NEW M. E. PASTOR TAKES UP WORK

Rev. Willett Comes to Crowell Church from Tulia Where He Has Labored for 3 Years

After a hard week, according to statements made by the new pastor of the Methodist church when he met his congregation for the first time Sunday morning, he found himself trying to discharge his duty as pastor under a heavy strain. He was tired and worn from the unpleasant and tiresome task of moving from Tulia to Crowell which is no small matter, but notwithstanding the fact that he felt little like undertaking his duties under the circumstances, he preached a very fine sermon both at the morning and the evening service.

He discussed the importance of creed, experience and life, showing the relation of each to the other, pointing out the essentiality of creed, as contrary to the belief of some who teach that it matters not what one believes so long as one lives the right life, which the speaker granted is all right provided it could be done, but the one who acts on that theory is building on false premises. The process of development and growth comes by experience and the life is the fruitage.

At the evening service the human life was compared to the mortar that goes into the structure that holds the brick, making the walls of the building a solid mass, and the strength of the structure depends upon the temper of the mortar. Three elements go into the composition of mortar, said the speaker—sand, cement and water—and the proper temper is reached through the proper mixture of the three elements, and the more thoroughly these are mixed the more complete is the loss of the identity of each. Comparison of the Christian who constitutes a part of a great structure was made with the mortar. The Christian must lose his identity, he must sacrifice, he must be willing to lose himself that the best he possesses may be found in the great common structure, a portion of which every Christian.

Two Men Hurt in Car Collision

Clarence Stubblefield is carrying a lacerated and bruised face as the result of the car he was driving having collided with that driven by Jack Gilliland Monday night. The accident occurred near Ogden. Both cars were loaded with people and one girl whose name we did not get, received a gash in the head. Stubblefield seems to have suffered the worst injuries, but he was able to be in Crowell Tuesday, but was exposing as little of his face as he could.

An accident like that ought to impress upon car drivers the importance of being very careful. We do not know how this accident occurred, but we do know that it is mighty easy to become careless, which in the matter of driving a car is too dangerous to allow.

Mr. Kenner Improving

News comes from H. T. Kenner who is at Gary, Okla., taking treatment under Dr. Milligan, to the effect that he is improving very rapidly. He went up there the first of last week and as soon as he was placed under the doctor's care began to improve. He is said to be eating heartily now and the hurting in his body has disappeared. His friends here will be glad to learn that he has gotten relief from his suffering, which is thought to have been caused from kidney trouble.

CROWELL GIRL WEDS FOARD CITY MAN

The marriage of Miss Hilda Logan of Crowell and Barney Lefevre of Foard City was solemnized at the home of Mr. and Mrs. Joe Ward in Crowell Thursday evening, November 2nd by Rev. Huckleberry, evangelist of the Christian church. The bride is the daughter of Mrs. N. A. Logan of this city and the groom is the youngest son of F. R. Lefevre of Foard City, and they were both reared in this county and have a host of friends who extend hearty congratulations and best wishes. Mr. and Mrs. Lefevre will make their home in Foard City.

Prohibition Grows As National Issue

Washington, Nov. 12.—Disturbing reports to the political leaders of both parties as to the effect of wet and dry issues in Tuesday's election are still coming into Washington.

Gov. J. A. O. Preus of Minnesota, said that the defeat of Senator Kellogg in Minnesota was due to votes against him by Republicans who are wet. Senator Kellogg was one of the Administration Senators, a personal friend of President Harding, and went down to unexpected defeat by a large majority.

It seems that prohibition was an under-the-surface issue in many of the election districts where it was not brought up as a campaign issue. Governor Preus said Senator Kellogg, because of his consistent dry record, was in bad with the wets. The Senator ran about 75,000 behind the Governor who came into victory on the same ticket.

Wets to Call Conference

The wets soon after Congress convenes, Nov. 20, are to call a general conference in Washington of sympathizers to "wet" Senators and Representatives and formulate a program.

So far as learned no organization is planning any special convention. Dry leaders are still sure of their power.

There will be considerable jockeying by both major parties to avoid an out and out label either wet or dry. Wets are planning as quickly as possible to force a showing from Republicans and Democrats. Captain Williams H. Slayton, recognized wet leader, is talking of a third, or wet party of Liberals not endorsed by either the Republicans or Democrats, but this is not taken seriously by any one in the old parties.

Wise political heads say that much progress toward bringing a straight wet and dry issue between the two existing parties has already been made and an unofficial but wide acceptance of the Democrats as wet and the Republicans as dry, played a big part in Tuesday's returns. Dry leaders, it is claimed in some quarters, have in the last two years maneuvered the situation into a limited popular acceptance of the view that the Republican party is the dry party. Its platform in 1920 was dry and its leaders have been dry. All those who were defeated Tuesday were dry.

Talk of Split in South

There is serious talk in Washington of a probability of splitting Democracy in the solid South with a wet label on the national party. Several Southern Senators said that this could not be done. They were not willing to be voted, but they said that the South was Democratic first and dry second.

One Southern Senator, a leader in his party, who has always been dry seriously discussed an open acceptance of the issue by his party. He holds the view that with a wet plank—one that means something—in the platform in 1924, the Democrats would sweep the country, carrying the most populous Northern States, which with the solid South, would insure a victory. This Senator has never been known as anything but a dry.

He holds the views, however, of former Congressman Yates Webb of North Carolina, now a District Judge, who as chairman of the Judiciary Committee, before the Republicans took control of the House in 1919, urged a broader view in providing for prohibition enforcement. He was succeeded by Representative Volstead in the organization of the Sixty-Sixth Congress and he retired in 1920. Judge Webb opposed the one-half of 1 per cent provision of the Volstead act and insisted that it was going too far and there would be a "roar back."

6462 Bales Ginned

According to the Government report of the cotton ginned in Foard County prior to November 1, 1922, we had to our credit only 223 bales more than we did at the same time last year. The report shows the figures to be 6462 for this year up to Nov. 1.

Cotton is coming in more slowly now than at any time since the season opened in reality.

Mr. and Mrs. D. R. W. Erwin and son, Troy, and family left Wednesday for Floyd County to visit a daughter of Mr. and Mrs. Erwin.

SAYS BIG LOSS BY SELLING COTTON

Terrell Says Farmers Lost \$75,000 by Not Holding Staple Longer Before Selling

Commissioner of Agriculture Geo. B. Terrell says that the advances in cotton are not due to accident but come by reason of a short crop and strong demand. According to Mr. Terrell the old law of supply and demand is having its effect on the market.

The ginners report shows that 8,135,839 bales have been ginned up to Nov. 1, which Mr. Terrell thinks indicates a crop of 10,000,000 bales for the United States. The Texas crop, says Mr. Terrell, will be approximately 3,000,000 bales. The total crop last year was 8,000,000 bales, according to figures submitted by Mr. Terrell, while the domestic consumption and exports amounted to more than 12,000,000 bales, or 4,000,000 short of consumption, which used up the big surplus carried over from the 1920 crop, and the present crop is 2,000,000 bales short of the actual needs of the mills during the present cotton year. With these facts facing the wets, Mr. Terrell thinks there is no guess work about cotton going to 25 or 30 cents per pound. If the cotton had been marketed slowly he thinks it would have brought \$25 per bale more than it has brought, which on the 3,000,000 bales produced would enable the farmers to have realized \$75,000,000 more for the crops than they have received.

Commissioner Terrell thinks a little advice as to the acreage next year is timely now. For the entire South, perhaps, the advice for a reduction of acreage should be given, but not for Foard County. We have come to believe that the only wise thing our farmers can do as to the cotton acreage is to plant all they can handle. It is the one sure crop for this country and the more cotton the better for Foard County. When men are going over the country saying to the farmers that they should cut the acreage, Foard County farmers can well afford to say: "You ain't talking to me."

AMERICAN LEGION VS. HI SCHOOL

Local Hi Squad to Meet American Legion Aggregation in Benefit Game Today. Evenly Matched Teams to Battle

One of the best gridiron contests of the season will be staged on the local grounds at 4:15 today when the fast youngsters of Crowell Hi meet the Crowell American Legion lineup. The high school squad will have the advantage of a week's rest because of the fact that the regular interscholastic schedule dropped a stitch in Vernon's failure to give our locals a game in return for the game played at Vernon on October 6. It is thought that the school organization will also have great advantage because of the experience and training of the season now drawing to a close.

On the other hand, it is expected that the maturity and former experience of the American Legion team members, many of whom are old college men at the great game, and several of whom were on last year's so-called "Ku Klux" squad—the squad that walloped the Hi bunch 26 to 0, will give them the lurch on the school boys from the word go.

Altogether it should be an evenly matched contest that will prove a real thrill to the spectators. The inclement weather will not stand in the way of the game unless the ground has standing water on it or rain is actually falling at the time for commencing the contest.

The proceeds of the game will go to the American Legion and the high school football club. Season tickets are good for this game and it is expected that a large crowd will be out.

Mrs. J. A. Walker, daughter of the late C. A. Richie, after having been appointed to fill the unexpired term of her father as County and District clerk, announced for the office and was elected over two opponents in Wilbarger County.

Our Gasoline and Coal Oil Consumption

Few people possibly have given any thought as to the amount of gasoline and kerosene that is used in Foard County. In order to satisfy our curiosity to know and to furnish reading of an interesting nature for our readers we have gone to the five different men who represent that many oil companies and have procured their figures, all for October except one, that being for the month of September, and we have found that the gasoline consumption for the county is practically 35,000 gallons per month and that of kerosene is about 15,000 per month. Figured on this basis for all the months in the year except June, July and August, when the harvest season and plowing season are on, we will use for ordinary purposes for nine months about 315,000 gallons of gasoline and 125,000 gallons of kerosene. Added to this the amount used for the busy months above specified, which is about three times that of any other month in the year, we will have an annual consumption of 415,000 gallons of gasoline and 180,000 gallons of kerosene. That amount of gasoline at the present price of 23 cents represents \$94,450 and the kerosene at the present price of 9 cents represents \$15,700, the aggregate amount of both being \$110,150.

These figures are approximately correct all the way through. Very little of the sales above included are outside of Foard County. A little gas is sold at Gilliland and Truscott. Excluding what is sold at these two places we are safe in saying that Foard County uses \$100,000 worth of these two products per year, five-sixths of the cost is for gasoline. Just what portion of the amount goes into tin Lizzies and automobiles we can not say, but perhaps four-fifths.

SENIOR CLASS NOTES (By Roy Sloan)

The Senior Class received their rings a few days ago. They are of onyx stone and are very beautiful. We are very proud of them and will always cherish them as one of the fondest memories of our high school days.

The "popularity contest" which was started last Wednesday the 8th by the Senior Class for the benefit of the Melting Pot has been the greatest achievement of its kind in the history of the school. The pupils responded in favor of their candidates to the limit, which brought in the unexpected sum of \$182.47.

The student body manifested a great deal of interest in the contest which was shown by the numerous banners and posters soliciting votes which were hung throughout the hall. The contest showed that there is a large number of artists and cartoonists in the school. These people drew the posters for the candidates, which had a great effect on the voting. Roscoe Brown's portrait of Henry Black in the derby hat was particularly good and will likely be seen in later days.

The voting ran along under great excitement for the first three days and the race was getting warm when the classes began having secret meetings. They were deciding on the candidates whom they would try to elect by pooling their money. The freshmen and juniors pooled their money and sent a representation in to vote the tidy sum of \$117.62. Several other votes of large denomination were cast between four and forty dollars.

The hall was packed as the votes were being counted and as the results were posted on the bulletin board cheer after cheer arose as the different candidates took the lead. The final tabulation of the votes showed the following results:

Most popular senior, Paul Crews; most popular junior, Vera Crews; most popular sophomore, Bill Norman; most popular freshman, Lebert Swain; most popular 7th grader, Frances Glover; most popular boy in school, John Carter; most popular girl in school, Geneva Wishon; best sport, Bill Elliott, best athlete, Zeffa Campsey.

Change in Grocery Business

Roy Fox sold his interest last week to his partners in the Matthews-Fox Gro. Co., C. Q. Crawford and W. A. Matthews, and Roy and his father, L. D. Fox, bought the Williams Cash Grocery store which has been operated for a few months by Archie Williams.

ENTIRE WHEAT BELT GETS RAIN

In Some Places the Precipitation Amounts to An Inch and a Half; Plenty of Stock Water

If we should judge from the rain in Crowell Saturday night as to how much the county received we would say the rain was light, but reports are too good to make the statement that it was a mere shower. This is especially true in the eastern and southeastern portion of the county. Crowell had a fair rain. No further east than Jim Bell's place there was twice the amount we had at Crowell, while at Thalia it is reported that the rain took the form of almost a flood, perhaps at least one and a half inches. The tanks are full and plenty of moisture is provided for the young wheat. J. W. Bell, in speaking of the rain, says that he thinks practically all the wheat belt of the county got good rains. That was all that needed moisture. He thinks the moisture will meet and that the wheat can be carried along for some time without any more rain.

This comes not only as a brightening of the prospects for another crop, but it makes probable postage for stock that will help out wonderfully in a time of feed shortage.

Hunters Report Good Luck on Devil's River

Two of the boys who went to Southwest Texas on a hunting expedition a couple of weeks ago came back Sunday night of last week, Decker Magee and Major Claude Adams. The others, C. T. Schlager, L. G. Andrews, Luther and Bert Bell, did not arrive home until Friday. They fished in Devil's river, Pecos, Llano and San Saba, and caught all the fish they wanted and could have caught more, they say but did not want them. They killed three deer. During a large portion of their stay it rained on them. They had some very rough traveling over the mountains and across the canyons, but they enjoyed it immensely.

Theatre Party and Dinner

The men of the Thursday Evening Bridge Club entertained the young ladies with a theater party and banquet on Friday evening, November 10th. After the theater a four-course dinner was served at the Sanitary Cafe. Mr. George Self was master of ceremonies. The chief diversion of his program was a take-off on the boys as expressed by the girls called "What I think of the fellow I am with." Miss Hopkins gave two very delightful readings. The decorations consisted of pink and white carnations. The members present were: Misses Sloan, Hopkins, Henson, Black, Logan, Crews, Higdon, Cheek, Cook; Messrs. Shults, Nicholson, Kenner, G. Magee, Cotten, Self, Boman, Haney, C. Wishon and Brian. The guests not members of the club were Misses Lucile Bates and Una Self and Mr. Decker Magee.

"42" Club Entertained

Mesdames Russell and Lee Allen Beverly were at home to the members of the "42" Club on Tuesday evening at the home of the former. Five tables of players including two guests enjoyed a jolly evening and at the close of the game, the hostesses served a tempting salad course. The club will be entertained at its next meeting by Mesdames Paul Shirley and Paul Fields.

Dee Roberts says his brother, Dan, has won the race again for sheriff in Union County, N. M. This is his second successful campaign, he having already served one term as sheriff. Dan is very popular and has twice won the sheriff's race in a Republican county. He is well known in Foard County.

Mr. and Mrs. Allen Fish and children were here Wednesday from Vivian shopping. They brought in 12 turkeys which weighed 117 pounds for which they received on the market 31 cents a pound. This was only a part of the turkeys they have raised this year. Oscar Fish also brought in 12 turkeys which he sold on the market.

REDUCING COST OF LIVING

There are some ways to reduce the cost of living, they say, but it may be that they don't all work well. If one can get out of buying so much stuff the cost of living may be reduced, and that is what one person is doing in Crowell in a way that is most commendable and should serve as an example to the balance of us. Any one with a patch of ground as big as a tablecloth can raise lettuce on a scale that will supply the home table with all that may be desired. We are convinced of this fact by the experience of Mrs. Jim Gribble. If one wants to know what can be done in the way of growing lettuce in the corner of the garden just go to her garden and see what she has done. Under a canvas is a bed of lettuce not more than 15 feet long and six feet wide that looks like it is ready to be lifted out and placed in a dish ready to be served. No finer lettuce ever grew out of the ground in any man's country at any time of the year than now grows in her lettuce beds.

All Over Texas

The recent rains are reported to have covered a wide territory in the Panhandle country and will be worth much to the young wheat crops all over this country.

The Wellington country is seeking a new railroad from that town to some point on a trunk line that traverses the State in order that Wellington and Collinsworth County may be relieved of the interstate rates which result from their having to ship their products through Oklahoma to Texas markets.

The Baptist General Convention convened in Waco yesterday and will hold over Sunday. It has been estimated that 5,000 Baptists are expected to attend the convention in that city.

J. D. Adams, 62, and Carman Bird, of near Luckin were both instantly killed when they accidentally touched the wires of a fence that was charged with electricity. The wires became charged when a pole of a power plant was blown down and a wire broken and coming in contact with the fence.

Playfully pressing the muzzle of an automatic pistol against his temple, Garland Alexander, 20, of Austin accidentally discharged the weapon which cost him an eye, damaging the other and may ultimately prove fatal.

The aggregate fire loss in Texas for the month of October amounted to \$473,483. More than 50 per cent of the fires were of unknown origin. Carelessness cost \$40,670. Cigarettes and cigars cost \$4,451.

Four prisoners made their escape from the Lubbock jail and the fifth one attempted to escape but was too fat to squeeze through the opening that had been made by a saw. He not only failed to make his escape but prevented other prisoners from doing so. He was forced to call for help when the cold nother was about to freeze him.

Field Man to Speak Here Next Saturday

J. D. Cogland, field man for all the cotton states west of the Mississippi, will speak in the district court room Saturday, Nov. 18, at 1:30 P. M. All the farmers in the county will likely be interested in what Mr. Cogland will have to say relative to cotton growing, and if so they may find profit in coming to hear this man.

French Straley returned Friday from Amistad, N. M., where he has been for two months. He had the News started to L. F. Roberts. He says Lem is getting along fine, but that the drought has been rather severe in that country and has effected conditions quite a bit. Mr. Straley is well pleased with that country and is trying to get his matters shaped so that he can move to his property near Amistad.

A. C. Gaines is going around on crutches this week having sustained a fracture of the small bone in his left leg last Thursday afternoon when the front wheel of a Dodge car passed over it. The accident occurred in front of Mr. Gaines' place of business. Although the fracture has been very painful it is healing rapidly.

THALIA ITEMS

(By Special Correspondent)

Miss Ava McNair is on the sick list this week.

Mrs. Harley Capps of Crowell was visiting in Thalia Tuesday.

R. R. Birdwell left Tuesday for Ardmore, Okla., to find work.

Henry Gribble and Clarence Self of Crowell were here Wednesday.

Mr. and Mrs. Durham and babies were shopping in Crowell Tuesday.

Mrs. N. A. Lusk of Cisco spent the day, Tuesday, with Mrs. J. G. Thompson.

Sam Crews and Marion Hughston of Crowell were business visitors here last Thursday.

Miss Winnie Self and some of her friends of Crowell were here Saturday afternoon.

Miss Ava McNair entertained with a party last Friday night. All report a good time.

Mr. and Mrs. T. M. Haney and daughter, Leta, and Mrs. Fisher motored to Crowell Tuesday.

There will be a pie supper at the Thalia school building Friday night, Nov. 17. Everybody invited.

Mr. and Mrs. Mark Self and children and Mrs. Clyde Self were shopping in Vernon Thursday of last week.

Tom Abston and wife and daughter, Audra, and J. G. Thompson were business visitors in Vernon Friday.

Mrs. Nash and children of Crowell spent several days last week here visiting her mother, Mrs. Jno. Sims.

Mr. and Mrs. J. G. Thompson, who were in cotton for Will Johnson, has moved to the Hammon's place south of town.

Mrs. Jeffie Wood returned to her home at Wichita Falls last Wednesday after a pleasant visit with relatives here.

Mr. and Mrs. Jno. Sims have moved into the restaurant. Their son, Lee, and wife are occupying the house that they moved from.

Miss Emma Maine has returned home from a visit with her sister, Mrs. Carl Bledsoe, of Colorado, where she spent the summer.

There were several who met at the home of Mr. and Mrs. Will Johnson Tuesday night and enjoyed music on piano, violin and guitar.

"Deacon Dubbs" was presented at the tabernacle here Wednesday night by the Woman's Auxiliary of Margaret which was very fine.

Allen Shultz was taken to Vernon Tuesday of last week where he underwent an operation for appendicitis. His many friends will be glad to hear that he is doing nicely.

Mr. and Mrs. Allen French and cousins, Mr. and Mrs. John Thompson, are spending a few days visiting the former's mother, Mrs. Maggie French, and children of Vernon.

J. G. Thompson's children visited him Tuesday and celebrated his 73rd birthday with a good dinner. He invited them to come back and said he might have another birthday soon.

Mr. and Mrs. Jno. Sims' children gave them a birthday dinner Sunday, Nov. 12th, it being Mrs. Sims' birthday. The 14th is Mr. Sims' birthday. One of their daughters of Jones county attended.

Dee Roberts and Walter Banister went to Lockett Tuesday night and visited awhile with Dee's cousin and Walter's nephew, Fred Gaines, and family. Mr. and Mrs. Gaines are teaching the Lockett school.

Mr. and Mrs. Dockery, Mr. and Mrs. Fred Brown, Bill Short, Dave Shultz, Eula Driskill, Opal Cato and Ava McNair went on a picnic Thursday night on Beaver Creek and cooked and ate supper by campfire. They report a nice time.

Allen French and Miss Nota Crisp of Rayland were quietly married in the home of Rev. and Mrs. Billington in Crowell Saturday night. They were accompanied to Crowell by Arnold Crisp and Miss Laura Fleming and Mr. and Mrs. John Thompson, Jr.

AYERSVILLE NEWS
(By Special Correspondent)

Mr. and Mrs. S. B. Dacus of Fort Worth spent last week with Mr. and Mrs. A. N. Harrison.

D. M. Shultz and Dave Jr., sold several head of hogs to Bax Middlebrook at Margaret Wednesday.

Mrs. Curtis Bradford was called to Eastern Oklahoma last Thursday on account of the death of her sister.

WE SELL ALL NEW PERFECTION MAKES, BOTH COOK STOVES AND OIL HEATERS, AND THE FAMOUS RED STAR WICKLESS STOVE.

W. R. WOMACK
FURNITURE AND UNDERTAKER

assisted in re-building a flue at the Baptist church.

Alvin Hysinger, one of the teachers in the Crowell school, spent Wednesday night of last week with W. C. and Ted Barrow.

Lucile and Lorene Shultz of Dixie are spending this week with their grandparents while their parents Mr. and Mrs. Allen Shultz are in Vernon.

The fine rain which came Saturday night will be a great help to the wheat crop, and quite a number took advantage of the norther to butcher hogs Monday.

D. W. Pyle and wife and Mrs. Birdie Flowers of Crowell spent Tuesday with Mr. and Mrs. V. A. McGinnis. Mr. Pyle beaver-boarded two rooms for Mr. and Mrs. McGinnis.

V. A. McGinnis and Mr. and Mrs. Marvin Phillips spent from Wednesday until Friday of last week in Blair, Okla. Mrs. McGinnis visited in Vernon while they were gone.

The families of D. M. Walter and Hugh Shultz and Mr. and Mrs. C. D. Haney visited W. B. Shultz and family, Mr. and Mrs. P. D. Chaney and G. A. Shultz in Vernon Sunday. The latter having undergone an operation for appendicitis at Moore's Sanitarium at that place Tuesday of last week.

Adelphian Club

The Adelphian Club met at the home of Mrs. H. E. Ferguson on Friday afternoon, Nov. 10.

The chief feature of the business session was the critic's report. Attention was called to the fact that the annual bazaar held by the club is scheduled for December 9.

After the business session the meeting was given over to the leader, Mrs. L. A. Andrews, who conducted a study of "Lady Windermere's Fan" by Oscar Wilde. A report on the life and work of Oscar Wilde was given, also a brief synopsis of his play, "A Woman of No Importance." In the study of Wilde, the man, and Wilde, the playwright, clever and witty conversation seemed to be his chief characteristic.

At the close of the lesson the hostess served tempting refreshments. Mrs. H. Schindler was guest for the afternoon. The next meeting

will be at the home of Mrs. J. W. Wishon on Nov. 29.—Reporter.

The accumulation of money comes easy to some people. They never pay their debts.

Trouble comes quickly to those who are looking for it.

Makes Stoves Shine

Black Silk Stove Polish

Is different. Lasts for times as long as ordinary polish and gives your stove a brilliant, like finish. Will not rub off or cut off—makes your stove look like new.

Made by a special process of the highest grade materials. Promoted to—used less often and does not waste. Will not scald and cause the stove to rust. Drop works like the first. Made in paste and liquid form—same results. Just try it—our can will convince you. Order from your dealer today.

Use Black Silk Air-Drying Iron Detergent on all iron parts. Use Black Silk Metal Polish for silver, plated or brass. At the same time, for the oil automobile.

If you like good bread you should try a sack of La France flour, one of the finest brands made.—Russell Grocery Co.

The New International Speed Truck

WITH the addition of the new Model S speed truck the great International line includes a size and a style for every hauling purpose. Sizes now range from the 1,500-pound truck, with a speed of 35 miles, to the 10,000-pound truck for heavy-duty service.

The new model is a successful combination of strength and speed. In every detail, it is designed and built to measure up to the quality standard so firmly established by International Motor Trucks. The same combination of skill and experience gained through 90 successful years of high-grade manufacture stands back of every International Motor Truck.

The four-cylinder engine has the necessary margin of power, sturdiness, and durability to cope with all road, weather, and traffic conditions. The internal gear drive rear axle and all other units measure up to the standard of quality set by International engineers. The Model S is regularly equipped with 34 x 5 pneumatic cord truck tires, electric lighting and starting equipment, and power tire pump.

Back of this dependable line of trucks stands the International free inspection service, which fully assures low-cost operation for all Internationals.

It will pay you to know more about International trucks and service. Come in at your convenience and let us explain just what low-cost haulage really means.

J. H. Self & Sons

cotton pickers of Barton's who had gone to work for Berry. Barton insisted that Berry should pay him forty dollars which the latter refused.

When Berry left the bank Friday afternoon he saw Sneed and Barton standing outside, and believing his life in danger, opened fire with a small automatic revolver, the gun getting jammed after the second shot.

Mrs. Barton, Beall Sneed's seventeen-year-old daughter, who has been a mother for only one month, was reported prostrated by the sudden tragedy.—Paducah Post.

Junior League Program

Subject—The plagues of Egypt. Leader—Richard Fergeson.

Who was the King of Egypt?—Price Lovelady.

How did he receive Moses and Aaron when they went unto him? Ex. 5:2-4.—Mary Ragland Thompson.

What was the result? Ex. 5:6-9.—Charles Fergeson.

Whom did the children of Israel blame for this? Ex. 5:2-21.—Henry Teague.

Of whom was Pharaoh in his daring rebellion a type? Jude 1:6.—Burel Lovelady.

What was the first plague? Ex. 7:17.—Mary Eva Meason.

The second and third plague? Ex. 8:16-24.—Clifton French.

How far were the magicians permitted to follow Moses and Aaron? Ex. 7:8.—Elsa Fay Roark.

What did they say when they could go no farther? Ex. 8:19.—Jack Fowler.

What was the fourth plague? Ex. 7:24.—Joe Roark.

What was the fifth plague? Ex. 9:3.—John Glover.

What painful attack did God send on man and beast? Ex. 9:19.—Everett Meason.

The seventh plague, Ex. 9:19.—Mary Lee Huntley.

The eighth plague, Ex. 10:4.—Furd Glover.

The ninth plague, Ex. 10:21-23.—Katherine Fergeson.

The last plague, Ex. 11:5.—Frances Campbell.

Who met Moses on his return to Egypt? Ex. 4:27.—Peggy Thompson. Every member is requested to be present.

Snow, sleet and rain are reported to have alternated each other at Abilene Monday.

Fire, Tornado, Hail, Etc. Mrs. A. E. McLaughlin

"Let me carry KELLOGG'S. Jack! I say I will! Mother said you could buy KELLOGG'S, but I could carry 'em home! I say I will—I will!"

Our word for it! You'll never know how delicious Corn Flakes can be till you eat Kellogg's

Positively—the most joyously good any-time-cereal any man or woman or child ever put in their mouths! Such flavor, such crispness! Such big sunny-brown Corn Flakes! How you'll relish a generous bowl-filled-most-to-overflowing; and a pitcher of milk or cream! Never was such a set-out! Never did you get such a universal vote as there'll be for Kellogg's Corn Flakes! Big folks and little folks will say "Kellogg's, please, mother!" Leave it to their tastes—and yours! Prove out all we say!

For, Kellogg's Corn Flakes are a revelation in flavor; a revelation in all-time crispness! Kellogg's are never tough or leathery or hard to eat! Insist upon KELLOGG'S—the original Corn Flakes—the kind in the RED and GREEN package!

Kellogg's CORN FLAKES

Also makers of KELLOGG'S CRUMBLIES and KELLOGG'S BRAN, cooked and branched

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, November 17, 1922

A synonym is defined by one as being the word you use when you can not spell the other one, but what if you can't spell the synonym, either?

How things change. The old fashioned girl used to stay at home because she had nothing to wear. Now she goes with as little as she can keep on.

The father who objects (or used to) to the young man's sitting up talking to his daughter until midnight was called a crank, but the old man thinks a crank is sometimes more useful than a self-starter.

What your child reads matters much. It has more to do, perhaps, than any other one thing with the forming of the child's ideals. Give him good literature to read if you want his young life properly shaped. Let him read cheap novels that do not appeal to the nobler impulses and he becomes sidetracked and never get on the right road.

There is no reason why Texas should not have as good schools as any state in the Union, yet we are away down the list. We boast of our wonderful natural wealth, but what are we doing to appropriate that wealth to the education of the young and give them advantages as good as the best in the country? No better appropriation can be made of our money. We owe it to the young and we owe it to Texas to rear a citizenship that shall stand at the top.

They say there were 120,000 klansmen who supported Mayfield. It is said that one-third of the Republicans of Texas belong to the clan who voted for Mayfield. He was therefore elected by klansmen, Republicans and Democrats, all of which numbered not more than one-third of voters of the State. Of the 225,000 who supported Mayfield the clan has 120,000, or 12,000 more than the Democrats who supported the candidate. Then, does it not look like a clan victory?

The result of the recent elections in the various states looks like some of our sister states would like to get into the wet column again. As things appear now prohibition may be an issue in the National campaign. Irrespective of party affiliation the people of the South are overwhelmingly pro in sentiment, but should the Eastern Democrats put out an anti candidate for President we would find ourselves again facing a political situation not altogether pleasing to our people. It will be interesting to watch developments for the next two years.

Brother Koch calls our attention to the fact that Mr. Peddy got only 250 votes in Hardeman County. We'll bet our old hat none of those 250 were Ku Klux votes, and if you subtract the vote of that organization from Mr. Mayfield's entire vote in Hardeman county he wouldn't have hardly enough Democrat votes left to brag about. That holds good over the state, also. Subtract the 120,000 clan votes from Mayfield's 215,000 votes in Texas and he would not have quite 100,000 Democratic votes left to his credit. Don't look much like a Democratic victory with 500,000 Democrats who could not "stomach" Mr. Mayfield any more than they could Peddy.

TAN EFFILON BRIDGE CLUB

Mrs. Sam Crews was hostess to the members of the Tan Effilon Bridge Club Nov. 9. Three tables of bridge were played with Dr. H. Schindler winning high score.

After refreshments were served Mrs. H. Schindler was elected president of the club.

The guests of the evening were Misses Jennie Belle Ray and Mary Cook and George Self.—Reporter.

The News has a selection of the nicest Christmas cards ever brought to Crowell. We shall be glad to show them to you.

As the Editor Sees It

Many young girls, even of tender years, resort to paints and powders in order to enhance the charm with which nature has provided them.

In time they marry, and their husbands are chagrined to learn that much of their marvelous beauty was purchased by the box.

Think it over, girls. If nature provides you with intelligence and character you are possessed of something of far greater value in the eyes of a manly man than all artificial facial adornments combined.

Criticism, if constructive, is good for our community and for our people.

But criticism, with nothing better to offer, becomes pessimism, and is destructive. It breeds dissatisfaction over conditions that exist without offering any means of correcting them.

The next time you feel like criticizing those in authority, be charitable enough and fair enough to withhold that criticism until you are in a position to suggest a suitable remedy. You may not speak at all.

Are you a persistent cussor, brother? If so, don't be surprised if your young son follows in your footsteps.

The example of the father can hardly be denied the son.

Habits formed in youth are seldom changed or forgotten in adult years.

People who are unable or unwilling to raise children properly should refrain from bringing them into the world.

If a man promises to pay you a certain bill on a certain date you expect him to keep his promise.

If he fails to pay his credit is impaired, your confidence in his intentions is shaken, and your respect for him is in a measure destroyed.

And all for one little broken promise!

It requires many years of correct living to build up a reputation of value.

One false step may destroy it.

Look before you step, and THINK BEFORE YOU PROMISE.

Yards of cloth dyed red, or white, or blue, or all of these colors, mean nothing. You may pass them a thousand times without giving them a second thought.

But work that cloth into an American flag and it becomes at once the symbol of the greatest heritage of mankind—liberty.

The man who loves his country will respect its flag. He will not treat it as yards of cloth.

The man who does not respect his flag can not, under any possible stretch of the imagination, be classed as a lover of his country.

We have many of the one, and too many of the other.

Study your neighbors, and your friends, but let that study be in a spirit of fairness and impartiality.

They all have their faults, which are more often upon the surface and open to criticism.

But they also have their good qualities, which are generally under the surface, felt only by the few and unknown to the many.

Most men have more good qualities than bad ones. But the bad ones, like the skunk, command instant attention, while the good ones are passed by without notice.

Never get peeved at the fellow who fails to laugh at your jokes. You can always let out a few yourself.

BILL SAM'S DICTIONARY

By J. L. MARTIN

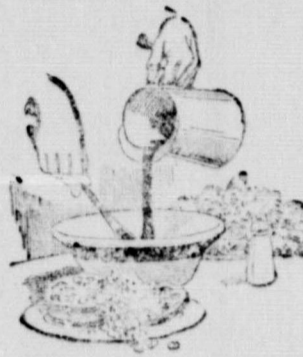

Lem Gardner's recent illness has had all the doctors of Taterhill and Hog Creek Ford puzzled for several days as to whether Lem has gastro-duodenitis or appendicitis. Lem says he hopes that the doctors finally agree that he has the disease that doesn't require an operation.

GASTRODUODENITIS: Old-fashioned bellyache with a Greek and Latin education. Bill Sam's Dictionary, page 491.

APPENDICITIS: A disease that usually requires an operation to determine whether the patient would have died, even if the operation hadn't killed him. Bill Sam's dictionary, page 74.

Begin Buying Lubrication Not Just Oil

Would you use motor oil for salad dressing?

Ridiculous, of course! Neither would you put olive oil in your crankcase. Yet both are oils—but what a tremendous difference!

SUNOCO is a motor oil, but it's not just "ordinary oil." When more car owners recognize this difference, there will be more cars in service and fewer laid up for repairs.

We sell SUNOCO lubrication—not just "oil." Try it and you'll be astonished at the difference in your engine power, gasoline mileage and repair costs.

THE PROPER COURSE

Information of Priceless Value to Every Crowell Citizen

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of a Crowell citizen who used them and who publicly tells of the benefit derived?

Mrs. M. E. Young, Crowell, says: "My back began to pain and my kidneys were out of order as they acted irregularly. It only took a few of Doan's Kidney Pills to cure me of the trouble and put me in fine shape."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Young had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 46

The woman who is always giving other people "a piece of her mind" soon has none left for herself.

ASPIRIN

Say "Bayer" and Insist!

Unless you see the name "Bayer" on packages or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for

LEO SPENCER

Not What He Meant

An American tourist, looking into the
crater of Vesuvius, said: "Gee, it reminds one
of hades." An English lady in the party re-
plied: "My, you Americans have traveled."

The tourist evidently didn't say exactly
what he meant. We all make mistakes that
way sometimes, but when we tell you of the
reliability of our Bank as a safe place for your
funds, we mean exactly what we say. We
have fire-proof vaults, carry burglar insur-
ance, are conservative with our loans, and our
officers and directors are leading men of this
community. With us, it's safety first—last,
and all the time.

An excuse is only a poor substitute for an apology.

"Common sense" is misnamed. It is not so common.

Frequent Headaches

"I suffered with chronic constipation that would bring on very severe headaches," says Mrs. Stephen H. Kincer, of R. F. D. 1, Cripple Creek, Va. "I tried different medicines and did not get relief. The headaches became very frequent. I heard of

Theford's

BLACK-DRAUGHT

and took it for a headache, and the relief was very quick, and it was so long before I had another headache. Now I just keep the Black-Draught, and don't let myself get in that condition."

Theford's Black-Draught (purely vegetable) has been found to relieve constipation, and by stimulating the action of the liver, when it is torpid, helps to drive many poisons out of your system. Biliousness, indigestion, headache, and similar troubles are often relieved in this way. It is the natural way. Be natural! Try Black-Draught.

Sold everywhere.

Disqualification of the Various Breeds

By F. W. Kazmeier, Poultry Husbandman, A. & M. College of Texas

In the fall and winter poultry shows and fairs are very common in all sections of the state. We have many fairs at which poultry is shown. Later, we have the winter poultry shows, at least one in each county. Then we have the district poultry shows such as the one at Amarillo. The object of these shows is to create more interest in better chickens. The beginner especially is appealed to, to exhibit because he can learn a great deal at any of these shows. At first he should try his or her luck at some of the county fairs, or district poultry shows before entering in any of the state meets.

I have judged hundreds of poultry shows in Texas, in all sections, and I must say that this article should appeal to many, based on the stock they show only too often. A chicken that is to win at a poultry show must come up to the standard as set for each breed by the American Poultry Association at Fort Wayne, Indiana. This standard for each of the breeds is compiled in a book called the Standard of Perfection, and we would recommend all beginners to get a copy of this book, from the previously named association for the sum of \$2.50. This book is needed by every one that desires to show chickens at poultry shows.

At the poultry shows the judge that is hired to place the awards is instructed to follow the standard as set up in the book mentioned by the organization mentioned. The first thing a judge does when he starts judging, is to examine each individual for so-called disqualifications. If he finds any of these disqualifications, he disqualifies the bird, places it back in the coop. He is through with that

bird and that bird can win no prize whatever in that show and in no other, unless in some way the disqualification disappears, which seldom happens, unless the owner gives the necessary help. Before he undertakes to do that he better know what he is doing or somebody will discover it and the bird will be thrown out as a faked bird and the entire string of birds entered by the party may be ruled out of the show or at least the winnings.

By disqualifications, we mean so-called defects found on a bird that the American Poultry Association has labeled as serious enough to warrant disqualification in the show room. No such a bird can win a prize and should of course not be used in the breeding pen. These disqualifications are made and enforced to perpetuate type and other standard requirements of the various breeds. It is a wise provision and is largely responsible for the high stage of perfection reached in our many standard bred varieties of fowls of all kinds.

Stubs, Feathers or Down Where It Should Not Be

We know that the clean legged varieties, like all Rocks, Reds, Wyandottes, Orpingtons, Leghorns, Anconas, Minorcas, Sussex, Andalusions and others must have clean shanks and toes. Any feathers or down (which is a baby feather) stub or holes showing unmistakable signs of feathers or down having been plucked from the same shall and must be used as a disqualification; and the judge is requested to disqualify the bird. We would like to ask exhibitors to carefully examine each and every individual very carefully in the sections mentioned. Do not take for granted that you have good stock and that they do not possess these disqualifications. Better be safe than sorry. We have found these defects in birds shown by professional exhibitors. They had overlooked them. We have found them in all varieties of fowls, in large numbers in smaller shows; for this reason ask them to go over the birds very carefully before entering them. Also remember that if you enter a pen, and one bird has any disqualifications, that disqualifies the entire pen. We have found these feathers on Leghorns especially between the toes, also on the shanks, and they are more or less common on Rocks, Reds and Wyandottes. If in examining the shank you notice a place that looks suspicious take the end of your thumb and gently run it down the side of the shank over the place, pressing down to force out anything that may be hiding beneath the scales. We have observed down to grow out over night in the show room. Do not try to pull it out and bring the bird to the show room, even though you might be successful in winning, because it is not honest and the bird has no breeding value and should not be used in the breeding pen. The disqualifications breed on or are transmitted by the parent to the offspring.

It was a wise provision of the American Poultry Association to protect breed type and characteristics by calling serious and hereditary characteristics disqualifications and asking all the judges to enforce them.

Side Sprigs on Comb

Another rather common yet very serious defect is what is known as side sprig or sprigs on combs of all single comb varieties. By a side sprig we mean a growth on the side either side of the comb resembling the serration or point on the comb, but growing on the side of the comb instead of on top of the comb. A side sprig is any size of growth, no matter how small, on either side of the comb. It is found occasionally on all single comb varieties. It is a very serious defect and in the show room is a disqualification. It is considered a serious defect and should not be allowed to be found on birds used for breeders. Removing the side sprig with a sharp instrument is faking and unless expertly done is sure to leave a scar to tell the tale. Any positive evidence of such a removal also disqualifies the bird in fact the entire entry of birds made by the guilty exhibitor may be ruled out of the show room. Examine the comb of all your breeders and also those individuals you are planning on showing for these side sprigs. If in doubt, because sometimes the sprig is very small do not bring the bird to the show.

Clipped Wings

Many people make a practice of clipping the flight feathers of one or both wings to keep them from flying over the fences. According to the American Poultry Association this is disqualification. For this reason, do not show individuals with clipped flights or secondaries. The local show management may pass a ruling not to make this a disqualification and so instruct the judge. The reason this is considered a disqualification, is because unscrupulous exhibitors sometimes find off colored feathers in these sections and because they may be disqualifications they take to the habit of clipping them. Clipped flights, or course, do not injure the breeding value of the individual.

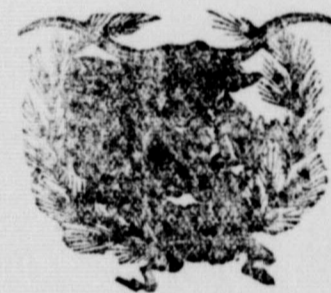

Hooked or Wry Tail

Another common disqualification but not commonly found in the show room is what is known as the wry tail. By this we mean, a tail drooping to either side perceptibly and not in line with the body. The reason this disqualification is not so commonly found is that the exaggerated cases are easily noticed, and most beginners know better than to show such an individual. However, we have observed quite a few cases where there seemed to be some doubt as to whether the bird had a wry tail or not. In other words, the wry tail was not pronounced. We recommend that all individuals with even the slightest habit of carrying tail a little to either side be kept at home and also discarded as a breeder. A wry tail will breed on because it is hereditary and transmitted to the offspring. Once

in a great time a bird with a good tail may be cooped and sent to the show, only later on account of being coopshy, develop a wry tail. They do this because they are afraid to let

the tail touch the side of the coop, as soon they develop slight indication of wry tail.

Disqualification of the Various Breeds

(Continued from Page 6)

Deformities

The standard very wisely makes all deformities, like deformed back, crooked breast bone, blind in both eyes disqualifications and properly so. Such characteristics show weaknesses and such individuals should be ostracized from the breeding pens. Such individuals are fit for nothing but the market at the earliest possible time. It would be well for all beginners to read this carefully and cull rigidly, accordingly.

Squirrel Tail

By a decided squirrel tail, we mean a tail that stands up too straight. We have seen cases where the tail of the bird touched the comb. This is course was an exaggerated case of squirrel tail. This defect is more or less common in Leghorns, Anconas, Minorcas, Andalusions and similar breeds. The tail must not be carried too high, or there is danger for the individual to be classed with squirrel tail birds and disqualified. Anyhow a high tailed bird has no chance of winning a prize, at least it should not. This disqualification is sometimes severely criticised by some breeders because they contend that the high tail is an indication of vigor and egg-production. We are not ready to believe that high tail is necessary for egg production. We however know that many high tailed pullets are extraordinary layers. We know that high tail does not make them poor layers, but we are not ready to admit that a high tail is necessary for heavy egg-production. We have found that one characteristic of the English White Leghorn is high tail. That one thing has led us to discontinue breeding the English strain pure. We prefer to add enough American strain blood to lower the tail, to make them appear more symmetrical. We just cannot help but admire a low tail bird, not to the extreme of course. We are not sure whether there are any people that admire the high tail bird. There may be such but we have never met them. In the Leghorns, Anconas, Reds, Rocks and most other breeds the low tail bird wins. In the Black Langshams as well as the White Langshams, the high tail bird seems to be

necessary to properly shape the bird. The Japanese Bantams also must have a squirrel tail to win. Other disqualifications are: entire absence of main tail feathers, absence of spike in all rose combed varieties, more or less than the proper number of toes and others, too numerous to mention here. However, we have mentioned the most common and important. There are in addition to these general disqualifications. These only apply in or to the breed referred to. For example, positive white in the ear lobes of Plymouth Rocks is a disqualification, as is red in the ear lobes of all Mediterranean breeds like tie leghorns. (Copyright, F. W. Kazmeier, 1922)

West Virginia moonshiners are said to be using skunks to outwit the revenue officers. The scent of the skunk obliterates that of the hootch, and officers are unable to locate the stills. Of course, if an odoriferous animal happens to fall into the mash it only serves to increase the flavor of the forbidden beverage.

Politeness, they say, costs nothing—but it does. It often requires a strain upon good nature.

Babyizing America

A year old baby may be large, and healthy, and vigorous, and strong, and if afforded proper protection it may grow into a mighty man of prowess.

But remove its protector during its years of helpfulness and it becomes an easy prey to any aggressor.

It is so with this country. Numerically, commercially and financially we are strong, and healthy, with a progressive and successful future ahead of us.

But, like the baby of tender years, we are only safe so long as we have a protector capable of repelling aggressive forces which greed and avarice may bring against us.

That protector is the navy of the United States.

If congress persists in reducing the navy to a state of impotency we will be helpless against sudden foreign invasion. And that, apparently, is what a majority of our senators and congressmen are intent on doing.

If financial retrenchment is necessary, we suggest that a horde of political barnacles be pried loose from the public payroll.

But keep the navy in a condition where it can afford us the necessary protection until an army can be formed.

If compelled to depend upon congressional oratory to defend us against foreign invasion we will be in a sad state indeed, regardless of the volume of noise that bunch can produce.

Babyizing America is the last step in congressional incompetency.

STOP THAT ITCHING

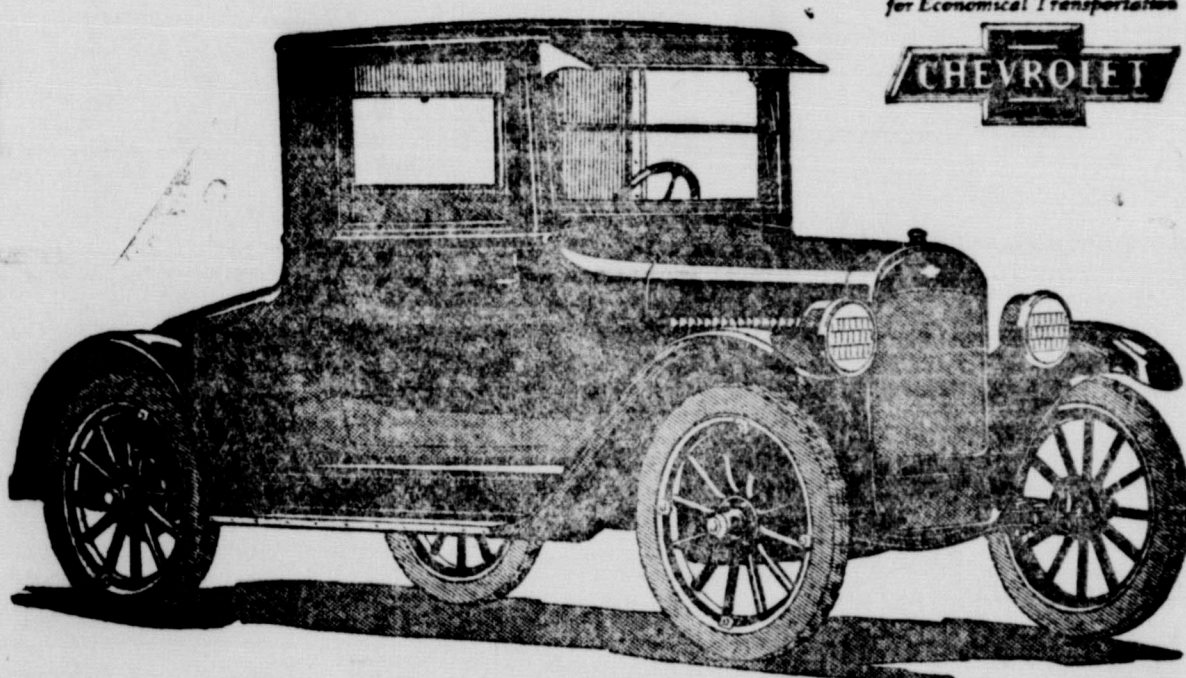

There is a lot of skin trouble among school children this fall. We will sell you a jar of Blue Star on a guarantee for Itch, Eczema, Tetter or Cracked Hands, Ringworm, Old Sores and Sores on School Children. Will not stain clothing and has a pleasant odor.—Owl Drug Store.

It is useless to expect a crooked man to give another person a square deal.

We have a good assortment of heating stoves to make your selection from.—J. H. Self & Sons.

Never try to convince the fellow who knows it all. It requires brains to absorb knowledge.

Any fool can make money, but it requires good judgment to hold onto it.

The 1923 SUPERIOR Chevrolet Utility Coupé

This is the lowest-priced closed car on the market with Fisher Body. It is bought extensively by concerns equipping fleets for salesmen, and is popular for professional and general use where a single seat and extra large rear compartment are desired.

QUALITY has been still further improved by more artistic design and added equipment.

ECONOMY has been still further increased by engineering refinements and greatly increased facilities.

SERVICE is now offered on a flat rate basis by 10,000 dealers and service stations.

PRICES of the new line remain the same in spite of added equipment and more expensive construction, which have greatly increased value.

Some Distinctive Features

Streamline body design with high hood; vacuum feed and rear gasoline tank on all models; drum type head lamps with legal lenses. Curtains open with doors of open models. Closed models have plate glass Ternstedt regulated windows, straight side cord tires, sun visor, windshield wiper and dash light. The Sedanette is equipped with auto trunk on rear.

Twenty Years from Now

What does the future hold in store for us as a nation?

Within the next twenty years, unless there is a radical change for the better in the relations of labor to capital, we will be torn by internal dissensions, if not prostrated by open civil war. Present conditions can not endure forever.

If the smouldering discontent now prevalent breaks out into revolution it will leave us a nation of cripples from self inflicted wounds.

SOW OATS NOW

Oats sown now would help reduce feed bills of the County.

In some parts of the county there has been sufficient rain to permit the sowing of oats. Oats sown now will likely make some grazing for stock besides giving some early feed next spring.

From all accounts there is not more than one-half enough feed in the county to make the next crop, and those who are not going to have enough feed could well afford to sow from five to twenty acres of oats.

Of course if the dry weather continues oats will fail, but there is a chance of growing some cheap feed.

FRED RENNELS,
County Agent.

CALOMEL USERS TAKE AWFUL RISK

Very Next Dose of Treacherous Drug May Start Terrible Salivation

The next dose of calomel you take may salivate you. It may shock your liver or start bone necrosis. Calomel is dangerous. It is mercury, quick-silver. It crashes into your bile like dynamite, cramping and sicken you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

That will be the psychological moment for a foreign nation with a grudge to launch an invasion against us with every hope of definite results.

The animosity between labor and capital must be removed in a fair and just manner, for the permanent good of both sides and of the millions of people in between.

It is more profitable to provide for the future than to bemoan the past.

How to Save the Price of a New Suit

Hundreds of thousands of prosperous people are doing it every year.

They simply take the old and shabby looking suit to a cleaner—and he does the rest. He returns it to them looking like a new one, and the owner saves the price of a new one.

We are the CLEANERS for this community.

Fordson Service Clinic

Monday, November 20, 9:00 A. M.

On Monday, Nov. 20th, there will be at our place several men from the Ford factory to instruct farmers who own Fordson tractors in the best methods of caring for and repairing their tractors. We are very anxious that every one who is interested in this work be present. We are going to considerable expense in this effort for your good, for we know you will be benefitted very much. Bring the boys

along. If you do not own a Fordson or any tractor come along anyway. The invitation is general. Don't be late, as the program will start at our place at 9 o'clock Monday, Nov. 20th. We have a program in the afternoon at which time you will be entertained by special pictures sent out by the Ford Motor Co. on power farming.
