8 PAGES \$2.00 A YEAR

FOARD COUNTY SHOOTERS RETURN FROM CAMP PERRY

Capt. Claude Adams and 1st Sergt. George Carroll returned Monday from Camp Perry, Ohio, where as members of the Texas Rifle Team they had taken part in the National matches in August and September. For the benefit of our readers the following brief account of the trip is given.

The Texas team is selected each year by a process of elimination. This year, as usual, 45 selected men were sent to Camp Mabry at Austin, Tex., after firing for two weeks, the high men were selected and left for Camp Perry, Ohio, in a special train August 24th over the I. & N. to St. Louis, and over the Washburn to Camp Perry, arriving late on the afternoon of the 26th.

On the morning of the 27th, the rifle match which is held each year for one week before the National matches began with 1,760 rifle men present. The main object of this shoot after a year is to turn out all over the United States capable instructors in rifles, pistols and shot guns.

In the matches this year not only was every world's record broken but each instance doubled. Texas finished 10th in the National Guard matches, with 87 teams entered, which was not considered bad on account of the fact that the Texas National Guard was in the world war and had not been anything like fully organized since then. At Camp Perry Adams shot in 3rd place and Carroll in 6th place.

When one understands the necessity of organization in order to stand a chance of winning in these national matches he will know why the Texas team had great odds to contend with. A number of the northern and western states stood 90 per cent perfect while Texas was away down at 28 per cent. This better organized condition meant superior advantages in matters of equipment for the northern states. For instance each team in one of those states was equipped with a high power telescope, while there were only two among our boys, and they were of low power.

There is no question but that Texas finished as skilled marksmen as any state. Better conditions are expected for another year with Texas men. And yet with their disadvantages the boys made a good record.

A banquet was tendered the rifle team at the Sanitary Cafe by several of our townsmen upon their return. Places were laid for 25, among those present were: Mayor T. Schlager, City Marshal P. S. Cavelly, Maj. Hines Clark, J. F. McMillan, J. R. Beverly, N. J. Roberts, and others with several officers and commissioned officers of the local companies.

Former Foard County Lady Died Sept. 1st at Tobe, Colo.

The News this week learned of the death of Mrs. S. C. Parker at her home in Tobe, Colo., about the 1st of September. Although she had been sick for several weeks she was brought by the family to be improved in the sanitarium at Tobe, Colo., where she died in the morning, was a great shock.

Mrs. Parker was a pioneer settler of Foard County, having lived on Pease River with her husband and children for many years, until a few years ago the family moved to Colorado where they have since made their home. Mr. Parker died 2 or 3 years ago.

Will Move to Happy, Texas

J. H. Harper will leave next week for Happy, Texas, where he and his family will make their home in the future. Mr. Harper has been a resident of Foard County for a number of years and we regret to see him go. The News will keep him posted as to the happenings in Foard County.

Mr. and Mrs. Leo Spencer returned Wednesday afternoon from Austin where they had been to place their son, Markham, in a deaf and dumb school. Mrs. Spencer went to stay for awhile but Markham was well pleased and contented she returned home with her husband.

CONSTRUCTION STARTS ON HIGHWAY EAST

Preparatory work started on the highway east of town toward the Wilbarger County line the first of the week when land owners were notified that actual construction work was soon to start, and they commenced to set back their fences to give a 60-foot right-of-way. Tuesday the brush gang went to work cleaning out the brush and taking up the grubs. Yesterday Mr. Noland went to grading, so the construction work on the new highway has actually commenced.

This is a new road, no portion of which has yet been built. It starts at Crowell and stops at Vernon, but connects two of the leading highways of Texas, the FFF and the Gulf to Colorado. To the two towns it is bound to be an important link.

This highway runs directly to Thalia, a distance of 12 miles, without a turn, except a short jog at J. W. Bell's place. This ought to be a very fine stretch of highway when completed. It runs over a hard dirt country and if it holds up like the road south to Foard City, it will be something to be proud of. Noland will put it up right, that's a certainty. The country from near Thalia on to the county line is not so good for road building.

PRESBYTERIAN PASTOR LEAVES FOR LAMESA

Rev. S. R. Standifer, who tendered his resignation as pastor of the Presbyterian Church here last Sunday, left this week for Lamesa where he has accepted the pastorate of the Presbyterian church at that place. He went by way of Amarillo to visit his son and goes from there down to his new field where he commences his work Sunday.

Rev. Standifer has been at Crowell only a short while and was under contract to serve the church for no specified time. He accepts this church because of the promotion it offers him and regards it as his duty.

Rev. Standifer has made many warm friends here since he came and they regret his going away.

Rev. W. M. Baker, field man, was here Tuesday and it is expected that he will help the local church to get a man to supply the place caused by Rev. Standifer's resignation.

PIONEER FAMILY MOVING TO DALLAM COUNTY

R. A. Wells, who recently bought a 1,900-acre tract of land in Dallam County near Dalhart, last week purchased a nice home in Dalhart where he will make his future home. All of the family will leave next Tuesday for that country with the exception of Mr. and Mrs. Rob Wells who will remain here for another year at least owing to the fact that they still have more than 200 acres of land here.

The Wells family is among the pioneers of this county, having lived here for more than thirty years, and their moving away is a source of much regret to their large number of friends.

CROWELL MAN'S UNCLE DIES AT MANGUM, OKLA.

M. S. Henry, accompanied by his brother, Cliff Henry of Quanah, and T. M. Beverly of this place, was called to Mangum, Okla., the first of last week on account of the serious illness and death of his uncle, W. H. Henry. Mr. Henry died Thursday of last week after an operation for appendicitis and was buried the following day.

An Important Law

House Bill No. 227, passed by the regular 37th session of the Texas Legislature.

Breach of marketing contract of Cooperative Association—Spreading false reports about the finances or management thereof:

Any person or persons or any corporation whose officers or employees knowingly induce or attempt to induce any member or stockholder of an association, organized hereunder to breach his marketing contract with the association, or who maliciously and knowingly spreads false reports about the finances or management thereof shall be liable to the association aggrieved thereby in a civil suit for damages in three times the amount of actual damage proven, for each offense.

Mrs. A. E. Propps and little daughter, Lora Gene, came up yesterday from Lamesa.

FIRST PILES ON WICHITA BRIDGE TO BE DRIVEN SAT.

Mr. Skinner, of Austin Bros. Bridge Co. is here to superintend construction of the bridge over Wichita River south of town. Material is being placed on the ground and preparatory work is going forward at the river for the use of the pile driver which is soon to arrive.

More time is consumed by this company in getting ready than actually takes to do the work of construction. Treating the timber with creosote requires several weeks, and then it takes time to get the material on the ground, but when this is all done a bridge is completed almost before you realize it. Only a few weeks ago the contract was let in Hardeman county for the bridge across Red River. Now the bridge is practically completed we are told, and Austin Bros. will move their pile driver from Red River down to Pease River and be ready as soon as the material has been prepared and placed on the ground.

It is stated that the company expects to have the bridge completed over the Wichita River within six weeks from now.

In view of the fact that such rapid progress as that is the rule with Austin Bros. we can easily understand why they bind themselves by contract for an early completion of these bridges.

We may confidently expect the bridge to be completed over Pease River before winter weather sets in. This will mean the making of a splendid record for the county in bridge construction for this year. And since plans have already been laid out for highway construction for the fall and winter, which have matured far enough to see actual work now starting on the highway east of town, we may expect to make the next year's developments along this line look good both to our home people and visitors.

No Better Kept Set of Books in State, Says Facking House Manager

In the financial report of the Irwindale Citrus Association of Covina, Cal., the manager of the association takes occasion to commend the ability as bookkeeper of our former citizen, C. E. Hutchison, who has been keeping the books for this institution for a number of years. He says in the report: "Your auditor's report shows that your accounts balance to a penny and that the books are in the best of shape. I want to add that I do not believe that there are a better kept set of books in the State."

The amount of business transacted by the association during the past season was \$480,000 with \$100,000 yet to come from later orange shipments, the largest in the history of the association.

Resident of Margaret 21 Years Goes to New Mexico

J. O. Bagley, who has recently filed on a section of land and bought an adjoining section, near Vaughn, Lincoln County, New Mexico, left with his family this week for that place. Mr. Bagley says that he has 500 or 600 acres of agricultural land on the two sections and he thinks the land is very good. He thinks ex-service men should investigate the opportunity there for taking up land.

Mr. Bagley's land is in 30 miles of the Capitan Mountains where there are plenty of bear and deer and he expects to enjoy hunting for big game during the winter.

Mr. Bagley has been a resident of Margaret for 21 years and his moving away will be a loss to that community, as well as the entire county.

Presbyterian Church News

Rev. S. R. Standifer, pastor of the Presbyterian church here, has resigned to become pastor of the Presbyterian church at Lamesa. The church here has in view as pastor a young minister who, we hope, may be able to visit here soon. The Sunday School will convene at the usual hour each Sunday. The Missionary Society will also meet as usual.

Mr. and Mrs. D. M. Davis and Mrs. W. L. Campbell of McLean returned to their home last week after a week's visit among old friends and relatives in Crowell and Margaret. They are all former residents of this county.

School Notes

Senior Report

After chapel exercises on Sept. 14 the seniors assembled in their classroom at the High School and elected the following pupils as officers: President, Sidney Collins; Vice-President, Travis Hayes; Secretary and Treasurer, Marie Bell; Assistant Secretary and Treasurer, Ernest King; Sergeant at Arms, Walter Thompson; and school reporter, Mildred McLaughlin. Marie Bell and Bessie Fish are librarians.

The enrollment of the senior class is now seventeen, but we are expecting this number to be increased before the first term is over. The present members of the class are: Mattie Lee Meason, Frances Blakemore, Travis Hayes, Ethel Curtis, Marie Bell, Ernest King, T. White, Walter Thompson, Bessie Fish, Bess Thompson, Olive Hanks, Fern Nicholson, Hilda Gribble, Ruth Todd, Mary Sar Crews, Sidney Collins and Mildred McLaughlin.

The class has decided to put out an annual this year; and, although we realize what a task we are assuming we feel sure that with the splendid cooperation the faculty and pupils of other grades have promised, we will succeed. We will appreciate any help or suggestions anyone might give in this work. We, as a class, pledge ourselves to work faithfully, so that "The Melting Pot" of 1921-22 will be one of the best ever put out by a high school.

The Junior Class of 1921

The junior class of 1921, which is composed of thirty pupils, eleven boys and nineteen girls, had its first class meeting on Wednesday morning, Sept. 14, 1921, and elected the class officers. The officers elected are as follows: President, George Cates; vice-president, Henry Black; treasurer, Jack White; secretary, Beatrice McDaniel; sergeant-at-arms, Roy Sloan; yell leader, Sam Ivie.

The next class meeting was held Tuesday afternoon, Sept. 27, for the purpose of electing a class reporter and to decide upon our class colors. Henry Black was elected as class reporter and a committee of three was appointed by the president to get some samples from which we are to select our class colors. The next meeting date was left open subject to the call of the class president.

The Sophomore Class of 1921

The sophomore class met Wednesday, Sept. 7, and elected the following officers: President, John Carter; vice president, Paul Chaney; secretary and treasurer, Lozel Kincaid; press reporter, Merl Kincaid. A committee was appointed to report on class colors and a class motto.

The Freshman Class

The freshman class met Sept. 21, 1921, to organize their class for the year. The following officers were elected: Sidney Miller, president; Annie Lee Long, vice president; Quille Brian, secretary-treasurer; Jack Roberts, sergeant-at-arms; Fred Kinsey, class editor; Paul Barry, yell leader.

The class selected pink and green for their colors and pink carnation for their flower. Motto: Fight fair win square.

Hog Cholera

In the South where the winters are mild and the temperatures more or less uniform, some outbreaks of hog cholera may occur at any season of the year, but statistics collected from experiments conducted, show that the disease usually reaches its greatest height during the fall months.

Therefore, at this time it would be very advisable for farmers and hog raisers to take preventative precaution to keep disease off their premises. Hog lots, houses and pastures should be located away from streams and public highways and the houses and lots should be arranged so that they may be readily cleaned and disinfected. They should be exposed so far as possible to sunlight which is the cheapest and one of the best disinfectants.

To combat the disease when it appears, treat all hogs immediately with anti-hog cholera serum and virus after which they should be kept on light diet for a short time, in clean sanitary quarters with an abundance of pure drinking water.

For further information as to how hog cholera may be controlled and the help that may be had in combating the disease, communicate with U. S. Department of Agriculture, Bureau of Animal Industry, or State Livestock Commission, Fort Worth, Tex.

RAINS SATURDAY NIGHT GREAT BENEFIT TO WHEAT

The rains Saturday night were general over the county and came as a great boon to wheat crops. Many had already about finished sowing, others were in the midst of the sowing, while still some lacked a little having all their land prepared. Generally the rains found the wheat farmers in fine shape for the moisture. Wheat that has been sown will come up right away and will grow for a long time without any more moisture. "There are two critical periods in the making of a wheat crop," said T. J. Bell, "one at sowing time and the other in the spring. A little more than the usual amount of moisture is needed at each period, and we are getting the proper amount now at the right time."

It takes little moisture to get a crop through the winter. Getting it up in the early fall and getting it by the usual dry, windy weather of the early spring are the two things the wheat farmer worries about.

Conditions are looking good now for another good crop. The rain Saturday night amounted to approximately an inch, the register at the First State Bank showed .85 of an inch, while several of the farmers think they had fully an inch. There is a fair store of moisture in the ground all over the county. That being the case this early in the season makes things look good to the wheat men. Pasturage will soon be abundant.

Meeting at Christian Church Begins Friday Night, Sept. 30

Sermon subjects at beginning as follows: Friday night—"Individual or Personal Responsibility."

Saturday night—"Second Coming of Christ."

Sunday morning—"Temporal Phases and Benefits of The Kingdom, of Church of Christ."

Sunday night—"Spiritual Phases and Benefits of The Kingdom, of Church of Christ."

Everybody cordially invited to attend our services, which will be held both morning and night on Sundays and at night during the week, meeting to close second Sunday night. Please attend from the very beginning as the meeting will be only a few days.

J. FRANK MONTGOMERY, Minister.

DIED OF TOO MUCH HOCH AT CHILDRESS

Sheriff Gus Gober was in Childress Friday, assisting Sheriff Crane in looking out for strong-arm gents who have been following the fairs which have been held in Northwest Texas Friday night while sitting in front of the hotel talking. Mel Dwight came along, and spoke with a man by the name of Oates, from Claude. The two went around the corner of the building and sat down. After talking a few minutes Oates pitched forward, in a state of complete collapse. Dwight called Gober who, on seeing the man's condition ran into the hotel and returned with his handkerchief wet. Oates by this time was far gone, heaved a sigh and died.

A preliminary examination brought the conclusion that Oates had died as a result of partaking too freely from "hoch," and an arrest was made of a man with whom he had been seen during the afternoon. Deceased was somewhere around fifty-five years of age.—Quanah Tribune-Chief.

Will Move to Lubbock County

W. I. Awbrey will move away to Lubbock County. He is advertising his stuff for sale at auction in this week's issue of the News, preparatory to going to that country. Mr. Awbrey owns land 7 miles east of Lubbock and wants to give that property his personal attention.

Mr. Awbrey has been a citizen of Foard County for several years and his going from our county is regrettable.

Closed Meeting at Paducah

Rev. J. F. Montgomery returned the first of the week from Paducah where he had just closed a 10-days meeting with his church at that place. He reports a very successful series of meetings and the finest cooperation on the part of all the denominations of the town.

PAPERS SENT OFF FOR SECRETARY'S APPROVAL

There is always more or less delay about getting bonds through to where actual work for which they are intended to finance can be started. For some reason the papers relative to the city bond election for water-works had not been sent off to the State Secretary for his approval, but the first thing City Secretary, Capt. Claude A. Adams, did after returning from Camp Perry Monday was to get them off. So they are now in the hands of the State official and should be approved at once so that bonds can be printed and sold. Capt. Adams is doing his best to get these through and he thinks it will be only a short time we will have to wait.

Judging from the information furnished us, there seems to be little likelihood that we shall have to wait long about selling the bonds when they are ready to be offered for sale. The city authorities are in communication with parties wanting to buy, and some fairly good offers seem to have been made.

In this connection we might say that a recent test of the well shows the supply of water to be about the same as when the preliminary test was made several weeks ago, and with some gives rise to the belief that the supply is more than merely surface water.

ROAD BOND ELECTION ORDERED IN WILBARGER

The people of Foard County are interested to some extent in what our neighbors on the east are going to do in the way of road building, and so it is a matter of interest to us that Wilbarger has ordered an election for October 29th for a road bond election of \$600,000. A portion of this is to be used in macadamizing roads leading out from the city of Vernon in the various directions, if we understand correctly, and \$50,000 to be allowed each commissioner for surface road construction in his precinct.

The people of Foard County are especially interested in the road coming this way from Vernon, and we are merely presuming that a large part of one of these \$50,000 apportionments will be applied on the highway between Vernon and Crowell. It is also presumed that Wilbarger will get State aid on this, if not on any others in that county, for the reason that the highway was designated before these funds were exhausted.

Wilbarger County has much bigger road problems than Foard County because of the sandy character of the country, and in order that they make their roads substantial they will be forced to build them at heavier expense, but the people over there will not likely let that stand in the way.

BRIDGE ACROSS LITTLE WICHITA

A lot of camp equipment for a bridge gang of Austin Bros. Bridge Company, arrived at the Denver Friday. This will be hauled out to the location of a bridge which is to be built over the Little Wichita river south of Foard City, and for which the commissioners of Foard county made a contract with the Austin Brothers Company recently.

The Little Wichita is the boundary line between Foard and Knox counties, and the construction of this bridge will bring to Crowell a great deal of trade from Knox which otherwise would go to Seymour. This bridge also opens a route direct from Quanah to Benjamin and a considerable adjacent scope of country which is not at all times easily accessible, and it will no doubt become popular with auto tourists who are driving from Oklahoma and beyond, to Southwest Texas.—Quanah Tribune-Chief.

Methodist Church Notes

Next Sunday will be our last day of this conference year. This also closes out our four years as a pastor in this community.

We hope to make this last Sunday the best of all the days if possible. Sunday morning we will preach directly to the church and Sunday night we want to have our final word to the young people of the community, at least for this conference year.

We will have our Home Guard with us Sunday night in uniform and seated in a body. Come, let's make this a great day.

J. H. HAMBLEN, Pastor.

Pendleton's Music Store

104 South Main Street,
VERNON, TEXAS

THALIA NEWS

(By Special Correspondent)

Jack Wood moved his family to Lubbock recently.

Jesse Owens has moved his family to the Jack Wood house.

Mack Gamble was doing business here Friday of last week.

A fine rain fell here Sunday night which will be fine for wheat sowing.

Lat Johnson and Elmer Roberts are spending a while at Tolbert this week.

Mr. Chapman has bought out Charley Hathaway's interest in the drug store here.

Maggie Russell of Crowell spent Saturday night with her cousin, Lora Lee French.

Ruby and Ollie French spent Saturday night with their aunt, Mrs. Sam Russell, of Crowell.

Mr. and Mrs. Grover Nichols of Black visited her parents in this community Friday night.

Jewel Cato and Josie Langley left Saturday for Denton where they will attend the Denton Normal.

Will Burkett and son, Claude, of Honey Grove are picking cotton for Otto Schroeder this week.

Lynn Walker and brother and Mr. Ludrel of Vernon spent Monday night with Ed and Tom Johnson.

Henry Gribble and Clarence Self of Crowell were business visitors in Thalia Wednesday of last week.

Mr. and Mrs. T. M. Haney visited their son, Clarence, and wife and little son in Vernon Friday of last week.

J. E. Johnson left by way of Vernon Monday for Galveston where he will enter the medical branch of the university.

Hugh Thompson and boys, Garland and Ben, went to Cisco Friday to attend the bedside of his wife's father, T. M. Kemp.

Miss Fannie Shultz and brother Dave, visited their sister, Mrs. Clarence Haney, and little son, Billie Joe, in Vernon Monday.

Ewald Schroeder and brother, Alfred, and Will Burkett and son, Claude, called at the John Thompson home Sunday afternoon.

The New Perfection Oil Stoves

Both cooking and heating stoves are made and sold to the trade by the Cleveland Metal Products Co.

No. 34 Long Burner \$43.15

NEW PERFECTION Oil Cook Stoves and Ovens

Everyone, almost, knows of the Long Burner New Perfection stoves. And they are good stoves. The Long Burner is the only one made. All other makes are "short" burners. All short burners have given trouble in that the inner mantle would swell, and then would smoke, wicks would get hung and would burn up, as they would turn up above the swelled place and catch there. The Cleveland Metal Products Co. have invented a short burner stove now that they are willing to guaranty against swelling or trouble of that kind for a period of five years.

The Puritan Short Burner complete \$43.15

The Magee Toggery

Monta Wisdom and his family were shopping here Saturday afternoon. Mr. Head moved into the house just vacated by Jesse Owens.

Mr. Birdwell was shaking hands with old friends here Monday. He happened to what might have been a serious accident recently and is still limping.

Mr. and Mrs. J. A. Abston returned home from Fort Worth last week where they attended the singing of their daughter, Mrs. John Thompson, at St. Joseph's Infirmary.

AYERSVILLE NEWS

(By Special Correspondent)

D. M. Shultz, Dave and Miss Fannie were Vernon visitors Monday.

A large crowd attended the singing at Mrs. Mattie Ivie's Sunday night.

Mrs. Charlie Stokes has been quite ill the past week, but is better at this writing.

Herman Shultz of Vernon is spending the week with his uncle, Davo Shultz Jr.

Mr. Brown of Keller, Texas, spent Saturday night with his aunt, Mrs. William Blevins.

Walter Rector and wife of near Vernon returned to the Ferrin farm to gather their feed crop.

Mrs. J. B. R. Fox attended conference at Margaret Sunday and took dinner with Mrs. Bond.

Frank Moore, wife and little son have moved back here from Denton County. Mrs. Moore was formerly Miss Cory Minyard.

Rev. Henderson and family of Margaret spent Sunday in the Henry Blevins home and took part in the singing in the afternoon.

Sidney Keaton and wife and Mr. and Mrs. Walker of Quanah spent from Friday until Sunday with their sister, Mrs. Charlie Stokes.

The proceeds from the box supper Saturday night amounted to \$24.85 which will be used for the school.

The Mother's club will meet at the school house Friday afternoon. Every lady in this community is invited to join and attend these meetings.

Mrs. D. M. Shultz is spending the week in Vernon with Mr. and Mrs. Clarence Haney, who are the proud parents of a boy born on the 23rd.

City Meat Market

Carries everything in the line of an up-to-date meat market, together with packing house meats such as Boiled Ham, Mince Ham, etc., except beef. Also carry Pure Hog Lard, the kind your mother used to make during hog-killing time. Come in for a fresh tender steak of beef or pork for dinner, or maybe it's pure hog sausage you want. If so the City Meat Market is the place to get it.

F. J. MEASON, Proprietor

Bob Weathers, Luther Jobe and Misses Ola Marlow and Bonnie Manning of Dixie attended the box supper at the school house Saturday night.

There will be literary at the Gamble school house Friday night, Oct. 7th. Everybody is cordially invited to come and bring something for the program.

Mr. and Mrs. Webb and son, Jim, and wife, of Brownsfield, Texas, came in Saturday morning to be at the bedside of their daughter and sister, Mrs. Charlie Stokes.

ASPIRIN

Name "Bayer" on Genuine

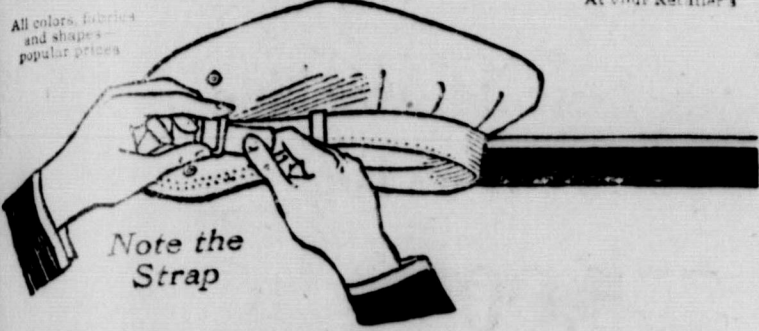

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty years and proved safe by millions. Take Aspirin only as told in Bayer package for Colds, Headaches, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer, Manufacture of Monocetate of Salicylic acid.

TRESPASS NOTICE
No fishing or hunting allowed in the Worsham & Johnson pasture, please do not ask. Wood haulers also please stay out.—W. B. Johnson.

For All Weather and Every Occasion

THE "SURE-FIT" CAP has been made to serve the wearers satisfactorily, whatever might be the occasion. It fits perfectly at all times—never tight and never loose, down to the last day it is worn. The adjustable strap allows instant re-sizing. If it shrinks let it out; after a haircut make it fit snug again; for motoring fix it so the wind can't lift it.

THE MAGEE TOGGERY

You can afford to have that picture made at the prices we are now charging—Clifton Studio, successor to G. S. G. Pictures at the Bell opera house Wednesdays, Fridays and Saturdays at 10 p. m.

LARGE MAIL ORDER HOUSE READS ALL COUNTRY PAPERS

"We have a bureau whose duty it is to read each week the country newspapers from all over the country. There is not a paper of any consequence in our trade territory that our bureau does not get. This bureau looks over these papers and when we find a town where the merchants are not advertising in the local paper we immediately flood that territory with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants use their local papers," said Herman Rosenfield, advertising manager for Sears, Roebuck & Co.—Publishers' Auxiliary.

For Sale—Registered hogs and pigs of any sex. Will sell reasonable.—J. E. Bell.

MARGARET NEWS

Otto Schroeder of Thalia was in our town Monday.

D. M. Ferebee and family of Vernon motored over Sunday.

P. D. Chaney and wife of Crowell spent most of the day here Tuesday.

Mr. Stolley of Vernon, who lived here several years ago, was over from Vernon Monday.

J. L. Rennels and M. L. Cribbs of Rayland were in Margaret marketing cotton Tuesday.

L. C. Richter received a coop of fine Ancona chickens by express Monday. Mr. Richter is getting a fine flock of this type of poultry, and is very highly pleased with them.

J. O. Bagley left for New Mexico Tuesday night. He chartered a car, taking his stock, implements and household goods with him. He is located near Vaughn, and is highly pleased with his new location.

Matthew Bledsoe and D. G. Russell left Tuesday for New Mexico to take advantage of the filing advantages offered by Uncle Sam to the ex-soldiers. They took the Ford route, and expect to make a thorough prospecting trip, and to land the best place to be had.

J. E. Young of Rayland is loading out a car of fine sweet potatoes. Mr. Young is one of the pioneers in this new industry, and it promises to be a very profitable enterprise. That section of the country has been supplying the local markets for some time.

Barn Burned

Last Friday night the barn of Mrs. F. M. Reinhardt caught fire and burned. It contained a small amount of feedstuff, but fortunately, only a small portion of her crop had been gathered. The origin of the fire is unknown.

Columbian Club

The Columbian Club met with Mrs. Geo. Allison Wednesday afternoon. The members answered roll call by some piece of sculpture. Mrs. Sanders lead the first lesson on "Pictures We Love to Live With," which was Raphael's "Sistine Madonna." Mrs.

TRY THIS fragrant, velvety powder that removes the shine so perfectly, and stays on so long—doesn't easily blow or brush off. Lovely tints to match every complexion. 50c a box. Take one home too.

Crews had charge of diversion which was enjoyed by all. Punch was served before the lesson began. Gold and white sherrbert and cakes were served after the lesson. The guests were Mesdames Billington and Kinsey and Miss Cunningham.—Reporter.

THE STATE OF TEXAS

To the Sheriff or Any Constable of Foard County—Greeting: You Are Hereby Commanded to summon Minnie Bray by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 46th Judicial District; to appear at the next regular term of the District Court of Foard County, Texas, to be held at the Court House thereof, in Crowell, Texas, on the 8th Monday after the first Monday in September, A. D. 1921, the same being the 31st day of October, A. D. 1921, then and there to answer a petition filed in said Court on the 11th day of July, A. D. 1921, in a suit numbered on the docket of said Court, No. 1117, wherein Tom P. Bray is plaintiff, and Minnie Bray is defendant, and the cause of action being alleged as follows: That heretofore about the 28th day of March, A. D. 1917, the plaintiff and defendant were legally married in the State of Washington, and continued to live together as husband and wife until about the 30th day of April, A. D. 1918, when the defendant, disregarding her marriage vows, voluntarily left his bed and board, with the intention of abandonment, without cause, and has since remained absent from him for more than three years, with the intention of abandonment; and has taken up her abode with one Frank Speaker, and has continually lived and cohabited with him as plaintiff is informed and believe; and so charges from that day until the present.

That there is no property rights between plaintiff and defendant to be adjusted but that there was born to the plaintiff and defendant one boy named Tommie Bray now about three years old. The plaintiff asks for the care and custody of said child and which is now in his possession and he alleges that he is able to care for and educate said boy as required by law. Plaintiff says that the residence or whereabouts of the defendant is unknown to the plaintiff wherefore he asks for citation as required by publication, and that on a trial of said cause that he have judgment dissolving the marriage contract between plaintiff and defendant and that he have the care and custody of the boy, Tommy Bray Jr., and for all such other and further relief in law or equity as he may show himself entitled and as in duty bound will ever pray.

Herein Fail Not, But have you before said Court, on said first day of

the next term thereof, this Writ, with your return thereon, showing how you have executed the same. Witness My Hand and Official Seal at my office in Crowell, Texas, this 12th day of September, A. D. 1921. 17 MARIE HARRIS-BURRESS, Clerk, District Court, Foard Co., Tex.

Two Dark Sides.

"Cyrus Rasp ran a grocery store down on the corner for about twenty-six years," related old Riley Rezdiew of Petunia, "and as he done so utilized about half of his time in denouncing the public for a lot of thieving hypocrites, who prayed loudly with one hand on the Sabbath and beat him out of his just dues with the other on week days, figuratively speaking, of course. Said he ort to know, if anybody did, that 65 per cent of all humanity was intentionally dishonest. "Well, then a feller came along and gave him about twice what it was worth for his store. And ever since he has been declaring that 90 per cent of the retailers are and always have been thieves and robbers, and mentioning that he ort to know if anybody does. And as far as I can make out, he's pretty nearly right on both propositions."—Kansas City Star.

Archaeology on the March.

In their progress through Asia Minor, Greek troops discovered in an old cemetery near Kutaia columns of blue marble formerly part of a great building of the Roman period. Many inscribed tablets were also picked up on the march.—Scientific American.

Anyone wanting milk see or phone Mrs. W. J. Carter, phone 165. 16

This is the **Black Silk Stove Polish** YOU Should Use

IT'S different from others because more care is taken in the making and the materials used are of higher grade

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on stoves and sold by hardware and grocery dealers.

All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

Black Silk Stove Polish Works Sterling, Illinois

The Black Silk Air-Drying Iron Enamel on grates, registers, stove-pipes—Prevents rusting. Use Black Silk Metal Polish for silver, nickel or brass. It has no equal for use on automobiles.

"A Shine in Every Drop"

The Cost of Furs.

Former United States Commissioner of Education P. P. Claxton pointed out that the \$300,000,000 paid for furs in the United States in 1920 is more than twice the cost of all higher education in colleges, universities and professional and technical schools, whether supported by public taxation or privately endowed.—Our Dumb Animals.

NOT ABLE TO TAKE THE HOME PAPER

No?
Then let us take up a collection for you.

You can't afford not to take the home paper.

You can't afford not to advertise in its columns when you have anything to sell.

If you are a reader it will save you money, provided you take advantage of its ads.

If you are an advertiser it will make you money provided you advertise at a fair price what the public wants.

The local paper is an advertising medium which brings the seller and buyer together and makes money for both.

And the man who has something to sell is not only the business man, but often the farmer or the stockman. Not long ago a boy came into the News office inquiring as to whether we knew of any one who wanted to buy a cow. He had something to sell but instead of inserting a 25 cent ad that would put his wants before a thousand people in the county, was parading the streets for a buyer.

The modern way of advertising is through the papers of the country. Use the local paper for local advertising. By this means the man who has something to sell reaches the buyer and the man who wants to buy finds what he wants and each makes money.

Everybody is always buying something, unless the county is keeping him up. Then, it means a saving to you as a buyer to keep the local paper coming to your home, if for no other reason, because of its advertising worth to you. The News will save you many times the cost of subscription during the year.

If there is any one in the county who can not afford to subscribe for the News, if he will make the fact known to us he will be put on our list without cost to him.

The value of milk as a food for all people, the young and adults, is becoming recognized more generally than ever before. People are becoming educated as to its food properties and their worth to human health. The free use of milk and butter is recommended as the best guarantee of health for children. The best authorities recommend milk and butter and eggs as a safe reliance against attacks of palagra.

Personally we favor a park, or play ground in the Davis Mountains. Why should Texas not have such play ground? Southwest Texas with its real mountains and rugged scenery offers the most suitable grounds in the State for a great park.

Twelve hundred students were enrolled at the opening of the term of the C. I. A. at Denton. The enrollment is about 50 more than that of last year and exceeds expectations of the school's authorities.

The Panhandle country received big rains Saturday night amounting in some places to two inches. This gives the farmers of that country a good show for a wheat crop.

Komred Klark, the Imperial Klangle of the Ku Klux Klan, has resigned that important position. He has been one of our main men in the order.

COTTON PRICES SHOULD GO HIGHER

(By George B. Terrell, Commissioner of Agriculture.)

The United States Government Cotton report issued Sept. 1st, shows the condition of the cotton crop to be 49.3 per cent and the estimated yield to be 7,030,000 bales, the shortest crop in more than a quarter of a century.

Damages from insect pests, and the recent heavy rains and floods, may reduce the yield below the government estimate, especially the Texas crop.

Total carryover is... 6,499,108 bales
Less 24 per cent damaged and untenderable cotton 1,559,785 bales
Tot. tenderable cotton 4,939,323 bales
Estimated yield 1921 7,030,000 bales
Total crop and carry-over 11,696,323 bales

Or in round numbers 12,000,000 bales
Estimated domestic consumption and exports to Aug 1, '22 12,000,000 bales

These figures by the government virtually wipe out any surplus cotton at the end of the present cotton year, Aug. 1, 1922.

The world's production for the crop of 1920, cotton year closing Aug. 1, 1921, was 19,595,000 bales.

The estimated production for the crop of 1921, cotton year closing Aug. 1, 1922, based on last year's yield of all foreign countries, is as follows:

United States	7,030,000 bales
India	2,976,000 bales
Egypt	1,251,000 bales
China	1,000,000 bales
Russia	180,000 bales
Brazil	100,000 bales
Mexico	165,000 bales
Peru	157,000 bales
All others	400,000 bales

Total World's Supply 13,259,000 bales
Or 6,336,000 bales less than that for the cotton year just closed.

With such an unprecedented short crop, the price should advance at least to 25 cents per pound, and if the crop is marketed gradually, so as to give the mills their actual needs and no more, the price should materially advance, and the crop should be held down next year to actual needs of the mills in order to maintain this advance.

A circular has been sent out from Boston to the New England spinners stating that the cost of producing this cotton crop is the lowest in years, and that a price of 10 or 11 cents for cotton will yield a good profit to the

Margaret, Texas

producers.
Statistics furnished by the cotton growers of Texas, as to the cost of production, and carefully compiled, show that it cost above 40 cents per pound last year to produce the crop and 25.8 cents per pound this year. If the yield per acre this year, had been as much as last year, the cost of production would have been much lower.

The statements in the Boston circular as to cost of producing cotton this year, are deliberate misrepresentations, in order to bear the price of cotton. Every indication points to higher prices, if supply and demand are to control.

Palaces for \$10 a Month.

Costly marble palaces, erected in the Sixteenth century by Dutch merchants on the all-but-forgotten isles of the South seas, are for rent at two pounds ten shillings a month, approximately \$10, according to letters received by Sydney newspapers from mariners and itinerant merchants.

The letters were in answer to a request for information made by an English novelist, who is visiting Australia in search for a forgotten island of romance in the Banda sea.

One of the letters gave details of the island of Banda Neira, where merchants erected palaces, now for rent at \$10 monthly, out of the proceeds of their flourishing nutmeg and other spice plantations in the Sixteenth century.

Nerves Revealed by Dyes.

Surgeons knew very little about the nerves until the discovery of a method of dyeing them. The larger parts of the nerves were known, but the delicate thread-like prolongations of the neurons—those telegraph wires that connect the brain and spinal cord with every remotest part of the body—escaped the notice of the keenest-eyed microscopists until about twenty years ago, when they were first made visible.

This was the result of the discovery by Golgi, the famous Italian anatomist who won the Nobel prize in 1904, and by Cajal, the almost equally famous Spanish surgeon, that impregnating the nerve fibers with chromate of silver and reduced silver nitrate turned them absolutely black.

The puppy is 5 or 6 months old.—J. G. Thompson.

Cotton Goods

Going Up

In view of the present condition, and the rapid advance in cotton, all cotton goods have advanced around 25 per cent. This is more especially true in the staples, such as Gingham, Domestic and Sheetings, however, we have bought heavy on these, and we do not expect to advance the price on any article that was bought before the advance.

We ask you to come in and compare our prices with others, and if we are out of line you will be doing us a favor by telling us about it.

What Is a Good Citizen?

Fifty years ago the man who kept money at home or on hand to lend his neighbor was a good citizen.

The man who merely hoarded money was never a good citizen at any age; but today, in an age of banking, it is certainly one of the first requisites of good citizenship for every man, woman and child to put every dollar they have in some bank.

If you haven't a bank account, come in—make the start today.

American Legion News

Sixteen world war veterans from one post of the American Legion in Tulsa, Okla., have settled upon government homestead land in Scott County, Southern Arkansas. By cold weather, it is estimated that 100 ex-service men will have taken claims on the land.

The territory which will become a settlement of world war service men, the first in America, stretches over 2,500 acres, composed of adjoining individual tracts of 160 acres each. The men have to live on the land but seven months before it becomes their property as Arkansas gives residence credit to soldiers up to two years of army or navy service.

Part of the men will spend the winter on their land, clearing timber, building, hunting and trapping, for the tracts abound in deer, fox and lynx. The sixteen who have already settled are preparing to establish a central trading point and town which they will name "Legionnaire." Four of the pioneers are married and all have had farming experience. Homesteading is now possible in the following other states: Washington, Michigan, Montana, Arizona, New Mexico, Wyoming, Louisiana, Alabama, Colorado, Idaho and Oregon.

A family which in itself is a thriving war veterans' society has come to the notice of the American Legion in Independence, Kansas. Thirty-three able-bodied men and women call the Civil War veteran, Manna C. Bruner, by the familiar "papa." Of the lot, the father, soldier of the Union in '61, is proudest of his even dozen sons who served overseas with the American forces in the world war. Of the remainder, 20 are girls and one son was too young to fight. The oldest is 42.

For the return of a tattered old army rain-cape, almost worth its weight in gold because of sentiment attached to it, liberal rewards have been posted by American Legion service men of Toledo, O. The cape, property of Rev. H. F. MacLane, chaplain of an infantry regiment in France, was used by him to cover the faces of dead soldiers lying in the Flanders mud and rain while their graves were being dug. It had been torn in many encounters with barbed wire while the chaplain followed his troops, but an indiscriminating thief stole it from the minister's automobile.

Out of work, arrested on a charge of vagrancy and placed in a convict gang at Glenn Springs, N. J., Thomas M. Keelan, world war veteran, was flogged to death by his guards, according to the American Legion post of Spartansburg, S. C., near the scene of the outrage. A federal investigation has been demanded and two men are being held.

The body of the unknown American soldier to be brought home from France by General Pershing probably will be selected from the Argonne cemetery at Romagne, where most of the unidentified dead were interred following the fighting in the forest tangles, according to information to the American Legion shortly before the general sailed. But two percent of the war's dead yet remain in France.

WEAK, NERVOUS, ALL RUN-DOWN

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield, Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me. I saw after taking some Cardui that I was improving. The result was surprising. I felt like a different person."

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night, I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me. . . . My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it."

Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui if troubled with womanly ailments. For sale everywhere. E. 89

The Pershing estate in Tangipahoa Parish, La., owned jointly by heirs of John J. Pershing, father of the general of the armies, has been advertised for sale for taxes, according to a letter sent the general by the editor of an American Legion magazine published at Amite, La. The editor posted sufficient funds with the parish sheriff to prevent the sale and requested General Pershing to make the estate available for colonization by his comrades who are being rehabilitated, after war wounds, for agricultural pursuits. The Pershing tract contains 100 acres of the parish's best land.

The number of civilian employes in the Panama canal zone has been reduced 40 per cent since March 4, 1921, and more than 700 former soldiers will be forced out of employment if there is not a let-up, an appeal from the canal zone to the American Legion's representatives in Washington declares. Two army officers and three civilians appointed by Secretary of War Weeks recommended the sweeping reductions in personnel.

Milady's fashionable corsage bouquet may have started life as a handful of ragweed, for disabled soldiers in Kansas City hospitals are doing a thriving business in making artificial and lifelike posies out of ordinary weeds. War Mothers of the city are teaching the wounded men to color the weeds with dyes and the American Legion is helping them place the flowers with florists and gift shops.

HOW DO YOU SAY IT?

By C. N. LURIE

Common Errors in English and How to Avoid Them

"HAVE WENT," "HAVE SAW."

"I SHOULD have went to the dance," said the girl, "but my mother would not let me." "I have traveled in many lands, but I have saw nothing like this," said the uneducated traveler. After the auxiliary verb "have," in any of its forms, it is proper to employ only the perfect participle of the principal verb; therefore, the girl should have said, "I should have gone to the dance," and the traveler should have said, "I have seen nothing like this."

"They have chose the wisest part" is an instance of this error cited by Gould Brown, the famous grammarian. The proper form of words to be employed is, "They have chosen the wisest part."

In this connection, it may be said, that this error is one of a large number which would be avoided with ease, were the speaker or writer to exercise a little care in the choice of words. But most of us speak or write hastily.

PRIMITIVE LIVING IN HAITI

Natives Take No Pride in Appearance of Their Homes or Hamlets Where They Live.

All Haitian towns have a close family resemblance. There is always a big, brown, bare, dusty central place, with a tiny bandstand with steps painted in the national colors and surmounted by a single royal palm tree, called the "petrie." From this radiate wide, right-angle dirt streets lined by low houses, some of plastered mud, a few whitewashed, many of split palm trunks, most of them of tache, nearly all with earth floors, all, except the few covered with corrugated iron in the center of town being roofed with thatch. Some have narrow sapling-pillared porches paved with little cobblestones, these sometimes also whitewashed; and where houses are missing are broken hedges of organ cactus on which hang drying rags of clothing. Facing the place is a more or less ruined church,

further off a large open marketplace with perhaps a few ragged thatch roof shelters from the sun. Then there is sure to be a spick-and-span gendarmerie, with large numbers of docile prisoners and proud black gendarmes, perhaps a group of natives, or at any rate of their native prototypes, here and there strolling through the dusty streets, ignoring the respectful greetings of their teeming black populace squatted in their doorways or on their dirt floors. Little fagot fires on the ground behind or beside the huts, a well-worn path down to the river, and an indefinable scent of the tropics and black humanity living in primitive conditions complete the picture. Men who have seen both assert that a Congo village is a paradise compared with a Haitian hamlet.—Harry A. Franck in "Roaming Through the West Indies."

A real photographer in Crowell again. Give us a trial—Clifton Studio, successor to Sink's.

A pipe won't burn your tongue if you smoke P.A.!

Get that pipe-party-bee buzzing in your smoke-section! Know for a fact what a joy 'us jimmy pipe can and will do for your peace and content! Just check up the men in all walks of life you meet daily who certainly get top sport out of their pipes—all aglow with fragrant, delightful, friendly Prince Albert!

And, you can wager your week's wad that Prince Albert's quality and flavor and coolness—and its freedom from bite and parch (cut out by our exclusive patented process)—will ring up records in your little old smokometer the likes of which you never before could believe possible!

You don't get tired of a pipe when it's packed with Prince Albert! Paste that in your hat!

And, just between ourselves! Ever dip into the sport of rolling 'em? Get some Prince Albert and the makin's papers—quick—and cash in on a cigarette that will prove a revelation!

Prince Albert is sold in tippy red boxes, tidy red tins, handsome pound and half pound tin humidors and in the pound crystal glass humidors with sponge moisture top.

The Home of Hart Schaffner & Marx Clothes

One of Many Real Homes

The building of a home demands special consideration as to the selection of plans and the economy of construction. You want a home that is attractive and thoroughly adapted to the needs of your family.

You want a home that is worth to you every dollar you put into it. You want to know in advance what you are getting.

When you buy from us you are buying more than a bill of lumber. You are getting service, the value of which is difficult to calculate in dollars and cents.

Free Building Helps

We have for your FREE use numerous plans and estimates of most attractive homes. Careful thought has been given to the selection of these plans. These homes have proved to be extremely livable and adapted to the desires of the average family. There is no guess work about them.

LET US TELL YOU MORE OF OUR SERVICE

Herring-Showers Lumber Co.

THE STATE OF TEXAS

To the Sheriff or any Constable of Foard County, Greeting:

You are Hereby Comanded to cause to be published once each week for a period of twenty days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Foard County, a copy of the following notice:

THE STATE OF TEXAS

To all persons interested in the estate of Gladys Sparks, Ruth Sparks, Lucile Sparks and Sallie B. Sparks, minors, R. E. Sparks, guardian of minors, has filed in the County Court of Foard County, Texas, an annual exhibit of said estate for the year ending on the 31st day of May, 1921, which will be heard by our said County Court on the 1st Monday in December, 1921, the same being the 5th day of said month, at the Court House of said County, in Crowell, Texas, at which time all persons interested in said estate may appear and contest said exhibit, should they desire to do so.

Herein Fail Not, but have you before said Court on the said day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Crowell, Texas, this, the 23rd day of September, 1921.

MARIE HARRIS-BURRESS,
17 Clerk C.o Court, Foard Co., Tex.

DODSON'S LIVER TONE KILLS CALOMEL SALE

Don't sicken or salivate yourself, or paralyze your sensitive liver by taking calomel which is quicksilver. Your dealer sells each bottle of pleasant, harmless "Dodson's Liver Tone" under an ironclad, money-back guarantee that it regulates the liver, stomach and bowels better than calomel without making you sick—15 million bottles sold.

Unfurnished rooms to rent to respectable people at the old Methodist church house. Apply for information at the Collins wagon yard.

New Perfection oil stoves are cheaper now. Let us show you what they will do.—J. H. Self & Sons.

Three Fall Coats Refreshingly Unusual

There is Such a Thing as Having the Latest Style Without Having Something Different--Why Not Both?

If we had the job of making over the world, no doubt we could think of a lot of changes necessary in our eyes, but there is one thing we wouldn't do. That is take away the desire of human nature to have something everybody else hasn't. We believe every woman is entitled to distinction in dress.

Newness in itself bestows a distinction which every woman realizes when she buys a new garment. But here is a newness that is different. It lasts. It is refreshingly new.

The distinction lasts because the styles are handled in such a way one always feels sure she is correctly dressed when she wears one of our coats.

These coats are typical of the efforts we have made to serve you in obtaining for your approval unusual and distinctive fashions.

These coats are particularly pleasing to us, as used as we are to viewing countless styles before making our own purchases.

For that reason we feel no hesitancy in stating that you also will like this Fall's fashions as presented by us to you.

There is a coat here that will just suit you. If it were not for the presence of so many unusual models, we could pick yours out ourselves. But we want you to have the very one you want. Hence, the variety, each one desirable.

Time and tide wait for no man, however, and we suggest you choose soon.

The descriptions are given below to tell you certain details as to the three coats pictured, but any of us in the store will be glad to demonstrate to you our claims for distinction in these coats.

Special arrangements have been made to extend every assistance in displaying these and other styles in such a way as best to serve you.

You will find us ready and willing to show you any and every one of the garments in this house.

We also have experienced advisors on our staff who will make suggestions when so desired, or leave it all to you.

The coat in the center, also of velour, has an inverted pleat in the back trimmed with two buttons. The collar design is in black and gold embroidery, and the cut of the pockets is extremely novel.

Price \$29.50

The view of the coat at the top shows clearly that this model is going to be just as good coming or going. It is made of velour, half lined. Touches of gold appear in the embroidery of black silk.

Price \$29.50

Extra rows of stitching at the seams add tone to the right. Self-covered buttons and embroidery in color and gold increase the distinction. The model is of velour, lined half way down.

Price \$29.50

HAVE HERITAGE OF HONESTY

Little Doubt That Children Know Instinctively That It Is Wrong to Commit Theft.

"I knew from a child that it was wrong to steal," said a very successful man, who has made a fortune without being a crook.

"That is what saves the world," replied an editor to whom he was talking. "Thank heaven, all boys are honest. They never become crooks till they are men."

That statement is not perfectly, although in a large measure, true. While children, if trained by sound minds, will steal, they know instinctively that stealing is wrong. They would much rather be straight.

The theft of apples or watermelons or peaches committed by youngsters

is mischievous. Show them that it is really stealing that they are depriving someone else of what is rightfully his, and there will be no more climbing over back fences for them.

One of the reasons that this is not a difficult world in which to live is that honesty is instinctive, and theft has to be cultivated.

The average schoolboy despises a thief, and will have nothing to do with him. If he reads in the newspapers of an absconder or a forger or a man who misappropriates a trust, he had is shocked and disgusted. It is only when he becomes hardened by contact with the world, and learns that men often prosper, even though they are dishonest, that he becomes hardened and justifies his own misdeeds.

Watch a crowd of boys at games, and you will find that the cheat is always marked and barred from the game if he continues to cheat.

The cheat himself was not a cheat always. He has learned cheating from another boy, who in all likelihood learned it from a man.

As long as we start honest, as most of us do, the great percentage of us are likely to remain so. Only those who are weak fall from their standards, and even they, when the race is over, heartily regret that they ever were anything but fair and clean and open minded in their dealings with their fellows.

Improved Airplane Propeller.

Announcement is made in the Times of the invention of an improved type of airplane propeller whereby engine power necessary for driving the airplane will be lessened and the vibration of the machine will be much reduced. The new type of propeller arises from the addition of a number of "veins" or flanges made of aluminum to the existing type of propeller. These "veins" are about 6 inches in height and run parallel across the surface of the propeller at a distance of about one foot from each other. There are eight at the drive side, four at each end of the blade, and six on the wind side in similar position. It is claimed that by this arrangement the air is properly directed past the propeller blade faces, with the result that

there is an avoidance of the air losses from the blade ends, which through natural causes take place in the present type of propeller, making possible a maximum thrust with a minimum expenditure of power.

Gets Power From the Air.

Hermann Plauson has actually been extracting electric current from the air and using it for power. The Scientific American says he uses a captive balloon having a metallic cover provided with a large number of pointed projections or spikes and allows it to ascend to a height of 1,000 or 1,200 feet above ground. Positive electricity is then collected from the air and transmitted to the ground through a wire rope fitted with sparking gap, which in turn produces an electric vibration in a circuit. M. Plauson obtained with one balloon at a height of 1,000 feet a supply of 17.25 kilowatt hours per diem, and with two balloons 91.6 kilowatt hours. He calculates that a battery of ten balloons should give an annual supply of 210,000 kilowatt hours.

Radio Waves to Mars.

The question has often been raised as to whether it will ever be possible to communicate by wireless with the inhabitants of other planets. The wireless waves in the ether go on forever, so there will be no reason why people cannot communicate with other planets if the inhabitants have the proper receiving apparatus. Some of the planets, however, are so far away that electric waves traveling at a speed of 196,000,000 miles per second would take several thousand years to reach them. There is very little chance of those remote planets hearing the nightly radio concerts sent out from the wireless test station at the East Pittsburgh works of the Westinghouse Electric and Manufacturing company. They are now known to several thousand amateurs all over the United States and having a wave length of 330 meters are readily picked up.

One twelve disc Van Brunt drill for sale at a bargain.—M. S. Henry & Co.

TRIP TO VERNON

H. L. Kinsey and family made a trip to Vernon Saturday. They made a short visit to the home of Mr. and Mrs. C. A. McLarty, who are now living in Vernon. Their youngest daughter, Miss Mildred, who graduated from the Vernon high school last year was preparing to leave for Austin to enter the State University. Mildred made a fine record in the Vernon high school and was given about 12 scholarships by the various institutions of Texas.

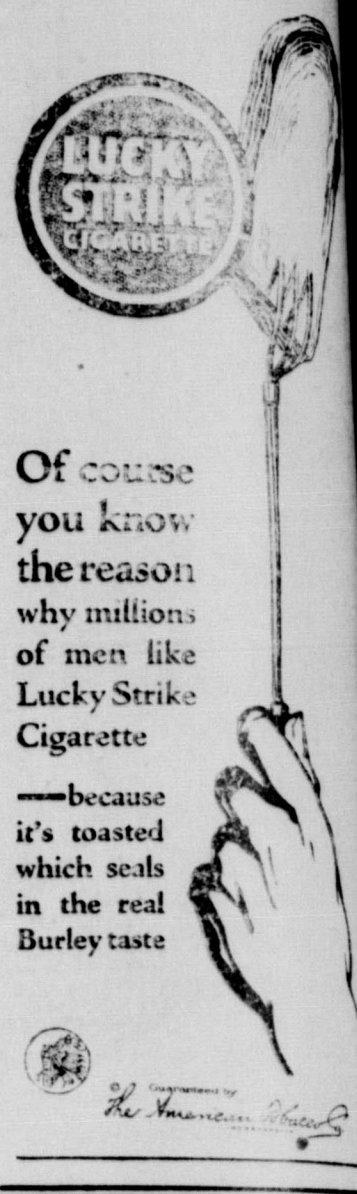

The Kinseys also called at the home of a private nurse, where young Broadus Stanford had been placed for care after having been almost killed when thrown by a horse on the Waggoner ranch. The boy's mother and one brother were at his bedside, but Stanford was still unconscious last Saturday and there were very slight hopes of his recovery. However, the fact that he was taking his nourishment was said to be a good indication. Also the swelling in his neck was going down.

New Wheel Making Idea.

The making of lightweight, boltless, one-piece, all steel wheels by the drop-forging process is now a reality, thanks to the ingenuity of a Michigan inventor. Designed especially for use on motor vehicles, the rims, spokes, hubs and brake drums are forged integrally, so that no bolts or rivets are required to hold them together. It is claimed that they are as light as the conventional wooden wheels and, of course, a great deal stronger, says Popular Mechanics Magazine.

Explorers Disagree.

Stefansson says he will take along no food on his rush to the Pole, while his rival Amundsen has just contracted for a seven-years' supply. Amundsen says there is little animal life north of 85 degrees, and the sleds must be loaded with food if the explorer would not face starvation.

Of course you know the reason why millions of men like Lucky Strike Cigarette

—because it's toasted which seals in the real Burley taste

T. P. Reeder, wife and children, and Capt. C. A. Adams, Jesse Davis and Rev. J. H. Hamblen went to Kuar City Wednesday to attend the military funeral of Lee Roy Teague and Charlie Jones, oversea veterans killed in France.
