## POST OFFICE NOW OCCUPIES NEW QUARTERS

The Crowell post office is back in its old, yet new, location and the people of this city cannot help but walk into the completely remodeled quarters of this important institution.

After occupying the Russell building since March 19, the post office moved up its former location Wednesday. Although the location is the same, the difference in the post office now and what it was a short time ago is to be compared with the difference in night and day. The only familiar sights in the post office now are the faces of the employees.

Practically all equipment, even the desk, is new. Four hundred and fifty new boxes take the place of the hundred old ones and patrons are rapidly getting used to the new combinations.

Both the interior and exterior of the post office building have been completely remodeled by Oscar Hall of Paducah, the owner of the building, who secured a ten-year lease from the Post Office Department a few months ago. Mr. Hall bought the building from A. Brian last year. The new equipment is entirely all new, which has a light oak appearance. With the exception of Section No. 5 in the old equipment, the boxes had been used for over twenty years. The boxes in the last section were added about four years ago, however, they are not being used with the new fixtures. The new fixtures were provided by the P. O. Department.

Ventilation and light are much better in the building since it was remodeled. Three windows have been provided in the south wall of the post office, while in the past there was none. The number of electric lights have been greatly increased and outstanding improvements in general have been made.

Gordon Gribble, postmaster, requests the co-operation of the public to help keep the office in as neat condition as possible. No building in town is used to such a great extent as the post office and naturally neat appearance cannot last long unless the public in general co-operates in preserving its present condition.

## Concrete Bunk House Under Construction Here by Santa Fe Ry.

Construction is now well under way on a large concrete bunk house that is being built for the Santa Fe railway, just south of its tracks near the depot. The concrete floor and foundation have been laid and work is being completed on the forms for the concrete walls.

The structure is to be 104 feet, 6 inches in length and 26 feet in width. It will have twelve rooms, provided with modern conveniences. The concrete walls are to be eight inches thick. R. L. Jones of Slaton, Santa Fe bridge foreman, is superintending the construction.

The house will be partially occupied by section workers when it is completed. It is being built of large size in order to take care of any emergency construction or repair work along the line where it will be necessary to take care of a number of men.

Mr. Jones stated that it is the first of seven such houses that are to be built along the old Orient line of the handle and Santa Fe this year. The same forms that are being constructed for the work here will be used on all of the other jobs. The same construction crew of twelve men will also be used on the other jobs.

A modern residence for the section foreman is to be constructed here next year, according to Mr. Jones.

For the past few months Mr. Jones has been the foreman of a crew of workmen who have been engaged in the construction of a number of railroad bridges between Crowell and Chillicothe and between here and the Wichita River. Five ballast bedded bridges were built on the line between here and the Wichita River and four between here and Chillicothe. Crossed piling and material were used throughout the construction of the bridges.

## Barbecue at Ray Farm Attended by Many

Approximately 125 Rotarians and their families and guests from Vernon and Crowell were in attendance at a mutton barbecue on John Ray's farm in the West Rayland Community Tuesday evening.

The occasion was a very enjoyable one and was held as an inter-city gathering, no special program being planned. The shade of the large trees provided a very pleasant retreat from the heat of the day. A delicious lunch of barbecue, and all that was necessary to go with it, was served in cafeteria style shortly before seven o'clock. The barbecue was prepared by L. G. Andrews, H. K. Edwards and Eli Smith. A good part of the day assisting Mr. Ray in arranging for the event. The Crowell club furnished the barbecue with the Vernon club furnishing the soda pop and food to go with the barbecue.

## Location for New Test Made; Texas Plugging Johnson

A new location for an oil test was made last week by the Texas Company on the L. K. Johnson ranch, at a point about eighteen miles west of Crowell. The exact location of the test is not known, however, it is about two miles east of the Texas-Johnson test, which is being plugged this week. An oil showing was made in this test at a depth of 3,296 feet. Considerable gas was also encountered in it. Its location was 3,550 feet south and 200 feet west of the northwest corner of Section 36, Block 1, of the S. P. Railway survey. It reached a depth below four thousand feet.

It is not known here when developments will take place on the new location.

## Alvin Borchardt Secures M. D. Degree on June 1

Dallas, Texas, May 28. (Special)—Alvin Lee Borchardt, son of Mr. and Mrs. F. C. Borchardt, Crowell, will be granted the degree of Doctor of Medicine at the spring commencement exercises of Baylor University College of Medicine here June 1. Borchardt graduated from Crowell High School in 1924, and earned his Bachelor of Arts degree at Simmons University, Abilene.

He has accepted an internship for next year at Jefferson Davis Hospital, Houston, Texas. He is a member of Phi Beta Psi, medical fraternity.

## Heavy Hail Sunday Damages Crops in Beaver Community

Heavy damage was suffered from hail in the Beaver community Sunday night. The hail was preceded by a heavy wind which was the main cause of the hail damage that followed, since the stalks of grain were bent over in such manner that they could be easily destroyed.

Heaviest loss was suffered on the F. C. Borchardt farm, where 165 acres of wheat, 35 acres of oats and 150 acres of cotton were wiped out. W. B. Jones lost about 130 acres of wheat. Others who suffered loss were: Dr. J. M. Hill, Mrs. Newt Johnson, Tom Veceera, Mrs. W. R. Randolph, Que Miller, M. F. Crowell and possibly others.

A good shower followed the hail.

## Cemetery Association Elects Officers for Year

Mrs. N. J. Roberts was re-elected president of the Crowell Cemetery Association at a membership meeting last week. This makes the fourth year that she has been elected to that position. Mrs. J. H. Olds was elected vice-president; Mrs. Arnold Rucker, secretary, and M. L. Hughston, treasurer.

Mrs. M. O'Connell, J. H. Self and J. T. Gribble were elected to the executive committee. This is the first year that the secretary-treasurer has been divided.

## Lack of Material Causes Postponement of Health Clinic

Due to the fact that the State Department of Health was unable to supply serums and toxoids, the health clinic that was to have been held in Crowell Tuesday has been indefinitely postponed, according to Dr. J. M. Hill, county health officer.

The following letter of explanation has been received by local health officials from Dr. J. C. Anderson, state health officer:

"On our original visit to your county we promised yours and other counties, biologists for immunization in sufficient quantities to meet your demand. This was done in good faith, since the Federal Department was liberal in granting not only our first budget but a supplemental budget.

"The demand for this material has been far beyond the expectation of both state and Federal officials and we now find ourselves unable to supply this wholesale demand. However, we are going to try to arrange to furnish material for completing immunization already started."

## Girl Died Tuesday in Rayland Community

Miss Pansy McAmis, sixteen year old daughter of N. E. McAmis of the West Rayland community, died at her home Tuesday afternoon and was buried Wednesday in the Thalia cemetery.

She came to Foard County with her father about a year ago. She had been in very ill health for the past several months.

W. T. DUNN ILL

W. T. Dunn of Margaret has been confined to his bed since May 18 with kidney and bladder trouble. His condition Thursday had shown little improvement.

## FIVE MILES OF CONCRETE PAVING ON HIGHWAY WEST OF CROWELL IS COMPLETED TUESDAY AFTERNOON

At about three o'clock Tuesday afternoon the last batch of concrete was poured which joined the Crowell pavement with that on Highway No. 28, extending to a point 4.9 miles west of this city.

Froemming Brothers, Inc., of Texas, contractors, completed this job in exactly one month, having started work on Monday, April 27, and completing the pouring of the concrete on Tuesday, May 26. Only 22 actual working days were required on the job. Work was halted several days by rains.

The fact that the work was completed with such rapidity may be attributed to several reasons. There was not a breakdown to cause work to be halted. The machinery used on the paving is the best made and all of it was overhauled before the paving was started. With the completion of the work here Tuesday, the work of overhauling the machinery was again started in order that it will be in first class shape for the work that is to be started by the contractors in Fort Bend County within a short time. This contract calls for fourteen and one-half miles of pavement from Rosenberg to the Wharton County line, on State Highway No. 36. The highway machinery will be moved from Crowell within a few days for Rosenberg.

On about June 9 the pavement will be open to traffic. The work of filling the joints with asphalt filler and preparing the earth shoulders on each side of the pavement is now taking place. Two weeks is required for the concrete to cure before it is opened for travel.

Some interesting statistics concerning the work were secured by The News from G. H. Kies, secretary of the construction company, who

with A. G. Brown, vice-president of the firm, were in charge of the Foard County work.

The most concrete laid in one day was 1,593 feet on Monday, May 25. This is slightly more than three-tenths of a mile. On that day 543 truck loads of material were poured through the concrete mixer. The total number of feet on the job was 26,100 and an average of about 1,200 feet of concrete were poured daily. The pavement is eighteen feet in width. The concrete is nine inches thick on the sides and six inches in the center.

A total of over nine thousand truck loads of material were hauled from the hatcher to the concrete mixer. About four hundred carloads of sand and gravel were moved over the Santa Fe from near Hamlin. There were forty-six cars of cement and three cars of steel for re-enforcing the concrete that were used on the job. Twenty-five trucks were used by the Crowder Trucking Co. of Seymour, who had the contract for the truck work. Mr. Kies stated that around eighty men in all were employed for the work and that a large percentage of these were Foard County men. Only two minor accidents were suffered by the workers.

Officials and employees of Froemming Brothers Inc. have made many friends in Crowell and in general the contracting firm has been a very popular one. Its headquarters are in Seymour, having located in that city about three years ago when it secured a job of work in Baylor County. The company came from Wisconsin to Texas. Two complete paving outfits are maintained by it. The other is now being used on highway work in Grayson County.

## Nichols Addresses Graduating Class of Crowell High

"If School has prepared you for a full life, you are in a fair way to become educated," stated R. H. Nichols of Vernon to the graduating class of Crowell High School in the principal address at the commencement program at the school auditorium last Friday evening. Mr. Nichols is president of the Texas Press Association, governor of the 41st District of Rotary International, and editor of the Vernon Daily Record.

In opening his address Mr. Nichols reviewed his early school days in a humorous manner and in comparing the schools of those days with those of the present he stated that the modern school offers the greatest privileges possible.

The principal part of the address was based on Herbert Spencer's definition of an education as being "that which prepares us for a complete (Continued on last page)

## RED CROSS WORK IS ENDED IN FOARD COUNTY

Drouth relief work of the Red Cross came to an end in Foard County last Friday. O. E. Nelson, state auditor for the American Red Cross, made a final audit on the work done by the Foard County chapter.

This audit revealed the fact that the local chapter had received \$8,800.00 in cash and 540 packages of garden seed, each package containing eighteen varieties of seed.

A total of 360 families, averaging 3 persons to the family, received aid. The number of disbursing orders issued amounted to 1,641 and the total value of these orders was \$3,883.37, the average value of each order being \$3.25. Each family received an average of \$24.68.

The final audit showed that a balance of \$6.13 was left to the credit of the Foard County chapter. A check for this amount was made out to the national organization and given to the auditor, making the books balance, according to the report.

## Local Boy Graduates From Tech This Year

Joe Y. Roberts, son of Mr. and Mrs. N. J. Roberts of this city, will receive his degree of bachelor of science in civil engineering at the fifth commencement exercises of Texas Technological College at Lubbock on June 8.

Thomas O. Walton, president of Texas A. and M. College, will address the 251 graduates at that time. On Sunday, June 7, Dr. Ivan Lee Holt, prominent Methodist pastor of Missouri, will deliver the commencement sermon. Mr. and Mrs. Roberts plan to attend both programs. Joe graduated from Crowell High School in 1927 and has attended Texas Tech for the past three years. He attended John Tarleton Agricultural College at Stephenville the first year after graduating from the local high school.

A former Crowell boy, Hal D. Yoder, will also graduate from Tech this year and will receive his degree of bachelor of science in agriculture. He is the son of Mr. and Mrs. D. P. Yoder of Snyder.

## Jesse Brown Marries Miss Elizabeth West at Hamilton, May 23

Miss Elizabeth West of Hamilton, Texas, became the wife of Jesse Brown of Houston, formerly of Crowell, in a wedding at the home of the bride's parents, Mr. and Mrs. P. M. West, in Hamilton at 5:30 o'clock, dawn, Saturday, May 23.

The couple will make their home in Houston, where Mr. Brown is the manager of one of the Walgreen Drug Company's stores. He graduated from Crowell High School in 1926 and last August he received his Ph. C. degree in pharmacy and chemistry from the University of Texas. He is a member of Phi Delta Chi, a chemistry fraternity.

Mrs. Brown is a graduate of Denton High School and of the North Texas State Teachers' College at Denton. She taught home economics in Crowell High School during the 1928-29 school term.

The bride and groom have many friends here who wish every happiness for them. They arrived in Crowell Tuesday afternoon for a visit of a few days with relatives and friends.

Mrs. G. G. Mills of Foard City is Mr. Brown's mother, and Esca (Peck) and Mike Brown of this city are his brothers.

## Officers Elected by Local Masonic Lodge

The annual election of officers for the local lodge, No. 840, A. F. & A. M., was held Monday night at the Masonic hall. Leslie Moore was elected worshipful master, succeeding Lee Allen Beverly. Paul Crews was elected senior warden, succeeding Mr. Moore. Gordon Gribble succeeded Paul Crews as Junior Warden. Sam Seales, secretary, and Alton Bell, treasurer, were re-elected. A. T. Schowley was elected tiler, succeeding D. R. Magee.

## SUMMER SCHOOL STARTS

Summer school opened in Crowell Monday morning with about fourteen students in attendance. Henry Black is conducting the school, which will last for six weeks.

## Rialto to Show Three Programs Each Week

Starting Monday, June 1, the Rialto will change programs every other night. For the past several months programs have been changed twice weekly, each program being three nights.

Will Rogers in "Lightning" will be shown Monday and Tuesday. The schedule for many other excellent pictures is given in an ad elsewhere in this issue.

### A Real International Marriage

Emily Hunt, Scotch lassie, barred by the quota, put her hand across the boundary line and was married to R. A. Crudge, of Detroit, whose Mexican divorce stopped him from marrying in Canada. Then she came over.

## FARMERS URGED TO CHECK WORM DAMAGE BY SPREADING POISON MASH AROUND EDGES OF FIELDS

Army worms have made their appearance in every part of Foard County and considerable damage from their activities has already been suffered. The first damage was noted about Monday. Further damage is feared, however, it is difficult to venture a prediction as to the seriousness of the infestation.

The principal damage suffered thus far has been in fields where there is considerable foliage on the ground. Oats have suffered worse than wheat and many farmers are now cutting their oats much earlier than they would otherwise. By doing this the oats will cure earlier and will then not be damaged by the worms, which attack only green crops.

Fred Rennels, county agent, voices a warning for every farmer to examine his fence rows and fields and if the presence of worms is found to take immediate steps to prevent their spreading. There is no satisfactory method of killing out the worms that are now in wheat and oats, however, it is very important that steps be taken to prevent the worms from spreading to other crops. Naturally the worms will migrate to row crops when wheat and oats are harvested unless something is done to check them.

Mr. Rennels advises the farmers to plow deep furrows around the edges of fields and infested areas. After this he advises that poison bran mash be prepared and then spread over the plowed area as soon as the worms begin to migrate. Through this method the worms will find some difficulty in crossing the plowed ground, and in becoming hungry they will eat the poison mash that is spread over the ground. The plowed strip should be 15 to 20 feet wide.

The poison can also be spread effectively around the fence rows.

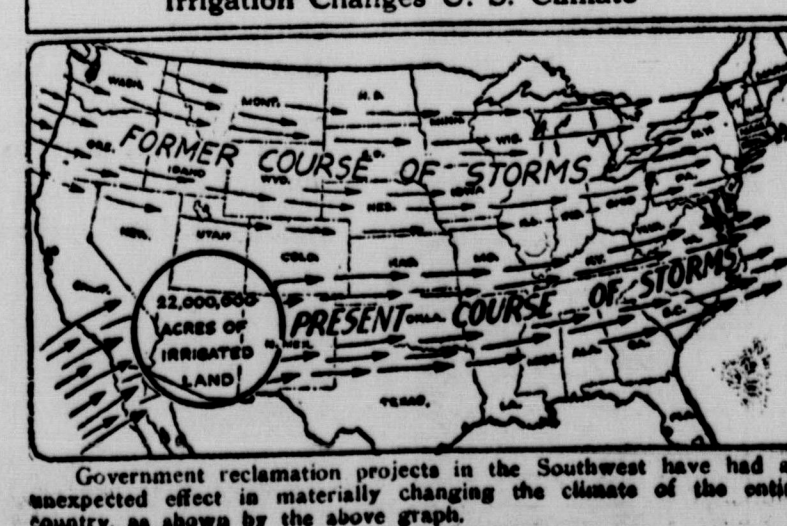

The following is the formula for poison bran mash:

Twenty-five pounds wheat bran.  
One pound white arsenic or Paris green.  
Six oranges or lemons.  
Two quarts of syrup.  
Two to four gallons of water.

The fruit should be ground up very fine and the water should be sufficient to thoroughly mix the formula. This poison is also effective against grasshoppers and other pests.

The army worms will eat most any green growth and unless they are (Continued on Page Four)

### Irrigation Changes U. S. Climate

Government reclamation projects in the Southwest have had an unexpected effect in materially changing the climate of the entire country, as shown by the above graph.

## LEE'S LOUSE POWDER

Contains Sodium Fluoride

A real good powder is always a good asset about a poultry house; and when one is really needed the best is none too good.

In Lee's Louse Powder you have the result of long years of study and experimenting by practical people, not only in compounding goods of this kind, but with a fifty years' experience in the poultry business.

This is a powder prepared in round, sprinkler-top cans, handy for instant use on either old or young chickens.

While we especially recommend Lee's Lice Killer as best for keeping the poultry and poultry house rid of vermin, the powder will be found very convenient for dusting a setting hen and chicks or for giving particular attention to the occasional fowl that is a special mark for attacks of vermin.

A sickly or droopy bird should always be examined for lice and a good dusting with this powder is the quickest and best remedy.

Crowell, Texas, May 29, 1931

Farm Commissioner  
Lauds Purposes of  
Progressive Texans

Austin, Texas, May 28—Industrial development of Texas carries with it collateral benefit to the industry of agriculture, which should make the program of Progressive Texans, Inc., of interest to every one interested in agricultural progress, in the opinion of J. E. McDonald, commissioner of agriculture.

Commissioner McDonald's statement was made at the meeting here of the executive committee of the organization, planning its program for the industrial development of the state.

Success of the program instituted by the organization should prove of great benefit to agriculture, he said. He pointed out that the purpose of Progressive Texans is to "make Texas as better known and better understood to both itself and the rest of the country," to the end that industrial firms already established might prosper and other firms be induced to come into the state.

Agriculture should benefit from such a program, he stated, both because it contemplates advertisement of the state's agricultural advantages and because agricultural and industrial interests of the state depend one upon the other.

"Industry comes," McDonald said, "where it can find the raw material, the labor, accessibility to markets, a healthy financial tone. Texas farm lands, rich as any in the world in natural attributes, offer an endless source of raw material for hundreds of industries, such as cotton and wool textile factories, flour mills, shoe factories, tanneries, canning plants and many others.

"As the state develops industrial-ly, the farmer will find a readier market for his products—both for those products that go into the factories as raw material and to feed the influx of population which follows industrial growth. In turn, the farmer would have more money with which to purchase the products of industry.

"The cotton farmer should benefit especially from the establishment of textile mills in the state. Unquestionably it is an economic anach-

ronism to ship our cotton to seaboard New England, only to have it returned to us for purchase in the form of cloth materials, suits and dresses. We have some textile mills; there is room for others, and for all those accessory plants through which the snowy staple passes in the process of transformation into utilitarian cloth.

"Agricultural Texas needs the aid of industrial Texas. They are interdependent. The prosperity of one depends upon the prosperity of the other. All those who are interested in agricultural progress should find much to support in the worth while aims of this progressive organization."

WORMS

(Continued from Page 1)

checked they will soon spread to row crops. One reason for their hatching out in such great numbers in fields over the county is attributed to the mild winter.

In many cases now they are confined to a few acres of oats and wheat but as soon as these crops are gone they will spread elsewhere.

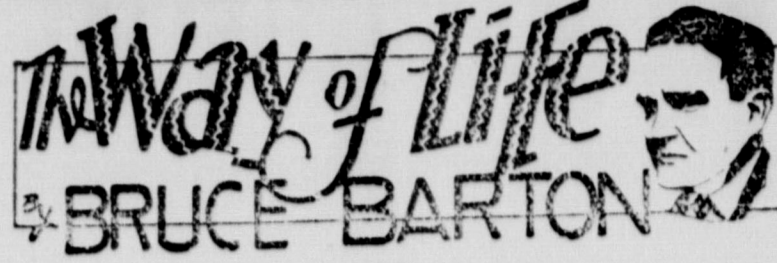

The county agent also warns the farmers to cut their oats as soon as possible so that they may cure earlier. Discing of fields as soon as the grain is cut is also advised as an effective measure in killing worms and their larvae.

Some evidence has already been reported of the presence here of the fly and wasp which fight the army worm. The first is a large gray fly which pricks the worm's skin and implants eggs, which when hatched bring about the quick death of the worm. The wasp causes the death of the worm by stinging. These enemies of the worms may serve in greatly reducing their damage.

The army worm's attack upon the stalk of the grain begins at the base. He eats the foliage as he ascends. The tip of the ripening grain first is eaten, and the grain is subsequently detached, falling to the ground.

After feeding has been completed, the worm buries itself several inches beneath the surface of the ground. Drying and splitting of the skin is followed by the appearance of the pupa or cyst. With favorable weather conditions, this process may be completed on the surface of the ground. It is in this stage of development that many of the pupae will be destroyed by discing.

Production and transportation of eggs is the function of the small brownish-gray moth which develops from the pupa. It travels some distance from the point of its appearance, lays the eggs in rank grass or young grain, and the destructive worm again has been created in embryo. Only about eight weeks is required from this egg stage to the

DON'T SPEND IT

Some years ago I met a man who spoke as follows: "The boss issued a memorandum today with a lot of new instructions. Some of them were all wet, and I didn't hesitate to tell him so. I shot a memo right back at him, and, believe me, it was a hot one."

Said another man:

"I received my first business training under a wise old bank official. One day a letter came in from a customer who made unreasonable complaints and asked for an unwarranted favor.

"I sat up almost all night drafting an answer to that letter. It was a beauty, and I took it in to the old man next morning with pride. His head nodded approvingly as he read it.

"You've put the case just right," he said. "The position you have taken is based on sound banking principles; it states our attitude with dignity and force. All in all, it's a very fine letter, and I congratulate you on it. Only, for Heaven's sake, don't send it."

Afterwards, I learned that the man I first quoted was paid \$4,000 a year; the other is paid \$40,000.

Like every other man in business, I receive a certain number of communications which are both unkind and unfair. Having red hair and a naturally quick temper, I used to let such letters hoist my temperature considerably. Sometimes I carried them around in my mind for several days, forming red hot phrases in reply.

Now I play a much meaner trick on the writers. I do not answer them at all. I can imagine one of my critics going down to the front gate every morning to meet the postman, looking eagerly for my answer, thinking up what he will say in his next outburst.

Day after day goes by, and no answer comes. The fire that was to burn me up, burns him up instead.

This method of dealing with one's enemies is certainly not spectacular and maybe it is unmanly. If so, I can reply only that as I grow older the glory of being spectacular appeals to me less and less in comparison with the comfortable joys of peace.

Life seems somehow too short for controversy, and much of my income in these days is received not so much for what I do as for what I have learned not to do.

Patience, I have learned, is almost as important as work; while judgment uniformly commands a much higher rate than well intentioned activity.

What is judgment, you ask. Well, it's the little voice that whispers: "That would be brilliant, but don't do it." Or, "That's a smart one; very smart indeed. But, for Heaven's sake, don't send it."

These in Foard County who have suffered considerable loss thus far from the worms are: J. C. Taylor, M. L. Hughton, Henry Johnson, and Grover Phillips.

ON TEXAS FARMS

Anderson County Eradicates Gophers

Palestine—With a goal set of showing every farmer in Anderson county proper methods of poisoning and trapping gophers, a county-wide campaign of eradication has been undertaken with the aid of the United States Biological Survey and Mack McConnell, county agent. The county commissioners' appropriation of \$88,000 and \$15,000 respectively to meet a Federal sum of \$225 for hiring seven men to go from farm to farm demonstrating control methods and giving each farmer enough poison to kill out his marauding gophers.

Don M. Foster represents the Biological Survey in this work which resulted in the distribution at the first meeting of more than 400 packages of strychnine poison and the loan of 288 traps bought by the commissioners' court. It is expected that the campaign will last long enough to eradicate the greater part of the gophers from Anderson county, thereby saving thousands of dollars worth of crops this year.

Skipping a Row Now and Then Pays

Robert E. Lee—Because last year's maize planted on the two-row-and-skip-one plan doubled the yield of maize planted in every row, Lem Cowley, Coke county farmer living near Valley View, has told the county agent, B. J. Baskin, that he intends to plant his entire crop by the newer system this season. Mr. Cowley states that his maize crop last year was almost as good as in years of normal moisture due to this form of crop insurance.

Yard Beautification Achieved At Little Expense

Beaumont—With an expense of less than \$2.50, Mrs. Hugh Long of the Amelia community in Jefferson County made a number of improvements in her yard as a part of her home demonstration club work. The fence has been taken away, a trellis made for honeysuckle vines to screen the well from public view, youpon has been planted for screening also, a row of popular trees planted to screen the clothes line, six roses have been added to the rose garden, and six varieties of zinnias planted in a border bed.

This is Mrs. Long's second year as a yard demonstrator, last year she made a lawn of Bermuda grass, surrounded the house with foundation plantings of youpon, privet, wax-leaf ligustrum, Japanese hedge, pittosporum and red bud. She planted a grove of oaks, ash, poplars, Lombardy poplars and taller trees, and a row of weeping elms to screen the yard and grounds from an unkept lot in the rear. In a large pond by the side of the grove she dropped a dozen waterhyacinth plants and this year has been rewarded by a mass of blooms. The garden is screened from the public view by a youpon hedge.

Good Use Made of Cheap Cabbage in Willacy County

Raymondville—That cheap cabbage is just as good for the manufacture of kraut and that the kraut is just as healthy as if it were made of more expensive cabbage is the conclusion of the county home demonstration club women, Willacy county, according to the report of the county

home agent, Ophelia Estell. Reports of the pantry demonstrators of the county show more than 300 containers already on their pantry shelves.

Cut Cost of Children's Clothing

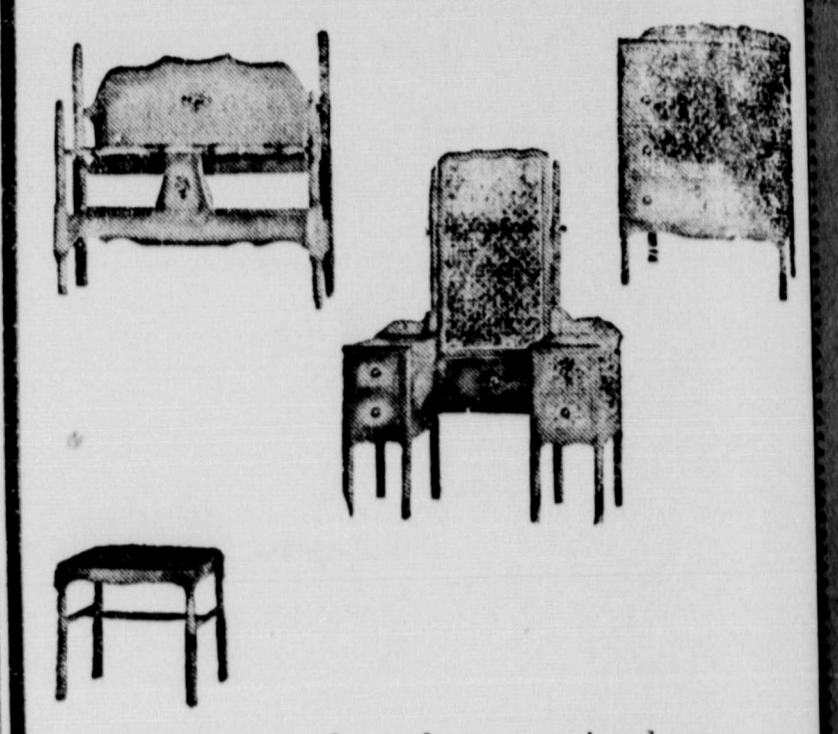

Wichita Falls—The home demonstration clubs of Wichita County recently exhibited 78 children's dresses, ages two to nine, at their annual dress contest. Each dress was entered by a different club member. The total cost of these dresses including material and labor was \$48.36. Their value was \$97.50, making a total saving of \$49.14 for the women who made them. At a dress parade in the afternoon the dresses were worn by the children for whom they were made.

TO STAND FOR AGES

Although America's greatest cathedral, that of St. John the Divine in New York, will not be the largest in the world, it will rank third in ground surface. But it will be the most durable of any cathedral ever built by the hand of man.

In structural strength due to better materials and finer workmanship St. John's will greatly surpass any of the European cathedrals of the Middle Ages. It is estimated that the granite used will not wear down as much as an inch in 5,000 years. An eminent engineer, J. Bernard

A comedy with every show. Saturday afternoon matinee, 10 cents and 25 cents.—Rialto. "Dynamite" has power. See it. Hear it. Thursday, Friday, Saturday.

Mrs. E. E. Dodson and two children, Melvin and Frances LaVerne, of Mangum, Okla., are spending the week in the home of Mr. and Mrs. Jimmy Doolen.

Mr. and Mrs. T. N. Bell attended a benefit "42" and bridge party at the Elks Club in Vernon Tuesday evening. Fifteen dollars was made for the purpose of sending a young lady to school.

Mr. and Mrs. W. C. Baker of West-laco came in last Sunday and will visit here for several weeks with Mrs. Baker's parents, Mr. and Mrs. C. D. Stephenson, and with her sister, Mrs. B. F. Hinds, and family.

Mrs. M. E. Lanier of Knox City is visiting in the home of her son, J. H. Lanier. She was accompanied to Crowell last Friday by her daughter, Mrs. Earl Benedict, and husband who came up to attend the graduating exercises of Crowell High school.

J. W. Beverly left Tuesday for Dallas to visit in the home of his daughter, Mrs. Luther Roberts. He was accompanied to Wichita Falls by Mrs. L. A. Beverly and Mrs. A. Y. Beverly, and Mrs. Bernice Reynolds of Dallas who had been visiting relatives here.

Walter King returned to his home in Mission, Texas, Monday. He has been with his wife, daughter of Rev. and Mrs. B. J. Osborn, and baby son, born on May 9. Mrs. King and baby are doing nicely and as soon as she is strong enough to make the trip, she will join her husband at Mission.

Miss Margaret Jane Williams of Amarillo, who had been here for 3 weeks visiting her grandmother, Mrs. B. F. Ringgold, and family, returned home Tuesday with her father, C. B. Williams. Mr. Williams is a salesman for the Schilling Coffee & Tea Co. and makes Crowell every 5 weeks. He is a former resident of Crowell and is well known here.

Rev. and Mrs. B. J. Osborn returned from Abilene last Friday. Their daughter, Juanita, is in the Baptist hospital there, where she recently underwent an operation. They reported her doing nicely and are hopeful that she will soon recover. They were accompanied home by Mrs. J. H. Hamblin of Abilene, who visited her daughter, Mrs. Roy Ricks, of Thalia.

The Foard City League will present "The Gate to Happiness" at the school house Saturday night, May 30. Admission 5c and 10c.

FOR SALE—A Good combine and combine parts. Also have other good farming implements. See Henry Gribble at Boots' Service Station.

E. E. Teaff and family of Knox City were here last Sunday visiting in the home of Mr. Teaff's sister, Mrs. J. H. Lanier. They were accompanied by his father, W. J. Teaff, who remained here for a visit in the home of his daughter, Mrs. Lanier.

Home runs, W. Bell, Sloan, Scott, Doubles, Strowd 2, W. Bell, Ashford, Strike-outs, Bell 1, Raspberry 10, Osborn 12. Walks, Raspberry 2, Osborn 1.

Quannah Wins Quannah defeated Crowell here Saturday afternoon by the score of 7 to 3. Ashford led the hitters for Crowell with 3 hits in 5 times to bat. Dillon starred for Quannah with 2 home runs and a triple, accounting for five runs, and scoring the sixth himself when Redman singled in the sixth inning.

Free Ford Show at Vernon Next Week

Residents of Crowell and this county will have an opportunity to "visit" the great plants of the Ford Motor Company through the medium of a sound motion picture to be exhibited in Vernon next week, George Self, local Ford dealer, announced today.

The movie will be a part of a Ford show to be held beginning June 4 and continuing through June 6 in a large tent on the street in front of the Ford agency at Vernon. The show will be open to the public free of charge from 10 a. m. to 10 p. m. each day.

Those who visit the show will be able to learn not only how Ford cars and trucks are manufactured in quantity production, but to obtain some idea of the vastness of the Ford enterprises, Mr. Self pointed out. They will see how coal obtained from Ford owned mines is transported to the plants in Dearborn, Mich., in Ford-owned railroad cars; how iron ore

ARCH HOLMES SEYMOUR, TEXAS

from Ford mines and lumber from Ford forests are carried in Ford lake ships; and how in the manufacture of the car various by-products are utilized for making fertilizer, charcoal briquets, chemicals and other things.

Besides the motion picture, the show will include a number of special exhibits revealing step by step how various parts of the car are made, a cut-away truck chassis, and a Tudor body cut in half to reveal the details of its construction.

A feature of the show will be a display of the full line of Ford passenger and commercial cars. Arrangements for the show were made by the local dealer in co-operation with Ford dealers in nearby towns and the Dallas branch of the Ford Motor Company.

Fox News with every show.

T. C. U. to Be Host to Convention Next Year

Fort Worth, May 28.—Texas Christian University will be host to the annual state convention of the Christian Church next June. The exact dates will not be announced until next winter. Harry Hines, Wichita Falls, oil operator, is president of the 1932 convention. The Rev. L. N. D. Wells, pastor of the East Dallas Christian Church, is vice-president. The Rev. Patrick Henry, Fort Worth, secretary of the Texas Christian Missionary Society, is secretary-treasurer.

The inventive genius of legislators is sorely taxed by the necessity of inventing new taxes.

LEARN TO SAVE

The lesson of saving is simple to learn: Just spend something less than that which you earn; But the man who saves, who lays something by, Must first always learn himself to deny. It is not what you make brings riches to you. The man who makes less may have more when he's thru. Many men have made money, rode high on the wave, But their boats hit the rocks, they nothing did save. The First State Bank has regard for the man Who makes but little, yet saves all he can.

(Copr. 1927 Adam Brown Hunter)

FACE FACTS

Shall we continue to contribute to the welfare of another city at the expense of our own community?

Is it fair to the unemployed of our community to not aid them in their chances of getting steady employment through the simple process of creating better business conditions by keeping our own money circulating in our community? Tests demonstrate that a dollar circulates TWENTY times within a community during a year. The dollar sent away moves ONCE and never returns.

EVERY DOLLAR leaving this city for merchandise cuts down the ability of your merchant to pay his taxes, to pay his rent, to keep his employes, and to help our charitable institutions, our schools, our churches and our homes.

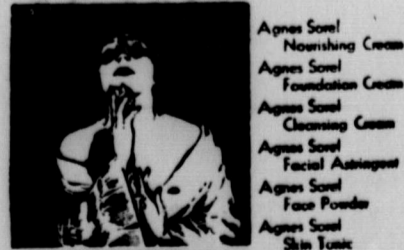

Let us consider this matter calmly and sanely. Your merchant can get the goods you want if he does not have them. His prices and quality meet those of other places. In fairness to your city, community and yourself, we earnestly ask that you use him.

Remember, cities that have the best stores are those having the best support for them. Our stores can be made better if given better support.

## CHURCHES

**Christian Science**  
Sunday, 11 a. m. and 8 p. m. Subject for Sunday, May 31, "Ancient and Modern Necromancy, Alias Mesmerism and Hypnotism, Denounced." Sunday School at 9:30. Wednesday evening service at 8:00. The public is cordially invited.

**At The Methodist Church**  
Sunday School at 9:45 a. m. Preaching at 11:00 a. m. and 8:30 p. m. Epworth League at 7:30 p. m. Woman's Missionary Society, Monday at 3:00 p. m. Prayermeeting Wednesday at 8 p. m.

We are urging all the members of the church to help the attendance not to fall off as the summer season comes on. There is no reason to neglect church duties because the weather gets warm. Our church services are what we make them. Let us make them the very best service possible. Please help us by your presence and personal interest. Pray for us and meet us at the Methodist Church next Sunday morning.  
B. J. OSBORN, Pastor.

**Christian Church**  
One hundred and thirty-five in Sunday School next Sunday is our aim. This will be the largest attendance of the year. There is a very special reason why we should have this large attendance. Won't you come and ask at least five other people to come? Bring some new people. Pray for this attendance.

Stay for communion and preaching service, next Sunday especially, and honor Christ at His Table as he has requested and get the blessing and inspiration from the whole morning service, including the message. Next Sunday the sermon will be: "It is high time for us to awake." This was to have been used last Sunday but was not on account of so many of the brethren being absent. This is the first of a series of sermons on the theme: "The Harvest is White" preparatory for our meeting in August.

Please let nothing prevent you from coming Sunday; don't fail to pray for the attendance of one hundred and thirty-five, and for a great service; by all means ask at least five others to come, and ask that they ask five others still; talk, phone, write, pray and come. We can if we will. Will you?  
C. V. ALLEN, Pastor.

**Baptist Church News**  
No additions last Sunday but we had a general good day at the Baptist church. We are in the vacation period. A time when everybody would like to go somewhere. We must be careful lest we forget and leave the Lord and His work undone.

The pastor spoke at the morning hour on "Why Go To Church?" and in the evening on "The Young Man and His God." Special interest was manifested through the day.

Next Sunday: Sunday School at 9:45; preaching at 11 and 8; B. Y. P. U. training service at 7 p. m.; prayermeeting at 8 p. m. Wednesday.

Mrs. Davis, the new superintendent of the Junior Department is getting hold of things in a fine way and so is Mrs. John Carter with the Intermediate Department. We are sorry to lose Mr. and Mrs. Grady Graves and Miss Ball for the summer. We look forward with delight to their return.

The workers council was well attended at Thalia Tuesday. The speeches in the main were keyed on a high note. The tone of our general work is encouraging. Dr. Lyon gave a detailed report of our Southern Baptist Convention which met last week at Birmingham, Ala., which was enjoyed by all.

May we expect a large attendance at all services next Sunday? Some will be tempted to go elsewhere, but ought we not to put God and His church first in our lives? Come where the dewdrops of mercy flow, you will need God some day. "Let us go unto the House of the Lord." Come and welcome, the place to spend Sunday.  
WOODIE W. SMITH.

All Christian Endeavor officers are requester to be at the church by 8:15.—Reporter.

**Christian Science Churches**  
The lesson-sermon subject was "Soul and Body" in all Churches of Christ, Scientist, Sunday, May 24. The golden text was from Romans 8:13. "If ye through the Spirit do mortify the deeds of the body, ye shall live."

Included in the service was the following passage from the Bible (Hebrews 10:39): "We are not of them who draw back unto perdition; but of them that believe to the saving of the soul."

There was also read the following citation from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy (p. 114):

"Christian Science explains all cause and effect as mental, not physical. It lifts the veil of mystery from Soul and body. It shows the scientific relation of man to God, disentangles the interlaced ambiguities of being, and sets free the imprisoned thought."

### Sunday School Lesson

International Sunday School Lesson for May 31

JESUS IN GETHSEMANE

Luke 22:39-54

Rev. Samuel D. Price, D. D.

It is recorded by Mark, following the narration of the events in the upper room in Jerusalem when the Passover was celebrated and the Lord's Supper instituted, "And when they had sung a hymn, they went out unto the Mount of Olives." Jesus knew about all that impended and He would be ready for those terrible events through strengthening prayer. For this purpose He led His beloved disciples to the Garden of Gethsemane.

Prayer is the great recourse when there are problems to face and spiritual strength to be obtained. Though Jesus would pray alone he wanted Peter, James and John to be near Him and invited them to come further into the Garden. The scene is best depicted by Hofmann's great painting of "Christ in Gethsemane." What was the "cup" that Jesus prayed might pass from Him? Surely He did not want to quit the mission for which He came from heaven to earth. Many think that He was afraid that His strength, both physical and spiritual, might not hold out until all had been accomplished. We know at least this for a certainty: He prayed that the will, not his personal will might prevail.

The three close friends failed Him. These men slept, and returned to sleep though Jesus came thrice to awaken them. The contest had been won, however, by Jesus in His solitude as He faced the throne of God. It is in such quiet places that we win the big battles of life, rather than in the open and when we cannot do otherwise as the crowd looks on. The greatest decisions are made when we are thus alone with God. Then Judas comes to the place where He knew Jesus had an altar of prayer and gives the signal for arrest as he betrays the Son of Man with a kiss.

#### SERMONETTE

THE LONG VIEW

By Arthur B. Rhinow

"Some day the subway will supplant the elevated, and our rapid transit will be entirely underground or up in the air," a friend predicted. "That may be so," I agreed, "but I would miss traveling on the elevated."

It has a charm, not the least of which is the rapid change from the near view of the sidewalk to the long view of the intersecting streets.

How restful the long view is after the gripping scenes of teeming life along the avenue. It lasts but for a moment, but in that moment we look far out. The street does not seem to have an end. Sometimes we glimpse river and hills until the street

is lost in the sky. How tiring the ride would be without the long views.

How tired we become of the daily routine with its intense concentration if we do not take time occasionally to look up and out to where heaven and earth meet, and farther still. How cramped our life becomes without the long view.

Those intersecting streets with their suggestion of the infinite, as seen from the elevated, remind me of the Sabbath. During the week our attention is focussed upon the many little cares that assume such large proportions, but on the Day of Rest we look up and into the heart

of eternity and adjust our lives as the ancient mariner got his bearings from the stars.

The long view keeps us from coming nearsighted. And the rest like resting in God.

## Transmission Line Service Aids Development

WEST TEXAS is a land rich in natural resources and vital raw materials, and in the near future far-seeing manufacturers will locate their plants in this territory where they will benefit by cheap land, moderate operating expenses, low living costs, an abundance of native-born and intelligent workers, splendid shipping facilities, ideal climatic conditions and an adequate and elastic supply of inexpensive and dependable electric energy.

line system serving a wide area from strategically-located main generating stations and further stabilizing its service through interconnection and auxiliary plants.

One hundred and twenty prosperous cities and towns throughout West Texas are interconnected by the 2,500 mile trunk transmission line network of the West Texas Utilities Company. Receiving service from three major generating stations—supplemented by twenty-two auxiliary or standby plants—leading citizens of these towns confidently anticipate the rapid industrial development of this vast empire, truly called the "Land of Opportunity."

When these industries survey West Texas for the most attractive factory-sites, first consideration will be given those progressive small cities, which offer the constant power supply of a transmission

scheme. Besides which most of the  
traffic which will use the canal could  
never be routed by rail.  
\*\*\*\*\*  
The new canal promises to be a  
boon to a large section of the coun-  
try, chiefly to gulf ports like Galves-  
ton, New Orleans, Pensacola and  
Tampa, which will benefit by a short-  
ening of the time to California by  
about three days. The Nicaragua  
route is something like 500 miles  
farther north than Panama, a day and  
a half's sailing for good steamship.  
Not only the gulf ports, but the  
entire Mississippi Valley will be  
benefitted by the construction of  
the second canal. Government work  
now under way on rivers in the heart  
of the country will result in nine-  
foot channels for river steamers that  
will carry their freight to New  
Orleans for trans-shipment on ocean-  
going vessels to the California coast  
and far Pacific ports.

Aside from the saving in time and  
money, the new canal will be addi-  
tional insurance against the blocking  
of the Panama Canal by enemies in  
time of war, or by one of the many  
earthquakes that continually occur  
in central America. The building of  
the Nicaragua Canal will benefit  
nearly everybody in the United  
States and will not be a drain on the  
pockets of taxpayers.  
\*\*\*\*\*

The Panama Canal has been in  
operation long enough to show that  
it has been a worthwhile project. It  
takes in about \$100,000 a day in  
tolls, ships using it finding it much  
cheaper to pay the high charges than  
to sail around Cape Horn. While  
the Panama cost around one billion  
dollars, it is earning more than  
enough to pay the interest and re-  
tire the principal, and will eventual-  
ly give the government a water way  
for its navy, cost free.

The new canal will probably be  
built to accommodate ships of greater  
width and depth than the Panama,  
which has already been faced with  
the task of warping through one  
British warship that was only seven  
feet narrower than the full width of

**A Water Sprite**  
Annetta Brenneke, 19, weighing  
only 112, risked her life to save  
Frank Demeck, 175, from drown-  
ing in Lake Sheridan, Pa. She won  
a Carnegie medal for her bravery.

the Panama locks. Ships are being  
built larger each year and the day  
is not far off when a wider canal  
will become a necessity.

Government building plans to offset  
slackness in private construction  
will cost a billion dollars, according  
to a summary compiled recently. Of  
this huge sum more than \$300,000,  
000 is actually in hand and the  
money is being paid out to Ameri-  
can factories and workmen, lessening  
the tension considerably. The rest  
of the appropriation will be spent as  
soon as sites for various public build-  
ings can be acquired and plans pre-  
pared.

Many thousands of workmen will  
benefit by the program and another  
vast army of workers who will cater  
to the wants of the government em-  
ployees will be supported. State and  
city governments are also carrying  
on building programs that will en-  
gage almost as many men, while pri-  
vate projects are beginning to as-  
sume vast size.

In spite of the administration's  
evident desire to push these projects  
and have them under way a year ago,  
the details of obtaining sites, draw-  
ing plans, getting appropriations  
through Congress and other difficul-  
ties have prevented their actual ex-  
ecution before now. Once under  
way the program will gain momen-  
tum as the months go by and the  
country will profit in a material way.

**Fifteen Years  
Ago in The News**

Items taken from the 1916 files  
of The Foard County News, corre-  
sponding with the present time of the  
year.

R. W. Self came in the latter part  
of the week from Chicago, where he  
has been for medical treatment. He  
has been located in Wyoming for  
some time but recently bought an  
interest in the hardware business of  
his father and brother, J. H. and J.  
C. Self and will reside here perma-  
nently.

Hon. Marvin Jones of Amarillo,  
candidate for congress of this dis-  
trict, was here Monday and spoke on  
the street. He is a pleasing speaker  
and made a good impression with the  
people who heard him.

Decker Magee and George Hinds  
left Tuesday for Rails on a business  
trip.

A good number of Thalia farmers  
are getting cars. Those who bought  
last week were: Mr. Capps, J. F.  
Long, Mr. Kenny, all of whom bought  
Chevrolets.

**Waterworks Proposition Carries**  
The election held Tuesday to vote  
on the proposition for waterworks  
for the city of Crowell carried by a  
vote of 101 for to 15 against.

Mrs. R. L. Kincaid, Mrs. M. S.  
Henry, Mrs. C. E. Thacker and Mrs.  
Gordon Witherspoon and children  
attended the meeting of the Confed-  
erated Clubs at Seymour this week.

A crowd of about thirty from  
Crowell and community heard W. J.  
Bryan at Vernon last Saturday.

**INSIST  
on the INSIDE FACTS  
For Your Protection Make  
These Comparisons Before  
You Buy Your Tires...**

**UNDERNEATH** the surface is where you get the cold  
truth about tire values. It's the *inside of the tire*—  
the *method of construction* and the *quality and quantity*  
of *materials*—that determines its *Stamina, Perform-*  
*ance, Safety, VALUE.*

We have arranged to show you cross sections of  
Firestone and special brand mail order tires. You can  
come here and make your own comparisons, uninflu-  
enced by any sales propaganda.

We urge you to thoroughly check every vital  
point—*rubber volume, weight, width, thickness,*  
*and plies under the tread.* Then buy accordingly—**ON  
FACTS AND FACTS ALONE.** There can be no ques-  
ion or controversy when you get the **FACTS** yourself.

**COMPARE  
Construction and Quality**

4-50-21 TIRE	OUR TIRE	*A Special Brand Mail Order Tire
More Rubber Vol. . . .	172 cu. in.	162 cu. in.
More Weight . . . . .	16.99 lbs.	15.73 lbs.
More Width . . . . .	4.75 in.	4.74 in.
More Thickness . . . .	.627 in.	.578 in.
More Plies at Tread	6 plies	5 plies
Same Price . . . . .	\$5.69	\$5.69

**COMPARE PRICES**

AUTOMOBILE Manufacturers do not take chances with special brand tires.  
Why should you take the risk when you can save money by buying Firestone  
quality Oldfield type and in addition get our service.  
We list below the leading replacement sizes.

**Double Guarantee**—Every tire manufactured by Fire-  
stone bears the name "FIRESTONE" and bears Firestone's un-  
limited guarantee and ours. You are doubly protected.

\*A "Special Brand" Tire is made by a manufacturer for distrib-  
utors such as mail order houses, oil companies and others, un-  
der a name that does not identify the tire manufacturer to the  
public, usually because he builds his "first line" tires under  
his own name. Firestone puts his name on every tire he makes.

All we ask is this: Come in to our Service Stores and see  
for yourself sections cut from various tires.

**How One Woman  
LOST 47 LBS.**

**In 3 Months and  
Feels Years Younger**

Mrs. S. A. Solomon of New Bern,  
N. C. lost 47 lbs. in 3 months with  
Kruschen Salts. She reduced from  
217 to 170 lbs. She feels much  
stronger, years younger and pains in  
sides, back and abdomen that bother-  
ed her for years are all gone. She  
says she not only feels better but  
looks better as all her friends tell  
her.

"I shall never be without Kruschen  
Salts, will never cease taking my  
daily dose and more than glad to  
highly recommend it for the great  
good that is in it."  
A bottle of Kruschen Salts that  
lasts 4 weeks costs but 85 cents at  
all druggists the world over. Take  
one half teaspoon in a glass of hot  
water every morning before break-  
fast.

Attention to diet will help—cut  
out pastry and fatty meats—go  
light on potatoes, butter, cream and  
sugar—the Kruschen way is the safe  
way to lose fat. Try one bottle and  
if not joyfully satisfied—money  
back.

CROWELL, TEXAS

## CHEER UP AND SMILE

Starting June 1st,

change of program three times per week.

"Lightning," Will Rogers picture, June 1-2.

"Scandal Sheet," Geo. Bancroft, June 3-4.

"Tailor Made Man," William Haines, June 5-6.

"Strangers May Kiss," Norma Shearer, June 8-9.

"Doctors, Wives," Warner Baxter and Joan Bennett, June 10-11.

"Don't Bet on Women," Jean McDonald, Edmond Lowe, June 12-13.

"Part Time Wife," Leila Hyams and Edmond Lowe, June 15-16.

"Fighting Caravans," Gary Cooper and Lily Damita, June 17-18.

"Last Parade," with Jack Holt, a special, June 19-20.

"It's a Wise Child," Marion Davies, June 22-23.

"Finn and Hattie"—Bring the kids—Mitzel Green and Jackie Cooper, June 24-25.

"Man Trouble," all star cast, June 26-27.

And last but not least, the biggest picture ever made by any company or companies, a picture that tops them all, is coming the last Monday and Tuesday, also Wednesday in June, June 29-30 and July 1st, is "TRADER HORN," a special that will rock the whole town of Crowell, even the court house.

Don't forget the old home town show—it shows the best, and will do more for Crowell than any other show around it. Try and come out to see our shows just a little bit more. We will appreciate your coming, and want your business, friend or foe. We will try to please you at all times. Come early in order to get the best seats. All evening shows start promptly at 8, matinees at 2 in the afternoons.

Thanks folks, for all you've done in the past, and here's hoping I can return the favor. Yours for a better town and better shows.

RICH, the SAP  
DIONE 117

bers and three guests present. The next meeting will be June 2, with Mrs. Connell as leader.—Reporter.

## ELSIE SCHINDLER GRADUATES FROM ACADEMY OF MARY IMMACULATE AT WICHITA

Miss Elsie Schindler, daughter of Dr. and Mrs. H. Schindler of this city, received her diploma from the Academy of Mary Immaculate at the graduation exercises that were held Wednesday evening at the Woman's Forum in Wichita Falls.

There were four graduates and each had a special part in the program. Miss Schindler gave a vocal number as her part. Mary Evelyn Edwards, little daughter of Mr. and Mrs. H. K. Edwards of this city, acted as page for Miss Schindler at the exercises.

Those attending from here were Dr. and Mrs. Schindler, Mr. and Mrs. Edwards and children, H. K. Jr. and Mary Evelyn, Miss Elizabeth O'Connell, Miss Mary Frances Self, Mrs. J. H. Self and Mrs. J. C. Self.

Miss Schindler also received a teacher's certificate in business writing from A. N. Palmer of Chicago. She has attended the Wichita Falls academy for the past seven years.

## MRS. CREWS TO PRESENT STUDENTS IN RECITAL

The following program, starting promptly at 8:30 o'clock Tuesday evening, will be presented by the music students of Mrs. S. T. Crews at the high school auditorium:

"Happy Days Are Here Again," chromonica, Jack McAnear and Tom Ray Roberts.

"My Bonnie," harmonica, Frances Henry Johnson and Reed Sanders.

"Stand Up for Jesus," harmonica, Margaret Long and Joyce White.

a. La Madonna, Sweet, piano; b. Troops on Parade, Kientzen—Lois Evelyn Norris and Mrs. Crews.

a. Twilight, Guy, piano; b. Rev. of the Goblins—Dorothy Pauline McKown and Mrs. Crews.

Aloha, chromonica, Louise Eubanks and Mary Lou Fudge.

Oh! Suzanna, harmonica, Jimmie Williams.

Home, Sweet Home, harmonica, Joe Mark Magee.

Spring Time in the Rockies, harmonica, Billie Newton Klepper.

She'll Be Coming Round the Mountain, harmonica, Joe Wallace Beverly.

Madrelena, Wasch, piano duet—Geraldine Carter and Mrs. Crews.

Shower of Stars, Wasch, piano; Grande Valse Caprice, Engelmann—Mary Elizabeth Hughston and Mrs. Crews.

The Rosary, harmonica, Camille Graves.

The Rosary, cornet, Sam Crews Jr.

Listen to the Mocking Bird, harmonica—a. Reed Sanders; b. Joe Wallace Beverly; and Billie Newton Klepper. By class.

Miserere from H. Travatore, Verdi, chromonica—a. Fred Allen Beverly; b. Tom Ray Roberts, Sam Crews Jr., Mary Lou Fudge and Jack McAnear.

Goodnight Ladies, harmonica—a. Jimmie Williams, Ted Cronce, Joe Mark Magee, soprano; Billie Newton Klepper, Joe Wallace Beverly, alto; b. By the class.

PLAY TO BE PRESENTED AT AUDITORIUM FRIDAY

"The Clay's the Thing," a three-act play concerning college life, will be presented Friday evening at the high school auditorium by the Senior Epworth League of the Methodist Church. The play was to have been presented Monday, May 18, but was postponed.

DINNER FOR VISITORS

A dinner was given at 7 o'clock last Friday evening in the home of Mr. and Mrs. T. N. Bell, honoring G. C. Morris, Miss Adelle Summers and A. N. Vernon, visitors from Vernon. Others present were Mr. and Mrs. S. S. Bell, Mr. and Mrs. Cov Harris, and Mr. and Mrs. M. L. Hughston. Games were played following the buffet dinner.

All-Day Singing at Black School Sunday

The program for the all-day singing at Black Sunday has been completed and everyone is invited to bring their lunch and spend the day.

Thalia Faculty Members Make Plans for Summer

With the closing of school at Thalia last Friday, the following faculty members have either left on a trip or are now at their homes: Supt. W. C. Jones and wife have left for a fishing trip near Aransas Pass, on the Texas coast. C. L. Fincher and J. J. McClendon left Tuesday for a visit in various points in South Texas and points on the Texas coast. Mrs. J. C. Matthews will return the latter part of the week to her home in Denton. Miss Mattie Russell is now at her home in Crowell. Miss Tommie French will attend summer school at the San Marcos State Teachers College. Mrs. Bob Abston and Miss Jessie Taylor will remain for the present at their homes in Thalia. John Hugh Banister is planning a trip to Colorado and is this week conducting a revival at the Thalia Church of Christ.

GAMBLEVILLE CLUB

The club met May 7 with Mrs. Will Gamble. Nineteen members and 3 visitors were present.

Miss Hale gave a very interesting demonstration on cheese making.

Mrs. Herman Greening was hostess to the club at the home of Mrs. Perry Gamble on May 14. This meeting closed the contest on rugs and mats, with Mrs. Greening's side winning. We also discussed plans for the dress contest to be held on May 22.

We adjourned to meet with Mrs. Jonas on June 4.—Reporter.

## Teachers Return to Homes and Colleges

With the ending of the 1930-31 term for the Crowell schools last Friday, a number of the teachers have returned to their homes elsewhere and some are planning to attend college during the summer.

Mr. and Mrs. Grady Graves will visit relatives in Stephenville for a short time before they go to College Station, where Mr. Graves will enroll for the summer course at A. and M. College.

Miss Louise Ball will visit in her home at Mertzon before entering the University of Texas. Miss Thelma White returned to her home in Seymour; Miss Barbara Coyer to Goldthwaite, and Miss Ruth Patterson is now visiting in Electric. She is Miss Martha Schiagal of this city will attend summer school in Texas Tech at Lubbock.

I. T. Graves and family will leave soon for Norman, Oklahoma, where Mr. Graves will study in the University of Oklahoma.

Miss Florence Black will attend Sul Ross State Teachers College at Alpine. Miss Lucille Ellis will become Mrs. Verne Walden on Saturday, June 6. Henry Black is now conducting the local summer school.

Mr. and Mrs. Elmo Motsinger and small daughter, Bernice Mary, of Kirk, Colo., are here visiting Mr. Motsinger's uncle, E. Swaim, and family. Mr. and Mrs. Motsinger are former residents of Crowell, leaving here eight years ago for Colorado. Mr. Motsinger was employed in the Swaim Garage while living here.

R. H. Nichols

(Continued from Page 1)

life.

"Many persons who have received the highest college degrees are not educated because they have not learned the art of complete living."

In giving a number of requirements for a full life, Mr. Nichols first mentioned that everyone had certain unavoidable relationships and that as creatures of a creator and that every person was obligated to his creator.

The obligation to the family was given as the next duty. "Anything leading to the destruction of the home is an enemy of civilization and to the home we owe respect and devotion if we are to live life to the full," Mr. Nichols said.

In referring to the obligation as a citizen the speaker stated that unlike the days of old, the people are now the state and that an intelligent and enlightened citizenship which respected others rights was the surest safeguard for the people's interests. "Those neglecting their duties as citizens are digging at the very foundation of what we call worthwhile," he said.

"We cannot live to ourselves," Mr. Nichols said in commenting on a person's social obligations. "We must have the confidence and esteem of our neighbors if we are to live a full life. We owe more to our community than mere taxes and like obligations. To live properly we should enrich the life of our community."

The fellowship of friends was given by the speaker as the greatest thing in life and that a person must have such fellowship for a full life.

In concluding he stated that all obligations must be met for a full life and that if school had prepared the graduates for this life that they were in a fair way to become educated, according to Herbert Spencer's definition. Mr. Nichols stated that school should prepare one to educate himself. "School has been worthwhile if it has prepared you for service and a full life," he said.

Large Crowd

The auditorium of the school was packed for the program, which brought to a nonfinal end the Crowell school term for 1930-31. Attractive decorations, carrying out the class colors of pink and white, were distributed about the auditorium.

Mrs. Sidney Miller played the professional, to which the twenty-six graduates marched to their places on the stage. They were preceded by two pages, Tom Alton Andrews and Clark Rennels, with the valedictorian, Maggie Meason, and salutatorian, Mary Frances Self, next in order.

Rev. C. V. Allen pronounced the invocation. Misses Josephine Griffith, Peggy Thomson and Merle Smith formed a trio in singing "Where the Lillies Grow," accompanied at the piano by Mrs. Woodie W. Smith.

The address of Mr. Nichols, who was introduced by Supt. Graves, was next on the program and was followed by a vocal solo by Miss Leila Bon Allee entitled "Song of Spring."

She was accompanied at the piano by Miss Evelyn Sloan.

"Make use of the power that lies within you," was a statement made by I. T. Graves, superintendent, to the graduates before presenting their diplomas. He explained that the diplomas stood for a great many sacrifices on the part of the parents and many others. Scholarships for the valedictorian, Miss Maggie Meason, to West Texas Teachers College at Canyon, the salutatorian, Mary Frances Self, to Texas Tech at Lubbock; and for Vernon Hall, honor student for the boys, to North Texas State Teachers College at Denton.

Mr. Graves presented diplomas to the following: Ralph Burrow, Elbert Griffith, Venson Hall, Dale Jones, Ragsdale Lanier, Guy Todd, Charles Hunt, Lella Ben Allee, Frances Alton, Addie Loraine Baker, Florence Bell, Anabel Carter, Melba Connell, Kathryn Crowell, Mary Gafford, Idaho Pearl Harris, Della Housner, Alyne Lanier, Maggie Meason, Maye Randolph, Mary Frances Self, Johnnie Mae Short, Evelyn Sloan, Ruth Smith and Ruby Smith. Due to a recent accident, Mildred Callaway was unable to be present to receive her diploma. There were seven boys and nineteen girls in the graduating class.

The program came to a close with Rev. Woodie W. Smith giving the benediction.

## Plans Completed for Street Dress Contest

All plans for the street contest that is to be held in Crowell, Friday, May 29, have been completed and a successful event is expected. It is likely that fifty to seventy-five members of the home demonstration and 4-H clubs will take part in the contest.

The program for the day is to begin at 10:30 o'clock in the morning. A covered dish luncheon is to be served at noon and the judging of the dresses will take place afterwards.

## District Sanitarian Is Visitor Here This Week

Willis E. Collins, district sanitarian for the State Health Department, arrived in Crowell Monday and will remain here for the rest of the week. During the past few days he has accompanied city officials in inspecting the local water supply, sewerage system, ice plant, tourist camps, and dairies.

He has also visited in a number of rural communities for the purpose of inspecting toilets and water supplies.

Mr. Collins will return to Foard County again in about a month to assist in the health program for Foard County.

## Crowell Golfers Defeat Team from Seymour

A team of Crowell golfers won over a Seymour team at the Springlake Country Club here Sunday by a small majority of points. Six men represented each team.

In the first foursome T. S. Haney and Gordon Bell of Crowell were defeated by Alexander and Craddock of Seymour. R. D. Oswald and Alton Bell avenged the loss in the next foursome by defeating Jackson and Judge Wheat. In the final foursome M. L. Hughston and John McAnear beat out O. C. Harrison and Britton.

COUNTY EQUALIZATION BOARD TO MEET FRIDAY

The Foard County commissioners court is to meet Friday, May 29, in its capacity as equalization board for the county for the purpose of hearing reasons advanced by anyone as to why their property values should not have been increased.

Claude Callaway, county judge, states that property values were raised in but a few cases when the board met on May 13, 14 and 15 to go over all the county assessments.

He stated that the only cases where values were raised were where they had been reduced last year and were put back to where they formerly were.

TO CONSTRUCT NEW WALKS FOR JAIL AND COURT HOUSE

A concrete sidewalk from the east steps of the court house to the street on the east side of the square, and walks on the south and east sides of the new jail are to be completed within a short time. The contract for this work was awarded to Lee Otis Roberts of Thalia, who submitted the lowest of three bids to the commissioners court while in special session Saturday.

The walk from the court house

steps will be six feet in width, matching the walks on the other sides of the court house. The walks on the east and south sides of the jail will be five feet in width.

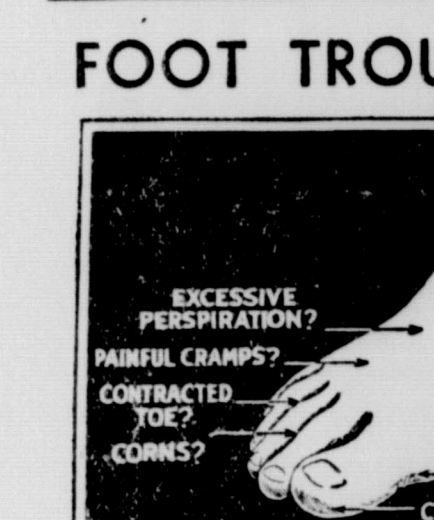

Work on the jail walks started Thursday.

## On Icy Mountains

Augustine Courtauld, British aviator, whose plane crashed on Greenland's ice cap and he had to walk back.

## FOOT TROUBLE ENDED

EXCESSIVE PERSPIRATION? PAINFUL CRAMPS? CONTRACTED TOE? CORNS? WEAK ANKLE? SORE TENDONS? WEAK ARCH? CALLOUSES? BUNIONS? CROOKED OR OVERLAPPING TOE

You Can Have Relief at Once!

You can end the torture of aching, burning feet, Corns, Bunions, Callouses, weakened arches and other foot troubles. Contact Foot Comfort Headquarters for

SPECIAL DEMONSTRATION OF FOOT COMFORT METHODS

SATURDAY, MAY 30TH

At this time, a representative from the personal staff of Dr. Wm. M. S. noted Foot Authority, will cooperate with our regular Foot Comfort staff in demonstrating the latest and best method of relieving foot troubles. A thorough analysis of your footed feet will be made by means of a Pedograph, and you will be shown exactly how your feet can be relieved to lasting ease and comfort. This valuable service is free, and you are under no obligation to buy.

TO PHYSICIANS: You are invited to refer or bring your foot troubled patients to our Signatures Demonstration. The latest methods developed by Wm. M. Schull, M.D., will be fully explained.

R. B. EDWARDS CO.

WE HAVE
