Cold weather will not spoil your rest if you have

KANTLEEK Hot Water Bottles

In the course of our many years of selling Drug Store merchandise, we have never sold a more satisfactory Hot Water Bottle than Kantleek.

It is made entirely in one piece— It's why it can't leak.

It has no patches, splices, seams and the stopple socket is guaranteed for two years.

Price \$2.50. Mr. Gibson is one of not more than half a dozen surviving Confederate veterans in this county and he is the oldest of them all, being more than 85 years of age.

He says there are at least fifty daughters of Confederates in this county and he would derive a great amount of good from such organization. Mr. Gibson is one of not more than half a dozen surviving Confederate veterans in this county and he is the oldest of them all, being more than 85 years of age.

Foard City Post Office Is Robbed Last Friday Night

The post office at Foard City, eight miles southwest of Crowell, was robbed last Friday night when burglars entered the building and took what money they could find. The amount of the loot was \$19, consisting of dimes, nickels, and pennies, which were taken from a cigar box.

Entrance to the building was gained by prying boards off a window. Postmaster M. L. Owens was first to discover that the building had been entered when he went to work Saturday morning. Sheriff Campbell was notified of the burglary and went to the scene Saturday morning but found no clue that will help to locate the guilty parties.

The postoffice at Foard City has been robbed a time or two before this, it is reported, in years past.

Kilworths Are Making 700-Mile Trip on Horses

For the last ten years or more Mr. and Mrs. John L. Kilworth of Lawrence, Kansas, have been spending the winters at their ranch near Gilliland. One time they made the trip of nearly 700 miles on horseback, and they are coming in that manner again this fall, according to a story in the Kansas City Journal Post of October 2nd. The item stated that they intended to leave Kansas about the last of October, so if that is their schedule they should arrive in Crowell about the middle of November or soon afterwards, as it takes about 24 days to make the trip at 30 miles per day.

Mr. and Mrs. Kilworth have traveled over a great portion of the world. They have been in every state in the Union and have traveled in a large portion of Europe, visited the Holy Land, spending 30 days in that country on horseback. They are aware of the fact that this day and time when the mode of travel is by automobile, they attract quite a lot of interest where they go on their ponies, but they say they are treated with great hospitality, especially in the rural communities where they stop for lodgings at nights.

These people are pioneers of Kansas, having resided at Lawrence all their lives and have a fine home in that city. From the year 1888 until 1899, Mr. Kilworth was actively associated with the Watkins National Bank in Lawrence, but for the last 28 years he has devoted his time to ranch life. He owns a large and considerable amount of land besides the one on which he resides. He has five children.

Friends of the Kilworths are always glad to have them here and spend the winter with us. They are in the city here and they will turn on the spring to Lawrence. They are a jovial couple, and they spend their sunshine and happy days in the country. In a large sense, they are cosmopolitan and they meet strangers not as strangers.

Highway Meeting at Floydada on November the 8th

The meeting of the county judges and their courts and delegations of business men, with highway officials of the Lee Highway Association, at Floydada on Tuesday, November 8, at 1 o'clock in the afternoon, is arranged to finish the job on the "nine county program" to pave the Lee Highway across Texas, 270 miles from Vernon to Farwell.

Five of these nine counties have already voted their bonds to pave and the State of Texas has agreed to put up two for one on the entire project. The counties having voted bonds are Wilbarger, Foard, Cottle, Motley and Hale.

At the Floydada meeting Dr. S. M. Johnson, Lee Highway head, will be present, coming from Washington, D. C. to attend. R. H. Coffey and H. H. Peck, vice-presidents, respectively of the Texas and Oklahoma Lee Highway Associations, will be present at the meeting.

Every one living in one of these counties through which Lee Highway is being paved and having a personal interest in the road is urged to attend.

Acres Granted to Wheat in Foard County

According to a survey made by our agent Fred Rennels, the wheat acreage this fall in Foard County is approximately 40,000 acres. This is in excess of the acreage at year's end, and the crop has been put in very fine condition, and was never better prepared for the grain, as mowing was done early all the land received and a good moisture was maintained throughout the season. The young wheat has not suffered for want of rain at this time and the feeling of anxiety has been creeping into the minds of wheat farmers for the last several weeks.

100 Per Ct. Profit on Turkeys

This little story will be interesting to those who are engaged in raising turkeys. Mrs. M. Bell made an investment of \$100 in five or six turkeys and she made a profit of \$100. She bought them from Fred Diggs to raise turkeys from the stock on the acre. Development has reached a stage where a profit can be calculated with reasonable certainty. From an investment of about \$30 Mrs. Bell will get 30 turkeys as her share in the flock. These birds will average about 16 pounds and will sell at 20 cents at least, possibly more. That price Mrs. Bell will realize a clear profit and will have the ginal birds left. Allowance is made for feed and other expenses, bringing the total cost, with the investment, up to \$48. Mrs. Bell is still in Dallas for medical treatment, but not only is her treatment bringing returns, but to the joy of all her friends here her health is improving.

Financial Condition of the Country Good

While the recent statements of the national banks reflect the splendid financial condition of the country, it is not all that does it. There is another fact to be observed that is an improvement of conditions in those of past years and that is there are not so many big bills to be paid this fall as usual. In an analysis of the situation it is the fact that cream and poultry products have been large contributors to that condition. More than ever before are giving attention to these lines of farm activity and they are beginning to realize their benefits.

A result there are not so many big bales of cotton and farm products are not pressed so hard to sell as formerly. The cow and the hen have more food introduced. We shall know more of them in the immediate future.

Luncheon Served in Baptist Church Thursday Evening

The News is issuing a little early this week in order to supply our Vernon visitors with a copy. These visitors, about 200 in number, have been planning a visit to our city for Thursday night, Nov. 3, at which time the Baptist ladies of Crowell were to serve luncheon in the basement of their building.

This is simply a get-together event for Vernon and Crowell that the people of the two towns, especially the business men, may become better acquainted with each other. It is done at Vernon's suggestion and the idea meets hearty approval at Crowell.

This is desirable for several reasons, because of the fact that many of our interests are mutual. The people of the two towns are engaged alike in the development of resources very similar. This is true from the standpoint of agriculture, mineral, and projects already achieved and others pending. Our interests are mutual in the matter of the new railroad project and the building of our portion of the great Lee Highway, the leading street of America. Our agricultural possibilities are similar, consequently our problems are much alike.

These, and many others are sufficient reasons why the business men of the two towns should have a get-together meeting, but possibly the main one is that of simply becoming better acquainted for purely friendship reasons. That means that each town can better serve the other in a thousand ways, than if they stood apart.

The News feels that it expresses the sentiment of its people as a whole when it issues a hearty welcome to these visitors and says that we want to have them come and meet with us.

Sweet Potatoes Make Big Yield in This County

The sweet potato crop that is being harvested in the east side of the county is showing some excellent yields in production. The acreage this year was increased to some extent over the previous year and the yield is running from 150 to 250 bushels per acre.

J. E. Young, who lives near the West Rayland school, has 30 acres of potatoes. Ten acres are of the Nancy Hall variety and twenty are Porto Ricans.

J. F. Belew, F. L. Farrar, S. W. McLarty, E. M. Key, M. L. Cribbs, and R. M. Gregg have considerable acreage in sweet potatoes.

This community has access to a curing plant which has a capacity of 17,000 bushels. This affords an opportunity to cure any surplus of the crop that they may have and market as the demand calls for them.

Many Have Herds Take Tuberculin Test in County

A step has been taken recently by the dairymen and many of the farmers of Foard County who have small herds of milk stock to build accredited herds, which shows the progress that is being made and the interest that is being taken in building up standard herds that will produce quality products of milk, butter and cream.

W. L. Riels, who has the largest dairy herd in the county has nothing in his herd but tuberculin tested cattle. He is working toward a Federal accredited herd. This is accomplished by having the test made frequently by a veterinarian furnished by the Livestock Sanitary Commission. W. E. Emery, Joe Drabek, Tom Ferguson, W. G. Chapman, G. C. Phillips and J. H. Ayers are also working toward Federal accredited herds, and have nothing in their herds but tuberculin tested cattle.

It is claimed by authorities that cows infected with tuberculosis are responsible to an extent for the spread of the disease among hogs, poultry and humans. The Livestock Commission, through the State and Federal governments, is assisting in every way to stamp out the disease by building up accredited herds, however, there are certain rigid rules that applicants must comply with in order to get the assistance in testing their herds.

WELCOME, VERNON VI

We are certainly pleased to have you with us and sincerely hope that you will have an enjoyable visit while in Crowell. We congratulate you upon your forward step in promoting a neighborly feeling with your sister cities by the unique system of banquets that the Vernon Chamber of Commerce is sponsoring. The co-operative spirit that is bound to result among the cities of this section by such meetings will surely benefit all of us.

Crowell is proud that she is so close a neighbor to "The City Beautiful," a city that is unequalled in progressiveness and beauty anywhere on the map. The more progressive cities we have in the Green Belt, the better it will be for all of us for as Vernon grows, we shall grow, for anything of benefit to this section is bound to be of benefit to all of the cities in it. So why shouldn't we realize our possibilities as a section along with those of our individual cities and work together? The benefits will surely be greater than working alone.

Crowell and Vernon and in fact the whole Green Belt have so many things in common that that fact should strengthen our bonds of friendship even more and add to our desire to co-operate in promoting the interests of the Green Belt. We know that our farm land is as fine as there is in the State as government statistics on crop production will show. We have the "goods" so why not let the world know about it, and naturally this can be accomplished with greater benefits to all by co-operating as a section with everybody boosting the Green Belt. Would the Magic Valley have its present growth if the cities in it had advertised only themselves?

We are glad that Vernon is sponsoring these "get-acquainted" banquets and promoting a co-operative spirit among the cities of its territory. As friendly neighbors we are surely in a position to get somewhere.

Vernon people shall always have a hearty welcome in Crowell and we want to become better acquainted with them.

Putting North Highway Up to Requirements

Judge Atcheson made a trip to Quanah recently to confer with county officials relative to the highway connecting Crowell and Quanah.

It is understood that the State is willing to take this over as a State highway when it is put into condition that will meet standard requirements. With that information at hand Foard County's commissioners have been having quite a lot of work done on our stretch of the highway, but Hardeman County has done comparatively nothing on its portion of the road. And it was with the view of getting something definite as to what Hardeman intends to do that Judge Atcheson made his trip to Quanah. Our portion of the highway is now ready for the state to receive, as it is up in fine shape, most of it being as good as anybody's dirt highway.

Judge Atcheson is anxious to get this matter off his hands so that undivided attention may be given to work that is to begin at once on the Lee Highway.

More Than 12,000 Bales Are Ginned

The ginner's records were procured Wednesday evening, all in the county except the one at Rayland. Our correspondent at that place gave us the ginner's up to Tuesday morning. The records of all the gins as late as they could be procured for the publication show the following:

Rayland	2550
Margaret	1659
Thalia Farmers	2459
Thalia Vernon	1246
Crowell Gin	1510
Crowell Farmers	3036
Total	12,455

This included all the cotton that had passed over the scales at the gins and shows that last week's record was about the same as for the previous week. Some of the ginner's say there has been a slight set-up in the work and they think within another week or so most of the cotton will have been ginned. The county yield, it appears now, will be 16,000 or 18,000 bales.

RETURN FROM VISIT

Mr. and Mrs. S. J. Ferguson returned Tuesday of last week from a month's visit with relatives at Waco, Laredo and other points. While in that vicinity Mrs. Ferguson's sister, Mrs. T. A. Austin, of Lorena died very suddenly in Los Angeles, Cal., where she was spending the summer. Burial was made at Laredo.

How Legion Got War Relic for the Local Post

Due to the many questions concerning the captured German cannon that was brought from Austin last week by the local post of the American Legion, some information about the gun has been secured and is here being published.

The war material that is now stored at Austin consists of German cannons, rifles, swords, gas masks and various other war equipment. This material was held in storage in several cities until the different states made application for it and agreed to pay the freight from the places of storage to the different states. It was eight years before Texas decided that it should have its share and money was appropriated for its transportation to Austin. This material arrived about two months ago and the local post made application for one of the guns. The Adjutant General advised the post that the Governor had appointed a committee to prorate the cannons over the state. The American Legion Post then wrote the Governor relative to getting one of these, and in a letter the Governor advised that the committee that had been appointed to prorate the cannons was at that time in France on the American Legion tour, but that if Foard County wanted to come to Austin and get one of these cannons, we might have same, with the understanding that if the committee did not allot one of them to this county, we would have to abide by the decision of that committee. The local post took the chance that possession is nine points of the law, and have secured one of the best cannons that was at Austin. Col. Claude A. Adams helped to select the one brought to Crowell and says that it is still serviceable.

A description of the gun is as follows: It is a 77 millimeter light field gun. Its weight is about 3,000 pounds. It has an effective range of about 8 miles, and can be used in aircraft or battle service. It can be fired about ten times a minute, and the shell travels at the rate of 1750 feet per second. The gun will fire shrapnel, gas, or high explosive shells, which will burst into about two thousand small pieces and will kill within a radius of about two hundred yards. It is very mobile and can be transferred over most any kind of ground either by motor or by horses.

This is the nearest to the famous French 75 that the Germans could make. There has never been a cannon made by any nation that was as good as the French 75 millimeter cannon. In the greatest battle of all history, at Verdun, the French placed five thousand of these wonderful guns hub-to-hub and stopped the German Crown Prince's massed attack on that fortress. The Germans, by the use of massed attack, lost over 400,000 soldiers. Their total loss in the battle of Verdun was 700,000, and that of the French was 400,000. The French 75, the deadly weapon used in that battle, can be fired 28 times per minute.

Former Residents of Crowell Lose a Son

The death of Bain Hays, 12-year old son of Mr. and Mrs. John Hays of Wichita Falls, occurred Tuesday of this week at a hospital in that city. The boy was buried at Wichita Falls Wednesday.

Mr. Hays' brother, Grover, and his sister, Mrs. Lee Allen Beverly, and her husband, and Mrs. Hays' brother, Bert Bain, and wife, all of this place attended the funeral Wednesday. The boy is said to have received a bruise on one of his knees while playing at school, and after it had been examined by an X-Ray it was found that an operation was necessary. The operation was performed, but the child grew worse until death. Mr. and Mrs. Hays are former residents of Crowell and their friends here extend deepest sympathy in their sorrow.

Crowell Firms Take Membership in C. C.

L. B. Campbell, of the staff of the West Texas Chamber of Commerce, was here recently and secured the following memberships in the organization: Bank of Crowell, Ferguson Bros., Fox-Thompson Grocery, Self Dry Goods Company, Haney-Rasor Grocery, Sanitary Market, Womack Bros., Allen Chevrolet Company, Self Motor Company, Beverly Abstract Company, Crowell Service Station, E. Swain, Ray Dry Cleaner, Wm. Cameron Co., Cicero Smith Lumber Company, M. S. Henry & Co., Crews-Loug Hardware Company, T. L. Hughton Grain Co., The Foard County News.

Sick Man Returns to East Texas Home

Mr. and Mrs. Jim Bicknell came out from Fannin County last week with the intention of making Foard County their home, but Mr. Bicknell became ill and after consulting with the doctor as to his return to Fannin County it was decided that his return would not injure him physically. Mrs. Bicknell was especially anxious that they go, so two of his brothers came and took him and Mrs. Bicknell back to Fannin Sunday. Mr. Bicknell was suffering from a stroke of brain paralysis and was losing his mental balance. His condition was serious and he is not expected to survive the attack. Mrs. Bicknell is the mother of Mrs. George Hargroves.

Premium Quality at Regular Price

No advance in price has been made on new Pennant Gasoline, although the performance it delivers would justify a premium price. There is not only better performance to be had from new Pennant Gasoline but real mileage economy.

The same is true of Pennant Motor Oil. It too, is "balanced". It flows readily at starting temperatures, yet resists thinning by the intense heat of the motor when operating at high speed.

Watch for the green Pennant sign, drive in today, and try out both the "balanced" Pennant Gasoline and the "balanced" Pennant Motor Oil—premium quality at regular price.

Another Cold Snap on the Way

Cold weather will not spoil your rest if you have KANTLEEK Hot Water Bottles

In the course of our many years of selling Drug Store merchandise, we have never sold a more satisfactory Hot Water Bottle than Kantleek.

It is made entirely in one piece—that's why it can't leak.

It has no patches, splices, seams or binding, and the stopple socket is molded right into the rubber.

Although it's guaranteed for two years, it costs only \$2.50.

Ferguson Brothers

Only druggists who are members of the Qualified Druggists League are authorized to use this Emblem.

WHY TAKE CHANCES?

This store buys in large quantities and therefore buys right. The advantage thus gained is passed to the customer. That means that you buy from us right. Don't just suppose you can beat it somewhere else. Take no chances. Come to us for all your groceries and save money and worry.

This bank has loaned \$140,000,000 to forty-eight thousand Texas farmers in 8 years. Let me tell you about it. J. C. THOMPSON, Sec.-Treas. Crowell, Texas Territory—Foard, Knox, King and Wilbarger Counties.

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter

Crowell, Texas, November 4, 1927.

VISION

No person ever amounts to much without vision. And what is true with individuals is true with respect to communities and towns.

Forty years ago the scattered inhabitants of this county saw in its future only a cow country. But one day somebody conceived the idea of turning the soil and planting wheat. To their surprise the virgin soil, with scanty rainfall and the kiss of the sunshine, gave growth and maturity to the planted seed. This was the realization of vision, and ever since that day men have been having visions in this country, and these visions have been followed by the most remarkable achievements ever witnessed in the way of material progress. Not only is it evidenced by increasing varieties of our agricultural products, but it is true in many other lines of endeavor. We have built towns and communities and made them thriving centers of trade and happy abodes for thrifty, prosperous and contented people. We have given thought and time to plans and progress for community development that have been no small factors in making the rural communities the foundation of all prosperity. What we see today is but the realization of dreams and visions of a decade ago.

But we have not ceased to visualize. Less than ten years ago we saw a mental picture of a concrete highway connecting Crowell and Vernon. Today we are coming to realize the end of that dream. Today we are thinking of an immense reservoir on Pease River that will furnish water for use as we further grow and develop. We are also dreaming of another railroad line to help care for increased transportation sure to follow. The strong probability is that all these visions will materialize within the next few years, with results more agreeably surprising than we have anticipated.

Vision locates a possible objective, and then courage, confidence, perseverance and energy steer towards it.

The dentist fills your tooth; the M. D. cuts out your appendix; the eye specialist hangs a shell rim over your ears; the throat and nose specialist extracts your adenoids; and they all do their work well, but it's hard to tell who is most skillful in the final operation, in which all are specialists—pulling your leg.

Some folks are knocking Henry Ford's new product by saying that those who have bought unseen will have so many white elephants on hand. Well, since they are expected about Christmas time, will they not, as white elephants, be appropriate purchases?

Foard County this year will turn to profit more of the turkey than ever before. Even the gobbie will be used as a booster.

The world will become better only as individuals raise their own standards of living and apply these to themselves.

A man without vision is like an automobile with a blind driver, who is powerless to steer towards an objective.

He who ceases to be your friend when he realizes that his money cannot buy you, has never been one.

Self appointed leadership frequently, if not always, wins public notice by its backward movements.

It's a pity that there is not a law against the running at large of road hogs.

Local Chevrolet People In Contest

An interesting contest among Chevrolet dealers is that called the Turkey-Bean contest. Local dealers in various towns with something like equal quotas are pitted against each other in the number of sales of Chevrolet products and each month the winners and losers meet and have a banquet, the feed consisting of turkey and beans, the former for the winners on one side of the table and the latter for the losers on the other side.

Allen Chevrolet Co. of Crowell will eat the beans, while Chaney Chevrolet Co. of Quanah will face them with a turkey feast at the banquet to be held at Childress about the middle of this month. It is interesting to know that the margin of difference in the sales and orders for immediate delivery between the two Companies was only one for the month of October. Allen sold and delivered 39 cars and had signed orders for 15 immediate deliveries and 10 for future delivery. The two first items scored.

Graybar Electric Sewing Machine

**Vibrator
and
Rotary
Types**

This type-head has an Electric Sewing Lamp attached to the front. A direct ray of light falls on the work--no glare--no shadows.

To make your own and the children's garments is an economy, and when it can be done without fatigue—the electrical way—it's double saving as well as a pleasure.

Graybar Electric Sewing Machines are simple and efficient. A dependable motor that can be attached to any electric outlet furnishes the power. A slight pressure on the control starts the machine. It responds instantly and is always under full control.

For those who like the portable types that can be moved from place to place and tucked away out of sight, there are five models to choose from. Four have genuine walnut veneer cabinets with covers (illustrated above) that lock securely; one a metal base with rubberized cover. These have the foot control.

If there's a place for an attractive table—the console cabinet type fit in harmoniously with the furnishings of any room. These models are equipped with a knee control.

A full set of attachments comes with each machine.

Leck Hutchison, wife and two daughters, Misses Nina and Lucile, were here from Eldorado, Okla., Sunday visiting at the home of Mr. and Mrs. R. P. Womack. Mrs. J. R. Hutchison returned with them for a few days visit.

GETS BALE TO ACRE

Wilton Adkins was here from Thalia yesterday. He said he had ginned 19 bales from 25 acres, and with what he had ready for the gin and what he would yet get from the patch, he estimated a bale to the acre.

A bale to the acre is not a bad yield. Even half that is counted splendid. Mr. Adkins is pleased with the yield and feels good over the price.

CHANGING THE CALENDAR

SIGNS YOU CAN BELIEVE IN

If your breath is bad and you have spells of swimming in the head, poor appetite, constipation and a general no-account feeling, it is a sign your liver is torpid. The one really dependable remedy for all disorders in the liver, stomach and bowels is *FERGUSON'S*. It acts powerfully on the liver, strengthens digestion, purifies the bowels and restores a fine feeling of energy, vim and cheerfulness. Price 60c. Sold by

Ferguson Bros. and Reeder Drug Co.

George Eastman made a plea before the United States Chamber of Commerce at its West Baden, Ind., conference for simplification of the calendar. He summarized the progress that had been made in this direction, calling attention to the fact that since the World War, nations with a population of more than 300,000,000 have changed their calendars. It is asserted that the defects in the present calendar could be remedied by assembling an international conference to decide four simple questions:

Whether the calendar should have its week-day names perpetually fixed to the same dates in every year, by including an extra Sabbath in the last week of each year?

Whether quarters of the year should be made equal by alternating two months of thirty days and one of thirty-one days; or whether thirteen equal months of four complete weeks should be established, with the new month inserted between June and July.

Whether Easter's date should be fixed on the Sunday following the present eighth of April?

Upon which year the simplified calendar shall begin?

Mr. Eastman recalled the opposition to creating a Standard Time more than forty years ago. The comparison of this change to the present agitation for correcting calendar defects is decidedly apropos. The average person does not know, and if he ever knew has forgotten, that any other time ever existed.

There is no doubt that great convenience would result from standardizing the calendar, just as placing time on a uniform basis saved much public confusion and was a great aid to business. The tendency of the age is toward standardization and simplification. The present method of designating the days of the week and the month of the year has many drawbacks, particularly from a business standpoint. Many objections have been made and others will be made, to a change in the present calendar, but they will be outweighed by a standard calendar which will bring uniformity to a system that has proved inadequate to the needs of an enlightened people.

One Act Play Contest

For many years the Interscholastic League has provided much wholesome and instructive entertainment in public speaking and athletic contests. In the last school year, 1926-1927, a one act play contest was added to the public speaking department. Although this feature of the League gave very promising results, the tournament program which it followed was not wholly satisfactory, and a new plan has been worked out which will keep the tryout for the play near its home town. This feature should induce every school that is a member of the Interscholastic League to enter a one act play.

According to the tentative plan of the contest, an eligible play must:

First, be less than forty minutes in presentation.

Second, have a simple setting and not depend upon purely scenic effect for its appeal.

Third, require less than ten individuals in the cast.

Fourth, not be purely farcical or frivolous in tone.

Even the smallest school in our county can easily enter this phase of the League work, for the plays last year proved that the smaller the cast the greater chance the play had for winning.

The final plan agreed upon by the League will be published in this paper as soon as it appears. Watch for it, and in the meantime give a one act play for practice.

Three one act plays make a better program than one long play and are more easily coached.

Any teacher desiring more information or suggestions about a play to use, write Thelma Shaw, Chairman of One Act Play Contest.

THELMA SHAW.

TRUSCOTT BABY DIES

On last Friday afternoon, October 21, one more precious sheaf was garnered to that Heavenly home, and Truscott lost one of its most beloved babies, little James Scott Turner, 22 months old son of Mr. and Mrs. Ozzie Turner.

Stricken with diphtheria on Thursday his little smiling face joined the angels on Friday at about 2 o'clock. Everything that could be done, was done to save his life but heaven had to be made sweeter, so God took "Jamesie", as he was lovingly called by all who knew him.

He was laid to rest in the Truscott cemetery. Rev. Cecil Matthews and Chas. J. Marts conducted the funeral service at the grave where the beautiful October sunshine mingled with the many beautiful flowers, making it a place of rest indeed.

Mrs. Turner was formerly Miss Susie McDaniel whose parents now live in the Foard City community.—Contributed.

Many a woman's ambition has been gratified when she succeeds in getting credit at a strictly cash store.

DRIVE UP---STOP!

Come in, hustle around with your basket and have us load it to the handle with the best grades of canned, package or bottled groceries to be found in the city. 'Tis many "a pretty penny" we can save you on all your favorite brands!

We'll have some rare bargains in groceries every day in the week.

HUGHSTON GROCERY COMPANY

THE STATE OF TEXAS
To the Sheriff or any Constable of
Foard County—Greeting:

You are hereby commanded to
summon Geo. P. Warner; Clara N.
Warner; Abraham Lincoln; Nan B.
Smith; Howard Prowse; Jeanette
Brown; H. C. Lundberg; O. L. Lund-
berg; Newell Smith; Mrs. M. W.
Standly and her husband, if living,
whose name is unknown; and the
heirs, trustees, devisees and assigns,
immediate and remote of Hascal A.
Hogel, deceased; E. S. Epperson, his
heirs, trustees, devisees and assigns,
immediate and remote; Alice Kem-
ble; Lillie Rice; Wm. H. Wilder;
Josephine Wilder; Hannah W. How-
ard; Belle Wallace; Edith Wallace;
Jennie Wallace; Anna W. Ager;
Ruth S. Mott and the Boston Safe
Deposit and Trust Company, a cor-
poration, trustee, by making pub-
lication of this citation once in each
week for four consecutive weeks
previous to the return day hereof,
in some newspaper published in your
county, if there be a newspaper pub-
lished therein, but if not, then in the
nearest county where a newspaper is
published, to appear at the next reg-
ular term of the District Court of
Foard County, to be held at the
court house thereof, in Crowell,
Texas, on the second Monday in
February, A. D. 1928, the same being
the 13th day of February, A. D.
1928, then and there to answer a
petition filed in said court on the
23rd day of September, A. D. 1927,
in a suit, numbered on the docket
of said court No. 1324, wherein T. S.
Patton and G. H. Patton are plain-
tiffs, and Geo. P. Warner; Clara N.
Warner; Abraham Lincoln; James B.
Watson; Wm. J. Frees; the unknown
heirs, devisees and assigns of Hascal
A. Hogel, deceased; E. S. Epperson
and his unknown heirs and devisees;
Alice Kimball; Lillie Rice; Wm. H.
Wilder; Josephine Wilder; Hannah
W. Howard; Belle Wallace; Edith
Wallace; Jennie Wallace; Anna W.
Ager and Ruth S. Mott, and the Bos-
ton Safe Deposit and Trust Com-
pany, are defendants, and a brief
statement of plaintiff's cause of
action, being as follows:

On the 1st day of Sept., 1927,
plaintiffs were, and are now at the
time of filing this suit, lawfully
seized and possessed of those cer-
tain tracts of parcels of land here-
inafter described, holding the same
in fee simple. That on the 1st day
of September, A. D. 1927, defend-
ants, and each of them, unlawfully
entered upon and dispossessed plain-
tiffs of said premises and are with-
holding from plaintiffs, possession
thereof. That the premises so en-
tered upon and unlawfully withheld
by said defendants are described as
follows:

Survey No. 95, Block A, Certifi-
cate No. 30-417, issued to the T. &
N. O. Ry. Co., by B. H. Epperson,
patentee, situated in Foard County,
Texas.

That plaintiffs received title to
said property by deed from M. M.
Hankins on the 19th day of Novem-
ber, 1901, which deed is of record
in Vol. 10, page 7, deed records of
Foard County, Texas. That plain-
tiffs and defendants each claiming
title under a common source to-wit:
Hascal A. Hogel and Henry B. Mahn;

That on the 20th day of October,
A. D. 1901, Hascal A. Hogel and
Henry B. Mahn, by their attorney-in-
fact, Geo. P. Warner, made, executed
and delivered their warranty deed
to M. M. Hankins, conveying the said
above described lands, which deed is
recorded in Vol. 10, page 4, deed
records of Foard County, Texas, in
which deed there was a reservation
clause written therein as follows:

"Save and except that we do not
hereby in anywise transfer or con-
vey but do hereby expressly reserve
and except to our own use and bene-
fit and that of our heirs forever, all
the mines, minerals and mineral
rights, whatsoever that may be upon,
within or under the said tract of
land or any part thereof, as well as
the right to work any mine, or mines
upon said land, together with the
full right of free ingress and egress
upon and from said land for the
purpose of mining for such min-
erals, working such mines and
carrying the products thereof, it be-
ing also expressly hereby understood
that we are to have the use of such
part of the surface of said land as
may be or become necessary for such
mining operations not to exceed (50)
acres in surface area of said tract
but in the event such mining opera-
tion shall cause encroachment upon
more than fifty (50) acres the pur-
chaser or his heirs or assigns shall
be paid therefor two thousand (\$2-
000.00) dollars par value of the cap-
ital stock of the company which shall
be organized for the purpose of ex-
tracting said minerals. Said stock to
be paid up and non-assessable."

That at the time of the execution
of said deed by the said Hascal A.
Hogel and Henry B. Mahn, to the
said M. M. Hankins, the existence
either actual or probable of petro-
leum, oil or natural gas in that por-
tion of the state in which said lands
are located, was wholly unknown
and unthought of; that at said time
there had been little, if any, oil or
gas produced in this state; that at
said time the grantors, Hascal A.
Hogel and Henry B. Mahn, were in-
terested in the mining of copper and
metallic ores in the vicinity in which
said land is located, and it was not
contemplated by any of the parties
to said original deed that the terms
of said deed included any particular
petroleum, oil or natural gas, but it
was the understanding, intention and
agreement of all the parties thereto
that said deed should reserve to the
grantors or their assigns, metals, met-
allic ores such as copper and other
minerals known as "hard minerals,"
and it was not intended to reserve
and retain to the grantors, minerals
in the broad technical definition of
the term and to include petroleum or
natural gas.

Plaintiffs allege that, although they
have been in actual possession of the
premises, that the defendants, Geo.
P. Warner, and his grantee, Clara
N. Warner, have asserted and claim-
ed that said reservation hereinbefore
set out retained and reserved all the
oil and gas mining rights on said

land to said grantors, Hascal A.
Hogel and Henry B. Mahn, and their
assigns, when in truth and in fact
said Geo. P. Warner and his grantee,
Clara N. Warner, well knew that said
reservation was never so intended
and such claim constitutes a cloud
on the title of plaintiffs lands. Plain-
tiffs allege that the said defendants
claim or appear to claim some right,
title or interest in and to said lands
above described, and the oil and gas
mining rights thereunder, adverse to
these plaintiffs; plaintiffs allege that
said defendants have no right, title
or interest in said premises, but if
any they have the same is junior and
inferior to the rights of plaintiffs.

Wherefore plaintiffs pray that de-
fendants be cited to appear and an-
swer this petition, that they have
judgement against the defendants
and each of them quieting their title
in and to said section No. 95, Block
A, certificate No. 30-417, T. & N. O.
Ry. Co., B. H. Epperson patentee;
also quieting their title in and to the
petroleum, oil and natural gas rights,
and oil and natural gas in, on or un-
der said lands, and if the court finds
that under the terms of said convey-
ance, plaintiff's title to the oil and
gas rights does not appear to be clear-
ly set forth then plaintiffs pray that
the deed above mentioned be re-
formed to vest title in plaintiffs as
the grantee of the original M. M.
Hankins in and to said lands togeth-
er with all oil and gas in, on and
under the said above described
lands, with the right to prospect
therefor and the defendants and each
of them be forever enjoined from
claiming or asserting any right, in
the premises and for costs of suit
and for each other and further re-
lief, general and special in law and
in equity that they may be justly en-
titled to.

Herein fail not but have before
said court, at its next regular term,
this writ with your return thereon,
showing how you have executed the
same.

Given under my hand and the seal
of said court, at office in Crowell,
Texas, on this, the 10th day of Oc-
tober, A. D. 1927.
(Seal) IDA REAVIS, Clerk,
District Court, Foard Co., Texas.
By A. G. MAGEE, Deputy. 22

WHAT'S DOING
IN WEST TEXAS

(By West Texas Ch. of Commerce)

Happy—Building in and around
Happy is active at this time. Sev-
eral residences are being completed
and remodeling work on other homes is
underway.

Santa Anna—The ten thousand
mark has been passed in cotton gin-
nings at Santa Anna already this
season.

Bowie—A home grown products
luncheon will feature the Red River
District convention here November
21. A number of ex-Bowieites who
are now prominent commercial and
industrial leaders of Fort Worth will
attend the meeting as well as state
notables. Amon G. Carter will be
toastmaster at the luncheon.

Marble Falls—Marble Falls, a
unique industrial town of the Heart
of Texas, will be one of a number of
towns with write-ups in the Novem-
ber "West Texas Today."

Tuscola—The month of November
has been set as membership month
for the Tuscola Chamber of Com-
merce and a vigorous campaign will
be staged to secure new members.

Sweetwater—Governor Dan Moody
will attend the Central West Texas
District convention here which has
been reset for November 30 in or-
der to make his presence possible.
President R. W. Haynie and Manager
Homer D. Wade of the West Texas
Chamber will occupy parts on the
program and a record meeting is in-
dicated.

Munday—Natural gas for domestic
and commercial purposes will be in
use here by December 1. It will be
piped from Amarillo fields and will
be on the same line which is to serve
Stamford.

Texline—Clay deposits in the vic-
inity of Texline of commercial pro-
portions and possibilities are attract-
ing widespread attention. Samples
of the clay have been sent to a num-
ber of manufacturing concerns inter-
ested in the quality and quantity of
local deposits.

Dublin—Dairying interests are be-
ing promoted to a large degree in this
section. The town has had half a
dozen representatives studying dairying
and its problems in Memphis,
Tennessee, and plans to bring an ex-
pert here to make a survey looking
toward securing a condensory or
cheese factory in this territory.

Hereford—Contract has been let
for a new \$25,000 City Hall and Fire
Station for Hereford. The building
will be completed by Christmas. Four
brick business buildings are now be-
ing erected and a number of modern
homes are under construction.

Plainview—Construction work on
paving Highway 9 through Aber-
nathy, Hale Center and Plainview

from the north line of Lubbock coun-
ty, to the south line of Swisher coun-
ty, is expected to get well underway
at an early date.

Clarendon—Work is underway on
remodeling the Clarendon City Hall
to make room for a fire station and
to provide living quarters for a fire-
man. Standard fire equipment has
been ordered which will arrive by
the time the construction work is
finished.

Electra—The Electra Chamber of
Commerce has started a campaign
of education to explain the benefits
of the Pease River Irrigation Pro-
ject, to be known as Pease River Im-
provement District No. 3. As planned,
this project will water 150,000 acres
of land lying along the Red River
Valley in Wichita and Wilbarger
Counties and will furnish domestic
and industrial water for cities of
Electra, Vernon, Iowa Park, Quanah
and Crowell.

Missouri college students petition
for afternoon nap to be added to the
curriculum, and that's one course
where every one would make straight
A's.

When Ruth Elder reaches Paris,
she can use those famous words, "We
are here," but she'll have to substi-
tute a pilot for an airplane.

Another wave of reform is sweep-
ing the country. Some folks think
young men ought to go to college to
study instead of play football.

Americans may have suffered some
in China, but think of the poor Amer-
ican school kid who has to remember
how to spell Yangtze.

Perfections make big meals easier

- 8 Ways
- 1 Instant lighting
 - 2 Gaslike heat
 - 3 Heat direct to the cooking
 - 4 Perfect heat control in each burner
 - 5 Flame never "creeps"
 - 6 Burners in a row
 - 7 Roomy cooking surface
 - 8 Handy warming cabinet

You can trust the newest Perfections to carry out any cooking plans!

Touch a match to the Perfection wick. Vigorous, quivering heat pours up Perfection's long chimneys—direct to the cooking. In every burner there's heat to get things "done"—and in a hurry, too.

No reaching across hot flames with Perfection. The burners come in a row. And back of them there's ample room to keep food hot while you boil water for tea. A handy warming shelf adds working space.

Stew lots of chicken, bake dozens of rolls and a huge pudding, boil vegetables, make gallons of corn chowder. Cook anything—in any quantity! The flames stay where you set them. These safe stoves need no watching.

In these 8 ways, and many others, the latest Perfection that "gets" your family meals, speeds "big meal" cooking. See the newest models at any dealer's. 1 to 5 burner sizes. Priced from \$7.25 to \$130.

PERFECTION STOVE COMPANY, Dallas Branch—825 Trunk Ave.

PERFECTION Oil Stoves & Ovens

WARNING: Use only genuine Perfection Wicks on Perfection Stoves. They are stamped with red triangles. Others will cause trouble.

Color in Newest Perfections!
Gray porcelain enamel tops. Gray legs. Satin enamel warming cabinets. Large white front ovens. —On newest Perfections, and all those with Super-ten burners.

Mrs. Rorer Says—
"You can cook for a large family more easily on a 4 burner oil stove than the usual range, if you use Perfection."
MRS. SARAH TYSON RORER, Philadelphia Cooking Expert

No smoke, soot or odor with Perfection long chimneys!

Marion Davies

Charming Marion Davies, the "movie" star, is here shown in her summer hat. Miss Davies' dainty pastel beauty is peculiarly suited to large picturesque hats. The model shown, worn by her in "The Red Mill," is of corn-colored horsehair, bordered with net. A narrow band of velvet ribbon separating the net from the hat is its only trimming.

For Meditation

By LEONARD A. BARRETT

MIND VERSUS HEART

THE scientific age in which we are living argues that practical results are the only test of truth. If a theory works it is true, if it fails to work it is likely untrue. A theory becomes a fact only when it can be explained. An attempt is being made these days to force everything into the crucible of science.

The cold and proved facts of science are one thing and when confined to their respective spheres offer no cause for grave concern, but when science demands that its testimony be considered final upon realities to which it has no vital relation, a very different problem arises.

The attributes of personality and emotions of the heart transcend all the chains of science. A mother's love, paternal pride, the innate sense of justice and of fair play, the inherent desire for success and the fear of failure—what does science know about these things? A fact in the cosmic world may be proved true by scientific research, but the realities of personality are not to be found at the end of a syllogism. Many of the most important facts of our daily life cannot be forced into the crucible of science. The practical application of the findings of science may make possible many of the comforts and conveniences of a house, but science has nothing to offer that will contribute to the spirit of a home.

The realities in life upon which civilization and the progress of mankind depend lie wholly outside the field of science. Many times are we obliged to say—we can neither define nor analyze these realities, but experience has demonstrated their value. If we wish to know the truth we must have a vision. Believe us, many of the things that we see and hear are not what they seem to be.

THE WHY of SUPERSTITIONS

By H. IRVING KING

THE MOON'S CHANGES AND THE WEATHER

THERE is probably no superstition more firmly believed in, at least by agriculturists and dwellers in the rural districts generally, both in this country and in Europe, than that the conditions of the moon's changes govern the weather. Here are a few "American" ideas on the subject: The moon changing in the west denotes fine weather during that moon. The moon missing near midnight is a harbinger of fine weather. The weather of the new moon governs the first quarter for first half of that moon. The weather of the new moon governs the month's weather.

No less a person than Sir John Herschel, the celebrated astronomer and physicist, was so impressed by the common belief with regard to the influence of the moon's changes on the weather that he made an investigation of the matter and, pronouncing the truth thereof, constructed an elaborate table giving the relations between the moon's changes and the weather, supporting his conclusions by a wealth of scientific lore. For a time that seemed to settle the question. Then something caused Sir John to go over his work again. He found that he had based his conclusions upon insufficient data, and after investigating again came out with a statement that his former conclusions had been all wrong. There was no connection whatever between the moon's changes and the weather except a slight tendency to clear weather at the moon's full. The theory of a relation between the moon and the weather was relegated once more to the list of superstitions regarding the lunar orb which are relics of moon-worship; echoes of the days when Isis waved her lotus scepter by the waters of the Nile.

THE STATE OF TEXAS

To the Sheriff or any Constable of Foard County—Greeting:

You are hereby commanded to summon Geo. P. Warner, Clara N. Warner; Abraham Lincoln; Nan B. Smith; Howard Prowse; Jeanette Berg; Newell Smith; Mrs. M. W. Standly, and her husband, if living, whose name is unknown; and the heirs, trustees, devisees and assigns of Hascal A. Hogel, deceased; E. S. Epperson, if living, and if deceased, his unknown heirs and devisees; Alice Kimball; Lillie Rice; Wm. H. Wilder; Josephine Wilder; Hannah W. Howard; Belle Wallace; Edith Wallace; Jennie Wallace; Anna W. Ager and Ruth S. Mott, and the Boston Safe Deposit and Trust Company, a corporation, Trustee, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Foard County, to be holden at the court house thereof, in Crowell, Texas, on the second Monday in February, A. D. 1928, the same being the 13th day of February, A. D. 1928, then and there to answer a petition filed in said court on the 23rd day of September, A. D. 1927, in a suit, numbered on the docket of said court No. 1323, wherein J. B. Easley is plaintiff, and Geo. P. Warner, Clara N. Warner, Abraham Lincoln, Nan B. Smith, Howard Prowse, Jeanette Berg, H. C. Lundberg, O. L. Lundberg, Newell Smith, Mrs. M. W. Standly and husband whose name is unknown, Wm. J. Frees, James B. Watson and the unknown heirs, trustees, devisees and assigns immediate and remote, of Hascal A. Hogel, deceased; E. S. Epperson, if living, and if deceased his unknown heirs, trustees, devisees and assigns, immediate and remote; Alice Kimball; Lillie Rice; Wm. H. Wilder; Josephine Wilder; Hannah W. Howard; Belle Wallace; Jennie Wallace; Anna W. Ager; Ruth S. Mott and the Boston Safe Deposit and Trust Company, Trustee, a corporation, are defendants, and a brief statement of plaintiff's cause of action, being as follows:

That on or about the 1st day of Sept., A. D. 1927, plaintiff was, and now is, at the time of the filing of this suit, lawfully seized and possessed of those certain tracts or parcels of land hereinafter described, holding the same in fee simple, that on the said 1st day of Sept., A. D. 1927, said defendants, and each of them, unlawfully entered upon and dispossessed plaintiff of said premises, and are withholding from plaintiff the possession thereof. That the premises so entered upon and unlawfully withheld by defendants from plaintiff are described as follows, to-wit:

Survey No. 21, Block A, containing 640 acres of land, located by virtue of certificate No. 30-438, T. & N. O. Ry. Co., B. H. Epperson, Patentee, and Survey No. 27, Block A, containing 640 acres of land, located by virtue of Certificate No. 30-420, issued to T. & N. O. Ry. Co., B. H. Epperson, patentee, and Survey No. 27, Block A, issued by virtue of Certificate No. 30-569, Texas & New Orleans Railway Company, B. H. Epperson, patentee, all situated in Foard County, Texas. That plaintiff purchased of and from Hascal A. Hogel and Henry B. Mahn, by warranty deed, Survey 23, Block A, Certificate 30-420, issued to T. & N. O. Ry. Company, patented to B. H. Epperson, assignee of said company by Pat. No. 74, Vol. 24, recorded in Vol. 9, page 291, deed records of Foard County, Texas; said deed being executed by Hascal A. Hogel and Henry B. Mahn by their attorney-in-fact, Geo. P. Warner; that plaintiff, on May 29, 1901, purchased of and from said parties by warranty deed, Survey No. 21, Block A, Certificate No. 30-438, issued to T. & N. O. Ry. Co., patented to B. H. Epperson, assignee of said company by Patent No. 87, Vol. 24, which deed is recorded in Vol. 9, page 376, deed records of Foard County, Texas; that on the 28 day of November, 1924, plaintiff purchased Survey No. 27, Block A, Certificate No. 30-569, T. & N. O. Ry. Co., patentee, B. H. Epperson, situated in Foard County, Texas, from F. D. Hendrix, holding and claiming said Survey No. 27, under a recorded title from Hascal A. Hogel and Henry B. Mahn and their assigns. That the said Hascal A. Hogel and Henry B. Mahn are the common source of title from which plaintiff and each of the defendants claim title, except B. H. Epperson and his heirs.

Plaintiff alleges that in each of said deeds this clause was written therein:

"To have and to hold, all and singular the said tract of land, together with all and singular the rights, tenements, hereditaments and appurtenances to the same belonging or in anywise incident or appertaining unto the said J. B. Easley and his heirs and assigns forever, save and except that we do not hereby in anywise transfer or convey but do hereby expressly reserve and accept to our own use and benefit and that of our heirs and assigns forever all the mines, minerals and mineral rights whatsoever that may be upon, within or under the said tract of land or any part thereof as well as the right to work any mine or mines upon said land therefor, together with the full right for free ingress and egress upon and from said land for the purpose of mining for such minerals, working such mines and carrying the products thereof, it being also expressly hereby understood that we are to have the use of such part of the surface of said land as may be or become necessary for such mining operations, not to exceed fifty (50) acres in surface area of said tract but in the event such mining operations shall cause an encroachment upon more than fifty (50) acres the purchaser or his heirs or assigns shall be paid therefor two thousand (\$2000.00) dollars par value of the cution of said deed as aforesaid, by

said Hascal A. Hogel and Henry B. Mahn to plaintiff, containing said reservations, the existence, actual or probable, of petroleum, oil and natural gas, in that portion of the state in which said land is located, was wholly unknown and unthought of.

Plaintiff alleges that at the time of the execution and delivery of said deeds as aforesaid, the original grantors were officers and directors and managing agents in a mining corporation, "The Texas Copper Company," which was engaged in mining copper and other metals and metallic ores, and it was not contemplated by any of the parties that the terms of said deeds included in any particular oil or natural gas; that at the time of delivery of said deeds containing said reservation it was not the understanding, intent nor agreement of either of said parties to said deeds that said instruments should reserve to the grantors or their assigns in any manner the petroleum, oil or natural gas, or the right to operate, drill for and produce the same, but it was the understanding between said parties, as shown by said reservation, that the grantor intended only to reserve metals and metallic ores and minerals produced in the ordinary methods of mining ore, all of which was and is well known to the defendant, Geo. P. Warner and his grantees.

Plaintiff alleges that under the terms of said deeds said intention, understanding and agreement was clearly set out and shown, but it appears recently although plaintiff has been in actual possession and occupancy of said premises, that defendants Geo. P. Warner and his grantee, Clara N. Warner, assignees under Hascal A. Hogel and Henry B. Mahn, have asserted and claimed that said reservations mentioned retained and reserved all of the oil and gas mining rights with the right of ingress and egress for the purpose of operating for oil and gas, to said Hascal A. Hogel and Henry B. Mahn and their assigns, and the said Geo. P. Warner and Clara N. Warner have executed numerous, sundry and divers conveyances and leases upon plaintiff's lands for oil and gas purposes which is clouding the title of this plaintiff. That if said deeds above mentioned on their faces do not clearly set forth the understanding and agreement of said parties, that the oil and gas rights were and are to be reserved to the plaintiff, or to a company which shall be organized for the purpose of extracting such minerals, said stock to be paid up and non-assessable.

Plaintiff alleges that at the execution of said deeds, and to pass to the parties grantee, then said deeds are ambiguous and uncertain and do not truly and correctly set forth the true understanding and agreement of said parties at the time of the execution of said deeds. That plaintiff is entitled to have said original deeds reformed to express the true understanding and agreement between the parties thereto.

Plaintiff alleges that said defendants, all and each of them, claim or appear to claim some right, title or interest in and to said lands and the oil and gas mining rights thereunder, adverse to the right, title and interest of plaintiff. That if any right they have in and to said premises, the same is junior and inferior to the rights of plaintiff in and to the fee simple estate in said lands, and the oil and gas mining rights thereon. Wherefore plaintiff prays (1) that defendants be cited to answer this petition; that plaintiff have judgment for the reformation of said deeds, and (2) that he have judgment against said defendants, and each of them, quieting title in and to said lands above mentioned, also quieting his title in and to the petroleum, oil and natural gas in and under said tracts of land, together with the right to prospect therefor and the said plaintiff be decreed to be the owner of said lands, and if the court finds that under the terms of said conveyances this plaintiff's title to the oil and gas rights does not appear to be clearly set forth plaintiff prays that the deeds above mentioned be reformed to vest title in this plaintiff, to the oil and gas in and under the said above mentioned lands, and that defendants, and each of them be forever barred and enjoined from claiming any right, title or interest in and to the premises above set forth, and to the oil and gas upon, in or under the said lands or any part thereof, and for costs of suit and for such other and further relief, special and general, in law and in equity that he may be justly entitled to.

Herein fail not to have before said court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Crowell, Texas, on this, the 10th day of October, A. D. 1927. (Seal) IDA REAVIS, Clerk, District Court, Foard Co., Texas. By A. G. MAGEE, Deputy. 22

Tex Rickard and his Soldiers Field crowd are pikers when it is remembered that the Roman Circus seated 385,000 persons.

Some scientists can do humanity a lot of good by inventing an automatic windshield wiper for horn-rimmed spectacles.

The village smith has now opened an up-to-date filing station and the spreading chestnut tree under which he used to stand is now being used by mother for an open-air tea room.

Another worry of most of us is the fear that our bank account will be influenced by the present styles and get a boyish bob.

What equals the faith of man? Soon after he loses faith in Santa Claus he begins to have faith in hair restorers.

THINGS WORTH KNOWING

Moving pictures shown in Mexico City have two sub-titles—one in English and one in Spanish so that cosmopolitan audiences can catch the drift.

Movie stars are being rated by "horsepower" with a new device arranged to measure the energy the actor's human motor expends in making a picture.

An experiment begun in 1923 in Auburn, N. Y., where permission of parents was obtained to immunize every child, has demonstrated that diphtheria can be eradicated, as there has not been a death from the disease in that city for three years.

Cash payment for groceries has increased almost one-third within the past dozen years, according to a survey recently made. One billion and a half dollars which, in other days, would have gone on the groceryman's ledger, now goes into his cash register.

A Louisiana health official disputes the common belief that the prime of a person's life is reached at the age of 33, as many educators and physicians have placed it. At the age of 25, he says, the upbuilding of the human being is completed biologically.

Miss Sarah Gordon, 25, of Kansas City, could travel to virtually any part of the world and soon would be able to converse with the natives, for she can speak eight languages fluently and translate twenty-six others. She handles foreign correspondence for a Kansas City store.

More and more it is being demonstrated that the North Atlantic is a poor flying field in the fall of the year.

An executive is a man who is glued to an office chair all day, with a half dozen underlings to do his walking for him, so that he can find some time to walk around a golf course.

It's a short life and a merry one according to the philosophy of some people, and to make it shorter, drink a little of the liquor that today's market offers.

Some folks who are horrified at little infractions of the law permit their children to drive automobiles contrary to the law without batting an eye.

The proud creature who wants to give back her husband's name when the divorce is granted, never seems disposed to give back anything else.

If good health costs the nation four billion dollars a year, as reported, disease must pile up a rather staggering total.

Those who complain about mothers leaving babies to nurses and governesses forget that in many cases the governesses and nurses know more about rearing babies than the mothers.

New formula for making rubber has been discovered which makes rubber last longer, and the earnest hope of everybody will be that it does restore the rubber collar to good standing.

One thing the insurance examiner overlooks is to ask whether the candidate for insurance makes a practice of being an innocent bystander.

An examination would probably reveal that a woman's handbag contains about as many useless things as a man's pocket.

What a curiosity a picture of a winner of a beauty contest wearing clothes would be.

HAWK BRAND WORK CLOTHES. THEY WEAR LONGER. Sold Exclusively in Crowell by R. B. EDWARDS CO.

Armistice Day CELEBRATION. The Gordon J. Ford Post, American Legion, is staging the most elaborate celebration ever attempted in Foard County November 11th, and we are calling upon the people of Foard County and vicinity to help us in this great program by attending and enjoying a real evening of good music, splendid singing, eloquent speeches, and a marvelous display of FIREWORKS. The business men of Crowell and our Mayor have cooperated with us in this program so that it will be put on without cost to our people, so we are again asking you to make this a success by attending our celebration. The speaker of the evening will be the Rev. George Green, Chaplain 142nd Infantry, Captain U. S. A. Rev. Green has held every rank in the Army from private to captain. He is a veteran of both the Spanish-American War and the World War. He has been the pastor of two of our last three governors and is at present pastor of the First Baptist Church, Austin, Texas. Hear him! He is a minister of the Gospel, a soldier, a citizen and a lover of his country. Included among our speakers will be men who represent the thinning ranks of the soldiers of the Civil War, our Comrades in Arms, the members of the G. A. R., defenders of the Republic, and the Heroic Soldiers who fought for the lost cause, the Southern Soldier. Also a speaker for the Spanish-American War veterans. There will be a football game in the afternoon. Come in and spend the afternoon, see the game and stay for the full program. PROGRAM Time—5 P. M. Place—City of Crowell. Event—A smoke screen will be laid down over the City of Crowell, and it will be an opportunity for the people to see how a real war-time smoke screen looks. This event will be put on by Company I, 142nd Inf., Texas National Guard. It will last about 15 minutes. Main Event. Time, 6:30 p. m.; Place, Ball Park, Crowell, Texas. Invocation ----- Bro. Ament War-Time Music ----- Crowell Band Songs ----- Crowell Choral Club Song, "America" ----- By Everybody Speech of Welcome ----- Mayor Schlagal Speech ----- Dr. Kincaid Speech ----- J. W. Beverly Music by Band—"Yankee Doodle." Speech ----- John Wesley Music by Band—"Dixie."

Interscholastic League Meeting

A business session of the Interscholastic League directors was held in the courthouse at 2:30 p. m. Saturday. The problem of raising funds for the support of the various departments and a campaign for membership fees were chief among the things discussed.

The following officers were present: W. M. McConnell, Director General, Lottie Woods, Thelma Shaw, Mrs. Jimmie Hembree, Pearl Ward, Pauline Haynes, Walker Todd, Bailey Rennels, T. H. Jackson, Carl A. Thomas, and I. T. Graves, Supt. of Crowell Public Schools.

The next meeting will be held Saturday, December 3, at 2:30 p. m.

Thalia High School Cleanings

Work in the different departments is progressing nicely under the supervision of the faculty.

Two of our seniors, Olive Carter and Vera Matthews, and one junior, Opal Randolph, made the honor roll the first term. We hope many more gain this honor next term.

One of the senior girls has a diamond, and she wears it on her left hand. What can you make of that?

The seniors received their rings last week. Of course they have a bad case of "The Big Head" now. The Spanish Club was organized last week with Opal Randolph as president, and Roy Mints as secretary-treasurer. But as Roy was knocked out by Leland Stovall in the boxing match in one of the side shows at the boys' carnival, and had to quit school, the club will have to elect another secretary.

The boys' basketball team put on their carnival at the high school auditorium Friday evening, October 28, which proved to be quite a success. During their study periods, they searched the country far and near for wild animals and succeeded in capturing one elephant, one ostrich, and a giraffe. Besides these, they had many other thrilling sights. Among these were a boxing match, and several side shows. They guaranteed the side shows to be just what they were said not to be, so no one asked that their money be returned. They cleared about \$35.

The Truscott boys' basketball team came to Thalia Friday evening, October 21, and gave our boys a fine game. The score was 30 to 12 in favor of the Thalia team. Our boys returned the game on Monday night, playing on the Truscott court. The game was a hard one, resulting in favor of the Truscott team. The score was 14 to 12.

Our girls' team has a game matched with Crowell for Tuesday afternoon. We are looking forward to a fine game.

Mrs. Lynch is planning to organize a school newspaper, with the ninth, the tenth, and the eleventh grades doing the work as a part of their English work.

REPORTER.

COFFEE GROWN IN BRAZIL By May Fox

One third of the world's coffee is grown in Brazil. It grows on a tree from fourteen to twenty feet high. When it is in bloom it is a lovely sight. The flower is white and the leaves are mossy green.

The tree has a red berry in it which is the coffee bean. It is somewhat like a cranberry. Some of the berries fall to the ground but most of them are picked. Men, women, and children pick the berries and are washed because if the berries get over ripe they shrink and are no good. The tree is picked very carefully and ladders are used when necessary.

The berries are then washed. They are put into large vat of water and are washed well. Then they are spread out to dry. They are turned over several times a day. It takes from seven to twenty days to dry them.

When coffee is toasted it is put into a large machine. After it is toasted it is put into cans and sold to grocerymen.

TO THE TAXPAYERS OF THE CROWELL IND. SCHOOL DIST.

Through the kindness of the county tax assessor and courtesy of the commissioners court, I have been permitted to occupy the office of Mr. Claude Callaway for the purpose of assessing and collecting of taxes for the Crowell Independent School District.

When you come to pay your county tax, please do not forget the school. You will find me in room below.

MOTHEES

Watch for symptoms of worms in your children. These parasites are the great destroyers of child life. If you have reason to think your child has worms, act quickly. Give the little one a dose or two of White's Cream Vermifuge. Worms cannot exist where this time-tried and successful remedy is used. It drives out the worms and restores the rosy hue of health to baby cheeks. Price 25c. Sold by Ferguson Bros. and Reeder Drug Co.

FIRST MONDAY

The next Monday that rolls around will be the first one in November, and the News is reminded that the season has come for a revival of this as Trades Day.

Good! There is not much trading going on as long as everybody stays at home, but now the cotton season is rapidly nearing the close, that is, so far as intensive work is concerned. It has come time for folks to draw a long breath, rest, recuperate and be sociable.

Come to town next Monday and help start Trades Day again. Everybody will enjoy the day and trading will receive a stimulus that will easily be prolonged through the winter months.

It scarcely seems possible, after looking at grandmother's picture, when she was a girl and then at the flapper of today, that it costs more to dress 'em now.

Several Crowell People Attend Grigsby Funeral

Several people from Crowell attended the funeral of John Grigsby at Quanah at 3:30 Sunday afternoon. Those known to have gone from here are J. A. Stovall and wife, Cap Wheeler and wife, both families from Thalia; Hid Haney and wife, Roy Fox and wife, Q. R. Miller and wife, Dr. H. Schindler and wife, and possibly a few others whose names we failed to get.

The funeral services took place at the First Church of Christ at Quanah. Mr. Grigsby died in Dallas last Friday at 2: o'clock in the afternoon. He had gone to Dallas on business and had put up at the Adolphus Hotel. At 11 o'clock in the morning his wife had talked with him over the phone on some matter pertaining to the business at Quanah, and he stated to her that he was not feeling as well as he would like to but thought he was merely fatigued from the trip. He went to his hotel to rest and soon afterwards felt the necessity of calling a doctor, which he did, but when the doctor arrived he was too far gone to be revived. The cause of his death was heart failure.

Mr. Grigsby conducted the bakery at Quanah and for several years has sold his products in Crowell. He was well known to all the business men here and was liked by all who knew him. He was a fine business young man.

Mrs. Grigsby, who was actively connected with the business, will continue to operate it as it has been operated heretofore.

Rialto Theatre shows good shows.

The man who brags about running things around the house probably refers to the furnace.

Rialto shows a good comedy with every feature.

Woman is more efficient. She can be automobile passenger and driver at the same time.

Rialto, Fox News on Mondays and Tuesdays.

RIALTO THEATRE EVERY DAY AT 2 O'CLOCK

Did you know that the Rialto Theatre was running a show every afternoon starting promptly at 2 o'clock?

They also are running a different feature every day except Mondays and Tuesdays.

They also run a different comedy with every different feature.

They also run a Fox news reel every Monday and Tuesday. Did you know that they will show a special on Armistice Day? It is the "THREE BAD MEN," a Fox special feature.

Monday Night—
"MOTHER" and Vaudeville

Tuesday Night—
"MOTHER" without Vaudeville

Wed. Night and Afternoon—
"SEA TIGER" Milton Sills.

Thurs. Afternoon and Night—
"ALMOST A LADY" Marie Prevost

Friday Afternoon and Night—
"THREE BAD MEN" A Fox Special

Saturday Afternoon Only—
"THE THREE BAD MEN"

Saturday Night Only—
Hoot Gibson in "THE DENVER DUDE"

If you want better shows try and come to see the best. We will get the shows that the people want if they will come to see them. Go to the movies more—you'll find that we will entertain you with the best. And good, clean entertainment will do anybody some good no matter who you are. We are here to amuse you with real amusement.

Do you want good movies?

Personality isn't something you can carry around in a vanity case.

CROWELL HIGH SCHOOL NEWS

On Friday, October 28, the Crowell Wildcats beat the Knox City Greyhounds here 13 to 0. Nice generalship and effective passing on the part of Burrow, Crowell's quarterback, long gains by Norman and Roberts, and a steady line, all contributed toward victory.

The Hornets, Misses Cryer, Shaw, Patterson, Ball, Hawkins and Anthony, entertained the faculty and a few town guests with a costume Halloween party up in Hornet's nest Friday evening, October 29. Games, contests and refreshments helped to make the party a success.

On Saturday night, October 30, the Senior Class was entertained with a Halloween party at the home of Lucile Kimsey by Misses Kimsey and Lola Bell.

Halloween was also celebrated by the Sophomores Friday evening at the home of Mr. and Mrs. C. W. Thompson, a large crowd of guests enjoying the games, contests and refreshments.

Mothers' Self-Culture Club

On October the 7th the Mothers' Self-Culture Club met in regular session with Mrs. Jeff Bruce as hostess. Mrs. Clyde McKown was leader for the afternoon and read a most interesting and instructive paper on being friends with our children. The club entered into round table discussion on "practical methods of establishing right principles with children." Mrs. Shirley and Mrs. White gave interesting poems and methods of Dr. A. Bule.

The club was glad to have Mrs. George Burreas as a new member. The hostess served a dainty salad course after which the club adjourned to meet October 25th in the home of Mrs. L. A. Andrews with Mrs. Sanders as hostess.—Reporter.

Young Man Killed at Chillicothe Saturday Night

A young man named Roy Culpepper, aged 24, was stabbed and killed near Chillicothe last Saturday night. The report is that young Culpepper and some other persons were gambling in a shack near the Tabor farm four miles south of Chillicothe when an argument arose, resulting in the fatal stabbing. Arthur Berrick, a negro, is charged with the slaying of Culpepper.

The body of the dead man was shipped to the home of his father, James Culpepper, Picton, Texas.

Cannon to Be on Display Saturday

The German cannon which was donated to the American Legion will be on display on the courthouse lawn Saturday and thereafter.

An item is being published in this issue relative to this war implement, the information having been furnished by Captain Q. R. Miller. Read this and then you will appreciate seeing the gun.

Solo—Carrie Maurice Allee.
League Benediction.

ONE IN TEN
Neglecting a little wound, cut or abrasion of the flesh may in nine cases out of ten cause no great suffering or inconvenience, but it is the one case in ten that causes blood poisoning, lockjaw or a chronic festering sore. The cheapest, safest and best way is to disinfect the wound with liquid Borozone and apply the Borozone Powder to complete the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by Ferguson Bros. and Reeder Drug Co.

CONTROLLING AIR TRAFFIC

The city of Bloomington, Ind., has an ordinance, recently passed, which provides a fine of not less than \$100 nor more than \$500 for flying of airplanes, dirigibles or other aircraft over the city. The passing of such an ordinance is comparatively easy. Its enforcement is the big problem.

The suggestion has been made that city officers could take the number of planes violating the ordinance and trace their ownership through the national air registry at Washington, D. C., but this would be rather precarious work for policemen with little promise of results.

The right of any community to protect the lives and property of its inhabitants is unquestioned. If junk airplanes are flown over a city, or stunt fliers attempt their feats, undoubtedly life would be placed in jeopardy.

The law recognizes the authority of legally elected officials to legislate for the protection of the people. City councils and town boards enact ordinances to control the speed and parking of automobiles. They do not undertake to prevent the operation of automobiles on the streets of course. At that point the analogy ceases.

Automobiles may be run under certain regulations without jeopardizing the lives of citizens or threatening damage to their property. But a stunt flier or the pilot of an airplane not fit for service may be a menace to any community by flying over it.

Control of the air traffic over any city or town is a problem too big for any community acting alone. Not until the federal government sets up regulations forbidding the practices complained of, will any progress in the direction of controlling air traffic be made.

Card of Thanks

We wish to express our thanks and appreciation to our good friends and neighbors for assistance and sympathy rendered. May God bless each one of you in the loss of our precious baby.

MR. AND MRS. HAYDEN FORD.

WITH OUR SUBSCRIBERS

HERE TO SERVE YOU

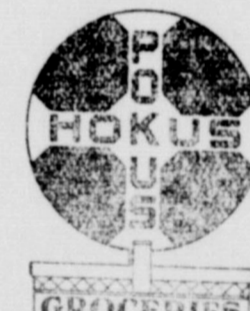

Had you ever just stopped to figure up the cost of your groceries for a year?

If you have not, it might be well to do so, and then, when you have done that select the trading place that gives you the best values for your money and in the end you will be enabled to see that you have effected a nice saving in the year's time.

The price and quality of goods enter into the proposition. It is not the cheapest groceries that go farthest every time and they are never as satisfying. So be careful about the very low priced groceries, they are likely to be of low quality.

Make this store your trading place and you are sure to get good substantial groceries at moderate prices, in fact as cheap as they can be sold.
