PEDDY ADDRESSED LARGE CROWD AT QUANAH SATURDAY

Texas Theatre Filled to Capacity; Speaker Held Audience for Hour and Half with Perfect Attention

Many of our readers have already read an account of Mr. Peady's Quanah speech last Saturday in Sunday's papers. Some have not seen the report, so for their benefit we are giving a brief mention of the speech.

People are always interested in the man who offers himself for public office. They like to know what character of man he is, how he appears and what kind of speaker he is.

Mr. Peady impresses one as being very ambitious young man. He is bubbling over with enthusiasm, however. He is reasonably calm and shows enough interest in his speeches to impress his hearers that speaks from the depth of a heart of honest convictions. He possesses a voice that enables himself to be heard without great effort on his part in the distant portions of a large auditorium. He has a good flow of language and we believe possesses the facilities of developing into a great orator. He is not what we understand to be a politician, which fact may work to his disadvantage. We are not saying that it will do so, but it may do it. History has revealed the fact in a few instances that young men have proven themselves, as some predicted in the case of Mr. Peady, to lead us out of the present political turmoil in Texas.

Most of Mr. Peady's speech was directed against the Ku Klux Klan. It has been in practically every portion of the state where he has spoken. He regards this as the most dangerous evil that now confronts our state. He supports his charge that it is a political organization by developments attending its activities. He said that Sterling P. King and Robert L. Henry were eliminated by the Klan and Earl Mayfield was chosen as its candidate some time before the Democratic primary, so that when Democrats of this state went to the polls, each thinking that his vote was worth as much as that of any other voter, regardless of what candidate it might be cast for, he was mistaken, because the Ku Klux Klan had already stacked the vote for Klansman Earl B. Mayfield. Mr. Peady called on any Klansman who might be present to bear out in this statement. This was done in the secret, behind closed doors while thousands of Texas voters were asleep unaware of the fact that this organization, the Ku Klux Klan, was clandestinely manipulating politics in such manner as that the will of the real Democrats had been throttled and the mob's purposes accomplished.

Mr. Peady called attention to Mr. Mayfield's silence in the face of much resistance on the part of the public to an explanation of his relationship with the Klan, but he always talked about railroad rates, prohibition or suffrage. "At last," said the speaker, "he has talked. He admitted today on the witness stand that he was a member of the Klan but repudiated in the latter part of January." Mr. Peady said that he himself was nominated by Democrats in Dallas in the light of day and not behind closed doors. Nothing was done in secret. He was then nominated by the Republicans of the State and was proud of the fact that such nomination was an expression of a party which puts principles above party name. They were willing to unite with the Democrats of the State to defeat the plans of a mob and uphold constitutional government.

The speaker took time to read the resolutions which were submitted at the San Antonio Democratic convention for endorsement but which were voted down. These resolutions asked for a reassertion of its adherents the fundamental principles of our government relative to the freedom of speech, religious tolerance, trial by jury, and the principles expressed in the Bill of Rights, all of which were voted down because there sat on the platform at that convention Earl B. Mayfield, the nominee of the Ku Klux Klan, which clan does not endorse these principles. Mr. Peady further stated that not only would the convention not endorse these principles, but that the convention was so com-

Miss Gladys Aleene Benson Weds Plainview Man

The many friends of Miss Gladys Benson will read with pleasure the following account of her marriage Oct. 15 to Mr. Robert M. Beck of Plainview. Mrs. Beck was practically reared in Crowell but has been living in Plainview for more than year. The following is taken from a Plainview paper:

Miss Gladys Aleene Benson became the bride of Mr. Robert M. Beck Sunday morning at 8:30 o'clock. The wedding took place at the home of Mr. and Mrs. R. W. O'Keefe, in the presence of a few relatives and close friends.

Just before the ceremony Mrs. O'Keefe sang "Because I Love You," and Miss Norris Stevens played the wedding march. Rev. Mr. G. S. Hardy, presiding elder of the Methodist church, spoke the nuptial words that joined the happy couple.

After the ceremony the bride and groom and several friends went in cars to Kress, where they took the northbound train for Amarillo, their future home. Mr. Beck has been connected with the Cash Grocery in this city, but has taken a position as office man with the Allison-Chalmers Farm Machinery Co. in Amarillo. He is a genial and popular young man. The bride is the daughter of Mrs. Ora B. Hunter. She is a very bright and winsome girl, and has for some time been stenographer in the county attorney's office. They have many friends who join in extending congratulations and best wishes.

COL. NIMON EXPRESSES APPRECIATION OF GOOD SERVICE

The following letter was handed to us by Capt. Que E. Miller which is an expression of appreciation to the National Guard troops by the commanding officer, Col. C. W. Nimon, for the excellent manner in which they conducted themselves while on duty in the martial law zone at Denison. The letter follows:

The Governor of Texas, has by his proclamation, bearing even date herewith, concluded martial law in Justice Precinct No. 2, Grayson County, Texas, effective 6:00 P. M., October 21, 1922. This action of the Governor has brought to an end one of the most difficult tours of duty that National Guard troops are ever called upon to perform. As the commanding officer of the martial law zone and of all troops on duty therein, I have been keenly aware of the difficulties presented in the administration of martial law. As such commanding officer, I wish to extend to each officer and man who has been on duty in Denison, my real appreciation and thanks for the hearty co-operation and spirit of loyalty that has been exhibited. The uniform, honorable deportment of the officers and men, the efficient manner in which they have discharged the difficult tasks with which they have been confronted, reflects honor upon the National Guard of Texas and demonstrates the fact that the best traditions of the military service have been exemplified in the performance of the troops on duty at Denison.

pletely controlled by the klan that effort to discuss these matters before the convention were defeated. For these reasons he regards the convention as being un-Democratic and therefore failed to express the will of the people who had participated in the primaries and who had every reason to expect that the convention would be guided by the principles upon which the party was founded and which had given it endurance to the present.

Mr. Peady regards the present situation as dangerous to the government of Texas and calls upon the suffragists of Texas to put duty to country above party. He stated that he wanted men and women to be guided by what they thought was best for their country when they come to vote in the general election. He said he wanted nobody to stultify his or her conscience by voting for him if that vote was not prompted by a conviction that was best for the interests of the people of Texas.

There was loud applause frequently during Mr. Peady's speech, and it was evident that he had the crowd with him.

C. H. S. MEETS DEFEAT BY SEYMOUR

Last Friday afternoon, before a large crowd Seymour defeated the fast Crowell eleven 38 to 0. We have no excuse to offer only that we honestly believe the best team won, although Crowell has played better football than the brand displayed by Seymour.

That good Crowell line held at critical times, but the back field was off-form. The following is play by play:

First Quarter
Crowell won the toss and received. Awbrey returned thirty yards before being downed. Burrow was called through center but no advance. Cates went through center for three yards, Awbrey around right end for two yards. Cates through center two yards. On the next play Seymour goes through the whole Crowell eleven for a touchdown. Seymour receives one more point by forward pass after ball is placed on five yard line. Crowell received and Burrow returns fifteen yards. Cates gained ten yards around right end. Awbrey through center for one yard. Cock attempts pass to backfield, but no success. Burrow called through center for four yards. Cates also made four yards through center. On the next play Cates goes out of game for roughness. Burrow takes Seymour for five yard loss by a great tackle. The ball goes into Seymour's possession for touchdown. Crowell receives and Crews returns eight yards. Awbrey gained seven yards around right end. Burrow through center for three yards. Awbrey through center for three yards. Carter taken for small loss. Awbrey gained six yards around right end. Burrow made five yards through center. Awbrey around left end, no advance. Cock attempts pass to Crews, no gain. Seymour receives five yard penalty for off side. Awbrey punts out of danger. End of first quarter, ball in Seymour's possession, score, Seymour 13, Crowell 0.

Second Quarter
Crowell penalized five yards for off side. Burrow made great tackle. Seymour receives ball for touchdown and goal. Cock receives but fumbles ball. Cock to Crews nets twenty yards. Seymour penalized 5 yards off side. Awbrey attempted pass to Cock, no gain. Awbrey made ten yards around right end. Cock to Crews, no gain. Awbrey to Crews, no advance. Cock to Awbrey completed but Awbrey fumbles the ball. End of second quarter, score, Seymour 20, Crowell 0.

Third Quarter
Awbrey received and made a great thirty yard return. Burrow made one yard around left end. Awbrey attempted pass to Cock, no gain. Awbrey to Crews gained twenty yards. Cock to Awbrey, no gain. Seymour received twenty yard penalty for hurdling. Seymour punts out of danger. Cock returned five yards. Again Seymour scores. Awbrey received and returned twenty yards. Cock to Crews, no advance. Cock to Carter, no advance. Awbrey taken for loss around left end. Burrow made four yards around left end. Awbrey punts. Norman intercepts great pass but is downed in his track. Wood makes the prettiest tackle of the season beyond a doubt preventing Seymour from making another touchdown. Seymour scores touchdown but fails to kick goal. End of third quarter, score, Seymour 32, Crowell 0.

Fourth Quarter
Awbrey intercepts pass but is downed in tracks. Cock to Norman nets ten yards. Cock to Smith, no gain. Crowell penalized five yards off side. Seymour punts and Smith carried back five yards. Awbrey made five yards around right end. Seymour intercepts pass from Cock making touchdown. They also kick goal. Cock received and carried ten yards. Cock to Norman, no gain. Cock to Awbrey ten yards. Awbrey received great pass and gained fifteen yards. Smith intercepts pass but is downed in tracks. Cock attempted pass to Burrow that ended the game. Score, Seymour 38, Crowell 0.

According to a survey of the turkey crop in Texas by the State Department of markets and warehouse gobblers are going to be scarce for this Thanksgiving. The crop is from 15 to 50 per cent short of that of 1921.

CROWELL BOY FIRST OVER GRAHAM'S LINE

After a two day truck ride Crowell met the fast Graham eleven, conquerors of Henrietta, Seymour, Burk Burnett and several others, the team whose goal line had never been crossed.

The team as a whole gave the best they had, again the Crowell line held but the backfield could not bear their part of the burden.

Shults at center played the game of his career, both on the offense and defense. He took Graham for repeated losses and recovered numerous fumbles. To Awbrey goes the credit of being the first man to cross the Graham line.

The play by play:
Crowell won the toss and Graham kicked past the goal. The ball being placed on Crowell's twenty yard line, Cates called through center, no gain. Awbrey around right end, no gain. Graham intercepts pass from Cock making touchdown but fail to kick goal. Norman received and was downed in tracks. Cates made two yards through center. Burrow thrown for twelve yard loss on a fumble. White recovers fumble giving Crowell possession of ball. Cates through center two yards. Awbrey through center, no gain. Awbrey made three yards through center. Cock to Norman gains thirty yards. Cock to Smith, no gain. Awbrey through center three yards. Cock to Smith makes twelve yards. Burrow through center for five yards. Ivie fumble, Crowell's ball, first down. Burrow again made five yards through center. Cock to Awbrey, no advance. Cock through center for two yards. Cates made seven yards through center. Burrow through center, no gain. Awbrey completes pass from Cock making touchdown, the first time the Graham line was ever crossed and Graham was worried. Awbrey failed to kick goal. Graham received five yard penalty for off side. End of first quarter, score, Crowell 6, Graham 6.

Second Quarter
Cock attempted pass to Smith, no gain. Burrow made six yards through center. Cock through center three yards. Crowell received a five yard penalty for off side. Cock to Smith, no gain. Cock to Awbrey, no gain. Cock to Norman, thirteen yards. Awbrey punts out of danger. Graham made touchdown on forward pass. Cates received and returned twenty yards. Cock attempted pass to Smith, no gain. Cock attempted pass to backfield, no gain. Cock to Smith, no gain. Cock to Awbrey, no gain. Burrow makes great tackle. End of first half, score, Crowell 6, Graham 12.

Third Quarter
Graham received and carried ball down the field with a series of plays for a touchdown. Cock received and returned fifteen yards. Awbrey through center, no gain. Norman completes pass from Cock, making eight yards. Awbrey called through center for two yards. Again Graham scores by a touchdown. Awbrey goes out on account of injury. N. Cock received and returned fifteen yards. Cock to Norman, no gain. Graham carries ball over for touchdown. Crowell makes several substitutions. Graham kicks and Ivie is downed in tracks. Cock to Smith two yards. Cates made two yards through center. Cock to Smith, five yards. Crowell received a five yard penalty. End of third quarter, score, Crowell 6, Graham 30.

Fourth Quarter
Shults started the quarter with a great tackle. Graham penalized one half distance of field. N. Cock made great tackle. Graham penalized fifteen yards. Cates completes pass from Cock for two yards, and ending the game. Score, Crowell 6, Graham 30.

LEAVE ON BIG HUNTING TRIP

Mayor C. T. Schlagal, L. G. Andrews, D. R. Magee, C. A. Adams, L. V. and Bert Bell, left yesterday morning for the Pecos River where they expect to enjoy several weeks fishing and hunting. They will arrive at their destination several days before the hunting season opens which time will be spent in fishing.

George Peady's name will not be on the ticket, according to a decision in the special Federal Court. It was decided that this is a matter not within the jurisdiction of that court.

THE COAL FACT FINDING COMMISSION

Seven representative men appointed by President Harding constitute a commission for the purpose of getting at the basic facts regarding the coal industry. That there are "niggers in the coal pile" is beyond question. The Federal Trade Commission a great branch of the Government that collects pertinent facts with regard to industry, the trades, and trade practices, started a similar investigation to that which is now being carried forward by order of the President more than two years ago. The Trade Commission sought to obtain figures showing the amount of return on the capital investments of the coal operators. It is said that the commission carried its investigations to the point where it was about to disclose the existence of profiteering of the most sensational kind among some of the operators who had been quarreling with the miners, and "putting up poor mouths" in their attempt to make the public believe they could not afford to pay decent wages to their workmen. Nevertheless the Federal Trade Commission succeeded in finding out that some of the West Virginia and Pennsylvania companies earned from 24 to 25 per cent on their investments in 1919. For the first nine months of 1920 the range was from a profit of three per cent for one company to a profit of 268 per cent for another company. Other official estimates showed that for 1920 the range of profit on investment varied from 4 per cent to 357 per cent.

The Federal Trade Commission was enjoined by coal operators from proceeding with its investigations, on the ground that the act of Congress creating the Commission did not technically provide the authority it had assumed in demanding certain classes of information pertinent to an analysis of the coal situation. As a result the Commission was unable to do much more than "scratch the surface." With the additional power conferred on the President's Coal Fact Finding Commission it is believed that such a body will be able to follow up the lead of the Trade Commission and get at the bottom of matters in such a way as to uncover the profiteers and the inconsistencies that are responsible for the upheavals in the industry that prove so detrimental to legitimate capital investment in coal mining, and to the more important welfare of the great masses of workmen employed in coal mining.

Wm. S. FARRELL

Wm. S. Farrell was born in Nova Scotia, Canada, on December 28, 1894, and died of pneumonia at Branson, Colo., on October 15, 1922.

He enlisted in the U. S. Cavalry at Ft. Logan, Colo., on June 16, 1917, and served eighteen months in the Hawaiian Islands. From there he was sent to McAllen, Texas, on the Rio Grande for guard duty and received his honorable discharge from that place on July 19, 1919.

Again he enlisted in the Motor Transport Co. No. 43 at McAllen, being discharged at Ft. Ringgold, Texas, on July 9, 1920, after having served one year in this department of the U. S. Army.

He was buried at the Tobe, Colo., cemetery with military honors by the Turner-Thompson post of the American Legion.

Many Foard County people will remember "Bill," as he was familiarly called, having lived in the home of C. S. Parker a number of years prior to their removal to Colorado.

The Baptists of Snyder have launched a plan for the completion of their new building which is out of the ordinary for a church. They are issuing bonds to the amount of \$15,000, each bond amounting to \$50.00 payable in ten years and drawing interest annually at 6 per cent. The bonds are to be paid out of the revenues coming into the church treasury. The church reserves the right to lift the bonds at the end of five years.

The Farwell chamber of commerce has accepted the very appropriate slogan for any progressive town, "Nothing knocks here but opportunity."

Mr. Stephens of Vernon is here this week visiting his daughter, Mrs. R. L. Kincaid.

OUR HIGHWAYS IN NEED OF REPAIR WORK

To Neglect Maintaining Means Throwing of Money for Construction Away

Any one who will stop to think for a moment knows that it is useless to build roads if they are not going to be maintained. It means that within a few months they will become bad and finally ruin. Then it will cost practically as much to rebuild as it do to construct at first.

With reference to Foard County's roads, one has to travel only a short distance over our highways to see that they are badly in need of repair work in some places. The State Highway Commission has become acquainted with this fact and has called the attention of the County Judge to it. This week we saw a letter from J. D. Fountleroy, State Highway Engineer, to the County Judge relative to the present condition of the F. F. F. Highway through this county. The letter said:

"The Federal Bureau has called our attention to the fact that F. A. P. 62, or State Highway No. 28 in Foard County is not being properly maintained.

"The penalty for failing to maintain a Federal Aid Project is very severe and the burden will fall not only on Foard County but on the whole State, and we request that you take immediate steps to place this project in a proper state of repair."

The county is under contract to maintain the highway on which Federal and State aid were applied, and it seems that there is a penalty attached in case that contract is not carried out. What the penalty is we do not know, but in all probability it would be the payment of whatever cost the State might see fit to impose upon the county necessary to put the highway back in first class condition after it has once been allowed to become seriously impaired. We might not be consulted about matters if it should become the duty of the State to look after the work of maintenance. This applies, of course, only to such highways as have been given state and federal aid. But the same reasons that would apply for the maintenance of a state highway would apply to a community highway. In either case they are avenues of travel and have been constructed at heavy cost and must be maintained or else the construction money is a loss.

This matter of maintaining the roads and highways is up to the commissioners. They can make provisions for their maintenance and thus keep our roads in first class condition, allowing, of course, for long continued dry weather, which is hard on roads. They may neglect to provide for their upkeep and consequently within a few months the roads will be gone and we shall have left only the taxes.

Our commissioners have built a good system of roads, and our people ought to be proud of this, but there may be danger of getting more roads than can be kept up. That certainly is true if attention to their maintenance is allowed to lag.

CHRISTIAN REVIVAL

The revival meeting at the Christian Church continues with increasing interest. One "good confession" on Tuesday night was the first visible fruits of victory. Many are being made to see and feel their need of salvation. The evangelists messages are plain and simple, yet sin is exposed, and Jesus Christ is offered as the only remedy for sin and unbelief. The messages to be considered are of the utmost importance and no one can afford to miss a single service.

We appreciate the co-operation of the Christian citizenship of Crowell. We need your prayers and your valued presence in every service. Let us all work together, and improve the opportunity that is now ours to enjoy. Next Sunday's messages will be as follows:

11:00 A. M.—Climbing Heavenward.

7:15 P. M.—Chunks in the Wheel.

Let every one do your very best to make this revival a great success in every way. "Come, let us reason together, saith the Lord."—Evangelist in charge.

Stoves Stoves

If you are in need of any kind of stove, visit our store and look over the big assortment of all kinds of stoves.

We sell the very best stoves to be had in both cast iron and oil stoves.

For nearly three years now we have been selling the wonderful RED STAR OIL STOVE. The one that every one is raving about; the one that uses no kind of a wick or wick substitute, and is giving 100 per cent satisfaction. If anyone is having trouble with the RED STAR it is because they do not operate it properly nor keep it clean. We have about twenty of these RED STAR stoves sold in and around Crowell, and we do not know of a single one of them that is not giving satisfaction.

We sell the different New Perfection oil cook stoves and oil heaters. The NEW PERFECTION oil stoves are undoubtedly the finest wick stove that is made. We keep them, we sell them, we recommend them as being the very best wick stove made.

The NEW PERFECTION oil heaters are the kind that give entire satisfaction. They do not smoke or smell, and give more heat than any other kind of oil heater that we know of.

We have the nationally advertised line of BUCK'S stoves and ranges in hot blast heaters and cook stoves and ranges in cast iron. We have the heaters in stock, but the ranges have been delayed, but hope to have them in a few days. We ask that you give them a good inspection. BUCK'S stoves and ranges have been made for over fifty years, and practically every one has heard of them.

We believe we have the best stove pipe in Crowell. We guarantee any BUCK'S stove or range to do just what we claim for it. We claim they are the best or as good as the best stoves made. We will sell them as cheap as their superior quality and worth will permit.

CALOMEL MAY TURN ON YOU NEXT TIME

Next Dose You Take May Salivate and Start World of Trouble

Calomel is mercury; quicksilver. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

Everett Haney of Vernon was in this community Monday in the interest of his life insurance business.

Melvin Ruckman and family attended church at Thalia Sunday and took dinner with Otis Burrson and wife.

Mrs. Grady Taylor and children returned home Wednesday from a two months visit with relatives in New Mexico.

Mrs. Wheeler and son, Dixie, of Vernon spent Saturday night and Sunday with their daughter and sister, Mrs. C. J. Fox, and family.

The little twelve day old infant of Ben Henry and wife died Friday after several days illness. To the bereaved ones we extend our sympathy.

Tom Russell, wife and baby, Mrs. Maggie French and children, Mr. and Mrs. Jim Long, all of Crowell spent Sunday with Dave Jobe and family.

Luther Townley left Sunday for Blair, Texas, to take medical treatment. He was accompanied by Will Clark and Uncle Jim Gray of Thalia.

Miss Mamie Kennedy, intermediate teacher of the Rayland school, and Mr. Haley of Colorado City, Texas, surprised their many friends by going over to Thalia Friday afternoon and getting married. The bride is well known in this community and has a host of friends who will regret to see her leave, especially the school

W. A. MEETING

The regular weekly meetings of the Woman's Auxiliary of the Baptist church are being well attended, exactly twenty present Monday afternoon for mission study.

The Young Woman's Auxiliary met Monday evening with Mrs. Andrews with thirteen present, making a total of thirty-three studying missions in this co-operative way. Last month's report is one of the best we have had in some time. A box was sent to orphans valued at two hundred and three dollars. Also a coop of thirty-two chickens. Twenty-seven dollars and fifty cents in cash given to local charity.

Pledges paid on seventy-five million campaign.

Several new members received and Bible and missions study spreading like wild fire.

We would be happy to have every woman in our church line up for real study and service.

Now, don't forget to go to Thalia next Saturday where the women of our association will render a program beginning promptly at 2 o'clock.

We meet next Monday in the home of Mrs. J. H. Self in social meeting. Every lady of the church urged to be present. A good time promised.—Mrs. McGonagle, Pres.

The New International Speed Truck

WITH the addition of the new Model S speed truck the great International line includes a size and a style for every hauling purpose. Sizes now range from the 1,500-pound truck, with a speed of 35 miles, to the 10,000-pound truck for heavy-duty service.

The new model is a successful combination of strength and speed. In every detail, it is designed and built to measure up to the quality standard so firmly established by International Motor Trucks. The same combination of skill and experience gained through 90 successful years of high-grade manufacture stands back of every International Motor Truck.

The four-cylinder engine has the neces-

sary margin of power, sturdiness, and durability to cope with all road, weather, and traffic conditions. The internal gear drive rear axle and all other units measure up to the standard of quality set by International engineers. The Model S is regularly equipped with 34 x 5 pneumatic cord truck tires, electric lighting and starting equipment, and power tire pump.

Back of this dependable line of trucks stands the International free inspection service, which fully assures low-cost operation for all Internationals.

It will pay you to know more about International trucks and service. Come in at your convenience and let us explain just what low-cost haulage really means.

(By Special Correspondent)

Bro. King visited our school Tuesday morning.

One of the teachers, Miss Eunice Dodd, is unable to teach. Mrs. Aggie Crosnoe is taking her place.

O. S. Lyons gave a party Saturday night. There was a large crowd and everybody reported a nice time.

Dwite Campbell and Willie Harris returned from Graham Thursday of last week.

There was a singing at Will Fergeson's Sunday night. A large crowd was in attendance and the occasion was enjoyed.

Mr. and Mrs. C. C. Fox, also Mrs. Adrian Thomson visited Mr. and Mrs. L. V. Johnson of Crowell Tuesday.

Mr. and Mrs. Davis and family have been visiting in Knox County, but returned to their home here recently.

A church conference was held here Wednesday of last week with dinner on the ground. Rev. McNair of Thalia and Rev. W. M. Murrell of Crowell were present.

Thanks to Adelpians

The school board takes this opportunity, though rather late, to express its appreciation of the financial assistance of the Adelpian Club to the amount of \$50.00 in the matter of providing drinking fountains for the school building. This was a very great need at one time and the Adelpian Club extended the hand of helpfulness in a very wise manner. The board appreciates it, and asks that this expression be accepted as real just as if it had been made at an earlier date.

Keeps Bad Company

George Peddy says the prohibition issue cuts no figure in his race for the United States senate. Still we notice that his strongest supporters are anti-prohibitionists, and that the whole anti vote of the state is going solidly for him. George may have made pro speeches in the past but if we are to judge him by present company, we doubt his being very strong in the faith just now. Besides being looked upon as the champion of the anti forces in the Democratic party, he is also standard bearer for the Texas Republicans. George may be a good pro and a true blue Democrat in spite of appearances, but we don't feel like going back on the nominee of the party on his account.—Quannah Tribune-Chief.

It would be a terrible thing if this were true. Unfortunately, or fortunately, as the case may be, all that is said is not true. In the first place the whole anti vote of Texas is not

for Peddy. Personally the News knows of some very rank antis that are strong for Mayfield. And is it not a fact that even one of Mayfield's opponents before the primary, who supports him has always been counted one of the "whiskey gang," the Honorable Bob Henry? Others of the Tribune-Chief's contemporaries that might be mentioned are K. Lamity Harpoon and Pitchfork Smith. These have almost split their sides for the klan ticket and neither have ever been known to support the prohibition movement. These are only a few that come to mind, but according to the Tribune-Chief they ought to be supporting Peddy. The same thing can be said of the Republicans. There will be lots of them who will support Mayfield, in fact, all doubtless who are members of the wizzard's bunch. On the other hand thousands of prohibitionists in Texas are supporting Peddy, a fact well known to every one. Then should one try to create prejudice against Peddy because he is endorsed by antis and Republicans? We call attention to the fact that Mr. Mayfield, if he is really a Democrat, is endorsed by the most un-Democratic body in Texas today, the Ku Klux Klan, and is not only endorsed by that body but is its nominee. According to Peddy's statements, which are not denied, Mayfield received his nomination first by the klan. There are some in the klan who claim to be Democrats, Republicans, pros and antis. Rather motley crowd is it not? Suppose we place Mayfield supporters by the side of Peddy supporters and view the scene. Peddy's company will stand in the broad sunlight where everybody can see who they are. 120,000 of Mayfield's company will be under sheets with faces hidden. These will stand in the front ranks. Back of them will come many good Democrats with honest convictions. There will be others who do not like the company they have to keep but who are with the crowd because they are afraid not to be. Perhaps for business reasons, perhaps it's more popular to be there, some are there because they are afraid of the tar bucket. Some are there because they would not break a pledge for the world, but there is not the slightest doubt but that two-thirds of the thinking portion of the company feel deep down in their hearts that they

are not making the safest and best lineup for the good of the State. Then, let's turn the picture around and see what kind of company Mayfield's supporters are keeping.

A Revolving Fund for Farmers

Secretary Hoover of the Commerce Department and Secretary Wallace of the Agricultural Department believe that the time of stress for farmers has passed. In their opinion there is no need for an appropriation of \$50,000,000 by Congress to "help out the farmers." These two eminent experts in agricultural conditions look with favor on a bill that will be presented to the next Congress by Senator McNary of Oregon, that will provide a revolving fund of \$12,000,000—\$1,000,000 for each federal reserve district. The purpose of the bill seeks to make the above total sum available for short-time loans to farmers on warehouse certificates and similar securities. The successful methods that have provided an "elastic" credit, in the new legislation. Varying seasons and crop periods in different parts of the country make it possible, it is thought, to chase the twelve millions from one part of the United States to another, so that each farm section may have temporary benefits from it. Of course this bill does not contemplate supplying any of the demands for mortgages and other long-time forms of credits. That is quite a different matter.

There are more "political farmers" in Washington than most any other class of advisors. These many representatives of the agricultural interests justify their activities on the ground that the farmers more than any one class of our citizens have suffered from the disturbed, industrial and financial conditions of the country. One hears very little about the "farm bloc" nowadays, but the men in the two branches of Congress who composed it are not at all backward in answering questions considering it and concerning the claim that "they got all they went after."

Judge Its Quality—Then Price

There's something alluring about the Studebaker Special-Six Sedan.

You notice it when you pass one on the street. It grows on you as you examine the car's details. It becomes even more pronounced when you take the wheel and drive it.

No wonder the Special-Six Sedan carries such an appeal! Its beauty of line, finish and appointments fascinates you. The delightful harmony of color in the upholstery, the completeness of the appointments, and the soft carpeting afford real elegance—and at a new low price.

The body is a striking example of the handicraft of Studebaker artisans. Built in Studebaker plants where the coachmaker's art has been handed down from father to son for more than two generations.

It is mounted on the same dependable Special-Six chassis that has added new fame to the name Studebaker wherever cars are known.

Compare its appearance, its endurance records, its comfort, its equipment—and its recognized reliability with any car within hundreds of dollars of its price. Judge it on quality first—then price—because price alone is no indication of its intrinsic value.

You can have confidence in the quality of Studebaker cars—in the 70 years of business success and manufacturing integrity back of them—and in the sterling dollar-for-dollar value built into them.

The name Studebaker on your car insures satisfaction!

"Were you ever pinched for going too fast?" asked the young lady. The sedate looking man replied: "No, but I've been slapped."

One thing sure. There is no danger of our bank going too fast. We believe in slow, sure, steady, conservative banking. We are taking no chances with the money of our depositors. We are unusually conservative about our loans, avoid speculation and always have a big reserve on hand for emergencies. It is "safety first" with us every day of the year.

World Will Have Less Wheat This Year

Total world wheat production, excluding Russia and Mexico, is now estimated at 3,012,293,000 bushels by the United States Department of Agriculture, based on official and unofficial estimates from reporting countries. The revised estimate for the same countries last year was 3,-

049,074,000 bushels. The previous estimate for this year was 3,093,870,000 bushels.

Adding to the world production figures the stocks on hand in so far as they have been obtained, a total available supply of 3,192,037,000 bushels for use the coming year is indicated, compared with 3,273,588,000 bushels during the past year.

The Great Lakes Navy

The government of Great Britain has authorized the Dominion of Canada to negotiate direct with the United States in the framing of the new treaty to regulate naval strength on the Great Lakes. Twenty years ago the United States maintained the armed "tub" Michigan as a training ship for our fresh water sailors. Canada had a similar "tub" of its own. Fortunately these 2 ships never went to war—at least we never heard that they did. Just what the present naval strength of the two countries may be along the Great Lakes is uncertain as the above twenty-year old report seems to be about the latest news regarding hostile equipment, such as could be used for fighting purposes by the two countries that are neglecting the opportunities of opportunities of armament along hundreds of miles of waterways, and Washington is said to house military strategists who worry a lot because there is an unfortified border line to our north that is four thousand miles in length.

The new treaty between the United States and Canada will replace the treaty of 1817, under which peace and prosperity have been maintained for over one hundred years. It is understood that there is at present no official desire to increase the naval armament on the lakes, and that only a sufficient number of ships for military training and customs law enforcement are to be provided for in the new arrangement between the two great neighbors of North America.

Thanks for School Assistance

It will be remembered that about two years ago when bonds to the amount of \$9,000 were voted for the repair of the Crowell school building that the bonds could not be sold in time to provide the money when it was needed, and several of the citizens came to the rescue of the school board and made two notes of \$4,500 each and went to the banks here and borrowed the money. The notes were made July 17, 1920, and were paid July 17, 1922. As president of the board during a portion of that time T. M. Beverly wishes to express his appreciation as well as that of the board for this financial assistance. The following are the names of those who made the notes:

Severe Indigestion

"I had very severe attacks of indigestion," writes Mr. M. H. Wade, a farmer, of R. F. D. 1, Weir, Miss. "I would suffer for months at a time. All I dared eat was a little bread and butter... consequently I suffered from weakness. I would try to eat, then the terrible suffering in my stomach! I took medicines, but did not get any better. The druggist recommended

Thedford's BLACK-DRAUGHT

and I decided to try it, for, as I say, I had tried others for two or more years without any improvement in my health. I soon found the Black-Draught was acting on my liver and easing the terrible pain.

"In two or three weeks, I found I could go back to eating. I only weighed 123. Now I weigh 147—eat anything I want to, and by taking Black-Draught I do not suffer."

Have you tried Thedford's Black-Draught? If not, do so today.

COLORFUL KNITTED ACCESSORIES TUNED TO AUTUMN DEMAND

Now are the days when gay knitted togs hold forth in full measure of glory. With cool weather upon us things knitted take on a double significance. They answer not only to the call of the aesthetic, but they stand for genuine comfort as well.

It would seem as if autumn's most gorgeous red, blue, yellow and purple hues have been caught within the knitted mesh of scarf, sweater-coat, hat and various accessories, reflecting their cheerful tones in stripes, plaids and novelty design—for one cannot wear too gay sports attire. Wealth of color is a chief asset in knitted apparel.

Perhaps the knitted scarf comes first in importance. And they are making such wonderful scarfs these days! Great shaggy, near-shawls of brush wool with astounding borders and lots of fringe! Just the sort to challenge any intent of Mr. Jack Frost. Then there are the fascinating fiber silk kind which supply their wealth of color to the erstwhile somber tailored suit.

Perhaps you are of the skirt and

lingerie blouse persuasion. If so, one needs a bit of protection about the shoulders, and what more apropos than one of the much befringed and cheerfully bordered brush wool scarfs? It is quite the clever thing to wear a wool scarf matched to one's sweater. One thing calls for another and really to complete the ensemble one should indulge in a knitted hat, for "sets" are the smart vogue.

Study the knitted outfits in the illustration. The woollen slipover is white, loosely knitted with horizontal purple stripes; girdle is white and the sleeves are full length. The tam and scarf set worn with this sweater is of camel's hair with tassels on cap and scarf.

The other young woman has the knack of wearing her lightweight knitted scarf just right. It is of brushed wool checked in blue and buff with blue tassels.

Effect of War Against Disease.
The effect of successful war against disease and death is to make life better worth living. There is no doubt that whole cities and even countries have lived at a low physical level of well-being. Settlers in malarial districts of the United States are pertinent examples. For them life was a sad affair. Low death and sickness rates signify a more exuberant vitality, and more general enjoyment of life. The possibilities in a nation which really enjoys life are limitless.—Pittsburgh Dispatch.

British Booze

Secretary of State Hughes recently asked His Majesty's Government at London to negotiate a new treaty with the United States permitting the authorities of each Government to search vessels of the other up to a distance of twelve miles from the shore. The purpose of the suggestion was to prevent the smuggling of British booze. Britain declined the proposal and held out the encouragement in a note to our Secretary of State that the smuggling of liquor is only temporary and a condition "which will no doubt be suppressed by the United States authorities within the not distant future." It is explained in Washington that British diplomacy is hard-boiled against joking, and therefore we must take King George's government seriously in its prophecies regarding the "not distant future."

Another horn to the bootlegging dilemma on the high seas concerns the Bahama Island, where the booze shipping industry has been waxing fat on profits. The British government has shown its friendliness to the American efforts in coping with the Bahama situation by sending a patrol boat to put his house in order. In still another instance the British have

shown their willingness to help by preventing the changing of registry of American and other foreign ships seeking to cover their movements in smuggling liquor into the United States.

Our English friends have shown no intention, that they intend to give up their own 'half and 'half, or forsake the Scotch mists; but by their co-operation they are evincing the proper respect for the rules regarding liquid refreshments on our side of the mighty ocean. Under all the circumstances their observation that the illegal sale of liquor in the United States will be "suppressed" and that "within the not distant future" is very encouraging to the prohibition officials.

"My Platform Is the Bill of Rights, the Declaration of Independence and the Constitution of the United States."
--George Peddy, Candidate for United States Senator

Help George Peddy to Rescue the Democratic Party and to Uphold the Constitution

The Constitution Versus Ku Kluxism

"No religious test shall ever be required as a qualification to any office or public trust under the United States."—Article VI, Constitution of the United States.

"In all criminal prosecutions, the accused shall enjoy the right to a speedy and PUBLIC trial, by an IMPARTIAL JURY of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; TO BE CONFRONTED BY THE WITNESSES AGAINST HIM; TO HAVE COMPULSORY PROCESS FOR OBTAINING WITNESSES IN HIS FAVOR, AND TO HAVE THE ASSISTANCE OF COUNSEL FOR HIS DEFENSE."—Article VI of the first ten amendments to the Constitution of the United States, submitted by the first Congress of the United States and ratified by the States.

"Excessive bail shall not be required, nor excessive fines imposed, NOR CRUEL AND UNUSUAL PUNISHMENTS INFLICTED."—Article VIII of the first ten amendments to the Constitution of the United States.

These are fundamental principles of our government, as expressed in the Constitution, and they are fundamental principles of the Democratic party.

The principles and practices of the Ku Klux Klan are in violation of these provisions of the Constitution of the United States.

It has set up a religious and racial test for office, by decreeing that only members of the Klan shall hold office and that only native born, Gentile, Protestants shall qualify as members.

It has presumed to try men for various offenses and on various pretexts in SECRET, thus denying a PUBLIC trial.

It has tried such accused without an IMPARTIAL JURY, and without CONFRONTING THE ACCUSED WITH THE WITNESSES AGAINST HIM, but confronting him only with masked and hooded men.

It has denied such accused the benefit of COMPULSORY PROCESS FOR OBTAINING WITNESSES IN HIS FAVOR, and without giving him THE ASSISTANCE OF COUNSEL FOR HIS DEFENSE.

IT HAS INFLICTED CRUEL AND UNUSUAL PUNISHMENTS.

All of this is in plain violation of the Constitution of the United States and the very fundamentals of our Government and of the Democratic party.

Members of an organization adhering to such a program and indulging in such practices are obviously opposed to the Constitution of the United States and therefore are enemies of the Constitution of the United States.

Members of such an organization

cannot be said to be Democrats, for all of this is alien to the very spirit of the Democratic party.

Good Democrats have no choice but to defend their party principles and the principles of the Constitution against the conspiracy of this organization to elect one of its members to the high office of United States Senator through the machinery of the Democratic party.

There is no higher pledge binding any American than the pledge to defend the Constitution and the principles of our Government against all who would destroy them.

No man who adheres to such an organization and accepts the support of such an organization is eligible to be a Democratic candidate, for he is first opposed to the principles of the Democratic party.

No man who adheres to such an organization and accepts its support is eligible to hold the office of United States Senator, for he cannot take the oath of office without reservation and evasion.

That oath reads as follows:

"I, John Doe, do solemnly swear (or affirm) that I will SUPPORT AND DEFEND THE CONSTITUTION OF THE UNITED STATES AGAINST ALL ENEMIES, FOREIGN AND DOMESTIC, that I will bear faith and allegiance to the same; that I take this obligation freely, WITHOUT ANY MENTAL RESERVATION OR PURPOSE OF EVASION, and that I will well and faithfully discharge the duties of the office on which I am about to enter. SO HELP ME GOD."

The Ku Klux candidate cannot take that oath without reservation or evasion. He is not qualified, therefore, under the Constitution, to hold the office of United States Senator.

George Peddy has come forward as the defender of the Constitution and the champion of Democratic principles in this crisis.

"My platform," he declares, "is the Bill of Rights, the Declaration of Independence and the Constitution of the United States."

He proposes to rescue the Democratic party from the alien organization which has captured it and it is the duty of all good Democrats to assist him.

No Democrat took a pledge in the primary to assist in turning the party over to an organization which is against the most fundamental principles of the party.

On the contrary all true Democrats are bound to defend the principles of the party and to uphold the Constitution of the United States.

A vote for George Peddy is a vote in support of the principles of the Democratic party, of the Bill of Rights, the Declaration of Independence and the Constitution of the United States.

Thomas Jefferson said:

"Equal and exact justice to all men, of whatever state or persuasion, RELIGIOUS or political. * * * Freedom of religion, freedom of press, and freedom of the person under the protection of the habeas corpus, and trial by juries impartially selected. These principles form the bright constellation which has gone before us and guided our steps through an age of revolution and reformation. THE WISDOM OF OUR SAGES AND THE BLOOD OF OUR HEROES HAVE BEEN DEVOTED TO THEIR ATTAINMENT. THEY SHOULD BE THE CREED OF OUR POLITICAL FAITH, the text of civic instruction, THE TOUCHSTONE BY WHICH TO TRY THE SERVICES OF THOSE WE TRUST; and should be a standard from which no departure of error or of alarm, LET US HASTEN TO RETRACE OUR STEPS AND TO REGAIN THE ROAD WHICH ALONE LEADS TO PEACE, LIBERTY, AND SAFETY."—(From the first inaugural address of Thomas Jefferson as President of the United States.)

A Man of Ability and Character

GEORGE PEDDY has all the qualifications to make a great United States Senator.

He is a man of outstanding ability and sterling character.

His life, in public and private, has been clean.

He is fearless, honest and unshackled.

He is a stalwart advocate of the fundamentals of the Democratic party.

He was a leading advocate of woman suffrage in the Legislature when that reform needed friends.

He has been an outspoken advocate of prohibition, both State and National, ever since he was able to think.

He was a leading advocate of education in the Legislature, believing that it should be extended to every class and every section of the State.

In line with this he advocated and voted for the establishment of an Agricultural and Mechanical College in West Texas.

He is abreast of the times on all national and international questions.

He believes that the products of Texas should be given equal consideration with the products of the big manufacturers of the East in any tariff bill that may be enacted at any time. The Ku Klux candidate is an advocate of the ruinous policy of free raw materials and should be elected and have his way, the livestock producers, the wool producers, and the farmers who produce cotton seed, peanuts and similar products would suffer. This is an added reason why the Ku Klux candidate should be defeated and George Peddy elected.

However, he is making this race primarily to rescue the Democratic party from an alien organization which has seized its machinery and to prevent that organization from sending one of its members to the United States Senate in the guise of a Democrat.

Party Pledge Has Been Invalidated

No Democrat who voted in the Senatorial primaries need feel that the party pledge is being violated in casting a vote for George Peddy for United States Senator.

THE PARTY PLEDGE WAS INVALIDATED IN THE PRIMARY ITSELF AND IS NOT BINDING FOR THE FOLLOWING REASONS:

1. Because a fraud was committed against the voters when a secret oath-bound organization entered the primary and voted in a solid mass—more than 100,000 strong, for one of the candidates as a member of that organization. They voted, not as Democrats, but as members of that secret organization. They voted for the candidate, not as a Democrat, but because he was a member of that secret organization. The primary for the Democratic party in fact, and every real Democrat was released from his or her pledge.

2. Because the secret oath-bound organization which has obtained control of the party machinery adheres to a program which denies the most fundamental principles of the Democratic party as enunciated by Thomas Jefferson and expressed in the party's platforms from the beginning. Men who adhere to such a program are not Democrats and can not be Democrats, and any party controlled by such men and by such an organization can not be a Democratic party. To support such a party is to oppose the principles of the Democratic party. This not only releases the voter from the party pledge, but makes it the duty of all real Democrats to vote against the Senatorial candidate named by this secret organization.

3. Because the convention at San Antonio, purporting to be a Democratic convention, refused to reaffirm the party's allegiance to the principles of the Bill of Rights, the principles of the Constitution and of the Declaration of Independence. This was a repudiation of the principles of the Democratic party and released all Democratic voters from the party pledge.

The Citizen's Highest Duty

*4. Because no party pledge should come before the citizen's duty to support the Constitution of his country and to protect the principles of the Constitution against its enemies no matter what name they masquerade under. Even if the pledge had not been invalidated, honorable men and women would be called upon to put patriotism above party and to vote to defeat this un-Democratic and un-American movement in its effort to control the Government. If the Republicans of Texas can place patriotism above party and vote for a life-long Democrat like George Peddy, surely Democrats can vote for such a Democrat in the interest of their country and the principles of their party.

Even if the Ku Klux Klan was not the kind of organization it is, the fact that it entered the Democratic primary as an organization and voted as an organization for one of its members would invalidate the pledge.

The Republicans of Iowa and North Dakota are disregarding their primary party pledge this year and will help elect a Democratic Senator for a similar reason.

In Iowa a State organization of Republicans, composed of men who voted in the Republican primary, was launched at a meeting recently held at Des Moines at which 200 delegates were present, and will work for the election of the Democratic candidate for United States Senator. The Democratic candidate will be elected for this reason. The sole cause of this action was that the Non-Partisan League entered the Republican primary as an organization and nominated one of its own members for United States Senator on the Republican ticket.

In North Dakota the regular Republican organization, including the State Republican Committee and the Republican National Committeeman, is supporting the Democratic candidate for United States Senator and will elect him. The reason for this in North Dakota is the same as that in Iowa. The Non-Partisan League entered the Republican primary as an organization and nominated one of its members as Republican candidate for United States Senator.

In each of these States the Republicans regard the primary pledge as invalid because an alien organization voted in a solid mass for one of its members. Two Democratic candidates for the United States Senate will be elected because of this.

Texas Pledge Doubly Invalid

If that is true in Iowa and North Dakota, how much more true is it in Texas where the organization is one of secret membership, pledged by oath not to disclose their membership? In these other States the organization which has seized the Republican party is at least composed of members known to all men. They seized the Republican party openly. But in Texas the Democratic party was seized by secret methods and with no foreknowledge on the part of the rank and file of the voters. If the pledge in the Republican primaries of Iowa and North Dakota has been invalidated, then the pledge in the Democratic primary for Senator in Texas is doubly invalid.

George Peddy is attempting to rescue the Democratic party from this un-Democratic and un-American organization. He is calling upon Democrats to uphold the principles of the party. The Democratic party in Texas is in danger of being branded before the world as the party of Ku Kluxism. George Peddy seeks to save it from that stigma and thus save the party in the United States as a whole. If Ku Klux control of the Democratic party is permitted to succeed it will mean the death-knell of the influence of the Democratic party in national affairs.

As upholders of the Constitution of the United States, and in the interest of the Democratic party itself, it is the duty of real Democrats in Texas to ignore the invalidated party pledge and vote against the Ku Klux candidate.

SHOULD NATIONS PAY THEIR DEBTS

The United States is among the countries of the world flooded with German marks that were bought on the optimistic speculative theory that Germany would redeem its shimplaster currency. In old Austria visitors have to carry along a "trailer" in order to transport enough of the native currency to pay their hotel bills and other expenses. Czechoslovakia may be a hard word to spell, but it is one of the very few European nations that maintains its currency at par.

The rates of foreign exchange, always bad in Europe, are at the present time all shot to pieces. In the language of the United States high discounts in the rate of exchanging money represents low financial morale in the country that shaves its own paper. An individual or a corporation that would insist on deducting twenty, thirty, or even ninety cents from every account when presented for payment would be called a dead-beat, or handed some similar epithet. But we are told to be more charitable in discussing the fact that the government of the United States has borrowed eleven billions of dollars from the people of our country and turned it over to the Europeans. Who that has endorsed notes promiscuously for friends has not cursed his ill-luck for just such reasons?

Debts Relieve the Peace Doves
Senators McKinley of Illinois, Spencer of Missouri, and Harris of Georgia, have recently returned from Europe, and they advocate voiding the war debts on account of the prevailing "economic distress." The question is not a party matter, as is shown by the fact that republicans and democrats are equally divided in their opinions. These senators have simply concluded that the debts are uncollectable, and they are ready to splash red ink all over the credit side of Uncle Sam's ledger.

Theodore Burton, former senator and now representative in Congress from Ohio, thinks differently. He has just returned from Europe, where he went as a member of the Allied Debt Commission. He has made a personal report to President Harding, and in a public statement he takes the high ground that the cancellation of national debts "would throw doubt on national credit." Mr. Burton may be a little late with his "doubts," but he is timely in observing that "if these debts were cancelled it would lead to an expansion of the military and naval establishments of other countries, and thereby bring a threat of war and all the waste it entails." Evidently Mr. Burton finds Europe still itching for a fight, and the belief is rather general that a flock of European countries are in deep mourning because of the blessings of poverty that have enabled them from participating in the scrap that has been entertaining the Greeks and the Turks.

Foreign securities to the amount of three and a quarter billions of dollars have been sold in the United States since 1919, and four billion dollars more has been contributed outright by Americans to relieve European distress during the past three years.

The United States is in nowhere near as big a hurry to collect its debts as the borrowers were to get the money; and it is more than probable that European charity like the soul of John Brown will keep "marching on." Chairman Madden of the House appropriations committee sees virtue in the European debts, and agrees substantially with Senator Burton. "If we held out hope that these debts would be cancelled," says Mr. Madden, "they would be encouraged to go on spending for war machinery. * * * We do not want to encourage any such mistake."
