CROWELL, FOARD COUNTY, TEXAS, FRIDAY, JULY 15, 1921

8 PAGES

\$2.00 A YEAR

FINANCIAL CONDITION OF FOARD COUNTY IS GOOD

We are here speaking with reference to Foard County. The financial condition of Foard County is in fair condition. There has been more money, but so long as there is as much as there is now on deposit this county need not fear a serious shortage of money. Practically the two banks carry deposits to the amount of \$700,000, and it is conservative to say that not more than one-tenth of the new wheat crop has been sold. The approximate worth of the crop is a million dollars.

The condition of the growing crops is as good as one ordinarily sees at this time of the year. The recent showers have helped the growing crops and did not interfere seriously with threshing. Grass is good and stock are fat, so what better could we want than the conditions have?

Those who have been in other portions of Texas say we are in fine financial condition, compared with most counties and towns. Money is not so plentiful as it was a year or two ago, but it is worth more. One dollar buys nearly everything than it did a year ago.

Boys Studying Stock Judging

Three boys from different localities in Foard County are here this week studying stock judging. Lee Bradley of the Rayland community, Foster Russell of Margaret, and Ed McDaniel of Good Creek are the boys studying the course. Mr. Chaney hopes to be able to give them work in this with all kinds of stock. There are several herds of good stuff in the county. In the Vivian community are the thoroughbred Durham cattle, and there are some fine sheep in that community. Closer to town are several thoroughbred Jersey cows. There are the herds of Big Poland hogs of J. E. Bell, J. L. Orr and Brown Bros. So it is with considerable interest that the boys are engaged in this work this week. They will go to the Texas A. & M. on the 16th where they will stand an examination and compete individually for prizes on the Texas Farm Boy trial.

The Presidential Veto

Congress appropriates the money necessary for conducting the affairs of the government of the United States. That money comes from the pockets of the people.

The president has the right to veto an appropriation bill as a whole, but cannot veto an objectionable item of expenditure in that bill and yet approve the remainder.

Presidents are often called upon to approve appropriation bills that contain items of expenditure that are objectionable to a great class of the people to the welfare of the country as a whole, that serve but little purpose, and that are forced into the bill the last minute upon demand of the powerful politician who has an axe to grind.

The president disapproves the bill because of the one objectionable item jeopardizes the affairs of government, for without funds the government cannot function.

On the other hand, if he approves a portion of the bill he must approve all of it, including the objectionable feature.

While we are changing our budget we should advance even further and expand the veto prerogative. The president should not be held personally responsible for conditions above and beyond his control.

FRMER NEWS MAN BUYS DAILY AT MEXIA

L. Martin who was formerly editor and owner of the Foard County Evening News and Weekly Messenger and has assumed management many weeks ago Mr. Martin made it his business to locate in Central Texas. He does like the West, but he has seen fit to cast his lot with people in that part of the State, which him every success in his venture. His 23 years experience with daily newspapers should give him an idea as to what a daily means, and we are expecting him to make a hum all right.

TRIP TO POST CITY

On last Thursday afternoon after the News was off the press, T. B. Klepper of the force, headed his Elizabeth Ford west leaving Crowell at 4:20, final destination to be Post, Texas, where he visited for a couple of days in the hospitable home of Mr. and Mrs. Ross Edwards.

Thursday night was spent in Matador. Getting an early start next morning we arrived in Spur for breakfast. Spur is a very beautiful little city, and Dickens County has as good gravel highways as any in the State. While in Spur we met Mr. McClure of The Texas Spur. Mr. McClure has a good newspaper plant, however, he says business is quiet at present. At Spur we noticed something unusual, and that is the city has no stock law or it is not enforced, the town was full of cattle grazing along the streets.

From Spur we went across the 24-Ranch which was said to be a near cut to the Claremont-Post road, arriving in Post just as the whistle at the mill was announcing dinner time. Post is a very beautiful little city just below the cap rock with plenty of water and a sewerage system, however, business is very quiet there also. We noticed great improvement since being there in 1916.

Mr. Mrs. Edwards have a very comfortable home surrounded by fruit trees. They also have two pretty little daughters, Doris Jean and Mary Ross, 4 and 5 years old, who are royal entertainers. Ross also has a farm on the Plains.

On Sunday afternoon we left Post for Snyder spending the night in the home of Mr. and Mrs. W. B. McCormick, formerly of Crowell. Mr. and Mrs. McCormick showed us over the city and in the rounds we visited the big up-to-date light, power and ice plant of the Snyder Utilities Co., of which Messrs. Yoder and McCormick are proprietors. Snyder is a good town and is taking on city airs. The Yoders and McCormicks have good homes in Snyder and are well pleased with their business. Scurry County has wonderful gravel roads. Garza County also has good roads, however, their road bond election was defeated and they lost the State aid.

After a very pleasant visit with Mr. and Mrs. McCormick we left Snyder at 8:30 Monday morning arriving at home at 8:30. The roads were very good all the way. At Rule we were directed to the wrong road which led into the sand and in two miles of Rochester stuck up in a sand bed.

Along the route we visited in the newspaper offices of the Rotan Advance and the Hamlin Herald.

All the country which we traveled over has had plenty of rain and the row crops and grass are fine.

A SING-SON ON COURT HOUSE LAWN

Singing is one of the finest exercises in which one can engage after a hard day's work. It brings relaxation and recreation as nothing else can do. Some of our educational institutions have a gathering of the student body for such exercises at the close of each day for recreation purposes. What is good for a body of working students is good also for the hard working people of a town. That includes nearly all of us, we are all hard workers. It has been thought wise therefore, that we put on a sing-song exercise for the town, not at the close of every day, but on Saturday evening at 8 o'clock on the court house lawn. The aim is social and recreation benefits.

Such a gathering is planned for this Saturday evening at 8 o'clock as a starter. If it works all right we will have accomplished something worth while. If it can not be maintained, it can go the way of all failures. It does seem that through the summer months this could be done. Of course everybody can not engage in an exercise like this because of business duties, but there ought to be a number of folks who can. All who can come and sing can be a great help in putting a sing-song program through.

Thinks Benham's Cattle Fine

Mr. Barns, secretary of the Texas Short Horn Breeders' Association and field man for the American Association, was here this week and went up to see G. J. Benham's thoroughbred short horns in the Vivian country. Mr. Barns was really surprised to find as good stock as Mr. Benham has, and said they are among the best he had seen anywhere.

A cow affected with rabies bit her owner, P. J. Francis, of Grayson County, on the hand. Francis is taking the Pasteur treatment.

HANEY IS NAMED FOR DIST. DIRECTOR

T. M. Haney, president of the Foard County Farm Bureau, is being pushed by his friends in Foard and Wilbarger counties for director from this the 12th congressional district, embracing Collingsworth, Hall, Childress, Hardeman, Wilbarger, Cottle, Foard, Knox, Baylor, Haskell and Jones. Two other names are before the farmers for directors, Jones of Cottle and Meacham of Hall. Each congressional district in the state will have a director, which is 20 in number. In addition to these the Governor of the state will appoint one, the president of the Texas A. & M. and the president of the Texas Farm Bureau a third, these three to represent the interests of the people in general, making 23 in all. Mr. Haney, if elected, will be one of these 23 men. His election will be quite an honor and will give Foard County some good publicity in that it furnishes one of these 23 men, being at the same time one of the smallest counties in Texas and yet having been the first in the state to raise its quota of bales for the pool.

Personally the News would like to see Mr. Haney elected as director.

A Cover-Dish Dinner

At the home of Mr. and Mrs. L. G. Andrews Thursday of last week there was given a cover-dish dinner in honor of their daughter, Mrs. J. B. Harrison, who was here visiting from Paducah, the dinner being given by some of her friends and relatives. It is reported to have been a very fine dinner and Mr. Andrews extends a special invitation for those who brought all that fine "crub," or anybody else who wants to follow their example, to come as often as they may see fit. He makes this a standing invitation. Mr. Andrews is not to be outdone in a thing of this kind and as often as they want to pull such a stunt at his home he is Johnny-on-the-spot with a cordial welcome.

Those present besides the Andrews family were: Mrs. Clyde McKown, Miss Minnie Ringgold, Mrs. Grover Clifton, Mrs. George Wells, Mrs. Grace McLaughlin, Mrs. Lon Carter, Miss Dina Mitchell, Mrs. J. B. Harrison, Mrs. Maude Hinds, Mrs. Walter Huntley.

Relief in Sight

If a settlement of the Irish question is made that will be reasonably satisfactory to both sides it will be one great relief not only to them, but to the people of the United States as well.

Our country today is practically divided into two camps on the subject—a minority of ardent champions of the Irish cause, and a majority who believe in letting countries on the other side of the water manage their own affairs with no interference from us.

It is a source of uneasiness to many professional politicians who want to keep in the good graces of their Irish constituents, yet fear to alienate the support of those in the other camp. It keeps them wiggling and squirming in an attempt to say something and yet at the same time say nothing.

We have had one great division of principle in this country. We do not want another.

The Irish question can not be amicably adjusted any to soon to suit our Uncle Samuel.

EVIDENCE OF RABIES FOUND IN WOLF'S HEAD

The head of the wolf which bit Mr. and Mrs. Walter Cates last week was sent to the Pasteur Institute at Austin and the next day after it arrived there a telegram came to the effect that it was very evident that the animal was suffering from rabies. Mr. and Mrs. Cates did not wait until they could hear from the institution but left immediately for Austin where they are now taking the treatment.

It will be necessary to keep close watch on all animals in the neighborhood of the Cates place until time has passed for bitten ones to develop the disease, since it is probable that others were bitten that no one knows anything about.

The cotton mill at Memphis is donating hundreds of bales of lintners for use in making crossings over the streams of that county where bridges were recently washed away. It is an experiment, but since the lintners are worthless the experiment cannot be very expensive.

ELEVATORS GET CARS FOR WHEAT

For more than a week shipment of wheat has been held up for want of cars, but this week the railroad people are in position to relieve the situation by supplying cars in sufficient numbers to keep the grain on the move.

The three elevators here had gotten 20 cars up to Wednesday morning. The elevator at Margaret had gotten six and while we had not learned how many Foard City had, it is presumed that that place got some, perhaps as many as Margaret. Assuming that much, it is safe to say that not less than 30 cars were available by Wednesday. There was promise of more the latter portion of the week. So we might say that likely 40 cars of wheat have gone out this week, which means about 60,000 bushels of wheat. This represents approximately \$60,000, and means that quite a bit of money is put into circulation this week that otherwise would have been tied up in stored wheat.

Henry Hunter Dead

A telegram was received here by J. L. Hunter Wednesday from Terrell stating that his brother, Henry, had died that morning.

About three years ago Mr. Hunter had a general physical and mental breakdown and was carried to the Insane Asylum for care and treatment but never became normal again and died on the 13th. He was born August 18, 1878, and was in his 43rd year. The body was prepared for shipment and arrived here yesterday, and after funeral services at the Methodist church the remains were interred in the Crowell cemetery.

For a number of years Mr. Hunter was engaged in the livery business here. He is survived by his only child, Mrs. Allan Sanders, of this place, his mother, Mrs. Isabelle Hunter of Margaret, and by six brothers, all of whom reside in this county except two.

NOLAN GOES TO AUSTIN

Mr. Nolan went to Austin this week on business in connection with the highway from Crowell to Vernon. Plans and specifications have been completed and approved by the division engineer and as soon as Mr. Nolan returns from Austin he will be ready to commence actual work on the highway.

It is expected that work will commence on the Wichita bridge about July 25th, so that it ought not be long until the highway is opened up and through traffic established to the south.

Grocery Store Sold

Matthews-Woodard Grocery Co. became the owners of the J. W. Ellis stock of groceries by purchase recently and have assumed management of the business at the Ellis stand on the west side of the square. For the present Matthews-Woodard will maintain two stores, the one at the stand on the north and the recently acquired one. Mr. Ellis has not made known his plans for the future.

Has Fine Potatoes

A. L. Walling knows what a potato is when he sees one and therefore does not have to be told that he has some very fine ones at his place west of town. He brought some down to town Monday and expects to have them prepared for keeping to put on exhibition at the state fair this fall. Mr. Walling has one of the most desirable truck farms in the county and will have a variety of products to show this fall.

Here From Ralls

A. H. Bennet came down last week from Ralls to visit relatives and spend a few days with his old friends here. Mr. Bennet was troubled with asthma quite a good deal when he was here but since he moved to Ralls has found the climate there to be much in his favor. He looks well and says his health is good.

When the highways are all up in good shape in this county and we have a system of water in Crowell there will not be a man of us who would be willing to go back like we were before we went after these things. Then we will not have to go to somebody else's country and somebody else's town to find something to brag on.

MAN DROWNED IN DAMSITE LAKE

Layton H. Little, a single man, twenty-six years old, proprietor of the Little Sporting Goods House of Wichita Falls, was drowned in Damsite lake Sunday morning at nine o'clock. The body was prepared by Undertaker Broyles and shipped to his mother at Waco that night.

Three Wichita Falls men, Hampton, a former Ford salesman here, McFall and Little, had arrived at the Lake Saturday evening. They were at the high bluff, on the south side of the lake, and about one mile from the dam, when they decided to cross the arm of the lake there. All were expert swimmers, and slid into the water fully clothed. Hampton got across first, and noticed that the arm was considerably wider than he had supposed it to be from the bluff. Little, who was encumbered by his coat and shoes, as well as a heavy case of fishing tackle, gave up when he was about two-thirds across, and called for help.

Hearing his cries, Hampton undressed hurriedly, but had trouble in clipping his trousers off, and seeing his companion go under, jumped into the water with one of the trousers legs still fastened to him.

He reached the drowning man, and told him to put his hand upon his shoulder, and tried to make his way back to the bank. They had gone but a short distance when Little's hand slipped off, and he went down again.

Hampton dived after him, brought him up, and tried to pull him along but was exhausted himself, and could make but slow progress.

Little let go his hold again, and Hampton seeing that he was unable to do anything more for him made his way back to shore, which he barely did make it.

McFall had been too far away to assist.

It was an hour afterwards when a boat and grappling hooks had been secured that the body of the unfortunate young man was pulled out of the water.—Quanah Tribune-Chief.

Made 28 Bushels

J. W. Bell estimates the entire wheat crop far above what we had estimated it, but we are inclined to think he has his figures a little too high. Mr. Bell thinks Foard County will make as much wheat as it did last year. He says the yield is good enough, together with the big acreage over the county to make an aggregate yield of a million bushels. The News estimated the crop at something like 600,000 bushels. Likely the News has made an estimate too low.

But what we wanted to say here is that Mr. Bell had one piece of wheat that yielded 28 bushels to the acre, which is considerably above the average. There were 175 acres of this, and the wheat was the Kanred variety. He is very much enthused over the Kanred, as he should be, because it is proving to be the best wheat ever sown in this county. Every one who tried it this year had the same experience. It resisted the dry weather better and yielded better. Every bushel of Kanred made in the county ought to be kept for seed.

Crowell Loses Game to Quanah; Wins at Vernon

The ball game between Crowell and Quanah Tuesday at the Crowell ball park was won by Quanah, the score being 6 to 2.

Our boys were in better shape Wednesday when they went to Vernon and won over that team, the score being 4 to 2 in favor of Crowell.

Ferguson Bros. Make Average of 15 Bushels on 500 Acres

Ferguson Bros. have finished threshing their wheat crop on their farm south of Crowell in the Foard City community and report an average yield of 15 bushels on 500 acres. This is a mighty good average on a large acreage. They stored 2,000 bushels and sold the remainder of the crop.

Making Trip to Colorado in Car

Joe Harris, Fay Beidleman, Lawrence Kimsay and John Rasor left Sunday in a car for Colorado. The boys expect to visit Salt Lake City and the Yellowstone National Park before returning, and expect to be away for a month.

Mrs. G. M. Bush left Saturday for Oklahoma City where she will visit a son. From there she expects to go to Arkansas for a visit with one of her daughters. The entire visit will cover a period of several weeks.

AUSTIN BROS. GET CONTRACT FOR WICHITA BRIDGE

R. C. Moore, President of Austin Bros. was here this week from Dallas looking after the matter of bridge construction in this part of the State. They have the contract to build the bridge across Red River between Hardeman County and Oklahoma and the work has already commenced. They have other contracts in this part of the country. They put in their bid on the bridge to be built across the Wichita River between Foard and Knox counties and got the contract. Their bid was a little more than \$17,000, while Foard County bid \$22,000, being underbid by nearly \$5,000. These people are prepared to build bridges and can, of course, build for less money than a county, which would have to buy a lot of machinery for the work. These people are bridge builders and want to hold the business and therefore are making close figures on bridge construction.

This bridge across Wichita will be 800 feet in length and will have steel spans on both sides and a section of 42 feet of piling over the center of the stream. It was our first information that this was to be a concrete bridge, but it was decided that the length of the bridge was too great to make a concrete structure of it and the pile bridge which will be built was the plan of the state highway people, who are furnishing half the money. The life of such structures are said to be about 30 years.

Quanah Man Shot

Sunday afternoon at about 2:15 J. H. Raines shot Albert Fletcher with an automatic pistol, through the left side, the bullet lodging in a muscle in the back. Fletcher was taken to the sanitarium, and Raines to jail.

Ben Richardson, who saw most of the affair, tells the story substantially as follows:

He had started to the ice plant for some ice, and in front of El Wilson's barber shop saw Raines, who is a carpenter and jitney driver. He stopped his car and entered into conversation with Raines who leaned against Richardson's car. Fletcher approached and said that he wished to speak with Raines, the latter stepping up on the sidewalk; and Richardson stepping on the starter of his car and started off. Just as he crossed the Q. A. & P. track he heard the report of a pistol and immediately turned his car and ran back to where he had talked to Raines. Raines was backing up to another car, and as Richardson got down from his car, and his pistol in the pocket of the door, where Richardson found and took it. In response to an inquiry, Raines stated that the night before he had got into a row with a man from whom he feared trouble, before coming to town had put his pistol in his pants pocket. He stated that Fletcher had asked him a question and before he could reply, had knocked him down and broken his jaw and then came at him with a knife. Ben says that Raines told him that he felt in his right hand pants pocket for his knife but found only the pistol, which he pulled and fired.

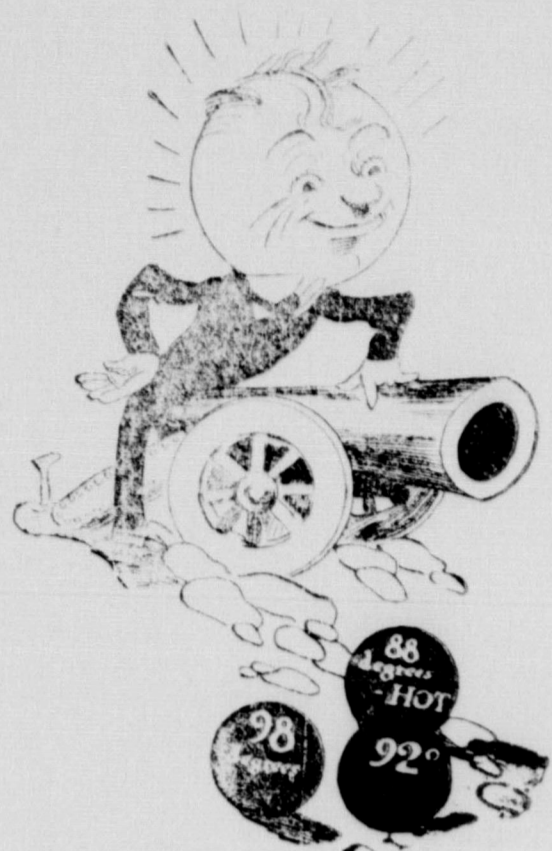

Raines willingly surrendered and walked to the sheriff's office where he was formally taken in charge and put in jail to await the outcome of Fletcher's wound before having an examining trial.

When Fletcher was shot, he seemed dazed for a moment, then rushed at Raines with the remark, it is stated by those who stood around, "You have killed me and I'll get you." Then bystanders state, he swarmed all over Raines and it took the combined efforts of four or five to restrain him. It is stated that he had an open knife in his hand. Fletcher surrendered to officers, and was taken in charge by acquaintances and put in a jitney and taken to the sanitarium. He walked from the scene of the shooting across the street to Magee's drug store. In the affray the men were so close together that Fletcher's shirt was set afire by the discharge of the pistol, and Ben Richardson pinched the fire out.

This forenoon Fletcher says he is going to get well, and that is all there is to it. His brother-in-law says that he shows every indication of being able to make good, too.—Quanah Tribune-Chief.

ASPIRIN

Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoceticacidester of Salicylicacid.

COLORS DISLIKED IN CHINA

Green Considered Unlucky, and White and Blue, as Mourning Symbols, Are to Be Avoided.

Green, which is thought to be unlucky, is much disliked in China and a recent English consular report warns merchants against packing goods in green paper. White and blue wrappings are equally to be avoided, for in China they are the mourning colors. The report points out that English pins packed in blue paper proved to be unsaleable, while such inferior German pins put up in red paper were snapped up at once. Red is the color of good fortune among the Chinese. Brown is liked, if it possesses a reddish shade; so are the brighter tints of pink. Carpets and curtains should possess a yellow ground, which is an extremely popular color in both China and Korea as well as Japan. Purple, too, is liked, and gold is the imperial color. While yellow is so popular in China, it is by no means wise to use it in Japan. There yellow, or rather saffron, is the color of the robes of the Sadhu caste of Hindus, who are notorious sedition mongers. Dressed in flowing saffron robes, a number of mendicants of the Sadhu caste have been recently moving all over India, preaching sedition. At Dinapur two of these men were caught in a barack room, preaching mutiny to the native troops, and were promptly arrested. Upon them were found seditious letters written upon silk of the same color as their garments. The Sadhu yellow is supposed to represent the combined color of sun and sky, and in India is as much the color of rebellion as the red flag in Europe.

The reliable Newton wagon. You can depend on this wagon to haul your grain.—J. H. Seif & Sons.

THALIA NEWS

(By Special Correspondent)

J. K. Langley has been very sick for several days.

W. T. Brown has gone back to Dallas for treatment for cancer.

Mr. and Mrs. Sam Scales of Crowell were visiting in this vicinity Sunday.

Mrs. Elmer Roberts has been sick for several days but is better at this writing.

George Doty has recently traded his home here for Cap Wheeler's sandy land farm.

Mr. and Mrs. Dick Swan returned Sunday from points in New Mexico and Colorado.

Mrs. Will Jones of Stamford has been visiting her parents. Mr. and Mrs. W. D. Burress.

Mrs. Jesse Hathaway and children are visiting her mother-in-law, Mrs. Hathaway, of this place.

Tom Abston and wife visited relatives in the Black community last Thursday night and Friday.

There was a moving picture show in Thalia Monday night. The Whitehead Brothers traveling show.

Miss Blanch Parker is spending a few days with the Misses Short. She is the sister of Mrs. Will Wade.

Sim Gamble and family of the Gambleville community attended the ice cream supper here Saturday night.

Mrs. Lula Mason and children went to Crowell Wednesday to attend the funeral of Mr. and Mrs. Hogan's baby.

Mrs. Ora Harris passed through here Monday afternoon. She was formerly Miss Ora Scales of this place.

W. O. Shrum and wife were called by wire to Illinois Bend, Texas, to visit his father who is very sick. They left Thursday.

Lucile Shultz and Velma Haney spent a week in Vernon visiting Mr. and Mrs. Clarence Haney. They returned Wednesday.

Frank Pittillo and family have returned from Colorado where they have been on a prospective tour and a general summer outing.

Mrs. Grover Nichols and children of the Black community came down Sunday to spend a few days nursing her mother, Mrs. J. G. Thompson.

Mrs. Albert Bird of Denton came Wednesday to attend the funeral of Mr. and Mrs. Ben Hogan's baby, she being Mrs. Hogan's mother.

Ewald and Alfred Schroeder and their sister, Miss Emma, attended the party given by the Misses Cribbs in the Rayland community Saturday night.

Mr. and Mrs. Howard Timberlake, Mr. and Mrs. Sam McLarty and several others from Vernon passed through here Sunday afternoon en route to Crowell.

The Ladies Aid of the Baptist church gave an ice cream supper Saturday night. They took in quite a nice sum of money and are planning to repair the church.

Mrs. Eric Wheeler has been very sick for several days. She was operated on Monday by Drs. Clark and Hill of Crowell. At this writing she is reported as doing nicely.

There was preaching services at the Baptist church Sunday night conducted by Buell Bradford and Elmer Roberts. Buell is a home boy who has just recently been granted license to preach.

Mr. and Mrs. Fred Rennels and baby of Crowell spent Saturday night and Sunday visiting their parents, Mr. and Mrs. J. A. Abston, of this place, and Mr. and Mrs. John Rennels, of Rayland.

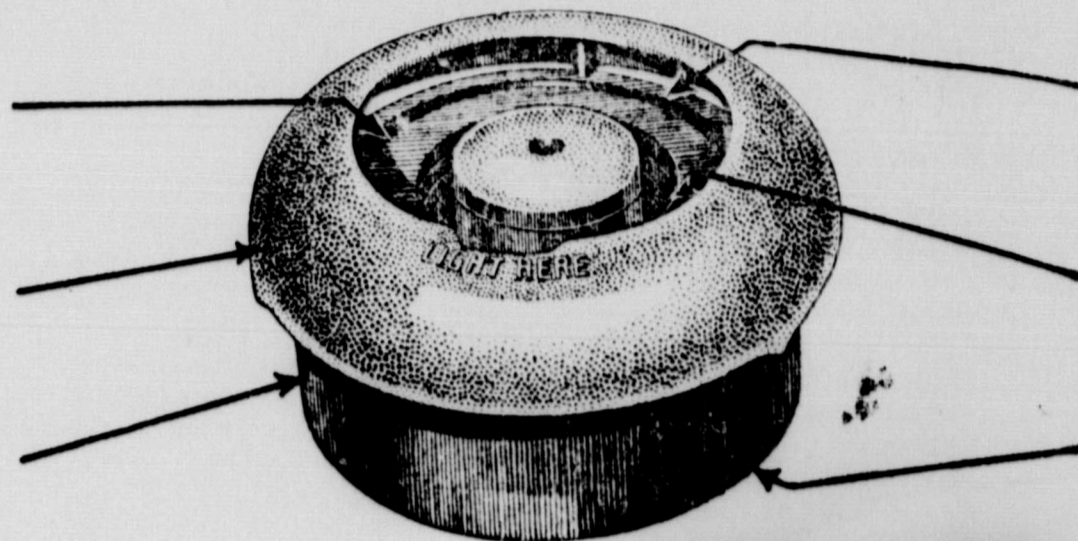

Garland Burns, Arthur Phillips, Finnie Tarver and father, Eric Wheeler, Will and Walter Banist., went fishing last Thursday afternoon. They returned about twelve o'clock that night with a lot of "ear experience" and a few little fishes.

P. M. Drake, wife and two babies of Oklahoma City visited in the home of his sister, Mrs. T. M. Haney, for several days last week. They left Wednesday and were accompanied to Vernon by Mr. and Mrs. Clarence Haney.

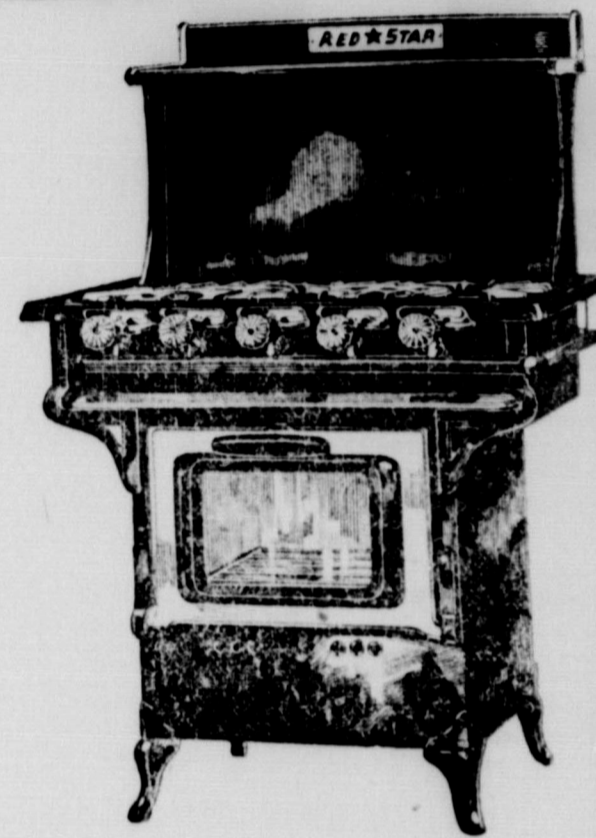

Luke Johnson and wife, Mr. and Mrs. Otto Schroeder and daughter, Ottielia, of near Thalia, and Mr. and Mrs. John Carter and children, J. T. and John McKinney, and Mrs. G. W. Thompson of Crowell were visitors in the J. G. Thompson home Sunday afternoon.

RED STAR

Detroit Vapor Oil Stove

Above picture shows wonderful burner of RED STAR OIL STOVES. There are 5 of them in this stove, each weighs 8 1/2 pounds, become red hot in 20 minutes. The most efficient, the most economical oil burning stove on the market. Uses no wicks.

Miss Gladys Johnston from the Smith ranch was a visitor of Miss Minnie Belle Barker Saturday night and Sunday.

Marvin Howard and wife of Crowell were guests of the latter's parents, Mr. and Mrs. J. W. Stone, Saturday and Sunday.

Misses Mattie Lee Meason of Crowell and Lucile Howard of Jamison were guests in the J. W. Stone home Saturday night and Sunday.

A large crowd of young people were entertained in the C. B. Atkinson home Saturday evening with an ice cream supper which was enjoyed very much by those who attended.

Our rural carrier failed to carry the mail one day last week and that one happened to be the day we should have mailed our items, therefore we didn't get any news in the last issue.

John Cudd who has been visiting the A. W. Barker family for some time left for Denver, Colo., Thursday where he will spend the rest of his vacation before returning to his home at Muskogee, Okla.

SOLD NINE COMBINATIONS

Nine combination harvester and threshing machines were sold in this county this season, but only two could be delivered. Nine were sold in Foard County before our people waked up to the value of such machines, and then it was possible to get but two, one for A. Moseley & Bro. and the other for W. I. Tabor. Tabor got his machine first and started it up as soon as he got delivery. In one day, immediately following one of the June rains, he cut and threshed 1,000 bushels.

It is freely predicted that more than a solid trainload of these machines will be sold on the Denver road next season, south of Amarillo—Quannah Tribune-Chief.

The Atlantic City mixup can hardly be called a prize fight, after all. Payment was guaranteed in advance.

It isn't the best of policy to take all you can get. You may get more than you want to take.

Double Disk

Your Wheat Land

Save your moisture by disking just as soon as you are through harvesting.

Disking kills all weeds, closes air pores, keeps your ground loose for plowing.

You are able to do this by using International Disk Harrows. We handle the size and kind for you to use.

The International Leverless Tractor Disk Harrow is the best tractor disk harrow on the market today. It is strictly a one-man outfit, you can handle the entire operation from your tractor seat.

We also handle a complete line of plows. Come in—let's talk over your needs.

J. H. Self & Sons

Possible, But Not Probable

A noted Japanese statesman says that if the president of the United States will call a congress of nations for the purpose of discussing international disarmament, Japan will promptly respond and that such an act would go far toward the elimination of all friction between the Americans and the Japanese.

It is possible, but not probable. The one great outstanding ambition of the Japanese is social equality, and this involves the unrestricted right to intermarriage. That we can not grant, much as we might desire to meet them in a friendly spirit.

Again, why should the United States be the power to call such a congress? We are an isolated people, with nothing to gain by interfering in the affairs of the old world, and no desire to do so.

We are practically disarmed as it is, while the nations across the water are spending huge sums in building up a system of national defense.

If Japan is eager for international disarmament, why does not the mikado take the initiative in such a movement? We know of no government that is more feverishly augmenting its fighting ability than the one that sits at Tokio.

Some nations, it seems, are averse to taking their own medicine.

Modeling in Rags.

It was the fashion of a little time ago to think scorn of the woodwork screens, the paper flowers, or the wax figures made by the women of the past, but now they are eagerly sought and added to collections of articles illustrating home life.

History repeats itself, and to this busy athletic age has come a wave of the old finger-work fashion. Lately it was pictures made with feathers, now it is little figures made from rags. These last were the idea of Mme. Wolkoff, nee Princess Troubetskoy, formerly of the Russian imperial court, when at Petrograd, where the little figures were sold for the benefit of Russian soldiers. Since Mme. Wolkoff has been in England she has modeled little statuettes of well-known people, all in characteristic attitude and life-like appearance. Odd pieces of rag have been manipulated to make these charming little figures, which vie with the paper modeling and the wax groups of the past.—Christian Science Monitor.

After all, there is a bond of sympathy between doctors and editors. The one doesn't care to take his own medicine, while the other seldom follows his own advice.

Do Workers Need Parlors?

The question whether a parlor is a necessary part of a workingman's house has caused heated argument among several of the local councils organized to promote building of such homes in the industrial centers of England. Many women members of these councils argue that the workingman's daughters need parlors to receive their callers during the courting period. Those opposed declare that the workingman's "best room" is little more than a "cemetery for waxed flowers."

Shipbuilding in Holland.

Shipbuilding in Holland still is on the increase, although in other countries marked falling off in the output of yards has been noted since the high marks set during progress of war construction.

Use a Florence oil cook stove.—M. S. Henry & Co.

C. B. GARLINGHOUSE

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, July 15, 1921

Never mind what your neighbor says. It's what you do that counts.

The woman who marries her best friend is in grave danger of losing him.

The road to ruin is a well trodden trail. You can't miss it if you want to find it.

The only trouble with industry is that it needs to be a little more industrious.

Opportunities are never without value, although many people are unable to fix the price.

The efficiency of some people consists principally of the recommendations of their friends.

"Kissing is forbidden in Japan," chirps an exchange. Doesn't do any good to forbid it here.

They say a woman can't drive a nail, but most of them can drive their husbands to do it for them.

A man is not necessarily a fool because he acts like one. Some women could make a wooden Indian smile.

Beware of the fellow who is over solicitous of your welfare. He probably wants to sell you a gold brick.

Thus far the summer has been quite in keeping with the prohibition act. It is a little moist, but infernally dry.

It's a funny sort of combination, but the man who paints a town red often gets a black eye during the performance.

Makes 20 Bushels Per Acre

W. B. Griffin finished threshing last week and reported an average of 20 bushels on the entire crop. This is almost as good yield as he made last year. Getting through threshing early will enable him to break his land early enough to stand a good show of making another wheat crop.

The business houses of Vernon are offering ten free trip tickets to the Dallas fair, five to boys and five to girls. These will be competed for by club members of the county.

An interurban car between Denison and Dallas struck an automobile with 8 occupants one of whom was killed and all the others injured.

Edgar Norton of Quanah lost his garage and two fine cars last week by fire. The loss was about \$9,000.

Work has commenced on the Red River bridge north of Quanah and is to be completed within 90 days.

The sun must love us dearly, otherwise it would not waste its rays upon us with such prodigality.

Mrs. C. D. Haney, of Vernon, formerly Miss Essie Shultz of this county, writes that they have missed several issues of the paper, but it is not our fault, as we have been mailing it every week. She says they have plenty of garden stuff now, such as, beets, cucumbers, squashes, beans, peas, lettuce, okra, onions and greens, and will have ripe watermelons in a week or two.

Mrs. M. M. Hart and daughters, Miss Leslie and Mrs. Justin Anderson, also Mrs. Anderson's little daughter, Rebecca, left Sunday for Gainesville to visit Mrs. Hart's mother, Mrs. Flint. Grandma Flint is 90 years old.

Mr. and Mrs. Ira Roberts and children of Bonham and Mrs. Ray B. Taylor of Palmer visited Mr. and Mrs. J. Y. Welch last week and part of this, returning the first of the week. The trip was made by auto.

Mrs. J. R. Hutchison expects to leave today for Vernon where she will spend a few days visiting. From there she will start on her return trip home to San Dimas, Cal., but will spend a day or two in Amarillo.

Frank Crews starts the News to his son, Frank, who is in Dallas doing clerical work for a business firm in that city. Frank took a business course at the Metropolitan school.

Mrs. G. W. Wallen is at San Angelo with her son-in-law, G. C. Rector, who recently underwent an operation for appendicitis. Rector is reported to be improving.

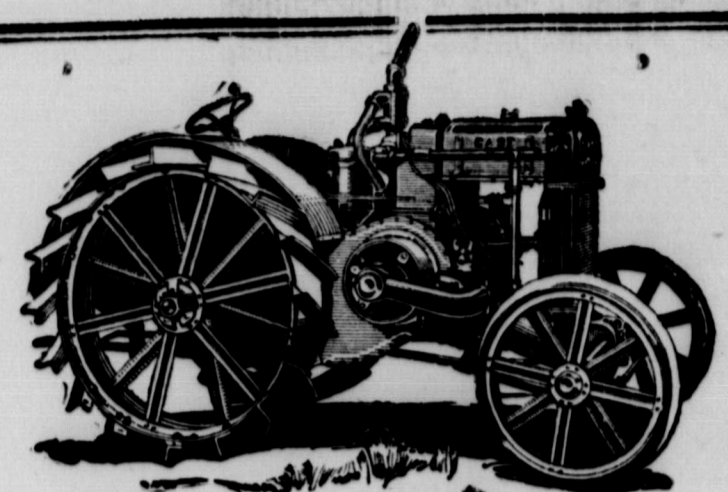

For Sale—One Moline double disc breaking plow, brand new blades, good shape, two John Deere breaking plows double disc same as new. See F. E. Diggs or C. P. Sandifer. 6p

The Latest and Best

We offer the Case 15-27 Kerosene Tractor as the king of them all. It is creating a sensation all over the country. It is the result of 77 years of experience of the famous J. I. Case Threshing Machine Company.

It pulls three plows in hard plowing—four plows under favorable conditions. It has abundant reserve power. It burns kerosene successfully and economically.

This sturdy tractor is adaptable for all kinds of drawbar and belt work. It drives a 26x46 Case Thresher with Feeder and Wind Stack. Its pulley is properly placed for convenient "lining up."

It is small and compact and built for accessibility. No tractor is finer. You should become acquainted with its many superiorities, which we will be glad to explain. Don't buy before you see this better tractor.

Fordson

For Every Field Use

\$625
F. O. B. Detroit

Does Every Power Job

You can plow, disk, harrow, harvest, thresh, bale hay, grind feed, fill the silo, saw wood, pump water, pull stumps, do road work or any other power job around the farm quicker, easier and at less cost to you with the Fordson Tractor.

Twenty-four hours each day, every working day in the year it will give maximum service. Light but powerful it gets from job to job quickly. Easy to operate and control—efficient, economical and above all **DEPENDABLE.**

Get in the power-farming frame of mind now. Call, phone or drop us a card for facts. See the Fordson in practical operation.

Self Motor Co.

Motorists

are often at the end of their wits to know where they can have the repair work on their cars properly done—how to avoid the absolute butchery that is so often inflicted upon cars by incompetent persons who hang out a sign and call themselves "motor mechanics."

This garage offers you the opportunity to have your repairs made in the proper manner by mechanics who **DO KNOW THEIR BUSINESS** and who have long since passed the experimental stage in motor mechanics.

You pay only for the actual time honestly consumed in the work.

E. SWAIM

The Car Situation

We have tried every means possible to secure cars to help move the people's grain. We have just received the following telegram:

Washington, D. C. Your telegram of 9th, arrangements just completed will give Orient considerable number of cars coming week and expect to follow with others, and while cannot promise complete relief from car shortage account volume of grain offered for immediate shipment, expect to improve materially present condition that road.

Car Service Division, by Beets.

We believe that the car situation will get better as the different State and National Departments are waking up to the fact that we need them. Our contract wheat is now all in and we will be on the market for your wheat from day to day. Will assist in moving all wheat exposed as soon as possible.

ALLISON GRAIN COMPANY

It has been announced that the Wilbarger County fair will open August 30 and continue for 4 days.

PROPERLY RANKED AS HERO

Deserved Tribute to Collie Who Gave Master the "Last Full Measure of Devotion."

Clyde Scott, four years old, lies dying on his father's farm near Beckley, W. Va. His pet collie is dead. A vicious sow, bearing the scars of battle to the finish, is so badly mangled that she must be killed, too.

It is one of those simple stories of a dog to which all human sympathy responds, remarks the Baltimore Sun. The boy, playing in the yard, was attacked by the sow, which had escaped its pen. Hearing the child's screams the collie rushed to the rescue and engaged the sow in fight. It needs no assurance of the telegraphed item to tell him who knows his dog the details.

The child's mother came into the picture, bearing her torn baby to safety. But the dog remained. His was a supreme duty, that knew no compromise. The infuriated sow was a menace to those he loved. It was his business to remove that menace, and into the job he put his concern. It was his concern only to remove the menace, and at any cost. His own life mattered not at all, and in the end he lost it, in as noble a struggle for what he believed to be righteous as any that ever brightened the annals of man or nation.

We do not know the little collie's name. If we did we should like to print it in honorable memory of his gallant conduct. He was a soldier and a gentleman; he was a devoted comrade and playmate; he was all that a dog is and that a man should be. We hope he had a Christian burial, for he was a Christian, if to be Christian implies sacrifice of self and love for others. He was all of that and he was a hero—a hero on four legs.

PLAGUE THAT FOLLOWS WAR

In All Ages Rinderpest Has Marked the Path Taken by Armies on Their March.

The newspapers told recently of the trouble that arose when the authorities of Montevideo refused to admit to that port a little dog owned by a woman who had taken it there on a passenger steamer, the refusal being based upon the epidemic of rinderpest prevailing among the cattle of Uruguay. Rinderpest is the most terrible of the diseases that affect cattle, and is often called simply "cattle plague."

It affects, so far as is known, only the ruminant, cloven-footed animals—oxen, sheep, goats, camels, etc.—but is so infectious that it may be carried from one herd to another by attendants, dogs, cats and birds or by fodder. Therefore, the dog was excluded from fear not that it might contribute to spreading it.

The cause of rinderpest is not yet definitely known, but it is an ancient disease which always breaks out after great wars. The ravages of the Goths and Huns in the early Middle Ages were followed by frightful epidemics. Its commonest symptoms are fever, cough, dysentery and exhaustion. Its mortality is high, but the disease is not necessarily fatal.

Grossmith Defines Humor.

Lawrence Grossmith, the English comedian, is quoted as saying: "There is no more difference between English and American humor than there is between English and American tragedy. All humor, whether it be English or American, depends upon the seriousness with which the person trying to be humorous acts the fool. This may sound like a paradox, but it is one of the most extraordinary paradoxes which are vitally true. If an actor does not enter into his humor with the full possession of his senses and all his faculties he misses the most of it."

"To be humorous it is necessary to lose oneself in one's part, retaining just sufficient introspective faculties to feel the sincerity of one's acting. Sincerity here as in all other branches of acting is the mainstay. And 'sincerity' goes across the footlights whether it is in Germany, France, England or America, whether in tragedy, comedy, musical or dramatic plays."

Kaiser's Coach Brought Trade.

The ex-kaiser's gala carriage is for sale in Berlin. "One of the best strokes of business I ever made was to buy it," said Herr Zielka, owner of a Friedrichstrasse establishment containing a restaurant, billiard room and a theater of varieties, according to the Continental edition of the London Mail.

"I bought it from the court-marshal and used it as an advertisement for the theater. Every night the carriage drove up to my theater and out stepped a grand gentleman or lady with the air of a royal personage. Naturally, crowds followed into the theater. Unhappily the royalists made such a fuss that the police forbade me to continue using it."

Road Building in India.

There is considerable activity in road making in various cities in India, depending upon the local authorities. In some places stone rollers, pulled by gangs of men, are used, and in other places steam rollers are to be found. A very useful machine is used in Lucknow, that has two rollers, the front one a steering roller. The rear chain is driven by a gasoline engine. It has a large gasoline tank and is well adapted for light work.

USE YOUR HOME PAPER

The slick guy with a smooth line of talk, greased hair, pressed pants and a big card printed in three colors seems to be an excellent combination to separate business houses from \$3 to \$10 for box space on a pasteboard card after the aforementioned slick guy tells you it is advertising. Don't believe it. It's charity. He has no interest in your community or your business. His sole and only interest is your money and you will find him perfectly willing to add one lie to another to enlist your interest, for he will not see you again after he has cleaned up on the town and taken the train out.

Sometimes it is a thingamagig that he is going to hang on every telephone in the county; sometimes it is a hotel directory and other times it may be some new Wallingford folder that will gain the attention of even more conservative business men. They have an excellent line of talk, these fellows. They have to have, for that is what they live on. Ever hear of a business man who had to enlarge his store, or a town that doubled its trade territory as a result of this kind of advertising? I never did, and I do not believe that one of the slick guys did either.

But I know of several towns that have made phenomenal progress and of thousands of others that are being boosted as a result of advertising through the home town paper. And they keep right on boosting whether you advertise or not. Did you ever stop to think of the number of editors of home town papers that are giving their life's work to printing the interesting things and everyday happenings that bind the community spirit of loyalty and devotion to the home town that holds support and business to your doors? And that fool editor keeps right on doing it whether you put your advertisement in the paper or not.

Why? Because it is his business to grind out a paper that people want to read. And they read it whether your ad appears or not. If your ad is not there, they will read some one else's ad.

Got all the business you can handle—don't need to advertise? Don't fool yourself. One of the big packing companies spends \$50,000 a year just to keep its name before the public. They have more business than they can handle now, but they know that if they withdraw their advertising that it would not be long until their business would decrease. All of which is by the way of endorsing a little item that appeared in the Cotton Plant Democrat a short time ago: "A real slick pull-the-cork under advertising slicker was in the city Monday working a church directory scheme. The last we saw of him he wanted a sheet of red cardboard to map out a state hotel directory on. He said that it was a little hard to get it started here but after he got the bank and a few others, the rest of them were easy. He had us figure on the printing, but said our price was too high, although he admitted that our price was about right. He said he was going to take the work over into another county where there were eight papers, all doing work cheap and starving to death. When a schemer of this kind comes along, using the churches, both white and colored, to promote his schemes, it is time for the business man to call a halt."

The interesting thing about this item is that the editor was not "beefing" about not getting the advertising money. He probably has got all the advertising he could take care of. If the business man wanted to waste his advertising fund on a game as old as the gold brick and three-card monte game, learn, but he does not want to see he is willing to let them live and his churches swindled.

Human nature is a complex, puzzling thing after all. That editor of the Cotton Plant Democrat would be branded by his home town people as a traitor to his community if he bought his clothing of a mail order house and did his banking in another town. And yet, the slick guy who calls his pretty cards "advertising," fills them up from top to bottom. And the editor uses only a bit of his space to make mention of the fact in a patient sort of way and keeps on boosting the town.—Leo C. Moser, of the Fayetteville (Ark.) Democrat.

Cutting Out the Waste If General Dawes, as head of the federal budget, can inaugurate a system whereby the extravagant governmental waste will be eliminated, he will have performed a great and signal service to his country. "Governmental waste" is a household expression from ocean to ocean.

and from Canada to the Gulf. It signifies a lack of organization, inefficiency, and a spirit of don't care. It is time to eliminate the three. The burdens of taxation are heavy when even legitimate expenses are met, without adding the millions and millions that are squandered through lack of good judgment and business acumen. General Dawes is by no means a new broom, but we are rather of the opinion that he will nevertheless make a clean sweep.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Thedford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which gripped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

Get a package from your druggist today—Ask for and insist upon Thedford's—the only genuine. Get it today.

Hot and Cold Baths First Class Shines The City Shaving Parlor An Up-to-Date Shop in Every Particular C. T. SCHLAGAL, Proprietor

Here's why CAMELS are the quality cigarette BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette. Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show. Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows. Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality. If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarettey aftertaste, It's Camels for you. Camel R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

Muzzling Competent Critics

Admiral Sims, who was reprimanded by the secretary of the navy for his famous speech in England, has broken out again—fortunately.

In a Fourth of July speech he calls attention to the fact that officers of the army and navy are forbidden to criticize publicly any feature of our system of national defense.

The result of their silence, declares the admiral, is that we are in a perpetual defenselessness, and the vital points of this defenselessness is carefully kept from the public at large, who might themselves criticize if they were cognizant of the actual facts.

Public criticism serves to bring to light the weak spots of every subject under discussion, but in order to expose undesirable conditions a person must first have a thorough knowledge of his subject.

It is admitted that no one can possibly understand the subject of national defense better than the army or navy officer, whose life work it is, and yet they are utterly forbidden to discuss such subjects.

As a matter of fact, the civilian heads of departments in Washington, appointed for political reason and without previous knowledge or training, are loath to have their mistakes aired in public by men who know more than they do.

That is all very well for the department head who is endeavoring to head off adverse criticism of himself and his department, but it is poor consolation for the tax payer who pays for these mistakes.

Whatever may be the right or wrong of the admiral's famous speech in England, he is unquestionably right in this instance.

More competent criticism and less official and congressional bungling is greatly to be desired.

I have taken charge of the Smith Hotel and expect to give the very best service that it is possible to give, and ask a share of the public patronage. The following prices are in effect at this hotel: Single meals, 50c; board and room per week, \$10.00.—C. B. Jones, Prop.

There are very few fools in this world. They generally have enough sense left to consider others more afflicted than themselves.

For Sale—Five registered Hereford bull yearlings, ready for service.—J. E. Bell.

YOU NEED NOT MISS
the fresh, natural taste of either vegetable or fruit, just because the product is canned.

SOME OF OUR BRANDS
are positively superior to the quality you ordinarily get for fresh.

In any event we can meet your needs in canned goods for either quality or price.

While we pride ourselves on the quality goods we carry in stock, if you want the cheaper qualities we will procure that for you.

PURPOSE

A purpose in life is as the helm of a ship—it shapes direction to the goal.

It stirs ambition, arouses determination, and is the main spring of success.

To have some definite aim, some target to shoot at—no matter how modest it may be—is already to be well on the way to achievement. Destination has much to do with destiny.

Purpose is something for which we endure difficulties and hardships; take blows and rebuffs; tolerate disappointments.

In this store there is a purpose for every ambition.

Breaking a Land-Clearing Record.
A total of 18,000 acres of land in Marinette county, Wisconsin, were cleared during the season of 1920. This is a record, and the increase will represent at least \$1,000,000 a year in crops. The closing of the task was marked by a great blast of an acre of stumps near Wausaukee. At this point 158 sticks of dynamite were set off simultaneously as an electric impulse was transmitted by a presiding official who closed a switch. A land clearing school and 57 educational meetings were part of the campaign that made their efforts so successful, and explosives to the extent of 14 carloads were used in the undertaking.—Popular Mechanics Magazine.

White Gold as Platinum.
It is an easy matter for the metallurgist to make an alloy with gold as a basis that has all the appearance of platinum and in London, recently, a great many persons have been "taken in" by the composition, paying platinum prices for jewelry afterwards found to be an inferior material.

For Japanese Women.
An important advance toward the emancipation of Japanese womanhood was made recently when the house of representatives in Tokyo adopted a bill granting women the right to attend political meetings.

Aiding Dempsey
Now that Mr. Dempsey has knocked out the champion prize fighter of Europe it is considered improbable by many that there will be any other puncher willing to take him on.
That would be sad for Mr. Dempsey. Having achieved fame greater than that of any king or emperor, it is not to be considered that he would sink to the level of a mere moving picture star in order to remain in the fickle public eye, which so often forgets its heroes.
What, then, can we do to aid Mr. Dempsey?
Let him enter the ring and punch himself in the absence of any other opponent?
Not at all. Those powerful blows might hurt.
There remains but one other suggestion worthy of a gentleman of the prowess of Mr. Dempsey.
Pull off another war with some foreign country.
Mobilize the flower of our young manhood and send them away to do or die, or both.
Let the red blood of America flow as the waters of the sea, with the super-blood of Mr. Dempsey anchored safely in the harbor of a shipyard.
It is undignified to fight and run away. Therefore, the great of the earth should not fight at all where sprinting may become an urgent necessity.
The ship yard turns out noble palaces of the deep.
It is a convenient place for Mr. Dempsey to turn in.
Adieu, Jackie!

Unfurnished rooms to rent to respectable people at the old Methodist church house. Apply for information at the Collins wagon yard.

Congress very properly threw the hooks into that medicinal beer suggestion—or possibly it wasn't congress, after all. At any rate we can't afford to have a nation of invalids.

DODSON'S LIVER TONE KILLS CALOMEL SALE
Don't sicken or salivate yourself, or paralyze your sensitive liver by taking calomel which is quicksilver. Your dealer sells each bottle of pleasant, harmless "Dodson's Liver Tone" under an ironclad, money-back guarantee that it regulates the liver, stomach and bowels better than calomel without making you sick—15 million bottles sold.

Model Bakery bread now 10c a loaf.

THIS BIRD REAL POLLYANNA

No Imaginable Adverse Circumstance Can Keep "Cucuboro" From His Fit of Laughter.

The real Pollyanna of the feathered tribes has just arrived at the bird house in Central park, for if any one can bear up under the name of Cucuboro and still keep cheerful, it shows one of those persistently gay natures that nothing can mitigate. Of course, Cucuboro has won a better deal from the public at large than he did from the ornithologists who saddled him with his gloomy scientific appellation, for the people of Australia, where he comes from, recognize his propensity to "Keep Smiling" by calling him the "Laughing Jackass."

And, equally, of course, he has earned this soubriquet, for he is reported to thrive on vast quantities of water—no matter what other beverages are available—and to have a habit of laughing before he gets up, an hour or so before sunrise. Now, any one who can laugh an hour before dawn on just plain water—even Pollyanna and her followers never did anything so blatantly cheerful as that.

This kingfisher bird, for that is his family, is sometimes hailed as the settlers' clock, because of his regularity in bursting out into a spasm of wild, ribald laughter, that surpasses any alarm clock in rousing the inhabitants of the Australian bush, while it is more than probable that a relapse into this fiendish merriment that takes him about sunset serves for the dwellers in the hinterland as a dinner bell, cathedral chimes, and factory whistle, all in one. They show their gratitude by making a pet of him and protecting him in his merry chorus—New York Post.

SPAIN GAVE WALES DAFFODIL

First Flowers Said to Have Been Received in Exchange for a Consignment of Coal.

According to an old legend, the first batch of daffodils ever seen in Wales reached there in return for a consignment of coal. The daffodil is indigenous to the Bilboa district, some of whose seafaring inhabitants were about two thousand years ago conveyed by the flow of the Gulf stream to Pembrokeshire. There they saw the inhabitants digging what is now known as anthracite, and making fires with it. They also noted that the Welsh were sun worshippers. Taking some of the anthracite back with them, the Spaniards realized its immense superiority over charcoal for the purpose of smelting iron ore, for which the country round Bilboa was celebrated even in those days, so an expedition was organized to procure further supplies from Wales.

As barter for the "black stones" the Spaniards took a consignment of daffodil bulbs, because they thought that people who worshiped the sun would be impressed by the beauty of this flower as it unfolded itself and displayed its form and color, and that in its corona and radiating petals they would see reflected the glory of the sun. Thus used as barter and carefully cultivated by the ancient inhabitants of Wales, the daffodil eventually became the floral emblem of the country.

Consider the Sun Dial.

At the very bottom of the rubbish pile since April 24 is the sun dial. There was a time when the sun dial regulated the comings and the goings of mankind. The clock was a new idea which changed the world's ideal, and the sun dial was merely tolerated. But the latest idea, daylight saving, has wiped the sun dial from the picture. No matter how it tries, it cannot bring itself into step with today.

If the sun dial could voice its protest it would proclaim that it represents all that is stable in the universe. The sun has marked the course for ages, it would warn, and to deviate from this must lead to destruction. It would demand respect for its vested right. Because the world would not listen it would call the world awry.

The sun dial is a standpatter.—Milwaukee Journal.

NOTICE OF BOND ELECTION

Notice is hereby given that an election will be held at the court house in the City of Crowell, on the 26th day of July, 1921, to determine whether the bonds of said City of Crowell shall be issued to the amount of \$100,000.00, payable forty years from their date, and bearing interest at the rate of six per cent per annum, said bonds to be paid serially in from one to forty years, for the purpose of purchasing and constructing water works within the limits of said City of Crowell, and whether there shall be annually levied, assessed and collected on all taxable property with said City of Crowell, for the current year and annually thereafter while said bonds, or any of them, are outstanding, a tax sufficient to pay the current interest on said bonds and provide a sinking fund sufficient to pay the principal at maturity. Joe W. Beverly has been appointed manager of said election, which shall be held as nearly as possible in conformity with the general election laws of the State.

No person shall vote at said election unless he be a qualified voter under the constitution and laws of this State, and property tax payer in said City of Crowell.

Those in favor of the issuance of the bonds and the levying of the tax shall write or print on their ballot, "For the Bonds and the Tax;" and those against the issuance of the bonds and the tax shall write or print on their ballot, "Against the Bonds and the Tax." Said election was ordered by the City Council of the City of Crowell at a regular meeting of said council by order passed on the 21st day of June, 1921, and this notice is issued pursuant to said order.

Dated this 22nd day of June, 1921.
C. T. SCHLAGAL,
Attest: Mayor of the City of Crowell.
CLAUDE A. ADAMS,
City Secretary.

A Saint Louis preacher provided 1200 pounds of ice at his church last Sunday from which were fanned over his audience cooling breezes. But do you suppose his audience needed to be cooled off? Generally it is the preacher.

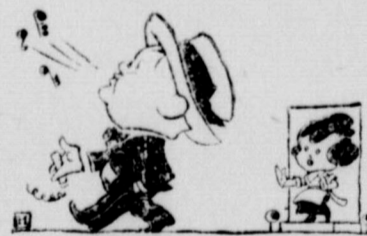

The country press is "favored" with "free" copy from time to time from some of our big educational institutions in Texas, but when we see display ads from these in the dailies our bubbling enthusiasm to help these institutions by giving them free advertising is damped like everything, and the "copy" goes into the waste basket.

Something like 40,000 acres of land were sown to wheat in this county last fall and the entire crop should be about 600,000 bushels, not a bad crop. Of course, we had some damaging rains this year, but they were not so bad as was thought, and the crop of 1921 is not far from an average one.

This is three wheat crops in succession, two of which were the best the county ever had. And now the farmers are getting a good start toward another by early plowing. The motor comes in as a great boon to wheat growing because of the early plowing it makes possible. By this means the wheat farmers are going to be able to conserve a greater amount of moisture than they did in the early days, and consequently avoid some of the failure years.

Speeders from Memphis had a narrow escape, according to the Memphis Herald, one day last week when the car they were driving got from under control and turned over twice. They were driving at a high rate of speed when passing another car and in the effort to get back into the middle of the road the accident happened. One of the boy's collar bone was broken and the others shaken up badly. The car was demolished. No speed fool should be allowed to run loose.

A bird like this makes a model husband

HER NICE new husband STEPPED OUT of the house, WHISTLING LIKE a bird, WHICH ALARMED young wife, ESPECIALLY WHEN SHE FOUND she'd picked THE WRONG package, AND INSTEAD of oatmeal, HAD GIVEN him birdseed, BUT DON'T think from this, THAT EVERY guy, YOU HEAR whistling, HAS NECESSARILY, BEEN ROBBING the canary, OTHER THINGS inspire THE ALMOST human male, TO BLOW through his lips, AND MAKE shrill noises, A RAISE, for example, OR A day off when, A DOUBLE header is on.

OR AN everyday thing, LIKE A good drag, ON ONE of those smokes, THAT SATISFY, WHICH CERTAINLY ARE THE REAL birdseed, FOR MAKING men, TRILL THEIR pipes for joy, SO LADIES, if hubby, GOES AWAY whistling, YOU NEEDN'T worry, ALL'S SWELL.

WHEN you say that Chesterfields "satisfy," you're whistling. You know—the instant you light one—that tobacco in it are of prime selection, both Turkish and Domestic. And the blend—well, you never tasted such smoothness and full-flavored body! No wonder the "satisfy-blend" is kept secret. It can't be copied.

Did you know about the Chesterfield package of 10?
