### Fewer Grasshoppers Expected in 1963

Grasshopper infestations in the Western and Midwestern states may be much lighter in 1963 than last year, according to a report of the USDA.

The report says the 16 range states surveyed had a total of 7.8 million acres of infested rangeland last fall as compared to 13.5 million acres a year earlier. The USDA's Agricultural Research Service, which conducted the surveys in cooperation with the states, considers an infested acre one that has a population of eight or more adult grasshoppers per square vard. Infested acreage in Texas was listed as just over 67,-000 acres. In 1961 the acreage exceeded a half million acres.

Last year's cold, moist spring along with an unusually wet summer is given credit for reducing the grasshopper population, the USDA says. In spite of good prospects for fewer grasshoppers this year, ARS encourages ranchers to continue control measures against this pest.

### **Airlines Suffering** from Rising Costs

From the New York Times: "The airlines, like the roalroads, have been suffering from rising costs and declining earnings. They spent a great deal to equip themselves for the jet age, which has brought a vast increase in capacity. But the growth in passengers has slowed down, so that planes are flying half empty . . . Competition has been excessive . . . The airlines . . . have not been able to maintain adequate earnings under such conditions."

From the News . . .

# YEARS AGO

News items below were taken from the Friday, Feb. 17, 1933, ssue of The Foard County News:

Roy Barry, formerly of Crowell, is performing in sensational style for the Oklahoma City polo

President-elect Franklin D. Roosevelt escaped without injury and Anton Cermak, mayor of Chicago, was seriously wounded, probably fatally, when a gunman fired a stream of bullets into the Roosevelt party at Miami, Florida, Wednesday night.

The local office of the Texas Natural Gas Co. was moved this week to the brick building just north of The Foard Cuunty News.

Twenty-six victories and no losses-that's the record of the Crowell Wildcats at the present time. This is the largest string of consecutive victories ever scored n Crowell history and definitely brands the local quintet as the outstanding team in this section of Texas and southern Oklahoma.

Born to Mr. and Mrs. Bob Abston Friday, Peb. 10, a girl, Bobbie Ruth.

A truck of the State Highway Department, carrying a large magnet, has been at work on the highways of Foard County this week. It was at work in Crowell Thursday picking up nails and other metal objects on local streets.

Mrs. W. R. Womack was hostess to the Columbian Club Wednesday afternoon.

Mr. and Mrs. C. R. Bryson left Tuesday for Muskogee, Okla., where Mr. Bryson will enter a government hospital for an opera-

William Wisdom scored Crowell's 1,000th point for this basketball season with a field goal late in the game at Wichita Falls Saturday night. The counter at that period of the game brought Crowell's score to 38. Naturally, William, nor any of the other Wildcats, realized this at the time and they calmly went about scoring 11 more points before the game was over.

The Spring Lake Country Club of Crowell has been included in the membership of the Texas-Oklahoma Golf Association, which was organized at Vernon last week. Electra, Vernon and Frederick, Okla., are the other members of the organization at pres-

The first annual conference of the 13th District of the Texas Congress of Parents and Teachers will be held in Crowell on April 11 and 12.

A cured and canned meats show together with a 4-H baby beef show will be held in Crowell Friday and Saturday.

For the fifth consecutive year, Crowell has been named by Texas Interscholastic League officials as the site for the one-act play tournament of District No. 3.

"Grand Hotel," starring Greta Garbo, John Barrymore, Joan Crawford, Lewis Stone, Jean Hersholt and others will be shown at the Rialto Theatre next week.

Program for the Trades Day Association banquet is being arranged by a committee composed of D. R. Magee, T. P. Duncan Jr. and John Rasor.

### \$1.5 Billion Reduction

"The long-heralded reform of equipment depreciation allowances and practices, under the new Guidelines and Rules issued by the Treasury Department, will reduce business tax liabilities by an estimated \$1.5 billion a year," according to a report from Tax Management, a division of the Bureau of National Affairs, Inc.
