CROWELL, FOARD COUNTY, TEXAS, THURSDAY, FEB. 27, 1958

EIGHT PAGES

## 4-H Club Week to Be Observed Here March 1 to 8

Two hundred and forty-five Foard County 4-H members will join the nation's 4-H Club members—more than 2,200,000—in observing National 4-H Club Week from March 1-8. They will not only salute their parents, but all parents and will recognize the important part that parents play in guiding and influencing youth.

The 111,535 Texas 4-H Club members were recognized by Governor Price Daniel in his greeting to them when he said, "As 4-H members you have contributed much to the material wealth of Texas and the Nation in raising the quality of agricultural production, but you yourselves are our richest resource. May you continue to build yourselves, your homes and communities during the coming year, and thus help build a greater America." The Governor also saluted the parents, adult leaders and friends of 4-H for the contributions they have made to the 4-H program in Texas.

The Texas 4-H members last year completed more than 154,000 demonstrations involving practically every phase of farming, ranching and homemaking. They are members of 4,027 local 4-H clubs and received assistance from 10,068 local adult leaders and 3,210 junior leaders. Local county extension agents provide the leadership for 4-H club programs in the counties.

Members of 4-H clubs, individually and as a group, participate in community service activities. Any boy or girl between the ages of 9-21 years of age may become a member by agreeing to follow 4-H ideals and standards. The chief requirement is a willingness to "learn to do by doing," which is the club slogan, and "to make the best better," which is the club motto. Character development and good citizenship are long-time goals.

Observances of the special week are being planned in most counties in Texas. The general public is invited to participate in the local observances and to learn more about this great rural youth organization which over the past half century has helped 20,000,000 youth develop into useful citizens.

## Ed Manard Honored With Surprise Birthday Party Last Friday

Mrs. S. E. Tate, Mr. and Mrs. Earl Manard and son, Mike, honored Ed Manard with a surprise birthday party on Friday night, Feb. 21, in the Earl Manard home. Games of forty-two and dominoes were enjoyed, after which the many and useful gifts were opened and displayed.

Ice cream and cake were served to the twenty-six guests in attendance.

## THREE NEW VEHICLES

Three new vehicles were registered in the office of P. W. Taylor, sheriff, tax assessor-collector, from February 10-15 and are as follows:

Feb. 10, Fred R. and Mary F. Fehlan, 1958 Chevrolet 4-door; Feb. 15, Carroll Brothers, two 1958 Chevrolet pickups.

## Mother of Crowell Man Succumbs in Jacksboro Thursday

Funeral services for Mrs. T. Nichols, 87, were held Saturday, Feb. 22, from the First Methodist Church in Jacksboro with Rev. Roy Anderson officiating.

Mrs. Annie Nichols died last Wednesday about 10:45 p. m. in a Jacksboro hospital. She was a resident of the Maryetta community in Jack County since 1936. Mrs. Nichols was born June 2, 1870, and married Mr. Nichols in 1888 in Crawford.

She is survived by three daughters, Mrs. Mary Winters and Mrs. Ed Gleason of Jacksboro and Mrs. Wes Tipton of Denton; five sons, E. A. of Shamrock, N. A. of Crowell, George of Olton, Troy of Mankins and Jack Nichols of Jacksboro; 31 grandchildren, several great and great great grandchildren; a brother, John Pults of Maryetta; two sisters, Mrs. Minnie Cooper of Jacksboro and Mrs. Annie Brown of Houston.

She is a former resident of the Antelope Flat community in Knox County.

## CORRECTION

The location stated by Tennessee Gas Transmission Co. on Bowley land as listed in last week's issue of the News, should have been "Bowley Estate" instead of "A. Bowley Estate."

REV. BERL CAVIN

## Revival to Begin Sunday at First Baptist Church

Rev. Berl Cavin, son of Mr. and Mrs. Charlie Cavin of Crowell, will be the evangelist in the revival at the First Baptist Church March 2 through 9. Rev. C. T. Aly, pastor of the church, announced this week.

Bro. Cavin attended Crowell high school and Howard Payne College at Brownwood, and Southwestern Baptist Theological Seminary in Fort Worth. After a number of years in the pastorate at Vera and Dublin, he is now pastor of the Wylie Baptist Church near Abilene. Last year he led the Wylie church to win the district award for the achievement and recognition program, promoted by Texas Baptists. He is a successful evangelist not only in his home church, but in frequent revivals in churches throughout the state.

Mrs. Cavin will play the piano for the revival services at 10 a. m. and 7 p. m. The pastor will lead the singing.

Rev. Aly stated that "Crowell citizens have a right to be proud of our native son and his wife. An invitation is extended to the entire community to attend the services at the Baptist Church and hear Bro. Cavin preach and Mrs. Cavin play the piano."

## Eastern Star Honors Foard County Masons and Wives Monday

About seventy-five Foard County Masons and their wives were honored by the Crowell Eastern Star Chapter last Tuesday night with a salad supper and program at the local Masonic Hall.

Mrs. Doris Gentry, Worthy Matron of the Eastern Star, was in charge of the program and introduced Mrs. Vena Hudson of Clarendon, Deputy Grand Worthy Matron, and Mr. Hudson.

Mrs. M. N. Kenner led the group in the pledge of allegiance and Mrs. W. A. Dunn led group singing of "America," with Mrs. Bonnie Davis playing piano accompaniment. Mrs. Davis then gave a humorous reading.

The last number on the program was a skit given by the following Eastern Star members: Mrs. Cecil Carroll, Mrs. Walter Cates, Mrs. Bill Moore, Mrs. Gentry, Mrs. Roy Barker, Mrs. Kennor and Misses Lottie Russell and Odessa Moore.

## New Carroll Bros. Well Has Potential of 444.10 Barrels

J. M. Leonard of Fort Worth has reported a daily potential of 444.10 barrels of 37 gravity oil for No. 5 Carroll Brothers, in the Raspberry (6100 Caddo) Field of Foard County.

Flow was through quarter-inch choke from pay perforated at 6066-77 feet, with hole bottomed at 6110. Casing pressure was 400 pounds, with 100 pounds pressure on tubing. Gas-oil ratio was 200-1. Pay was treated with 500 gallons of acid.

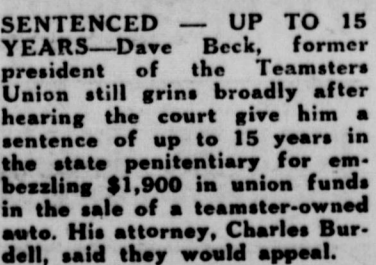

Well is 14 miles west of Crowell, in section 25, block A, SPRR survey.

## .06 Inch Moisture Recorded Last Week

Cloudy weather which prevailed over Foard County most of last week, and was accompanied by an occasional very light drizzle, left a total of .06 of an inch of moisture. The weather cleared up Sunday afternoon, and spring-like weather was on hand Monday and Tuesday. A norther blew into this area Wednesday, dropping the temperature from 66 to 50 in 2 hours.

High and low temperatures for the past week follow:

Feb. 20: high of 42 at 2 p. m. and low of 38 at 2 a. m.  
Feb. 21: high of 51 at 3:30 p. m. and low of 40 at 6 a. m.  
Feb. 22: high of 54 at 5:15 p. m. and low of 46 at 3 a. m.  
Feb. 23: high of 63 at 4 p. m. and low of 42 at 5:45 a. m.  
Feb. 24: high of 68 at 2:25 p. m. and low 43 at 7 a. m.  
Feb. 25: high of 72 at 3:15 p. m. and low of 43 at 7:10 a. m.

SENTENCED — UP TO 15 YEARS—Dave Beck, former president of the Teamsters Union still grins broadly after hearing the court give him a sentence of up to 15 years in the state penitentiary for embezzling \$1,900 in union funds in the sale of a teamster-owned auto. His attorney, Charles Burdell, said they would appeal.

## Raspberry Field Continues to Grow With 45 Producers in Less Than Two Years

## Crowell High School Basketball Team Finishes Successful Season Last Week

Crowell High School boys lost to Holliday High School 59 to 43 in the final basketball game of the play-off series at Holliday last Thursday night for the District championship of 1A-11. Crowell was representing the western half of the District and Holliday the eastern half. Holliday had previously defeated Crowell here 71 to 58 in the first play-off game.

The Holiday boys were not quite as "hot" in this second game

## Public School Week to Be Observed in Crowell Schools

Due to the bi-district basketball game between Crowell girls and Hurst-Eulless girls being played at Olney Tuesday night, the Open House visitation program will be confined to the Crowell Grammar School, with refreshments being served at the school cafeteria. The building will be open at 6:30 o'clock. All patrons are urged to visit classrooms and observe children in regular class work throughout the week.

There will be a regular P. T. A. meeting on Wednesday, March 5, at 2:45 p. m. Mrs. Cecil Carpenter will talk on "How Fare American Youth?"

A spelling contest, to determine who will represent Thalia School at the County Spelling Bee, will be held at 1:30 p. m. Thursday, March 6, in the school auditorium with John Wright as pronouncer. The public is invited to be present for this event.

## Services for Mrs. A. J. Dockins Held Last Thursday

Funeral services for Mrs. A. J. Dockins, long-time Foard County resident, were held in the First Baptist Church last Thursday afternoon at 2:30 conducted by Rev. H. H. Haston of Paducah, pastor of the Crowell Free Will Baptist Church, assisted by Rev. Warren Everson, pastor of Crowell Bethel Church.

Music for the services was furnished by Rev. C. T. Aly and Mrs. Buster Cates, who sang three duets with Mrs. W. W. Lemons as accompanist. The songs were "Near to the Heart of God," "Over There," and "Never Grow Old." Rev. Aly sang as a solo, "Sunrise Tomorrow," with Mrs. Lemons as accompanist.

Burial was in Crowell Cemetery directed by Womack Funeral Home.

Pall bearers were Oscar Gentry, Roy Barker, Oscar Whitley, Charles Branch, Ruel Scott, Doris Gentry, Wayne Dishman and Homer Ketchersid. Flower bearers were Mrs. Bettie Gaffori, Mrs. Bulah Holcombe, Mrs. Eunace Haston, Mrs. Ruby Lamb, Mrs. Mattie Polk and Mrs. Minnie Milburn.

Out of town relatives attending the funeral were Mr. and Mrs. Virgil Dockins and children, Wesley Sherill, Jerry, Kenneth and Carolyn, of Hamlin; Luther and Otto Dockins of Spearman; Mr. and Mrs. Edd Thorn and children, Barbara, Sharon and Beverly, of Odessa; Will Perryman and daughter, Mrs. Clifton Brockett, of Petersburg; Earl Perryman of Lubbock.

Friends from out of town were Mr. and Mrs. Ray Austin of Amarillo, Mr. and Mrs. Jake Tarter of Wellington, Mrs. Julian Wright, Mrs. Laura Giddings and Mrs. Jimmy Geer of Vernon; Mr. and Mrs. John Hulen of Breckenridge and Mr. and Mrs. Granville Thomas of Ranger.

## Mrs. K. H. Wehba Hurt in Fall at Home

Mrs. K. H. Wehba, 91, mother of Fred Wehba, was returned to the Foard County Hospital from the Wichita Falls General Hospital Monday. Mrs. Wehba's right leg was broken in two places in a fall at the Wehba home last Thursday and she was taken to Wichita Falls Friday in a Womack ambulance, where she received treatment. Mrs. Fred Wehba accompanied her to Wichita Falls. Her condition is reported to be excellent.

North Texas operators are taking a harder look at the Raspberry Caddo conglomerate field centered about nine miles northwest of Crowell in Foard County.

Opened in the summer of 1955 from the 6,100-foot level, the field has seen quiet, steady development since with the producer completion count now near 45. Work to date has been limited to six operating organizations.

Development has been along a northwest-southeast axis, and overall extent of the producing area is now about two miles. Pay is found across the center of the field to about the same distance.

To the present only four failures have been drilled in the field, considered by North Texans as a pretty good record for their sometimes erratic oil history. One of these failures, the first well drilled in what is now the field area, actually set up the discovery operation.

The initial exploration was made by the old Lucerne Corporation of Dallas and Dilworth Hager, a veteran Dallas geologist. It was drilled near the north line of section 27-A-SP on C. A. Bowley land. The test had Caddo pay indications and was cased for prolonged, but unsuccessful, completion attempt.

With this encouragement, Lucerne and Hager regrouped with Magnolia Petroleum Company and moved about a half mile north to near the center of section 26 for the second hole. This operation, on Maude E. Raspberry land, was a deepening project covering an old 5,776-foot failure drilled earlier by Ohio Oil Company.

Successful oil completion was made on this well in June, 1955, and the Raspberry field came into existence. Quick developments added three more producers around the center of section 26 after which work was suspended to absorb discovery allowable rights.

It fell to Tennessee Gas Transmission Company, Houston, to kick off the field's enlarged development program. This came when the firm moved about a half mile northwest into section 36 and drilled the pool's first extension producer. That brought Humble Oil & Refining Company into the work picture as it held lease on south off-acreage in section 35.

Continued development brought in other operators. This included Kadane-Griffith Oil Company, Wichita Falls, who made a development deal with Hager. Magnolia in the meantime had absorbed the Lucerne interest.

Texas Company joined in developing its 640-acre lease covering section 23 immediately east of section 26. That firm is now finishing its eighth producer on its lease. Structural dip is being shown on the east, but good production continues to be maintained.

J. M. Leonard, Fort Worth, is busy developing his 320-acre Carroll Brothers lease in section 25 immediately north of section 26. His fifth well, and farthest north yet, was recently completed for 441.1 barrels per day through quarter-inch choke. Field pay limits are still open in this direction and structure is being maintained.

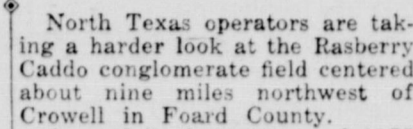

Humble also has come back into the picture with a northeast edge location in section 24, off-setting the Leonard lease on the east. The field has been closed off on the northwest with a couple of dry holes by Magnolia on west off-set acreage to Tennessee Gas Transmission's lease in section 36. The pay limits also have been closed off on the west-southwest side with a failure by Kadane-Griffith in the southwest quarter of section 26.

Southeast Extension These failures, in addition to the field's original first exploratory hole, are the only ones recorded in the 2 1/2-year development. Latest move to give Raspberry new emphasis and open the southeast end to additional development came when Tennessee Gas Transmission moved into the northeast quarter of section 22, diagonally southeast of section 26, and drilled an extension producer late last year. Now that firm is developing its quarter section and also has joined Magnolia in testing out the northwest quarter of section 22.

Successful development in the north half of section 22 will bring more operators in the work picture. Shell Oil Company holds lease on the southeast quarter of section 22 and the south half of section 15 immediately east of section 22. Hunt Oil Company and Ohio hold the north half of section 15, and south of that section, Hunter & Rowe, Dallas, independent, hold lease on the north half of section 16.

With 400-barrel daily well completions and an expanding territory, Raspberry is being watched closely. Another factor is sustained production maintained by the producers. The pay section averages about 37 feet, allowables ranging from 66 to 111 barrels per well per producing day, are easily made. This goes for the field's earliest completions.

An outlet for the field's top grade crude is provided by Torop to Pipeline Company, Dallas. (Taken from the Monday, Feb. 24, issue of The Dallas Morning News.)

CHARLIE H. WOOD

## Will Retire Feb. 28 After 40 Years As Rural Mail Carrier

Charlie H. Wood will retire as rural mail carrier on Route 1, Thalia, February 28, after more than 40 years service on the same route. Mr. Wood began as temporary carrier on this route Feb. 1, 1918, and worked four months at that time.

In World War I, he joined the U. S. Army June 26, 1918, and was discharged Feb. 18, 1919. He returned to Thalia and took up his duties on the Thalia Route.

In those days Mr. Wood used a horse and the typical old mail hack. Then in 1921 came the Model T Ford days, lasting until 1928, then a Model A, then a Whippet. In 1930 he began driving Chevrolet and wore out seven new ones. In 1957 he began using Plymouths, having bought four new ones up to 1955 when he bought a Dodge. For about ten years he used an army jeep for muddy days.

Mr. Wood was off duty about 40 days in 39 years. Last year he spent five weeks in a hospital in Amarillo at the age of 64. He is retiring with pleasant memories of his forty years' service and with no wrecks on the job, and with a host of friends and no enemies (he hopes). He has enjoyed the long service as a rural mail carrier to the fullest.

Pat Prosser divided scoring honors for the winners in these games. Helen Taylor scored 28 points for Archer City in the first game and 25 points in the second contest. Roxiann Adkins, D'Lois Shultz and Sandra Simmons looked just as good on defense for Crowell. Other Crowell girls who played as much as one quarter in each game were Mary Ann Myers, Helen Vessel and Lois Ann Painter.

Mary Akers, Carolyn Aydelotte, Ruth Ellen Short, Margaret Faske and Dorothy Denton also represented Crowell in these games.

## Grade School Boys Win

In a preliminary contest Tuesday night, the Crowell Grade School boys team, coached by Gordon Erwin, defeated Iowa Park 36 to 20 in a play-off contest toward a district championship. These same two teams play again at Iowa Park Monday afternoon.

## Subscriptions to Foard County News

Subscriptions to The Foard County News received since Feb. 13 follow:

G. M. Sikes, Route 2, Crowell; R. L. Smith, Route 2, Crowell; J. C. Wisdom, Thalia; Grace Norris, Dallas; Mrs. Frank Brisco, Crowell; E. M. Gamble, Route 2, Crowell; Jerry Tomaneck, Truscott; Wynne's Press Clipping Bureau, Livingston, N. J.; Mrs. C. C. Lowry, McKinney; O. R. Boman, San Juan; J. V. Allen, Houston.

Rev. Robt. O. Cooper, College Station; Mrs. J. E. Harwell, Lawton, Okla.; Jack Gilland, Route 1, Crowell; Joe M. Glover, Crowell; Mrs. E. Swaim, Crowell; Mrs. Glenn Richards, Stephenville; Mrs. Ted Kociela, Roseville, Mich.; Paul Shirley, Crowell; Mrs. Julian Wright, Vernon; D. L. Owens, Knox City; Ben Bradford, Knox City; Herman D. Sandlin, Beeville; M. T. Meason, Big Sandy; Mrs. L. D. Massie Jr., Lubbock.

## Carolyn Denton Wins Crowell Spelling Bee

Carolyn Denton, Crowell Eighth grader, became Crowell's representative in the Foard County Spelling Bee Friday, Feb. 21, when she defeated five other contestants in the spelling bee held at Crowell High School.

Carolyn spelled "abbreviation" and "abdomen" correctly to win the contest after Jo Wynn Ekern, a 6th grader, misspelled "abbreviation."

Other room winners who competed were Pat Brown, Rhetta Cates, Ruth Sanders and Genell Wheeler.

Carolyn, daughter of Mr. and Mrs. Allison Denton of Foard City, will enter the Foard County Spelling Bee which will be held at Thalia on March 12.

Editorial

WHAT'S OUR ATTITUDE?

Attitude is defined as: the positions assumed to serve purpose. We are known by the attitude we keep in everything we attempt. People do not judge us by the cash in our pocket book, but by our attitude toward money. Our friends do not look at our tattered clothing; they see only our reaction to some unfortunate condition.

A job is really of very little importance. The thing of real importance is our attitude toward the job. If we like our work, our school, our friends, we find them satisfying and challenging; we are on the road to success. If not, we are set for an unhappy life.

The song bird sings away its grief. A person with the right attitude does too, for he has learned it hurts a little less to smile.

than to drown in a sea of self-pity.

As students — those who want to get the most out of our high school days, take advantage of every opportunity—but those who wish to "loaf" and fool away the time are wasting the most precious years of life.

Yes, we can be studious-lazy, happy-unhappy, cooperative-uncooperative, courteous-discourteous; it's mostly in the way we look at life. Each can make his life a blessing—or a curse—for "our outlook on life is life itself." It all revolves around basic attitude, around being what we want to be! Life is what we make it—and our attitude is the determining factor.

TATTLE TALE

Triangle of the week: Janie Wright, Jimmy Werley, Pat Prosser.

Danny - Lu Ann, Billy - Linda were seen together last Tuesday night.

Grady seemed happy over the week end. Reason: A certain girl from Hereford was in town.

Dianne, what happened last Sunday night? The scandal bug knows. Who is that freshman boy who has his eye on Carol Bell? The scandal knows!

David-D'Lois are going steady now. Good luck, kids!

We hear Dianne nearly got the back of her little red Ford smashed in. What about this, Dianne?

Something new in the line of steadies, Linda Teague - James Cummins and LaRue Diggs-Tommy Bevins. It looks as though Vernon has taken over.

Seen double dating Saturday night were Janie B. - Charles C., Alta Nell-Jimmy Mack.

Why was Janie B. so excited over the week end? Did a certain boy from Lubbock have anything to do with it?

Could Mr. Carson be the reason why Taylor Johnson and Bobby Barker won't be making trips to Quanah for a while.

We hear some couples had quite a time at a sand pit. Better be careful.

Couples seen in the Plaza Saturday night were: Sonny-Elizabeth, Jerry Bob-Gayle, Jimmy-Jana, R. H. Wanda, Donald-Sandra, Kerry-Shirley, David-D'Lois, Gerald-Roxie, Jimmy-Pat, Bill-Judy, Ted - Carolyn.

We're glad to see you back in the CHS halls, Roy Don.

Seen at the Plaza Sunday were Jimmy and Lynn.

Cooking supper for their beaux (Jerry Bob, David, Gerald) were

Gayle, D'Lois and Roxie.

Also cooking supper Friday night were Sandra and Jana for Donald and Jimmy.

Seen together Friday night were Jimmy-Lynn and George-Starlene.

Well, guess who was seen Friday and Sunday nights. None other than Bettie Linda and Ray.

Fredrick, we hear that you had some trouble Sunday.

What were Jack Wishon-Kay, Alta Nell-Billy Gene doing walking to town Friday night? Could it be that Jack backed his car into the Country Club.

Man, did "Prunie" have fun visiting Dallas Christian College. We hear she even found a beau.

Say, everybody, don't forget the Jr.-Sr. banquet on April 3. You had better get your dates now.

ATTEND BAND FESTIVAL

Mr. Hesse, Noel Wilkins and James Choate made a well-earned trip to the annual State Band Festival in Galveston last Thursday, Friday and Saturday.

James Choate was awarded a place in the State Concert on Sightreading Band by earning a first chair rating at the Region Band Clinic. After the try-outs in Galveston, he was selected for seventh chair trombone in the State Concert Band.

Noel Wilkins won the right to try out for the State Band. The final winners are selected from letters sent in by the contestant. Since our district has previously held this position, Noel was not selected as an active member of the band.

Even Mr. Hesse earned a playing position in a band. For the first time, a Directors Band was included in the State Band festivities. He played clarinet with the organization.

The boys and Mr. Hesse arrived in Galveston about 8:15 Thursday morning. Position try-outs began at 8:30, so they went straight to work.

Concert band and sectional rehearsals followed the selection of the players, and continued through Thursday afternoon, Friday and Saturday morning. A concert presented by the State Concert Band, State Choir, and State Orchestra, held on Saturday night, completed the program.

When asked if they enjoyed it all and had a good time, James, Noel and Mr. Hesse enthusiastically answered "Yes!"

CAT SCRATCHES

Well, here I am in body, but not in spirit. After that trip to

OFFICIAL VISITOR — Wearing a Pakistani Army Colonel uniform, Prince Aly Kahn (l.) newly appointed Pakistani representative to the U. N., greets U. S. Ambassador to the U. N., Henry Cabot Lodge on his arrival in Karachi, Pakistan. Lodge is on a goodwill tour of Asia.

Galveston, I don't know whether I'm here even in body!

Yes, I went to Galveston with Noel, James and Mr. Hesse. I hid in the back of the car; when I was discovered, it was too late to send me back, so they let me go along too.

I had a great time—that is—whenver I wasn't lost! There were so many high school kids there that I was forever getting lost and stepped on.

There were some wonderful musicians there—especially the tympani player. He played so loud that he broke a tympani stick; up it flew, fell, and hit me right on the head! I don't know what happened after that because everything went black.

On the way home Mr. Hesse took one of his famous "detours," and he ended up stuck in a cow pasture with the rain pouring down in torrents. We had to get out and push at 2 a. m.!

Well, so long, I think I'll go take a nap.

Tabby.

SPEECH CLASSES HAVE DINNER IN QUANAH

The two speech classes, under the supervision of Mrs. Bursay, made a much enjoyed trip to Quanah on Thursday night of last week for a dinner. The students piled into a bus at the school, and after singing and making general happy confusion all the way to Quanah, the dinner, served at Dutch's Cafe, was excellent. Everyone ate too much.

The table featured a lovely centerpiece of red carnations. A place card and program awaited each person at his seat.

The people to be on the program were kept secret, but the evening revealed that Bill Taylor was toastmaster. Linda Johnson gave the invocation.

First on the program, following the fried chicken dinner, was Melvin Wheeler with a comical reading entitled "The Preacher Comes to Visit." Louis Sprague followed with a delightful pantomime of English royalty. Mrs. Bursay contributed her part to the program in the form of a clever reading about a college boy's first date.

Then came the big event. The main speaker of the evening was announced. Actually, there were two main speakers. The speech classes voted on the speaker, and it resulted in a tie between Jo Frances Long and Judy Borchardt.

Judy spoke first, giving a light, comical talk on the "dangerous" teenagers that inhabit our country.

Jo Frances, oddly enough, talked about teenagers too, but in a more serious vein. Her talk, "Teen Jive," showed teenage life to be a time of growing and training to be the future leaders of our country.

The entertainment closed with this, and everyone filed back into the bus, very contented after a wonderful evening.

The students that attended the dinner were Linda Johnson, Charlotte Sledge, Miles Welch, Barbara Goodwin, Charles Carroll, Dorothy Wehba, Louis Sprague, Sally Dixon, Ben Ferguson, Gary Griffith, Mary Anne Myers, Patricia Pittillo, Melvin Wheeler, Wanda James, Judy Borchardt, Bill Taylor, Jo Frances Long, Gordon Fish, Martha Fish and Rachel Rodriguez. They wish to thank Mrs. Bursay for arranging the dinner and Mr. Bursay for driving the bus.

SENIOR "IDIOTS" OF THE WEEK

This week, I interviewed two senior idiots, Lord Gregory and myself.

Well, my name is Charlie Bell, but "Spider" Bell is gradually becoming the name I am known by. I am 6' 2" tall, have brown hair, and a pardon me while I look in the mirror, green eyes!

My favorite subjects are English IV and American History; Algebra II is my hardest.

I am on the annual staff, and I occasionally write articles for famous senior personalities for the Wildcat Staff.

My favorite food is quail and I enjoy shooting them as well as eating them.

I have no favorite type of music; the reason for this being that the only music I hear is that on

TV commercials. Hunting and fishing are my chief hobbies, and football is my favorite sport.

After I get out of this "building," I plan to go to college somewhere and further my education. So to myself I say, "Good luck, buddy, 'cause you'll need it!"

P. S. Because I am not "conceited," I left room for another senior boy in this column. Look for him, he's here somewhere.

Lord Gregory Crabtree

Have you noticed a tinge of "aristocratic" air on the campus lately? Well, if so, it's because we have a new senior student with us.

Lord Gregory Crabtree, or "Appleblossom" as his friends call him, is 8 feet tall, weighs 110 pounds, and has cute pink eyes. He had curly blond hair until he met up with a certain acetylene blowtorch.

Among his favorite hobbies are shoeing horses, de-horning buffaloes, catching one eyed catfish out of a bath tub, hunting dodo birds with a sling shot, and teaching red ants the art of becoming ballet dancers.

His favorite food is baked bizzard legs, along with tasty tidbits of turtle eggs and roasted skunk hide. Of course, no Englishman's day would be complete without tea and crumpets, but "Appleblossom" prefers goat milk to the tea.

Lord Gregory's favorite subject would naturally be English, but his hardest subject is American slang.

His favorite sport was soccer, but he learned to hate it when he "busted" his shin three times in his first game. He is a socialite from years back. "Appleblossom" belongs to the "Sit 'n Knit Club," and also to the "Professional Chess Society."

After graduation, Lord Gregory plans to return to his home in England. May you have just as much luck, Crabtree, swimming the Atlantic back to England as you did when you swam it in order to arrive here! Cheerio, bloates.

(P. S. Any similarity to people living, dead, or created is purely coincidental; I hope.)

MOON WAVES

Greetings! Ready to go? We've tuned in on the moon now, so here we go for the second visit with the Greencheeses.

As we move toward the Greencheeses' home, we find the two young Greencheeses playing out in the rock garden. They are Pee Greencheese, 16 light years old and Wee Greencheese, 3 light years old. They seem to be having a lot of fun with their pet baby lizard, Redeye, who is only five feet long. When Redeye becomes a full grown lizard, he will be ten feet long. The lizard is one of the smallest animals on the moon. Also, it is one of the most lovely. The color of this lizard is a delicate chartreuse with little stripes of glowing pink. It has very good eyesight out of the one bright red eye in the center of the head.

Oh no, the lizard has spotted our TV camera! He is coming nearer, nearer! (Of course, he is harmless!)—Bang—oh great! The "harmless" baby lizard has knocked out our main TV camera! Well, that's all for today, folks!

GIRLS' BALL TEAM WINS FIRST GAME IN DISTRICT PLAY-OFF

The Crowell girls basketball team journeyed to Archer City last Friday night for the first of a three game series to determine the winner of the district. Crowell won with a final score of 58-45.

Gayle Taylor, No. 18, was high point player of the game scoring 24 points. Judy Vaughn scored 14 points, Pat Prosser 13 points.

The guards did excellent playing too. Roxie Adkins, Sandra Simmons, D'Lois Shultz, Helen Vessel and Louis Painter were guards for Crowell.

PICTURES, PICTURES, PICTURES!

Last Tuesday, pictures for the annual were taken of the following organizations: Student Council, FFA, FHA, Spanish Club, Dramatics Club, Library Club, and Band. In addition, the majorettes, various class room shots, and individual pictures for introductory pages were taken.

When these pictures are returned, approximately two-thirds of the annual will be completed. The '58 Roundup will be a summer delivery, probably in July or August.

HOMEMAKING III STUDIES VITAMIN A

The Homemaking III class has been studying about how to preserve vitamin A and why this vitamin is important to the human body. Research indicates that generous amounts of vitamin A can help to give you not only sparkling eyes, glossy hair, healthy skin and greater freedom from eye fatigue and infections, but also a glow of abundant health. It is absolutely essential for normal growth and development.

The adult of average weight needs from 3000 to 8000 units of vitamin A daily merely to prevent night blindness. This amount is spoken of as the minimum daily requirement.

To preserve vitamin A in vegetables, avoid stirring; avoid unnecessary peeling (except potatoes); place vegetables in boiling water to cook; in making a raw salad, prepare it just before serving. If leftovers are served, avoid reheating to preserve vitamin A.

What are the richest sources of vitamin A? Liver, green leaves (outer leaves of lettuce and cabbage), and carrots are rich sources of vitamin A. Eggs and milk, of course, contain some vitamin A.

Next week, we will report on another member of the vitamin family.

HOME ECONOMICS CLASS CONTINUES TO COOK

The third period homemaking class will have completed its food demonstrations by next week.

Last week, five demonstrations were made by Ginger Rasberry, Mary Akers, Linda Johnson, Rachel Rodriguez, and Helen Vessel.

MENU

Monday: hot biscuits, potato salad, English peas, bage and carrot salad, prunes.

Tuesday: corn meal muffins to beans, hot tamales, cheese and crackers, rice and pudding.

Wednesday: white muffins, chopped pork, creamed peas, green beans, lettuce and cheese, apple sauce cake.

Thursday, March 6: ham, french fries, banana pudding, nut butter and crackers.

Friday: enriched bread, croquettes, macaroni and tomato kraut with weiners, buttered fresh fruit slices.

EXPERT REPAIR SERVICE IS "BEST IN THE LONG RUN"

You'll save in the long run by getting EXPERT repair service in the beginning. We stand behind every job we do—from a tune-up to a complete overhaul.

**WHY IS AMERICA BEHIND THE TIMES?**

Why are we behind the times? The answer is obvious. The American people, in their headlong rush toward materialism, have forgotten progress for the satisfaction of human vanities is shaky progress and that until we place value on exploration, research, intellectual discipline and progress for humanity, we can expect to continue to be behind the times. And these things do not start at the top, seeping down to us at the grass roots, but rather, they start at the grass roots and surge upward in direct ratio to our degree of interest and activity.—Collinsville, Conn., Farmington Valley Herald.

Intellectual discipline and progress for humanity, we can expect to continue to be behind the times. And these things do not start at the top, seeping down to us at the grass roots, but rather, they start at the grass roots and surge upward in direct ratio to our degree of interest and activity.—Collinsville, Conn., Farmington Valley Herald.

**CUT OUT UNNECESSARY GOVERNMENT SPENDING**

"The actual increase in military spending in next year's proposed budget is less than a billion more than is being spent in the present fiscal year. . . . Come on, Congress, let's slice off some of the non-military fat, and let the states handle some things they should be handling anyway."—Franklin, Va., Tidewater News.

Austin, Tex. — "How's business?"

Whenever two men stop to talk, this question is almost sure to pop up. With state and nationwide interest focused on the slackening of the economy, there's much searching for signs. It means trying to decipher the economic analysts' jargon about "downward plateaus" and "rolling adjustments." It also means watching whether the neighbors are buying new clothes or patching the old ones.

On the state level, the spotlight is on the Texas Employment Commission. Its weekly tabulations on the number of people making unemployment claims was for years regarded as the most routine of routine reports.

Today TEC's reports are looked to, almost breathlessly, for the first sign of betterment. The most recent brought no encouragement. It showed that 75,746 persons covered by unemployment benefits were out of work. It was an increase of 3,586 over the previous tabulation and 32,816 more than at the same time a year ago.

February reports are of particular interest. Even in good years, mid-winter weather pushes employment down by keeping such job-making activities as farming, construction and retail trade at least partly "soaked in." February's final week usually is the beginning of the recovery period.

This year, as at no time in the past decade, TEC's end-of-winter reports are being looked at as a weather vane.

**NEW BUSINESS BEGUN** — Along with the gloomy, TEC has good news — 62 new businesses opened in Texas last month. They ranged from a cafe in Austin to a garment factory in Denton, Dallas took the lion's share—15 new firms.

Immediate effect: 910 new jobs for Texans.

**IAP CALLED "MODEL T"** — Texas had better streamline its industrial accident system before Washington steps in, warns H. C. Pittman.

It's a "Model-T operation in a jet age," says Pittman, who is chairman of the Industrial Accident Board. Result is that Texas employers pay more and Texas employees get less than in almost any other state.

"I'm ashamed of it," said the board's chairman. He blamed the creaky operation on out-of-date laws (system was set up in 1913) and public indifference.

IAP is the state agency that processes, supervises and keeps records on payment of claims arising from industrial accidents. Its work has increased substantially in recent years.

Pittman spoke at the annual safety clinic of the Texas Highway-Heavy Branch, Associated General Contractors. Clinic is climax of year-long effort to reduce accidents in construction.

Gov. Price Daniel presented awards to companies with the best safety records for the past year.

**MASS SIGN-UP BEGINS** — Most state departments now have registration forms for those who come in asking for something for someone else.

Forms were put out as the new "representation before state agencies" law, passed in the first special session last fall, went into effect. Law was designed to keep a check on those paid to seek help or favor from state officials.

There are numerous exceptions — telephone calls, visits for a public hearing, visits for information only and contacts at some place other than the state office.

But businessmen are being advised, "when in doubt, register." Penalties are up to six months in jail, \$500 fine.

**NATUROPATHS' ILLS MOUNT** — Texas Supreme Court pushed naturopathy outside the realm of legal practice and slammed shut the door.

High court upheld a lower court injunction which barred a naturopath in Midland from doing business. Naturopaths had contested their prohibition on grounds it deprived them of constitutional rights by allowing medical doctors, dentists, chiropractors, etc., to practice, but not naturopaths.

Court's ruling pointed out that law permits these other groups to practice only after meeting certain qualifications and obtaining licenses. Naturopaths' licensing law was declared invalid some time ago, and no new one has been passed.

Effect of the ruling is to require a naturopath to qualify as a full-fledged medical doctor.

**COEDS AT AGGIELAND?** — One of the touchier issues confronting the Commission on Higher Education is whether to recommend that Texas A&M admit women students.

It is known to be under considerable pressure from both directions. Created by the Legislature in 1955, the Commission has responsibility to study and make recommendations for development and improvement of the programs in all Texas state-supported colleges and universities. To date, most time has been spent in study,

but the recommendation phase is coming up.

Dr. Ralph T. Green, executive director, is to report to the 15-member Commission on the A&M issue at a meeting April 14. Commission will then decide what course to suggest to the college officials.

However, the Commission cannot force the college to accept its decision. Chances are the question will be argued in the courts and the Legislature for some time to come.

A suit already has been filed in Brazos County in behalf of would-be women Aggies.

**CLIMB IN CRIME** — Newly-organized Law Enforcement Commission is beginning its work with a depressing array of statistics outlining its task.

John H. Crooker Sr., Houston lawyer, is chairman of the nine-member panel. Group is to study ways to combat crime and report ten months hence to the 56th Legislature.

Defining the problem are these facts that were dumped in the Commission's lap:

1. Major crimes in Texas are increasing faster than the national average—9.2 per cent here as compared to 7.2 per cent nationally.

2. Of some 154,000 major crimes committed in Texas last year, an estimated 50 per cent were by juveniles. Governor Daniel has asked the Commission to give top priority to study of juvenile crime.

3. State correctional schools for youths are not equipped to handle the swelling tide of offenders, according to the Texas Youth Council. Gatesville school, with a capacity of 650, has population of 898.

**BREAK-DOWN OF BUDGET**

The President's \$73.9 billion budget for fiscal 1959 breaks down as follows: \$47.1 billion for national security projects; \$16.4 billion for benefits of various kinds; \$7.9 billion for interest on the national debt; \$2.5 billion for general government. Revenues, estimated at \$74.4 billion, would come from these sources: \$38.5 billion from individuals; \$20.4 billion from corporations; \$9.3 billion from excise taxes; \$6.2 billion from other levies.

Texas has approximately 200,000 miles of public roads.

Texas has 370 miles of coast line and 26 port towns.

**Home Demonstration Notes**  
MRS. MARY D. BROWN

Next week, March 1-8 is National 4-H Club week. We have 11 4-H clubs in Foard County.

4-H Club work helps teach boys and girls how to be better leaders. There's opportunity for members to assume responsibility in club programs and community and county activities.

We had an excellent example of what 4-H leadership can do, last week. As you know we had planned to have Miss Lucille Moore, Recreation Specialist, here to teach a recreation training school on Feb. 17, 18 and 19. She was very ill and due to one of those unavoidable mix-ups that can happen, we were not notified. We had made no plans at all. However, Arlos Moore, Larry Hord, Duane Johnson, Cecelia Drabek and R. H. McCoy, all members of the Junior Leaders 4-H Club, helped to organize and lead some games.

We all hope that Miss Moore will be able to schedule us again soon.

Our recipe this week is:  
**Sweet Sour Meat Balls with Noodles**

1 lb. ground beef, 1/4 lb. ground pork, 1 tsp. salt, 1/8 tsp. pepper, 2 tsp. dried minced onion, 1/2 cup enriched bread crumbs, 1 egg, 2 tbsp. milk, 2 tsp. shortening, 2 tsp. light corn syrup, 1 tsp. salt, 1/3 cup brown sugar, 2 tsp. cornstarch, 1/3 cup cider vinegar, 2 tsp. soy sauce, 2 cups water, 8 oz. broad noodles.

Mix thoroughly beef, pork, salt, pepper, onion, Worcestershire sauce, crumbs, egg, and milk. Shape into small meat balls about 1 and 1/4 inches in diameter. Melt shortening in large, heavy skillet. Add meat balls and brown evenly on all sides. Meanwhile, prepare sauce. Combine syrup, salt, sugar, cornstarch, vinegar, soy sauce and water. Cook, stirring constantly, until mixture thickens. When meat balls are browned, add sauce to skillet. Bring mixture to boiling, cover and reduce heat. Simmer 35 to 40 minutes. To cook noodles, add 4 teaspoons salt and noodles to 1 and 1/2 quarts boiling water. Boil rapidly, stirring constantly, for 2 minutes. Cover, remove from heat and let stand 10 minutes. Rinse with hot water and drain well. Turn noodles onto heated serving platter and top with meat balls. Pour sauce over all and serve. Makes 6 servings.

**FUNDS DIVERTED**

Tax Economics Bulletin states that in the last 20 years or so, more than \$4.5 billion of highway user tax funds has been diverted to non-road purposes. And the trend of this diversion has been upward in late years.

**Tow Target Boom Gives Realistic Practice**

A low-cost tow target boom developed by the aircraft industry will enable jet pilots to engage in realistic gunnery practice at supersonic speeds equal to those likely to be encountered in future aerial combat.

The new device enables the Air Force for the first time to use conventional supersonic fighter planes to tow targets at speeds above Mach 1 (the speed of sound).

The boom is 10 feet long, two inches in diameter and made of chrome molybdenum alloy steel. It is fastened in place of an inspection door on the underside of the fuselage about a third of the way forward of the tail. In flight, it lowers to about a 60-degree angle to snatch the target rope.

It swings up against the plane's belly when not in use, and can be recocked in the air.

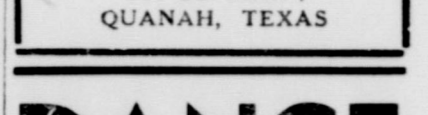

**FREEDOM FOR RAILROADS**

A railroad spokesman says this about his industry: "The vicious circle of loss of markets, higher rates, still higher rates, can be stopped only by providing the railroads with far greater freedom to price competitively and to price for quantity, thereby reflecting the railroad's inherent efficiency."

Picture of a lady — LIVING BETTER — Electrically

she's drying clothes ELECTRICALLY With a **FRIGIDAIRE** Electric Clothes Dryer

- Just turn a dial — and wrinkles are erased like magic from "just washed" man-made fabrics
- Ends messy "drip-drying"
- Restores like-new "washables" mused by wear or storage
- Saves hours of tiresome ironing a week

Think of it! At any other time, you'd pay extra to get this extra long-life dryer! But now — during this special introductory event — you're getting a brand-new 1958 Frigidaire Electric Dryer with Porcelain Enamel throughout AT A LOWER PRICE THAN YOU'D EXPECT TO PAY FOR AN ORDINARY MODEL! COME IN TO SEE US NOW!

Now my Frigidaire Dryer does most of my ironing!

FAMOUS FREE-WAY AIR FLOW • AUTOMATIC TIME CONTROL • SHIRT LOCK STYLING WITH NEW FULL-LENGTH ILLUMINATED CONTROL PANEL • SAT-SLIDING INTON LINE TRAP • PUSH-BUTTON SOLE OPERATOR • OPTIONAL 3-WAY VENTING

Free Frigidaire Enamel Finish, Inside and Out, Bakes Heat, Steam, Steam-Heats! Sparkle White for years

West Texas Utilities Company

Electricity costs so little — you can afford to use lots of it!

## Newspapers Called the "Basic Retail Advertising Medium" by Ad Men

By T. B. Klepper

Advertising men customarily call the newspaper the "Basic retail advertising medium."

The newspaper has retained this position even though many other means of reaching the public have been developed during the last fifty years.

A retailer could reach some of his potential customers through such media as mail, circulars, billboards, radio, movies and television. Yet, most retailers continue to put more money into newspaper

## Motorists Urged to Get Vehicles Checked Before Deadline

With less than two months left in which to have motor vehicles inspected, Col. Homer Garrison Jr., director of the Texas Department of Public Safety, urged motorists to obtain their 1958 inspection stickers immediately. In doing so, he said that 64 per cent of the registered vehicles in Texas have not been inspected for the current year.

"At the present rate of inspection it looks as though the usual ten per cent who wait until the deadline for inspections will be waiting in line on April 15. With crowded inspection stations on this deadline date, immediate service cannot be rendered and car owners will suffer an unnecessary loss of time and inconvenience."

Nearly half of the vehicles already inspected have required some adjustments or repairs which require more time for both the owner and the inspection station and can be handled better when not rushed.

## Disabled 50 to 65 Year Old People Losing Social Security Money

Some of the 50 to 65 year old disabled people in this area are losing money by delaying their claims for their social security disability payments, according to Erton F. Tate, manager of the Wichita Falls social security office. Mr. Tate pointed out that the law requires a 6-month waiting period before benefits can begin, but that eligible people who have already been disabled that long can get payments beginning with the month in which they apply. Benefits are not payable for any month before the actual month of application. If they delay beyond that time, they may lose one or more months' checks.

In explaining who can qualify for the payments, Tate said that the disabled person must be between 50 and 65 years of age, must have had a prescribed period of coverage under social security, and must be unable because of disability to do any substantial, gainful work.

"Anyone who had social security credits for 3 out of the 10 years before he became disabled, including 1 1/2 years out of the last three of those years, meets the work requirement," he pointed out. "Those who think they meet this requirement and who have been severely disabled for as much as 6 months should get in touch with us promptly."

All necessary forms and assistance for claiming the benefits can also be had by seeing the representative who is in Crowell at the court house on March 11th. Anyone who is unable to get in touch with the office or representative personally may have a relative or friend apply on his behalf.

Some 255,000,000,000 bales of cotton have been grown in Texas since 1822.

Texas owned an estimated 8,500,000 head of cattle worth approximately \$561,000,000 in 1955.

## Claude Callaway Enters Race for County Judge

Claude Callaway has authorized the News to announce his candidacy for the office of County Judge and Ex-officio School Superintendent of Foard County, subject to action of the Democratic primary in July. In making his announcement, Mr. Callaway released the following statements:

"I am a lifelong Democrat. I have never voted anything but a straight Democratic ticket. I am not unmindful of the fact that the people of Foard County have been wonderful to me in all of my public life. You have given me your backing at all times and have manifested lots of confidence and a wonderful spirit of cooperation in all things that I have undertaken in public life.

"In announcing my candidacy for county judge, I do so without any ill will toward anyone. However, I sincerely believe that there is not anything as dangerous, or that can do as much damage to a great Democracy, as for any one person to stay at the head of your government for too long a period of time. I think this applies to county, state and national government, regardless of how good, or how great, or how brilliant the individual may be. It has been proven over and over again that most people make the best public servants of the people for their first six to ten years of their service in public office. It is so easy after ten years of continuous service to become masters of the people instead of servants of the people.

"We find that mysteries seldom happen in the first few years of public service, but things often become more mysterious with long uninterrupted terms of control and complete domination of the people. This often happens, regardless of how good, or how great, or how brilliant the public servant might have been.

## In the News ... 30 YEARS AGO

News items below were taken from the issue of the Foard County News of Friday, Feb. 24, 1928:

Blaw & Rosenthal were highly pleased with the interest shown in the formal opening of their ready-to-wear department last Friday night, in charge of Mrs. Jesse West.

An 8-lb. son, Myles Elton, was born to Mr. and Mrs. Truett Neill in Thalia Feb. 15. Mrs. Neill has furnished news items to this newspaper from Thalia for many years.

A still with 100 gallons of mash was discovered by Sheriff L. D. Campbell and George Messenger, foreman of the Thatcher Ranch 25 miles northwest of Crowell, last Tuesday. It was located in a cave at the mouth of Talking John Creek and the still was 100 feet from the mouth of the cave. The mash was destroyed and the still brought to Crowell.

Guy Easley and Miss Frances Blakemore were married in the home of Elder T. M. Carney at Vernon Monday afternoon at 5 o'clock.

The Methodist Church debt of \$15,000.00 has been reduced to \$9,000.00.

J. H. Carter announced this week for Commissioner of Precinct No. 4.

A new sidewalk from the rear of the Ringgold building to Shelton's Cash Grocery has recently been completed.

Gordon Bell went to Kerrville this week for a short visit with his wife who is staying at Kerrville for her health.

Wayne Diggs was here from Friday until Monday from John Tarleton College visiting his parents, Mr. and Mrs. Fred Diggs.

Mrs. Maggie French underwent an operation in Dallas the first of the week.

Mr. and Mrs. Jimmy Doolen were here Monday from Quannah.

Riley Brisco has graduated from a business school at Tyler and has accepted a position in Bastrop.

The rain and snow which fell last week measured one and one-third inches of moisture.

The grand jury returned nine indictments at its session last week.

Ben H. Roberts and Miss Hattie Ruth Vaughan of Wichita Falls were married in the First Methodist Church in Wichita Falls last Saturday afternoon.

W. S. Ikard is credited with bringing the first purebred Herefords to Texas in 1876.

DISCUSS BORDER DISPUTE — Pres. Gamal Abdel Nassar (L) and Sudanese Foreign Minister Mohamed Ahmed Mahgoub are shown after a meeting in Cairo, Egypt, regarding a dispute over border territories. The Sudanese government will present the dispute to the U. N. Security Council in view of the deadlock of talks in Cairo.

## Increase Noted in Criminal Activities of Persons Under 21

An increase in the criminal activities of persons under 21 years of age was indicated this week in a report released by the Texas Department of Public Safety.

The DPS said its count of fingerprint records of persons 20 years of age, or younger, for the year 1957 was 14 per cent greater than for 1956. A total of 16,416 fingerprint cards of youthful criminals were received by the department in 1956, while 18,768 were received in 1957.

The greatest increase involved 17-year-olds, followed by the 18, 19 and 20-year groups. A considerable jump was noted in the number of fingerprint cards received from the 16 and 17-year groups. A total of 1,083 cards involved 16 year olds, while 4,493 persons of 17 years of age were fingerprinted in investigations.

The DPS said the card count was not a conclusive means of totaling the number of criminals of these age groups since many minors are not fingerprinted. However, a general increase in crimes for these age groups is reflected in the information.

General criminal offenses in Texas during 1957 for persons of all age groups occurred at the rate of 424 offenses per day, according to a department crime report recently submitted to the newly organized State Law Enforcement Study Commission. In that report, Col. Homer Garrison Jr., director of the Texas DPS, said major crime in Texas for 1957 was up 9.2 per cent over the year 1956.

Most of the increases, he said, came in urban areas, while rural areas experienced a decrease. Urban was up in all categories but one, while rural was down in all classifications but one.

Murder led all categories in the 1957 increase with a total of 1,084 such crimes—a 25.2 per cent increase over the previous year. Rape showed a 3.4 per cent decrease, robbery 10.4 per cent increase, burglary 6.8 per cent increase, aggravated assault 4.1 per cent decrease, theft 10.3 per cent increase and auto theft 17.8 per cent increase.

In comparing rural crimes with urban crimes, Garrison said murder was up in both instances—rural up 13.4 per cent and urban 35.4 per cent. Auto theft in urban areas was up 21.2 per cent, robbery up 15.9 per cent, theft up

## Freedom of the Press, Here and Now

Everywhere that a tyrant's heel has ground most brutally, there has sprung up an "underground" movement. And its heart always is a printing press. For the urge that dwells deep in a freedom-loving people to know the truth is hard to kill. In fact it cannot be killed — not even by the best-organized despotism in history.

The many stories of underground presses that have come down through the ages of trial and error by many dictators is an inspiration to the men and women of America's press.

We know that the truth can actually be printed and circulated under the very heel of a tyrant's boot. But a far better way of keeping people informed is through their own free press which operates not in some dark cellar, but on main street, right next door to the grocer, the postoffice, the drug store. \*\* To preserve that freedom is the first obligation of the American people and the American Press. It is our only hope of maintaining our other cherished freedoms.

Mr. and Mrs. Joe Pruitt and daughter, Jo Ann, of Snyder and Mrs. George Pruitt of Crowell visited Mrs. Jack Roden Saturday.

Ed Smith and children of Lovington, N. M., visited Mr. and Mrs. Tom Smith and children Sunday.

Mr. and Mrs. Frank Halenack and son, Raymond, visited relatives in Bronte and Gatesville last week.

Mr. and Mrs. Curtis Bradford visited Mr. and Mrs. Ralph Bradford at Lockett Sunday.

Mrs. S. Moore and Mrs. Ed Thompson of Crowell visited here Sunday afternoon.

Mrs. W. F. Bradford visited her mother, Mrs. S. J. Boman, in Vernon Wednesday.

Mr. and Mrs. Raymond Ross and son, Otis, of Lubbock spent Saturday night with Mrs. C. W. Ross.

Mr. and Mrs. Thomas Ross and daughter, Lisa Ann, of Olton visited Mr. and Mrs. Frank Halenack and children and Mrs. C. W. Ross Sunday.

by Vern Sanford

Right now the Moving Hand is writing in the Book of Time what kind of hunting we'll have next Fall.

Farmers and ranchers hold the key to successful wildlife harvests. If you doubt this, just remember that almost 90 per cent of the hunting area in Texas is private domain. Actually, some of this is under state ownership, but grazing rights are leased. So, after all, the farmer or the rancher is the one in charge.

Our wildlife must have its habitat, just like we must have our homes. If that habitat is not available, then wildlife suffers, whether the weather is good or bad.

Naturally the weather plays a very important part in every year's wildlife crop. No more so, however, than the area that is the natural home of our birds and animals.

Added Income for Farmers Although land owners and sportsmen have made great strides in providing proper ecology, there is a consistent uphill battle to keep the work going.

Recently biologists of the Game and Fish Commission reported on 1957 activities in planting multi-flora roses for quail cover. They had passed out to landowners almost 50,000 of these little bushes, bought with the money which you paid for the privilege of hunting.

Land owners accepted the plants and put them in the ground. Then, far too many landowners lost interest and a goodly number of the plants died.

This is just one example of what happens when someone doesn't care . . . or doesn't realize the income possibilities that might result from just a little attention.

However, some landowners have discovered that hunting privileges constitute a cash crop. This is particularly true in the Hill Country of Texas, home of most of our white tail deer. Unfortunately, however, some of the agricultural areas have not responded so well.

One of the most successful quail areas in Texas is a quail management project adjacent to Crooks Lake in Lamar County. Here Warden Reb Burks has brought about the planting of many multi-flora roses to supplement natural cover around the lake. Food producing plants like dove weed and lespedeza add to the inducement for quail to multiply.

A Good Club Project This is one of the most important projects that local sportsmen's clubs can adopt. If club members will work closely with land owners, mutual understanding can be had. Landowners will soon come to realize that cotton and corn aren't the only crops he can produce.

Of course you don't have to belong to a club to talk this over with your farm friend. Sell him on the idea of improving his range land, and providing more cover.

Almost any conservation practice that is good for wildlife is good for the land. The reverse also is true.

Shooting the 22 Rifle First powder burning gun to be owned by most boys is a 22 rifle.

A few weeks ago I was on Lake Travis, near Austin. I heard the constant popping of a 22 rifle. I ran my boat into a cover, and sure enough there was a father teaching his son how to shoot his Christmas 22.

A half-dozen cans had been placed far back against a soft bank so the bullets wouldn't ricochet. The boy was joyfully pumping lead bullets into the can, from a very neat little Noble 22 rifle. My wife and I sat in the boat and watched them as long as we could stand it. Then we joined the dad-boy team in a discussion of the new gun.

It was a little slide action gun, made by the Noble Mfg. Co. of Haydenville, Mass. The boy handed it over and we both shot it several times. Although it had been years since I had shot a 22, it came back to me quickly. Soon I was gleefully knocking those cans around. Finally my wife suggested that we move on before we burned up all the boy's ammunition.

We commented on what a wonderful thing this father was doing for his boy. That young fellow will grow up to be a good shot and a true hunter. Besides that, his dad was teaching him how to be careful. And that's mighty important.

Care in Shooting Is Necessary Speaking of 22 shooting — and caution. They should be synonymous. Although the 22 is a small gun it is a pretty powerful little rifle. It should be handled with the utmost care. Certainly it should not be shot over an open lake, or where the bullets might hit rocks and bounce off.

Another very bad practice, and which many of us are guilty of doing, with 22 rifles or pistols, is shooting at glass bottles. Broken glass is a real hazard, whether it be on the beach, the bottom of the lake or at the roadside.

Best place to shoot a 22 for plinking is in a creek bottom where you have the permission of the land owner. Also be sure there are no cows around. Farmers are funny that way. They just don't want their best milch cow perforated with bullet holes.

SERIOUSLY ILL—Sir Winston Churchill, 83, is reported to be seriously ill and suffering from pneumonia and pleurisy. The announcement was made by his physicians at the British statesmen's winter retreat on the French Riviera near Nice, France. His personal physicians, flown in from England, are in attendance.

functions turned over to them. Two particularly unfavorable aspects of the budget, in the view of the WTCC, are the failure to reduce nondefense expenditures in 1959 and the total lack of encouragement, either in the Budget Message or in the budget projections, for tax reduction in the foreseeable future.

With reference to civilian programs, exclusive of interest on the Federal debt, the regional chamber noted that they will cost \$1.5 billion more in 1959 than in the 1957 fiscal year which ended last June 30, and that no net reduction from the present estimate for the current year is planned.

The regional chamber's survey showed that a breakdown per item of the Federal budget shows Texas' burden of the Federal spending program as follows:

For major national security, \$1,938,900,000; foreign affairs, \$55,500,000; veterans' affairs, \$212,000,000; labor and welfare, \$154,100,000; natural resources, \$63,100,000; commerce and housing, \$68,800,000; general government, \$59,300,000; interest to the national debt, \$332,900,000; agriculture, \$194,600,000; contingencies, \$18,200,000.

One out of every 10 tornadoes in the U. S. hits Texas.

Highest point in Texas is Guadalupe Peak, 8,651 feet.

The total expenditure by all the agencies of the Texas government for the fiscal year which ended Aug. 31 was \$872,680,000, the WTCC commented—about one-fourth the cost of the State's share of the Federal budget.

The regional chamber pointed out that any reduction which Congress may make in this budget will, of course, reduce the amount that Texas taxpayers will have to bear.

The WTCC voiced mixed reactions to the President's Budget Message and to the fiscal program detailed in the budget. It expressed approval of certain actions which the President said will be taken and several legislative proposals which will be made to curtail spending. But it was disappointed and concerned over some other features of the budget.

The regional chamber urged public and Congressional support for the effort which the President said must be made to eliminate unessential defense programs and facilities and to do away with needless duplication in supply and other activities.

It also lauded the objectives of proposals for transferring some government responsibilities to the States, for cutting back on Federal credit activities, for reducing the share of Federal participation in certain grant-in-aid programs, and for relinquishing some tax sources to the States to finance

### Exotic Wildlife Holds Fine Hunting Possibilities

Exotic wildlife holds fine hunting possibilities for the Texas sportsman and landowner when its introduction is based on careful preliminary study. Caleb Glazener and Clarence Cottam, Assistant Director and Director of the Rob and Bessie Welder Foundation, described in the January issue of Texas Game and Fish the animal and bird transplants to Texas.

Chukar, francolin, and see-see partridges from the Middle East, coturnix quail from the Orient, Hungarian pheasant from Hungary, Spanish red-legged partridge from Spain, and the aoudad sheep from the Middle East all are apparently successful or at least hope introductions in this state.

On the more dismal side of the scale, however, have been the release of nutria for control of undesirable pond plants, the game Mexican bobwhite which did not increase in population, and the English starling which survived too well and became competitive with native birds in the United States.

Based on science instead of chance, exotic introductions have promise of success, authors Glazener and Cottam assert. Exotics adapt only to regions which closely resemble their native homes in climate, food, and topography.

Areas barren of other game, or at least those which have no game which would compete with the newcomers for food, should be considered for transplanted game.

About 90 per cent of all heart disease is caused by hardening of the arteries, high blood pressure and rheumatic fever. Research, supported by the Texas Heart Fund, is seeking the causes, cures and preventions of these conditions. Help Your Heart Fund Help Your Heart.

ARM REPORTING

A special provision of the social security law allows farm operators who had a very low net income or who operated at a loss to get social security credits for 1957. To take advantage of this provision, a farmer must have a gross income of at least \$600 from the farm. A self-employment tax return must be filed with the Internal Revenue office. Either your local office of Internal Revenue or your social security office will be able to give you more information. Remember, the last day for filing your social security tax return is April 15. Texas' Longhorn cattle resulted from fusion of Moorish and French cattle with milk cows from the Shetland Seaboard.

ELECTION NOTICE

The State of Texas County of Foard City of Crowell NOTICE IS HEREBY GIVEN that an election will be held at the City Hall, in the City of Crowell, Foard County, Texas, on the 1st day of April A. D. 1958, the same being the first Tuesday in said month, for the purpose of electing two (2) Aldermen for said City. Mrs. Grace McLaughlin has been appointed Presiding Officer for said election and she shall select two (2) Clerks to assist in the holding of said election. And said election shall be held in the manner prescribed for holding other elections. Every qualified person who has attained the age of twenty-one (21) years and who has resided within the limits of said City for six (6) months next preceding the date of said election, and is a qualified voter under the laws of the State of Texas shall be entitled to vote at said election. WITNESS MY HAND AND SEAL of said City of Crowell, Texas, this 19th day of February, A. D. 1958. CLAUDE CALLAWAY, Mayor of the City of Crowell, Texas. ATTEST: FERN McKOWN, City Secretary. (SEAL) 32-4tc

House of Worship Controversy over the modernistic design of the proposed \$3,000,000 chapel for the U. S. Air Force Academy at Colorado Springs has been renewed in Congress. Criticizing the plans, Senator A. W. Robertson of Virginia declared he would not "donate my personal funds for a house of worship which might just as well be a museum of modern art or a skating rink." He added that "hard earned tax dollars of constituents with old-fashioned views" should not be spent on a structure which looks like a "series of wigwags, accordeons, or something of that kind." Senator Robertson introduced a joint resolution which, if adopted by Congress, would require that the Air Force get final architectural plans approved by the House and Senate committees on the armed forces before starting construction. He said the precaution probably would insure that the design is one appropriate to a house of worship. Architectural innovations in new European churches have also evoked controversy. While some conti-

ABOUT YOUR HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M.D., Commissioner

There was a definite Jekyll-Hyde element in Wilhelm Konrad Roentgen's discovery of the x-ray phenomenon in 1895. Used by trained technicians, x-rays become peerless tools for diagnosing and treating human ills and injuries. But used by untrained hands, they become errant destroyers of living tissue. Even Roentgen didn't realize the danger of his discovery. He apparently did not receive any significant injuries, but his good fortune stemmed from the fact that he constructed shields not for his own protection, but to keep his highly prized photographic plates from being fogged by scattered radiations. Today there is agreement among many medical authorities that x-ray exposures cause tissue damage. Generally speaking, however, as used by competent physicians the value of diagnosis and treatment far exceeds the controlled damage which must inevitably result. Recent stringent regulation by the State Board of Health against exposures of humans to x-rays

Thalia MRS. C. H. WOOD

Mrs. Maggie Wheeler, Mr. and Mrs. O'Neal Johnson, Mr. and Mrs. Loyd Fox, Mr. and Mrs. Billy Johnson, Mr. and Mrs. Billy Hammonds and Rev. and Mrs. W. B. Fitzgerald all attended the funeral of Dixie Wheeler in Vernon Friday. Mrs. John Wright and Mrs. H. W. Banister attended the Abilene Christian College Lectureship at Abilene Monday and Tuesday. They were accompanied by Mrs. Grover Nichols of Crowell. Gaylon Whitman of Lubbock spent the week end with his parents, the B. A. Whitmans. Also visiting here with him was Ronnie Downing of Lubbock, who spent Saturday night with Mike Cates and Sunday with his grandparents, the T. R. Cates. Mr. and Mrs. W. A. Johnson visited 2 or 3 days this week with his aunt, Mrs. Laura Castleberry, in McKinney. Robert Hammonds was taken to the Crowell hospital Monday. The G. W. Scales of Vernon visited the C. H. Woods Sunday afternoon. Mr. and Mrs. Leotis Roberts of Crowell, Dana Loy Roberts of Dallas, Claude Roberts of Midland and Mrs. Raymond Oliver of Hale Center visited Saturday with their mother, Mrs. E. H. Roberts, after they just returned from the funeral of their brother-in-law, in Hammond, Ind. Mrs. Oliver remained here for a longer visit with her mother. Mrs. J. M. Jackson returned home Friday from a week's visit with her son, David, in Lubbock. Mr. and Mrs. Eudale Oliver visited Sunday with Mr. and Mrs. Paul Ramsey and daughter, Mrs. Kenneth Oliver, in Oklaunion. Mr. and Mrs. Jimmie Johnson and children arrived here Monday morning from Fresno, Calif., for a visit with his parents, Mr. and Mrs. O'Neal Johnson. Mr. and Mrs. Rufus Whitman of Wichita Falls visited his grandparents, Mr. and Mrs. T. R. Cates, Wednesday and spent Thursday night with her parents, Mr. and Mrs. Douglas Tucker. Mr. and Mrs. B. A. Whitman spent last week with his mother, Mrs. Lee Whitman, who is ill in her home in Vernon. Rev. L. J. Helms left for his home at Lakeview Wednesday night after he spent Monday and Tuesday here with Rev. and Mrs. C. C. Lamb and preached at the Methodist Church Tuesday and Wednesday nights. The preachers entered a special visitation program the two days he was here. Edward Shultz and son, Stephen Edward, of Lubbock were supper guests in the home of his parents, Mr. and Mrs. Lee Shultz, Wednesday night of last week. Mr. and Mrs. Bob Cooper and son, Rob, visited Thursday with her grandmother, Mrs. P. L. nental worshippers hold to the soaring arch and ribbed vault of the 12th century, others prefer modern radiant walls of colored glass, tapered windows, hooded pulpits, ceiling portholes, exposed framework and brilliant passageways of stained glass. Church architecture is important. We may have strong opinions about it. But we must remember that "the most High dwelleth not in temples made with hands" (Acts 17:24). We do not have to wait until a certain hour or visit a certain location on Sunday morning to meet God. We may worship at any time and at any place so long as our worship is "in spirit and in truth" (John 4:24). Is your church new, costly and ornate? Is it old, simple and austere? Love it, support it, attend it. But keep in mind that God is greater than any building. You are always in His presence.

Truscott MISS MARY K. CHOWNING

N. L. Looney has returned home from a business trip to Paris, and while there he visited Mr. and Mrs. Guynn Hickman. J. W. Chowning and daughter, Mrs. H. P. Gillespie, were in Jacksboro to attend the funeral of Mrs. T. Nichols Saturday. Mrs. D. Taylor and children returned to their home in Clarendon Sunday after a visit here with her sister, Mrs. Bud Myers, and family. Mrs. Bud Myers and daughter, Dianne, Mrs. June Looney and daughter, Nancy, and Mrs. Horace Haynie visited relatives in Snyder one day last week. Mr. and Mrs. John Black visited her sisters, Mrs. Otis Cash, and family in Knox City and Miss Exa Faye Hutton of Pampa in Knox City Sunday. Mr. and Mrs. W. W. Walker son, Bill Powers, and family over the week end. Rev. and Mrs. C. C. Lamb attended the funeral of Mrs. A. J. Dockins in Crowell last Thursday. ## TRUSCOTT H. D. CLUB

The Truscott Home Demonstration Club met Feb. 20 at the community house with Mrs. W. O. Corder, president, in charge.

Minutes were read and approved. Roll call was answered by each one present with household hints and current events. Reports of all committees were given. Mrs. Jack Brown gave council report. President asked each member to contribute recipes for club cook book to be made by council. An interesting discussion of Texas water problems was led by Mrs. J. M. Chowning with members participating. Mrs. Ruby Hickman, recreation chairman, led the group in a game. Next meeting will be in the Jack Hickman home Feb. 27.

Refreshments of cake and coffee were served by the hostess, Mrs. Bob Gilbert to the following members: Mesdames Jack Hickman, J. G. Adeock, W. O. Solomon, J. M. Chowning, W. O. Corder, Jean Taylor, Jack Brown. Roll call and program for the next meeting is things I need to do and furniture arrangement by the agent.

## THALIA H. D. CLUB

The Thalia Home Demonstration Club met Thursday, Feb. 20, in the school cafeteria with the president, Mrs. Ed Huskey, in charge. Mrs. Huskey read "Prayer" and Mrs. W. A. Johnson read "The Collect for Club Women" to open the meeting. Maggie Capps read the courtesy reminder. Roll call was answered with a suggestion on how to raise club funds by 10 members.

Minutes of previous meeting were read and approved and a financial report was given. Mrs. Huskey was named as a delegate for the THDA meeting to be held in Rotan. No delegate was named as the THDA chairman.

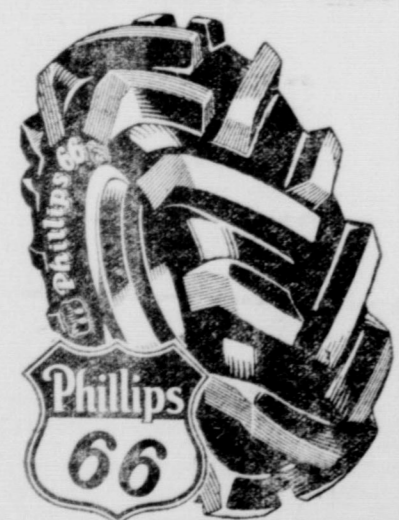

Mrs. Huskey talked on the use of the club dues, explaining how and where the money paid is spent. Plans for a walking blood bank were discussed. Members were in favor of this project. The members voted to increase club funds by each member paying 10c per meeting and drawing for the hostess prize. The hostess gift is not to exceed 50c per gift.

Club adjourned to meet again March 6 in the school cafeteria. Pat Payne, hostess, served cake, cookies, pop and coffee to 10 members and 1 visitor. Mrs. Lee Shultz.

## COLUMBIAN CLUB

The Columbian Club met in the home of Mrs. Jack Whitaker in Truscott on Wednesday, Feb. 19. The subject of the lesson study was "Religions of the World." Mrs. Karl ten Brink, president of the club, presided over the meeting.

Mrs. N. J. Roberts was leader of the afternoon's program. The roll call was answered by giving a favorite verse from the Bible, also the best-liked men of the Bible who preached about Jesus. Mrs. Roberts gave a very interesting program on the religions of the world. The hostess served a refreshment plate to eleven members.

The next meeting will be a covered dish luncheon at the home of Mrs. ten Brink on March 6.

## THALIA W. S. C. S.

"Our Heritage" was the program subject for the Thalia W. S. C. S. meeting in the home of Mrs. W. G. Chapman Monday, Feb. 24.

The songs, "America the Beautiful," "Others," and "Open Mine Eyes That I May See" were sung. Mrs. Ed Huskey gave the opening prayer. Mrs. T. H. Matthews read scriptures: Isaiah 32: 15-20. A panel discussion on "Our Heritage" was given by each member of the society. The dismissal prayer was group repeating the Lord's Prayer.

The hostess, Mrs. Chapman, served refreshments to Mesdames C. H. Wood, H. W. Gray, T. H. Matthews, T. R. Cates, Ed Huskey and C. C. Lamb.

## THIS WEEK -In Washington

Clinton Davidson

Washington military experts are saying very little publicly about what many of them think may be our most potent "secret weapon" in the event of either a brush-fire or all-out war.

That weapon, we can now reveal, is our stand-by ability to move men and war materials speedily, economically, and safely to a trouble spot anywhere in the world through a well organized system of airlifts.

Details have been carefully worked out by military and civilian air authorities and have been reported to congressional committees investigating our military preparedness. Some of the details, given at closed hearings, still are secret.

Records available to any newsman, as well as to Russian agents here, make reassuring reading to Americans who have been awed by Russian Sputniks and ICBMs. We are years ahead of Russia on airlift facilities.

The airlift is another example of how the military and private business can work together closely to strengthen the defense of the democratic free world and, at the same time, save taxpayers billions of dollars.

Nearly 50,000,000,000 worth of civilian passenger and cargo planes have been earmarked for pooling with military aircraft through an arrangement known as the Civil Reserve Air Fleet. The upkeep of such a fleet alone would cost the military hundreds of millions a year.

The importance of this large reserve airlift cannot be overestimated. It is the most inexpensive method of providing military emergency lift and should be encouraged to the fullest extent. The airlines have on order more than \$3,000,000,000 worth of additional jet and turboprop planes for delivery in the next three years.

If the Sputniks, through their dramatic impact upon the public, should cause the Congress to concentrate appropriations on missiles to the extent of neglecting airlift, the result would be disastrous.

The responsibility for developing commercial airlift rests upon the Civil Aeronautics Board. It is greatly handicapped in this field however, because although the activities in commercial aviation are today three times as large as they were ten years ago, the staff of the Board has not been increased. For example, in 1956 commercial air traffic was 366 per cent of that ten years previously. Available seat miles were 355 per cent of the 1947 figure and yet the staff of the C. A. B. in 1957 was no larger than it was ten years previously.

No doubt, the present Congress will cut appropriations of some departments and increase those of a very few. Certainly if any appropriations are to be increased, missiles and airlift should be in the No. 1 and No. 2 positions. Congress cannot afford to take chances with the effectiveness of our airlift at the time the next war starts, by withholding from it and the agency which supervises it, the sums necessary for proper and effective development.

Texas has been the leading mineral-producing state since 1935.

## 1957 Texas Traffic Accident Record Has Some Improvement

The traffic accident record in Texas for the year 1957 shows some improvement in at least one respect, the Texas Department of Public Safety said this week.

The 2,533 motorcides (traffic fatalities) so far counted for 1957 involved only five accidents in which six or more persons were killed.

The counties where these multiple motorcides occurred were Collingsworth with six killed, Denton County with seven, Ward with six, Karnes with nine and Harris with nine killed in the same accident. All of the accidents were two-car collisions.

A truck-train accident took the lives of 29 persons in Hidalgo County March 14, 1940, for the

worst accident of all times in Texas. That accident is followed in severity by a two-bus collision on Aug. 4, 1952, in McLennan County when 28 persons lost their lives.

A truck and train collision in Cameron County June 25, 1946, killed 11 persons; a two-truck accident Aug. 8, 1946, in Ellis County killed 19, while a truck striking a culvert Oct. 31, 1954, in Val Verde County took the lives of 11 persons.

Of all the major accidents in which six or more persons were killed since 1939, 68 accidents resulted in 521 motorcides.

The major portion of your Heart Fund contribution remains in your community and state to support the local program against the heart diseases. The remainder is used to advance the battle conducted nationally by the American Heart Association.

## RUTH CLASS MEETS

The Ruth Class of the Baptist Church Sunday School met Feb. 21 in the home of Mrs. W. W. Lemons with Mrs. Marlin Thompson as co-hostess. The meeting was opened with a prayer by Mrs. Ed Gafford, after which the president was in charge of a short business session. The devotional was given by Mrs. Thompson on "How well a Christian should know the Bible."

Refreshments were served to 14 ladies, after which the group had a singing, with Mrs. Lemons as accompanist. The next meeting will be March 6.

## WISDOM SHOULD RULE

"... We are still hoping the wisdom man has gained over the ages will rule, that man will find a star as the wise men did, rather than be guided by a beeping, man-made satellite and all the other

ingenious instruments he has devised."—Campbellsville, Ky. News-Journal. Texas ranks first among states with railroad track mileage—some 21,500,000 miles.
