cheaper than the hand-me-down kind.

Don't forget the dates.

The big reduction is there to stay, but the special reduction on extra trousers is good for only one week.

It will pay you to investigate.

### June Birthday Emblems

There is a difference of opinion as to the proper birth emblem for June. Some hold that Agate is the emblem for this month, while others regard the Pearl as proper.

We can supply either.

The beauty and value of a pearl depends on form, quality of texture or skin, color, transparency and lustre. The pearl set jewelry of our stock will afford a June birthday selection that will give most pleasure to the receiver.

We invite comparison of our showing of "quality jewelry." Look around, but come to us, sure, before you buy. We can show you what we have better than cold type can tell.

It is a pleasure to us, and will be a pleasure to you to look.

Our new elevator is progressing slowly on account of wet weather and scarcity of material.

A car load of the Brisco family came in on Saturday. They are visiting old friends and relatives here.

News is scarce this week and we are pressed for time. We will write you from Chicago, if we get there.

Our school closed last week and we could not find enough of the teachers and pupils to hold commencement exercises, but the kids are happy and are enjoying the vacation.

A nice rain on Tuesday night has relieved us of all fear of a drouth and we are wondering how we will get into the fields to cut the wheat and oats that are about ready for the harvest.

A rain on Tuesday night interfered with a party given in honor of Miss Davis, one of our teachers. We have not heard of the result, but we know one young man who blacked his shoes and put on his good clothes and the rain came and he failed to go. Something always happens to take the joy out of life.

Old man Wesley took the evening train on Wednesday to go to the Chicago convention in the interest of Joe Bailey. He may not get all the way there. He started to Chicago sixty years ago in the interest of Stephen A. Douglas and got side tracked in Ohio and has never got there yet. Lincoln got the nomination and Wesley got home the spring of '61 just in time to go to war.

### BUFFALO FOUND

We realize that it will sound like a story of days gone by, but it is true nevertheless.

Last week, while one of the cowboys was riding over the McAdams ranch, he ran across three buffalo—full grown. Two of which had horns; the other was a muley.

Mr. McAdams draws the conclusion that the buffalo have escaped from the Goodnight ranch and have wandered off to this section of the country. That is how he accounts for the muley, supposing it to be a cattalow.

The cowboy chased the three for a little ways, but soon lost them again. They were coming in the direction of Paducah when he last saw them.—Paducah Post.

The Literary Digest, in predicting a serious food shortage, gives this as only one of many facts: A Missouri farmer went to Kansas City the other day to get two men. "In front of the movie at the afternoon matinee," he says, "were probably forty husky youths waiting for the doors to open. Not one of 'em would work on a farm."

## ALL-AMERICAN

A Sturdy, Dependable Truck

Model 1 - 4,600 Pounds Maximum  
Model 1½ - 6,000 Pounds Maximum  
Model 2½ - 8,000 Pounds Maximum

EVERY ALL-AMERICAN has ample strength to carry its full rated capacity and plenty of power to pull its load under the most severe conditions. That is why All-American owners everywhere are so well satisfied with the performance of their trucks.

For, after all, you judge the real dollars and cents value of a motor truck by what it will do for you. And on that basis we want you to measure the All-American. Here is a truck that is not only well-built and constructed of the best units—but one that lives up to every claim we make for it.

The All-American Truck is made in three sizes—Model 1, Model 1½ and Model 2½. So whatever your haulage needs may be, we have an All-American that will do the work at low operating and maintenance expense.

Come in and see the All-American. Let us show you how it fits your business.

## You Have Heard That Clothes

### Were Going Down

### HAS ANY ONE SHOWED YOU?

We have reduced the price on 185 fabrics in the present season's line from \$4 to \$17.50 and in addition to this reduction we will for one week only, commencing Saturday, June 5th, make a special discount of 15 per cent on every pair of extra trousers ordered with a suit.

Why not wear clothes tailored to your individual measurements, made as you want them and from the fabric you like. They are cheaper than the hand-me-down kind.

Don't forget the dates.

The big reduction is there to stay, but the special reduction on extra trousers is good for only one week.

It will pay you to investigate.

### June Birthday Emblems

There is a difference of opinion as to the proper birth emblem for June. Some hold that Agate is the emblem for this month, while others regard the Pearl as proper.  
We can supply either.  
The beauty and value of a pearl depends on form, quality of texture or skin, color, transparency and lustre. The pearl set jewelry of our stock will afford a June birthday selection that will give most pleasure to the receiver.  
We invite comparison of our showing of "quality jewelry." Look around, but come to us, sure, before you buy. We can show you what we have better than cold type can tell.

## MILLION BALES COTTON STILL IN TEXAS UNSOLD

Austin, May.—F. C. Weinert, commissioner of markets and warehouses, has given out the following statement:

Within the past ten days or two weeks I have received a great many inquiries from farmers, bankers and business men throughout the state inquiring about the cotton market and applying to me to aid and assist them in marketing the crop that they now have on hand.

In answer to these numerous inquiries I desire to make the following statement with reference to the present situation governing the cotton market: At the present time there are about a million bales of cotton in Texas that are unmarketed. In other words, there are a million bales of cotton in the hands of the producers and merchants and others that are not sold. This condition is unprecedented in the history of the South. Never before have we seen a condition just as there is at the present time, when there is an admitted shortage in the cotton supply of the world and a great demand for the staple. There is a seeming general prosperity throughout the country and yet cotton cannot be sold, hardly at any price. Eighty per cent of the cotton now held by the producers and others is of low grade; that is, it is of grades below middling. There is practically no market at all at the present time for this low grade cotton. The present conditions are attributable directly to the following causes:

First, the spinners of the country have adjusted their machinery to spin the better grades of cotton. They will not readjust their machinery to spin the lower grades until necessity forces them to do so. The markets in Europe that have heretofore been open to the lower grades of cotton are now closed on account of their financial condition. Practically all of Europe is bankrupt and cannot buy for cash scarcely anything.

The second reason for this condition is that the bankers of the country are opposed to extending additional lines of credit. In other words the spinners cannot accumulate stocks

of manufactured goods at the present prices of manufactured goods. Bankers deem this unsafe. Hence they will not buy a large stock of cotton with which to manufacture the higher priced goods without an extensive line of credit, which the bankers will not give.

The third reason is a general breakdown in transportation. This applies to the manufactured articles as well as to the raw materials. This within itself, has caused the curtailment of credit on the part of bankers. Transportation has broken down by reason of the fact that there have been numerous strikes and labor does not seem to realize its full function in the readjustment of our commerce since the war.

## QUANAH MAN BEATS SHOW WRESTLER IN BOUT

Gentry Bros.' Circus had with them a wrestler of no mean repute while in Quanah. They offered a reward of \$100 for any man who would stay on the mat for fifteen minutes with their man, Steve Savage.

When the challenge was issued, Saturday night, Rudy Warner came down from the audience and accepted it.

Warner is a notable wrestler himself, having been at one time a partner of the famous Farmer Burns, and is a pupil of the great and only Frank Gotch.

Warner was out of condition, being driller for the Walters Oil Co., and would never have entertained the bout but for the pressure put on him by his friends.

Savage, the circus wrestler, seemed at a loss from beginning to end. He had been accustomed to take the offensive but was utterly taken off his feet by the faster Warner. Savage had every advantage, as to condition and at least twenty pounds the heavier. Warner got every hold he desired and the largest man only got two holds on him in fifteen minutes. Warner used the headlock to great advantage and at one time secured a toe hold that caused the circus man to wince with pain.

The big tent was filled to overflowing, and cheers for Warner could be heard all over town. This was indeed

## WILL MAKE CROP EQUAL TO THAT OF LAST YEAR

Within the last two weeks wheat has been showing up surprisingly in this county and numbers of farmers think they are going to have more than a normal yield. H. J. Crosnoe was in town Monday from his farm 9 miles south of town to put in an ad in the paper for a threshing rig, and he said while he would not make as big yield on any of his land this year as he did on some of it last year, a portion of it promises better, and so he figures that the average yield will not be far short of the 1919 yield on his place. He and his boys have 400 acres with the promise of 25 bushels on most of it.

Jack and Joe Roberts left yesterday for Dallas to visit their aunt, Miss Leona Young. They will also visit Mrs. W. F. George in Fort Worth.

THE HOUSE OF SERVICE

## Your Membership Is Wanted

The Foard County Chamber of Commerce is a county affair. The Executive Committee is the authoritative body, made up of three men. One of these is an exclusive farmer; another is a farmer and business man; the other is a farmer, stockman and business man. Hence in this committee are represented the leading interests of the county. The membership of the Chamber includes representatives from most of legitimate enterprises of the county, but every citizen is wanted as a member.

You are wanted because the organization needs you; you are wanted because you need the organization. Therefore you are not only invited but you are urged to become a member.

The Chamber of Commerce will help to hasten oil developments; it will help bring more farmers to the country; it will help expand business interests of all kinds and each and every man will be benefitted thereby. It is a co-operative proposition and asks you to contribute your share of that co-operation. The organization is your servant.

### PROMINENT MERCHANT FOUND LASTING RELIEF

In a South Carolina county-seat a prominent merchant suffered for years with eczema. Money was not a consideration if he could only be relieved from the terrible itching, burning, and irritation. He scratched his back at nights until it bled, but the soreness only became worse. He visited Western Springs, and consulted various physicians, but never found a permanent cure until a friend brought Zemerine to his notice. He tried this great treatment, and now sings its praises highly. Zemerine is a wonderful treatment for diseased skin, especially eczema, tetter, rash, itch, and similar disorders. It is sold upon the fairest basis imaginable—your money will be returned if it doesn't help you after a fair trial. If you can't get Zemerine at your druggist send \$1 or 50 cents to the Zemerine Chemical Co., Orangeburg, and a jar will be sent you direct.

Meet me at Ferguson Bros.

Mrs. J. R. Edgin and daughter, Miss Ella, returned Wednesday from Fort Worth where they had been called on account of the serious illness of Mr. Edgin's brother. They report him slightly improved at the time they left.

T. S. Clark came in Wednesday from Asher, Okla., where he has been visiting for several weeks. He will be here with his daughter, Mrs. Womack, for a short time. She expects to go to South Texas this summer.

### BLAMES PRINT SITUATION ON THE CONGRESS

Paper Trade Head Says Fear of Federal Control Prevents Mill Investments

St. Louis.—The attitude which he asserted the government had adopted toward the paper-making industry was blamed primarily for the paper shortage by R. P. Andrews of Washington, president of the National Paper Trade association, in an address before the annual convention of the Wholesale Stationers' association here.

"Wood pulp and raw materials could be had if we had the mills to make them into paper," he said, "but capital cannot be induced to invest in paper mills while they are threatened

with government control as soon as their mills are ready to operate. We would have these mills if capital was assured of being let alone."

Mr. Andrews said "the foundation was laid for the shortage of newsprint paper when the reciprocity bill was put through with Canada." Since that time "there have been virtually no newsprint paper mills built in the United States." Increased consumption, due in great part to the increase in advertising, was also a prominent factor in bringing about shortage, he asserted. A survey of the situation gives little hope for a decline in the price of paper in the near future, Mr. Andrews said.

"Plenty of Paper at Low Price"  
 Chicago.—Conditions in the paper industry are not such that any "undue

alarm should be taken over a supposed shortage of newsprint," members of the Inland Daily Press association, in annual convention here, were told. Several members had voiced alarm concerning the "present paper shortage."

"There is plenty of paper for every one," declared Jason Rogers of New York, publisher of the New York Globe. "All that is necessary is a plan of conservation and the careful allotting of the supply on hand," he said. "Paper can be obtained at a low price, too. None of us should be required to pay more than 4 cents a pound for it."

P. T. Dodge, president of the International Paper company, said there was no need for the present high prices charged for paper. He said the mills should not charge more than 10 cents a pound.

The association now has a membership of 191 newspapers in the Central states.

### REPORT OF JUNIOR LEAGUE

The Junior League bought a beautiful memorial window for the new Methodist church costing \$300.00. The league meets every Sunday afternoon at 3 o'clock lasting one hour.

Officers were elected last Sunday as follows: Leslie Hart, president; Louise Thomas, vice president; Irene Cook, secretary; Cornelia Beidleman, treasurer; Jewell Brown, pianist; Mildred Cogdell, reporter.

### WOMEN VOTERS

When the suffrage amendment is ratified around 26,800,000 women will join in the ranks of voters, according to the 1910 figures of population for a basis.

New York will have over three million, Pennsylvania a little over two and a quarter, Illinois one and three quarters, Ohio one and a half, and Massachusetts over one million female voters.

What a power for civic righteousness and morality in government these women may be, if they only use their power advantageously and wisely.

### VERNON BOY KILLED BY FALLING LUMBER

Marion Wilson, the 10-year old son of Harvey Wilson, was killed Sunday afternoon when a pile of lumber on which he was playing fell. He and some other boys were playing on some lumber piles and in some way one of the piles was pulled over catching his head in such a way as to break his neck. Help was summoned but life was extinct when he was removed from under the planks.

The funeral services were held Monday morning at the Methodist church by Rev. E. R. Barcus, pastor of the church. A large crowd of people attended the funeral as well as a big representation of the little folks of the congregation.

The little fellow was well known in the city as he played around on the streets a good deal.—Vernon Times.

### COTTLE COUNTY MAN BURNED WITH GASOLINE

Frank Smith happened to a very painful accident last week, which came near being serious.

Frank and some other parties had gone to Good Creek to fish. Late at night they wanted to draw some gasoline from the car for some purpose. Frank got under the car with a lighted lantern and turned on the gas. The gas caught from the flame of the lantern.

In drawing the gas Frank had gotten gas on his arms, hands and head. The flames leaped all over him, and had it not been for the forethought of jumping into the river he would have, no doubt lost his life. As it was, his hands, one arm and forehead were

badly burned. The car was a complete loss, as they were unable to put out the flames—Paducah Post.

No matter what you do, or how you do, the people who criticize can do better. The only trouble with them is that they don't.

A little rain won't hurt the farmers any.

**WEST TEXAS TODAY**  
your community to be shown in 1920 West Texas National Publicity Campaign???

pictures in some 250 cities of these states to interested farmers, business men and men looking for investments; carry out this campaign by the use of the airplane as the sensational part of the scheme to secure thousands of pages of newspaper publicity that could not be purchased, the motor truck exhibition car which will carry agricultural, mineral and oil products from all affiliating communities, the printed history, a 160 page book, outlining the opportunities of each affiliating community and the lecturer, Dr. O. H. Loyd, known as the greatest booster in West Texas, who is devoting almost nine months of his time to the work and will tell the nation of West Texas.

Show your products in 16 state fairs in addition to this traveling campaign. These begin in August and continue to December. Do this at a cost of less than one cent per hundred people shown for each community affiliating in the campaign.

To the people of the United States this is a campaign of education, but

to West Texas it is great advertising. It will serve to correct false impressions these people have about West Texas, it will show them the advantages and opportunities of your community by pictures, by actual exhibit of your products, by printed book and by lecture by a West Texan. It will interest these people and they will come to see your country. When they come to see they will stay. It will bring thousands of those people who are selling their land and business and moving to other parts of the country or to Canada. They do not know what we have and in order to get them we must show them.

If you are interested in making your community grow let us explain this campaign in detail and if possible Dr. O. H. Loyd will visit your people and outline the possibilities of this work and its value to your community. Address, WEST TEXAS CHAMBER OF COM. Stamford, Texas.

W. K. Whipple, Campaign Manager.

**DODSON WOULD STOP SALE OF CALOMEL**  
Says Calomel is Mercury and Act's Like Dynamite on Your Liver

Dodson is making a hard fight against calomel in the South. Every druggist has noticed a great falling off in the sale of calomel. They all give the same reason, Dodson's Liver Tone is taking its place.

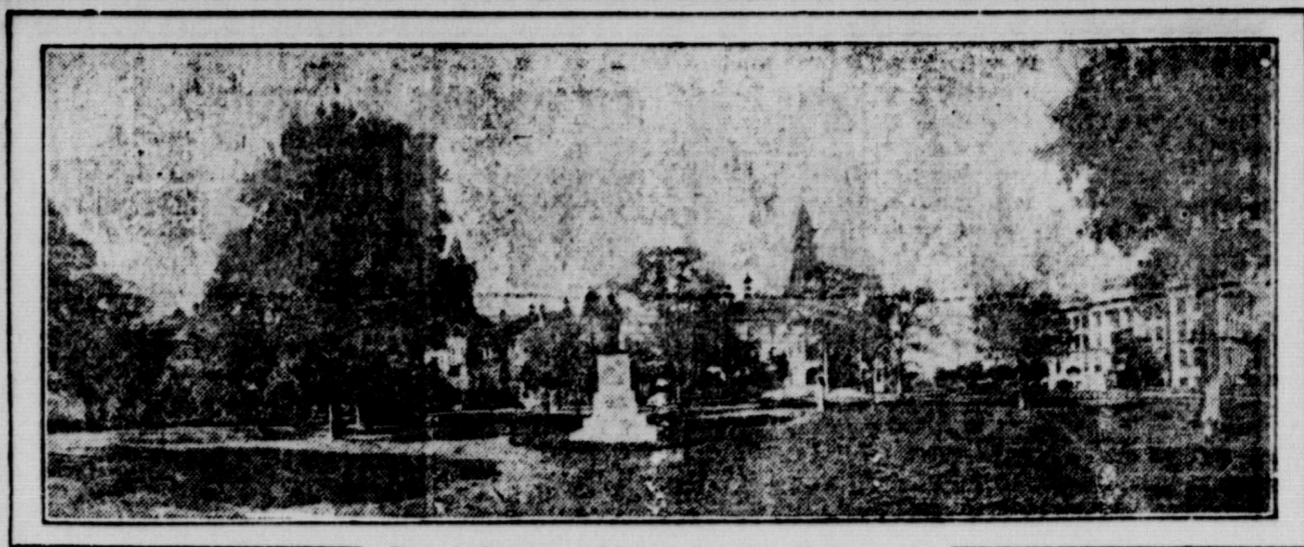

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. 61

**Oldest University In Texas To Celebrate 75th Anniversary In June**  
Distinguished Statesmen, Poets, Clergymen, University Presidents and Educational Leaders To Be Present On This Historic Occasion.

By Coleman Craig

Celebrating its seventy-fifth anniversary, Baylor University at Waco, Texas, the oldest institution of higher education in Texas, is expecting ten thousand visitors and former students to be in attendance at its Diamond Anniversary exercises, to be held June 13-16. Distinguished men from over the United States will be present on this occasion. President Wilson has appointed as his personal representative to attend the celebration, Postmaster General Burleson, an alumnus of Baylor. Among other prominent visitors will be the Hon. Cato Selis, commissioner of Indian Affairs; Senator J. Hamilton Lewis, who was member of the 55th Congress from the state of Washington, later removing to Chicago and elected as senator from Illinois, the author of the resolution recognizing Cuban Independence; Bishop Ainsworth of the M. E. Church South; a group of famous poets, including Edwin Markham, Vachel Lind say, William Butler Yeats, and Amy Lowell; the presidents and representatives of seventeen universities from ten states; Dr. Geo. W. Truett of Dallas, who will deliver the commencement address; and Dr. Geo. W. McDaniel, who will preach the baccalaureate sermon. Honorary degrees will be conferred on these distinguished guests. As part of the anniversary year's celebration, Baylor had as its guest recently, William Howard Taft, ex-president of the United States, upon whom was conferred the honorary degree of Doctor of Laws.

**Bach's Masterpiece to Be Presented For First Time in South.**

As part of the Diamond Jubilee program, Bach's masterpiece, The Passion according to St. Matthew, is to be presented. This is the first time in the history of the South that a college or university has ever attempted to render this oratorio. Under the direction of Baylor fine arts department a massed chorus of 500 voices is being trained for the presentation of this most wonderful oratorio in all the realm of music. An orchestra of fifty pieces will furnish the accompaniment in connection with the spring festival of music, the light opera, Pinafore, is also to be given.

**Mammoth Rustic Arbor to Be Built**

To add a distinctive western atmosphere to the program, a mammoth rustic arbor, seating ten thousand, and similar to the typical Texas arbors, such as have been erected by the thousands on the wide prairies of Texas, will be constructed, where many of the exercises will be held.

**Movies Will Film Occasion.**

The more dramatic features of the program, and close-ups of the distinguished men and women who will be present, will be taken and shown all over the United States. A corps of newspaper men will also be present to cover every detail of the program. From whose reports a history of the event will be written and preserved in permanent book form.

**Degrees to be Conferred On Old Students.**

Among the most interesting features of the program will be the conferring of degrees upon the old graduates of Baylor University, when it was located at old Independence, and of the graduates of Waco University, which was in 1886 united with Baylor at Waco. Fully a hundred of these old students, now gray-haired grandfathers and grandmothers, and living in distant sections of the United States, will return to their old alma mater for their degrees and to take part in the Diamond Jubilee celebration. President Brooks is in receipt of letters from these old students, written, in

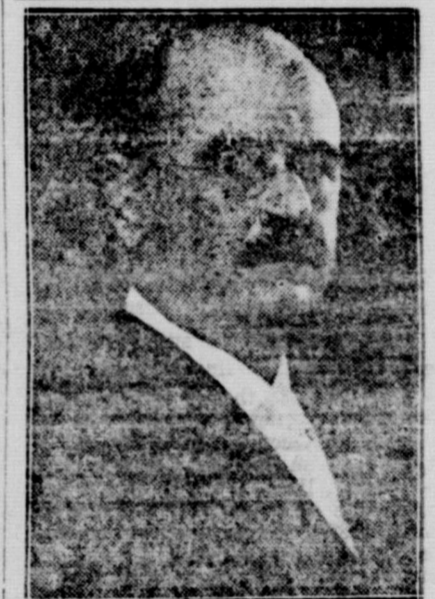

many cases however, by sons and daughters because of failing eyesight and trembling hand, saying they are planning to be present. Since receiving one such letter, another has been received, written by the daughter, saying that the old mother, who had planned to be present and had been gathering with almost childish enthusiasm pictures and little mementoes of the old class to bring along, had died during her preparation for the trip. It illustrates the age which many of them have reached.

**Began With Twenty-four Students.**

The celebration of Baylor's seventy-fifth anniversary recalls some interesting historical facts. The institution began with twenty-four students and only one department. The growth has been phenomenal and now Baylor has an enrollment in its different schools of 1600, and departments in fine arts, liberal arts, education, medicine, dentistry and pharmacy. During the institution's history approximately 22,000 students have passed through its doors.

**Born in Days of Republic.**

Baylor University is older than the state of Texas. It had its birth in

S. P. BROOKS, President Baylor University.

the days when Texas was a republic among the nations of the earth. The charter was granted by the Republic and signed by President Anson Jones, Feb. 1, 1845. Leading up to the founding of the institution, there had been an organization known as Texas Baptist Education Society, which was organized in 1841. Thus the idea and desire among the Texas pioneers for an institution of higher education dates back at least eighty years. The work of this organization was handicapped in the founding of a university, however, by the unsettled condition of the times, General Woll's Mexican invasion and other disturbances. The leaders of the movement for a university for Texas were Judge R. E. B. Baylor a distinguished jurist for whom the institution was named; Rev. W. M. Tryon and Rev. James Huckins. **Unique Bid Offered for Location of School.**

When it was fully determined to found a university in the state there was quite a bit of competitive bidding for the location among several of the towns. One of the bids offered had the following items listed as the inducements to bring the university to the interested town: one section of land, one yoke of oxen, five head of cattle, a cow and calf, one bay mare, one bale of cotton, twenty days' hauling, and \$200 in cash. The old town of Independence won in the bidding and

it was here that Baylor was first located. The school remained here until in 1886 when it was moved to Waco and consolidated with old Waco University, under the corporate name of Baylor University at Waco. The four towns that made effort to secure the university location were Independence, Huntsville, Travis and Shannon's Prairie.

**Idealism of Texas Pioneers.**

The men of that time lived in crude surroundings, it is true, but the following sentence taken from the statement of the purpose for which Baylor was founded, attests the genuineness of their idealism: "To found a university upon a plan so broad that the requirements of existing conditions will be fully met and that will be susceptible of enlargement and development to meet the demands of all ages to come." A sentence surely that would not be ill-fitting, were it framed in the year 1920!

**Second Co-educational School in the World.**

Baylor University has the distinction of being the second school in the world to admit women on the same basis as men. It is another tribute to the progressiveness of these pioneer Texans that they were men of such breadth, and living so far ahead of the generally accepted standards of the time. It will add emphasis to their idealism and progressiveness when it is remembered that the men of this time were dividing about equally their efforts in following bloodthirsty Comanches on the war-path, and erasing out a living on the virgin prairies of the new country. No railroad had as yet bound the towns and small communities together with bonds of steel. The average citizen of the time, dressed in his coonskin cap and leather breeches, would not have known what a good roads speaker, if there had been such a personage at the time, was speaking about. And yet it was these men, who concerned themselves with the task of founding a university that could be developed "to meet the demands of all ages to come."

**The Future Program of Baylor.**

From the small beginnings just related Baylor University has grown to be an institution with an enrollment of 1600, in its different departments. A new dormitory for men, cost \$300,000 is being erected, and will be ready for occupancy, it is hoped, by the opening of the fall term. Baylor is to receive \$1,500,000 out of the Baptist 75 Million Campaign. This will enable the erection of many other buildings and added equipment. The present library, has 40,000 volumes, with 15,000 government documents and 200 magazines. The library is noted as having the second largest collection of works on Browning in the United States. The famous painting of Browning by his son, hangs in the library of Baylor University.

A new department of law has been established and will be opened in September. At the same time a department of agriculture will be opened. It is also proposed in the near future to add a school of journalism.

In its history Baylor University has had distinguished men at its head as presidents. Their terms have been comparatively long, among those serving: Dr. H. L. Graves, its first president; and Dr. R. C. Burleson, a brother of General Burleson of Texas fame. Since 1902 Dr. Samuel Palmer Brooks has been president of the university and during his administration the school has shown its greatest growth and development.

Over fifty years ago a young physician practiced widely in a rural district and became famous for his uniform success in the curing of disease. This was Dr. Pierce, who afterwards established himself in Buffalo, N. Y., and placed one of his prescriptions, which he called "Golden Medical Discovery," in the drug stores of the United States so that the public could easily obtain this very remarkable tonic, corrective and blood-maker. Dr. Pierce manufactured this "Discovery" from roots and barks—a corrective remedy, the ingredients of which nature had put in the fields and forests, for keeping us healthy. Few folks or families now living have not at sometime or other used this "Golden Medical Discovery" for the stomach, liver and heart. Over twenty-four million bottles of this tonic and blood remedy have been sold in this country.

### Lift off Corns

Doesn't hurt a bit and costs only a few cents

With your fingers! You can get any hard corn, soft corn, or corn between the toes, and the hard corns from bottom of feet. A tiny bottle of "Freezer" little at any drug store; apply drops upon the corn or callus; instantly it stops hurting, then you lift that bothersome corn; plus right off, root and all, without a bit of pain or soreness. What a humbug!

### COULD HARDLY STAND ALONE

Terrible Suffering From Headache, Sideache, Backache, and Nausea, Relieved by Cardui. Says This Texas Lady.

Gonzales, Tex.—Mrs. M. M. got of this place, writes: "Some ago I was taken with a pain in left side. It was right under left rib. It would commence aching and extend up into my shoulder and on down into my back. By that time the pain would be so severe I would have to take a rest and suffer usually about three or four days. I suffered this way for three or four months and got to be a mere skeleton and so weak I could hardly stand. Was not able to go anywhere and to let my house work go. I had a awful pain in my back and had the headache all the time. Was unable to do a thing. It was a misery, my stomach got into condition, caused from so much medicine. I suffered so much pain. I had just about given up hopes of our getting anything done. One day a Birthday Album was thrown in my yard. After reading its testimonials I decided to try it, and am so thankful that I for I began to improve when I second bottle... I am now a woman and feeling fine and that has been permanent for it has two years since my awful back pain. I will always praise and recommend Cardui." Try Cardui today.

Our nine stores, enjoyed a phenomenal year of success in 1919, selling over one million dollars in Dry Goods and everything to wear to the Texas people. Appreciating the record business given us last year, and with aims of rendering still greater service and giving still greater values, this is why we have made up our minds to do just exactly twice as much business in 1920 as we did in 1919. A bigger volume of business will enable us to sell at a smaller margin of profit in 1920. With this in view we have launched this 100 per cent drive.

Our increase for January, February, March, April and May of this year was 90 per cent more than for the same five months last year. We have almost achieved our aim during this time. We believe by offering still greater values we can reach the 100 per cent goal.

Read the values offered on this page. These are only a few of the vast amount of merchandise in our store that you can buy for less money. If you are not already a customer a visit will prove to you that we can save you money.

**THE ADELPHIAN CLUB**

The last meeting of this session of the Adelpian Club met with Mrs. Jeff Bruce.

The lesson prepared was one of the "Mentor" on Egypt and Mrs. M. S. Henry led the discussion.

The votes in the ballot box on the person giving the most interesting current event were counted and Mrs. Edgar Womack having received the highest number was presented her dues in the club for next year.

The president also offered as an incentive for better current events next year, not only the dues, but the price of the course of study.

Two officers having resigned, Mrs. J. A. Stovall was elected press reporter, and Mrs. Jeff Bruce, secretary, for the following year.

After the study hour delicious refreshments were served.

**QUARTERLY CONFERENCE OF CROWELL CIRCUIT**

Rev. W. L. A. Self asks us to announce that the quarterly conference of the Crowell Circuit will be held at Big Valley Saturday before the 2nd Sunday in this month. Big Valley is 2 1/2 miles east of Medicine Mounds.

As many as possible from the different charges are urged to attend.

**MUST NOT INJURE CROWELL SCHOOL BUILDING**

Our attention has been called to the fact that since the commencement exercises of the school somebody has been breaking out the lights of the school building. The School board wishes the guilty parties to be informed that this practice must be stopped, even if prosecution be the only means of doing it.

**RED CROSS CHAPTER DISBANDED**

Miss Mary Ann Cross, a Division Representative of the American Red Cross, visited the Foard County Chapter the past week. It was decided by the Executive Committee of the chapter to disband the organization for the present, and the chapter was officially closed May 28, 1920.

If at any time the chapter sees fit to resume work the chapter charter and funds can be re-claimed from Division headquarters.

Mr. Willie Russell and Miss Grace Taylor were married last Saturday by Rev. J. H. Hamblen. The bride is the daughter of C. S. Taylor and the groom is the son of Mr. and Mrs. W. S. J. Russell. We join in hearty congratulations and best wishes.

Dr. L. P. McCrary, ear, eye, nose and throat specialist from Hamlin will be in Crowell, Tuesday afternoon and Wednesday morning, June 8th and 9th.

J. S. Ray returned last Thursday from Milford accompanied by his daughters, Jennie Belle and Martha Louise. The young ladies have been attending school at Milford College.

Mrs. T. L. Hayes returned last week from a week's visit with a sister at Gainesville. She had not seen her sister for thirteen years.

**AROMA FROM THE BUTTERFLY**

Perfumes Pleasant and Unpleasant to Human Nostrils Are Secreted by Both Male and Female.

Peculiarly transformed scales on the wings, or tufts of hairs on other parts of the butterfly exude an aromatic secretion, the secondary significance of which is that it appeals to the female insects. Some of the scents produced by the male Lepidoptera are pleasant to the human olfactory sense, resembling musk, mint, vanilla, honey, and the like; others are suggestive of mice and bats. It is interesting to notice that in some cases, though glandular scales are abundantly present, we cannot smell anything, which probably means that the aromatic substances lie outside our range of olfactory stimulation. Just as many rays of light lie beyond our range of vision.

It may be that the volatile poison of toads, known as phlyrin, inflames the olfactory membrane if we sniff it, yet there is no smell.

Emily Dickenson.

She was never known to have a lover. She seldom left her father's house in Amherst, Mass., and when she crossed its threshold it was to wander alone in the quaint garden. And she has written some of the most impassioned verse in modern literature. Her solitary life set into the frame of her glowing verse is the answer to the question, "Do writers have to go through the varied phases of life to know 'love'?" Emily Dickenson was born in Amherst in 1800. She died there in 1886. Of her extraordinary verses that were witchery of new forms of expression, regardless of poetic rules, a prominent clergyman and distinguished author of New England, Thomas Wentworth Higginson, said, "When a thought takes your breath away, a lesson on grammar seems impertinence."—Chicago Journal.

Fortunes Telling by Bones.

It is strange that in the Transvaal the belief in Kafir doctors and their wizardry has not died out. Nearly every old Kafir has always with him a bag of bones, knuckles and joints of animals. With these he pretends to be able to foretell the future. He throws the "doid" as they are called, and then reads out the omens. Should a white man wish to confer with the oracle, he must throw the bones himself. Many white men firmly believe in the ability of the Kafir doctor to cure them from sundry ills, and in Rhodesia there have been many cases where the Kafir doctors have saved whites from the ravages of the terrible fevers that rage there, in addition to coping with the toothache and other ills.

Bryan O'Connel came in Wednesday from Dallas where he attended school at the University of Dallas.
