## State Board of Health to Wage War on Disease

Dr. H. O. Sappington, president of the state board of health and state health officer, makes the announcement that he is organizing his forces for a vigorous spring and summer campaign in Texas to preserve the health of the state against summer contagions. Work will not end with the close of the state-wide clean-up campaign now well under way, but at its close, continued warfare will be waged on the mosquito in the malarial districts to keep down that malarial to a minimum. Attention will also be constantly given to the protection of water supplies that water-borne diseases, such as typhoid fever and dysentery may be kept under control. As a further protection against these two diseases, efforts will be made to secure the adoption of a milk sanitation program by every city in the state. Sewage disposal will also come in for its share of attention, as it is a very necessary health measure that public water supplies be protected from contamination.

## CROWELL SCHOOL HONOR ROLL

Below will be found the names of all pupils in Crowell school who have been perfect in attendance and who have made an average grade of 90 or above:

In Miss Lottie Woods' room, we find that Merrill Allee, Peggy Cooper, Ruby Dawson and Glenn Shook, have been perfect in attendance and Fred Allen Beverly, Edward Briscoe, Banks Campbell, Sam Crews Jr., Ruth Ferguson and Doris Oswald, have made an average of 90 or above.

In Miss Inez Sloan's room Henry Briscoe, J. M. Brown, Frank Meason and Juanita Schlager are reported for perfect attendance.

Mrs. Underwood reports her room Wilma Lee Carver, Trecie Dawson, Ruth Fox and Eugene Palm to have been perfect in attendance.

Mrs. Self reports the followings as having been perfect in attendance: Martin Owens, James Henry Kinsey, Lorene Gray, Prudence Coffey, Pauline Chapman, W. F. Briscoe, Oliver Briscoe, Ralph Wofford, Mattie Bell Greening and Margaret Schlager.

Miss Zelma Owens reports in perfect attendance May Belle Greening, Berl Lovelady, Francis Todd, Frances Couch, Catherine Ferguson, Louise Nicholson, Mary Frances Wood, Delton Coffey, George Carter, Fred Spears, and with a grade of 90 or above, Jo Roark, George Carter, Rosalie Drabek and Henry Howell.

Mrs. Shults reports from her room Darum Bell, W. C. Green, Glynn Fox, Lillie Mae Edgin, Mary Eva Meason, Lenora Thompson, Lois Schlager, Bessie Francis, Velma Parker, Ruby Brown, Robert Parker and Cora Petty as being perfect in attendance.

Miss Ida Mae Switzer gives the names of those perfect in attendance from her room as Loraine Carter, Eloise Saunders, Bertha Womack, Margaret Stevens, Bonnie Bee Jones, Leslie Thomas, George Fox, Dan Hines Clark, Mitchell Allee and J. M. Crowell. Bonnie Bee Jones made an average of 90 or above.

Miss Jettie Arrington reports Katherine Crowell, Dessa Housouer, Mary Frances Self, Lucile Sparks, Harold Hinds, and Leland Stovall with perfect attendance and Mary Frances Self with an average of 90 or above.

No report received from Miss Winnie Self's room.

Mrs. Magee reports those with perfect attendance from her room to be Violet Acheson, Pansy Acheson, Mildred Donaldson, Richard Ferguson, Ludell Green, Zada Howell, J. W. McCaskill, Elsie Faye Roark, Blanche Schooley, Buster Smith, Robert Thomas, and Helen Wofford. Those making an average of 90 or above are: Virginia Sue Crowell, Ludell Green, Elsie Faye Roark, Mary Ragland Thompson and Helen Wofford.

Mrs. Myers reports Arthur Bell, Ralph Cogdell, Joe Ben Roberts, Ernest Spears, Horace Wofford, Mary Briscoe, Nancy Cogdell and Everie Owens as having been perfect in attendance, and Horace Wofford as making an average of 90 or above.

We hope to get the high report in the next issue of the News.

R. B. UNDERWOOD, Supt.

J. A. Stovall was here yesterday from Thalia. Mr. Stovall says he is well pleased with the grocery business in Thalia. The News is thankful for a nice order of printing from this new firm.

## Aged Margaret Woman Died on Feb. 23rd

The News found it impossible to get particulars of the death of Miss Narcissa Emily Beatty, which occurred at the family residence in Margaret on February 23rd, in time for publication that week, and then all last week it happened that the News force was disabled by illness, so that again the account of her death was not published. Through the kindness of the pastor of the Methodist church at Margaret we have been provided with the following:

Miss Narcissa Emily Beatty was born December 25, 1849, in Chambers County, Alabama. Came to Texas in 1888, settling in what was then Hardeman County near Margaret.

She was converted early in life and joined the Methodist church in which she lived a beautiful, consecrated life until on Feb. 23 at 7:40 o'clock, at the family residence in Margaret she passed away.

For the past few years she has been in failing health, but she bore her afflictions without a murmur. She loved the church and the service of God, and delighted in singing the old hymns of the true. She was a devoted sister, a true and trusted friend, and a faithful servant of God.

She is survived by three brothers and one sister, J. H. Beatty, Margaret; D. P. Beatty, Wichita Falls; W. L. Beatty, Shilo, Ga.; Mrs. Florence Roberts, Crowell, Texas.

Funeral services were held from the Methodist church at Margaret, Rev. T. M. Johnston officiating. Her body was laid to rest in the Old Margaret cemetery.

## ART CONTEST NOTES

A program featuring numbers used in the music memory contest will be given Friday night, March 19, at 7:30 o'clock at the Methodist church of Crowell. Local musicians are lending their efforts to make this program a success. It will offer an opportunity for all persons who enjoy hearing music to spend an evening listening to a varied program of musical offerings which are representative of the best in musical composition.

Pupils, patrons and teachers from the county schools and communities are urged to be present. Also all other persons who have any interest whatever in music.

The program will be as follows: Orchestra—"Stars and Stripes Forever." Sousa—Crowsell Orchestra, directed by A. A. Rucker.

Piano solo, Humoresque, Dvorak.—Frances Allison.  
Chorus—"Cradle Song," Brahms; "Rock-a-Bye Baby," old Lullaby—Chorus of little girls, directed by Miss Inez Sloan.  
Piano solo, "Minuet in G," Beethoven.—Evelyn Sloan.  
Vocal solo, "O Sole Mio," Neapolitan Folk Song.—Mrs. Adolphus Wright.

Piano solo, "Spring Song," Mendelssohn.—Darothy Flovence Hinds.  
Violin solo, "Berceuse (Joselyn)," Gokard.—T. B. Klettner.  
Vocal solo, La Paloma, Yradier.—Mrs. Palm.

Piano solo, To a Water Lily, MacDowell.—Frances Clark.  
Violin solo, Traumeri, Schumann.—Mrs. Alva Spencer.  
Vocal solo, By the Waters of Minnetonka, Lieurance.—Mrs. Taylor.  
Quartette, Home Sweet Home, Payne; Old Folks at Home, Foster.—Messrs. Duke Wallace, W. F. Kirkpatrick, Garland Burns, E. A. Dunagan.

Chorus, Adeste Fidelis, Reading; Silent Night, Gruber; Massa Dear, Dvorak.—The Women's Chorus, Mrs. Palm, director.  
Orchestra—Selected.

La Paloma (The Dove) by Yradier comes to us from Spain, and is popular in all Spanish-speaking countries of the world. The rhythm is distinctly Spanish and the castenets can almost be heard in the movement of the accompaniment. The melody is smoothly flowing and beautiful, then changes into the rhythm and air of the accompaniment. This song is of the nature of a folk-music and is known as a composed folk-song.

O Sole Mio is a Neapolitan Folk-song, being a favorite song of Naples. It is a true folk-song which has sprung from the very life of the people and which is an outburst in song of their innermost feelings. All the warmth of the sunny land of Southern Italy and all the fervor of a southern people accustomed to nature at her best is expressed in this beautiful folk-song.

By the Waters of Minnetonka was composed by Thurlow Lieurance, a gifted American composer, who has made a study of Indian music from the Indians themselves. This song is one of the best known of the Indian tribal melodies which Mr. Lieurance has fitted with a modern setting. The story is an old legend of two lovers, one from the Sun Tribe and the other from the Moon Tribe, who, because their love was hopeless under the tribal law, drowned themselves in the water of Lake Minnetonka and sank together from sight.

## Wichita Boosters to Visit Crowell April 21st Over the Orient

On April 21st, at 10:55 a. m., according to a prepared schedule, boosters from the Chamber of Commerce of Wichita, Kansas, will arrive in Crowell and spend a half an hour here, leaving at 11:25 for Foard City where they stop next at 11:45.

A good many years ago our town was visited by boosters from that city and we remember them as a bunch of real boosters.

That Crowell will show them as good time as it is possible during their brief stop here, goes without saying. It will be the greatest pleasure of this city to extend them every courtesy it can and it will find it a great pleasure to call attention to the growth of the town during the time that has elapsed since they were here before.

Preparations will be made by the local chamber of commerce to give them a reception and show them every courtesy they can.

## Cates Tour Georgia and Peninsular States

A communication from I. M. Cates, who is at Ellenwood, Ga., says they have been seeing the sights in Georgia and the Peninsular State. The letter follows:

I will try and tell you something I have seen here in Georgia. I visited Stone Mountain and saw the monument they are carving. It will be something grand when they get it finished. I also visited the Cyclorama and saw one of the grandest pictures I have ever seen. It is made in a large circle. When you enter you are in a large circle, entirely surrounded by a mighty army in battle. You can see for twenty-five miles in every direction you may look. You can see them falling, bleeding and dying. Some of them are almost at your feet while some of them are quite a distance. This is the great battle fought near Atlanta, Ga., in 1864.

I then got my wife, my brother, Y. M. Cates, S. D. Mitchell and Ruby in my car and we all pulled out for Florida, down through Georgia. I saw some of the best country I have ever seen in Georgia in and around Ft. Valley, the big peach section. We headed straight for Tampa on the west coast and then back near the center of the State. Then we went south as far as we could go and shot across to Ft. Pierce on the east coast. From there we went down the coast to Palm Beach and on to Miami. We were looking for some good country but failed to find it. As we came back we visited St. Augustine and saw the Old Fort. From there we came to Jacksonville and then on home. We traveled 1676 miles on the trip.

With best regards, I remain as ever, Your friend,  
I. M. CATES.  
P. S. We sure are glad to get the Foard County News. We get it on Monday.

## Polo Tournament at Minnick Ranch One Week, March 24-31

A polo tournament will be held on the Minnick Ranch for one whole week, from March 24th to the 31st, according to information given the News by Jim Minnick.

It will be a big event for this portion of the country and many people are expected to be here from distant centers. It will be interesting to many of the people here who have never seen sport of that class.

Mr. Minnick tells us that there will be teams from Ponca City, Oklahoma, Tulsa, Fort Reno, Dallas and Wichita Falls, about 30 included in the visiting teams. Minnick says there will be some moneyed birds among them.

The polo grounds are on the south side of the Wichita River in Knox County and they are reached from the top of the hill south of the bridge where a turn from the main highway is made back towards the river.

Mr. Minnick is making preparations for an event which he anticipates with a great amount of pleasure. He is a lover of the sport and is well known all over the country as champion polo sportsman. For some years Mr. Minnick has trained ponies on his ranch for polo sports and has gone into the big centers with them.

This event will be something new here. The fact is, if anything like it has ever been held in the state we do not know it. It is common for a city like Denver and the large cities of the North and East, but not for this part of the world.

## George Self Attends Convention of Ford Dealers at Detroit

George Self, manager of the Ford Motor Company of this city, left Saturday for Dallas where he expected to join the company of Ford dealers for a trip to Detroit to be at the convention of Ford dealers in that city Thursday, Friday and Saturday.

The Ford dealers of the Dallas Branch number something like 250 and it was expected that a good strong representation of these dealers would report for the trip. The trip was to be made from Dallas where the party was to start Monday or Tuesday.

Mr. Self had anticipated a pleasant and profitable trip to Detroit and when he returns he will no doubt have an additional amount of enthusiasm to put into his business by reason of his experience and observations.

## Vernon and Chillicothe Chicken Thieves Active

A man giving his name as Johns Walker this morning in Chillicothe was arrested by Deputy Sheriff on a charge of stealing chickens. Littleton, Schoppa and Huff, who live west of town had their chicken houses robbed last night. The officers got busy and got a tip that the man was headed to Chillicothe so rushed up there. He was arrested when he attempted to sell them to a produce house in that city.—Vernon Times.

## Farm and Live Stock Statistics

According to a preliminary report which has been issued by the Bureau of Census of the United States Department of Commerce, Foard County has made quite an increase in the number of farms in the past five years. The census which was taken in the county during 1925, was thorough and should be reasonably accurate. The report shows other items which are interesting.

On January 1st, 1920, there were 629 farms. Out of this number there were 331 owners, 296 tenants and 8 managers.

On January 1, 1925, there were 873 farms, of this number 372 were owners, 498 tenants and 3 managers.

The report shows exactly the same number of horses on the farms in 1920 as in 1925, being 3007 listed. Mules show an increase. In 1920 there were 1871 mules and in 1925 there were 2910 mules.

The total number of cattle in 1925 were 15,031, and 1925 there were 18,811. Dairy cattle show an increase. In 1920 there were listed as dairy cattle 1208, and in 1925, 1509.

In 1920 there were 2550 hogs, while in 1925 there were only 1246.

The cotton acreage in 1919 shows 17,039 acres, which produced 9,143 bales. In 1924 the acreage is given as 39,315, and produced 15,406 bales. This shows an increase in the cotton acreage of over 22,000 acres.

The wheat acreage was given in 1919 as 47,699 and produced 941,670 bushels. In 1924 it is given as 33,434 and produced 834,001 bushels. This shows a decrease in the wheat acreage of over 14,000 acres.

Corn and the grain sorghums show a decrease, while oats and feeds for roughage show an increase.

## Prisoners Escape from Quanah Jail Sun. Night

Quanah, Texas, March 8.—Five prisoners in the Hardeman County jail here overpowered Jailor Ted James as he was bringing a load of coal into the runaway of the jail and made their escape Sunday night.

Two of the prisoners were from Chillicothe, being held on charges of forgery and assault with attempt to kill. The others, including one negro, had been arrested at Quanah. One man, who is in jail awaiting an appeal on a murder charge, refused to take advantage of the opportunity to escape and remained in jail.

Jailor James states he had just removed the ashes from the stove in the cell and was entering with a load of coal when the five men overpowered him and escaped through the front door. None of them have been apprehended.

## Baylor County Has Breed of Mean Mules

Some time ago a farmer in Baylor County was attacked by a mule and had his leg chewed off. Everybody just thought that was one mule like which possibly there was not another in all the world. But that is not the case. Now the news goes out that C. L. Martin, a very prominent farmer in Baylor County, and a few years ago a candidate for the Legislature against J. D. Parnell, was attacked one day last week by a mule he was breaking and sustained a fractured leg and some ribs.

The Baylor County type of mules will not do to fool with.

## DEE ROBERTS TO GO ON ROAD FOR AMARILLO FIRM

Dee Roberts resigned the superintendency of the Methodist Sunday School last Sunday morning and will go on the road for the V. K. McCaskill Company of Amarillo, selling phonographs.

He will make Crowell his headquarters and will likely have his territory the South Plains country.

Mr. Roberts will act as superintendent of the Sunday School until the conference selects a man for the place.

J. L. Kinchloe brings us an egg, which is two-in-one, that is the egg is two joined together in the middle. It is a very large one and in all probability possesses the value of two, when considered as a commercial product. Not that it would sell for the price of two but it would make a meal for the big egg eater who demands two for breakfast. The other egg was given the News by D. P. Briscoe and has a distinct tail at one end, but is only of ordinary size.

## Plans Are Being Made for Increase of Crowell's Water Supply

The city council, not unmindful of the fact that with the increased consumption of water here there must come demands that will necessitate an increase in the supply, have gone to work to solve the problem of an adequate supply before it is too late. And with that thought in mind they have had engineers to make a survey of the proposition looking to the building of a dam on Reggedy creek about three miles northwest of Crowell.

An option has been secured on a tract of 320 acres lying along Raggedy and extending from a point north of Bill Emery's place southwest towards the highway. A survey has been made and blue prints prepared, showing the location of a proposed dam and calculation of the water it is possible to impound and the cost of the construction of such project. It is estimated that the cost of such proposition will be in the neighborhood of \$30,000, and that the amount of water to be thus impounded will be about 100,000,000 gallons. At the present rate of water consumption it is estimated that such lake will supply the town's needs, when full, for a period of at least three years. That allows for evaporation. The dam will be 700 feet in length.

Some uncertainty had been entertained as to whether or not the earth was such as not to allow wasteful seeps, but it is reported that a thorough investigation of the dirt has been made by the engineers and they state that it will hold.

The matter has been submitted with plans of blue prints to the state engineering department for approval and it is thought there will be no question but that they will be favorably passed on.

The people of Crowell will be interested in knowing how this will be paid for, and while we are not in position to give definite information, we are permitted to say that the city council plans to issue warrants for the payment of the cost of the project, and they figure that it can be done without any additional cost in taxes to property holders.

If it can be worked out so that there are no further raises in the taxable valuations, there is no doubt but that it will meet with the hearty approval of tax all payers. Whether they should stand for an increase in these values without registering objections is not for us to say here. Possibly they would. Certainly they can not object to its being done if there is no raise in taxes for every one realizes that we must have more water one of these days.

It is said the water supply at the wells has not decreased but that the consumption has increased so that more water must be supplied. That comes as a natural result of the growth of the town. The sewerage will come in for its supply for the first summer now very soon, and every one knows what that is going to mean. We are simply facing one of the problems common to every town that grows.

As to the character of lake water, there is some gyp in it, but by far most of it is flood water and the element of mineral is reduced to a minimum. The big lakes, such as Lake Kemp, are said to be comparatively soft, even though fed by a gyp stream.

## W. F. Thomson Runs for Commissioner Again

W. F. Thomson, the present commissioner from precinct No. 4, asks for re-election subject to the action of the Democratic primary.

Mr. Thomson needs no words of commendation, since his record of faithful service is before the people of his precinct. He is a man who is always found serving to the best of his ability in whatever capacity it happens to be his to serve. He is careful in weighing the interests of every one when such interests demand his consideration. He is safe and conservative, and therefore worthy of the trust placed at his hands.

## WEST TEXAS UTILITIES CO. ADD NEW ENGINE

The West Texas Utilities Company had to arrive recently a 150 horse power Fairbanks Morse engine which they have moved to the newly remodeled building in town where the engine will be put into service for the company.

FULLER PEP

"SERVICE" Is Our Motto

The best way to boost one's own business and one's own community is to popularize by giving the very best SERVICE possible at all times.

This is our aim and by doing so we have increased our business by bringing people from a long distance to our Filling Station.

Mack's Filling Station

G. W. Jones Paul Ely

week. Mrs. Sim Gamble and son, Sim V., left Saturday morning to be with Mrs. Gamble's mother, Mrs. Ingle, who is quite sick in Oklahoma.

Mr. and Mrs. Vernon Pyle spent Friday with the latter's sister, Mrs. Homer Zeibig and family of Crowell.

J. L. Shultz and family of Thalia spent Saturday with D. M. Shultz and wife.

Valmer Bond, wife and children spent Tuesday night with Mr. and Mrs. J. B. R. Fox. They live in Colorado.

S. I. Shultz and family of Vernon, also G. A. Shultz, wife and small daughter, Mary, of Thalia spent Sunday with Mr. and Mrs. D. M. Shultz.

Mr. and Mrs. Crank and baby of Rayland spent Saturday night and Sunday with Mr. and Mrs. C. E. Stewart.

R. R. Pyle and family left Monday afternoon to go to Vernon where they left Tuesday morning for Bay City. Mr. Pyle's mother had been quite ill, but they reported her better, which we were all glad to hear. Mr. Pyle and family arrived in Bay City Wednesday evening at 4 o'clock, making the trip in less than 2 days.

Mr. and Mrs. Chandler and family of Vernon, R. L. Pyle and family, also Crawford Burrow, all of Vernon spent Sunday with Mr. and Mrs. E. W. Burrow.

D. W. Pyle and wife of Thalia, Vernon Pyle and family, also Weldon Bradley of Ft. Worth, a cousin of Mrs. Burrow, spent Sunday in the Burrow home.

Mr. and Mrs. Dave Shultz spent most of last week in Vernon, Mr. Shultz helping his brother, Walter, in building his new house.

Every one is invited to attend Sunday School at Gambleville every Sunday afternoon. Also the first Sunday in each month Rev. Hedges of Thalia will preach. Every second Sunday Rev. Tye of Crowell will preach and on the third Sunday Rev. Taylor of Crowell will preach. It is very fortunate to have these pastors coming from Crowell and Thalia to preach. We hope there will be a regular attendance every Sunday.

Mr. and Mrs. Claude Roberts of Vernon spent Saturday night and Sunday with Dave Shultz and wife.

Mr. Ely has moved his family near Crowell to the Dee Roberts farm.

C. E. Stewart is on the sick list this week. Also the Cavin children.

Will Truesdell of California spent from Tuesday night until Thursday with Mr. and Mrs. J. B. R. Fox. He was on his way back home.

Fish School

(By Special Correspondent)

Mr. and Mrs. Hagan Whatley and little daughter, Lora, were called to Gould, Okla., last Thursday on account of the serious illness of Mrs. Whatley's sister. At this date they have not returned.

On last Monday Mr. Cargle Wise and Miss Viola Denton, daughter of Mrs. Tom Lawhon, were quietly united in marriage at Paducah. We congratulate the groom on his wise choice of a bride and extend to them best wishes for a long and happy life.

The infant son of Mr. and Mrs. Allen Holly has recovered from his recent illness. Likewise we are glad to report the little son of Mr. and Mrs. Arthur Wilson as doing finely.

L. L. Whatley has recovered from an attack of flu that kept him in several days last week.

Mr. and Mrs. L. W. Kitchen of Tahoka, Texas, are paying his son of this community quite an extended visit, but expect to leave soon to visit their daughter at Godonville, Grayson County, Texas. Mr. Kitchen has been a resident of Texas for seventy years and has witnessed the development of the state from a frontier region to her present high state of civilization and hopes to see Dan Moody her next governor.

Quite a number of relatives, friends and neighbors called on Mr. and Mrs. Tom Lawhon Sunday afternoon.

The recent rain was of much benefit to ranchmen and farmers out here.

**ONE IN TEN**  
Neglecting a little wound, cut or abrasion of the flesh may in nine cases out of ten cause no great suffering or inconvenience, but it is the one case in ten that causes blood poisoning, lockjaw or a chronic festering sore. The cheapest, safest and best course is to disinfect the wound with liquid Borozone and apply the Borozone Powder to complete the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c.

For Sale by All Drug Stores

In the old days a young man selected his bride, but times change.

Chicago is to have a new hotel called the Coolidge. Doubtless it will be a nice, quiet place to stay.

Every man, if he will admit it, has carried his wife's letters, given to him to mail, for three or four days.

### Fine Levied 18 Years Ago Threatens Man's Home

Des Moines, Iowa.—Facing deprivation of his home to satisfy the state's demands for payment of a fine imposed 18 years ago, Charles Eddy, seventy-year-old painter, of Belle Plaine, has appealed to Governor Hammill.

The property has been ordered sold to satisfy the judgment of the Benton county court, imposed September 25, 1907, for a state liquor law violation. Eddy pleaded guilty and was fined \$300 and costs and sentenced to 90 days in jail.

He served the jail sentence, but was unable to pay the fine. The state for 18 years left Eddy unmolested. While the fine was growing to \$725 through increase of interest, he saved his money and bought a home.

Eddy's attempt to obtain a loan on his property brought to light the old judgment against him.

### West Rayland News

(By Special Correspondent)

Mr. and Mrs. Ralph Bradford of Margaret visited Ben Bradford Sunday.

Mrs. Herbert Gregg and baby are very sick at this writing.

Carl Bradford of Margaret visited Nola Bradford Friday and Saturday.

G. C. Tamplin visited friends in Tipton, Okla., from Thursday until Monday.

Alfred Schroeder is able to up after an operation for appendicitis.

The small daughter of Mr. and Mrs. Ward who has been real sick with pneumonia is improving.

Mr. and Mrs. F. L. Farrar visited relatives in Farmers Valley Sunday.

Hazel Key who has been sick with the flu is improving.

J. L. Fite from Fargo visited F. L. Farrar and family Sunday night.

Mr. Blakeley from Dallas, Texas, spent Wednesday night with F. L. Farrar and family.

Ernest and Clifford Cribbs, Mr. Belton, Mr. Key and family, Mr. and Mrs. Ben Roberts were Vernon visitors Saturday.

Word has been received by J. C. Davis that his son, C. A. (Arthur) has been elected to an assistant professorship of history in the University of Wisconsin. Mr. Davis is a former student and teacher of the West Rayland school. He made his work toward a 2nd grade certificate and later a first grade certificate upon completion of his work in the West Rayland school. Later he entered the North Texas Teachers College where he was both an active and popular student for four years. Upon receiving his degree from this institution Mr. Davis was for two years superintendent of the Olney public schools and has been doing work toward his M. A. degree in the University of Wisconsin since Sept., 1925. The community takes a great deal of pride in the achievement of its former boys and girls and is justly proud of Arthur and his success.

The crowd at the singing Sunday night was greatly diminished because of the flu epidemic.

A crowd got together at the school house Saturday morning and set out fifty Sycamore shade trees around the school ground.

Some folks look upon air, food, water and a good alibi as the only real necessities of life.

Crowell, Texas

## Stop Hatching Weak Chicks

Chicks that hatch out weak and wobbly, and live but a few days, mean nothing to you except trouble and loss. They make one sick of the poultry business. Most of the chicks you lose in the first two weeks die because they do not hatch out with enough vitality or strength for a good start.

### Queen Incubators

Are famous for big hatches of strong, healthy chicks that live and grow. It is not luck that chicks hatched from Queen Incubators are stronger and healthier—it is because the Queen maintains accurate and uniform hatching conditions throughout entire hatching period, producing almost always a perfect chick fully equipped with the strength and vitality for a good, quick start.

Let us show you a QUEEN and tell you about the New Patented Air-Cell Control. It certainly gets the chicks.

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, March 12, 1926

**THE BAPTIST CHURCH**

We are always glad to have you worship with us at the Baptist church in Crowell. This church extends a hearty welcome to all to take a part in their services who are not in the habit of going elsewhere. For the next few Sundays I am going to preach a series of sermons based on the churches of the New Testament. This will be an effort to ascertain facts that can be applied to our own day. These sermons will be at the morning hour except Easter and Mothers Day. The subject for next Sunday is, "The Mother Church", and the others are as follows: The Missionary Church, The Unstable Churches, The Effective Church, The Heretical Church, The Joyful Church, The Expectant Church, The Worldly Church and The Renowned Church.

S. A. TAYLOR, Pastor.

**CO-LABORERS CLASS**

On February the twenty-fifth, Meses. Gorrell and Roberts were hostesses to the Co-Laborers at the home of Mrs. French.

The lesson was the Marys of the Bible. The six women mentioned in the New Testament who were called Mary were discussed by different members of the class. "She hath done what she could," words spoken by Jesus of Mary, sister of Martha, were words to think about in relation to each one present.

The social hour was very pleasant. Jo Roark read; the mixed names of the class was one diversion, some cross questions and answers another. A refreshment plate was served to the members and to Meses. Hollingsworth, Miller and Kenner.—Reporter.

**ANNOUNCEMENTS**

- For Judge 46th Judicial District: ROBERT COLE.
- For District Attorney 46th Judicial District: C. Y. WELCH, JOHN MYERS, O. O. FRANKLIN.

- For Commissioner Precinct No. 3: E. M. CROENOE, E. V. HALBERT.

**Warning to Wives**

If you expect your marriage to be happy, I warn you to beware of the following:  
 - Trying to "boss" your husband.  
 - Talking too much.  
 - Interrupting serious conversation with banal interpolations.  
 - Jealousy—when there is no cause for it.  
 - Belittling your husband in public.  
 - Overpraising your husband in public.  
 - Talking too much about yourself.  
 - Lying unnecessarily—about the price of things, for instance.—From "The Passion Called Love"—Elinor Glyn.

**"Art for Art's Sake"**

Art for art's sake does not mean that art is more important than morals or is to be pursued to the exclusion of every other interest. It simply means that art is a region free and autonomous. It cannot be bent to ends of moral edification or practical propaganda without coarsening, warping and cheapening it, any more than a church steeple can be turned into a silo. And even the most practical farmer would hardly dare to suggest that the church trustee ask the architect to plan a church without a steeple, on the ground that it served no practical purpose.—Llewellyn Jones, in "First Impressions."

**Lignite Valuable**

Lignite is a brownish black coal in which the alteration of vegetable material is produced further than in peat, but not so far as subbituminous coal. It is found principally in Arkansas, Louisiana, Massachusetts, Minnesota, Mississippi, Montana, North Carolina, North Dakota, South Carolina, South Dakota, Tennessee and Texas. Lignite may be used for fuel in the lump form as mined, provided it is consumed near the point of production. If this is not done, it is desirable, if not important, to use it in briquettes or in a gas-producer.

**Christian Science Services**

Sunday, 11 A. M. Subject for Sunday, March 14th, "Substance." Sunday School 9:30. Sunday evening services 7:15. Wednesday evening services 7:15.  
 Reading room open each Tuesday and Friday from 2 to 5 p. m., where the Bible and all authorized Christian Science literature may be read, purchased or borrowed.  
 The public is cordially invited.

**Ford**

**For the First Time \$500 Buys a Closed Car**

If you plan to spend over \$500 F. O. B. Factory for an automobile, you can get the year-round comfort and convenience of a Ford closed car.

The price advantage which the public enjoys in purchasing Ford cars is the result of volume production. In 1920, when the Ford Motor Company was producing approximately only a million cars a year, the Ford Touring Car sold for \$575. Today, with production on the basis of nearly two million cars a year, the Tudor Sedan, a high quality all-steel closed car, can be purchased for \$520—\$55 less than the Touring Car sold for six years ago. Open car prices are correspondingly low.

While this program of price reduction has been carried on, important refinements and improvements have been made in Ford cars. The latest improvements include new and attractive body lines—a lower center of gravity, closed cars in color, all-steel bodies, new brakes and new style fenders.

However, the basic features of Ford design have not been changed. Three point motor suspension, planetary transmission, dual ignition system, torque tube drive, multiple disc-in-oil clutch, splash lubrication, thermo-syphon cooling system—outstanding features of automobile design—have all been retained, regardless of cost.

FORD MOTOR COMPANY, Detroit, Michigan

TOURING	<b>NEW PRICES—</b>		RUNABOUT
'310			'290
TUDOR SEDAN	COUPE	FORDOR SEDAN	
'520	'500	'565	

Closed car prices include starter and demountable rims. All prices f. o. b. Detroit.

**"Ford Design Costs More to Build—Is Worth More—But Sells for Less"**

# A Lesson from Business

Every sound business puts a part of its earnings in a surplus account for emergency or development. Every business-like person does the same.

Such an account is a solid foundation on which to build your home. It is the foundation that will hold your home together—happily and prosperously.

## A Reminder!

### THE ACID TEST OF THE CHURCH

The business of the Church is threefold:

1. She Leads Men to God;
2. She Organizes the Friends of God;
3. She Sets Her Members to Doing Good in the World.

YOU share in the Church's benefits. Why not share also in her work and responsibilities?

After investigating most of leading makes of batteries, I have contracted for the U. S. L. batteries, believing that they are one among the best that are made. More than 40 per cent of all the motor vehicles built this year, (excepting Fords), are U. S. L. equipped. The users of 3,000,000 U. S. L. batteries know U. S. L. quality. You will be surprised at the low price of this quality battery. I have these batteries in stock. For further information see me.

### New Way to End Dangerous Cough

The most stubborn cough is relieved with the first dose, and is very often broken up entirely in 24 hours by a new method based on the famous Dr. King's New Discovery for Coughs.

Here is the method: You simply take one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but also loosens and removes the phlegm and congestion which are the direct cause of the coughing. So with the cause removed, the severest cough usually disappears quickly.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for

#### Washington Birthday Program

Denton, Texas, March 9.—Colonel Lindsey Blayney, president of the College of Industrial Arts, was one of the speakers at the Washington birthday program given at A. & M. College last Monday.

At the conclusion of President Blayney's address a committee of ex-students of C. I. A. from Brazos County, presented him with a floral piece as an expression of appreciation of his work with C. I. A.

#### WHAT'S DOING IN WEST TEXAS

(West Texas C. of C.)

Cross Plains—The Oil Belt District Convention of the West Texas Chamber of Commerce will be held here March 23. Unusually heavy attendance is expected. A feature will be the high school speaking contest on "My Town" in which high school students from the towns of the district will contest for a prize of ten dollars in gold.

Stamford—R. Q. Lee, president of the West Texas Chamber of Commerce has completed his fourth major campaign in behalf of a program of diversified and intensive farming. This campaign was over the South Plains and Cap Rock counties and eleven speaking appointments were filled. He plans two more campaigns, one through the Brady-Del Rio country and one in the Fort Worth district.

Abilene—This city has purchased space in the West Texas Chamber of Commerce exhibit at the Sesqui-Centennial Exposition at Philadelphia. The Abilene special exhibit will go into a ten foot front space for which the city pays one thousand dollars.

Cisco—The viaduct over Williamson Dam at Lake Cisco and a state highway over the dam and on the connect with the Shackleford County highway system is assured. The State Highway Commission has ordered the bridge and highway and passed an order to advertise for bids.

Eastland—The Texas-Pacific dining car service will serve fresh eggs of the Bankhead Poultry Association. Contract for eggs has been signed by the association with the railway and a neat premium will be received by producers for their quality eggs.

Vernon—A five story modern hotel of 100 rooms will be constructed here by Col. E. O. Thompson of Amarillo. The Vernon Chamber of Commerce supplied a building site as a bonus for the hotel. Cost of the structure will be \$200,000.

Breckenridge—E. O. Goodwin for the past two years secretary of the local chamber of commerce has accepted the secretaryship of the Board of City Development of Amarillo at a salary of \$5000 per year.

Silverton—Few Texans are aware of the scenic wonders of Schott's Cap near here. At this point the Cap-Rock crops out in a manner as seen nowhere else. Canyons seven hundred feet deep, mountain peaks and mountain scenery unsurpassed anywhere form a wonderful vista. Plans to give publicity to this wonderful Texas scenery and to improve highways leading to the natural wonders are now being worked out.

Amarillo—Steering committees for the annual convention of the West Texas Chamber of Commerce to be held here in June have been appointed. Manager Porter A. Whaley and Assistant Homer D. Wade were here recently and held conferences with the local committees. Attendance of not less than forty thousand was predicted by the officials.

Littlefield—Announcement of the candidacy of Arthur Z. Dugan for Littlefield for the post of president of the West Texas Chamber of Commerce has been made by his friends. Mr. Dugan has accepted their nomination of him for the place and has formally announced.

Wichita Falls—A pipe line from this city to the oil fields of the Texas Panhandle is assured. This line will greatly increase operations in northern fields.

Jacksboro—Construction of the beautiful highway system of Jack County is going forward rapidly. The county will have paved highways crossing it both directions and the highways will be of high type and perfect engineering. The Jacksboro Chamber of Commerce under the direction of J. Allen Loftin, new secretary, has taken on new life and a constructive program of city development has been mapped.

#### C. I. A. Hostess Dies

Denton, Texas, March 9.—Mrs. F. B. Carroll, for seventeen years hostess of Smith-Carroll at the College of Industrial Arts, died last Wednesday, February 24. Funeral services were held in the Garden of Smith-Carroll Hall.

Mrs. Carroll was one of the founders of Smith-Carroll Hall in 1908; and organized the first Y. W. C. A. at the College.

A Chicago railroad crossing flagman gave his life to save a careless motorist. Was it worth the price?

One who is in a hurry to make money travels so fast he does not enjoy life, but he enjoys making money.

#### HALTING THE CRIME WAVE

The solution of the crime wave which is sweeping the country lies in the hands of the lawyers, a speaker before a bar association meeting a few days ago said. He reasoned that if the lawyers of the country made the effort they could halt the sweep of the wave.

He is no doubt correct as to theory, but its application is far from impossible. Lawyers could make crime less inviting if they would refuse to defend criminals whom they know to be guilty. They could also do the country a service if, after their client has been found guilty, and they are reasonably certain of his guilt, they would refuse to appeal his case and load a heavier burden on the higher courts.

There is no denying the fact that hope of ultimate freedom held out to criminals by some members of the bar is one of the reasons for the increase in crime.

It's not fair to put this blame on all lawyers. The majority of attorneys are fair, honest and upright citizens and are anxious to do all in their power to cause respect for law to increase. But a small minority is guilty of the practices that lend encouragement to criminality, and they should be weeded out by the respectable members of the bar and not be permitted to discredit the profession.

Coolidge probably gave that bad cold he had a chilly reception.

Some men move so slowly you could take a time exposure of them running.

Two fishermen were lost at sea four days, and the stories they tell won't be fish stories.

Speaking of the blindness of love, observe the automobiles which some people carefully lock.

#### Physical Defects in Students on Decline

Jackson, Miss.—A vast decrease in physical defects of college students has been noted in examinations over the last decade at Mississippi A. & M. college. D. C. B. Mitchell, college physician, attributes the improvement to educational work in public health programs.

In a letter to Dr. F. J. Underwood, state health officer, he called attention to the improvement in teeth and corrected eye defects.

"I find practically all teeth in good condition, whereas nine years ago I seldom found a set of sound teeth. There are 37 freshmen with properly fitted glasses. Nine years ago I found only six with glasses."

We never know what other people are thinking, and for the sake of our vanity, it is just as well.

Not enough of the filling station bandits get filled with lead.

#### How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of grippe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calotabs, the purified and refined calomel compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calotabs at bed-time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you please,—no danger.

Get a family package, containing full directions, only 35 cents. At any drug store. (Adv.)

Gossiping is the best indoor sport for developing the jaw.

"YOU ARE ENTITLED TO KNOW THE FACTS"  
DODGE BROTHERS, INC.

# Only STEEL

could meet a test like this!

A Dodge Brothers Motor Car . . . A speeding truck racing down hill and out of control . . . A collision . . .

Take one look at this photograph. It is not pretty, to be sure, but it will convince any sensible man that all steel construction is the only safe construction for a motor car body.

That is why Dodge Brothers introduced the all steel body more than eleven years ago, and this year greatly improved and perfected it.

In fact, Dodge Brothers are convinced that the day is not far off when wooden motor car bodies will be a curiosity. People will shudder at the thought of having ridden in them and will thank Dodge Brothers for the greater safety, durability—and beauty, too—of all steel construction.

A steel body will stand up under impacts that would crush the average body to bits. Steel cannot splinter. Steel cannot burn. Steel is an armor of protection on the crowded, hurrying highway.

Outwardly, nearly all types of bodies appear to be all steel. In reality, however, most of them are simply frames of wood covered by a metal shell.

Dodge Brothers Motor Car bodies are steel through and through—steel reinforced by steel—battered and braced by steel—even the frames and running boards are steel.

And slender, stronger steel corner posts replace the customary bulky posts of wood, affording full, unhampered driving vision on all sides—a safety feature of the first importance!

Travel in safety! Powerful, quick-action brakes, a chassis world-famous for its sturdiness, and a body of steel—these explain the enviable reputation for safety enjoyed by Dodge Brothers Motor Car—and the enviable feeling of safety enjoyed by those who drive it.

The car will continue to be a "four". No reasonable buyer will be distracted from the issue of QUALITY by mere CYLINDER propaganda.

## Smart New Dresses

“Sunbeam” Brand—in Genuine Aberfoyle Radioux Chiffon and Mohpac Sports Fabrics

AN EVENT the Dress Shop is justly proud of—we know fashion-wise women and misses will be delighted with such smart, attractive and practical dresses at so inexpensive a price! They are ideal for Spring and Summer—suitable alike for home, street and sports wear.

The large assortment is comprised of the well-known “Sunbeam” Dresses made of the fashionable Radioux Chiffon, a superior Rayon fabric in a very fine quality and unusual new Spring patterns. It is absolutely guaranteed sun-fast and tub-fast—also to retain its silken luster, and non-shrinkable.

The models sketched above are representative of the attractive choice offered in this assortment. All straight-line tailored styles that embody the smartest Spring style features. Each individual with trimmings of plain white or colored Radioux Chiffon. Also models trimmed with handwork.

### Distinctive Features Exclusive with These Dresses

Aberfoyle Radioux Chiffon is an outstanding Rayon fabric of surpassing quality and beauty. With the exception of the staple patterns, all of the designs are exclusive to Radioux Chiffon and Mohpac fabrics—patterns of a character not possible in any other Rayon material. They fit perfectly because of their perfect, generous cut. They have wide 4-inch hems. In addition, these dresses have been made very liberal in length, and in most instances the hems can be made from 6 to 8 inches deep. Regular Sizes, 16 to 44

### Among the New Spring Colors and Color Combinations

The fine, expensive dyes used in Aberfoyle Radioux Chiffon and Mohpac make these clear, lovely colors possible. Even after numerous tubbings and exposure to the bright Summer sun, they will remain as fresh and attractive as when they are new. Extra Sizes, 46 to 52

Bois de Rose	Jade Green
Pervenche Blue	Poudre Blue
Lanvin Green	Coral Pink
Beige, Orchid	Sunset Castles
Red and Tan Combinations	

### Mohpac Sports Dresses Also Featured in This Event

This wonderful new sports fabric is usually found only in dresses selling at much higher prices. Many trig styles in this group display distinctive new designs and colors. They are smart for country club wear. Pretty, New Hand-trimmed Pongee Frocks Are Included at These Prices.

### WORKERS' CONFERENCE

### Judge Urges Mother to Spank Girl, Sixteen

New York.—Magistrate Gresser in the Jamaica court urged Mrs. Margaret Ramsden to spank her daughter, Beatrice, sixteen, after the girl had been arraigned as a wayward minor. Mrs. Ramsden, weeping, said she understood authorities would interfere if she undertook to chastise the girl. The court reassured her: “There are too many people meddling in everybody else's affairs and not minding their own business. They said the same thing last year, when I said that I always knocked some sense into my children's heads.” Magistrate Gresser insisted. “I tell you that, so long as she is under your roof, you have absolute authority to exercise such parental measures as are necessary to keep her a good girl. Your husband can take her across his knee and knock some sense into her. If parents exercised this authority we should have less waywardness among children.” Don't pity the fellow who claims that he never had a chance. He was probably afraid to take one. Try Fergesson's Pills for liver ills.

### Notice of Trustees Election

Notice is hereby given that an election will be held at the County court house in the town of Crowell, Foard County, Texas, within the Crowell Independent School District, on the 3rd day of April, 1926, same being the first Saturday in April, for the purpose of electing three white trustees, to serve as trustees of the Crowell Independent School District for a period of two years.

S. E. Scales has been appointed manager of said election which shall be held as nearly in conformity with the election laws of the state of Texas as possible. Said polls to be open at 8 o'clock a. m. and shall not be closed before 6 o'clock p. m. of same date.

No person shall be permitted to vote at said election unless he or she be qualified voter under the constitution and laws of this state and is a tax payer in the said Crowell Independent school district.

Said election was ordered by the board of trustees of said Crowell Independent School District at a meeting on the first day of March, 1926, and this notice is issued in pursuance of said order.

Dated this 4th day of March, 1926.

J. M. HILL, President.  
B. F. ELLIS, Secretary.  
Board of Trustees, Board of Trustees, Crowell Independent School District.

### FAULT FINDERS

Continual fault-finding is a dangerous habit to acquire—dangerous in an individual and dangerous for a people because of the great harm that it can cause.

Constant fretting and complaining will corrode the morale of even such a happy and prosperous country as our own. The attitude that something is wrong will drag us down.

Rather our dominant thought should be, “What's right with America?” Instead of one investigation after another to attempt to find something wrong, why not an effort to focus attention on the good qualities of our administrators, our citizens, our professions, our institutions and our industries.

The most useful patriotism is optimism—not senseless but sensible optimism. Anyone can be optimistic by thoughtfully summing up the advantages of today and comparing them with conditions of twenty, even ten years ago.

The person who complains should be ashamed because there is so much about us so much better than ever before in the experience of man, that the plea of the fault-finder resolves itself in a wail of selfish discontent.

Of course, there are too many laws because there is an over-regulation of everything. But the fault-finders are responsible for this. They have popularized the idea that everything can be corrected by law which has built up an inherent resentment against the continual “Don't do this.”

### Double Tragedy Ends in Romance for Survivors

New York.—A romance that began last March in a double tragedy has ended in the marriage of William Dempsey and Mrs. Robert Noonan, in New York city.

Dempsey's wife and Mrs. Noonan's husband were found dead in an automobile near Paterson, N. J., last spring. Mrs. Dempsey's baby daughter, who was found crying beside the car, said Noonan had shot her mother and then killed himself.

The aftermath of the tragedy brought the widow and widower together. Friendship that culminated in the marriage was the result.

## SUCCESS WITH DELINQUENT CHILDREN SHOWN IN REPORT

Agencies Co-operating in "Child Guidance Clinics" Under Commonwealth Fund See Improvement.

New York.—Can our public schools prevent delinquency and crime by giving early and painstaking special attention to pupils who are backward or out of focus, or whose behavior makes them constant puzzles or pests to teachers and parents? Even though all such "problem children" are not necessarily headed for jail, will timely study of their difficulties make them happier and more effective citizens of the school and eventually of their community?

Affirmative evidence in this respect and a story of progress in establishing "child guidance clinics" and visiting teacher service to help such children are found in a report just issued by the joint committee on methods of preventing delinquency which summarizes four years of work under a program initiated and financed by the Commonwealth fund, one of the larger American philanthropic foundations.

In organizing this program for the prevention of juvenile delinquency the Commonwealth fund, after a careful survey of present needs in the field of child welfare, approved a scheme of co-operative activities to be carried on by the national committee for mental hygiene, the national committee on visiting teachers (affiliated with the Public Association of New York city) and the New York School of Social Work. By conducting local demonstrations, issuing publications and offering scholarships, it was proposed to develop scientific study of difficult and delinquent children in the schools and juvenile courts, to foster sound methods of treatment based on such study and to increase the number of trained and competent workers in this field.

Under the direction of the national committee for mental hygiene, says the report, demonstration child guidance clinics are now being conducted in Philadelphia and Cleveland. Similar demonstrations have been carried on for periods varying from six months to a year in five other cities. As a result of this work child guidance clinics, fully supported by the local communities, are now in operation in St. Louis, Dallas, Minneapolis,

## The BULL'S EYE

Editor and General Manager  
WILL ROGERS

Another "Bull" Durham advertisement by Will Rogers, Ziegfeld Follies and screen star, and leading American humorist. More coming. Watch for them.

## News Taken from the Daily Papers

A headline in the paper says "In their war China won't fight on rainy days." They don't mind getting shot, but they won't get wet.

Imagine a sign as you start to enter China: "RAIN. NO WAR TODAY." If that was the custom in this country, we could prevent all wars by announcing that all the fighting must be done in Portland, Oregon.

Another paper asks, "Where does a Florida Real Estate man go in the summer?" He goes to California to his all-the-year-round home.

A newspaper asks "Why does a President of a concern always talk at the Company's banquets?" It's an incentive to the workers, who say, "If that's all he knows I may be President some day."

Another paper suggests, "The cheapest way to enforce Prohibition is to have everyone that drinks watched." Who is going to do the watching?

An article in a Business Man's magazine inquires, "What business in this country has the largest turnover?" Cucumbers for supper have the largest turnover, with Fords a close second.

The Congressional Record speaking editorially, says, "Bull' Durham is the best Tobacco that ever entered these Stately Halls."

*Will Rogers*  
P.S. There will be another piece in this paper soon. Watch for it.
