Groceries Cheap, but Not Cheap Groceries

The housewife knows she is getting quality groceries when she orders them from this store. The firm name stands for quality. If we ever sell you cheap stuff we'll tell you it's cheap.

Our staple goods are as cheap as can be sold but we do not sacrifice quality for price. Considering the quality we sell groceries cheap, but not cheap groceries.

Wm. Wrigley's Ph

While riding on a train recently William Wrigley, the famous gum manufacturer, was approached by a man who addressed him:

"Pardon me, Mr. Wrigley, but do you know you're wasting a lot of money?"

Mr. Wrigley, always anxious to learn anything about his business, asked in return, "How?"

"Why, in advertising!" the man replied. "Your product is so well known you don't need to advertise!"

"My good man," Mr. Wrigley answered him, "do you know what would happen if we were to cut the engine off from this train?"

"The train would coast along a mile and stop, I suppose."

"Exactly," replied Mr. Wrigley. "That's just what my business would do if I stopped advertising. Advertising is the engine that furnishes the motive power for my business."

Baptist Church Notes

The B. Y. P. U. elected new officers last Sunday evening, with a good crowd present and much enthusiasm and a true Christian spirit throughout.

The T. E. L. Class has thirty-six active members and ten associate members who teach in the Sunday School. If you are a young married woman and believe in the Baptist church we invite you to work with us. The social calendar arranged by Mrs. J. N. Carter, Mrs. Speck and Mrs. Dunagan is now ready for your inspection and co-operation.

The new officers of the Sunbeam band are a loyal set of youngsters and we are very grateful for the work of our children. Every child in town welcome at the Sunbeam band that meets at two-thirty Sunday afternoon.

The Sunday School teachers adopted the teachers' covenant at the teachers' meeting Tuesday evening. If you teach in this Sunday School you must live close to God. Hear the covenant read at Sunday School next Sunday.

The new officers elected in woman's auxiliary were Mrs. Lus Campbell, president; Mrs. Griffith, secretary; Mrs. Oswald, second vice; Mrs. Bert Self, third vice; the others remaining as they were. Only fifteen ladies were out Monday. Should have had thirty. Come next Monday at 3 o'clock and enjoy this meeting with us. —Church Reporter.

Rexall ORDERLIES

Much time and thought have been expended in the effort to produce a medicine that would keep the bowels open and relieve constipation. A thorough test has been made of Rexall Orderlies and the universal testimony is that they come as nearly producing the desired results as any other laxative on the market today. They are everything that is claimed for them and when you have tried them for a short while your favorable testimony will be added to those already enrolled.

Your health this summer should be guarded by looking after the excretory organs and see that they function properly by using Rexall Orderlies.

Notes from the Intermediate League

The Junior and Intermediate Leagues met Sunday at 2:30.

We were delighted to have with us Miss Mittie Lee Allen, who gave us a helpful talk.

We voted to change the hours of meeting from 2:30 to 5:30. We also voted to take for our regular study for the summer, "Lessons in the Life of St. John." Each leaguer is assigned some special part to bring up in our lesson Sunday afternoon.

The Juniors are each requested to come and bring their horns. After our lesson at the church we will go to the homes of some of the "shut-ins" and give a serenade.

Let our delegates who went to Quanah come prepared to give a report of the meeting.—Reporter.

Obituary

Allie Louise, daughter of Mr. and Mrs. John H. Greening, was born July 2, 1913, and May 29, 1923, at 3:10 o'clock p. m., she left this old world for a home beyond the skies and the tomb after suffering intensely for 11 days. God said, "it's enough little girl, come up higher," and today as the fond parents weep because their little girl has gone, she is basking in the sunlight and glory of God's eternal love, called home before the rank weeds of sin had sprung up in her innocent life. She was not in your home long to brighten it with her sweet smiles and gentle words, but she did not live in vain, for while here she gathered up affections of father, mother, brothers sisters, and loved ones who can never forget those sweet words and smiles she gave us while she was suffering so, and carried them to heaven and today with one little hand clinging onto the pearly gate, the other is stretched earthward beckoning this way papa, this way mama, this way is heaven.

How sad it will be to all when they see her little shoes and things. How sad to think of Allie Louise and Mary slide by side going to Sunday school and play. Little did they dream that so soon one would be gone. But how soon God can lay his loving hand on our dear ones and gently pluck them from our embrace, and as we look out and see that winter has died in the lap of spring and all nature seems to speak cheerfulness, yet way down in the hearts of papa and mama it is

so sad and lonely without the merry laugh and chattering voice of Allie Louise who was so kind and sweet.

Dear parents, as the days go by and the world goes on, we know the sympathy of your many friends is a great comfort, yet back of it all we can only point you to Him who "suffered the children to come unto Me."

God grant that in this dark hour of sorrow you may feel that God doeth all things well and be able to train her brothers and sisters to meet her and that you may make an unbroken family in heaven, is the prayers of her aunt, MRS. P. P. COOPER.

Try Your Dollar Here

Cash has tremendous purchasing value now, but it will go no further at any other grocery store in Crowell than it will here. All you have to do to be convinced of that fact is to give your dollar a chance here. It will do its full duty. Cash is what we need and groceries is what you need. Surely we can get together on a deal when you want things to eat and we will both be happy.

All we ask you to do is to rattle the coin or wave the long green. Both can talk and that loud, too, at this store.

Remember this: We will sell you groceries as cheap as anybody in town. We propose to meet competition and let you be the judge.

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, June 15, 1923

If eastern editors will come to the Texas Press Association next year, which will be held in Amarillo, maybe they will get some idea of the great country we have out here. Some of them have seen our country, but many of them have not, and a trip like that will possess an educational value worth much to them. They will behold an empire making great progress. They will see the most rapidly developing section of the State, and they will come in contact with the biggest hearted and most American people in the country. It is fitting also, that Sam Brazwell of Clarendon should be elected as president of the association. Sam is the best man in the Panhandle to preside at the meeting. Glad of the arrangements. Things are coming our way fast.

The ads in this paper are a portion of its news—store and shop news. It is too important to be overlooked, therefore you should not fail to read the ads in the News. Not only is it news of its kind, but oftentimes ads are a direct money saving proposition for the reader. It is seldom that special bargains are not offered through this paper and if you fail to see these you may miss an opportunity to save real money. Ads that do not offer special bargains always carry some thought that may be suggestive to you about your buying, so that all advertising is intended to serve as a guide to the buying public.

We should like to see Foard County give the proposed amendment to the Constitution a vote in July of 100 per cent for. But some people likely will vote against it. The same would be true if we needed a courthouse and were now launching a campaign for it. To be "agin" anything, or everything, as for that matter, is our privilege, and after all there is no criticism against the man who is against or for a proposition. The thing to be insisted upon is that every man arrive at a decision after careful thought and consideration. Let us study the amendment proposition and be ready to vote when the time arrives.

There have been scores of planters running this week replanting the cotton that was destroyed, or badly damaged last week by the sandstorm. These newly planted fields will soon be green with growing cotton and

will make good crops, if no serious calamity befalls them. There is time yet and the ground is wet and conditions are favorable for rapid growing. The cotton and other row stuff is doing as well as was ever seen. Foard County, in our opinion, is sure to have one of the biggest crops of cotton and feed this year in its history.

If the lands belonging to the State University prove to be valuable for oil that institution ought to get along without any help from the citizens. In that event the money now going to the support of the University would be a mighty help for the public schools. But let us not get our sights too high over the prospects of oil for the University. A 300-barrel well might mean much or it might mean little. Oil fortunes are always shifting until after they are salted down in the bank.

Capt. Nusbaum's lectures at Verner are reported by the Record to have brought splendid results. A campaign was put on for a membership drive for the Chamber of Commerce and the number is around 1,000 and the cash budget is around \$8,000. The addresses, says the Record, have been inspiring and his services leave the city in better condition than ever to move forward. Capt. Nusbaum is doing a work that no other man in the country is doing, and it will be helpful to any town that will co-operate with him for a week of his services.

Anybody can boost the town when he feels like boosting. But it is not best to yield to feeling always. The trouble may not be in the town or with our neighbors, but nearer home. Possibly it is with us. Let us master our feelings, and in so doing we become masters of ourselves. The time when the town needs most boosting and the time when people need most sympathy and help is when the silver lining of the cloud is turned from us.

As you go through this issue of the News you will notice that many of the ads are dressed up with cuts. These are made in the News shop. We are proud of the service we are able to give by means of the Bonnet-Brown service. These cuts give an individuality to the ads that will give them unusual drawing power.

The New Psychology. So long as all kinds of wrong conduct, or even wrong belief, were held to be the expression of an evil will subject to no causes outside itself, there was no way of dealing with them except by punishment, which was usually itself a mechanical reaction and blind in its effects. But, as soon as wrong conduct and wrong belief were seen to have causes that could be discovered, their causes were sought, and sometimes found, with the best results. The new psychology is based on the assumption, constantly confirmed by experience, that there are causes for all error and evil in the mind; and its great discovery is that the mind, when aware of these causes, will, with the whole of itself, resist and often overcome them.—Arthur Clutton-Brock in the Atlantic Monthly.

Militarism in Miniature. It would be ungalant to charge the grand duchess of Luxemburg with militaristic designs against the peace of the world. Yet it is a fact that she has enormously increased the size of her army by no less than 100 per cent—from 250 to 500 men. However, before this enlargement, hers was not the smallest in European armies on record. The prince of Liechtenstein in 1800 placed his entire army at the command of his ally, the emperor of Austria. It consisted of seven men and a drummer. Nevertheless, the prince was a great warrior. He organized in his capital a war museum, the principal piece a pair of gloves which had belonged to Napoleon, all black from the smoke of battle. Unfortunately the princess had them cleaned!

Baseball Follows the Flag. Baseball follows the flag. Wherever the United States marines have been stationed abroad the lure of the American national game has spread like wildfire. In China, the Philippines, the West Indies, and elsewhere native teams have been organized. Some of them play remarkably. The Filipinos are experts. The Chinese and Japanese play the game well up to professional standards, and the natives of Nicaragua threw their national pastime of cock-fighting into the discard after they saw the game played by United States marines who had landed in that country in 1912 to suppress a revolution.

April Superstitions. April's jewel is the diamond, which is the emblem of success, and if worn when going to some important appointment it will bring you luck. The lucky flower for April is the primrose, and, whether natural or artificial, brings luck to those born in this month. April is a lucky month for marriages, but those no longer young should choose another month, for April brings luck to young people's weddings only.

PIECE GOODS

The most important thing in buying piece goods is to get the correct yardage. You want just enough, but not too much, because too much is money spent to no avail. So it is worth while to have some one in the store who can tell you the exact number of yards to buy for your dress.

Mrs. French has charge of our piece goods, and as she has had experience in dress making for the past five years she can be of great help to you in telling you just how many yards to buy and just how to make your dress.

Our piece goods department has many new patterns in the voiles, zepthers, ratines, French gingham, silks, crepes, etc. Visit our piece goods department. We are pleased to PLEASE YOU.

Conclusions

Probably you've heard men say "Rats! They sit in their offices in town and raise Cain about the cow, the sow and the hen—Nothin' to it! didn't old man Smith try it? and didn't Bill Jones try? etc., etc."

If those men could see the records as we can—could know what a difference it makes in the credit standing and in the bank balances of people who raise cows, hogs and poultry, they wouldn't have to jump at conclusions. 90 per cent of the trouble—when there is trouble—is with the men who manage them—not with the stock.

This bank has no livestock to sell. We want to see prosperity in this community. Our records show that prosperity comes with cows, hogs and poultry on the farm.

MEDICAL JOURNAL EXPLAINS CAUSE OF "MARATHON DANCE"

The following item was given the News by Dr. Hines Clark and it is taken from the Journal American Medical Association. It is the best explanation we have seen of the disease that has seized many people over the country causing them to dance days and nights without interruption. The article has as its caption "Tonics and Sedatives," with a subhead "Dancing Around." It follows:

The "marathon dance" is a form of hyperexcitability characterized by a lack of inhibition in the nerves controlling the pedal extremity.

Etiology.—It begins with an itching sensation in the desire for publicity. Contributing causes are the building of so-called dance palaces which need sensationalism to provide a clientele and the stimuli received through the auditory nerves. The stimuli may be either the clinking sound of the monetary consideration or the orchestral din known as "blues."

Pathology.—There is an almost complete lack of mentality. By the Binet-Simon test the mental age is similar to that of the fetus in the third month. The lower limbs have apparently developed at the expense of the rest of the organism.

Epidemiology.—The condition seems to have arisen spontaneously somewhere in England or France, apparently setting at rest all debate as to the existence of spontaneous generation. It spread westward to New York, thence south to New Jersey and Washington following the lines of travel. Curiously Boston seems to have escaped and also Philadelphia, which is explained by certain attributes presumed to be inherent in the population of those cities. Sporadic outbreaks occurred in Cleveland and Detroit, but several cases in Chicago were caught in the incubation period and the epidemic was checked.

Symptoms.—The disease occurs in pairs, male and female. The first symptom is a lack luster look in the eye indicating the departure of the mentality and the previously mentioned itching sensation. Next comes a tickling in the soles of the feet intensified by the adventitious "blues" described as contributory causes. At this moment those affected clutch each other vigorously and begin to move about, the face having a characteristic adenoal expression. The breathing is rapid and irregular. The liver moves upward and downward rhythmically. Other symptoms related to the digestive and genitourinary tracts have not yet been fully explained although one seizure has been reported to have lasted 107 hours.

Prognosis.—Hopeless. As the great clinician Coco said, "Once a nut, always a nut."
Sequelae.—There is a loss of leather

from the feet; the itching sensation once established is permanent.

Bibliography.—Among the authorities who have commented on this condition is the Pittsburgh Sun: "They may suffer, but these non-stop dancers at least won't have to be treated for brain fever;" the New York Post: "One way to discourage some of these ladies from their exhausting endeavors would be to insist that the dancing be done only with their husbands;" the National Editorial Bureau: "A New York man has eaten nearly nine pounds of steak at one sitting. A Cleveland girl danced for more than fifty hours. Gee! We wish we could do something great like that!" and Toblitsky, who said: "Where there is no sense, there is no sensation."

PAY WHEN YOU CAN—BUT PAY

I do not cuss the man who's slow
To pay because he's poor;
But, oh, the man who lets it go,
I never could endure!
I'll trust the hardop man, I say,
His credit I will double,
But darn the fellow who could pay,
But doesn't take the trouble.
I'm glad to help the man who tries
To pay when he can;
That sort of fellow seldom lies,
That sort of man's a man.
I'll keep him warm and keep him fed
I'll be his friend and father;
But darn the man, as I have said,
Who doesn't want to bother.
If all the fellows who could pay,
Yet let things run long,
Would just write out a check today,
This life would be a song.
I love the poor man who is slow,
(You maybe think it's funny.)
But hate the man who has it, tho,
And doesn't send the money.

Be it resolved by the Legislature of the State of Texas:

Section 1. That there be submitted to the people of Texas, for ratification or rejection at a special election provided for herein an amendment to Article 8, of the Constitution of the State of Texas, amending said Article 8, of the Constitution of the State of Texas by adding thereto a new section to be known as Section 9a, which shall read as follows:

Sec. 9a. The Legislature is authorized and directed to provide for the creation, establishment, construction, maintenance and repair of a system of improved highways throughout the State to be under the control of the State; and in order that the State may provide the means, revenues and instrumentalities the establishment and maintenance of such system of highways, the Legislature is empowered to levy and cause to be collected specific excise and ad valorem taxes, in addition of those permitted for other purposes in the Constitution, but such an ad valorem tax shall be imposed only for the purpose of retiring the bonds authorized by vote of the people of this State as provided for hereinafter in this Section.

When said system shall have been designated and taken over for the State as provided in Section A hereof, the Legislature is authorized to make provision for the equitable compensation to such counties for the value of such improvements as have been theretofore constructed by the Counties in the State.

Provided, also that save for the State highway system, in all other respects, Counties shall have the right to build, construct and maintain roads, turnpikes, and bridges within their respective boundaries and the Constitutional provisions relating thereto are not qualified or repealed by reason hereof.

The Legislature, at any Regular or Special Session, is authorized and directed to pass and enact all appropriate legislation necessary to carry out and effectuate the purpose and intent of these Articles.

Sec. 2. The Governor of the State is hereby directed to cause to be issued his necessary proclamation for an election to be held on the fourth Saturday in July, 1923, at which

election this amendment shall be submitted to the qualified electors of this State for adoption or rejection and shall make the publication required by the Constitution and Laws of the State. Said election shall be held under and in accordance with the General Election Laws of the State, and the ballots for said election shall have printed or written thereon in plain letters the following words:

"OFFICIAL BALLOT:" "For the amendment to Article 8, of the Constitution of the State of Texas, providing for a State system of highways." "Against the amendment to Article 8, of the Constitution of the State of Texas, providing for a State system of highways."

Those voters who favor such amendment shall erase by marking a line through the words "Against the Amendment to Article 8, of the Constitution of the State of Texas, providing for a State system of highways." Those who oppose such amendment shall erase by marking a line through them, the words, "For the amendment to Article 8 of the Constitution of the State of Texas, providing for a State system of highways." And the result of the election shall be published and declared according to the majority of the votes cast in such election.

Sec. 3. The sum of Five Thousand Dollars or so much thereof as may be necessary is hereby appropriated out of any funds in the treasury not otherwise appropriated for the purpose of paying the necessary expenses of the proclamation and publication of this amendment and the election to be held hereunder.

S. L. STAPLES,
Secretary of State.

\$40,000 FIRE LOSS IN HASKELL COUNTY TOWN

Haskell, Texas, June 11.—The entire north side of the business section of Weibert, a small town in Haskell County, was destroyed by fire Sunday afternoon. The blaze started in a grocery store. Six business houses and stocks were consumed. Part of the contents were saved, but the loss amounted to about \$40,000, including the postoffice. The Haskell chemical engine answered the call, but on account of muddy roads arrived too late for assistance.

Inactive Liver

"I have had trouble with an inactive liver," wrote Mrs. S. Nichols, of 4412 Spencer St., Houston, Texas. "When I would get constipated, I would feel a light, dizzy feeling in my head. To get up in the morning with a lightness in the head and a trembly feeling is often a sign that the stomach is out of order. For this I took Thedford's Black-Draught, and without a doubt can say I have never found its equal in any liver medicine. It not only cleans the liver, but leaves you in such a good condition. I have used it a long time, when food does not seem to set well, or the stomach is a little sour."

Columbian Club Notes

The members of the Columbian Club entertained a few of their friends with a sumptuous supper at Sloan Springs last Thursday evening. This is one of the social events of the club year that is always looked forward to with much anticipation. There was everything good to eat, from meat ranging in variety from chevon to fried chicken, to ice cream and cake with sandwiches and salads galore.
Mrs. O'Connell and Mrs. J. L. Hunter entertained the last regular meeting of the club at Mrs. O'Connell's home.
The club regrets to lose Mrs. Hub Speck as a member. She will move to her new home in Lamesa this summer.
Mrs. H. K. Edwards has recently returned from a visit in Clarendon.
Mrs. T. P. Reeder spent Monday in Knox City.
Mrs. C. E. Hutchison of Covina, Cal., and Mrs. Luther Roberts of Oklahoma City, former members of the club were guests at the picnic.
Mrs. T. L. Hughston attended a meeting of the Young People's Missionary Society of the Vernon District at Quannah Tuesday.
Miss Winnie Self will attend the Colorado State University at Boulder this winter.
Mrs. F. H. Crews has moved to the farm for the summer.
Mrs. Chas. Ferguson was on the sick list last week.
Mrs. W. C. Thompson had as her guest at the picnic Mrs. Dorothy Fast of Mexia.
We are glad to welcome Mrs. T. B. Klepper as a new member of the club.
Miss Litha Crews has been elected history teacher in the High School.
Mrs. Percy Ferguson returned last week from a visit with her mother at Roby.
Mrs. R. L. Kincaid took her son, Merl, to Quannah on the train Sunday afternoon. He will attend Clarendon College this summer.
Mrs. A. Brian has as her guest this week, Mrs. Johnson, of Trent.
Miss Jode Brian is assistant librarian at C. I. A. this summer and is doing special work toward an A. B. degree.
Mrs. P. J. Merrill of Hereford, a former member of the club, passed through Crowell last Friday.
Mrs. S. T. Crews held her annual music recital at the Methodist church last Tuesday night. This was declar-

ed to be the best of Mrs. Crews' many successful recitals.

CARS, TRUCKS AND ROADS

The automobile is rapidly turning the country into one vast expanse of good roads—up to a certain point.
When the first primitive car made its bow to the public a few years ago our highways in rainy weather represented miles after mile of mud and slush, through which horse drawn vehicles had to plow at a snail's pace.
Now hard roads are everywhere, and paved roads are gradually replacing them.
The present system of road paving, however, is only a temporary makeshift. The roads are entirely too narrow for safety and are not made to stand up under heavy truck traffic.
It is only a question of time when public highways will be paved the entire width of the right-of-way, with a foundation and surface sufficiently substantial to accommodate any kind of heavy traffic.
The automobile alone will not bring this greater improvement, but the motor truck will eventually force its adoption.
The time is coming when much of our freight will be hauled in motor trucks, with great caravans of these monsters reeling off the miles at freight train speed.
This will relieve the terrific handicap, caused by car shortage, under which the country is staggering today.
Coming into direct competition with the railroads, it should also result in a material reduction in freight rates.
If you think the motor industry will not compel the widening and paving of all of our country roads, just hang onto life for another fifty years.
You may be so pleased with the transformation you will not want to leave it even for the sake of driving through the pearly gates.
It is better to set a standard of your own and live up to it than it is to try to copy somebody else and fall down on the job.

MUST HAVE IRONING BOARD

Really indispensable Article for Those Unfortunates Who Are Known as "Roomers."

There are many things that boarders and roomers have not, observes the New York Sun. But there is one thing they have, the fair sex, at least, short or tall, thin or fat, freckled or fair, whether they pay in advance or leave their baggage as security for back rent. It stamps them as one of the tribe. And that one thing is an ironing board. The board is usually a nondescript bit of pine or oak, around which has been wound a towel or unbleached muslin. It is of a size which will fit in the ordinary wardrobe trunk, and the fact that it is strictly taboo with landladies the land over makes it doubly treasured by its devotees.
Of course, it is used for an ironing board. When the covering is removed and the board stretched across an open bureau drawer it becomes a writing desk. Later it serves as a card table, and now and again, when mildy treats herself to the luxury of breakfast in bed, it groans under the weight of a pot of home-brewed coffee and an egg boiled over an electric grill. Placed over the radiator, it becomes a convenient book shelf. Placed across a cane chair bottom one may stand on the chair without the fear of suddenly plunging through the seat. In fact, timid maiden ladies have even been known to prop the ironing board up beneath the knob of their door and breathed easier when it was sturdily in place. Veteran boarders and roomers say no home is complete without one, and no such home is.

DIDN'T WANT JOB, AFTER ALL

Sam Preferred to Be Party to Conversation in Which Bravery Would Be Praised.

In a certain town south of the Mason and Dixon line there lived a negro whose time was spent mainly in hanging round the sheriff's office. At every chance he would beg the sheriff to appoint him a deputy, and in self-recommendation would boast loudly of his courage and ability.

One day a notorious bad man from the back country drifted into town. Thinking to have a little fun with the negro, the sheriff informed him that at last he had concluded to grant his wish.

"And, Sam," he said, "Mose Allemece is in town, and your first duty will be to go out and get him. Of course, Sam," he went on, "you know Mose is a bad man and mighty quick on the trigger. But if he happens to kill you, remember we will all be round on the street talking it over and saying what a brave deputy you were to go after him."

Sam's eyes opened wide. Finally, shaking his head, he backed away precipitately.

"Cap," he said, "I done concluded I don't crave that deputy job after all. That there kind of conversation you was talkin' about is just the kind I likes to take part in myself."—Everybody's Magazine.

Build Behind Cloth Screen.

One thing I saw in Buenos Aires puzzled me more than any other—the curtains carefully put around buildings in course of construction or remodeling. In the United States a covered way over the sidewalks protects the pedestrians from falling timbers and plaster, while the skeleton of the new structure looms high above in stark nakedness.

But the builder in Buenos Aires is more modest. He puts a high board fence three-fourths of the way across the sidewalk and tops it with cloth many yards high. Behind this screen the edifice grows until one day the flimsy barricade is removed, revealing a structure elaborately decorated with lions and cupids and cement scrolls.—Frances S. Harris in World Traveler Magazine.

Where Nature is the Cook.

Free public camp grounds, with fireplaces for cooking and heat furnished by nature, are among the conveniences provided by the Department of Interior for the camper in national parks. In the recently completed campground in Hawaii National park not only the fireplace, but natural heat also is supplied. This is accomplished by building the fireplaces about one hundred feet from the edge of the firepot of Halepanuanu.

Over hot cracks comes up heated air, free of gas, smoke or ashes, says the Department of Interior. One of the advantages of these "fireless cookers" is that they are always ready for the next meal. A recent party of 35 persons baked their potatoes, boiled their coffee, and did all their cooking in the natural fireplaces.

Woman in Unique Position.

Miss Jessie Benedict, of Warwick, New York, is believed to be the only woman in the United States to become head of an organization of Civil War veterans. She has been elected president of the Orange Blossoms, the survivors of the famous One Hundred and Twenty-fourth regiment, New York volunteers, of which her father was a member.

Showing Time's Change.

Mrs. Myra Bradwell of Chicago in 1869 applied for a license as an attorney-at-law and was refused by the Superior court of Illinois, the Supreme court of the United States affirming the decision; now there are many in the state, women being admitted to practice by statute.
