TEXAS UNIT OF LEE HIGHWAY ASS'N ORGANIZED

H. Coffey of Vernon Elected
As Chairman, George Self
of Paducah As Secretary at
Paducah Meeting

The road meeting at Paducah Tuesday morning in the interest of the Lee Highway was represented by practically all the counties in West Texas through which the lower route of the road is proposed.

The convention was opened with prayer by Rev. Riddle of the Baptist Church of Paducah, after which the welcome address was delivered by Mayor J. M. Whatley of Paducah, who spoke of the Lee Highway as a fitting tribute to Gen. Robt. E. Lee, the great Southern chieftain in whose honor the highway is named.

The response was delivered by Judge Ward of Matador, who prefaced his remarks with a few humorous paragraphs, one of which was his comparison of the Ozark Trail, the competitive road of the F. F. F., with our highway as a bridge trail through a chincapin patch compared with a paved highway. He said Childress County had enough sand to build the Sahara Desert and that the people had enough in their crops to build on. In the course of his remarks he paid a fitting tribute to R. H. Coffey of Vernon for his untiring work in connection with activities now going forward looking to the designation of the Lee Highway through this section.

Following the response of Judge Ward a speech was made by Rev. Dan Kelly of Mississippi, an evangelist who is now conducting a series of revivals in Paducah. He made some very appropriate remarks as to the necessity of co-operation in a project so gigantic as the building of the Lee Highway, and emphasized the fact that it would cost something. He said that he had never seen a man who did not want good roads, but that some can always be found who do not want to help pay for them.

He interspersed his remarks with a humorous portrayal of the character of the man who is always 'agin' things. The thought was that good roads cost money and that it is the people who are willing to put up the money and work that will get good highways. He cited California which has once a desert and which by means of the best highways in the United States and its irrigation systems has become like a spring rose. Good roads will have the same effect on Texas. He also made the assertion that in his judgment, if Texas does not make it possible for the Lee Highway to build through the state, it will receive a setback that will throw the state 25 years behind the other states of the Nation.

Officers of Texas Unit Elected
At the close of Rev. Kelly's remarks the body went into a business session, permanent officers first being elected as follows: R. H. Coffey of Vernon as chairman of the Texas unit of the Lee Highway and George Self of Paducah as secretary.

Mr. Coffey made some remarks of interest and profit to the body as to what must be done to get the Lee Highway designated through this section of the Panhandle. One of these was that right-of-ways must be straightened as near as practicable before federal aid could be expected. Good humoredly he gave Cottle County a tilt for having run its road near to Childress as it could. Cottle County people took the remarks of Mr. Coffey in the spirit in which they were made and promised to get straightened a right-of-way that would run straight out the F. F. F. All the other counties agreed to do the same thing.

Reports were made by the representatives from the various counties to the memberships in the Lee Highway Association, all of which were a creditable showing. Some of the counties had not completed their membership drive, but had had splendid success so far as they had gone, which fact showed general interest in the proposition. The value of a great highway, such as the Lee Highway, a transcontinental thoroughfare, can not be over-estimated. We can get only a dim conception of the traffic there would be over such a road. Even over the Colorado the traffic has become immense. Mr. Coffey stated that more than 100 automobiles camped in Vernon camp ground one night

"PREPAREDNESS" IS SUBJECT OF SERMON

A good sized congregation was present at the Methodist church Sunday morning to hear the pastor preach on the subject as announced, which was "Preparedness." It was an occasion, said the pastor, of more than ordinary interest to him because of the fact that all his children were present at the services.

The speaker called attention to the fact that we prepare against things that are going to come to pass, things that are inevitable, some of which we had rather not be compelled to face. We grow our crops in time of growing seasons against the day when nature is in the grip of winter when nothing can be grown from the earth. Distress and suffering would follow if preparation were not made. The wise man will prepare himself against the drouth or the flood so that he may pass through these and extend protection to those dependent upon him. We prepared for the great war into which we were drawn, when it became evident that there was no way to avoid it. Going into it without having made preparation would have meant national ruin. But the new thought in the matter of preparedness was that we do not prepare for peace. To this unpreparedness the speaker attributed the wave of crime which has swept the nation since the close of the war. We soon forgot that our victory had come after the nation had been on its knees in prayer, and when the armistice was signed we soon began to take too much of the praise to ourselves. We were not prepared for the peace that we had longed for.

The speaker called attention to the work of John the Baptist, the forerunner of Christ, in his mission of calling the people to prepare for the coming of the kingdom, the significance of which meant peace and good will to all men. That the people were not ready for that coming and it was necessary that they prepare.

The application of the message to present day life was made in the great strides being taken now by the leading Christian denominations in the matter of Christian education. Examples were pointed out in that of the Centenary movement of the Methodist church and the \$75,000,000 campaign of the Baptist church, as well as the great movements launched by the other denominations along the same lines. All this meant preparation for the most wonderful religious achievements in the history of the world, and that this period of time is about to be ushered in. Opportunities are offering themselves now and will be increased in abundance for an enlarged life of service to the world.

ATTENDED HIGHWAY MEETING
If the News makes no mistake there were 18 delegates at the Paducah road meeting Tuesday from Foard County, about the strongest representation of any of the counties interested in the Lee Highway. This does not include the families of some who attended. Those who went from Crowell were H. E. Ferguson and family, W. R. Womack and family, H. L. Kimsy and family and the following individuals: R. P. Womack, G. D. Self, C. T. Schlagal, J. G. Wither-spoon, E. Swaim, J. W. Beverly, Prof. R. C. Campbell, C. D. Stephenson, L. A. Beverly, Bert Self, Jesse Owens, Thalia—J. F. Long, J. A. Abston, G. F. Neill, J. R. Coffman.

Young Couple Married

The marriage of Mr. W. Baxter Johnson to Miss Wynnona Campbell was solemnized at the home of the bride's parents, Prof. and Mrs. R. C. Campbell, of this city Tuesday. The young couple left shortly after their marriage for an automobile trip to Colorado.

last week. A constant stream of tourists are said to be going over that road, and yet it is reported to be the worst road in the country. The traffic is the result of advertisement. John Boswell, publicity man for the F. F. F. at Plainview, stated that traffic over this highway is now ten times what it was a year ago and that he expected it to be ten times as much next year as now. All it needs is publicity. There is no question but what we have the best road in West Texas today, and as that fact becomes known and also that it is one of the near routes to the mountains of Colorado, it will eventually get the traffic. If we succeed in getting the Lee Highway we will be on one of the first and foremost streets of America.

STORE AND DEPOT ROBBED AT ODELL

Between 1 and 2 O'clock Monday
Morning Drug Store Broken
Into and Depot Safe Blown

First hand information reached the News Monday by one who had spent Sunday night at Odell that early Monday morning between one and two o'clock there had been a burglary at that little town. The robbers had first broken into a garage and procured some tools with which to work. They had broken into the Bob Belsher Drug Store and robbed it of \$85.00 in cash and one six shooter. This was the heaviest loss any single establishment had suffered. The safe at the depot was blown and between \$40 and \$60 was taken, according to statements made by the depot agent. However, he had not checked up at the time this information was given. The postoffice was entered but nothing of value seems to have been taken. In their efforts to break into the bank they had entered the building and blown the combination off the door of the vault but did not get in it.

It is supposed that the burglars became frightened and left before they succeeded in making a good clean-up as doubtless they had intended.

Early Monday morning officers were working on the case but had not gotten any trace of the criminals.

There seem to be a band of burglars operating in that section of the country. Only recently there was a burglary at Harrold, but that one was less successful than the one at Odell. It is possible that it is the work of non-professionals.

Daily Press Report

Since the News set the above the following report is taken from the Star-Telegram of Monday, which adds that the postoffice was robbed. This had evidently not been discovered when our informant left Odell Monday. The item as taken from the Telegram follows:

Odell, Aug. 14.—Thieves last night robbed S. W. Gable's garage, the Kansas City, Mexico and Orient depot, the postoffice, R. J. Belcher's drug store and broke the combination on the vault of the Bank of Odell.

The robbers secured the tools at the Gable Garage and from there went to the depot. The postoffice was next, the bank next and the last place was the drug store, where they left the tools.

The postoffice is probably the largest loser. It is estimated that close to \$1,000 was secured there, \$750 in war savings stamps and a sum of money, stamps, etc. R. J. Belcher's drug store lost around \$100, the depot around \$50. The bank has not yet checked its loss.

It is reported that two large cars were seen in town around midnight. Sheriff Ish was notified and Deputy C. W. Pollard is here working on the case.

NEARLY THROUGH PICKING COTTON

That would sound funny if it were in Foard County. Nobody has a bale in sight, so far as the News knows. But there is a place in Texas where cotton picking is over. That place is at Harlingen. The News goes each week to W. E. Simmons of that city and when his year's time has about expired he sends in his renewal and usually adds a few lines of interest. Mr. Simmons once resided in Foard County but has been in the great valley country for several years. Speaking of the crops he says:

"We are almost through picking cotton here and have made a good crop. We have not gathered any corn yet, but it is pretty good. There were as many as 400 wagons on the gin lots at one time for days and lots of gins were running day and night. This week will find most of the cotton out and in a week or ten days we will be ready for our fall truck crops."

WILL MOVE TO ABILENE

J. E. Bell and family will move to Abilene on account of the opportunities offered by that city in an educational way. Miss Mabel graduated from the Crowell schools last year and will enter Freshman at Simmons this fall. She will be required to stand examination on one branch of study, that of the history of American Literature, Mr. Tate informs us. Mr. Bell has already secured a place in Abilene for his family.

COMPLETING DATA FOR NEW RAILROAD

Dow W. Tate Now Calling on
Farmers for Tonnage Infor-
mation. Essential Data

Since it looked like all the questionnaires sent out to the farmers for answer as to their tonnage would not likely be answered, it became evident that a house-to-house canvass would be necessary, so with that belief in mind the services of Prof. Dow W. Tate has been procured for this purpose. He is out over the county this week, being piloted by B. J. Glover, Jr., and within the next four or five days should have all this data complete.

Mr. Powell, the promoter of the proposed road, is very insistent on this being accomplished, it is absolutely necessary. Some 500 farmers will have filled out these blanks when the list is completed within the next few days. Besides the fact that it is necessary to the purpose of Mr. Powell in his promotion work, it will be a compilation of data that can be made use of in matters of publicity at home.

Twenty-Four Years Ago

A. Y. Beverly was kind enough to call the attention of the News to the fact that he had in his possession a copy of the Foard County News published 24 years ago. It was addressed to J. P. Carmack and is one which his father, J. W. Beverly, had kept all these years and A. Y. wanted it to put up in the show window of M. S. Henry & Co. We ask him to allow us to use some items from this issue, which he readily consented to do. The copy of the paper is dated October 7, 1898, and was edited by Albert Barkley. Following are some of the local news items:

Mr. John Terrell of Vivian was in town Wednesday with cotton.

Mr. Jim Self of Thalia was in town Wednesday with cotton.

John Bell who is attending school at Quanah came home Saturday and returned Sunday evening.

Dr. Grace, Mark Hill and Chas. Thompson left Monday morning for Waco where they will attend the Baptist State Convention.

Mr. J. W. Cheek is moving in his new home in Crowell this week.

Mr. J. C. Thompson was in the News office Wednesday. He says his school will commence about the first of November.

John W. Klepper, the efficient constable of Precinct No. 1, made a trip to Thalia on official business this week.

Mr. J. L. Comper left Wednesday for Waco to attend the Baptist State Convention.

Mr. George Burk is rustling among the voters this week.

Selling Farm Products

J. A. White was in town Monday and one item of business Mr. White had to attend to was that of renewing his paper. Incidentally he said he had to sell some lard in order to get the money with which to renew his paper. That offered us an opportunity to re-emphasize the fact that it is good business for every farmer to have something to sell all the time. Mr. White brought 55 lbs. of lard to town and sold it for \$7.70. He left two bucks with the News and also the price of the Dallas Semi-Weekly and then had more than \$5.00 left. He has some more lard at home, 160 lbs. Speaking of the poultry revenues, Mr. White stated that his wife sold \$120 worth of chickens and eggs last year, but would not sell so much this year because she had not had quite such good success as last.

That is the secret of the farmer's success. Always have something to sell.

Picnic at City Lake

Honoring her niece, Miss Alice Allen of Hearne, Mrs. S. J. Ferguson delightfully entertained a party of young people at the lake on last Friday evening. After enjoying an invigorating plunge in the lake, Mrs. Ferguson, assisted by Mmes. S. J. and C. R. Ferguson, served a dainty and delectable picnic supper to the following:

Misses Mabel Pittillo, Alice Allen, Winnie Self, Litha Crews, Jennie Belle Ray, Lilas Campbell, Maude Ferguson, Martha Louise Jay, Glen Shults, George Self, Thon as Hughston, Joe Ray, Baxter Johnson and Gordon Grubble.

All Over Texas

Wellington is having to dig for additional water.

The papers report a small tornado in the Abilene and Merkel country last week. Two men were hurt and considerable damage done to property.

The postoffice, a garage and grocery store at Harrold were recently robbed by burglars and between \$50 and \$75 in cash and goods taken.

Joe Bailey says, "Mayfield would turn the state over to the Ku Klux Klan, Ferguson would turn it over to the labor unions. I want to return it to the Democratic party."

Tom Green County cut the tax valuations on the Orient from \$8,000 per mile to \$100. Under the old renditions the tax on the road in Tom Green amounted to \$270,000.

Vernon capitalists will build an ice plant at Paducah. In connection with the ice plant they will also put in bottling works. The enterprise will involve an investment of between \$30,000 and \$40,000.

Crops in Scurry County are reported to be holding up well under the continued dry weather. According to the Snyder Signal cotton is estimated at a quarter of a bale to the acre without any more rain.

Over two and a half inches of rain is reported to have fallen in Swisher County Saturday afternoon. The rain is said to have interfered with the attendance of delegates west of Thalia to the railroad meeting at that place Saturday night.

According to the Vernon Times a right-of-way for the Lee Highway has been secured from Lawton to Red River near Vernon, the land owners having donated the land. Frederick, Davidson and Vernon are going after the new highway in good fashion.

Houston Upton, tried in the district court at Clarendon for the murder of Gladys Solomon Feb. 12, was given 99 years by the jury. The verdict will be appealed, say his attorneys. Another murder charge was pending against Upton. The case was fought on the insanity plea.

Charged with Kidnapping, Burglary and Conspiracy

Joe Mason of Wichita Falls was taken over by authorities in El Paso Thursday of last week on a charge of kidnapping, burglary and conspiracy, and was held until he could be turned over to the authorities of Foard County, where the charge is made. Silas Moore was deputized to bring Mason to Crowell and they arrived the first of the week. Mason was released on a \$700 bond Tuesday.

Following Mason's apprehension was that of Mrs. Nona Bell and Zeke Bell at Yuma, Arizona, while en route from Crowell to California. According to statements made by Mason, he himself had driven Mr. Bell and Mrs. Nona Bell to El Paso where they took a Southern Pacific train to California.

Messages were received by relatives of the two here that they were being held at Yuma. Mrs. J. H. Olds, the mother of Mrs. Bell, also T. N. Bell and Sheriff Campbell, accompanied by his daughter for the pleasure of the trip, left for Yuma Thursday. They all returned to Crowell Wednesday except Zeke and T. N. Bell. Zeke, it is said, will face federal charges at Phoenix, Ariz.

MAKING PHOTOGRAPHS OF F. F. F. HIGHWAY

For advertising purposes pictures of scenes and towns along the F. F. F. Highway are now being made. Clifton Hill and Arthur Parker were here from Paducah Wednesday getting some scenes along the road that winds through the breaks west of Crowell. They were accompanied by Mrs. Hill and Miss Nettie Rutledge.

Mrs. J. R. Graham of Seymour, Mr. and Mrs. G. C. Murrell of Dallas, Lyle Murrell and son, Tracy, of Dallas, Mr. and Mrs. G. C. Boswell and small daughter, Helen, of Byers, J. Roy Murrell, wife and small daughter, May Ellen, and Richard Murrell of Pine Bluff, Ark., spent last week-end with their parents, Rev. and Mrs. W. M. Murrell.

Mr. Bowers, the thrasher man from Roys City, returned home this week. He was accompanied by his daughter, Mrs. Deb Owens, and husband.

DELEGATES FROM CROWELL ATTEND TULIA R.R. MEETING

Report an Enthusiastic Meeting;
Delegates Present from All
Towns East But Rain West
Interfered

At a meeting of the Chamber of Commerce last Friday afternoon the matter of sending delegates to Thalia to be present at a railroad meeting was taken up, but the fact that Saturday is always a very busy day with the business men of Crowell made it a little uncertain as to whether Crowell would be represented. When Saturday morning came the proposition was given more serious consideration and some of the folks determined that Crowell should not be without representatives, so County Agent Fred Rennels, Commercial Secretary Geo. Self, R. R. Magee and Marion Hughston went and were at the meeting Saturday night. They report a very enthusiastic meeting and came back with the full belief that it would be to Foard County's interest to co-operate in the movement to put this proposed road through Crowell.

Plans for putting this road through from Tucumcari to Fort Worth were outlined by Col. C. H. Powell, the Chicago promoter, and resolutions endorsing Mr. Powell's plans were passed and support of the proposition in every way possible was pledged Mr. Powell. About 300 delegates were at the meeting.

A report of the meeting as given by the Amarillo Daily News says:

"The road can ascend the cap rock at a grade of one and one-fourth degrees. Col. Powell told the meeting, the proposed route to make the cap rock grade about 12 miles east and south of Silverton. The proposed route east of Thalia touches Quitaque, Turkey, Paducah, Crowell and into Seymour and to Fort Worth, while to the west it includes Nazereth, Farwell, Grady, N. M., and Tucumcari.

"Engineers have made a complete survey, Colonel Powell said. His proposed plan of financing the project was explained and met with the approval of the delegates in attendance.

"Ex-Mayor of Thalia, H. M. Tracy, presided over the meeting which was held in the district court room. Talks were made by George Self of Crowell, H. M. Wilkins of Paducah, John Burson of Silverton and others."

HEAR REPORT ON HIGHWAY PROGRESS

R. D. L. Killough, J. C. Hickernell, R. H. Coffey and E. C. Christian composed a delegation of Vernon citizens who attended a meeting of the recently organized Lawton-to-Vernon Lee Highway Association held at Frederick last night.

The purpose of the meeting was to receive reports from various committees previously appointed for the purpose of securing membership in the Lee Highway Association, right-of-ways for the route and other details in connection with the association's work preparatory to an effort which will be made at the convention next fall to swing the highway over the so-called southern route.

Enthusiasm over the new project continues to hold sway. Among the interesting and noteworthy developments at the meeting last night was the report that the Oklahoma people have practically succeeded in getting the road from Lawton to Davidson designated as a state highway. Another evidence of effective work was the report to the effect that fifty members were secured at Davidson within thirty minutes.—Vernon Record.

A Gospel meeting, conducted by the Church of Christ is in progress at the Christian Church, having started last Sunday. I. L. Sanders of Wellington, now engaged in evangelistic work, is doing the preaching. Two services are being held each day, one at 10 A. M. and the other at 8:15 P. M. The meeting will continue over Sunday at least. Those who have heard the evangelist speak of him as a strong Gospel preacher.

R. B. Clifton was here yesterday and today, returning to Vernon this morning. Mr. Clifton is leaving Tanner Billington in charge of the studio here for the present but expects to be here himself from time to time looking after his interests in that connection.

IT'S YOUR SEEING—NOT OUR SAYING THAT COUNTS

Come in and look over our new FALL and WINTER lines. It takes about 15 minutes to order, and be measured for a tailor-made suit or overcoat, here at our store. Fifteen minutes from the time of your coming to your going. Every minute a minute of painstaking, efficient service.

The fit is exact—IT HAS TO BE—for it is tailored to 17 of your body dimensions. Made to your measure with a great wholesaler's wealth of fabrics and fashions for you to choose from.

OUR NEW LINES ARE NOW HERE

The Magee Toggery

You Are the Judge

It is to be doubted if anybody can offer any particular commodity of trade that has not somewhere an equal. It does not stand to reason that there is not something somewhere just as good as that which the other fellow says is the best in the world. The working skill of the world is not monopolized by a single outfit—it is pretty well scattered and there is somebody just over the hill making and putting on the market that which competes in merit and price with the best that somebody else thinks has a corner on the trade.

We claim just that much for
SEAL BRAND FLOUR

Somebody else may have a flour as good, but you will have to go a mighty long distance before you find it better. Why go to that trouble? Our efforts have been expended in procuring a flour that we are sure will give you as good satisfaction as that handled by any other firm, and it is backed by an absolute guarantee that makes what we claim for it. You must be the judge when you have tried it.

THE PURITAN--THE WICK STOVE WITH THE SHORT BURNER

Made and guaranteed by the maker.
THE CLEVELAND METAL PRODUCTS COMPANY.

It is a well known fact that all short burner wick stoves cook well when new, but everyone knows also that they nearly always give trouble sooner or later, because the thin metal inside the flue or chimney is so fine and delicate that after getting red hot a few times the metal will swell, wicks will hang, the stove will smoke.

THE PURITAN is the only Short-burner wick oil stove made that is fully guaranteed against mantel warping or swelling. If such should happen the purchaser will be supplied with new mantels free of cost for five years.

PURITAN
Oil Cook Stoves

THERE'S no fire to build, no dirt to clean up, no ashes to carry out when you cook with a Puritan Oil Cook Stove. There is always a clean, hot flame whether you set it low, medium or high.

The cone-top Inner Combustion Tube in the Puritan Stove is guaranteed not to burn out for five years. That's one assurance of long life and efficient service. Come in and see it.

5-Year Guarantee

The price is same as the other New Perfection 4-burner stoves, \$45.15 complete. The PURITAN is made by the same company as The NEW PERFECTION stoves. The finest new Perfection stove now is the NEW PERFECTION SUPERFEX—\$71.40 complete.

We want our customers and patrons to know that we are in the stove business, and that we handle the finest makes of stoves on the market. See us before you buy.

W. R. WOMACK
FURNITURE AND UNDERTAKER

sell, Okla., spent last Friday with Mrs. Hukill's aunt, Mrs. J. B. R. Fox. They were accompanied by their brother-in-law, Rev. Tom Herlston, of Childress.

A nice purse was collected for Uncle John Lacey by his neighbors and friends and he left Monday evening for the Baptist sanitarium at Dallas. He was accompanied by Rev. McCrory of Margaret.

Leonard Harriston and Mr. Coker and son of Hermliegh, Scurry County, Mrs. C. C. McGuire and children and Mrs. R. B. Bacus and children all of Ft. Worth visited their parents, Mr. and Mrs. Harriston, last week.

D. M. Shultz, C. T. Shultz, Mr. and Mrs. Ray Pyle, Mr. and Mrs. C. D. Haney, G. A. Shultz and family, and Miss Velma Haney composed a fishing party on the Wichita river Friday and Saturday of last week.

Services at Christian Church
Next Sunday, August 20th

Communion and sermon, 11 A. M. Sermon subject, "Jesus, the Way, the Truth and the Life."

No service by us at the evening hour on account of the meeting. Bro. Sanders will preach in the afternoon and evening.

J. FRANK MONTGOMERY,
Minister.

IRRIGATION PROJECT
VERY PROMISING

Wichita Falls, Aug. 13.—The Brazos river could easily be dammed above Seymour and made to impound sufficient water to irrigate 100,000 acres of land, which with the 100,000 to be irrigated by the Wichita irrigation project, would bring the total irrigable land in this immediate section to 200,000, according to R. A. Thompson, chief of the irrigation project here, and recently appointed a member of the advisory board of the Texas reclamation and irrigation project undertaken by the governor and the West Texas Chamber of Commerce.

Mr. Thompson figures that the damming of the Brazos river near Seymour would assist greatly in preventing flood damage on the lower stretches of the stream, while at the same time it would impound a vast body of water which would always be

available for crops on 100,000 acres of fertile lands. He says the lake would be filled many times every year, if necessary.

Mr. Thompson, who has been actively identified with irrigating projects over West Texas for many years, is very optimistic over the prospects for the state as a whole to get together on a scheme which will be mutually beneficial to the flood stricken sections of Central and South Texas and to the drouth sections of West Texas.

CROWELL TEX.

THALIA ITEMS
(By Special Correspondent)

Mrs. Mole Haney has been sick for several days.

Mr. and Mrs. Erwin of Crowell were here Sunday to attend church.

Miss Laura Fleming of Tahoka is here visiting her many friends.

Mrs. Grover Phillips spent the past week in Crowell visiting her sister, Mrs. Nash.

Mrs. Fred Rennels and son of Crowell have been here several days visiting relatives.

Sam Scales of Crowell was here one day the past week in the interest of his campaign.

Harley Capps and wife of Crowell have been visiting their parents here several days.

Mrs. Bud Moore and son, Roy, also her daughter, Mrs. Gladys Phillips, of

Margaret spent Sunday here.

John Shirley and family and Mr. and Mrs. Clyde Cobb of Crowell were here Sunday night to attend the meeting.

Jim Cates and wife of the Catesville community were here for church services Sunday and remained all day.

Miss Cooper of Tipton, Okla., and Miss Annie Tole of near Vernon are the guests of Miss Bessie Tole this week.

Mr. and Mrs. Bert Bell, Mrs. Burrow and Mrs. Peacock of Gambleville have been attending the meeting this week.

Emmet Haggard and family and Miss Bishop of Plano visited in the home of his aunt, Mrs. Luke Johnson, the first of the week.

Garland Thompson returned from Altus, Okla., last Thursday. He was accompanied by his cousin, Leroy Johnson, who will spend a week with him.

Miss Pauline Pigg who has been attending the summer normal at Canyon City returned home last week. She will teach in the Ayersville school the coming term.

There was a meeting Monday in the interest of the Lee Highway held here. Several Crowell visitors attended. Tuesday Messrs. G. A. Neill, Frank Long, Dick Coffman and J. A. Abston went to Paducah in the interest of the same proposition.

Mr. and Mrs. J. G. Thompson and daughter, Leona, and Lat Johnson returned Tuesday from their trip to the Plains country and New Mexico. The men went on to Hot Springs, N. M., and took baths at the great health resort and both feel very much improved. Mrs. Thompson and Leona remained with her brother, L. C. John-

son, near Tahoka until the rest of the party returned.

There was quite a crowd here Sunday attending the Christian meeting. Dinner was spread at the tabernacle and three sermons delivered. Baptizing in the afternoon. Several Vernon visitors were present among them we got the following names: Ben Henderson and family, Reid Smith and family, Mr. Orr and family, Mr. Anderson and family, Mr. and Mrs. Teddlie, Mrs. Foy Wallace and children.

ORIENT RAILWAY
MAY SUSPEND OPERATIONS ANY DAY

Wichita, Kan., Aug. 13.—Warnings that the Kansas City, Mexico and Orient railway may be compelled to suspend train service without further notice because of the attitude of employees who sympathize with the striking shopmen were sent to patrons of the road by the management today.

The bulletin, which will be sent to the Governors of the three States in which the road operates, as well as to the heads of the respective railroad commissions, advises those who depend exclusively on the Orient for transportation, to lay in ample supplies of necessities immediately. All shipments over the road now are being accepted only at the owners' risk and subject to delays caused by strikers and their sympathizers. The bulletin is signed by W. T. Kemper, receiver and president of the Orient lines.

May Suspend Any Time

Due to highly technical objections now being made by a small majority of engineers and firemen of this system, whose wages were not affected by the Labor Board's recent decision, the bulletin reads:

"It seems probable that all train service on the Orient may be suspended indefinitely at any time, without further notice.

"For your information, with the assistance of loyal employees, new men hired, and a small staff of officials performing work, including common labor at various terminals, train service has been continued to our patrons for 44 days in the face of every obstacle that could be placed by the shop craft and their sympathizers, both in and out of the service.

Future Not Promising

"This service, finances favorable, could be permanently continued with

Up-to-Date Hardware Service

When you want good hardware, come to us. We handle only the best—and we sell at reasonable prices.

Perhaps you didn't know that we also have an automobile accessory department.

We carry a fine line of advertised accessories—a companion line to our high grade hardware.

We also sell Gargoyle Mobiloils. Drive around and let us tell you about the scientifically correct grade of Gargoyle Mobiloils for your car.

You can also get a copy of "Correct Lubrication"—a booklet every motorist needs.

J. H. Self & Sons

and other employees. The Orient's faithful assistance of the trainmen financial difficulties under normal conditions are common knowledge, but will not permit continued operation against the additional obstructions now being placed by the above named and a few who also occupy important offices in some of your cities and who are obligated to protect your interests.

"For these reasons, it is suggested that those dependent upon the Orient for train service, immediately provide themselves with such necessities as may be required to protect life and health in the event of an indefinite suspension of service, which some of our ex-employees and their sympathizers in the service are trying to force upon the system.

"You are regretfully advised further, that freight or other shipments will, effective at once, be accepted at owners' risk, and subject to such delays as may occur, on account of the resignation of the shop crafts and sympathetic employees and citizens.

"It is my plain duty to inform you of these facts for your protection, and in the event service to you is discontinued with resultant financial loss and suffering, that you may know upon whom this grave responsibility rests."

Two Trains Delayed

"Two trains of the Orient were delayed Saturday night several hours because of complaints by engineers that the locomotives were not in good condition. One of them was a train of Texas cattle. One engine had gone two days beyond the specified time for Government inspection, while the headlight on the other went out. The management declares that either incident would have passed unnoticed had no strike been in progress.

When F. M. Conner of Fairview, Okla., who is an Orient employe as well as mayor of the city, wired the general offices of the Orient here that locomotives were in dangerous condition, A. De Bernardi, general manager, replied that the motive power in the service was in first class repair.

Neither the management nor experienced officers at the terminals ask employes to assume any unusual risk in the performance of their duty to the public.

City Meat Market

Carries everything in the line of an up-to-date meat market, together with packing house meats such as Boiled Ham, Mince Ham, etc., except beef. Also carry Pure Hog Lard, the kind your mother used to make during hog-killing time. Come in for a fresh tender steak of beef or pork for dinner, or maybe it's pure hog sausage you want. If so the City Meat Market is the place to get it.

F. J. MEASON, Proprietor

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, August 18, 1922

We made our first visit to Paducah Tuesday. It's a shame for one to live 18 years this close to a town as good as Paducah and in all that time never visit the town. That is where we all make mistakes, but as new roads and highways are built we shall find it a small matter to run over to a neighboring town once in a while and talk with it. Paducah is a splendid town. The people appear to be very hospitable. It was too bad that not one of the highway delegates could accept Paducah's offer of a free chicken supper Tuesday evening. But it was explained that all of them were forced to return to their homes, consequently they had to return before supper time. Another thing that speaks well for Paducah is the big tabernacle the town has built for public gatherings. It is a well built structure and will accommodate any crowd likely to assemble in a town of Paducah's size for years to come. The biggest criticism, and that's not against the town so much as against Cottle County, and that is the winding roads. But they are going to be straightened and the town is going to see to that matter. When the Lee Highway runs by Paducah you will see that town grow by leaps and bounds. Then we can get home after 7 P. M. and will stay for all the chicken suppers Paducah wants to put on.

The people served by the Orient railroad are no doubt very grateful to all interests which have been co-operating to bring relief to the road and insure its continuation. The Interstate Commerce Commission, the Texas Railroad Commission and the people themselves are all co-operating to make it possible to keep the Orient going. It seems very probable that the road will get a bigger share of freight, possibly a differential on wheat, which will amount to a large sum, and the people have done their part in reducing the taxable values to a trifle. It seems that the only thing now to be feared, at least for some weeks, is the strike. But looking at the proposition in a general

way and considering the road's recognized importance to this section, and the influences that are being exerted to keep it going, we feel more hopeful than for some time. It is better to keep the Orient than to let it go and run the risk of getting another railroad. And even if we get another, two will not hurt us, and maybe not each other.

The race between Hankins and Leake is going to test the strength of the Ku Klux Klan in this judicial district. Leake received all the Klan votes in the district besides those from a lot of people, who did not know that he is a Klan candidate. They will know in the run-off and there is going to be a considerable falling off in his vote. Let the Klan elect him if it can. We are going to pin our faith on Hankins, the man who does not need the support of a secret society to elect him.—Quannah Tribune-Chief.

Arthur Nickels, in a speech at Vernon the other day, said that he himself had examined the record of the Austin justice of the peace and had found that two leaves had been pasted together and when these were opened the name of Earle Mayfield was found as one who had paid a fine in that city for gambling. To the average voter the proposition seems to be one of choosing the lesser of the two evils now confronting them in their choice for a United States Senator.

The public cares little about the terms of agreement between the miners and operators so that the mines are opened up and work resumed. Coal is what we want for commercial and domestic purposes. And since there are indications of a new conference among railroad men, there is still hope of improvement in transportation some time. That might not be very distant if the I. W. W. influences could be eliminated.

Vernon seems to have a pretty strong bunch of Ku Klux. Of course

the organization stands for law and order, for it says so. Still we do not understand why it does not bring those burglars to justice who have been breaking safes at Harrold and Odell. If the Klan has ever run down such criminals or aided in any way whatever the officers in catching such criminals we have never been so informed.

Cotton is holding up remarkably well, considering the fact that the rains have held off so long. The crop will be short even if it should rain, possibly shorter if it does not. However, experienced farmers say that rains now would be followed by the cotton's throwing off heavily and little if any profit, might be gained.

It's better to do something, even if that something is not very much. The person who sits around all the time is subjected to strong temptations to start something. An idle brain is the devil's work shop. You have heard that. Did you ever see it?

JOHNSON CORRECTED BY DALLAS NEWS

The Hall County Herald seems to have been snapping at everything it saw last week, and it got stepped on by the Dallas News. Our friend is sore, sure enough since he was defeated for Lieut. Governor. He thought he saw that the Dallas News had played the part of a "little" paper when it failed to publish all of Mr. Mayfield's Gainesville speech and at the same time gave Ferguson's Bertram speech in full. It was an awful booger. All there is to it is that Johnson is a Klan rooter and the Dallas News is a Klan fighter, and Mayfield is the Klan candidate. But the News called The Herald's attention to the fact that while Ferguson's speech was delivered at 11 o'clock in the morning Mayfield's was not delivered until 8 P. M. in the evening, and consequently it could not be gotten into print until next day. It was published in full on the following day. "That's all there is to it," says the News, "he's mistaken, in error, barking up the wrong tree, got his wires crossed, talking through his hat, entertaining bats in his belfry and is otherwise deranged as to the accuracy of his information."

Maybe he was added when he lost his grip on the Klan's antedote and went kerflunk to the ground. Don't be too hard on the Herald editor.

THE HOUSE OF SERVICE

SAVINGS resulting from capacity manufacture are now offered to the buyer of the Studebaker Special-Six. The new price of \$1275 is \$200 under its former price.

Studebaker reductions became effective August 1st after Studebaker had completed the biggest seven months in its 70 years' history. And at a time when Studebaker had 15,000 unfilled orders on hand! It is a Studebaker policy of long standing to share manufacturing savings with the customer.

The performance, durability, comfort and quality of the Special-

Six are recognized everywhere. And here's new proof of its endurance: Studebaker's sales of repair parts, covering accidents as well as service, for the first seven months of 1922 were less than they were for the first seven months of 1919, in spite of the fact that 186,000 new cars were sold and put into operation since January 1, 1920.

The Special-Six at \$1275 represents a new standard of value—the greatest value Studebaker has ever offered, and that means a value that is positively unapproached anywhere in the industry.

Cowl lights; cowl ventilator; massive head lamps; tonneau light with long extension cord; rain-proof, one-piece windshield; windshield wiper; eight-day clock; theft-proof transmission lock; tool compartment in left front door.

THE DEALER

THE STATE OF TEXAS
To the Sheriff or any Constable of Foard County, Greeting:

You are Hereby Commanded to cause to be published once each week for a period of twenty days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Foard County, a copy of the following notice:

STATE OF TEXAS,
To all persons interested in the estate of H. A. Hunter, deceased, Jno. L. Hunter, administrator, has filed in the County Court of Foard County an application for an order to sell the following property of said estate, situated in Foard County, Texas, to-wit: First tract: A part of Survey No. 484, block "A," located by virtue of Certificate No. 31-2842 for the H. & T. C. R. Co., and being public school land, containing 90.6 acres of land. Second tract: A part of the Frederick Rudge Survey of 320 acres, located by virtue of Certificate No. 2188 issued by Bernard E. Bee, Secretary of War, on the 30th day of January, 1838, and patented to Frederick Rudge on Feb. 5, 1889, by Patent No. 656, Vol. 16, containing 40 acres of land. Third tract: A part of the Thomas Leftwich 426 2-3 acre survey located by virtue of Certificate No.

15-391, and patented to Thomas Leftwich on the 6th day of March, 1889, by Patent No. 459, Vol. 16, and containing 9.25 acres of land.

All of said tracts of land being conveyed to H. A. Hunter by J. R. Meason and wife as shown by deed recorded in Vol. 31, at page 603, of the Deed Records for Foard County, Texas, which will be heard at the next term of said Court, commencing on the first Monday in September, A. D., 1922, the same being the 4th day of September, A. D., 1922, at the Court House thereof, in Crowell, Texas, at

which time all persons interested in said estate are required to appear and show cause why such sale should not be made, should they choose to do so.

Herein Fail Not, but have you before said Court on the said first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court at office in Crowell, Texas, this 29th day of July, A. D., 1922.

MARIE HARRIS BURESS,
Clerk Co. Court, Foard Co., Texas.

"Nuthin' drin' on more swims; not on your sweetly life—not when I can see a big bowl of Kellogg's Corn Flakes an' fruit starin' at me! Say, what'cha think it is, old snapper!"

Crisp, delicious Kellogg's CORN FLAKES perfect food for summer days

Health demands a lighter diet during the warm days! That's why Kellogg's Corn Flakes are such an ideal food for summer breakfasts or for any other meal or "snacks." They digest easily and are nourishing and sustaining—wonderful for children!

Kellogg's are extra-enjoyable with the luscious fresh fruits now in season. They are also appreciated as a dessert, served with fresh-fruit and a helping of cream!

Insist upon Kellogg's Corn Flakes in the RED and GREEN package bearing the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!

Also makers of KELLOGG'S KRUMBLE and KELLOGG'S BRAN, cooked and krumbled

NATIONAL CONVENTION OF AMERICAN LEGION

New Orleans, Aug. 16.—"Meet me on the levee," will be the slogan of thousands of American Legion members who come to the Legion national convention in New Orleans next October. For the Legion convention sessions will be held on the banks of the Mississippi river.

A large covered pier—nearly one thousand feet long and 400 feet wide—astride the levee and parallel to the Father of Waters—will be the scene of national convention deliberations. The pier is located in the downtown district—just two blocks from Canal street, the main thoroughfare.

On the river side the pier floor is two feet lower than on the opposite side, and the intervening incline on which row upon row of chairs will be placed will afford every person a direct view of the speakers' rostrum.

New Orleans will be able to seat 14,000 delegates and visitors in the mammoth structure. One half of the vast floor space will be devoted to the convention proper; the other half, separated by a partition, to telephone and telegraph booths, committee rooms, lunch and rest rooms, ticket-validating offices and concession booths. The stage will seat fifty persons. Immediately in front of the rostrum will be the press tables, to seat 150 newspaper correspondents. To minimize the danger of fire, Chief Evans of the New Orleans fire department will station a chemical engine at each end of the pier and will scatter scores of fire extinguishers throughout the assembly space. The flooring is of wood block, set closely together, so as to reduce the danger from burning cigarette or cigar stubs. Special fire insurance will be carried on the warehouse during the convention.

The interior of the building will be elaborately decorated with the flags of all Allied powers and with Legion emblems and banners. A touch of New Orleans atmosphere will be brought to the delegates by the placing in convention hall of palm trees and miniature live oaks, hung with the moss which flourishes only in Louisiana.

Amplifiers and magna vox equipment will be installed to guard against any trouble with acoustics. The Legion committee will spend \$10,000 in preparing the pier for convention use.

Streets leading to convention hall will be illuminated by thousands of electric bulbs. The convention committee estimates there will be space for the parking of 5,000 automobiles at one time, near the building.

Card of Thanks

Our thanks and heartfelt gratefulness to each and every one who assisted us in any way during the illness and death of our beloved husband, father and brother. Also our appreciation for the many beautiful flowers given. May God send His blessings upon each and every one who assisted us in our trouble.

NEXT DOSE CALOMEL MAY SALIVATE YOU

It is Mercury, Quicksilver, Shocks Liver and Attacks Your Bones

Calomel salivation is horrible. It swells the tongue, loosens the teeth and starts rheumatism. There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Calomel is a dangerous drug, besides it may make you feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No salts necessary. Your druggist says if you don't find Dodson's Liver Tone acts better than treacherous calomel your money is waiting for you.

ROAD PROGRAM FOR STATE IS OUTLINED

Austin, Aug. 14.—Recommendations that an extensive State highway construction program be outlined and the expense of construction be met by an ad valorem tax or by proceeds from the long term State bonds, by a tax on gasoline sufficient to maintain the roads, and the remainder of the cost supplied by Federal aid funds, have been made by K. M. Hubbard, chairman of the Texas Highway Commission.

Chairman Hubbard's recommendations on maintaining the State's highway system resulted from an extensive discussion throughout the State on the matter of State regulation of motor vehicle transportation and the

BIRTHS EXCEED DEATHS IN STATE FOR MONTH

Austin, Aug. 13.—Vital statistics report compiled by the state health department for the month of May shows there were 5,094 births reported, as against 3,944 deaths. The males exceeded the females by 202, there being 2,648 males and 2,446 females born during the month.

The whites lead over the negroes by 4,304, there being 4,699 whites born during the month, and only 395 negroes.

There were seventy sets of twins born in the month of May, of which sixty-two sets were white children and six sets negroes.

The leading causes of death, in the order named for this period, were or-

question of requiring motor vehicle owners to meet the expense of maintaining the State highways.

Considerable objection to unregulated heavy traffic of commercial trucks and interurban motor busses has been expressed by highway leaders in the State, according to State officials. It is declared by highway leaders and engineers investigating the problem of maintaining highways that more than 50 per cent of the deterioration of the good roads is due to commercial traffic.

Few States have adequate laws governing the operation of motor vehicles, carrying freight and passengers, according to highway officials. This will be one of the chief considerations before the next Legislature, it is said.

ganic diseases of the heart, diarrhea, brights disease, accidents, cancer and pneumonia.

The number of deaths in this month due to firearms were fifty-four. There were twenty-seven cases of suicide reported during the month.

GEESE FARMING

By F. W. Kazmeier, Poultry Husbandman, A. & M. College of Texas

Geese are very easily raised, and contrary to other kinds of poultry, secure practically their entire living from pasture. Geese raising is becoming more and more popular in the South and Southwest. A few geese will mean a great addition to the annual farm income without any outlay for expense to speak of. We especially recommend keeping a flock of geese on farms that have some acreage in low and marshy land, with possibly running water. Such a place is an ideal location for the raising of geese. Under such conditions they can be raised at practically no expense. There is also at the present a good living to be made producing geese for breeding purposes and selling them as such.

Breeds
There are six important varieties or rather breeds of geese, namely: Toulouse, Embden, Chinese, African, Wild or Canadian, and Egyptian. Of all these varieties, the Toulouse and Embden are the most popular.

The Toulouse was originated and derives its name from the city of Toulouse in Southern France. It is the most popular, the largest and most widely kept variety of geese. They will lay from 20 to 40 eggs in a year, which is considered good egg production for geese. The following are the standard weights: Adult gander, 26 lbs.; adult goose, 22 lbs.; young gander, 20 lbs.; and young goose, 16 lbs. The Toulouse is considered a non-setter, and for this reason, their eggs often are incubated under hens or in incubators. We have found this breed of geese to be

generally very docile, quick growing and to make an excellent table fowl.

The African goose is characterized by a distinct knob on its head. In color they resemble the Toulouse somewhat. In size they are smaller than the Toulouse by about two pounds. They do not lay as many eggs.

The Embden is of a German origin. They were one of the first breeds of geese brought to this country. They are smaller than the Toulouse, good layers and are very good for market purposes because of absence of dark pin feathers. They grow and mature very rapidly. They are a very popular breed of geese. They are fair layers. The goslings make a rapid growth. The eggs average from 6 1/2 to 7 1/2 ounces each.

The Chinese are much smaller in size than other breeds of geese, more difficult to handle and very noisy. Like the African, they have a knob or protuberance on the head. They are considered better layers than some of the other breeds, but lay a smaller egg.

Housing

The only kind of housing that geese need is some kind of a low shed with the south side entirely open for protection in stormy weather and in the winter. The biggest part of the year in Texas they require no protection from the weather. In the summer, of course, they need shade in hot weather. The shed should be kept clean and plenty of straw or litter on the floor.

Breeding

In selecting geese for breeders, bear in mind the importance of vigor, health, size and breed characteristics. Geese should be mated several months before saving eggs for incubation. Buy your breeding stock in the fall. It is customary to allow the matings to remain the same year after year, unless for any reason unsatisfactory. In determining the sex of geese remember that the male is usually larger and coarser than the female; the male has a shrill cry while the goose has a coarse, harsh cry. The abdomen of the female is full and expanded and in the case of the male the abdomen is more flat. The underline of the abdomen viewed from the side is another way of distinguishing sex, in that in the case of the female, the underline of the abdomen viewed from the end of the breast bone to the vent, appears well rounded like a curve. In the case of the male, the abdomen ap-

pears to have more of a straight line.

Geese are usually mated in the proportion of one male to four females. We have always found it more satisfactory to mate in trios or pairs, and to keep the different matings separate during the breeding season to prevent the males from fighting. Always use fully matured males and females that are two years or older. Immature breeding stock is very undesirable, and will not produce strong off-spring. Females may be kept until they are seven and eight years old. Males should not be kept much over six years.

Feeding

We have found a good pasture with plenty of grass very necessary to raise geese profitably. One acre for 10 geese is about the proper amount of range and pasture. They will pick up the greatest part of their living if they have plenty of pasture. When the pasture gets short, it should be supplemented with grains and wet mashes. Do not get the breeding stock too fat, which must be watched when feeding breeding geese because it will cause poor fertility and poor hatches. Heavy oats is a good grain feed for breeding geese. A small amount of such other grains as kafir, milo, corn or wheat may be fed as a variety. The greatest part of the feed should be bulky stuff like roughage, grass, clover, alfalfa, ensilage. The ensilage must not contain too much corn and must be entirely free from mold. When it is desirable to start the geese to laying, the following wet mash may be given in the morning, 3 parts of wheat bran, 1 part of corn meal, and 1-4 part of meat scraps. If possible add vegetables or other roughage to the mash. Grit and oyster shell should be kept available all the time. Plenty of fresh drinking water of course also is very necessary at all times.

Feeding Goslings

Do not feed little geese until they are at least 36 hours old, or older. We have fed stale bread soaked in milk or water to which has been added 10 per cent hard boiled eggs, chopped up very fine. We feed this four times a day but always feed it very sparingly. They are fed this with some chopped green food until they are three to four weeks old. Grit and drinking water is kept before them at all times. After the goslings are four weeks old, if they can run on a green pasture, they are gradually weened from the regular feeding to only one feeding a day. When they are older if the pasture is a little short we feed a wet mash once a day of wheat bran, ground oats and corn meal, equal parts and 5 per cent of meat scraps. Whole grains are not fed until goslings are fully feathered.

Incubation

The period of incubation ranges from 28 to 30 days. Many ways of hatching geese eggs are in use. Some people let the goose set on the eggs, many more people set the eggs under

common hens and a few use turkey hens. A very few use incubators. In the case of common hens only 4 to 6 eggs are placed under her. In the case of a turkey hen or goose as many as 10 and 11 eggs are set under one hen. When the eggs are set under a common hen, they should be turned by hand the same as in an incubator, because the eggs are too large for the hen to turn. Be sure to see to it that plenty of insect powder or sodium fluoride is used to get rid of all lice before goslings hatch. In the case of artificial incubation, or hatching the eggs off the ground or in a dry place we have found it wise to use moisture by sprinkling the eggs with water after the first week. The water should be about 100 degrees, and after the 15th day, the eggs should be soaked in water of above temperature, for about a minute every two or three days. In the case

of incubators it is well to operate the incubator at a temperature of 101 to 102 degrees. Towards the end of the hatch the eggs must be cooled considerably.

Hankins Endorsed by Attorneys

In addition to the endorsement given Judge Hankins by the Vernon attorneys, as will be found in another column in this issue, it might be said that he also has the unanimous endorsement of the attorneys of Hardeman County and a majority of those in Collingsworth County, which fact speaks very highly of Judge Hankins as a capable and worthy aspirant for the office of District Judge.

For Sale—Some extra fine registered Hereford bulls, Anxiety line of breeding. Also some fine Big Boned Poland China pigs, born 2nd day of March, just right for club boys. Have papers with all my stock.—J. E. Bell, phone 176.

A card was received here yesterday from Mr. and Mrs. Russell Beverly, which was written in Salt Lake City Monday. It stated that they had just enjoyed an organ recital in the Mormon Tabernacle. They expected to leave Salt Lake that night.

Mrs. J. R. Adeock and daughter, Miss Beatrice, returned to their home in Alvord yesterday after a short visit with relatives here.

"Vapor Cure" for Whooping Cough. In Devonshire, England, the physician treat the patient on a sheep's "fornie." A fornies is the imprint that a sheep makes on the grass by lying in one place all night. When the animal gets up in the morning, a sort of vapor rises from the warm ground underneath into the cold air of the early dawn.

The sufferer is taken out into the meadow where the sheep are at day-break, laid face downward on the fornies, and has then to breathe this vapor in, not merely through the nostrils, but with open mouth. He must breathe it until the ground is cold and there is no more vapor to be sucked into his lungs. This takes about five minutes. Then the patient goes back to bed, and in a few hours his cough has left him—or at least so say the Devon folk.

ED. R. BENTLEY
CANDIDATE FOR
STATE SUPERINTENDENT
Democratic Primary, August 26.

WHAT HE STANDS FOR
1. Better Support of County schools.
2. Election of County Superintendent by vote of people and against appointment as favored by his opponent.
3. Repeal of New Certificate Law.
4. Economy in buying and handling textbooks.
5. Against red tape and extravagance.
6. Economy, Courtesy, Efficiency.

I have personally known Mr. Ed R. Bentley for the past 14 years and in my judgment he is eminently qualified to fill the position he seeks. He is running on his personal merits and the principles he advocates and not on the klan nor anti-klan.

Sincerely,
R. C. CAMPBELL,
Supt. Schools, Crowell, Texas.

Endorsed by Vernon Bar

Vernon, Texas, August 2, 1922.—We, the undersigned members of the bar at Vernon, Texas, realizing the importance of the position of District Judge of the 46th Judicial District, and having known Judge M. M. Hankins of Quanah for many years and knowing him to be a seasoned lawyer of exceptional ability and extensive experience, and knowing him to possess that degree of poise and mental balance essential to the proper discharge of the important duties of that office, as well as a man of sterling character and exemplary habits, hereby unqualifiedly endorse him for the position of District Judge.
