CROWELL, FOARD COUNTY, TEXAS, FRIDAY, JANUARY 16, 1931

8 PAGES \$2.00 A YEAR

J. R. EDGIN DIED AT HOME HERE TUES., JAN. 13

J. R. Edgin, 64, resident of Crowell for the past twenty-three years, died at his home here Tuesday afternoon at 1:05 o'clock. Mr. Edgin suffered a stroke of apoplexy, his blacksmith shop last Thursday and after the discovery of his condition by Toke Yount he was taken to his home. From that time until his death he remained in an unconscious and semi-conscious condition.

Mr. Edgin became dangerously ill last October and was confined to his bed for about seven weeks. He never recovered from this spell of sickness although for the past several weeks he had looked after duties about his blacksmith shop.

Funeral services were held Wednesday afternoon at three o'clock in the Baptist church with Rev. Woodie W. Smith, pastor of the church, and Rev. J. E. Billington of Paducah, former pastor, officiating. A quartet composed of Mrs. A. F. Wright, Mrs. T. B. Klepper, Rev. John Cohen and A. Y. Beverly sang "Where We'll Never Grow." Mr. Edgin's favorite song, "Looking This Way," was sung by a quartet composed of R. H. Cooper, E. A. Dunagan, J. A. Wright and Rev. Smith. Mrs. Paul Shirley at the piano and Mrs. Alva Spencer, violinist, accompanied the musical numbers.

Bearers were: Grady Magee, Alva Spencer, L. A. Andrews, Oscar Boman, Jeff Bruce and George Self. Flower bearers were Misses Theda Laverne Wright, Ollie Mae Smith and Jo Roark, and Mesdames R. D. Magee, C. C. McLaughlin, L. D. Campbell and W. T. Clift, and Joe Reavis Spencer.

Interment was made in the Crowell cemetery under the direction of the local Masonic Lodge, which also had charge of special services at the church.

James Robert Edgin was born in Kentucky, Arkansas, March 21, 1866. He was converted and joined the Baptist church at the same place at the age of 18 years.

On August 12, 1885, he married Margaret A. Wright and to this union was born five children, Lillburn, Tip, Beulah, Icy and Ella and of this group Tip and Ella, now Mrs. Arnold Rucker of this city, are the only survivors.

Mr. Edgin's wife, two brothers, G. L. Edgin of Tolar, Texas, and Tommie Edgin of Hot Springs, Arkansas; one sister, Mrs. Dock Cornet of Little Rock, Arkansas; and two grandchildren, Lillie Mae and Edwin Edgin, also survive.

Mr. Edgin and family came to Texas in 1894, settling in Eastland County where he engaged in farming for two years. In 1896 he moved to Lingleville, Erath County, and he and his brother, G. L. Edgin, became engaged in the blacksmith business. In 1907 he moved to Crowell and for about two years he worked for G. A. Burks in a blacksmith shop here. Since then he actively engaged in the blacksmith business for himself. The home in which he died was the one he had lived in since coming to Crowell.

He was a charter member of the Women of the World at Lingleville and joined that lodge upon moving to Crowell. He was a Mason for over twenty years.

Throughout his life Mr. Edgin was a Christian gentleman. His quiet, unassuming and kind character endeared him to hundreds and to know him was to love him.

Out-of-town relatives present for the funeral were: G. L. Edgin of Tolar, Texas; Mrs. Ethel Edgin, Lamesa; Mr. and Mrs. Irving Brooks, Tolar; Mr. and Mrs. Henry Edgin, Mineral Wells; Billie Edgin, Tolar.

Friends from out of the county present were: Mrs. J. J. Hanna and son, Jack, and Miss Amy Hanna, of Quanah; Mr. and Mrs. T. J. Barnett and Walter Gayle, Electra; Mr. and Mrs. W. T. Clift and Mrs. L. D. Campbell of Vernon.

MUST PAY TAX ON AUTOS BY JANUARY 31ST

The last day that a motor vehicle may be lawfully operated that has not been registered for the new year is midnight of February 1, according to an opinion from office of the attorney general of Texas, Que Miller, tax collector, stated.

On the morning of February 1, any one operating a motor vehicle that has not been registered for the current year is subject to arrest and if the vehicle has been operating during the month of January without being registered, the owner is not only subject to arrest on February 2, but must pay a penalty of 20 per cent on the registration fee.

The number of motor vehicles registered in Foard County thus far is more than two hundred, which means that a great rush is bound to take place at the collector's office in the next two weeks, since the number of automobiles registered in Foard during 1930 to December 1, amounted to 1,381. There were 241 truck registrations in addition.

Drouth-Is Cause of Farmer Picking Only 15 Bales on 10 Acres

Due to the fact that 1930 was such a dry year for Foard County only 15 bales of cotton from the ten-acre patch, just south of the M. L. Cribbs' farm home in the West Rayland community, were picked during the past season, according to Mr. Cribbs.

In 1927, the last good cotton year for Foard, Mr. Cribbs gathered 31 bales from this same patch and for the past two years, 1928 and 1929, the same acreage has averaged close to two bales per acre for both years. Wilson Better Staple cotton was planted in the ten-acre patch for the past season.

From the eighty acres of cotton on the Cribbs' farm the past year, forty-two bales were produced.

No unusual or special effort on the part of Mr. Cribbs has been used in bringing about his record yields. Of course he practices good farming methods, but he is fortunate enough to be on a farm that is sub-irrigated from water that underlays the land at depths from 6 to 15 feet.

The water under the ten acres, that is accustomed to producing such record yields, is estimated to be at depths of from 6 to 10 feet. During the eighteen years that Mr. Cribbs has been on this farm, the cotton yield from this ten acres has averaged around a bale to the acre, according to Mr. Cribbs. It is located just north of the West Rayland school and about one mile south of Peace River. No fertilizer has been used to bring about any of the large yields.

CHILDRESS AND QUANAH BOW TO CROWELL HIGH

The Crowell High School Wildcats defeated Childress High School again last Friday night by the score of 21 to 18 in a hard-fought basketball game at Childress.

Crowell had a lead of 21 to 11 at the end of the third quarter, but failed to register a point in the last quarter while the Bobcats made seven. Childress failed to score in the third quarter.

The first quarter ended 7 to 2 for Crowell and the half ended 16 to 11. The late rally that Childress made caused the many Crowell fans, that accompanied the boys to Childress, to become very excited.

The guarding of the Todd brothers in the first three quarters was the outstanding feature of the game.

The Line-up

CROWELL	CHILDRESS
Lanier	Foust
Middleton	Davis
Burrow	Boyd
G. Todd	Johnson
J. Todd	Sikes

Substitutions: Crowell, D. Todd for Middleton; Hinds for Lanier. Childress, Newberry for Davis, Lotter for Foust.

The only defeats suffered by Childress this season have been at the hands of Crowell.

Quanah Game

In a game with Quanah High School at Quanah Saturday night, the Wildcats emerged victorious by the score of 36 to 16. Crowell showed no ill-effects of the trip to Childress the night before and had little trouble in downing the Indians and Crowell was in the lead at the end of every quarter.

The score by each quarter follows: 13 to 9; 22 to 13; 27 to 16; 36 to 16. Ralph Burrow, center for Crowell, was the outstanding player of the game.

During the game Ragsdale Lanier received a severe gash in his right leg when it came in contact with the brace on his left knee. He has not been practicing this week, but will likely be ready to start the next game.

In a practice game at the local gymnasium Tuesday afternoon, Crowell defeated Medicine Mound 46 to 15. The game was played in the same manner of a regular matched contest.

Crowell still has a perfect record for the season, no defeats and no ties.

Pastors Are Guests at Rotary Luncheon

Local and visiting pastors were guests of the Rotary Club at its regular luncheon Wednesday. Rev. B. B. Crimm, who is conducting the revival here was the principal speaker and gave a very interesting and optimistic talk.

Short talks were also made by Rev. J. T. Bryant, Rev. Johnny Cohen and Rev. B. J. Osborn. Henry Ferguson was in charge of the program.

Three Rotarians from Quanah, Dr. R. L. Watt, Ross Magee and E. W. Newton, and Claude Callaway, were also visitors at the luncheon.

COUNTY-WIDE REVIVAL WILL COME TO A CLOSE SUNDAY NIGHT; GREAT CROWDS PRESENT AT ALL SERVICES

The greatest crowds in the history of Foard County to attend a revival meeting have been present for the services conducted by Rev. B. B. Crimm, the cowboy evangelist, since the country-wide revival started here on Dec. 28. The revival will come to a close Sunday evening after lasting three weeks.

After the close of the services Wednesday evening one hundred and sixty-nine persons had answered the evangelist's invitations for professions of faith, rededications and placing of church membership. Rev. Crimm did not issue an invitation until the meeting had been in progress for ten days.

People are not only coming from every part of Foard County for the services but are also here each evening from surrounding cities, some coming from as far as Wichita Falls.

"The greatest revival in the history of Foard County," is a remark that has been commonly made by great numbers who have attended the services. With the exception of Monday and Saturday services are held each morning in the district court room and services on Saturday are held at the same place in the afternoon. On Sundays and each evening, services are held at the Methodist Church.

Each morning the district court room is filled to capacity with numbers of people standing. Every evening the first floor of the Methodist Church is filled long before services are started and for the greater part of the revival every seat in the gallery has also been taken.

Rev. Johnny Cohen, who is conducting the singing, is also in charge of the young peoples meeting, which takes place in the basement of the church at 6:45 p. m. Likewise the attendance for these services has been wonderful.

Country Club Re-elects T. S. Haney As Pres.

T. S. Haney was re-elected president of the Springlake Country Club at the annual membership meeting of that organization Saturday evening. Dr. H. Schindler was elected vice-president and H. K. Edwards, secretary-treasurer.

The following directors were also elected for the year: Guy Crews, J. R. Beverly, T. N. Bell, R. D. Oswalt, Lawrence Kimmsey, N. J. Roberts and the officers make up the rest of the directors.

To Let Highway 28 Paving Contract Mon.

The contract for the paving of approximately five miles on Highway No. 28, from Crowell west, will be let either Monday or Tuesday at the sitting of the State Highway Commission.

It is reported from reliable sources that the contract for hard-surfacing the remaining distance to the Cottle County line will be let in February.

JOIN THE RED CROSS

Severe cold weather is expected in the next few weeks. Something must be done to prevent much suffering in our county.

Saturday evening at the close of services at the court house, an opportunity will be given for you to join the Red Cross. Officers will be elected, committees appointed, and all things made ready to meet any emergency that may come.

If all will help a little it will be easy. Remember the old slogan, "Do your bit"—the unfortunate at home need your help.

We hope representatives may be present from every community to assist and lend your influence to those in charge.

Remember, Saturday at the county court house, immediately after the close of services of the Crimm revival.

MRS. R. L. KINCAID,

Temporary Chairman.

OFFICIAL CENSUS FIGURES GIVE CROWELL POPULATION OF 1,946; FOARD COUNTY HAS 6,315 PEOPLE

The official population of Crowell is 1,946, according to a bulletin received by The News from the U. S. Department of Commerce, Bureau of the Census. Foard County's official population is 6,315.

In the latter part of last May a preliminary announcement from the census supervisor of this district, O. M. Unger of Plainview, Crowell was given a population of 1,916. Five days were allowed in which to check the figures and to canvass the city for any names that might have been left out of the census. Mayor C. T. Schlager called a mass meeting and J. R. Beverly was appointed chairman of the local committee to find out if any names had been left out of the census.

Through the efforts of many workers the entire city was canvassed and many names were secured. These were turned over to Mrs. Pearl Carter, the census enumerator of Crowell, and out of this number 30 names were eligible to be added to the number given in the preliminary announcement, thus bringing the total population to 1,946.

Preliminary announcement of Foard's population was made about July 1, giving the figure 6,313 compared with the official figure of 6,315.

Thalia's population was announced as 271 in the preliminary figures, however, no official figures as to the population of Thalia have been given, as only incorporated places are included in the population bulletin received by The News.

The population of Foard County, Crowell and each justice precinct since 1910 is given in the table below. Precincts 5 and 6 were organized from parts of precincts 1 and 2 since 1920, which explains the reason for the big decline in population for Precinct 2, as shown below.

Slow Falling Rain Amounts to .50 Inch Over Foard County

Exactly one-half inch of rain fell in Crowell, starting last Friday and coming to an end Saturday. The rain came very slowly and maximum benefit from it may be expected. It is reported that the rain was about the same over the entire county.

The coldest weather of the year reached Crowell Wednesday morning. The temperature was around 18. Wednesday was very cold, however, the temperature was not so low as Tuesday.

Construction Started Monday on Foard Jail

Actual construction on Foard County's new jail started Monday on the site one block south of the southeast corner of the court house square. The basement for the heating plant has already been dug along with the ditches for the foundation and pouring of concrete is to begin soon.

A car of cement and a car of steel arrived Wednesday for the week. Practically all of the work on the structure, with the exception of that of supervision is being done by local men. J. P. Price is superintending the work for the contractors, the Southern Prison Company of San Antonio. Bob Belsler is the county's representative on the project, having been appointed by the commissioners court to see that the county gets what the contract calls for. O. O. Hollingsworth has secured the heating and plumbing contract.

CRIMM GIVES 5 REASONS FOR CHRISTIANITY

One of the best of the many excellent sermons that have been delivered by Rev. B. B. Crimm during the county-wide revival, that is now in its third week here, was heard by a great crowd at the Methodist Church Sunday evening. Due to the large crowd there was hardly standing room left in the church building.

"Why Be a Christian," was the subject of the sermon and five specific reasons for Christianity were given by the evangelist. The first reason was the fact that everyone has got to meet God and that preparation for that event should be made. "We can get around doing a lot of things, but meeting our God is one thing that we are bound to face and we ought to prepare for that meeting," Rev. Crimm stated.

"It is reasonable to be a Christian," was given as the second reason. The cowboy evangelist pointed out that everything that God created, with the exception of man, looked up to God in worship. "Even the flowers and trees look upward with outstretched arms and one never sees a bird singing with its head pointed downward," he said.

In the third reason he stated that Christianity was what life was really for. "Our life is a success if we die a true Christian," Rev. Crimm stated.

It pays to be a Christian," was given as the next reason. In discussing this point Rev. Crimm gave a number of unusually interesting personal experiences.

The fifth and final reason given by the evangelist was the fact that Christianity helped one to die. He compared two deaths that he had witnessed in illustrating this point. He first discussed the miserable death of a man who denounced God to the very last and then the calm, beautiful death of a man who had been a Methodist minister for over 60 years and who had lived the finest kind of Christian life.

"You can talk all you want to about bad men dying game, but I have seen enough of them die to know that there is not a thing to it. They all die scared to the very limit in spite of their outward show of gameness."

"Death isn't bad if you are prepared and ready to go. Death merely opens the door to Eternity and Christianity is the only thing that offers hope, when death comes," he stated in concluding.

A total of forty-two persons answered the evangelist's invitation for conversions and rededications at the close of the services.

Thalia High Loser to Williams Last Friday

Scoring eight points in the last 3 minutes of play, Williams High School, located 9 miles north of Goodlet in Hardeman County, was able to defeat Thalia High School by the score of 30 to 26 in a game at Williams High Friday night.

Thalia was in the lead throughout most of the game. The first half ended 18 to 12 in favor of Thalia and at the beginning of the third quarter the score was tied 20 to 20. Thalia took the lead early in this period and appeared to have a victory cinched until the last few minutes of play.

William Wisdom of Thalia was high point man of the game with 15 points. Weathered and Reddell for Williams.

THALIA FIVE WINS LEAGUE CHAMPIONSHIP

Thalia's town basketball team won the championship of the West Texas Basketball League by defeating Harrold 35 to 28 in the second game of the play-off between these two teams for the championship at the Harrold gymnasium Tuesday night.

The Thalia quintet of six-footers won the first game of the series at Five-in-One last Friday, defeating Harrold 24 to 13. The game Tuesday night gave the Thalia Tigers the initial West Texas championship, as the league finished its first season of play. Harrold and Thalia met in the play-off because of a tie in the standing column at the end of their scheduled season, each having won 8 games while losing 1.

The game Tuesday night was hard fought throughout, however the Tigers took the lead in the first few minutes of play and held it for the rest of the game. Gotchie Mints and center and Clyde Fincher at guard were the outstanding players for Thalia.

Those taking part in the game were: Thalia—B. Banister, forward; Toie, forward; Roy Mints, forward; G. Mints, center; Fincher, guard; J. Banister, guard; Harrold—Vick, forward; Cobb, forward; Hale, forward; Clync, center; Vaughn, center; Colley, guard; Yerby, guard; Turpen, guard. Referee—Griffin, Childress.

The teams in the West Texas League, in the order of their final standing follow: Thalia, Harrold, Oklaunion, Fargo, Vernon, Doans, Odell, Five-in-One, Phillips.

Thalia's record for the season follows:

Thalia 26, Oklaunion 13.
Thalia 32, Davidson, 11.
Thalia 28, Five-in-One 21 (overtime period).
Thalia 40, Phillips 14.
Thalia 20, Harrold 23.
Thalia 43, Doans 34.
Thalia 32, Vernon 12.
Thalia 44, Fargo 14.
Thalia won from Odell, forfeited.

THALIA FIVE WINS LEAGUE CHAMPIONSHIP

Thalia's town basketball team won the championship of the West Texas Basketball League by defeating Harrold 35 to 28 in the second game of the play-off between these two teams for the championship at the Harrold gymnasium Tuesday night.

The Thalia quintet of six-footers won the first game of the series at Five-in-One last Friday, defeating Harrold 24 to 13. The game Tuesday night gave the Thalia Tigers the initial West Texas championship, as the league finished its first season of play. Harrold and Thalia met in the play-off because of a tie in the standing column at the end of their scheduled season, each having won 8 games while losing 1.

The game Tuesday night was hard fought throughout, however the Tigers took the lead in the first few minutes of play and held it for the rest of the game. Gotchie Mints and center and Clyde Fincher at guard were the outstanding players for Thalia.

Those taking part in the game were: Thalia—B. Banister, forward; Toie, forward; Roy Mints, forward; G. Mints, center; Fincher, guard; J. Banister, guard; Harrold—Vick, forward; Cobb, forward; Hale, forward; Clync, center; Vaughn, center; Colley, guard; Yerby, guard; Turpen, guard. Referee—Griffin, Childress.

The teams in the West Texas League, in the order of their final standing follow: Thalia, Harrold, Oklaunion, Fargo, Vernon, Doans, Odell, Five-in-One, Phillips.

Olney High School to Play Wildcats in Game in Crowell Fri., Jan. 23

A real treat is in store for the basketball fans of Crowell on Friday night, Jan. 23, when Crowell meets Olney here in connection with a double-header program, which also includes Matador. Coach Acker of the Olney Cubs called Grady Graves, local coach, Thursday morning and matched two games, the one here next Friday and one at Olney on Feb. 6.

For the past two years Olney has been the champion of its district and has a team that is equally as strong this year. It has already shown such strength that the sport editor of the Wichita Falls Record-News has picked that team to win the bi-district title, which Olney has lost for the past two years to Estelline, the champion of the district in which Crowell is located.

Unload Three Boilers for Thompson Oil Test

Three boilers have been unloaded at the site for the oil test that is to be started on the J. G. Thompson farm north of Thalia, by Luther Webb of Vernon, independent oil operator, and associates. The construction of the derrick for the rotary rig is to start soon.

MRS. GERMAN DIED SUNDAY AT RAYLAND

Mrs. R. D. German, 70, wife of the late Dr. R. D. German, of Rayland, died at her home in that community at 5 o'clock Sunday morning. She had been sick only eleven days.

Funeral services were held at 3 o'clock Sunday afternoon at the Baptist Church at Rayland with Rev. George W. Lair and Rev. Frank McNair officiating. Interment was made in the East View Cemetery of Vernon, where she was laid to rest beside the body of her husband, who died two years ago.

Mrs. German had lived in the Rayland community for the past 24 years. She was well known throughout Foard and Wilbarger Counties and held a warm place in the hearts of a wide group of friends.

She is survived by two children, G. T. German and Mrs. Trace Beazley, of Rayland, six grandchildren, and two great grandchildren.

Pall bearers for the funeral were: R. M. Gregg, R. A. Rutledge, B. P. Abston, E. M. Key, Bob Price and Dewitt Edwards.

Mrs. German was a devoted member of the Baptist Church.

A B. Y. P. U. social was given at the home of Mrs. Martha Price Thursday night. After several games were played cake and hot chocolate was served. Every member is urged to attend next Sunday night.

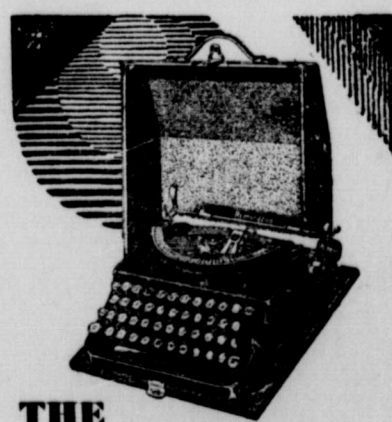

TEXON TALES

According to old timers, '49 ers, who made the gold rush days in the West and Northwest—the boom days of the oil strikes of the Southwest are almost exact duplicates of the gold strikes. The booms with demands for men, experienced or inexperienced, and at almost unbelievable wages, attracted hordes. Sizable towns sprang into life over-night. Wages were extremely high, money lavishly free and life cheap. The flow of the gold and the easy pickings attracted gamblers, bootleggers, hi-jackers and their followers. Many of the lawless, always on the alert for bigger and easier pinnings as any fresh retreat promising temporary safety, always headed the rush. The arm of the law at the time of a boom always proved quite too weak for the onrush of the mob and the sudden increase of population. Consequently, the lawless became so thoroughly established under the screen of the early furious days that the matter of effecting law and order was slow and difficult. Lawlessness became so powerful that open saloons, dance halls, gambling dens and various evil institutions thrived in open defiance of the law. Naturally, many desirable people shunned the oil field, making reformation still more complicated.

But, it was under just such conditions, realizing the need for the strong-hearted and brave who were willing and fitted to cope with the evils and dangers and difficulties necessarily attached to the enormous and dangerous job of penetrating the armour of the lawless and breaking down the walls of evil hemming in the oil fields, that I and Tom Beverly came out here and fixed this thing up.

Now, you will find a peace-loving people, law-abiding and happy. You will find people going about playing golf and polo and with happy thoughts in their minds about anything in the world but their business. You can see them riding around when they ought to be at work, in their fine new cars they still owe lots on and if they should lose their job the car would go too, of course. You can go into their homes and see the fine furniture they still owe for and they haven't got nothing but their fine furniture, big nice cars and a lot of payments to meet each payday. But they are happy, even without their saloons and gambling halls, etc., so it looks like we haven't done such a bad job after all.

The people are careful and content. They came here looking for a job, they can do it again if necessary they can leave here that way and probably will. So, myself and Tom may just about have the work completed but, of course, we will linger a while just to make sure everything is going to be alright but you can look for us back in the next, oh, possibly five or six years, to help put that neglected part of the coun-

THE Remington Portable Smallest Lightest Strongest

of any standard, four-row keyboard typewriter. Only 4 inches high in its carrying case. Carries its own desk. Takes long envelope. Paragraph key for indenting paragraphs. Molded, Stream-line body. Okl. Banker Has Been Using Crazy Water for 25 Years

I have been coming to your resort for the past twenty-five years and your Crazy Water has done so much for me I want everyone to know it. When I get to feeling tired and run-down I come to Mineral Wells for a period of rest and recuperation and always leave your town feeling perfect physically.

I cannot endorse your water too strongly, for I have seen over a period of the last 25 years the remarkable results obtained by badly afflicted people, who came here. If the entire world knew what Crazy Water would do for them, it would certainly be a blessing.

J. B. CHARLES, Pres., State National Bank, Stroud, Okla.

The new, million dollar, Crazy Water Hotel at Mineral Wells, Texas, covers an entire block of ground. It is modern, fireproof and complete in every detail. It is natural to think it would be expensive to stop at such a magnificent hotel; yet, you can enjoy its genuine hospitality, pleasing service and receive the benefits of the Crazy Mineral Water Treatment at very reasonable rates. If you have rheumatism, stomach trouble, diabetes, colitis, kidney trouble or any chronic ailment brought on by faulty elimination, we urge you to write the Crazy Water Hotel, Mineral Wells, Texas, for full and complete information about their treatment.—Adv't.

REDUCED PRICES

We have made a big reduction in our over-head expenses to the extent that we will sell all monuments and grave markers at such low prices it will pay you to come to Vernon and see the finished work we have before placing your order. If not convenient to come, notify me and I will come for you, or will come to see you at your home and make prices without obligations on you.—G. W. Backus, dealer.

M. O. Bowen, air mail pilot on the Cheyenne-Denver-Pueblo route sounds a motor car horn when he lands.

Much damage has been caused in Australia by "bush" or forest fire. Only a change of wind saved many towns.

A little loafing now and then is needed by the best of men, but like everything else can be overdone.

Do your New Year's resolutions making early.

THE NEW FORD

Everything you want or need in a motor car

THE more you see of the new Ford, the more you realize that it brings you everything you want or need in a motor car. . . . And at an unusually low price.

Its substantial beauty of line and color is apparent at a glance. Long, continuous service emphasizes the value of its simplicity of design and the high quality that has been built into every part.

The new Ford accelerates quickly and it will do 55 to 65 miles an hour. It is an easy-riding car because of its specially designed springs and four Houdaille double-acting hydraulic shock absorbers. It has fully enclosed four-wheel brakes and the added safety of a Triplex shatter-proof glass windshield. Operation and up-keep costs are low and it has the stamina and reliability that mean thousands of miles of uninterrupted service.

See the nearest dealer and have him give you a demonstration ride in the new Ford. Check up every point that goes to make a good automobile and you will know it is a value far above the price.

VALUE OF CLUB WORK

Government figures show that about eleven million boys and girls live on the farms of America. This means approximately half of them are engaged in some form of club work which will enable them to be better farmers and better farmers' wives when they reach maturity.

It also means that there is room for expansion of this type of work among young people on the farm. It is the best means to keep the ambitious boys and girls on the farm because its program is designed to show them some better practice on the farm, in the home or the community.

Typical lines of club work are: Growing an acre or more of corn in accordance with directions, raising a sow and litter of pigs according to instructions, growing fruit and vegetables in accordance with the dietary needs of the family, canning the surplus in the most approved ways and other phases of farm and home work that especially appeal to young people.

The particular value of club work is that it gets hold of young people while their minds are plastic and gives them guidance when they need it, teaches them some of the inspiring things in agriculture, and gives them visions of its possibilities as a life job. It provides opportunity for them to share home responsibilities in keeping with their ability and gives them a part in solving the problems of rural communities. It influences the farm and home practices of the members' families. It develops rural leadership.

In short, 4-H club boys and girls are doers. They are taught high ideals and standards. They meet together, work together, play together, co-operate, achieve. They play the game fairly. They demonstrate, work, earn money and acquire property. They build up their bodies and their health through right living. They train their hands to be useful, their minds to think clearly, and their hearts to be kind.

THE EFFECT OF ENVY

Worry, hard work, dissipation, poor judgment, ill health, dependency—all these are enemies of success, but none of them has a more evil effect than envy.

This little demon is always on the alert for a chance to pop into the most unsuspecting head. If the soil is ripe for him, he insinuates that you are not receiving enough of this world's goods for what you are giving. He blackens your friend's character by causing you to draw unfair conclusions about him.

Envy tells you that you are not appreciated; that honest work has no reward—only grafters and hypocrites get on in the world. He gives you a false estimate of your own ability.

Then you begin to loathe your job and hate your friends. Your work is not up to its former high standard. You become a confirmed pessimist and see bad in everyone.

Happily, however, there is a cure for this condition of mind that envy produces. If your friends are prosperous, be glad, because it indicates what can be done with the proper amount of determination. Let their prosperity be a lesson.

If your friends are well liked you may be sure there is a good reason for it, and that you can learn the secret by close observation.

Take advantage of every opportunity to help and serve that is within the scope of your ability. Then you will have a different view of the world in which you live. Your change in attitude will bring rewards unexpected.

Envy produces nothing but misery for the envious.

The arms of an octopus are sometimes five feet in length.

THE AGE OF FORTY

Though forty is a state of mind that varies with the person, it has authentic motives. Some men at 40 renounce their youth, as if a date could change their desires. Others grasp far more than they can handle.

To renounce authentic interests and desires before the wish is there, because they seem untimely, is a cowardice that brings mediocrity and dullness on the modern age. To seek false youth is hardly less an evil. If men will be themselves at forty, young or old, and forget the yearly marker, the world will be the better.

The dull routines of many lives are imposed by fears and accumulations, bad habits, properties that restrict the valid spirit. Forty is complex and polyphonic. To make the most of it takes all a good man has.

Time is a virgin during two score years of living. Young years go by with a thin blooming and promise full fruition. "As for my part," says Montaigne, "I think our minds are as full grown and perfectly joined at twenty years, as they should be, and promise as much as they can. A mind which at that age has not given some evident token or earnest of her sufficiency shall hardly give it afterward; put her to what trial you list."

But man can learn—given the ability—better at forty than at sixteen, if he has occasion, and every man should learn new games, new instruments or arts as he grows older. "Young men," says Bacon, "are fitter to invent than to judge, fitter for execution than for counsel, and fitter for new projects than for settled business."

But their fitness resides more in their choices and their habits than in a changed ability. If a man has the habit of original thinking before 25, says William James, he can keep it all his life. Forty is a habit that a man makes good or bad.

BUSINESS CONFIDENCE

Confidence is the one big asset of the optimist. It is confidence that moves mountains, drives off fear and enlarges the vision of the future.

Without confidence, the whole business structure would fall. When people deposit money in the bank, they have confidence in the banker else they would keep their money hidden at home. When merchandise is sold, the purchaser believes it is as represented, or he would buy elsewhere.

Confidence is the basis of every business transaction. Any act that destroys confidence is a backward step. The business man who does not keep his word is a dangerous element in our social structure. If he misrepresents the goods he sells, he damages not alone his own interests, but the future of business.

Dishonesty in business is more to be deplored because of its far-reaching evil effect. Like the ripple on the surface of a placid lake caused by a boat, a dishonest business act makes an ever-widening circle and injures honest business.

Business confidence can be maintained and strengthened only by honest dealings. Mistakes may be made, but they may always be rectified.

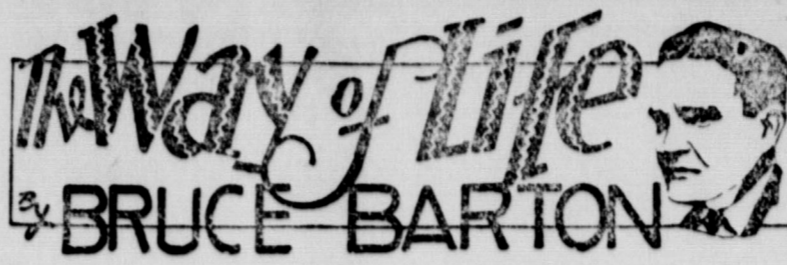

Thus men engaged in business have a deep responsibility. They alone do not suffer from their misdeeds. In their dealings they should remember that they have a double obligation—to their customers and to their fellow business men.

Honesty in business confidence. That it is being practiced as a general rule by business is revealed by the growing confidence in business.

Advertising has contributed in large measure to this condition of affairs. It has placed business on a higher plane because through advertising business men pledge themselves to certain policies and practices. Advertising has thrown the white light of publicity on business and business has profited by winning greater confidence.

We read in the paper about suggestions for harnessing the ocean. The editor apparently has forgotten that the horse and buggy age has passed.

Married men make the best collectors, it is announced. Doubtless because they know all the excuses.

"SEE HOW WRONG YOU'VE BEEN"

In England I talked with some celebrated economists, who were very gloomy. They said the fundamental trouble with the world goes deeper than war debts or unemployment. It is the shortage of gold.

Gold is the measure of all values. When the gold dollars are few each dollar buys more wheat and copper and cotton and labor. So the price of all these commodities goes down, ruining the producers in the process. If the shortage becomes much more acute, so these wise men argued, it will overturn all wage scales and debt settlements, and result in economic chaos.

As I know nothing about economics (and, between ourselves, I often wonder whether the economists know very much), this scared me.

The next day I was talking with Ambassador Dwight W. Morrow, who was in London as one of the delegates to the Naval Conference. I told him about what I had heard.

Instead of replying directly, he took down from the mantle-piece a copy of the autobiography of Lord Comer, and turned to a passage which read something like this:

"When I was a young man I proposed to keep a diary, but wise old uncle advised against it. Instead of recording what had happened, he said, I could employ my time more profitably by writing down on a piece of paper what I felt sure was going to happen. Then, he said, 'Put those notes away, and a year or five years later get them out and read them over, and see how wrong you have been. This will teach you to be cautious.'"

What shrewd advice that is! All of us could profit by it. I know that if I had written down my own private forecast at the beginning of each year and filed it away it would have saved me from making a number of costly mistakes.

Also, the record would make rather encouraging reading. It would show that a considerable amount of unanticipated good luck has come into my life.

And that many of the bad things which I predicted for myself and the country have never actually happened.

HOW THE GOVERNMENT HELPS

One hundred and sixteen million dollars for public works, forty-five millions for the relief of farmers who were affected by the 1930 drought—that is the sum which Congress has put into the President's hands since December 1, as a further effort toward getting money into circulation and getting men back to work.

That ought to help a lot. Many important Federal highway projects have been held up because the states concerned were not in a position to appropriate their share. Under the new appropriation Federal money will be lent to the states, in addition to what the Federal Government pays as its share. It is definite now that the largest road-building program of any year will be carried through in 1931.

The trouble with public works as a means of relieving unemployment emergencies is that they can not be begun instantly. Until money has been appropriated by Congress, State Legislatures or municipal governments, the preliminary plans cannot be drawn. Everybody knows that the building of even a simple house takes a great deal of preliminary time in selecting the lot and drawing the plans before the hauling of materials to the job can commence. How much more time it takes to start work on such a project as the Hoover dam few of us realize. Engineers have been at work for a year on the plans, and are only just now ready to get bids for materials and work. It will be several months before actual work, in the sense of employing any considerable body of workers, can be begun.

The Hoover dam is going through, however, and so are the new Federal highways at a great program of new Federal buildings. The preliminaries have been largely attended to in 1930; 1931 will see the money beginning to flow into the pockets of hundreds of thousands of workers.

OUR BIG WORLD

A newspaper writer whose words are widely read and given credence says that the 1600 million inhabitants of the world could stand at the same time on Staten Island. The island is 57 miles square and is located in New York bay.

Those with an inclination for mathematics may endeavor to figure with the writer to determine how he arrives at such a startling fact, but more interesting still is contemplating that there is standing room on such a speck on the map for the earth's population.

One can not but wonder why there should be any congestion in the wide, wide world when all the human beings known to live on the earth could be herded together in fifty-seven square miles.

Yet millions upon millions of the earth's inhabitants are crowded together in over-populated cities, living like prisoners when God's great outdoors is so abundant.

The maddening desire to be in the crowd draws them, but there are still a goodly number who like the quiet and restfulness of the country-side, and the small community, where there is elbowroom and a chance to enjoy the beauties of nature.

A cooking school for men is being started over east, indicating that men will become the equal of women yet.

While lightning strikes only in the summer time, it is possible to be thunderstruck most any time.

Some of the old people think the young people are foolish because they don't know the things it takes forty or fifty years to learn.

MANY LAWS PREDICTED

The output of laws at the 1929 sessions of state legislatures amounted to 13,000 new legislative enactments out of a list of 40,956 proposals for legislation which were introduced. A preliminary survey indicates that this record will be equalled, if not surpassed, this year.

The state legislators begin the session with good intentions. On the average, they intend to hold down the crop of laws, but their good-resolutions can not withstand the onslaughts of these organized instigators of new laws representing active minorities and special class groups, including religious, social, civic, labor-women and other bodies that descend on the state capital.

Each group has its own panacea to cure the ills of the body politic. Every one has special class advantage in mind and endeavors by legislative decree to reform, restrain or control arbitrarily the conduct, morals, domestic lives and business methods of others. They actually overwhelm any desire of members of the legislature to pass nothing but laws needed for the reasonable and effective administration of government.

The majority of new laws proposed provide a new drain upon the public treasury. Yet most legislators were elected on a pledge of economy. How many of them will stand by their promise, now that they have the opportunity?

EVENTS OF 1930

Through a mistake The News failed to include in its resume of activities for 1930, part of the events of September and all of October, in the issue of last week and for that reason these events are being published this week that were out.

Sept. 26—High School news section started.

Knox City and Crowell play scoreless tie at Knox City.

28—James Allee taken by death at home here.

.6 inch rain falls.

Oct. 1—Pioneers honored with a meeting at Methodist Church by Columbian Club.

2—R. J. Thomas barn destroyed by fire.

3—Long drouth definitely broken when rain starts falling slowly, amounting to 4.65 inches before stopping.

Word received concerning death of George Bullington at San Antonio in auto accident.

Crowell 82, Throckmorton 0.

10—Monday 6, Crowell 0 at Munday.

Lebert Swaim and Miss Melba Jordan marry at Wichita Falls.

11—First State Bank opens under new management as R. R. Waldrop sells interest.

More rain falls, 1.78 inches.

Sam Welch killed in auto accident near Anna, Texas.

12—Mrs. J. P. Tye dies at home here.

17—Crowell 67, Paducah 0.

19—P. P. Cooper dies at home here.

Half inch of rain.

Miss Victoria McDaniel marries E. G. Carter at Union Mo.

21—Fire damages the Famous.

22—1.05 inches of rain.

24—Crowell 75, Knox City 0.

Chas. Woods dies at Slaton.

25—Ernest Briscoe killed in blast at Graham.

27—Commissioners court votes to build new jail.

31—Crowell 19, Matador 0 at Matador.

Wins Big Lawsuit

Cyrus S. Lator, who led the fight against the merger of Youngstown Sheet and Tube Company with Bethlehem Steel, involving a thousand million dollars.

TRUE ECONOMY

In times like these, most of us have to economize to some extent. Some find it necessary to cut out costly magazines and other reading matter. As a measure of true economy we recommend The Foard County News and The Pathfinder at the bargain price of only \$2.00 for one year. You will not only save money but will get all the news at home and abroad, besides a heap of helpful information and good wholesome entertainment. If you are not acquainted with this wonderful weekly from Washington, The Pathfinder, ask for a sample copy. This is your opportunity, don't miss it.

Mr. and Mrs. Stewart of Chillicothe visited Sunday with Mr. and Mrs. Edward Brock.

God's Plan of Financing the Kingdom

By Woodie W. Smith

Continued from last week)
Five planks in God's financial plan.

- (1) Every Christian.
(2) Giving every week.
(3) To every cause.
(4) In proportion to his ability.
(5) Through his church.

When God's people adopt the Scriptural plan of church finances, as indicated in the illustration above, the financial problems of the Kingdom movements will be solved and the spiritual life deepened.

I. Every Christian Giving.
(a) "Bring an offering and come into His courts, Ps. 96:8.

(b) "Every man shall give," Deut. 16:17.
(c) "Let each one of you lay by him in store," I Cor. 16:2.

(d) It is just as much every Christian's duty to give of his substance to the Lord as it is to:
1. Read the Bible. 2. Pray.
3. Attend public worship. 4. Support his family. 5. Or perform any other obligation.

II. Every Christian Giving Every Week.
(a) "Upon the first day of the week let each one of you lay by him in store."

(b) God's plan is that His children shall bring an offering each time they come into His house for worship.

1. Regularity in giving makes giving easy. 2. Promotes the spirit of worship. 3. Develops Christian character. 4. Aids growth in grace. 5. Enables all Kingdom agencies to meet all their obligations promptly and thus relieves them the embarrassment of having to borrow money.

III. Every Member Giving to Every Cause.
(a) Every cause represented in these Kingdom agencies is authorized by the Bible, and is, therefore, entitled to the support of every Christian.

1. All mission agencies. "And ye shall be witnesses unto me both in Jerusalem, and all Judea, and in Sumaria, and unto the uttermost parts of the earth," Acts 1:8.

2. Christian education. "And walking by the Sea of Galilee He saw two brothers, Simon, who is called Peter, and Andrew, his brother, casting a net into the sea; for they were fishers. And He said unto them, Come ye after Me, and I will make ye fishers of men," Matt. 4:18-19.

3. Old ministers' relief. "Cast me not off in time of old age; forsake me not when my strength faileth," Ps. 71:9. "Even so hath the Lord ordained that they which preach shall live of the gospel," I Cor. 9:14.

4. Christian hospitals, Luke 10:25-27. "Christ's own story of the Good Samaritan. Read it.

5. Ministering to orphans and widows. "Pure and undefiled religion before God and the Father is this: To visit the fatherless and widows in their affliction and to keep himself unspotted from the world," Jas. 1:27.

IV. Every Christian Shall Give As He Is Able.
a. "Every man shall give as he is able," Deut. 16:17.

b. "For if the readiness is there, it is acceptable according as a man hath and not according to what he hath not," II Cor. 8:12.

V. Giving Through the Church Is God's Way.
a. Both tithes and offerings were brought to the temple under the old dispensation.

b. Members of the original church at Jerusalem brought their gifts to the church, the institution Christ founded for the extension of His Kingdom into all parts of the world.

c. This whole Scriptural plan of finances is: 1. Reasonable. 2. Practical (Practicable) 3. And easy to execute.

d. It involves no more than every Christian should be glad to do as an expression of his love for God and His cause.

e. The adoption and execution of this plan by every Christian, will greatly strengthen each church and help promote the Kingdom of God, in a really great way and worthy fashion, to the ends of the earth.

The end
P. S. We hope that the foregoing articles have been and will be helpful to many who wish to better know the will of God in their lives. We have tried to stick close to the Scriptures in what has been said. We make no claim for originality. Many have been the helps from many authors who have discussed this vital factor that touches all our Kingdom endeavor. With a prayer to God that He will use this little message in redeeming many struggling churches, and will give greater vision to His dear children as to the give tithes and offerings into His blessedness that comes to those who storehouse, and seek to do His will, I am most humbly,
Your brother,
WOODIE W. SMITH.

CHURCHES

Christian Science

Sunday, 11 a. m. Subject for Sunday, January 18, "Life." Sunday School at 9:30. Wednesday evening service at 8:00. The public is cordially invited.

Attendance in Sunday School at Christian Shows Fine Growth

Average attendance in Sunday School for 1930 was 81, for 1929 75 and in 1928, 50. The question is: What will the attendance be for 1931? Each class has been given a quota for 1931 slightly greater than the average class attendance for 1930. The total of all class quotas is 102, which is the average attendance goal we have set to work to for 1930. The cradle roll was the only class making its quota last Sunday. Let's all try to make our quotas next Sunday and get off to a good start.

"1931 the Greatest Year in the History of Crowell Christian Church" is our very worthy aim. Plans to realize this fine aim have been formulated and will be briefly explained at Sunday School next Sunday. Come and learn what the plans of your church are. To take our place in the work we must know, to know we must be informed, to keep informed, we must attend the services of the church regularly.

Workers' Conference next Wednesday evening at 8 o'clock at the church. Men's party at Bro. Schooler's Tuesday evening of next week. Teacher-training class will be organized last Sunday in January and be ready for the first lesson on the first Sunday in February. These and other important matters should be kept in mind.

Bro. Crimm is stirring the whole country with plain, straightforward preaching that points out our sins and irregularities of living. May we capitalize on this stirring influence in our own lives by putting these evils from our lives and the lives of others by helping them to get interested in and find their places in our Sunday School and church activities. What better time than this to do some personal work for Lord. C. V. ALLEN, Elder.

T. E. L. Class

The T. E. L. Class met in the home of Mrs. Sam Rosenthal January 8th, in a business and social meeting with seventeen members present. The meeting opened by the reading of the 2nd chapter of Luke by Mrs. Claude McLaughlin and prayer by Mrs. Agnes McLaughlin. During the business meeting the following officers were elected for the coming year:

Mrs. Sam Rosenthal, assistant teacher; Mrs. Sidney Miller, president; Mrs. Agnes McLaughlin, 1st vice president; Mrs. L. A. Andrews, 2nd vice; Mrs. Roy Hanna, 3rd vice; Mrs. E. A. Dunagan, secretary; Mrs. Otho Green, treasurer; Mrs. J. T. Billington, reporter.

The class decided that we wanted to do something to put life into our class, so each member drew a name and that person is what we call "our pal." So let each one be a real pal and help our class grow.

The hostess served delicious refreshments.—Reporter.
Margaret W. M. S.
The Margaret Methodist W. M. S. met Monday with nine members present. A very interesting program on Mexico was given by Mrs. W. T. Dunn, Mrs. George Wesley and Mrs. A. O. Hood.—Reporter.

Epworth League Program

Begins 6 p. m. Sunday
Topic—The church engaged in teaching.
Leader—Virgie Callaway.
Scripture—St. Matt. 9:35-38; 28:19-20.
Prayer.
Africa—Darline Henson.
Brazil—Billie Draper.
China—Mildred Cogdell.
Japan—Pauline Henson.
Poland—Eva Todd.
Belgium—Thelma White.
Crowell—Miss Emily Purcell.
Song. Benediction.

Christian Science Churches

"Sacrament" was the subject of the lesson-sermon in all Churches of Christ, Scientist, Sunday, January 11.

John 6:33 supplied the golden text: "The bread of God is he which cometh down from heaven, and giveth life unto the world."

Among the passages from the Bible were read: "For ye are all the children of God by faith in Christ Jesus. For as many of you as have been baptized into Christ have put on Christ"—Galatians 3:26,27.

"Blessed are the pure in heart: for they shall see God"—Matthew 5:8.

The service also included citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, among them the following: "One's aim, a point beyond faith, should be to find the footsteps of Truth, the way to health and holiness. We should strive to reach the Horeb height where God is revealed; and the cornerstone of all spiritual building is purity. The baptism of Spirit, washing the body of all the impurities of flesh, signifies that the pure in heart see God and are approaching spiritual life and its demonstration" (page 241).

The latest telephone census shows more than 19,300,000 phones in use throughout the United States.

Some gourds weigh as much as 80 pounds.

Sunday School Lesson

International Sunday School Lesson for January 18

THE MINISTRY OF JOHN THE BAPTIST

Luke 3:7-17

When John was thirty years of age the spiritual summons came to begin his work as the Forerunner of Jesus Christ. This man had grown up in the midst of nature. Others might conduct formal prayers in a synagogue, John made a rock his pulpit in some wilderness arena and thither the people flocked to hear him. They could not stay away from such utterances. He dared to tell them about their most inner self, what they thought about that was vile, the things that they did which were contrary to all law and decency. He called them characterizing names such as "O generation of vipers." He demanded they give up saying all kinds of well-sounding piousitudes and "bring forth fruits worthy of repentance." When some one would fall back on the fact that he was a Jew, and thus one of God's chosen people, he was told that they could no longer clothe themselves in garments which they would call righteous. Henceforth they must evidence their professions by worthy works.

A new kind of philanthropy was demanded. They must share their extra possessions with those who were in actual need. If a man had a job from which he received wages, he was to stop complaining with his meal ticket and settle down to work as he rendered service for pay received. Further, they must testify of their penitence for past sins and express a solemn purpose after new obedience in the form of baptism. Then multitudes came to him to be baptized as he stood in the waters of the Jordan river. Such a person was thought of as the long promised Messiah. At once John the Baptist declared that he was just preparing the way for the one "who shall baptize you with the Holy Ghost and with fire."

Boston has one lunch counter restaurant that employs 1,000 persons and feeds 25,000 patrons each day. The owners plan to establish another unit.

A wealthy American baker living in Havana owns one of the largest pipe organs in the western hemisphere.

Bears, when coming from their winter hibernation, sometimes do not break their fast for several weeks.

In one South Carolina county, erosion has permanently ruined 90,000 acres of land formerly cultivated.

Every bigamist knows after he gets caught that marrying is a good custom but a bad habit.

You may laugh at your troubles but it's not always wise to gloat with them.

STILL IN THE LEAD WITH Hot Prices IT IS NOT TOO LATE —To make an excellent resolution for 1931! RESOLVE NOW to depend on this grocery for all your foodstuffs during 1931. You will find it is the best resolution you ever made, for it will save you money, trouble and disappointments in preparing your meals. Package, each 15c Apple Butter, quart jar 20c Syrup, Golden Drip, gallon 69c Matches, 6 boxes 15c Macaroni, 5 boxes 25c FOX BROS. CASH GROCERY

CONOCO Starting that's swift ... starting that's safe, because this free-flowing oil never leaves working parts ... CONOCO GERM PROCESSED PARAFFIN BASE MOTOR OIL Tomorrow morning, as you step hopefully on the starter, will there be a s-l-o-w disappointing groan, as it tugs at your unwilling motor? ... Or, will there come a swift responsive roar? If you're having trouble starting, you're probably using an old-type oil that congeals at temperatures well above freezing. You should change to Conoco Germ-Processed. But that's not all! To ward off the wear that these prolonged starting periods bring, you want an oil which provides instant lubrication at the first reluctant revolution of a cold motor ... And there's just one oil which can do that! Because there is just one lubricant which penetrates metal surfaces and never drains away in idle periods. Conoco Germ-Processed Motor Oil is that one lubricant. Change to this motor oil with twin advantages for winter use ... 35 cents per quart for all grades at the sign of the Conoco Red Triangle.

THALIA, TEXAS

WHAT DR. CALDWELL LEARNED IN 47 YEARS PRACTICE

A physician watched the results of laxation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of great importance, then, is how to treat it when it comes. Dr. Caldwell always is in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It does not harm the system and is not habit forming. Syrup Pepsin is pleasant-tasting, and youngsters love it. Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for anybody's system. In a practice of 47 years he never saw any reason for their use when Syrup Pepsin will empty the bowels just as promptly. Do not let a day go by without a bowel movement. Do not sit and hope, go to the nearest druggist and get one of the generous bottles of Dr. Caldwell's Syrup Pepsin, or write "Syrup Pepsin," Dept. 25, Monticello, Illinois, for trial bottle.

dered who they could be, and later discovered they were the subordinate and co-ordinate families. Thirst of knowledge drew them back to the deep sea of learning, and homeward bound they went.

CROWELL GIRLS WIN OVER THALIA GIRLS

Some of the Crowell High basketball girls reached one of their highest ambitions last Friday afternoon when they were victors over Thalia. The score was small, being only 8 to 6, but the girls were encouraged. The Crowell girls are always delighted to have the neighboring communities compete with them in basketball.

THE FRESHMAN PSALM

The Senior is my prosecutor; I shall not rest, he maketh me to stand back; he casteth me in muddy water, he degradeth my soul; he leadeth me in the paths of servitude for his namesake.

Yea, on the hill another enemy have I, even the Sophomore, with his rod and his staff he chastiseth me. The Profs shove exams before me when I am not prepared; my coffers are empty for I have inherited a chapel seat. Surely flunking and failure shall follow me all the days of my life and I will remain in the Freshman class forever.

The students have quoted the following prayer all week:
Now I sit me down to cram,
I pray thee, Lord, I'll pass this exam.
If I do not get this junk, I pray thee, Lord, I shall not flunk.

NOTICE BY PUBLICATION

THE STATE OF TEXAS, County of Foard.

IN COUNTY COURT THE STATE OF TEXAS

To the Sheriff or Any Constable of Foard County, Greeting:

You are hereby commanded to cause to be published in the Foard County News, a newspaper of general circulation published in said county, at least once a week for 10 consecutive days before the return day hereof, the following notice:

HOW ONE WOMAN LOST 20 POUNDS OF FAT

Lost Her Double Chin
Lost Her Prominent Hips
Lost Her Sluggishness
Gained Physical Vigor
Gained in Vivaciousness
Gained a Shapely Figure

If you're fat—remove the cause! KRUSCHEN SALTS contain the 6 mineral salts your body organs, glands and nerves should have to function properly.

When your vital organs fail to perform their work correctly—your bowels and kidneys can't throw off that waste material—before you realize it—you're growing hideously fat!

Take half a teaspoonful of KRUSCHEN SALTS in a glass of hot

THE STATE OF TEXAS

To all persons interested in the estate of Rebecca Jane Hough, Non Compos Mentis, J. A. Hough has made application for Letters of Guardianship of the person and estate of the said Rebecca Jane Hough, a person of unsound mind, which said proceeding will be heard by said court on the 19th day of January, A. D. 1931, at the court house of said county, in Crowell, Texas, at which time all persons interested in said estate are required to appear and answer said proceeding, should they desire to do so.

Herein fail not, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon showing how you have executed the same.

Witness my hand and official seal, at Crowell, Texas, this 5th day of January, A. D. 1931.

(Seal) A. G. MAGEE, Clerk, 30 County Court, Foard Co., Texas.

Water pipes in ancient Rome were made of wood.

water every morning—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—in 3 weeks get on the scales and note how many pounds of fat have vanished.

Notice also that you have gained in energy—your skin is clearer—your eyes sparkle with glorious health—you feel younger in body—keener in mind. KRUSCHEN will give any fat person a joyous surprise.

Get an 85c bottle of KRUSCHEN SALTS at Ferguson Bros. drug store—(lasts 4 weeks.) If this first bottle doesn't convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—so gloriously energetic—vigorously alive—your money gladly returned.

About fifty-five species of insects are enemies of the cotton boll weevil.

A hunter tells us the way of the trespasser is pretty hard.

The average life of an oil field is about three years.

Wife desertion has been made a felony in Texas.

Notice to Contractors for State Road and Bridge Construction

Sealed proposals addressed to the State Highway Engineer of Texas, for the improvement of that part of State Highway No. 28, covered by F. A. P. No. 536-C Unit II, Foard County, will be received at the office of the State Highway Engineer at Austin, Texas, until 9 o'clock, A. M., January 19, 1931, and then publicly opened and read.

Work consists of constructing concrete pavement from Crowell west a distance 4.943 miles.

Detailed plans and specifications of the work may be seen for examination and information may be obtained at the office of D. M. Puckett, division engineer, at Crowell, Texas, and at the office of the State Highway Department, State Office Building, Austin, Texas.

The Electric Man Diagnoses Your Household Budget

"The economy of additional electric service under the schedule of the new Home Comfort rate should influence you to take a far greater advantage of the many uses of electrical energy—especially as it applies to the comfort and happiness of your home life.

"The above chart shows how your average expenditure for electric service compares with expenditures for other commodities and services. In it you will notice that everything takes rank above electricity—and yet there are a few things more important than electric service.

"In the face of ever-mounting overhead, increased taxes, increased cost of manufacturing commodities, and increased expense of distribution—the cost to the consumer of electric service has consistently decreased. At the present time it shows a national average 28 per cent below the 1914 level, and a considerably greater re-

duction below that level for the West Texas territory.

"And withal this effort to place the benefits of electric service within reach of all, comparatively few are taking the fullest advantage of this invaluable service. According to a report from the statistical department of the N. E. L. A.—less than 5 per cent of the electrically equipped homes are using more than 26 per cent of the total service used! And even then—electric service remains the smallest item of expense in their household budget.

"When such a little of your income goes for improving the comfort and convenience of your home through the application of electric service to your domestic problems—don't you think it would be wise to investigate more thoroughly the many advantages of additional electric service made possible so inexpensively under this new Home Comfort rate schedule?"

Society

COLUMBIAN CLUB

Officers for the next club year were elected when the Columbian Club met at the home of Mrs. T. S. Haney, with Mrs. Gordon Bell as hostess.

Mrs. Marion Hughston was elected president; Mrs. T. B. Klopner, vice-president; Mrs. Sam Rosenthal, recording secretary; Mrs. T. L. Hughston, corresponding secretary; Mrs. Claude McLaughlin, treasurer and Mrs. R. L. Kincaid, parliamentarian. Mrs. Dow Miller was chosen as chairman of the executive board with Mrs. N. J. Roberts as a member of this board.

After the election of officers each member was asked to tell what she would like to study next year. Parliamentary rules were next discussed. A pretty plate luncheon was served to club members, Mrs. Ida Cheek and Mrs. Haney.—Reporter.

MOTHER'S SELF CULTURE CLUB

On January 9th the Mother's Self Culture Club met with Mrs. Arthur McMillian.

The following officers were elected: Mrs. Thomas Hughston, president; Mrs. Clint White, vice-president; Mrs. W. B. Tysinger, secretary; Mrs. Stanley Sanders, treasurer; Mrs. E.

E. Smith, press reporter. A very interesting lesson was given by the leader, Mrs. Clint White and Mrs. Sanders on "Protein Foods." There was a round table discussion on protein foods, then recipes given by each member.

A delicious plate was served to the members and Mrs. Luther McMillian of Hobbs, New Mexico.

FOARD CITY CLUB

Officers of the Foard City Home Demonstration Club for the year 1931 were installed at the regular bi-weekly meeting of the group Tuesday afternoon, January 6, at the home of Mrs. W. B. Jones.

Members of the club were shown how to make rugs from old pieces of silk or from burlap, by Miss Dosca Hale, demonstrator, at this meeting. Eighteen members were present and four guests were entertained. The next meeting of the club is to be held at the home of Mrs. Verdie Halbert, January 20 at 2:00 p. m.

The new officers are Mrs. F. L. Farrar, president; Mrs. Clyde Gover, vice-president, Miss Lina Weatherall, secretary and treasurer; Mrs. V. C. Wardell, reporter; Mrs. Ruth Marks, song-leader and Mrs. Frank Welch, parliamentary leader.

Guests of the club were Mrs. Floyd Borchardt, Mrs. Claude Callaway, Miss Betty Borchardt and Miss Mary Nell Merriman.—Reporter.

ADELPHIAN CLUB

Election of officers for the new year featured the Adelpian Club study meeting Wednesday, Jan. 7, at the home of Mrs. J. E. Harwell.

The following officers were elected: Mrs. A. Y. Beverly, president; Mrs. L. A. Andrews, vice-president; Mrs. S. S. Bell, recording secretary; Miss Lottie Woods, corresponding secretary; Mrs. Joe Johnson, treasurer; Mrs. W. B. Johnson, parliamentarian; Miss Frankie Kirkpatrick, critic; Miss Martha Schlagal, press reporter; Mrs. G. D. Self, Federation Counselor; Mrs. A. F. McMillan, librarian.

The club enjoyed two interesting contests directed by Miss Frankie Kirkpatrick, after which a lovely refreshment plate was served to club members and Mrs. L. O. McMillan of Hobbs, New Mexico.—Reporter.

MARGARET CLUB

The Margaret Club met Friday afternoon in meeting with Mrs. Arthur Bell hostess. The program for the afternoon was led by the new president, Mrs. Homer White. Miss Hale gave a very beautiful demonstration on color scheme in the home; also making of rugs.

The hostess, assisted by Mrs. W. A. Dunn, served refreshments to the following members and Miss Hale:

Mesdames A. O. Hood, G. E. Wesley, S. Moore, S. B. Middlebrook, Homer White, Bill Bond, C. F. Bradford, Frank Dunn, Haskell McCurley, C. W. Ross, I. W. Middlebrook, Melvin Moore, J. L. Hunter Jr.

We adjourned to meet with Mrs. Leo Owens the fourth Friday, with Mrs. C. F. Bradford as hostess.—Reporter.

VIVIAN CLUB

The Vivian Club met Thursday, January 8th, with Mrs. J. B. Rasberry with 21 members enrolled. Three visitors and Miss Hale present. Subject, color and rug making, demonstrated by Miss Hale.

The committees for 1931 were ap-

pointed by president, Mrs. Oscar Fish. Membership committee, Mrs. Clyde Bowley and Mrs. J. E. Whately; finance committee, Mrs. T. W. Cooper and Mrs. J. B. Rasberry; program committee, Mrs. E. L. Redwine, R. T. Kirkman, J. H. Lewis.

The club adjourned to meet with Mrs. Guy Easley, Jan. 22.—Reporter.

CHOCOLATE

Perhaps America's most widely-distributed food product is chocolate. It was unknown to the civilized world until the Spanish conquistadores found the Mexicans drinking a decoction made from the cacao bean. The explorers took the beat and the drink back to Europe with them.

We use about 150,000,000 pounds of chocolate a year, in the form of candy, favoring for ice-cream and soda, and as a drink, which we call cocoa, although the original Mexican word was cacao. The rest of the world uses about as much as we do.

The food value of chocolate is high; it is a concentrated energy producer. The forms in which it is generally sold, lightly sweetened, make it less digestible for persons who cannot take care of sweets easily. But for anybody engaged in active physical work there is no better stimulant combined with nourishment than sweetened chocolate.

UNEMPLOYMENT

While the rest of the country is recovering its normal tone quite noticeably, New York City is getting very sorry for itself over the business depression and unemployment. Business isn't any worse in New York than it is anywhere else, and there are no more unemployed, proportionately, than in any other town. But the city newspapers and the public have just got around to taking serious notice and to raising money for the benefit of the unemployed. It has become the fashionable thing for the smart set to attend football games for charity, join unemployment committees and get their names and pictures in the paper. Several million dollars has been raised, with the result that every tramp and drifter in the country is heading for New York as fast as he can go, to get some of the easy money that is being handed out to anybody who can pull a poor face.

Not that there isn't unemployment and suffering, too, in New York. It is mostly in cases where illness, old age or sheer incompetence is to blame. I know of many cases where people looking for competent help have been unable to find any really useful persons who didn't have a job.

HOGS

There is something in the idea of feeding wheat instead of corn to livestock, according to an account issued by the Federal Farm Board of the experiences of many farmers who have tried it.

Frank Evans of Oklahoma fed 311 hogs on wheat, and found that 400 pounds of wheat made 100 pounds of pork. He figured up what he got for his wheat thus converted into pork, and says it brought him \$1.67 a bushel. Other farmers who have tried the same thing report that wheat has brought them from \$1 to \$1.50 a bushel by the same process.

Every innovation of this sort is a step toward the ultimate solution of the farm problem.

DOLLARS

To most of us a dollar is just a dollar. To financial experts, a dollar is merely a gauge whereby commodities are measured. But financiers often speak of the dollar as if it were a variable article, commodities are not.

Dr. Andrew A. Bock, financial statistician, says that the "wholesale dollar" has increased about 7 percent and the "cost-of-living" dollar about 6 1/2 percent since the beginning of 1920. That is merely another way of saying that wholesale prices are down below last year's level and that retail prices for the necessities of life are down almost as much. The interesting point he makes is that while the "wages dollar" has also increased, another way of saying that wages on the average are lower—their purchasing power is only 3 1/2 percent so that there is really a larger margin above living costs, for the man who has a job than there was a year ago for the man on the same wages.

BARTON

The Rev. William E. Barton, who died the other day, will be remembered a hundred years from now, because he was a great preacher, which he was, but because he did more than any other person to dig out all of the facts about the life and ancestry of Abraham Lincoln.

Until Dr. Barton began his research, many of the popular beliefs about Lincoln were pure myth. His friends had written accounts of his life which were as false in many particulars as those written by enemies. Dr. Barton's several books revealed Lincoln as he really was, and settled forever the question of his ancestry and paternity. While engaged in this work, Dr. Barton was at the same time pastor of one of the most famous churches in the country, the O. J. Park Congregational, which he built up into a model for all "institutional" churches. He was a great and good man and the father of a son, Bruce Barton, who is famous in his line as the minister.

Electrical Wizard

John Armstrong Cygnon was a Midshipman at Annapolis until his electrical experiments interfered with the Naval Academy elevators and he was expelled. Several electrical firms wanted to hire him but the President has appointed him to West Point.

Cotton Co-operative Farmers Prepare to Fight Opposition

Dallas, January 13—Based upon interest, enthusiasm and determination displayed during the past ten days, Texas farmers are going to "stand together as never before" in their efforts to organize and control the marketing of their cotton, according to the general trend of newspaper comment after 12,000 cotton growers had attended the series of meetings held by the Texas Cotton Co-operative Association over the State. That "those who are planning a fight on the Farm Board and the co-operatives are going to be surprised to see the militant frame of mind of Texas producers" was one outstanding feature that could be gathered from the meetings, it was said.

Three hundred farmers faced a showdown to make the meeting at Brownfield, the largest ever held in that county, and similar spirit was manifested at many other points. Average attendance for the 75 meetings was reported as 150, and at the many meetings where resolutions were offered endorsing the Farm Board and the co-operative association, they were passed unanimously, in some cases amid cheers.

The movement to present a united front against the opposition "is just getting started," leaders say, in announcing the program of the eleventh annual convention of the Texas Farm Bureau Federation which will be held in Dallas January 28-29-30. At this time such national figures as B. F. Creekmore, general manager of the American Cotton Co-operative Association, C. O. Moser, vice-president and secretary of the same organization, S. H. Thompson of Chicago, national president of the American Farm Bureau Federation, and others will discuss various phases of organized agriculture and meet the attacks of organized opposition.

Nero spent \$150,000 on flowers for one banquet thus showing the people of the present generation to be mere "pikers" when it comes to "saying it with flowers."

Don't make the mistake of hitting a man when he's down unless you think he is going to stay down.

Admitted that there are two sides to every question, but both may be wrong.

New Morgan Partner

S. Parker Gilbert, young lawyer who started as Assistant Secretary of the Treasury during the war, became Agent-General for Reparations representing all the Allied Governments at Berlin, and now has been taken into partnership in J. P. Morgan & Co., largest private bankers in the world. He is only 33.

Chevrolet Motor Co. Produced 64,018 Cars and Trucks in Dec.

New York, Jan. 10.—December production of the Chevrolet Motor Company was 64,018 cars and trucks, more than twice the 26,000 units built last December and by a wide margin the biggest twelfth-month in the company's history. W. S. Knudsen, president and general manager, announced here today upon his arrival for the opening of the automobile show.

Employment of the company, which has registered consistent gains since the introduction of the 1931 models in November, stood at 32,101 for the week ended December 27, a gain of 347 over the previous week, Mr. Knudsen stated. During the current month the employment figure is expected to climb to 40,000 men, Chevrolet's normal operating force.

December is the second successive month to register a new high production figure, November with an output of 45,900 Chevrolet's exceeding all previous Novembers. The January schedule calls for the manufacture of 70,500 units and the tentative figure set for February, despite the short month, stands at 70,400 units, according to the Chevrolet executive.

When production of the new 1931 models got under way, employment in the manufacturing division of the company was 26,000, Mr. Knudsen stated. Since that time old employees have been added gradually, and with nearly 10,000 more scheduled to get back to work in January, all regular employees will be back on the job.

Mr. Knudsen said that the increase in production schedules is predicated

on the highly gratifying reception the 1931 cars, as is evidenced by demands of dealers for cars for immediate delivery.

The potential value of the United States' public domain, excluding lands to which the government reserved title to minerals, has been estimated at \$26,000,000,000.

Agas ago, when the earth rotated faster than it does now, a day on earth was much shorter than our hour day.

SOUR STOMACH

JUST a tasteless dose of Phillips' Milk of Magnesia in water. That is all that is effective, yet harmless. It has the standard antacid for 50 years. spoonful will neutralize at once ten times its volume in acid. It is the way to kill the excess acid. The stomach becomes sweet, the pain departs, and are happy again in five minutes. But don't depend on crude methods the best way yet evolved in all years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia, the kind that physicians prescribe. "Milk of Magnesia" has been U. S. Registered Trade Mark of Charles H. Phillips Chemical Company, its predecessor Charles H. Phillips since 1875.
