LOCAL SCHOOLS OPEN TERMS MONDAY, SEPT. 7

Crowell high school and grammar school will open Monday, September 7, according to a statement by I. T. Graves, superintendent. Following a meeting of the board of trustees of the Crowell Independent District Tuesday night, Graves and his family returned from Norman, where they spent the past eight weeks. Mrs. Graves attended the session of the University of Oklahoma school board and Mr. Graves is unanimous in the opinion that the regular school term will be carried on as usual, however, it was that the sources of revenue operation of the school has materially reduced and that expenditures are also being reduced and will continue to be reduced as long as the amount of information on the amount of revenue is secured.

Ferrin, Former Board Resident, Died on July 28 in Iowa

H. M. Ferrin, 75, resident of Foard County several years, died on July 28 at her old home in Marcus, Iowa. Her husband preceded her in death on March 12, 1930. Ferrin was born at Mt. Carroll, March 16, 1856. She was married to H. M. Ferrin on Nov. 23, 1873. To this union 4 children were born: Reuel V. of Marcus, Winifred A. Cantine, former-Cherokee, Iowa; Jos. F. of Iowa; and Amos G. of Sioux Falls, S. D.

Irrigation Meet Held at Rayland Wednesday Night

About twenty-five farmers of the community met at the Rayland Baptist Church Wednesday evening, at which time three officials of the West Texas Utilities Company discussed irrigation possibilities in the community, as applied to truck farming. (Continued on Last Page)

Needs New Shoes

Jacob Miller, of Pleasant Hill, is shown wearing a pair of boots he purchased seventy-one years ago. The boots still have the original soles and heels.

Thalia Baptist Church Opens Revival Meeting Sun. Morning, Aug. 16

The Baptist Church of Thalia will begin a revival meeting at the Thalia tabernacle on Sunday, August 16, with the pastor of the church, Rev. W. A. Reed, doing the preaching. Jurl King of Albany, Texas, will lead the singing.

C. S. CLARK IMPROVED

C. S. Clark, who has been quite ill for the past several weeks at the home of his daughter, Mrs. W. R. Womack, is slightly improved. The following relatives have recently visited him in the Womack home: Mrs. Bill Moore, a niece of Brownwood, Will and Earl G. Mon, nephews, also of Brownwood; Mrs. Z. C. Wagley, a daughter of Moran, all of whom have returned to their homes. A son, S. A. Clark, of Menard is still here.

PLAN TO ENTER T. C. U.

Ragsdale Lanier and Guy Todd returned from Fort Worth Wednesday after arranging plans to enter Texas Christian University this year.

For the past four years Todd and Lanier have been star members of the Crowell High School football squad and they will try out for the freshman football team at T. C. U. this fall. They conferred with Coach Schmidt of T. C. U. while in Fort Worth.

School Faculty For Crowell Is Same This Year

With the opening of the Crowell schools here Monday, September 7, the faculty will be the same as it was last year.

The high school teachers are: Supt. I. T. Graves, Miss Louise Bell, Miss Winnie Self, Miss Ruth Patterson, Henry Black, Walker Todd and Grady Graves. The grammar school teachers are: Miss Barbara Cryer, principal of the intermediate department; Miss Lottie Woods, principal of the primary department; Miss Florence Black, Mrs. Verne Walden, formerly Miss Lucille Ellis, Miss Martha Schlagel, Mrs. Esca Brown, Mrs. Jimmy Self, Miss Frances Hill, Mrs. Grady Graves, Mrs. Ernest King, Miss Thelma White and Teddy Burrow.

A number of the Crowell teachers have attended the sessions of various universities and colleges this summer. Supt. Graves attended the University of Oklahoma. Mrs. Graves who is the expression teacher for the local schools, also took special work in that institution.

Miss Ruth Patterson is now completing twelve weeks work in Texas Tech at Lubbock. Miss Martha Schlagel attended the first term of the summer school at Tech. Miss Louise Ball spent one term in the University of Texas and is now visiting in Illinois. Teddy Burrow completed a term in Abilene Christian College. Walker Todd will soon complete a term at the West Texas State Teachers College in Canyon.

Miss Florence Black is completing her second term of work this summer in the Sul Ross State Teachers College at Alpine. Grady Graves, athletic coach and teacher, recently completed a term at Texas A. & M. and is now attending a football and basketball coaching school at Texas Tech. Miss Winnie Self recently attended a meeting of the International Educational Association at Denver.

Officials of Texas Cotton Co-op. Ass'n. Visited Here Thurs.

F. A. Caperton of Dallas, district field representative of the Texas Cotton Co-operative Association, and Glenn Rash of Dallas, who will be the manager of the branch office of association at Vernon this year, were business visitors in Crowell Thursday.

Mr. Rash has been connected with the cotton business for many years and was formerly member of the cotton firm of Rash, Brin & Company, of Dallas. This is his second year with the Texas Cotton Co-operative Association, having joined his movement at its start.

Mr. Caperton and Mr. Rash were here to arrange a series of meetings over this district. Definite dates for these meetings are to be announced later.

PARTNERSHIP DISSOLVED

The partnership of J. C. Self and Arthur McMillan in the Self Truck and Tractor Co. was dissolved Tuesday, with Mr. Self purchasing Mr. McMillan's interest in the firm. Mr. McMillan will likely leave soon for a government hospital as a result of illness that he contracted while serving with the U. S. Army during the World War.

ALL OTHER WORKERS IN CAMPAIGN BATTLING FURIOUSLY THIS WEEK; FRIENDS SHOULD SUBSCRIBE NOW

Neck and Neck Race For Big Prize As Workers Come Thundering Down Home-Stretch; Any of Them Can Win Car

With honors thus far about evenly divided, leading "Weekly Payroll" club members are preparing with feverish haste and intensity to make their stand for victory before 10:00 p. m., Saturday night, August 15—the close of the "Second Period," and incidentally the last of the subscriptions which will receive EXTRA CREDITS. After Saturday night, no extra credits will be given for new subscriptions nor on extensions.

As may be seen from the standing, ANY ONE of the leading workers are in a position at this time to land the deciding credits and ride away in the beautiful Ford Sedan, worth \$727.00.

Face Is Growing Hot
Anyone who thinks they have a place cinched in this race are certainly fooling themselves. Not only do they have to WORK to gain a place, but must WORK HARD to hold what they have.

Any doubt as to the closeness of this race has been removed. Also it has been proven that there are a few real, honest-to-goodness "go-getters" in Crowell and vicinity—people who are not afraid to work for what they get and have backbone to prove they are not of the quitter stock.

Biggest Credit Offer Closes
The present big credit offer ends Saturday night at 10:00 p. m. and the campaign will be brought to a close one short week from then. All reports the last week will be deposited in a SEALED BALLOT BOX so that not even the campaign manager will know what the various workers have turned in.

Drilling Proceeding at 1,700 Feet on Tex. Test

Drilling on the Texas Company oil test, about 18 miles west of Crowell is now proceeding at a depth of around 1,700 feet. The scarcity of water has slowed down drilling to some extent and lately night operations have been halted, according to John Bock, drilling contractor.

County Clerk Issues 3 Marriage Licenses

Three marriage licenses have been issued from the office of the county clerk, Grady Magee, since August 1. On August 6 a license was issued to D. S. Powers and Miss Bertha Priest of Margaret, who were married on August 6.

On August 7 a license was issued to Homer Melton and Miss Kathleen Sams of Benjamin, who were married by Rev. W. Perry Jennings, pastor of the Lubbock Christian Church, on August 8.

A Mexican couple, Juquin Rodriguez and Miss Elbira Ribera, of Crowell were granted a license on August 13 and were married the same day by J. W. Klepper, justice of the peace.

Harry Cobb of Rayland left Monday for Flagstaff, Arizona, where they will visit relatives. While there they will see Miss Jewel Teague, daughter of Mrs. Kamstra, receive her A. B. degree from the teachers college at Flagstaff. Henry Teague, son of Mrs. Kamstra, left Crowell several months ago to live in Flagstaff.

Free Sound Moving Pictures at Self Motor, Mon.-Tues.

Free sound moving pictures of a trip through the Rouge plant of the Ford Motor Company will be exhibited in Crowell as a part of a spectacular Ford showing to be held Monday and Tuesday, August 17 and 18, in the show room of Self Motor Co.

The motion picture, according to George Self, local dealer, will reveal in interesting fashion how the Ford Motor Company has made volume production of quality automobiles possible. While the unseen guide explains each step, the picture will show how the Ford Motor Co. mines its own coal and iron ore, how it conveys the material to its plants, how many by-products are developed in the process of manufacturing the car, and how machinery has made possible precision so great that even a watchmaker would consider it fine.

In addition to the motion picture of the trip through the Rouge plant, another picture showing the use of Johansson gages will be secured. Another feature will be the exhibit of the "Million Dollar Model A Chassis." A cut-away motor is mounted in a regular Model "A" chassis frame, showing very clearly all rotating parts of the motor. The transmission and clutch are also cut away, as is the rear axle and assembly and wheels.

On Monday the picture show will run continuously from 11 a. m. to 10 p. m. and on Tuesday it will run from 10 a. m. to 10 p. m.

There will also be other features.

GOOD FOOTBALL PROSPECTS FOR CROWELL HIGH

J. M. Crowell, co-captain of the Crowell High School football team for this year, has issued an earnest appeal to all candidates for the Wildcat football squad to seriously take up the matter of preparing themselves physically for the coming football season. He urges them to watch their diet carefully and in general to follow the same rules as to sleeping and smoking that are required during the actual season.

Coach Grady Graves is at present enrolled in the football and basketball coaching school that is being conducted at Texas Tech, Lubbock. No date for the opening of football practice has yet been announced, however, it is presumed that regular workouts will begin about a week before school starts. Bill Middleton, the other co-captain is away from Crowell at present but will be back soon.

Letter men who will likely be back for the team this year are: Middleton and Crowell, captains, Roy Mullins, Regie Womack, Crews Cooper, John Todd, George Fox, Mitchell Allee, Dan Hines Clark, Gerald Knox and Lewis Gibson.

With these eleven letter men along with prospects for other material, Crowell should have a good football team this year and one that should give any team in the district a real contest.

W. H. Dunagan Jr., who moved to Crowell with his parents last spring, is an excellent prospect for the team. He lettered two years on the Sherman High School team. His first year was played at tackle and the second year at halfback.

Doyle Carter, who formerly played end and halfback with the high school at Cordell, Okla., may attend Crowell High School this year. His parents recently moved here and his father is foreman at the rock quarry west of Crowell, from which material is being secured for the highway work. It is sincerely hoped by football fans that these two boys will be in the line-up this year for a big gap is left in the backfield as the result of the loss of Guy Todd and Ragsdale Lanier, backfield mainstays for the past four years.

Hard Schedule
The Wildcats face the hardest schedule of their history during the coming season. Crowell will compete in District 3, Class B of the Interscholastic League this year. For the past two years Crowell has not been in league competition in football.

The schedule for this district was arranged at Olney last May. It was not decided at this meeting as to where the games would be played. The district race is to open on Sept. 28, however, Crowell was the only team to draw a bye and will open the season on Oct. 2 with Seymour. Unofficial games will be played with other teams before that date.

Seymour	October 2
Archer City	October 9
Chillicothe	October 16
Henrietta	October 23
Burkburnett	October 30
Olney	November 6
Iowa Park	November 11
Margaret	November 20

Are You...

of the type that will not work hard?

IS YOUR WISHBONE WHERE YOUR BACKBONE SHOULD BE?

CANDIDATES, you will surely have to work from now on, as there are but 8 working days left.

"Supposin' fish don't bite at first—
What are you going to do?
Throw down your pole, chuck out your bait,
And say your fishin's through?
You bet you ain't—you're goin' to fish
'N fish 'n fish, 'n wait,
Until you've ketch'd a basketful,
'N used up all your bait.
Suppose success don't come at first—
What are you going to do,
Throw up the sponge and kick yourself,
'N growl and fret and stew?
You bet you ain't—you're going to fish,
You'll bait and bait again,
Until success will bite your hook,
For grit is sure to win."

The above list is a relative standing of the various workers and is comparative for the week's work, but does not necessarily mean all they have to their credit, for each member may hold credits in reserve.

TRUSCOTT

(By Special Correspondent)

Mrs. Charlie Browder and little son of El Paso are here visiting relative and friends.

We are very sorry the item of the closing of the revival was overlooked last week.

Superintendent C. H. Stewart and wife were here last Saturday to rent a house and are making arrangements to move here.

Mr. and Mrs. Carl Haynie spent Sunday visiting relatives here. Miss Matalin Craig and Miss Westbrook came with them. Miss Craig has been visiting in Amarillo for some time and Miss Westbrook visited her parents here.

Mr. and Mrs. George Solomon and Mrs. Termon Abbott visited Mr. and Mrs. J. A. Abbott in San Angelo last week-end. Mrs. S. D. Moore visited relatives there and at Murchison.

J. W. Chesser of Grand Junction, Colo., was here last week visiting and he is spending a few days this week with his niece, Mrs. W. W. Clark, at Mineral Wells.

Mrs. G. E. Clark of Lubbock is visiting her daughter-in-law, Mrs. W. W. Clark, of this city who is in Mineral Wells for her health.

A fine musical program was given at the school building last Saturday night. A good crowd was there and enjoyed the program.

The young people of our community have been enjoying several "hayless" rides of late.

Mr. and Mrs. A. A. Clark and Mrs. E. P. Storm and Imo Jean left Monday to visit in Austin.

Truscott surely is on a boom. We hear so much complaint of there being no houses for rent.

Jim Moody was in Crowell last Saturday on business. We hear he did some boosting for the Truscott contestant. Let's put it over folks, we want our community to feel at home with the Foard County News.

Mrs. Marts of Foard City visited friends here this week.

Mr. and Mrs. Hutton will visit Mrs. Hutton's parents this week. Mr. Hutton will return and Mrs. Hutton expects to go on a vacation with her people.

Mr. and Mrs. C. E. Johnson and children of Clovis, N. M., are visiting S. E. Mills and family.

John Mills of Foard City visited Steve Mills and family last Monday and Tuesday.

Rev. R. O. Browder has returned from Tell where he held a meeting. He reports a very pleasant stay out there and says they had a fine meeting.

Johnie Browder returned Monday from a two weeks visit with his grandparents and other relatives at Electra.

Mr. and Mrs. Lewis Jones of Memphis have just reported a new son in their home.

Mr. and Mrs. Cleve Mozley left here last Saturday to make their home in Laws, Calif.

The Christian meeting will begin August 20th. Bro. Caudal of Benjamin will do the preaching.

Miss Margaret Browder is at home from school at Baylor.

The missionary society met in a social meeting in the C. T. Browder home. Everyone reports a wonderful afternoon.

TEXON TALES

Nearly everything we do is a matter of habit. The first thing we learn to do is to eat and the next thing to talk and the first thing you know both are well established habits. But habits can be good just as well as bad. A man improves himself by just improving his habits from day to day and a slight improvement each day will make a new man of you in a year's time. The worst habit a man can have is the habit of cultivating bad habits.

A peddler of glasses worked with a fellow here last week for hours trying to get him to call off letters on the chart and finally carried the chart and handed it to the fellow and says, hey, can you see a single one of the letters now? The fellow says, why sure I could see them all the time, but I don't know what they are, I ain't never learned my letters yet.

We feel sure we would be well satisfied if we had a hundred thousand dollars right now. Of course we have never done nothing to warrant we should have that much money, so why shouldn't we be well pleased with so much more than we deserve? But if we were to manage to accumulate a hundred grand why we would only have just what we were entitled to and would be still trying to get more. We often hear that the more a man has the more he wants. Well then birds who have a lot want a lot and the fact they have it proves it.

"My family is peeved at me, and I wanted company," explained William D. Webb as police arrested him in Washington for turning in a false alarm that brought six fire companies to his side.

AFTER 40
bowel trouble

Constipation may very easily become chronic after forty. And any continued constipation at that time of life may bring attacks of piles and a host of other unpleasant disorders.

Watch your bowels at any age. Guard them with particular care after forty. Whenever they need any help, remember a doctor should know what is best for them.

"Dr. Caldwell's Syrup Pepsin" is a doctor's prescription for the bowels. Tested by 47 years' practice, it has been found thoroughly effective in relieving constipation and its ills for men, women and children of all ages. It has proven perfectly safe even for babies. Made from fresh laxative herbs, pure pepsin and other harmless ingredients, it cannot gripe; will not sicken you or weaken you; can be used without harm as often as your breath is bad, or when your tongue is coated; whenever a headachy, bilious, gassy condition warns of constipation.

HONORARY DEGREES

Among the valuable public service that may be placed to the credit of Will Rogers, his recent debunking of honorary degrees is conspicuous and refreshing. When he was offered the honorary degree of L. H. D. (Doctor of Humanities) by Oklahoma City University, he gracefully declined the honor in a telegram which was both humorous and evidently sincere.

After explaining that the highest degree he would accept would be A. D. (Doctor of Applaudance) only if conferred by the kindergarten department of the Oolagah public school, Will added: "What are you trying to do? Make a joke out of college degrees? They are in had enough repute as it is, without trying to hand 'em around to comedians. The whole honorary degree thing is the 'hokey.' I saw some college giving Mellon one, and he is a billion bucks short. I got too much respect for people that work and earn 'em to see 'em handed around to every notorious character."

In recognition of Will's good judgment The Eagle of Dothan, Alabama, suggests that every university in the country should with one accord confer upon him the degree of C. S. D. (Doctor of Common Sense).

Collegiate degrees conferred as a result of conformance to curriculum requirements are generally futile enough. The honorary degree is not only futile, but positively amusing to anyone with a sense of humor approaching that of Will Rogers.

MEMENTO OF A WAR ACE

The heroism of Major Raoul Lufbery, noted French-American war ace, will be remembered by thousands who will from time to time look upon the airplane compass used in his last fatal flight, which was deposited in the Smithsonian Institute in Washington a few days ago.

Lufbery was officially credited with shooting down 17 German planes, and his comrades assert that he really brought down more than twice that number, before his death near Tours, France, May 9, 1918. On his last flight his plane caught fire, and Lufbery jumped without a parachute to his doom.

His compass was salvaged from the burned plane by a French soldier, and given to an army surgeon, who tried to find some member of Lufbery's family to whom he might present it, but without success. After passing through several hands the compass was finally given to the museum of the Smithsonian Institution.

Lufbery was born in France, but was reared in Wallingford, Conn., becoming an adventurer and soldier of fortune. He joined the famous Lafayette Escadrille, composed of Americans who entered the air service of France early in the war. When the United States became an active participant in the struggle he was transferred to the American air force.

His aerial exploits were among the most brilliant of the war, and it is well that he may be remembered through the exhibition of his flame-seared compass in the national capital.

BULL-I-TINS

BY CY KOLOGY

Well folks, old Cy has been waiting a long time to start a column of his own and he had hoped that it might result from public solicitation, but that has been sadly lacking so with this issue he is starting "Bull-I-Tins" on his own hook.

In beginning, Cy admits that he knows about as much about column writing as Uncle John Wesley knows about flying an airplane, and that he has had no more experience along this line than J. H. Self has had in voting the Democratic ticket.

He further realizes that comments will not be pleasing to everyone, but he does want his four or five readers to know that old Cy is right in there good and strong for the best interests of Foard County and the country in general and when he sees an opportunity to be of service through this column, he is going to take advantage of it.

Cy doesn't want to see anyone get hurt but for some time he has had the secret hope that some heavy truck would smash into the cars driven by a few of the "smart" tourists who disregard all customary and common-sense traffic regulations when they come to a small town. Of course tourist traffic through Crowell is appreciated and Cy is only referring to the type of tourist that is in the small minority.

There are plenty of local traffic law violators who need reprimanding, but in spite of their faults one seldom sees them pull any of the crazy stunts that result most every day on the part of some tourist, such as turning around in the middle of Main street or cutting across the street in spite of rather heavy traffic. Time and again injury to their vehicle and themselves is saved only on account of the quick action on the part of another motorist or two in applying the breaks or rapidly swerving out of their way.

Many of these tourist are from cities up to a hundred times the size of Crowell and possibly feeling a superiority complex they seem to think that it is their privilege to do as they please in the small towns through which they pass without giving a thought to the fact that serious accidents can happen and do happen as the result of traffic law violations in the little towns the same as they do in the big cities.

For the first time since he took office on January 1, Grady Magee, county clerk, reports the marriage business of his office seems to be coming to life. Cy doesn't mean that Grady is about to get married, and no doubt any Foard County flappers who may be reading this, are now breathing a sigh of relief.

Way of Life
by BRUCE BARTON

"I WAS WRONG"

Like many other business men, I subscribe to a confidential bulletin issued by a private news agency in Washington.

It contains interesting comment on affairs both here and abroad, gathered from official sources and from important visitors to the Capital. No one is quoted by name and hence the writers of the bulletin can exercise considerable freedom. Sometimes their information is useful.

In a recent number they answered certain questions as to how they get their news. I quote the following paragraph:

"For example, take the Washington predictions as to when business will recover. There have been two kinds. First, the formal, publishable statement of officials, which the newspapers have carried. Second, the unofficial, private, more sincere views which the Washington correspondents have known but were under obligations not print. We have sent you the letter. Our advice has been less wrong than most, but not particularly good at that, and this is one example of why you should not trust our letters 100%."

That made a great hit with me. If the writers had said: "We misled you a little about the time of the business recovery, but we were not responsible. The officials deceived us;" or, "While we were wrong on the business recovery, still our competitors were much worse"—if they had written any sort of alibi at all, every word of it would have lessened my confidence.

But when they come out frankly and say: "We were wrong, and you should never depend on us one hundred per cent," than I begin to think they must be pretty smart men.

I have never forgotten an experience with one of my first employers, a man who is now at the very top of his profession.

In those days I was getting \$40 a week, and he was earning \$40,000 a year. He lived in a fine apartment on Park Avenue, and I lived in one room in the Y. M. C. A.

One morning early I was called out of bed to answer the telephone. It was my employer. He said:

"After you left the office last night I hunted up some additional information on the subject we had been discussing. I tried to reach you during the evening, but you were out. I am calling you now to let you know that you were right, and I was wrong."

You can imagine what that did to me! I would have jumped off the roof for that boss, and I never meet him even now without an impulse to raise my hat.

Little fellows feel that they must be infallible in order to maintain the world's respect. It is a badge of bigness to be able to say frankly, "I was wrong."

For the big opportunity is still open.

I mean three licenses have been issued from the county clerk's office since August 1 and this is pretty good when the Texas marriage and the depression (where have we heard that word before?) are taken into consideration. In fact it is possibly the best record that has been made in Foard County for the same length of time since the special Texas marriage law went into effect.

Now that Grady is in a position to get married cheaper than most anyone else, he will just about wait until he has to buy a license.

Well I thought for a short while Monday morning that George Self was preparing to convert Self Motor Co. into possibly a combination livery stable and garage. The first indication that such a thing might happen was the erection on the curb of a typical hitching rack of by-gone days. However, I was soon informed that the rack was for the air and water hose.

The rack appeared to be a simple piece of work of putting three pieces of pipe together, but not so to its builders, Amos Lilly and George, who commented on the brain work that entered into its construction. "You see," said George, "the bar is not quite high enough to be used as an acting bar for small boys and it is just a little too high for the average person to conveniently use to sit upon while loafing."

After reading explanation after explanation and hearing the same day after day about the cause of the world's troubles, I have thoroughly made up my mind on one thing and that is that I positively shall have nothing to say as to what I think the cause or causes are. One person has one idea and the next one has still another and in the majority of cases one idea is just as bad as another, but all this bunk, either in printed form or oral statements, continues to go on and on.

The weather seems to cause a lot of different fevers, the most common of which is Spring fever. Late in the fall if a little snow falls we are quick to get the Christmas fever. The fishing fever, swimming fever and various others may be attributed to weather conditions. Hay fever isn't to be overlooked either.

And to the adherents of a certain sport another fever developed Monday morning as the result of the cool and brisk snap, which reminded me more of October than August. I am speaking of the football fever. Quite a number around here were included in the victims and after making the drag around the square I soon found that I was by no means the only person who was so suddenly affected.

"I believe we'll have a better team than we had last year," commented Hid Haney. Other expressions heard here and there: "Where do we play Chillicothe?" "When do we play Olney?" "Boy, I wish the season would hurry up and open." "That Crews Cooper ought to be a demon this year if he will get in there and really work." "Wonder if the boys are keeping in shape for the season? They sure ought to because they have the hardest schedule in the history of the school." "Sure glad that we're gonna have John and Recie back in the line." "Who do you suppose will be quarterback?"

Yes sir, this football talk is sure in the air and in just a few more weeks the season will actually be under way. Hurrah for the Wildcats!

Here's the Corn Binder You Want

The John Deere is the kind of binder you want in your corn fields. There's no work for you in operating it, and it's easy on the horses. It's the biggest improvement made in corn binder construction for many years.

JOHN DEERE CORN BINDER

The Binder with Power Carrier and Quick Turn Tongue

The John Deere is equipped with a power bundle carrier, which makes it possible to operate it in extremely tall corn. It is equipped with roller and bull bearings, 17 sets in all, which lighten the draft and decrease the wear.

It has three packer arms and four discharge arms on the regular attachment instead of two commonly used on other binders. This insures prompt discharge and complete separation of the bundles.

In every particular you will find the John Deere Binder built on a quality standard that means real satisfaction and profit to you.

Come in and let us show you other important features on this better binder

A PROHIBITION YEAR

The Prohibition Bureau of the Department of Justice issued the following figures illustrating its work in enforcing the dry law for the fiscal year ending June 30, 1931:

- Seized 1,833,000 gallons of illicit liquor.
- Seized 5,000,000 gallons of beer.
- Captured 21,375 distilleries.
- Destroyed 27,800 beer fermenters.
- Took possession of 8,260 automobiles.
- Made arrests in 70,000 dry law cases.
- Secured imposition of 35,650 fines.
- Collected in fines \$5,511,000.
- Had 29,470 violators sent to jail.

George (Big Chief) Musey, boss liquor smuggler and fugitive from justice with ten years in prison hanging over his head, Thursday was authoritatively reported to have effected a merger of downtown and beach rum running rings. Good Corn Crop on Farm of John S.

One of the best corn crops found in this section is on the farm of John S. Ray, in the West community. This crop is made with practically no seed. Mr. Ray attributes its success to a good underground water table, careful preparation of land, and cultivation.

Three are over one hundred of this corn and it is estimated it will produce from 20 to 25 bushels per acre, which is pure good when it is taken into consideration that there has been little rain in that section. The ears of the corn are on the window of Ferguson

C. P. Sandifer has placed an order for strictly up-to-date machinery which will replace the worn-out machinery at the light plant. Among the new equipment is one of the very latest engines, especially designed for pulling dynamos. This engine which will cost several thousand dollars will be installed just as soon as possible and then the light plant will be in position to give the people of Crowell a twenty-four hour service if the patrons of the light plant and the city see fit to patronize it to an extent that will justify the service.

Hamburger Wagon Burns

The hamburger wagon which took a stand on the street south of the Bank of Crowell some two weeks ago caught fire Saturday afternoon and was completely gutted. After an unsuccessful attempt to put out the fire by carrying water, some one rolled the flaming tank south of the court house and gave the whole thing a bath. This little conflagration not only reminds us that one of these days Crowell will have a real fire, and without waterworks it might be a good idea to put wheels under all buildings and whenever a fire breaks out just hitch on to the buildings and start for the tanks.

L. D. Campbell and J. C. Thompson attended the funeral of their friend, Sheriff Ellis, who was killed by a negro at Seymour last week.

Fat Girls! Here's A Tip For You

All over the world Kruschen Salts is appealing to girls and women who strive for an attractive, free from fat figure that cannot fail to win admiration.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoon of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the little daily dose that takes off the fat" and brings "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

Get an 85 bottle of Kruschen Salts at any drug (last 4 weeks)—you must be satisfied with results or money back.

Reduce the Acid

SICK stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are overstimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips Milk of Magnesia; one harmless, tasteless dose neutralizes many times its volume in acid. For 56 years the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Get prove this for your own sake. It may save a great many disagreeable hours.

Get the genuine Phillips Milk of Magnesia, the kind physicians have prescribed for 50 years.

THE GREATEST VALUE EVER BUILT INTO A FORD CAR

\$490

(F. O. B. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost.)

WHEN you buy a Ford car today, you buy what is unquestionably the greatest value in the history of the Ford Motor Company. Never before has so much beauty, comfort, safety and performance been offered at such a low price.

The low price of the Ford is something to think about because it means an immediate saving of many dollars — always an important consideration. But far more significant than price alone is what you get for that price. When high quality is combined with low price, you may justly take pride in having found a most satisfactory purchase.

See the Ford — ride in it — learn something about the value that is built into every part. The more you know about it, the more certain you will be that it is the car for you. It is literally true that when you "get the facts you will get a Ford."

Domestic Efficiency

THANKS largely to the widespread distribution of inexpensive electric power, the days of household drudgery rapidly are disappearing. Modern time, labor and money-saving Electrical Servants have taken the place of old-fashioned health-destroying methods, and the every-day life of today's Home-manager has been improved immeasurably.

Electric Ranges, Refrigerators, Washers, Vacuum Sweepers—literally hundreds of efficient Electrical Servants—will release you from drudgerous household tasks. You will find more time to devote to your family... to keep abreast of world affairs... to aid worth-while social movements.

If you are one of the few who have not realized the advantages of these modern and efficient household aids, investigate today. You will find these invaluable servants low in first cost—and they'll work for but a few pennies a day!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

Irrigation Meet—

(Continued from Page 1)

The utilities company is completing a high line from Vernon to Lockett, Rayland and Thalia and it is possible for the farmers along the line to use the power from it for irrigation purposes.

The success of irrigation in the Rayland section has already been successfully demonstrated, especially on the S. W. McLarty farm, where a wide variety of truck products has been raised.

The company officials explained that equipment, which includes a well, pump and electric motor, sufficient to irrigate approximately ten acres, can be completely installed for around five hundred dollars. They also explained that the West Texas Utilities Company was considering marketing facilities for the products raised, if the matter was gone into on a sufficient scale.

The main concern of the farmers at the meeting was the possibility of being able to market their products at a profit if they installed such plants. It is already a proven fact that most any kind of truck and vegetable crop can be raised successfully around Rayland with the aid of irrigation.

It was also explained that less expensive plants for irrigating smaller areas could be installed, which were worth more than their cost for home and local use.

No definite plans were made by any of the farmers for plants, however, considerable interest was shown and some of the farmers may decide to install plants later.

The company officials present were: E. L. McCarter and Otis Cloniger of Vernon, and E. C. Sellers of Abilene. Fred Rennels of Crowell and R. E. L. Pattillo of Vernon, county agents of Foard and Willbarger counties were also present to hear the discussions.

FILLS PULPIT AT PADUCAH
