Officers for the new Arch Chapter Council were installed last Thursday at the lodge hall. The new officers are: Bill Klepper, high priest; R. Moore, captain; John W. Wright, principal; D. R. Magee, royal arch; J. Matthews, master; S. H. Gentry, master 2nd; E. Johnson, master 1st; L. Callaway, guard; C. T. Kincaid, treasurer; T. B. Klepper, secretary.

## W. Auxiliary Moves to Motion Picture for Hospital

Preparation of a new movie "short" depicting the rehabilitation of the Veterans of Foreign Wars, Department of War, is being made available to groups and individuals who are interested in the facilities available through the comprehensive rehabilitation center. A number of years VFWs have included the film among their charitable projects. Participating in a recent showing of cash was Auxiliary Crowell.

## TOWN BIBLE CLASS

Grady Adeock delivered the message at the Sunday morning service of the Down Town Bible Class.

## SCRIPTIONS TO NEWS

Subscriptions to The Foard County News received since July 1st are as follows: Edson, Garland; Earl Bledsoe, Austin; Robert Graves, Dallas; James A. Joy, Vernon; J. H. Denton; Mrs. Gayle, New Roads, La.; Mrs. Earl Bollbruch, Odessa.

## TO VERNON

Mr. and Mrs. James A. Joy and children moved to Vernon today where Mr. Joy will be assigned as a patrolman on the force.

## Local 4-H Youths Participating in Farm Safety Week

"Safety Makes Sense" is the theme of National Farm Safety Week, July 21-27. Foard County 4-H Club members started their safety campaign to carry out this theme on Monday by setting up three exhibits in Mrs. B. W. Self's building on the west side of the square. 4-H Club members also visited local merchants and asked them to help observe this week by displaying posters and clearing up safety hazards.

R. H. McCoy and Arlos Moore distributed safety reminders to some 50 4-H Club members. Each club member was asked to place these safety reminders, "Let's Correct This Hazard," on or near safety hazards around their farm and home.

## Attend State F. F. A. Convention in Fort Worth Last Week

Marvin Myers, FFA instructor in Crowell High School, and Larry Hord, delegate from the Crowell FFA Chapter, attended the 29th annual state Future Farmers of America convention in Fort Worth Wednesday, Thursday and Friday of last week.

The nearly 4,000 Future Farmers elevated Linda Keeling of Kilgore to the throne of Texas FFA Sweetheart Friday. Billy Penn of Hudson was elected state president earlier in the day.

## Where Advertising Is Welcomed

An impressive evaluation of the merits of newspaper advertising as compared with television advertising has been provided by Robert J. McBride, director of research for the Detroit Free Press. He says: "People watch television because of the entertainment—commercials, actually are intruders. A survey by Northwestern University shows that 61 per cent of housewives would prefer TV without commercials."

## L. I. Saunders, Former Crowell Resident, Succumbs

Funeral services for L. I. Saunders, 75, were held in the First Methodist Church in Childress at 10 a. m. Tuesday with Rev. Robb Davidson, pastor, officiating. Burial was in the Childress Cemetery. Mr. Saunders, former building contractor and resident of Crowell for many years, died Saturday in Dallas, where he was residing with a daughter, Mrs. William Hallwig. He was one of the best carpenters and building contractors in West Texas and after leaving Crowell more than fifteen years ago to move to Childress, he continued to follow his chosen profession until his health failed about two years ago. His wife passed away after the family moved to Childress.

## FAMILY REUNION

The family of the late Dr. and Mrs. W. H. Adams of Crowell enjoyed a reunion in the home of Mr. and Mrs. Ed Adams of Crowell Saturday, July 20. Those attending were: Mr. and Mrs. Harry Adams of Waco, Mr. and Mrs. Fred Kibat and son, Freddy, of Dallas, Mrs. Frank Webb and daughter, Gail, of Denver, Colo., Mr. and Mrs. Kenneth Henderson and sons, Charles Ray and Larry Don, of Chillicothe, Mo., Alton Brazil and children, Mary Ellen and Bill, of Quanah, Mr. and Mrs. Leighton Adams and children, Barbara, Mike and Terri Kay, of Walsh, Colo., Mrs. W. R. Henderson and daughters, Suzanne and June, of Vernon, Mr. and Mrs. Ed Adams, Mrs. Wallace Hazelwood and Mrs. Deck Campbell of Crowell, and Mr. and Mrs. John Fish and Mrs. W. O. Fish of Quanah.

## CHURCH SCHOOL ATTENDANCE

Bethel Church 50  
Assembly of God 36  
First Baptist 128  
Down Town Bible Class 25  
First Christian 64  
Crowell Methodist 131

**BANISHED** — Georgi Malenkov, a top-ranking victim of the recent Kremlin purge, was banished from Moscow and assigned to a remote plant managership 2,000 miles away in Soviet East Asia. The announcement of the transfer was made in an English-language broadcast over Radio Moscow.

## 4-H Girls to Hold Dress Revue Next Monday at 3 P. M.

Foard County 4-H girls will hold their annual Dress Revue next Monday, July 29, at 3:00 p. m. in the Home Economics building of the High School, Mrs. Mary D. Brown, County Home Demonstration Agent, announced Tuesday. Judges for the event will be Miss Joy Riley, C. H. D. A. of Vernon; Mrs. D. R. Magee and Mrs. Glen Jones, Janet Rasberry will be the moderator for the show.

The 4-H girls entering will need to be there at 9:00 a. m. for judging, according to Mrs. Brown. Prizes and ribbons for the Dress Revue will be provided by the Crowell Booster Club. Punch and cookies will be served at the Dress Revue and the public is invited to attend.

## Soil Conservation News of District

Lower Pease River Soil Conservation District Board: W. C. Howard, Grady Halbert, O. T. Holmes, O. H. Brandon, H. L. Ayers.

Raising grass seed for a cash crop pays off, says Orville Brandon and Earl Embry. These two cooperators of the Lower Pease River Soil Conservation District have just finished harvesting the seed from their Blue Panic grass.

Orville Brandon, who lives 6 miles northwest of Quanah, harvested 2,497 pounds of cleaned Blue Panic seed from 20 acres of grass. This is a yield of 125 pounds per acre. Brandon plans to get another seed harvest from this field of grass this year.

Earl Embry lives 2 1/2 miles north of Medicine Mounds. He harvested 1,600 pounds of cleaned Blue Panic seed from 14 acres of grass. This is a yield of 114 pounds of grass seed per acre from his dryland Blue Panic. Embry also hopes to get another seed crop from this grass this year.

Brandon states that this seed will probably bring from 75 cents to \$1.00 per pound next spring.

## Crowds Increasing at Methodist Revival

Great interest is being manifested in the revival meeting now in progress at the Methodist Church, and each night the attendance shows a decided increase. Attendance at the early morning worship service, 6:30 a. m., at which time breakfast is served, is also growing. Fifty-nine were present Wednesday morning and the singing and the inspiring messages delivered by the evangelist, Rev. Ed Robb of Hamlin, are greatly enjoyed.

Tentative sermon subjects to be used by the evangelist for the remaining services of the revival follow: Thursday evening, "What Methodists Believe"; Friday morning, "Why Do the Righteous Suffer?"; Friday evening, "The Great Physician"; Saturday morning, "The Ministry of the Holy Spirit"; Saturday evening, "The Justice of Hell"; Sunday morning, "The Light of the World"; and Sunday evening, "What Is Salvation."

## TEN NEW VEHICLES

Ten new vehicles were registered in the office of P. W. Taylor, sheriff, tax assessor-collector, from July 8 through 13. They are: July 8, Mrs. M. S. Henry, 1957 Oldsmobile 4-door; July 8, E. R. Roland, 1957 Chevrolet 4-door; July 8, Bax Middlebrook, 1957 Ford 2-door; July 8, J. L. Davis, 1957 Ford 4-door; July 8, B. D. Russell, 1957 Chevrolet 2-door; July 9, Mrs. M. L. Hughton, 1957 Cadillac 4-door; July 10, Mrs. Joe Brown, 1957 Chevrolet 4-door; July 12, J. A. Garrett, 1957 Chevrolet pickup; July 12, D. N. Gentry, 1957 Ford 4-door; July 13, Leo Cates, 1957 Chevrolet 4-door.

## TAXATION BECOMES THEFT

Lawrence Dodd, a British authority, believes that taxation becomes theft at the point where the taxpayer can say to his government: "Very well, you take the profit (or estate or income) and leave me the tax!" That situation is reached when the tax rate passes 50 per cent. The top federal individual income tax rate in this country is now 91 per cent.

## BONUSES FOR VETERANS

Bonuses for World War II and Korean War veterans have been authorized in 21 states, at a total cost of \$2.8 billion.

## Foard County Residents Purchase \$48,375 in Bonds

During the first six months of 1957, the citizens of Foard County invested \$48,375.00 in Series E and H Savings Bonds. Of this amount, \$13,279.00 was purchased during the month of June. This report was made this week by George Self, chairman of the Foard County Savings Bonds Committee.

Sales in Texas during the first half of 1957 were \$85,566,685, or 44.3 per cent of the 1957 goal of \$193,100,000. June sales in Texas were \$12,988,481.

"I would like to remind the people of Foard County that there is no safer investment in the world today. Both the principal and interest of U. S. Savings Bonds are fully guaranteed by the full faith and credit of our government. Savings Bonds now earn higher interest and mature sooner. Remember, our slogan for 1957... 'Part of every American's savings belongs in U. S. Savings Bonds,' Chairman Self concluded.

## Please Notify News Change in Address

This is an urgent request for all subscribers to notify the News of any change in address at least one week in advance of change. Failure to do this will cause the subscriber to miss his paper.

In case of a change in the address of your paper, notify the News immediately. If new address is not known, drop a card to the News and when the new address is established, back copies of the paper will be mailed at once.

## Welcome Food Store Sold to D & B Food Market Last Week

A business deal was closed Wednesday night of last week whereby the D & B Food Market, owned and operated by Walter Thomson and Cecil Driver, bought the stock of the Welcome Food Store. This store has been owned and operated by Mr. and Mrs. John Rader and Mr. and Mrs. George Fox in the Kincaid building on the southwest corner of the square for the past eight or nine months.

## HOSPITAL NOTES

### FOARD COUNTY HOSPITAL

**Patients In:** Mrs. Elizabeth McCurley, David Gallison, Mrs. Mitchell Jackson, Mrs. Harriet Moody, Kenneth Roberts.

**Patients Dismissed:** Claren Nichols, Mrs. Billy Joe Halenack, Mrs. George C. Fox, Mrs. Roy Shultz, Edith Chapman, Virginia Rasberry, Mrs. Charlie Huskey, Mrs. J. W. Chowning, Mrs. Tom Polk, Mrs. G. R. Choate, Mrs. Lola White, Sandra Campbell, Hattie Lou Rutherford, Mrs. F. F. Lambert Jr., Mrs. Bryant Lambert, Vandyln Lambert, T. F. Lambert III.

### ROTARY CLUB

Visitors at the Wednesday noon luncheon of the Rotary Club were Rotarians Ed Robb of Hamlin and Vance Favor of Quanah.

### METHODS OF COMMUNISM

The methods of Communism are succinctly described by a top authority, Mao Tse-tung, Chief of the Communist Chinese State: "We in China... have used force to deal with enemies of the people. The total number of those who were liquidated by our security forces numbers 800,000. This is the figure up to 1954." Since then, he added, "persuasion and education" have been substituted for terror.

### AMERICANS ABROAD

A new survey finds that 25,000 U. S. citizens are working for American business abroad. Thirty oil firms employ the greatest number—a total of 10,840.

## Schedules for Crowell Schools Made Out for Fall Term Beginning Sept. 2

The schedules for both Crowell High School and Crowell Grade School have been made out for next term, according to Superintendent Grady Graves. There have been a few changes made, due to having lost one teacher from last year. This teacher will be James Welch, science teacher in High School, who has been granted a leave-of-absence to attend the University of Texas on a scholarship.

## Progress Being Made on Crowell-Seymour Highway

An article concerning the new Crowell-Seymour highway appeared in the Baylor County Banner last week. Portions of the article follow:

"The Crowell road improvement has also been making fine progress after the rains let up. However, considering the nature of the work now being done on this route, the long continued rains did not interfere with it so much as on the Olney highway. This work consists of grading, together with building of culverts and bridges. In fact, such good progress is being made that the contractors are hoping now the whole thing may be completed before cold weather. The only real uncertainty is whether or not steel can be secured for the bridge across the Wichita river, and prospects appear good in this particular.

"Contractors for the Crowell road are W. L. Barnes and John T. Leslie of Austin. They will do the whole thing, including surfacing, and the contract price is about \$630,000."

"It is now possible for a Sunday afternoon motorist to drive out the Crowell road as far as the Wichita River. In fact, on beyond, as a temporary bridge has been constructed across the river."

## Showers Fall in County Monday

Local showers visited parts of Foard County during the week end and late Monday afternoon. The rain Monday afternoon measured .4 inch by the Government gauge. In some places, the precipitation measured from one to two inches.

The skies were cloudy Tuesday and Wednesday, and a light shower fell Wednesday morning.

In addition to the light shower that fell here early Wednesday, a downpour of 1.1 inches fell during the morning and more rain was in prospect as the News goes to press. It is not known how far out from town the rain extended. Thalia reported a 4 inch rain Wednesday morning and over an inch fell in the Good Creek area.

## Dr. D. E. Sanders Locates in Lubbock

Dr. Durwood E. Sanders, Crowell dentist for several years, who has recently been discharged from the Army after serving for two years at Fort Sill, Okla., has moved his dental fixtures to Lubbock where his office is located at 4224 Boston. He and Mrs. Sanders and their children have established their home there.

## New Wildcat Test Staked on W. B. Johnson Land

Six miles northwest of Crowell, Liedtke Ltd., et al of Midland, has staked No. 1 W. B. Johnson, as a 6500-foot Foard County wildcat.

## FIRE FRIDAY NIGHT

The Crowell Volunteer Fire Department last Friday night was called northwest of Crowell to extinguish several fence posts which became ignited when the fence row was burned.

## County Agents Report on Cotton Insect Damage

Cotton damage by insects throughout the county continues to increase, as some farmers have begun applying cotton measures.

A number of cotton fleahopper infestations have been reported. In most cases, the counts on these were high enough to warrant treatment.

County Agents Joe Burkett and Don Bayer have recommended that control measures be applied when counts reveal 15 fleas per 100 plants, as these insects attack new growth and new fruit.

Boll worms (corn ear worms) have been reported in several fields, the Agents report. This insect is doing some damage to sorghums in the county.

## County Agents Report on Cotton Insect Damage

The County Agents have the latest recommendations for boll worm control in sorghums.

Several farmers have applied poison for red spiders in their cotton. Heavy infestations were noted in several fields. The recent rains however might bring some relief from the red spiders.

Damage by cut worms was also noted by the agents in a field in the Vivian-Black vicinity. Cut worms are especially damaging to young cotton.

Thrip and aphid damage is decreasing as the cotton gets larger and hot weather prevails.

**INDICTED AS SPIES**—George Zaltovski, a former Army intelligence officer, and his wife, Jane, were indicted by a federal grand jury in New York on charges

of espionage. The couple, now living in Paris, were charged with giving U. S. military secrets to an international Russian spy ring since 1940.

### Thalia

Mrs. J. R. Spivey and daughter, Mrs. Cox, and in Fort Worth the past

LITTLE LINE GOES ON

The nation's petroleum system began less than a year ago as a five-mile network of iron tubing. It is long enough to circle the globe seven and one-half times, enough to hold more than 100 million gallons of oil and gas.

Many pipe lines are equipped with elaborate communication systems, including radio and television—all the most advanced scientific instruments available—to keep petroleum products flowing.

THREE MAJOR FIELDS

Today, only four years ago was first discovered. North Dakota boasts three fields and 19 small fields have produced more than 100 million barrels of crude.

### ROADS TO SURVIVAL

## New Interstate Highway Net to Aid CD Evacuation

A line on a drawing board today may someday save your life. That line might be one of

CIVIL DEFENSE auxiliary police will be needed in great numbers to help control traffic if warning of impending enemy attack ever forces cities to evacuate. Banning of cross traffic, and permitting one-way out-bound traffic only on arterials and the great urban freeways now being built will aid these men in their thankless task. (FCDA Photo)

America's roads to survival, a part of the \$41,000-mile National System of Interstate and Defense Highways that will be carefully laid out over the continent within the next 12 years.

THIS INTEGRATED \$33,000,000,000 network—the world's greatest public works project—will include freeways running from the heart of major cities to the outskirts and beyond. Over these roads, the millions who live and work in cities could seek the safety of distance from a nuclear bomb blast if adequate warning of impending attack were given.

In normal times, restless Americans drive 550,000,000-600 million miles a year in private autos. Families must also rely on cars to flee from danger in the event of civil defense emergency. The automobile is a rolling home in an emergency, the Federal Civil Defense Administration points out. You can eat and sleep in it, keep warm and dry, receive vital instructions by radio, drive out of danger areas, and even get some shelter against blast or fallout.

### Veterans to Receive Refunds

More than \$16,000 in fee refunds will soon be in the hands of veterans, Land Commissioner Rudder said this week. The refunds were collected by the

Veterans' Land Board from ex-servicemen buying land through the Veterans' Land Program. Some transactions were not completed, but until now fees could not be returned.

Commissioner Rudder recommended to the Legislature during its last session that the law be changed to authorize refund of

these fees. "I want to commend the Legislature for giving the veterans the just refund of their money," the commissioner remarked.

A total of \$16,271.80 will be returned to 229 veterans who have submitted fees since the program re-opened in October, 1955, but who did not complete their transactions.

This is an average of \$71.06

per veteran. The largest refund will be \$100, the amount each veteran must pay in fees. Several will receive the full amount.

Half of the \$100 covers closing expenses, \$25 is appraisal fee, and \$25 is a contract service fee.

The Veterans' Land Board began mailing refunds this week.

Christopher Columbus is buried in the cathedral of Seville, Spain.

H. C. Payne has finished school at the Seminary in Fort Worth and is at home with his parents,

CONGRATULATIONS to the more than 1,000 workers in "Evac 12," Binghamton, N. Y.'s recent evacuation exercise, were given by Lt. Gov. George B. DeLuca (right), and New York State Civil Defense Director Lt. Gen. Clarence R. Huebner at a press conference following the huge test. Crediting three local civil defense directors for execution of the state-devised plan, General Huebner concluded from the favorable and serious public response to the test that "its value will be immense not only to the 16,000,000 people of New York State but to the entire nation." (Binghamton Press Photo)

### In The News . . . 30 YEARS AGO

News items below were taken from the issue of The Foard County News of Friday, July 22, 1927:

J. C. Harrison, 79, pioneer Foard County resident, died July 17 at the Crowell Sanitarium after a brief illness. He was born May 28, 1848.

Mr. and Mrs. J. E. Harwell went to Benjamin Tuesday to visit Mr. Harwell's aunt, Mrs. M. Alexander.

Crowell Chapter No. 276, R. A. M., has installed the following officers: G. D. Self, High Priest; J. D. Kenner, King; S. E. Scales, Scribe; Lawrence Kinsey, treasurer; Glynn Shults, secretary; W. S. J. Russell, Captain of Host; A. G. Magee, Principal Sojourner; I. A. Andrews, Royal Arch Captain; Louie Blaw, master 1st veil; O. O. Hollingsworth, master 2nd veil; Fred Rennels, master 3rd veil; Q. R. Miller, guard.

First oil well in Foard County field brought in this week. Roxana Fain-McGaha Matthews No. 1 hits pay dirt at 1475 feet Sunday night. Well to be brought in when storage is provided. Excitement is running high and high prices are being paid for royalty.

Lorraine, 13-year-old son of Mr. and Mrs. J. H. Carter, was injured by a cow Monday morning when her horn pierced his leg, making a painful wound, which required several stitches to close.

Dr. M. M. Hart has been here this week from Newport visiting his son, M. M. Hart Jr., and wife.

Miss Maye Andrews, county treasurer, has been quite sick this week and has been away from her office for several days. Mrs. John Myers took her place.

Jo Ray left recently for Ithaca, N. Y., where he will spend the summer.

Mr. and Mrs. P. P. Cooper and daughter, Marion, Miss Ila Lovelady, J. G. Cooper and family and O. M. Gentry and family spent Sunday visiting Mr. and Mrs. Roy Cooper in Thalia.

On Tuesday afternoon Mrs. B. W. Self entertained with a beautiful seated tea, honoring Mrs. Herman Allison of Covina, Calif.

Mr. and Mrs. Emmett Powell passed through Crowell Tuesday morning en route to Childress. They will teach in Wilbarger County this winter.

Puerto Rico offers special tax inducements to U. S. industries—and some 450 new factories have been opened there during the past five years.

Mrs. J. C. Self of Wichita Falls is visiting Mr. and Mrs. Herbert Edwards.

### Livestock Producers Keep an Eye on The Calendar

While a livestock producer may lose his shirt by "watching the clock" too closely, Joe Burkett, county agent, strongly advises him to keep an eye on the calendar at all times. Livestock prices follow definite "cycles," he says, and the alert producer can cash in on these seasonal fluctuations.

Little seasonal variation occurs in the amount of meat eaten by consumers, Burkett says, and the price "cycles" result primarily from changes in the quantity of livestock marketed. Breeding dates, weather, production costs and the amount of available feed and grass represent major causes for such quantity changes.

The seasonal price for hogs is probably established better than for any other type of livestock, says the agent. Large hog supplies reduce fall prices when the spring pig crop is marketed and lowers them again in the spring with fall crop marketing. May, June and July are the "high" months for marketing 200-220 pound swine while June, July and August are the "top" for those in the 160-180 pound class. November, December and January are the "low" months for both weight classes. Regulate farrowing dates of sows, advises Burkett, and use forced or delayed feeding for bringing hogs to market in the "high-priced" period.

Milk-fat calf prices begin an upward climb in March from their

WIMBLEDON WINNER—Althea Gibson, fresh from her victory in the women's tennis singles tournament in Wimbledon, England, is given a traditional hero's welcome as she is driven up Broadway in a ticker tape parade. Flanking the girl athlete are Manhattan Borough Pres. Hulan Jack (l.) and Richard C. Patterson, Commissioner of the City's Bureau of Commerce and Public Events.

### FACTS about the MEMPHIS PRODUCTION CREDIT ASSOCIATION

1. Is a farmer owned credit coop—owned and controlled by 600 farmers and ranchers.
2. Obtains loan funds from private sources—reaches the Nation's money market through the Intermediate Credit Bank of Houston.
3. Loans money to a farmer or rancher for any purpose that his credit justifies.
4. Makes short-term loans maturing annually.
5. Makes intermediate term loans, with yearly payments maturing in two to five years, for machinery, cattle, irrigation and other capital purchases.
6. Brings about 2 1/2 million dollars of outside money into the territory each year—money that reaches the hand of merchants and others dealing with farmers.

### ABOUT YOUR HEALTH

A weekly public service feature from the Texas State Department of Health.  
HENRY A. HOLLE, M.D., Commissioner

Domestic flies are suspected of playing an important role in the spread of filth diseases due to their indiscriminate movement from human and animal excrements to the Lower Rio Grande Valley by the U. S. Public Health Service and the State Department of Health have shown a significant reduction in cases of bacillary dysentery by applying effective fly control measures.

Included among the domestic flies are the house fly and numerous species of blow flies and flesh flies. The house fly is by far the most important species which enters homes.

House flies develop prolifically in animal excrement, although any warm, moist organic material will support some breeding. The length of time from egg to adult is dependent upon such factors as availability of food and the temperature. During summer eggs hatch in 8-12 hours; the larvae feed for 5-8 days; and 2-3 days are spent in the pupal or resting stage. In Texas, fly breeding occurs throughout the year, although at a reduced rate during the winter in the northern half of the state.

House flies live for a month or two during warm weather and for longer periods during winter if protection from extreme cold is found. Adult house flies have been known to be capable of flying 10-12 miles but are not believed to travel such distances.

Characteristic late summer and fall "blows" before reaching peak "highs" in May. Mid-spring is the best time to market grade "good" or lower slaughter cattle. "Low" for these classes is in the fall months.

Although the demand for feeder cattle is good during the fall, Burkett says that large market numbers are sufficient to depress prices greatly. "High" periods for both feeder and stocker calves and steers is March, April and May. Avoid fall marketing when possible.

Fat lambs bring high prices in the spring. Wooten asserts, reaching a peak during May after federal lamb marketings have fallen off and before spring lambs reach the market in volume. Most feeder lambs move to market during late summer and fall with depressed prices resulting in that period.

Puerto Rico offers special tax inducements to U. S. industries—and some 450 new factories have been opened there during the past five years.

Mrs. J. C. Self of Wichita Falls is visiting Mr. and Mrs. Herbert Edwards.

Mr. and Mrs. Layton Holt and two little daughters, Marcia and Marianne, of Quannah spent Sunday in the home of their parents, Mr. and Mrs. Joe Ward.

Mrs. Lee Crews and daughter, Miss Mary Margaret, of East Columbia, and Miss Mary Sam Crews of Houston are here visiting in the home of their parents and grandparents, Mr. and Mrs. S. T. Crews.

Mr. and Mrs. R. L. McMillan and children, Toni and Steve, and Mr. and Mrs. Crockett Fox and daughter, Laurie, of Abilene visited Monday evening in the home of Mrs. Fox's mother, Mrs. C. W. Thompson, and attended revival services at the Methodist Church.

Mr. and Mrs. O. H. White and children, Diana and Edward, and Mrs. Oeie Pearl Bollbruch and daughter, Jeannette, of Odessa spent the week end here visiting their sister, Mrs. Howard Williams, and other relatives and friends.

L. V. Robertson of Edwards, Calif., has been here visiting his daughter, Mrs. T. R. Hough, and family and his brother and wife in Vernon. He was accompanied to Crowell by another brother, Eck Robertson of Amarillo, who returned home Friday.

A card from Mr. and Mrs. Doyle Kenner was received Monday and it stated that Doyle's condition has improved and that they hope to be able to come home soon. Mr. Kenner has been in the Veterans Hospital in Albuquerque, N. M., for several weeks.

R. R. Magee spent the week end in the home of his son, Joe M. Magee, in Pampa. Mrs. Magee, Mrs. A. S. Hart and Ernest, Rudy and Jo Beth Magee, who had been visiting in Pampa, returned with him Sunday evening.

Mrs. Clifton French and daughter, Kathy, of Woodboro and Mrs. Ralph Burrow and daughter, Janice, of Fort Worth visited their brother, Edward Roark, and family this week. They were accompanied by Mrs. John Hakala of Fort Worth who visited her mother, Mrs. J. S. Long.

Miss Sue Bursley went to Lubbock Tuesday to join 31 other young people and seven counselors of the Northwest Texas Conference of Methodist Churches, on a camp trip to Durango, Colo. She was accompanied to Lubbock by her parents, Mr. and Mrs. Moody Bursley.

Mr. and Mrs. W. B. Griffin went to Floydada last Thursday to visit their daughter, Mrs. Garland Foster, and family. Mr. Griffin and Mr. Foster went to Littlefield to visit John Carter, a former Foard County resident, and also to Lubbock to visit Mr. Griffin's son, Alton R. Griffin. Mr. and Mrs. Griffin returned home Saturday.

What Will Life Be Like in the 80's?

A report on America's "growing-est quarter century"—the next 25 years—is contained in the June issue of Changing Times, the Kiplinger Magazine. Population growth will push our population to 250 millions from the present 170 million. Science, technology, medicine, new business methods, new markets and new communities will produce a nation of a 100 million job holders, twice as many college students as now, 130 million automobiles and a 4-day work week.

Here are some additional forecasts by the Changing Times editors:

Jobs—In 1982 machines may do much of your work but not your thinking. A new breed of workers will develop and those who can truly be masters of the machines will be the ones who move ahead.

White-collar workers will be far more numerous than blue-collar. People who run things—managers and proprietors—will almost double in number. Stores, banks, real estate firms, insurance companies, utilities and government will all step up their hiring to greater degree than manufacturing industry. Pay will almost double today's levels, in today's dollars.

Inflation—The 1982's dollar will be worth much less than today's. Inflationary pressures will be high government spending, rising wage levels and constant need for capital.

In coping with inflation, choose the industries with the greatest promise of growth when you invest. You won't get rich quick, but your dollars will grow as the industries do.

Travel—It will be an even smaller world in 1982. No country or city will be more than 24 hours away. Travelers will ride in supersonic jet planes at speeds two or three times that of sound. Cruising speed will be 1,500 miles per hour. Commuters will go in airplanes that rise straight up, then go straight forward.

Cars may have fuel-injection motors which do not need carburetors. They will have 25 per cent more horsepower than today's cars and may even be without transmissions. Parts may be sealed, so you may never need a grease job.

Some trains may be atom-powered and built to go at two miles per minute. Others will rocket along on monorails.

Housing—A new kind of house is on the way. It will blend into the outdoors and bring nature inside, and it may be round instead of square. Color will be everywhere, and if you get tired of the color of an interior wall, you will replace the wall with one of another shade.

Push button windows will close automatically if it rains. A wish of air will clean and dry the dishes in three minutes. Electro-

static dust gatherers will keep the house shiny. If it's a hot summer, you'll use a blanket that keeps you cool. Your newspaper will be as colorful as a slick magazine.

Some clothing will be made of paper products and disposable after a couple of wearings. The refrigerator will have lost its importance, since most foods won't need refrigeration, but will be irradiated, chemically treated, or dehydrated.

Schools and colleges — For every student in public school and college today, there will be almost two students enrolled 25 years from now. The same ratio will apply to teachers. As many as three college professors for every one today will be needed.

A great deal of teaching will be done by TV and films. Schools will be open 12 months a year. Courses will be speeded up and technical training will be a must.

What will all this cost? At least 50 billion dollars a year for all the colleges and schools in the nation. That's 35 billion more than today. Government money will provide most of the needed cash.

Electronics — One third of all power produced will have its source in the atom.

New plastics, paint, textiles, metals, medicines, building materials and chemicals will result from experimentation with atomic processes. Nuclear ships, planes and trains will be in use by 1982. Offices and apartments may be heated by a low-pressure atomic reactor.

A new science of the sun will emerge. Energy gathered from sun rays will be used to power homes and factories, drive ships, provide fuel for remote corners of the earth.

Other electronic miracles will be specially adjusted phones that will enable you to get your party when you dial only one numeral or letter; typewriters that respond to the spoken word; machines that translate from one language to another.

Business — The total output of goods and services will be approaching one trillion dollars a year by 1982. Retailers will thrive. Their biggest lines will be appliances and recreational equipment. The sea will be exploited for materials and farmed for food.

There won't be as many farmers, but they will grow and reap more and work shorter hours. New machines, fertilizers and chemicals will help. Over-all, farm production will increase by a third.

If all this sounds too fantastic, the editors point out that the last 25 years have brought wonders you wouldn't have dreamed of in 1932. Among them, the splitting of the atom, commercial TV, regular transatlantic air service, discount houses, major league night baseball, Airlan, Dacron, streptomycin, aureomycin, other wonder drugs, electronic calculators, jet airplanes and 100-acre shopping centers.

West Texas to Get \$400 Million in Federal Hi-Way Aid

West Texas' share of the proposed federal highway program will total almost 400 million dollars, an article in the July issue of West Texas Today states.

The magazine, in an article reflecting on the effect of the new highway system in West Texas and its economy, quotes State highway engineer D. C. Greer as saying that "1,359 miles, 47 per cent, of the proposed Interstate System for Texas will be in West Texas."

The magazine, monthly publication of the West Texas Chamber of Commerce, states that Greer estimates West Texas' share to be about \$377,964,000 or 25 per cent of the total allotment for the state's interstate highways. Texas will receive about \$1.6 billion during the next 13 to 15 years from the Federal government for the program.

The article also explains the current highway program of the Texas Highway Department.

"Our highway program, including interstate, for the present fiscal year calls for 5,068 miles of construction throughout the state at a cost of \$381,000,000. Of this programmed construction, 43 per cent, 2,229 miles, is in the West Texas area," Greer says in the article. He adds that the total cost for this West Texas construction will be about \$128 million.

The article also quotes Greer concerning future multilane or expressway construction for West Texas which is now on the Highway Department's program books. In addition to similar construction now underway, Greer states that 181 miles of multilane construction in West Texas is planned.

A complete list of all multilane construction programmed for West Texas—that part of the state served by the WTCC and west of a line running generally from Gainesville through Arlington, Waco, Johnson City and Kerrville to Del Rio—is carried in the article.

Farmers Advised to Watch for 'Hopper' Developments

Farmers and ranchers in Foard County are advised by Joe Burkett, county agent, to be on the alert for possible damaging infestations of grasshoppers during this spring and summer.

Based on surveys made by the USDA, the agent says that infestations ranging from very severe to light are forecast for the Panhandle, with Dallam, Moore, Hartley and Potter counties in the very severe area. Threatening is the term used to describe an even larger area to the east. Possible severe infestations could occur in Knox, King, Dickens, Motley, Floyd, Briscoe and parts of Crosby, Swisher, Hall, Donley, Armstrong, Randall, Deaf Smith and Castro counties. Also in parts of Wichita, Clay, Sherman and Hansford counties.

Threatening to light infestations could occur in wide areas from the Red River south into deep central Texas. The situation at present, points out the agent, should be watched very carefully.

The first nymphs, newly hatched 'hoppers' have been found in the Brazos River bottom areas hatching will progress northward with favorable weather.

The time to do the most effective job of controlling 'hoppers,' emphasizes the agent, is before the young leave the hatching grounds. Roadsides, field margins, ditch banks and idle lands bordering cropland should be watched carefully for the appearance of young 'hoppers. When numbers justify the use of control measures, several insecticides are readily available for doing the control job and include aldrin, dieldrin, heptachlor, toxaphene and chlordane.

Mr. and Mrs. Forest Bright and son, Glenn, of Sonoma, Calif., visited last Friday night here with Mr. and Mrs. Guy Bounds.

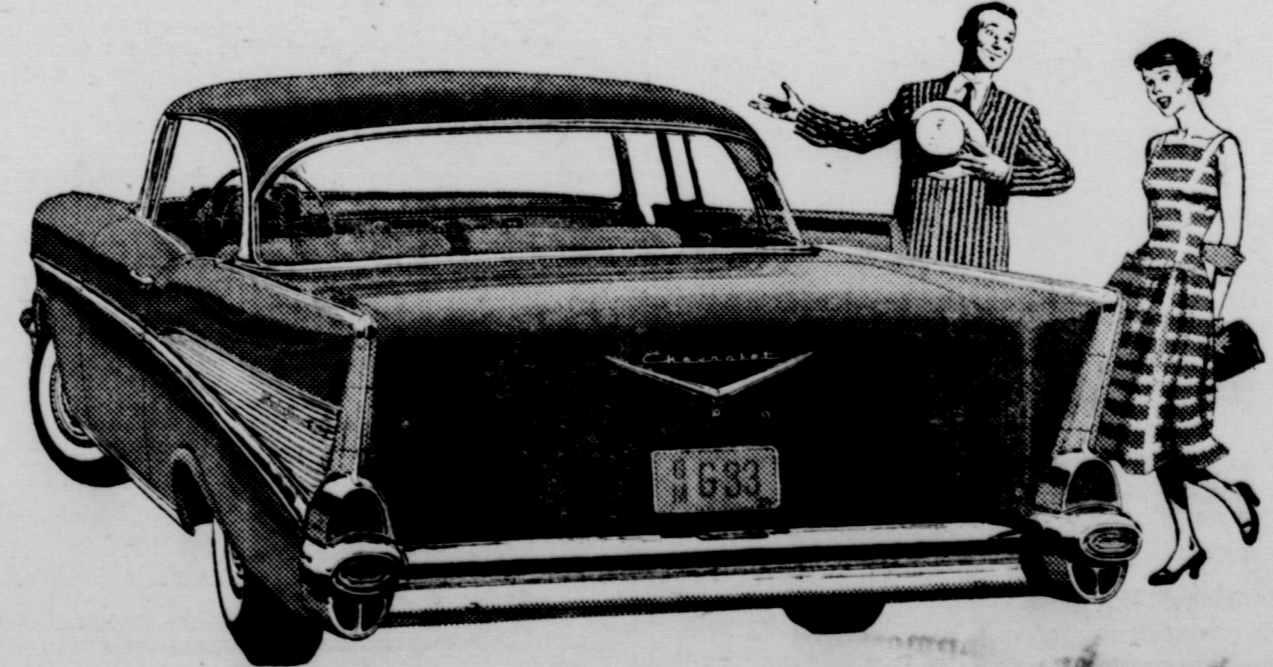

J. B. Callaway of Sayre, Okla., visited over the week end in the homes of his brothers, Claude, Will and Tom Callaway.

COUNTY NEWS

LET'S TALK LIVESTOCK BY TED GOULDY

Trade developed unevenly on slaughter cows and slaughter calves at Fort Worth Monday.

Stockers and feeders were again very active and at strong to unevenly higher prices.

Very few fed cattle arrived, and high choice to prime cattle were lacking in the day's receipts.

Good and choice slaughter calves cleared at \$19 to \$21.50 with a few higher.

Good and choice stocker steer calves cashed at \$20 to \$24, and heifer calves ranged from \$21.50 down.

Good to choice stocker and feeder steer yearlings sold from \$19 to \$22, and a few medium stocker cows sold from \$11 to \$14.

Butcher hogs advanced \$1 and some were up 50 cents per hundred at Fort Worth Monday.

Trade was very active and prices were steady to strong at Fort Worth Monday on a limited offering of sheep and lambs.

Good and choice slaughter spring lambs cashed at \$20 to \$21, and shorn spring lambs sold from \$20 down.

Good to choice yearlings sold from \$16 to \$17.50, and cull to medium yearlings sold from \$12 to \$15.

Slaughter ewes sold from \$7 to \$8. A few breeding ewes sold from \$8.50 to \$15, according to age and quality.

Old wethers cashed at \$13 down. Aged bucks sold from \$5 to \$5.50.

Some coturnix birds also are being sold by game breeders to individuals. Bait for these birds will be furnished free when requests are made of the department, according to Mr. Cutbirth.

"It is too early yet to say how successful these birds will be," he says. "We need to learn a great deal more about them before attempting to establish them in Texas. We are trying to determine whether they will be competitive with bob whites or whether they will thrive in areas where bobs don't do so well."

"We can best tell this if we have the cooperation of the sportsmen. When they kill a coturnix, if they will send us the band, we can check on its range. Land owners also can help a great deal by locating the birds and reporting them to our biologists."

Hunting coturnix quail is said to be similar to shooting bobs. They hold well for dog work and will make excellent birds on which to train dogs. They are a slightly smaller bird than the bobs. Their general appearance and coloring is very similar to the bob.

PLANNING vs. PANIC Binghamton Evacuates 1,500 People in Pace-Setting Test

In a Sunday "outing" with a serious purpose, 1,500 residents of Binghamton, N. Y., traveled 28 miles from their homes to tiny Deposit, N. Y., in one of the largest civil defense evacuation exercises ever held.

Home Demonstration Notes

MRS. MARY D. BROWN

Let's all try to attend the 4-H Dress Revue which will be held next Monday, July 29, at 3 p. m. in the Home Economics building of the high school.

It's getting to be jelly-making time and I've had several calls about improper jelling, sugar-crystallization, "weeping," and cloudiness in homemade jellies.

Here are some of the causes for these problems: Sugar crystallization may be caused by an excess of sugar, insufficient acid, overcooking or delay in sealing.

"Weeping" results when the juice used is too high in acid content.

Cloudiness may be caused by imperfect straining, or by starch in under-ripe fruit—often found in apple and crabapple jelly.

Failure to form jelly is due to an improper balance of pectin, sugar and acid. This improper balance may be caused by overcooking or undercooking the jelly, by undercooking the fruit in extract-juice, using too much water in extracting the juice or using fruit which is too ripe.

Mold or fermentation of jelly may be caused by storage in warm or damp places, failure to sterilize glasses, imperfect sealing with paraffin, or not enough sugar.

Make sure of good results in jelly making by following recommended methods. Get a copy of extension bulletin, "Sweets for the Family Table," from my office. It contains directions and recipes for a variety of jellies, jams, preserves, conserves, marmalades and fruit butters.

around 270 pounds reached \$22, emphasizing the recent strength on heavier hogs here. Medium to good hogs sold from \$17 to \$21.50. Sows cashed at \$16 to \$19.

Trade was very active and prices were steady to strong at Fort Worth Monday on a limited offering of sheep and lambs.

Good and choice slaughter spring lambs cashed at \$20 to \$21, and shorn spring lambs sold from \$20 down.

Good to choice yearlings sold from \$16 to \$17.50, and cull to medium yearlings sold from \$12 to \$15.

Slaughter ewes sold from \$7 to \$8. A few breeding ewes sold from \$8.50 to \$15, according to age and quality.

Old wethers cashed at \$13 down. Aged bucks sold from \$5 to \$5.50.

Some coturnix birds also are being sold by game breeders to individuals. Bait for these birds will be furnished free when requests are made of the department, according to Mr. Cutbirth.

"It is too early yet to say how successful these birds will be," he says. "We need to learn a great deal more about them before attempting to establish them in Texas. We are trying to determine whether they will be competitive with bob whites or whether they will thrive in areas where bobs don't do so well."

"We can best tell this if we have the cooperation of the sportsmen. When they kill a coturnix, if they will send us the band, we can check on its range. Land owners also can help a great deal by locating the birds and reporting them to our biologists."

Hunting coturnix quail is said to be similar to shooting bobs. They hold well for dog work and will make excellent birds on which to train dogs. They are a slightly smaller bird than the bobs. Their general appearance and coloring is very similar to the bob.

PLANNING vs. PANIC Binghamton Evacuates 1,500 People in Pace-Setting Test

In a Sunday "outing" with a serious purpose, 1,500 residents of Binghamton, N. Y., traveled 28 miles from their homes to tiny Deposit, N. Y., in one of the largest civil defense evacuation exercises ever held.

The test, involving 372 autos and a special train, was symbolic of the survival effort which millions of Americans would make in a real emergency to put miles between themselves and threatened nuclear attack.

"EVAC 12"—code name of the exercise involving Binghamton's 12th ward—included two sets of motorists in the four-hour test. When the alarm sounded, the first group of 500 persons simulated panic by driving on to the evacuation highway helter-skelter in uncontrolled movement.

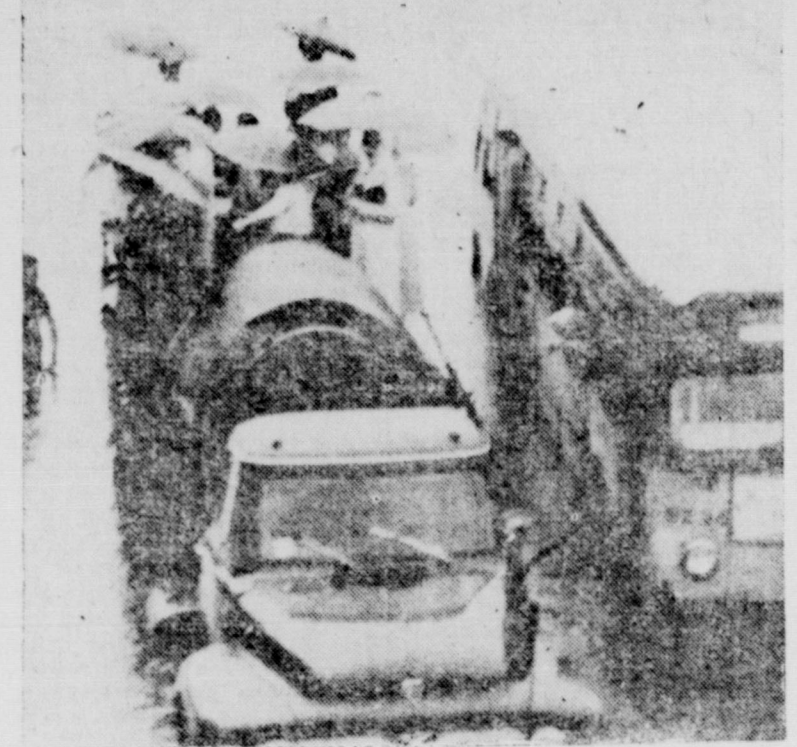

Shortly afterward, the first of some 250 cars began moving out of a checkpoint on Route 17 in controlled groups of 14 cars each for the trip to Deposit.

Lt. Gen. Clarence R. Huebner, who observed the test along with New York's Lt. Gov. George B. DeLuca, said that "probetter with the small, controlled grouping of cars."

Aboard the special train were 64 simulated patients of an emergency hospital, and 46 youngsters "displaced" or "lost" in the confusion of potential attack.

Evacuees were assigned for visits to the homes of Deposit residents when they arrived, just as might be necessary on a longer-term basis after a real attack.

After a dinner, served under improvised conditions, they returned home with a "well done" from pleased civil defense officials and the knowledge that they were better prepared for the real thing if it ever comes.

STRANDED — The title "water-er wonderland" aptly applied to the Detroit area last week as up to five inches of rain fell and flooded some streets with five feet of water. An estimated 100,000 autos were stalled or stranded. In this picture, bus passengers seek to gain "dry" land by moving to a flat bed truck stalled beside the bus.

New Type Quail Now Being Planted in Trial Areas of State

Sportsmen of Texas will find a new quail in some areas when the season opens December 1, according to W. J. Cutbirth Jr., assistant executive secretary of the Texas Game and Fish Commission.

It is the Coturnix quail, a Japanese import, which now is being released in various areas of the state. It is estimated that some eight thousand will be produced at the State Quail Hatchery at Tyler. Already a number have been released, with several more plantings scheduled before the breeding season ends.

The coturnix closely resembles the illustrious bob white. Their feeding habits are somewhat comparable, but the coturnix is more migratory than the bob white. It is supposed to be a very hardy bird.

It already has been released in the El Paso area. Other areas include Travis, Midland, Kerr, Wise, Taylor and McCullough counties. They will be released in different types of quail range for research purposes. All birds are banded and sportsmen are asked to return bands of the birds they kill to the game department and report the kill of unbanded birds. In that way a study can be made of the conditions best suitable.

There are 200 brood pair at the Tyler hatchery. Their egg production is high, but the fertility seems to be low in pen birds, according to Mr. Cutbirth.

An unusual feature of the coturnix is that the birds sometimes begin laying at 36 days of age. Generally, however, they begin laying at from six to eight weeks. Their eggs are slightly larger than bob white eggs and are speckled, while the bobs lay a white egg. Hatching percentage of the free birds is said to be higher than among penned birds.

Some coturnix birds also are being sold by game breeders to individuals. Bait for these birds will be furnished free when requests are made of the department, according to Mr. Cutbirth. All birds released should be banded, in order that their movements may be traced.

"It is too early yet to say how successful these birds will be," he says. "We need to learn a great deal more about them before attempting to establish them in Texas. We are trying to determine whether they will be competitive with bob whites or whether they will thrive in areas where bobs don't do so well."

"We can best tell this if we have the cooperation of the sportsmen. When they kill a coturnix, if they will send us the band, we can check on its range. Land owners also can help a great deal by locating the birds and reporting them to our biologists."

Hunting coturnix quail is said to be similar to shooting bobs. They hold well for dog work and will make excellent birds on which to train dogs. They are a slightly smaller bird than the bobs. Their general appearance and coloring is very similar to the bob.

Slow Down and Live Campaign for Texas Drivers in Progress

"For just a moment, try to imagine the results if you were behind the wheel of your own car, then drove it off the top of a ten-story building. It leaves you with a rather awesome picture, doesn't it?"

This thought provoking question was asked this week by J. O. Musick, general manager of the Texas Safety Association, as he set the theme for the beginning of the association's annual Slow Down and Live campaign.

"Of course no sane driver would attempt such a foolish thing," Musick continued. "And yet, if the same motorist crashes into another car while traveling 60 mph, he will meet with equally disastrous results."

Musick said he did not believe that speed, in itself, is necessarily bad, but highly desirable for efficiency's sake. With our modern transportation system, speed is essential. Whether it is for police cars, taxicabs, ambulances, or in simply getting us from one place to another.

"No, speed is not bad," Musick said. "But, we must be able to determine at what speed we can travel with a maximum of efficiency and a minimum of danger."

Here in Texas, the traffic-expert pointed out, all speed limits are clearly marked. And yet, these speed limits cannot be considered safe at all times. In other words, they are greatly affected by weather and traffic conditions.

"A safe speed, then, is one that is not too fast for conditions," Musick said. "Thus, it is up to the individual driver to determine what is a safe speed, within the given limits."

To help the average motorist determine what a safe speed would be under specific conditions, Musick offered the following seven-point check list:

First, drive at a speed that will enable you to stop in the assured clear distance ahead. Second, slow down before you get to curves and intersections. Third, at night, drive at the speed which will let you stop within your headlight range. Fourth, drive with traffic. You are probably going too fast if you are passing many cars and too slow if a number of cars are passing you. Fifth, where children are playing, be able to stop in a car length or less. Sixth, when you're tired or inattentive, stop and rest. Seventh, always use

them to our biologists." Hunting coturnix quail is said to be similar to shooting bobs. They hold well for dog work and will make excellent birds on which to train dogs. They are a slightly smaller bird than the bobs. Their general appearance and coloring is very similar to the bob.

News from the Congress

by Congressman Frank Ikard

The "civil rights" debate continues in the Senate with no sign of an early end. The adjournment of Congress is keyed to when the "civil rights" question is disposed of. All indications are now that it will be impossible for Congress to adjourn before the 15th of August.

There seems now to be a reasonably good chance that amendments will be adopted to the "civil rights" bill which strikes some of its most punitive features and to assure a trial by jury.

The so-called Federal aid-to-education bill is slated for early consideration in the House. This will institute an expensive program of Federal aid to schools. It seems to me that the schools can be financed and controlled best at the local level and that the school boards and the State Board of Education can do a better job of operating the schools than can some Federal bureau in Washington.

Recent announcements by the Administration that all departments of the government are being directed to hold expenditures equal to or below the levels of last year is an encouraging announcement, for even though appropriations are reduced in Congress, it is sometimes a year or two before the economies are really felt. The only way that we can have effective and immediate economy is for the Executive to require that spending be reduced immediately. If the program instituted by the Administration is carried out as announced, it could mean the saving of an additional two or three billion dollars during this fiscal year.

This week death claimed a man who 35 years ago was known to practically everyone in America, James M. Cox of Ohio, who was the Democratic nominee for President in 1920. Mr. Cox had had a colorful and distinguished career in public service, and even though his campaign for the Presidency in 1920 did not make sufficient popular appeal to the American people to assure his election, he left his mark on American political life and will long be remembered.

It is expected that sometime this week the President's Cabinet Committee will act to provide some control of crude oil imports. This action is necessary in order for the domestic independent oil producers to stay in business.

Life begins at birth, as the by-line of the fabulous El Dorado oil field in Mexico says. It has been discovered several times since its discovery in 1915, but each time it has been abandoned and improved ways of its lease on life. Now, after a long period of inactivity, major producers, having estimated 225 million barrels of oil in the field, are beginning to lease it for another 25 years.

Aztec-Mayan Spectacular to Be Presented at Fair

One of the world's most remarkable spectacles will be featured as a free attraction at the 1957 State Fair of Texas, Oct. 5-20.

The mysterious rituals of the Aztecs and Mayans of ancient Mexico will be faithfully re-created by actual descendants of those long-vanished races.

The Aztec-Mayan Spectacular will be presented twice daily on the Magnolia stage, climaxed by the dangerous "ceremony of the flying pole."

This awe-inspiring ritual is performed by "The Birdmen of Teotihuacan." Dressed in feathered, birdlike costumes, these "flying Indians" climb to the top of a 100-foot pole. To the weird music

of a flute and drum, the fliers one by one go to the intricate dance on a high atop the pole.

They then leap into the air, their bodies arched, heels from ropes around the pole. As they glide to earth, the ropes around widening circles.

Seldom seen outside of Mexico, the strange ceremony of the flying pole is among the most dramatic and exciting of that country, dating back times before the Spanish conquest. Fliers are trained from the age of 9 for this daring feat.

The colorful dances of the Aztec-Mayan Spectacular are performed by a troupe of 15 in authentic costumes. They will be presented twice daily on the Magnolia Stage, they will be presented in three big shows during the first week of the fair.

COULD KEEP \$19  
For every billion dollars cut  
from the federal budget, the Tax  
Foundation figures, the average  
family of four could keep \$19  
which otherwise would go to  
Washington in taxes.

DOG IN DRIER  
Paris, Ky. — A few minutes  
after a baby sitter told little Bruce  
Dillon "your dog is tracking up  
the kitchen with his wet feet,"  
she heard muffled cries from the  
basement. Bruce had dropped the  
pup into the clothes drier and  
flipped the switch. The pup was  
in sad shape, but he was really  
dry.

TRADE CARS BY ERROR  
Milwaukee, Wis. — Gerald B.  
Junior got into his parked car and  
drove off. It was sometime later  
that he noticed his car was a  
slightly different color from usual.  
In the meantime, Mrs. Mildred  
Henderson stepped into "her" car  
only to find her key would not fit  
in the ignition. She called police.  
In a short while, the two drivers  
were restored to their own autos  
—of the same make, model, and  
almost identical color.

China adopted tea drinking be-  
cause the water was impure.

The Eskimo dog possesses the  
heaviest fur.

## LEGAL NOTICE

Notice of Intention of  
Commissioners' Court of Foard  
County to Lease County Owned  
Lands for Development of Oil,  
Gas, and Minerals.

Notice is hereby given, that the  
Commissioners' Court of the  
County of Foard, by its order and  
resolution duly adopted and passed  
on the 8th day of July, 1957,  
found that it was advisable to  
make and execute an oil and gas  
or an oil, gas and mineral lease  
or leases for the following de-  
scribed lands or part or parts  
thereof, belonging to said County  
of Foard, and located in Bailey  
County, Texas, to-wit:

Tract 1, Labor 6, League 192,  
Foard County School Land, Bai-  
ley County, Texas, containing  
177.1 acres, more or less.

Tract 2, Labor 15, League  
192, Foard County School Land,  
Bailey County, Texas, contain-  
ing 177.1 acres, more or less.

Tract 3, Labor 16, League  
192, Foard County School Land,  
Bailey County, Texas, contain-  
ing 177.1 acres, more or less.  
and said order and resolution de-  
signed Monday, the 29th day of  
July, 1957, at 10 o'clock A. M.  
in the County Court Room in the  
County Court House in Crowell,  
Foard County, Texas, as the time  
and place when and where the  
Commissioners' Court will receive  
and consider bids for such oil, gas  
and mineral lease or leases, and  
at such time and place a public  
hearing will be held as to such  
matters; and that in any such  
lease or leases as shall be so made  
and executed the County of Foard  
shall retain at least one-eighth  
(1/8) royalty, and shall provide  
for a primary term of not more  
than a period of ten (10) years  
from the date of execution and  
approval thereof; and that any  
such lease, or leases, shall con-  
tain pooling provisions in ac-  
cordance with Article 5421n of the  
Revised Civil Statutes of Texas.  
All persons, firms or corporations  
interested in obtaining an oil and  
gas or an oil, gas and mineral  
lease or leases upon the aforesaid  
land, or any part, or parts there-  
of, are hereby notified to present  
a bid or bids therefor to said  
Court at the aforesaid time and  
place, and all parties interested  
in contesting the leasing of such  
land or any bid or bids received  
by said Court therefor are hereby  
notified to be present at the aforesaid  
time and place when and  
where they may do so.

Commissioners' Court of  
Foard County, Texas.  
51-3tc

by VERN SANFORD  
Texas Press Association

Austin, Tex.—A big change is  
forthcoming in the operation of  
the largest law enforcement divi-  
sion of the State.

In keeping with recommenda-  
tions of the Texas Research League  
following a two-year study, the  
Texas Department of Public Safety  
will reorganize into six com-  
mands. Each command will be re-  
sponsible to the central office in  
Austin.

Headquarters of the six regions  
will be in Lubbock, Corpus Chris-  
ti, Waco, Houston, Dallas and  
Midland. Two Highway Patrol dis-  
tricts will be within each com-  
mand.

Col. Homer Garrison will con-  
tinue in the Austin office, in over-  
all charge, with the rank of major.  
Heading the various commands  
will be Capt. R. A. (Bob) Crow-  
der (Lubbock); Chief Kent Odum  
(Corpus Christi); Chief W. J. El-  
liott (Waco); Capt. Glenn Rose  
(Houston); Capt. Guy Smith (Dal-  
las); and Capt. W. E. Speir (Mid-  
land).

In addition to the regional re-  
organization, the new plan calls  
for four central divisions in Aus-  
tin. Identification and intelligence  
services will be in charge of Chief  
Joel Tisdale. Motor vehicle re-  
cords and services will be handled  
by Chief A. F. Temple. Personnel  
and staff services will be directed  
by Chief Glen McLaughlin. And in-  
spection and planning will be  
headed by Chief G. W. Busby.

Colonel Garrison said the move  
would result in more efficient ser-  
vice and greater economies. "The  
Texas Rangers also will come un-  
der the regional grouping," Gar-  
rison stated. "A Ranger captain  
will be within each region, and  
responsible to the regional com-  
mander."

TO DAM OR NOT TO DAM—  
A slice of the sort of troubles  
that plague Texas water develop-  
ment planning is shown in the cur-  
rent problems of the Brazos River  
Authority.

At Gov. Price Daniel's request,  
BRA directors held a statewide  
conference in Austin. Purpose: to  
reconcile the numerous conflicting  
views on how best to use the wa-  
ters of the 1300-mile stream. Scores  
of people came and spoke their  
minds, but reconciliation was hard  
to find.

BRA directors suggest a six-  
dam program on the Brazos. It  
would include raising the level of  
Possum Kingdom Dam and con-  
structing six more dams between  
it and Whitney Dam. Cost is es-  
timated at \$183,000,000. BRA  
hopes to borrow \$50,000,000 from  
the federal government, get the  
rest from private bond sales. All  
work eventually be repaid, ac-  
cording to the plan, by revenue  
from sale of power and water.

But downstream water users  
and private power companies are  
dead set against the plan. Repre-  
sentatives of South Texas indus-  
trial and agricultural interests con-  
tend that paying for the dams  
they use from \$1 to \$10 an acre  
foot. Private utility spokesmen say  
the dams would produce more  
power than anyone wants at a  
higher price than anyone will pay.  
And people living near Possum  
Kingdom fear that raising the dam  
level would flood their land.

Net result: the BRA plan, first  
launched 21 years ago, still has  
troubles.

TEMPEST AT TECH — Guests  
from a political-educational storm  
that swirled up out of the Plains  
blew into the State Capitol.

In a closed session, directors  
of Texas Tech at Lubbock fired  
Professors Byron B. Abernethy  
and Herbert M. Greenberg and  
abolished the job of Dr. Per  
Stensland. In explanation, Board  
Member J. Evetts Haley said Drs.  
Abernethy and Greenberg "did not  
measure up to academic stand-  
ards." He called the adult educa-  
tion program in which Stensland  
was engaged "boondoggling."

But numerous observers attrib-  
uted the dismissals to the profes-  
sors' liberal political views as con-  
trasted to the ultra-conservative  
platform on which Haley ran for  
governor last summer. There were  
protests and demands for re-con-  
sideration.

Governor Daniel made no com-  
ment on the professors, but said  
he thought the secret session was  
"a mistake." Tech President Dr.  
E. N. Jones predicted the board  
would have another session on the  
subject soon.

Capitol reporters compared the  
case with a 1944 furor that re-  
sulted when Dr. Homer Price  
Rainey was fired as University of  
Texas president.

PENNY-PINCHING DUE — If  
the Legislature meets in special  
session this fall, members may  
have to ration every paper clip to  
get by financially.

State Treasury has hardly an  
extra nickel. There is, however,  
\$460,000 appropriated last session  
for interim legislative expenses.  
But State Comptroller Robert S.  
Calvert has raised a question as  
to whether this could legally be  
used for special session expenses.  
If the attorney general rules it  
cannot, legislators will have to

amend the appropriation bill in  
order to get at the \$460,000. Even  
so, it may be nip and tuck to get  
by. Previous special sessions have  
cost about \$500,000.

Numerous economy measures  
have been proposed. Sen. David  
Rathiff suggested a swift three to  
six-day session with no pay. Rep.  
Louis Dugas proposed cutting the  
number of secretaries.

House Speaker Waggoner Carr  
is polling members as to whether  
they (1) favor a special session,  
(2) would serve without pay and  
(3) favor a tax to pay session  
costs.

STEEL GRADES AHEAD —  
State Highway Department is tak-  
ing a long look at its ambitious  
road-building, land-buying pro-  
gram and wondering if it can meet  
the cost.

"We have \$13,500,000 in pro-  
jects ready to go, but only \$8,-  
000,000 income that will be avail-  
able," said State Highway Engi-  
neer D. C. Greer. He said infla-  
tion in prices of materials and  
labor may force a plan to build  
48,000 miles of road in 13 years  
to be spread over 20 years instead.

One cost-cutting suggestion was  
to buy up right of way far in ad-  
vance of construction in order to  
get land before it becomes devel-  
oped, and hence, more expensive.

F-M CHANGE SUGGESTED —  
Texas' farm-to-market road sys-  
tem should pay its own way, sug-  
gests a Research League report.

Laws creating the F-M system  
 earmark million annually for con-  
struction of the roads, but none  
for maintenance. This has to come  
from regular Highway Department  
funds.

Eventual result, says the League  
report, will be more farm high-  
ways than needed and an "intoler-  
able burden" of upkeep. It recom-  
mends the law be amended so  
that F-M construction funds could  
be used for upkeep as well.

SHORT SHORTS — Trial of  
Ex-Rep. James E. Cox of Conroe  
has been postponed until Oct. 7.  
Cox is charged with consenting  
to accept a bribe. . . . Texas Re-  
publicans take a dim view of the  
55th Legislature. GOP's official  
"minority" report charged the law-  
makers had "failed miserably" to  
cope with corruption, lobby con-  
trol, loan sharks, congressional  
distracting and fiscal problems. It  
blamed one-party control. Texas  
Highway Commission announced  
the highest-in-history operating  
budget for the coming fiscal year  
—\$72,498,650.

SPEED CAUSE OF ACCIDENTS  
An accident prevention special-  
ist for an association of insurance  
companies says: "There is evi-  
dence available that speed is the  
foremost cause of automobile ac-  
cidents, that anyone who refuses  
to recognize this fact is blinded  
by anaemic information, self-right-  
eous emotionalism or pure selfish  
interest."

Australia is the only continent  
lying entirely south of the equator.

## THIS WEEK —In Washington—

With  
Clinton Davidson

There is more talk  
in Washington this  
week about price  
and wage controls  
than at any time in  
almost 10 years.

Congress talks about passing  
stand-by control authority, but it  
won't act unless the President asks  
for that. Mr. Eisenhower says he  
will request authority "only as a  
last resort."

"I believe," he said recently,  
"that if you have to resort, in  
time of peace, to strict govern-  
ment control of prices, of wages,  
services and things, then we are  
abandoning the system that made  
us great."

Top government economists tell  
us that we seem to be going from  
"creeping" to "walking" inflation.  
They can't be sure when it may  
break into run-away inflation.

Living costs, which have been  
going up steadily to a new all-  
time high, are due for another  
boost. Prices will be marked up  
for automobiles, tractors, refrig-  
erators and for almost everything  
else you buy.

The steel price rise triggered  
the increased pace of inflation,  
but it will be helped along by  
higher transportation costs and,  
almost certainly, another round of  
wage increases.

Inflation pinches hardest when  
costs rise more rapidly than your  
income. Farmers, small business-  
men, and retired people on fixed  
incomes, are hit first and hardest.

Those who have saved for their  
old age, or to buy a farm, a home  
or a business, find their savings  
worth less. Life insurance bought  
in years with "hard" dollars de-  
creases in value.

We've been having "creeping"  
inflation now for almost 20 years.  
A dollar will buy less than half

as much now as it did just prior  
to World War II.

Wages and prices have been  
playing leap-frog for years. They  
are like the chicken and the egg;  
no one knows for sure which  
comes first.

Labor demands higher wages  
because prices are higher and liv-  
ing costs are up, and industry  
raises prices because wages and  
other costs go up.

Government costs go up and  
tax rates increase. Taxes for local,  
state and Federal agencies take  
roughly 25 cents out of every  
dollar earned. That adds to infla-  
tionary pressures.

Inflation can give a false sense  
of prosperity. Production of goods  
and services for useful purposes  
is the only true measure of pros-  
perity. We are producing more  
goods for us than ever before.

We have tremendous national  
prosperity, although not shared  
equally by all people. We are buy-  
ing more automobiles, refrigerators,  
tractors, homes and other  
things than at any time before the  
end of World War II.

Prosperity hides, for a time, the  
dangers that lie back of inflation,  
but inflation carries its own seeds  
of destruction — deflation and  
depression. If we cannot prevent  
inflation how can we hope to avoid  
the havoc of depression?

EXPENDITURES  
In a year and a half, total con-  
sumer expenditures in this country  
have increased at an annual rate  
of \$17,200,000,000. However, ac-  
cording to the First National Bank  
of New York, "Fully half of this  
was an illusory expansion caused  
by rising prices."

DON'T SCRATCH THAT ITCH!  
In just 15 minutes. Your 40c back  
at any drug store if not pleased.  
Easy-to-apply ITCH-ME-NOT  
deadens itch in minutes; kills  
germs on contact. Fine for eczema,  
ringworm, insect bites, foot itch  
and other surface itches. Guarante-  
d locally by Shirley-Youree  
Drug.

## Bill Fish and Miss Mary Louise Lanotte Marry Last Friday

Bill Fish, son of Mrs. W. O. Fish of Vivian, and Miss Mary Louise Lanotte, daughter of Mr. and Mrs. C. J. Lanotte of Anson, exchanged marriage vows in a double ring ceremony performed at the home of the bride's parents in Anson on Friday evening, July 19.

Minister Gene Fooks of Paducah performed the ceremony in a beautiful lawn wedding before an improvised altar with flowering crape myrtle in the background, flanked by large baskets of white gladioli.

A chorus composed of Mrs. Leona Tanner, Mrs. Oscar McGinnis, Mrs. Charles Robertson and Thurman Castleberry sang "My Own True Love," "With These Hands" and hummed the Wedding March.

Thurman Castleberry of Abilene, brother-in-law of the bride, served as usher.

The bride, given in marriage by her father, wore a bridal gown of Chantilly lace and nylon organdy over taffeta, modeled with tight-fitting bodice, long sleeves which came to a point over the hands, full skirt ballerina length and a veil of lace. She carried a bouquet of white gladioli and pink roses. She carried out the tradition of wearing something old, something new, something borrowed and something blue, and a penny in her shoe.

Mrs. Johnny Baker of Denver, Colo., sister of the bride, was matron of honor, wearing a pink lace dress over taffeta, modeled after the bride's dress and a halo of pink roses, and carried a bouquet of white carnations.

June Henderson of Vernon, little niece of the groom, was flower girl and wore a blue embossed cotton satin dress with full skirt and trimmed with rhinestones and a halo of pink roses. She scattered petals from a pretty basket.

John Fish, brother of the groom, was best man.

The bride's mother wore a pink silk dress with pink accessories while the groom's mother wore navy chiffon over taffeta with white accessories. Each wore a corsage of white carnations.

A reception was held immediately after the ceremony in the home of the bride's parents. The table was covered with a lace cloth over pink, with bouquets of crape myrtle, petunias, roses and gladioli. A three-tiered wedding cake was cut by the bride and groom and Mrs. W. E. Henderson of Vernon, sister of the groom, while punch was poured by Mrs. Hazel Buice, aunt of the bride.

The couple left immediately for a short wedding trip to Lubbock. For going-away, Mrs. Fish chose a light blue cotton dress with white accessories and a corsage of pink roses from her bridal bouquet.

Mrs. Fish is a graduate of Anson High School and a 1953 graduate of Abilene Christian College where she received a B. S. degree in elementary education. She has taught the sixth grade in Paducah school the past two terms and will teach the coming term. Mr. Fish is a graduate of Paducah High School and has served in the Merchant Marines. He is engaged in stock raising and farming in the Vivian community where the couple will reside.

The following relatives and friends from this area attended the wedding: Mr. and Mrs. Gene Fooks, Mr. and Mrs. Delbert Burks and daughter, June, of Paducah, Mr. and Mrs. W. R. Henderson and daughters, Suzanne and June, Mr. and Mrs. R. L. Walling and son, Danny, Mr. and Mrs. John Fish, Miss Bernita Fish, Mrs. Henry Fish, Martha Fish, Sandra Martin, Egbert and Herbert Fish and Mrs. W. O. Fish, all of the Vivian community.

### THALIA W. S. C. S.

Mrs. Ed Huskey was hostess to the Thalia W. S. C. S. Monday, July 22. Mrs. Robert Hammonds gave the opening prayer. Scripture was read by each member.

"The Heart of a Stranger" was given by Mesdames E. A. Whitman, H. W. Gray, Ed Huskey, Bob Cooper, Duane Naylor. Mrs. C. C. Lamb gave dismissal prayer.

The president, Mrs. L. H. Hammonds, presided over a short business session.

Mrs. Huskey served refreshments to Mesdames L. H. Hammonds, W. G. Chapman, C. H. Wood, Bob Cooper, T. R. Cates, B. A. Whitman, Duane Naylor, T. H. Matthews, Robert Hammonds, C. C. Lamb; three children, Candy Cooper, Dannie and Ronnie Naylor.

### NEVER SEE AN ATOM

You'll never see an atom, unless microscopes far more powerful than any now in existence are invented. According to U. S. News, there are about 6,000,000,000,000,000,000,000 (six sextillion) atoms in a single drop of water.

## Mrs. Bobbie Abston Bills and Lt. Huebner Married in Abilene

The Chapel of the Abilene Christian College, Church of Christ, Abilene, Texas, was the setting for the double ring wedding vows of Mrs. Bobbie Abston Bills, formerly of Crowell, and Lt. Jack Lee Huebner of Houston Saturday evening at 6 o'clock. Dr. Orval Filbeck of the Education Department of the College performed the ceremony.

The rites were exchanged before a candlelighted arch, sided with floor baskets of white gladioli and stock banded in greenery. White wedding bells completed the setting.

The bride, given in marriage by her father, Bob Abston of Crowell, was attired in a silk organza light blue princess styled dress with scalloped neckline and flared skirt. A Caraco type jacket scalloped at the bottom covered the bodice. A matching velvet bandeau held a blue veil. She carried a white orchid atop a white Bible which belongs to her social club, Delta Theta.

Janette Waugh of Dallas, maid of honor, wore a princess style dress of polished blue cotton with matching accessories. She carried a cascade of white fuji mums.

J. M. Glass of Houston was best man. Bill Abston, brother of the bride from Garland, and Jimmy Filbeck were ushers and candlelighters.

Traditional wedding music was sung by a chorus from Abilene Christian College. The chorus was directed by Richard Palm and soloist was Bonnie Smith.

The reception was held in the parlor of Nelson Hall on the ACC campus. House party members included Mrs. Orval Filbeck, Mrs. Pat Means, Mrs. Wayne Potter, Janice Filbeck, Sara Sue Spikes and Doris Martin. The bride's table was centered with an arrangement of light pink carnations. The cake was in the form of double wedding rings.

The couple left for a wedding trip to points in Colorado. For traveling, the bride wore a silk and cotton black and white ensemble with black velvet accessories and white gloves. Her corsage was a white orchid.

Mrs. Huebner is the daughter of Mr. and Mrs. Walter Bob Abston. She is a graduate of ACC where she was a member of Delta Theta social club. She was formerly a secretary for Humble Oil & Refining Company and a member of Abilene Business and Professional Women's Club. The bridegroom is the son of Mr. and Mrs. Levi Jack Huebner of Wichita, Kansas. He is a graduate of Friends University, Wichita, Kansas, and has served four years in the Air Force. At the present he is stationed at Ellington Field in Houston. They will live at 2575 N. MacGregor Dr., Houston, after August 1.

Among the out of town guests attending the wedding were Mrs. Ridley Lewis of Fort Worth, Mr. and Mrs. Paul Southern Jr. of Dallas, Mr. and Mrs. R. H. Bills, Mr. and Mrs. Virgil Maxwell and Dwan, J. M. Glass, Ed Montgomery, Ray Hansford, Mary Ann Reynolds and Carolyn McDuffy of Houston; Mrs. O. M. Grimm, Mr. and Mrs. Raymond Grimm of Thalia; Mr. and Mrs. Rodney Thomas of Fort Worth; Mr. and Mrs. Bill Abston of Garland, Mr. and Mrs. L. J. Huebner of Wichita, Kansas.

Mrs. Huebner was honored with several social events preceding her wedding. She was the honored guest at a luncheon in the home of Mrs. Orval Filbeck. Guests were members of her social club. Mrs. James Walter Nichols entertained with a dinner at which both the bride and groom were guests of honor. Mrs. O. R. Gilliland, assisted by several other close friends of the bride, was hostess to a personal shower where many lovely gifts were displayed for the bride.

The employees of the office where Mrs. Huebner was employed prior to her marriage, surprised her with a party on her last day of work at which time she was presented with an electric skillet. Mrs. Abston and Mrs. Filbeck were hostesses for a luncheon at 1 o'clock Saturday at which time members of the wedding party and a few friends were guests.

### TAX CHECK

Improvements in the procedures for checking tax returns, including use of complicated new machinery, and an increase in personnel assigned to examinations of returns makes for a slightly greater chance this year that your income tax return will get a detailed examination by the Internal Revenue Service. The odds are still something like 25 to 1, however, that any particular return will be audited, except for the routine check on arithmetic that almost all returns receive.

Washington, D. C., became capital of the United States in 1800.

### RIVERSIDE H. D. CLUB

Everyone was inspired to go home and whip up a salad for supper after the Riverside Home Demonstration Club met at the home of Mrs. Roy Ayers Tuesday afternoon, July 16.

Wanda Moore and Janie Bowers, 4-H girls, handed out recipe leaflets on "Salads" and gave a demonstration by preparing a supper salad, which was attractive on a bed of fresh lettuce leaves. They served it with little round crackers.

Mrs. Lewis Kieschnick gave the program on plaster of paris molds by making a plaster of paris figure. "The little animals can be removed easier from their molds with soapy water," she stated as she demonstrated. She also cautioned the ladies to mix only as much of the plaster as can be used immediately because it hardens so fast.

Mrs. Sam Kuehn, vice president in charge of the meeting, called the club to order. The col-

lect for club women was read in unison. The 4-H girls gave a report on their 4-H Encampment. The program, "Drying and Dying for Christmas Bouquets" will be given by Mrs. Grover Moore at the next club meeting which will be Sept. 3 with Mrs. James Bowers as hostess.

Mrs. George Wesley brought a cake which Mrs. Ayers served with ice cold punch to the visitors the club was so glad to have. They were Mrs. Jimmy Moore and daughter, Jean, from Dallas, Mrs. J. B. Fairchild, Mrs. Leslie McAdams, Mrs. Johnny Marr, Mrs. Arthur Sandlin and Miss Bernita Fish, all of Vivian; Trudy Shultz of Vernon, Wanda Moore and Janie Bowers. The refreshments were also served to the members present.

### NEW ALTITUDE RECORD

Captain J. W. Killinger Jr., test pilot for the Air Force, recently rode a plastic balloon to 96,000 feet to set a new altitude record for human beings.

## Red Cross Issues Swimming Manual

A manual to guide parents in teaching their children to swim has just been issued by the American Red Cross and can be obtained at its chapters for 20 cents, the printing and distribution cost, A. W. Cantwell, national director of Safety Services, announced this week.

The 36-page publication, "Teaching Johnny to Swim," was prepared because the Red Cross has found that children under 9 years learn swimming better with individual instruction. Mr. Cantwell explained.

"Since the present number of trained instructors is too small to satisfy fully the need for instruction in classes, to say nothing of individual teaching, this 'do-it-yourself' handbook for parents was developed," he said. "We hope it will help to meet the ever-growing demand for water safety in-

struction." Mr. Cantwell pointed out that the manual emphasizes the parent's responsibility to make the child aware of water hazards and to instill in the boy or girl the desire to be safe in, on, and around water.

"These objectives are just as important as the swimming instruction itself," he declared. "They have become more important with the growing popularity of water sports and the increase, in recent years, in numbers of backyard and community swimming pools and other swimming facilities."

With numerous sketches as illustrations, the booklet describes 18 steps in the process of learning to swim, from the first essential, one of implanting in "Johnny" the desire to learn, through the stages, getting accustomed to the water, prone and back floats, a stroke on the front and on the back, turning over in the water,

and changing positions. The booklet also illustrates simple safety precautions and descriptions of the two approved methods of artificial respiration. They are the sure-arm lift technique, since 1951, and the new mouth-to-mouth resuscitation use on infants, small children and victims of chest injuries.
