ROTARY LEAD CUT BY VFW IN LITTLE LEAGUE

Rotary's lead in Foard County Little League was slashed by the VFW in a game that was called off on Friday night by a 5-4 score. The VFW, losing an abbreviated Tuesday night contest by an 11-9 score, came back on Friday night to pull out of the season as it defeated Rotary by a 5-4 score. Rain prevented play in the 8 p. m. game of Tuesday night between two elevator teams. On Friday night, Farmers Elevator whipped Foard County Mill by a score of 5-2. Details of the games are as follows:

Friday night, June 8, 8 p. m.: This was the shooer of the season as Rudy Magee, Jimmy Hammonds and Bob Bird combined talents to defeat the league-leading Rotary Braves by a score of 5-4. Rudy Magee pitched no-hit ball for the first three innings, then Bob Bird's blast over the Lions Club sign scored three runs to have the youthful Vets leading 4-1 at the end of three innings. Davis Barrera, Joe Ray Burkett and Larry Woodard greeted Bob Bird with consecutive basehits, scoring one run. Bill Lynch then walked and Bird had the bases loaded with one out. He struck out the next three men to keep the Vets in the ball game; but, in the fifth, three consecutive errors, a walk, and the second hit of the game by Larry Woodard, and the ball game was all tied at 4-4.

Then came the sixth inning and the game-deciding run. Jimmy Hammonds led off with his second basehit of the game, a double. He went to third on a passed ball, scored on a wild throw into center field. Then, in the last half of the inning, with Bill Lynch on third base and only one man out, Bob Bird came through again, striking out the next two men and ending the ball game. This game was loosely played in the field, and each team killed off potential rallies with questionable base running, but it was probably the most interesting game of the current season.

The PeeWee game, originally scheduled for Thursday night, was cancelled due to rains.

big punch. Steve Gray looked very good in pitching three hitless innings, and he hit three-for-four. Buddy Myers allowed two hits, a single by Larry Ellis and a double by Gary Tole, and Myers himself hit two-for-four. Leslie Hopkins, Rocky Wisdom and Mike Mattus each also hit singles for the Yankees.

The rains continue to keep cotton and wheat farmers from their fields, and there is still some cotton and feed yet to be planted.

Saturday: high 83, low 64.

Idea Is Fast Becoming Popular in U. S. A.

"The idea is fast becoming popular in America that citizens no longer need to face the facts of life. Soon most young Americans will feel it is not necessary to take out health insurance policies to care for their old age when they know the government will do it for them. Health insurance companies will suffer, the medical profession will suffer, and the few Americans who have any pride left in their own abilities will suffer."—Portage, Pa., Nanty-Glo Journal.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin, Tex.—For the first time since 1872, Texas Republicans are presenting a strong threat to capture statewide and legislative offices from the Democrats.

Following his nomination for the Governorship on the Democratic ticket, John Connally took immediate steps to meet the challenge with a united front.

Connally invited all Democratic nominees for state and legislative office to a barbecue to be held on June 16 at his family ranch near Floresville. Purpose: to make some campaign medicine.

Saturday's outing will launch the campaign for the November 6 general election.

Jack Cox of Breckenridge, the Republican nominee for governor, is backed by a slate of 20 nominees for the 23 seats in Congress; 15 candidates for the 31 state senate seats, and 86 candidates for the 150 house seats.

Also there are candidates for county and precinct offices in many counties.

Lined up with Connally will be Waggoner Carr of Lubbock for Attorney general, opposed by T. Everett Kennerly of Houston; Preston Smith of Lubbock for lieutenant governor, opposed by O. W. (Bill) Hayes of Temple; Jerry Sadler of Palestine for land commissioner, opposed by Albert Fay of Houston; John C. White of Wichita Falls for agriculture commissioner, opposed by Harry Hubbard of Marfa; Ben Ramsey of San Augustine for railroad commissioner, opposed by Bernard M. Hanson of Midland; Jesse James of Austin for state treasurer, opposed by Allen Lacy of Abilene; and Robert S. Calvert of Sweetwater for comptroller, opposed by Mrs. Hargrove Smith of Houston. Republicans are not contesting judicial seats.

The Constitution Party also has filed a slate of candidates for state office, all but one of them from Houston.

SPEAKERSHIP — One of the more important offices in state government is the speakership of the house. Unlike the Senate, however, the people have no voice in the selection.

The speaker is elected by the 150 members of the house. Rep. Byron Tunnell of Tyler laid out the names of 95 Democratic nominees who have pledged to support him, and called on his opponents for the speakership to withdraw.

Rep. C. W. Pearcey Jr. of Temple did. Another opponent, Rep. Ben Glusing of Kingsville, was defeated in the runoff primary, so he no longer is eligible. Rep. Alonzo Jamison of Denton remained in the race. He had claimed 61 pledges.

FACULTY FIRING — Dr. Rupert C. Koeninger's firing as professor of sociology at Sam Houston State College may cause Texas to be "blacklisted" by the American Association of University Professors.

No reasons were given when the board of regents for state teachers colleges fired Dr. Koeninger. Also no criticism of his teaching ability was brought out at the hearing.

The college professors association does not employ a strike or a picket line when it feels a professor has been done wrong. It merely "blacklists" the school by giving notice to other college teachers that it is not the best place to accept employment. Grad-

ually, over the years, faculty members who feel Koeninger was done wrong will accept jobs at other schools which are not on the "blacklist."

IN THE RED AGAIN — Heavy payments of state aid to the schools in May pulled the state's main checking account—the general revenue fund—into the red again.

When May started, the deficit was \$73,934,636. But heavy collections of corporation and insurance taxes wiped out the deficit, which has been present for nearly four years. This put the fund into the black by the middle of the month.

But when the school payments came due, it pulled the fund \$9,391,468 into the red at the end of May. Early June expenditures made the deficit \$28,015,980. It will go back into the black when sales tax payments reach the treasury in July.

CROOKED HOLES — State investigators from the Railroad Commission report that of the first eight oil wells in the East Texas Field tested, seven were "deviated" beyond the three per cent allowed by commission rules.

The work is slow, so it may be months, or even years, before the extent of the crooked-hole drilling program in that giant field is known.

Atty. Gen. Will Wilson has filed one civil lawsuit, contending that a group of operators drilled four wells on a slant so the bottoms of the holes were on someone else's property, and that they plugged two more wells with cement before they could be tested.

Civil suits are being filed by oil companies against owners of nearby leases, contending that crooked holes have drained away oil which belonged to them. So far, eight such suits have been filed.

If court-type evidence is found by the commission's engineers and Texas Rangers, evidence will be turned over to U. S. Dist. Atty. Wayne Justice for possible prosecutions under the federal law—usually called the Connally hot oil act—which makes it a federal offense to move oil in interstate commerce after it has been produced in violation of state laws or regulations of the Railroad Commission.

UNIVERSITY OF HOUSTON DEGREE PROGRAM — A curriculum and degree program for

the University of Houston, which becomes a state-supported school next year, was approved by the Texas Commission on Higher Education.

It calls for doctor of philosophy degrees in psychology, business and industrial psychology, chemistry, physics and chemical engineering.

Dr. Philip Hoffman, University of Houston president, appeared pleased. He said the Commission's adoption of a large portion of a "role and scope" plan was a "satisfactory recognition of the needs of Houston and the State."

Commission also agreed to consider at its July meeting the merger of the law and pharmacy schools at Texas Southern University with similar schools at the University of Houston. A Commission member said he didn't think the state could afford two schools of law and pharmacy so close together.

Gov. Price Daniel announced the appointment of Jack Hightower of Houston, O. L. Bell of Quanah, Ralph O. Harvey Jr. of Wichita Falls, Tom Craddock of Seymour and Dr. E. N. Jones of Dallas as members of the Board of Regents of Midwestern University, for six-year terms. Hightower and Bell are new appointees. Harvey was reappointed. "We will have fly production underway ahead of the date we originally hoped construction would be completed. "Completing a 'crash' construction program of this type would not have been possible except through the Southwest Animal Health Research Foundation, using funds contributed by individual livestock producers and sportsmen from all over the Southwest." Release of flies produced at the temporary plant at Kerrville has been increased to over 20 million per week. This, along with last winter's cold weather, has significantly retarded normal build up of native screwworm populations. The increased production at the Mission plant will provide sufficient sterile flies to give added impetus to the eradication program.

Screwworm Production Plant to Be Dedicated

Formal dedication of the new sterile fly production plant at Mission, headquarters of the Southwestern Screwworm Eradication Program, are scheduled for Saturday, June 16. The new plant, located at Moore Air Force Base, is designed to provide 50 to 75 million sterile flies per week. With production beginning in mid-June, the first flies from the new plant will be released in early July. "We are very pleased with construction progress at the Mission plant," Marvin J. Bridges, executive director, Southwest Animal Health Research Foundation, said.

REPORT FROM CONGRESS

by Congressman Graham Purcell

It seems to me that there is more misunderstanding and more misinformation about the pending farm legislation than about any piece of legislation now pending before Congress.

The bill was passed by the Senate last week. It has been reported to the House by the House Agriculture Committee, of which I am a member, and is now awaiting House action.

There are a large number of farms in our 13th District (14,267 according to a 1959 count), and agricultural economy is very important to Northern Texas. Therefore, I feel that we should set the record straight about the aims,

purposes and provisions of the proposed farm bill, particularly those parts which seem to be most misunderstood.

First, it is not the purpose of the farm bill to put the small farmer out of business. Rather, the purpose is to protect the family farm which is so vital to our American way of rural life.

Secondly, it is not the purpose of the farm bill to get the federal government into the livestock business.

With those two basic thoughts in mind, let us examine very briefly those provisions which opponents of the measure have twisted to try and make it appear to some that the bill would drive out the small farmer and control the livestock producers and feeders.

The big problem in the overall agricultural field is surpluses. For too many years, our farm programs have led to gigantic stockpiles of surplus commodities which must be stored at government expense. This currently costs you, the taxpayer, about one billion dollars a year. This money goes not to the farmer, but to those people who have built huge storage facilities for surplus grain which the government rents to store the surplus crops it has purchased over the years.

It is my feeling, and I believe most members of Congress agree with me, that any new farm legislation must be aimed at reducing the excessive stockpiles of commodities that are not needed.

Effect on the Cattle Industry
Concerning the fear of livestock producers and feeders in connection with the possible effect on their business as a result of this bill, I feel that the fears are unjustified and unfounded. It is not the intention or desire of me or any other member of the Agriculture Committee, to my

knowledge, to pass any bill which would result in control of the livestock industry. The bill contemplates that feed grain prices would remain about as they are now. This means that costs of feeding cattle would not be changed. If I felt that any bill would lead to an adverse effect on the livestock industry, or control of it, I would vote against it. If the production and prices of feed grains were not supported or controlled to some degree, the prices would fall to a disastrously low level. In addition to running thousands of farmers out of business, this would result in very low feed grain prices and very low prices for cattle. Cheap feed means cheap meat. The result would be chaotic to the industry.

The Purposes of the Bill
If adopted by the voting producers, the program calls for production to be reduced on wheat and feed grains to a level that would allow gradual reduction of the surpluses now on hand. In a period of a very few years, the stocks would be reduced to the point that acreage allotments could be increased without adding to the surplus stocks. The program is designed to bring production and demand closer together over a period of a few years in order to bring the agricultural markets to a level where they can exist without controls.

In exchange for cutting back production to desired levels, the farmers would receive support payments for the wheat and feed grains grown under the program.

General Effects of the Program
There are two important aspects of this program that should be of interest to all of us. One is that the farmer will realize enough income from the higher support prices to enable him to maintain his standard of living. At the same time the surpluses will be reduced, which will mean a lower cost to the taxpayer for the overall program and assurance that this cost will go even lower as storage costs are reduced. Under this program, it is the farmer who benefits from the government expenditures rather than the businessman who stores the grain.

This seems to me to be a reasonable approach to the problem. It is, I believe, the quickest way to the ultimate goal of eliminating controls on the farm industry, a goal which all of us desire.

This, very briefly, is why I have supported the proposed farm program up to the present time, and why I plan to continue my support of the bill.

LITTLE LEAGUE NEWS

by MARION CROWELL

Well, as we all expected, the race is getting tighter by the week. VFW knocked off — of all people—league leading Rotary and showed that they just might beat anyone on a given night. Farmers Elevator, a team that looked down right enemy in their last appearance, came back with a full roster last week to look like they had ALL the power, as Steve Gray brought back memories of the big Haskell pitcher of last year's tournament with his no-hit pitching and blazing speed.

It seems it's just a matter of who has their personnel on hand. Minus Lynn Rader, Roy Lee Aydelett and Gary Eddy, the Rotary Braves were defeated; without Ronny Eavenson and Buddy Myers, Farmers Elevator can't win, but with them they whaled the daylight out of Foard County Mill (with Paul Stapp and Jimmy Johnson missing). So the eventual outcome of the league depends a great lot on who's missing on game nights!

Incidentally, a PeeWee, one

Bill Lynch, has won the hearts of the fans and of Brave managers with his fill-in play with the Rotary crew. He's played two complete games with them, handled 6 chances without a bobble, and he runs the bases like a little gazelle.

The bright new baseball was ready and still in its box, but the weather just wouldn't cooperate. It became apparent, on Tuesday night, June 5, that there would be no in-between-games period, as the dark rain clouds came nearer by the minute. Finally, I called him up to the announcer's stand. "Gary," I told him, "we had meant to present this ball to you in a little ceremony between games, but it's pretty obvious that we can't even finish this one. So, take this ball on with you, and congratulations for having sold the most buttons in our finance campaign."

Old Gary's smile was far ear-to-ear. I doubt that it made a great deal of difference to him that he missed a lousy speech by the league president—or even having been photographed receiving the ball from finance chairman Mike Bird. He just wanted that new baseball that gave him the satisfaction of knowing he had sold the most buttons—58, I believe!

Here, There and Everywhere Dept.: If Ronny Eavenson hits

the ball over the McLain Farm Equipment sign with broken bones in one foot, just what would he do if both terminal extremities were in top shape? Bob Bird's homer of last Friday night was his third of the season, but it's much more significant than that. It meant a possible victory for his VFW crew (with Baylor Weathered at the helm), and eventually they got it. . . . Does Rudy Magee have a baseball magnet in his glove while he's pitching? (Fully half the batters hit the ball straight back to him). . . . Bill Bell declares that VFW didn't beat him (they beat Houston Adkins). . . . As of Saturday night, June 9, Rotary and Farmers Elevator had each lost the same number of games, but Rotary had played 3 more games than the Yankees.

The PeeWees will tell you: sure the stock market is acting up a little; and the wheat was all hauled out; and the cotton all covered up (four times) . . . but the real tragedy is happening up at Little League field. The PeeWees haven't played a ball game yet, due to the rains and storms!

Plainview Man Fined \$10,000 in Income Tax Case

Lewis V. Brittan, wealthy 69-year-old Plainview farmer, was fined \$10,000 and given a three-year suspended prison term in Federal Judge Sarah T. Hughes' court June 4 for income tax evasion.

Brittan was placed on probation for three years on condition that all back taxes, interest, and penalties due the U. S. Government be paid.

After listening to character witnesses for Brittan—estimated to be worth \$500,000 at the present time based on current market values, with about \$100,000 of this in government bonds, bank, savings and loan accounts—Judge Hughes said: "Of course I appreciate the willingness of Mr. Brittan's neighbors and friends to come here and testify, but I am really concerned that a man who has evaded his income taxes for three years and has in effect taken money from the U. S. Government, which belonged to the U. S. Government, should stand so high in the community, because there must be something wrong with the moral standards of a community when people do not think that evasion of income taxes is wrong. It's inconceivable to me, too, that Mr. Brittan didn't have some idea that he owed the U. S. Government more money than he did. He knew the amount that he was putting in the bank and he couldn't help but know that he owed more taxes than he paid."

"I have gone so far as to express myself to his attorney that I feel very strongly about people who evade taxes and believe they should spend some time in confinement. However, in this case, after reading the doctors' reports, I have concluded that confinement would serve no purpose," the Judge stated.

Brittan, who has 1,400 acres of irrigated land, was charged with evading \$14,186 in taxes for the years 1954, 1955 and 1957, by failing to report \$50,279 income derived from interest on six savings accounts, dividends, unreported grain and cotton sales income—and by overstating his farm expenses.

Ellis Campbell Jr., Internal Revenue Service district director, in discussing the case, said: "Our mission is to do everything reasonably possible to maintain the effectiveness of voluntary compliance, and to develop public awareness that our aim is to reach the correct tax result, nothing more."

Pioneer Circle

The Pioneer Circle of the Methodist Church met in the regular social meeting of the month on Monday, June 4, with Mrs. Jim Minnick as hostess.

Mrs. Fred Wehba was worship and program leader of the lesson, "Facing the Challenge of the Youth for Missionary Work."

Miss Texas to Appear at Santa Rosa Roundup

Real glamour — on horseback and off — will be a special feature of this year's colorful Santa Rosa Roundup and Rodeo, scheduled June 20-23 at E. Paul Waggoner's showplace arena at Vernon.

A fast-rising young singing and stage star, Linda Loftis of Fort Worth, will join a trio of women trick riders in the rodeo's glamour department.

Miss Loftis, third place finalist in the Miss American contest, bears the title of Miss Texas. She was adjudged the "most photogenic" in the Miss America pageant and has thrilled audiences with her singing ability.

Rodeo appearances aren't a new experience for Miss Loftis. She was a special guest of the Fort Worth Fat Stock Show.

Miss Loftis will be coming directly to Vernon, for Friday and Saturday appearances only, from an engagement in Las Vegas, Nev. She has also appeared on the Red Skelton TV show, in Fort Worth opera, and has participated in Casa Manana summer stock productions. She will be the featured star in the musical, "The Desert Song" at Casa Manana this June.

The featured women trick riders will be Karen Womack, Janet Plunkett and Patty Davis.

Patty is an attractive blue-eyed blonde, following in the footsteps of her mother, who previously did exhibition riding in Vernon years ago.

A full program of outstanding clowns, a cowboy band and other special attractions will round out the rodeo—which will feature the nation's top cowboys and challengers and rugged arena action.

Beutler Brothers of Elk City, Okla., are among the nation's top rodeo producers, and will produce the show.

The Roundup will be launched with a big downtown parade at 3 p. m. Wednesday, June 20.

JANET CARROLL

Six 4-H boys and girls will leave Monday, June 18, for the three-day District 4-H Leadership Camp at Buffalo Gap in Taylor County. Those attending include Don Bill Statter, Jimmy Gillespie, Lee Looney, Sharon Golden, Jean Burkett and Dena Todd, and the County Agents.

Now is the time to inspect premises for termites.

Termites swarm during the spring and fall months and this is a good time of year to see them.

You can spot a termite by its four silvery wings which are equal in length and twice as long as its body. During the swarming period, these wings often become detached and may be found lying around the house or grounds.

If you discover termites, don't panic! You may be able to handle the situation yourself. There are several things the average homeowner can do to control them.

The main thing to remember is to break the contact between the termite colony in the soil and the woodwork in the building—and homeowners can do this by blocking the passageways from soil to wood and removing all wood supports, formboards and debris from the ground, and by chemically treating the soil.

The U. S. Department of Agriculture's Forest Service has a seven-page leaflet that gives detailed recommendations on how to cope with termites. Single copies may be obtained free from the Forest Service, USDA, Washington 25, D. C. Ask for "Soil Treatment—An Aid to Termite Control." Leaflet #24.

"Pack Your Grip for College" was the title of the Free Will Baptist young people's program for June. It concerned Christian living on the college campus. The program was presented by Sharon Golden, Ruthie Doyal and Yvonne Wheeler.

Mrs. Earl Watson was chosen to take Mrs. Fred Ford's place as Y. P. A. sponsor.

Miss Jo Anne Fox, Robert A. Wilson Wed Saturday Night

Miss Jo Anne Fox, daughter of Mr. and Mrs. George C. Fox of Crowell, became the bride of Robert A. Wilson Saturday evening at 7 o'clock in the First Baptist Church in Crowell. The bridegroom is the son of Mr. and Mrs. Howard L. Wilson of Vernon.

Rev. Ronald D. Fox, pastor of the Harmony Baptist Church at Brownwood and brother of the bride, read the double-ring rites before an improvised altar of cathedral candelabra decorated with greenery of emerald and lemon. White tapers, baskets of white gladioli and standards of palms flanked the candelabra. Aisles were decorated with white satin bows.

Organist Noel Wilkins of Crowell played nuptial music.

Given in marriage by her father, the bride was attired in a waltz length bridal gown of double tiered Alencon lace over net and taffeta, fashioned with a scalloped neckline trimmed with seed pearls and iridescent sequins. The gown was styled with an Elizabethan bodice and long sleeves which tapered to points at her hands. She carried a white orchid with trailing stephanotis and white satin in streamers tied in love knots atop a white lace covered Bible.

Her shoulder length veil of illusion was attached to a matching Alencon lace pill box hat trimmed in seed pearls. Her only jewelry was a single strand of pearls, a gift of the bridegroom.

Mrs. Ronald Fox, sister-in-law of the bride, of Brownwood was matron of honor. Miss Jessie Lee Hillman of Vernon was bridesmaid. The bride's attendants wore identical dresses of open blue silk organza over taffeta fashioned with fitted bodices, brief sleeves and bell shaped skirts. Necklines of the dresses were high in front and low in back. They wore circular tulle nose tip veils attached to tiaras of small blue flowers and carried cascades of white carnations with blue satin streamers. Their shoes and gloves were white.

Best man was Curtis D. Beard Jr. of Abilene, and Michael Street of Lubbock was groomsman. Ushers were Don Vickery of Dallas and V. A. Smith of Vernon.

The bride's mother wore a shaded tone beige box type suit of polished cotton with matching hat, bone accessories and a gardenia corsage. The bridegroom's mother chose a blithe blue French voile dress fashioned with an embroidered bodice and a pleated skirt. She wore matching accessories and a corsage of gardenias.

Senior Girl Scouts Attend Meeting in Wichita Falls

On Wednesday, June 6, seven members of Troop I attended an all-day orientation program for senior Scouts held in Wichita Falls. The Senior Scout Planning Board for the NorCentTex Council was organized, and Karen Shirley was elected secretary. Dena Todd and Karen are the delegates from Troop I and Gayle Russell was selected alternate. The other girls attending the meeting were Shirley Mike Rasberry, Paula Veera, Ella Hollenbaugh and Sharon Mapp. They were accompanied by Mrs. Ray Shirley, leader.

Troop I has recently been registered as a Senior Scout Troop. It is the first troop has had in a number of years; yet it is only in Senior Scouting that girls can be eligible for the Roundup and other regional, national, and international honors. In the near future, the Crowell troop will make application to visit the Girl Scout Cabana in Cuernavaca, Mexico. They have made tentative plans to make the trip in 1964 and will have troop projects to earn the money for the trip.

Camping experience is a must in the national events, and the Crowell troop has had three years of troop and established camping. There is only one troop in Wich-

ita Falls which has had more experience, and it is composed of second and third year Senior Scouts. The Council hopes to organize a number of Senior Troops. Any girl is eligible who is fourteen and a freshman in high school. Extensive training will be offered for volunteer adult leaders, as new troops are being organized in Paducah, Quanah and Wichita Falls. The NorCentTex Council has one hundred and five girls registered in Senior Scouting at the present time. Had the Council been formed in time for this year's Roundup, two girls would have been eligible. Roundup delegates are prorated two for every one hundred girls registered. There will be nine thousand Senior Scouts attending the one this summer in Vermont from all parts of the world; so, the scouting program for high school girls is most active.

In the campout news reported last week, Gayle Russell's name was inadvertently omitted. She was in the skit presented Monday night.

Foard City H. D. Club

Mrs. Jones was elected as club nominee for delegate to state THDA meeting. Mrs. Floyd Borchardt brought the program on "grooming."

The hostess, Mrs. Callaway, served soft drinks and cookies to Mrs. Fred Traweck, Mrs. Glenn

One Bright Aspect of Steel Price Hassle

Senator Barry Goldwater writes: "The one bright aspect of the steel price hassle, it seems to me, is that the whole affair has served to highlight and to dramatize the very grave problem faced by American industries which are saddled with out-moded and obsolete equipment. Private studies in this field indicate that presently there is some \$95-\$100 billion worth of this kind of equipment now being used by American industry in a time of heavy competition. And, against this, the Administration has proposed a piddling 8 per cent tax credit on funds scheduled for expansion and modernization."

New Cult Arises in America

"A whole cult has arisen in America which thinks it necessary to expend federal funds for all manner of purposes, from building our schools to cleaning up the trash in our back yards. They claim it is unnecessary even to attempt to balance the budget. No thought is given to the erosion of public confidence in the future of the dollar. No greater error can be made. The financial trickery which other nations employed to 'revalue' their currency led to tremendous privation among their citizens, misery, depression, unemployment and even actual starvation."—Angola, N. Y., Evans Journal.

An increase in the postage rate on first class mail becomes effective on Wednesday, July 6. The one cent rate on postcards remains the same, as does the one cent rate on letters that are not addressed to points outside of the local postoffice.

Drilling on another oil test on the L. K. Johnson ranch in the west part of Foard County is to be started soon by the Texas Company.

Residents of Foard County and Northwest Texas are now twenty miles closer to Dallas and East Texas as a result of the recent completion of State Highway 114, the new \$2,500,000 cut-off between Rhame and Dallas.

Munson Welch has opened a cold drink and lunch stand on the northeast corner of the square, just across the street south of the Quick Service Station.

Talks by George Moffett of Chillicothe, state representative from this district, and N. S. Kilgore of Benjamin, both of whom are candidates for this office, featured the tax meeting here Saturday.

Horseshoeing Contest Slated at Stamford Rodeo

President Gene Swenson of the Texas Cowboy Reunion in Stamford, has announced a special horseshoeing contest for the reunion July 2, 3, 4. Swenson said, "There are thousands of young folks and newcomers to Texas who have never seen a cowboy shoe. Therefore, we intend to have area blacksmiths who are interested, stage a contest as to who can quickest and best shoe a cowboy. This will be hard work just as it was in the century past."

Swenson further said, "This year we hope to have the biggest and fastest show in the 33-year history of the Cowboy Reunion—mark July 2, 3, and 4 on your calendar as the time to show your folks how real cowhands work."

Congressman Purcell Opposes Trade Expansion

During this past week, the Ways and Means Committee of the House of Representatives reported out the "Trade Expansion Act of 1962." This is the big, all-inclusive trade bill requested by the President for the purpose of expanding our trade with other nations. Specifically, it is designed to put us in a better bargaining position with member nations of the European Common Market.

As most of you know, a number of us who are members of Congress from oil-producing states have been waging a fight for inclusion in this bill of a provision to protect our domestic oil industry by placing a reasonable limitation on imports of foreign oil. We were joined in this effort by a number of other Congressmen who studied the problems that exist and discovered, as we had done, that this measure was vital to our national security as well as being vital to the economy of oil producing areas.

We were terribly shocked and disappointed to find that the final committee version of the trade bill does not contain the provision we had requested. It does not change the oil imports situation at all.

The bill will probably be considered by the House under a rule which will prohibit amendments from the floor. This means that the oil import regulations cannot be added to the bill after it leaves the Committee on Ways and Means.

I believe the committee's action, or lack of action in this case, to be a complete failure to consider the facts presented in behalf of this proposal. The committee has, apparently, completely disregarded the very vital needs of our national economy.

Most important, it seems to me, the committee has failed to heed the warnings of the obvious results of a continuation of the present policy. It seems very clear to me that unless something is done soon to reverse the present trend in the domestic oil producing industry, this nation is going to find itself in the unfortunate position of not being able to produce enough oil domestically to take care of our needs in case of national emergency.

The independent oil producers, who produce 65 per cent of the oil and drill 90 per cent of the wells, are going out of business.
