REAL ECONOMY IN FOOD

Lies in buying good food—food that possesses a flavor that makes it palatable and enjoyable.

Cheap foods are never worth what they cost. They are usually tasteless and have no value in adding strength to the body.

Did you ever buy a can of cheap food or vegetables? Were you not disappointed and wished you had bought a better grade? Did you ever buy a pound of cheap crackers and wished afterwards that you had paid a cent or two more and got crackers that were really good to eat?

No waste or extravagance in our groceries—the good foods cost no more than the ordinary kind when bought of us.

COLUMBIAN CLUB HUSBAND'S EVENING

On Thursday evening, March 17, the Columbians entertained their husbands with a beautiful St. Patrick's dinner. Madams N. J. Roberts, M. O'Connell, D. R. Magee, Jimmie Self, S. J. Ferguson, Faye Boldeman and Miss Hunter were hostesses. The beautiful new home of Mr. and Mrs. Roberts was opened for the occasion and an inspection "upstairs and down" afforded a pleasing feature of the evening.

Green, the color of the Irish Saint, prevailed in the decorations and in the dainty plate favor of green canons that delivered crown caps, and curious symbols when fired.

A delicious five-course dinner was gamed at 7:30, and a number of gages of 42 were enjoyed through the remainder of the evening.

Mrs. Crawford of Kansas City was a charming guest. Also Misses Lottie Woods and Winnie Self, and Mr. Morris were welcome visitors.

We were all happy to welcome home at this time Mr. and Mrs. John S. Ray who have spent the winter in the "Magic" Valley and Dr. and Mrs. Kincaid who have been in Austin for the session of the Legislature.

We are already hoping for another Husbands' Evening with the Columbians.—A Guset.

Dr. R. E. Maine left Sunday for Dallas to be at the bedside of his wife who is very ill in a sanitarium there.

Mrs. Frank Pittillo visited her mother, Grandma French, near Crowell one day last week.

Mr. and Mrs. A. T. Miller and C. B. Morris and family left Tuesday for Fort Worth where they will spend several days visiting relatives and attending business.

Community Club Notes

On March 16 Mrs. Geo. Cates was the ideal hostess to the Community Club, this day being set aside for the investigation of labor savers.

The previously invited merchants responded with an interest greatly appreciated by the club.

We first examined booklets on built-in conveniences from Cameron Lumber Co., and was especially attracted by the fact that the numerous built-in features were inexpensive and easily installed in any house.

Our next observation was of what could be done quickly and effectively with Ferguson Bros.' paints and lacquers.

Mr. Womack showed us the Gibson ice box pointing out its superiority to other types. He also explained the use and care of the refrigerator. The Star furniture polish which Womack Bros. have is equally good for all kinds of furniture, and simple to apply. Mr. Womack also entertained us with the New Orthophonic Victrola.

Our last demonstration was made by County Agent Rennels with the Junior Burpee canner and sealer. This is the cheapest and easiest way to can as well as the most successful. It is effective in keeping the original flavor and food value of any product—meat, fruit or vegetables. Mr. Rennels who has volunteered his much needed help to the cause of our club, pointed out some of the advantages of living in the country. We gained the impression that we could get as much out of life in rural Foard County as any place we could reside, also that we had as great opportunity for worthwhile service here as elsewhere. We would like to say more on this subject but must give place to the following facts. Mrs. Jim Shook sponsored this much enjoyed and beneficial program and was leader on this occasion.—Reporter.

Worry and Overwork Bring Heavy Strain.

MODERN life throws a heavy burden on our bodily machinery. The eliminative organs, especially the kidneys, are apt to become sluggish. Retention of excess acid and other poisonous waste gives rise to a dull, languid feeling, and, sometimes, toxic backache and headaches. That the kidneys are not functioning perfectly is shown by burning or scanty urine, and people are learning to assist their kidneys by the occasional use of Dan's Pills—a stimulant diuretic. Entered at the Post Office at Crowell, Texas, as second class matter

Crowell, Texas, March 25, 1927

The lecture given by Dr. Smith at the Methodist church Tuesday evening was the best we have ever heard. The lecture was illustrated with stereopticon scenes and pictures from Africa where the doctor has been doing missionary work for some years. It was not only interesting but highly informational. Dr. Smith is a physician and surgeon of unusual skill and has had most remarkable success in Africa curing disease and in promoting the cause of the Christian religion. He returned to America because of the declining health of his wife, but now that she is much improved, he plans to return soon. His lectures over the country will have the effect of intensifying the missionary spirit in this country. We consider it a rare treat to have heard him.

As springtime comes again some of us will be planting gardens on the light of the moon and others on the dark of the moon. We can't give advice about planting but when the harvest comes one crop should always be gathered on the dark of the moon—watermelons.

If the use of firearms and powder could be eliminated from modern warfare and full liberty given the use of the tongue as the sole weapon in talking and lambasting the other fellow the world would find itself filled with well-trained soldiers.

A man took the pants off another in Denver the other day and pawned them for \$7.00 to collect a \$2.00 debt. That fellow was some collector but he was so cold-blooded that he did not even give the poor man a re-seat.

We have always thought if we were going to be some other kind of animal we had rather be somebody's little dog, but those who have tried it say it's a dog on hard life.

In the matter of town building nearly everybody puts his shoulder to the wheel and pushes but often two fellows are seen facing each other.

One good thing about being late in building that hard-surfaced road is that it will not have to be repaired so soon.

Our objection to the radio is that too often the fragments of some program interferes with the static.

REDUCTION IN KEY RATE GIVEN CROWELL

Miss Olga Juniger of Austin was here yesterday inspecting the Crowell school in the interest of the State Fire Insurance Commission. She found that Crowell is entitled to the reduction of 3 per cent on the key rate that that has been allowed Crowell by reason of the teaching of fire prevention in the Crowell schools. Miss Juniger stated that Crowell is one of 383 towns in the State having made this splendid record.

The credit is to be given Superintendent R. B. Underwood and his faculty for what they have done in this matter during the present term of school.

Mrs. R. B. Schooling and small daughter, Joan, of Tulsa, Okla., was here the latter part of last week visiting her brother, Jim Cook, and sister, Mrs. Frank Cates. They returned to Vernon Sunday to visit her sister, Mrs. Marion D. Sloan, formerly Miss Mary Cook. Mr. and Mrs. Sloan are the proud parents of a baby girl born on Feb. 23rd.

Mr. and Mrs. John L. Kilworth left this week for their home in Lawrence, Kansas, after spending the winter at their ranch in the south-east part of the county. Mr. and Mrs. Kilworth have been spending the winter here for a number of years and their many friends in Crowell always look forward with pleasure to their coming.

Don't Scrub the Clothes

There never was a time when scrubbing clothes was good practice. Before the advent of the modern Electric Washing Machine of course, scrubbing had to be done, more or less, but that time has passed. No longer is it necessary to wear out costly garments with the old time method of scrubbing and rubbing.

The new and better way is by the use of our famous Federal Electric Machine which cleans the clothes by a system of oscillation. The clothes are not rubbed to pieces but the dirt is simply drawn from them and they are clean and uninjured by the process.

You can readily see that this adds life to your garments and therefore is less expensive than the old way. Then the cost of operating an electric machine is only 25 cents a month for an average family. Think of it! Less than 7 cents a week! The saving of clothes turns this expense into profit and increases the margin to such extent that a machine will soon pay for itself.

BIG QUESTIONS OFTEN BECOME LITTLE ONES

When you have an account with this reliable bank to aid you in their solution.

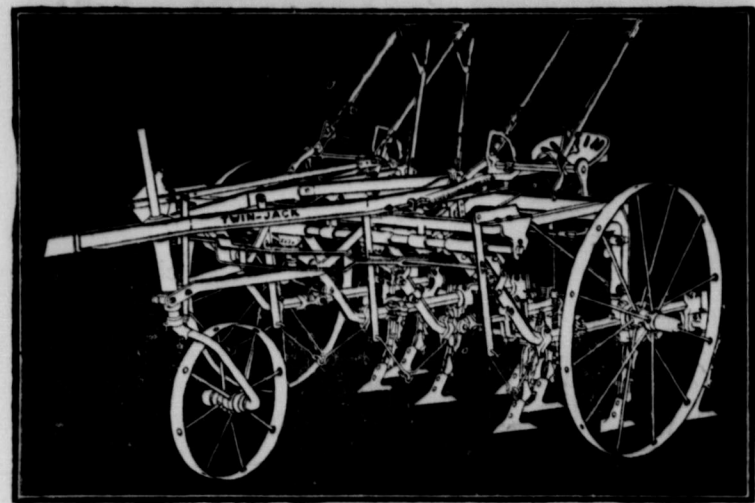

It is true that ready money will not solve all of life's problems, but it smooths the road past many.

An account gives a sense of security that makes the average problem seem inconsequential. It is a salvation in time of unexpected need and lessens the burden of trouble when it comes.

You really can't afford to be without one. Start an account today—it may stand you in good stead when you least expect to need it.

AVERY TWIN-JACK CULTIVATOR

Easy on both man and team

Avery engineers did a big job in eliminating strain on the operator and lightening the work of the team when they designed the famous Jack Rabbit Cultivator. In the Twin-Jack they have repeated their success, this time in a two-row cultivator that is simple to operate—and easy on both man and team.

The Twin-Jack is sturdy, durable, flexible, easy to handle and comfortable to ride. It has a strong, rigid main frame that will not twist or sag under the hardest conditions. The frame is in perfect balance at all times, with the result that manipulation requires

but minimum effort, the horses are spared sore shoulders, and more ground is covered per day with less fatigue.

Each pair of gangs is controlled by two independent levers, the inside lever raising or lowering the pair simultaneously, when desired. By means of an easy pressure on the stirrups the wheels may be angled to right or to left.

We will be glad to explain the many efficient, time-saving features of the Twin-Jack—or demonstrate at your convenience. There is no obligation.

There is a full line of famous Avery walking, riding and tractor plows, tillage implements and Champion harvesting and haying machines

WHAT'S DOING IN WEST TEXAS

(By West Texas Cham. of Com.)

McCamey—Construction is under way by the Orient Railroad on additional storage trackage. When completed, the car capacity of the Orient's yards will be increased 175, making a total capacity of 1,010 cars.

Sweetwater—At the suggestion of the West Texas Chamber of Commerce, Judge W. C. Crane has suggested the name of Tonkawa Hills for a picturesque wooded range extending toward Buffalo Gap. The name suggested would perpetuate a tribe of friendly Indians who aided the pioneer Texas plainsmen against the Comanches. Manager Wade has been asked to lend support of the West Texas Chamber of Commerce in securing legislative designation of the name "Tonkawa Hills."

Chillicothe—Five new brick buildings are being erected by Wofford Brothers, west of the Touchstone & Lincecum Motor Company. The contract, let to J. K. Stucky, calls for a modern fire proof tile and concrete building to be 115x80 feet. This makes a total of 13 brick and concrete business houses to go up in Chillicothe in the last three years.

Jeff Davis—The Jeff Davis County Chamber of Commerce has been organized with more than forty paid members. A membership of 75 is expected before complete organization. One of the first official acts of the newly formed body was to take out five memberships in the West Texas Chamber of Commerce.

Wichita Falls—Scores of towns are already sending in their names promising to bring large delegations to the annual convention of the West Texas Chamber of Commerce to be held here May 16 and 17. Active interest in the part to be played in the mammoth pageant of nations is displayed. Lots are to be drawn by the various towns who will send delegations to see what nationality they will represent in costume, colors, and flags in the huge pageant.

Lefors—Contract has been let for the construction of a modern sanitary water and sewer system here, and work has already begun.

Cross Plains—A kidnapping party of some 100 citizens of Cross Plains will attend the Oil Belt District Convention of the West Texas Chamber of Commerce at Baird, March 23. The big delegation plans to capture President Arthur P. Duggan and Manager Homer D. Wade of the regional organization and take the two officials to Cross Plains immediately following the convention session. There the chamber heads will address a big general assemblage, and will initiate a speaking tour of the Oil Belt District, details and itinerary for which are now being worked out. The Cross Plains delegation is organized solely as a good will representation according to F. G. Gwin, secretary of the local chamber of commerce.

It gives us the greatest of pleasure to record so many names as ones

who are passing in all of their work. If your children are in high school and their names do not appear on this list, it might be worth while to do a little investigating and thereby determine whether or not they are doing any home work. Not many children can hope to get through school and make all of their work as they go unless there is some home study done. I assure you that as parents that the teachers will appreciate it very much if you will lend us a helping hand in trying to get every child in this school to do at least a passing grade of work for this six weeks period.

Respectfully,

fully outlined report which is really the foundation of the organization and the importance of which cannot be over-estimated.

Mack Boswell, secretary, made a general report and also a report for the publicity committee which is composed of the following members: George D. Self, chairman; J. W. Beverly, Lawrence Kimsey, E. Swain, Jesse Owens, T. B. Klepper and John Myers. Statistical information is now being gathered by this committee and the board granted the secretary permission to publish a mimeographed brief on facts and statistics of Foard County through the publicity committee as soon as this information can be gathered.

Permission was also granted the secretary to publish a monthly mimeographed publication for the organization.

H. K. Edwards, chairman of the membership committee, reported that a meeting of his committee would be held as early as possible and a special effort would be made by his committee to meet the budget as outlined in C. V. Allen's report. Members of the membership committee are, Sam Bell, O. O. Hollingsworth, A. Y. Beverly, Leo Spencer and Henry Ferguson.

The West Texas Chamber of Commerce Convention to be held at Wichita Falls in May was discussed, however, no action was taken and the matter was turned over to B. W. Self, director of conventions, and a report to be made by him at the next meeting.

Directors present at the meeting were: J. F. Long, J. W. Bell, B. W. Self, H. K. Edwards, Gordon Bell, M. S. Henry, C. V. Allen and Mack Boswell, secretary.
