SIXTH YEAR NUMBER 42

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, MAY 2, 1957

EIGHT PAGES

Baptist Church Participating in Movement Program

The First Baptist Church of Crowell is participating in the Texas Baptist General Convention and Recognition Program. There were 161 churches in this program last year and awards were made by the 17 district conferences and by the annual state convention for the church and pastor for the best record. A large display sign is given to the winners in each of these levels of competition. The winning church will receive a scroll and the state winner will speak at the annual state convention.

Churches participating in the program set up goals in the three phases of activity. The phases are: Toward a Better Community; Toward a Better World; and Toward a Better Future. Questionnaire suggestions for worthy projects are better education, and recreation in the Better Community phase. Churches select their projects for the betterment of the community, and world peace.

Churches in the open country towns up to 2500 population are eligible to enter this program. Twenty-three out of each county Southern Baptist churches are in this size classification.

Interest in the movement has been shown by the increase in churches to the present goal of 300 churches participating has been set up for the year in Texas.

C. T. Aly has been made chairman of the local General Committee. Other members of the Progress Committee are: Clark Hitt, Mrs. G. and Guy Todd; Better Community, L. A. Andrews, Mrs. Williams and Mrs. W. R. Clark; Better World, Mrs. C. Laughlin, Mrs. Martin Jones and Glen Goodwin.

SCOUT MEETING

Cub Scouts met last Tuesday for their regular monthly meeting. The theme for the meeting was "Swiss Robinson". Both packs put on an interesting skit and also displayed some very nice projects which they had made during the month—such as bird book ends, paper weights, containers, stoves from cans, and were seventy present—Pack No. 1 outnumbering Pack No. 2, which gave them the lead for the first time.

TOWN BIBLE CLASS

The opening exercises of the Town Bible Class Sunday morning, two duets were rendered by Charles Branch and Mrs. W. Lemons with Mrs. Lemons accompanying the piano.

There were 18 present, including out-of-town visitor, Arlie Wade Callaway delivered the opening message from the book of Isaiah in the absence of the pastor, Recie Womack.

CLASSIFIED QUIZZERS

About American History

How well do you remember the important documents of American history which you studied in school? You can find out by answering the questions given below. Turn to the Classified Page for the answers.

What most important governmental document begins: "We the people of the United States?"

What great declaration in American history begins "When in the course of human events?"

At the dedication of a battlefield, Lincoln made what famous address, the opening words of which are "Four score and seven years ago?"

In what great address did Lincoln say these words: "With malice toward none and charity toward all?"

Every American school child has often repeated this doctrine which begins "I believe in the United States of America." What is it?

Classified Has the Answers!

One-Act Play Cast Goes to Austin Today for Interscholastic League Finals

Crowell's one-act play cast, composed of DeAnna Ferguson, Marilyn Stone, Lowell Page and Ray Thomason, left for Austin this morning to participate in the State meet. Student managers who are making the trip are Roma Jan Sikes, Sue Bursey, Judy Bor-

hardt and George Morgan. They were accompanied by Mrs. Moody Bursey, director, and James Welch. Crowell's play, "Steps from Beyond," won over a field of eight entries at the district meet and seven plays at the regional meet. Crowell's cast competes against seven more plays at the State meet beginning at 4:00 o'clock tomorrow afternoon. The schedule for the plays that fall in Crowell's class are as follows: Katy, "The Recognition Scene from Anastasia"; Crowell, "Steps from Beyond"; Overton, "I Remember Mama" (scenes); Channing, "Legend of the Lake."

Funeral Services for Cottle County Mail Carrier Held Sunday

Funeral services for Elroy E. Buckley, 51, were held Sunday at 2 p. m. from the Paducah Church of Christ with L. E. Fooks and E. A. Wilber officiating. Mr. Buckley died in a Jacksboro hospital about one hour following a car-truck collision at 8:15 p. m. Thursday, eight miles east of Jacksboro on U. S. Highway 193. He was traveling east and the truck west at the time of the collision. It occurred during torrential rains that covered the Jacksboro area. He was alone in his car at the time of the accident. Driver of the truck was not injured.

Mr. Buckley was born in Foard County on March 14, 1906, son of Mr. and Mrs. R. N. Buckley of Tucson, Ariz. He moved to Cottle County in 1915 and at the time of his death was a rural mail carrier on Route 3 out of Paducah Post Office, a job he had held for the past 33 years. This route serves the residents of the Vivian community in Foard County. He was also a farmer.

Survivors include his wife and parents; four sons, one brother and two sisters.

Revival Services to Begin at West Side Church of Christ May 5

A series of revival services are scheduled to begin Sunday, May 5, and continue through the following Sunday, May 12, at the West Side Church of Christ. C. M. Walkup of Gould, Okla., will do the preaching. Minister Walkup is well known here, having held revivals here before.

Former Crowell Man Opens New Warehouse

E. B. (Ernest) Patton, son of W. A. Patton of Crowell, and district manager of the Ada Oil Company of Victoria, opened a new warehouse and bulk station for the company in Victoria on April 13.

The Ada Oil Company handles Phillips "66" products, and has been operating in the Victoria area for 10 years. Mr. Patton went to Victoria in 1953 to assume his duties, and under his direction the company has expanded its outlets and facilities.

Top row (l. to r.): Bill Lynch Jr., son of Mr. and Mrs. Bill Lynch; James Shultz, son of Mr. and Mrs. Loyd Shultz; Keith Shultz, son of Mr. and Mrs. Loyd Shultz; bottom picture: Jimmy Watson, son of Mr. and Mrs. Earl Watson.

Funeral Services for W. A. Cogdell Held Here Sunday

Retired Mail Carrier Died in Veterans Hospital Friday

W. A. Cogdell, 83, retired rural route mail carrier and veteran of the Spanish-American War, died Friday, April 26, in the Veterans Hospital in Amarillo, following a heart attack. He had been in failing health for several years.

Funeral services for Mr. Cogdell were held in the Crowell Methodist Church Sunday afternoon at 3 o'clock conducted by Rev. Warren Everson, pastor of the Bethel Church, assisted by the Methodist pastor, Rev. Grady Adcock.

Mack Boswell Goes to Miami, Okla.

Mack Boswell, editor of the Brownwood Bulletin since July, 1952, left Brownwood April 18 for Miami, Okla., to become a member of the editorial staff of the Miami Daily News-Record, one of the daily newspapers owned by C. C. Woodson, publisher of the Bulletin.

Boswell, native of Plainview, started his newspaper career in Crowell in 1929 as assistant editor of the Foard County News after serving a year as secretary of the Crowell Chamber of Commerce. He stayed here for seven years, going from here to the Vernon Daily Record and then to the Brownwood Bulletin where he had been associated with the Bulletin since 1937, with the exception of four years in the Air Force from 1942 to 1946.

Dedication of G. O. C. Building Rained Out

The dedication of Crowell Ground Observer Corps building on Sunday, April 28, was rained out with a 2.7 inch rain recorded by the new rain gauge at the post.

"As rain is what we have been needing so long, we have no regret in postponing, or dispensing with, a dedication," Wm. E. Wells, supervisor, said. The post will be open for inspection each Sunday afternoon to any person who wishes to visit.

"Much information in support of our Civil Defense can be obtained in visiting the post and inspecting its value of protection to our nation's cause," Mr. Wells continued. "We are having trouble getting a telephone installed, but we expect to be able to overcome this opposition in some way soon," he concluded.

CEMETERY DONATIONS

Those who have subscribed to the upkeep of the Crowell cemetery for the month of April, as reported by Mrs. N. J. Roberts, follow:

Mary E. Odom, Anna, \$5.00; Will B. McCormick, Temple, \$15.00; Mrs. W. O. McDaniel, \$10.00; Mills and Brown, \$5.00; R. B. Lilly, \$5.00; J. L. McBeath, \$10.00.

For the fence fund, the following donations have been received: Mr. and Mrs. A. F. McMillan, Tyler, in memory of Silas Moore, \$10.00; Mrs. Catherine Ball, Fort Worth, \$10.00; Mrs. S. Moore, \$5.00.

Mrs. Roberts added, "We paid for our fence out of our cemetery fund, getting some reduction for cash, and it's been our purpose to replace as far as possible our general upkeep account. We urge all interested friends to continue their support, that we may be able to meet our current expenses and add improvements when the occasion demands."

8.18 INCHES RAIN LAST MONTH MAKES WETTEST APRIL IN OVER 40 YEARS

W. A. COGDELL (At time of retirement)

Crowell Schools Turn Out First 3 Days of Week

Foard County schools turned out on Monday and Tuesday of this week, due to muddy roads. They observed their regular scheduled holiday on Wednesday for the Santa Rosa Roundup at Vernon.

The three-inch rain on Sunday and Monday, coming shortly after the heavy rains last week, made some of the bus routes impassable. The average daily attendance for the Crowell School thus far this year is 514. An average below 513 would cause the loss of one more teacher for next year. The school officials thought it wise to wait until Thursday to resume classes.

According to Superintendent Grady Graves, these two days can be made up on Wednesday and Thursday of exam week. Graduation exercises for Grade School will be held Thursday afternoon, May 23rd, at 2:30 o'clock. High School graduation will be Friday evening, May 24th, at 8:00 o'clock.

American Legion Post to Be Honored at Annual Convention

Gordon J. Ford Post No. 130, American Legion, will be one of eleven posts to be honored at the annual convention of the 13th Congressional District of the American Legion, to be held in Wichita Falls Saturday and Sunday, May 4-5. The post, of which H. E. Minyard is commander, will be presented a citation for having exceeded its 1957 membership quota by the time of the convention.

NEW VEHICLES

The following new vehicles were registered in the office of P. W. Taylor, sheriff, tax assessor-collector, from April 12 through 17:

April 12, Virgil R. Hill, 1957 Chevrolet pickup; April 15, Robert Streit, 1957 Ford pickup; April 17, Otto W. Davenport, 1957 Chevrolet 4-door.

District 15 V. F. W. Encampment to Be Held in Crowell Saturday and Sunday

The 1957 Spring Encampment of District 15 of the Veterans of Foreign Wars of the United States and the Veterans Auxiliary will be held in Crowell on Saturday and Sunday, March 4 and 5. Delegates and members from the twelve posts of the district will be present.

Complete Information Given on Two New Raspberry Producers

Complete information on two new producers in the Raspberry Field named in last week's issue of the News follows:

Kadane-Griffith Oil Co.'s No. B-3 Maude E. Raspberry, in section 25, block A, SPRR survey, flowed 120.46 barrels in 12 hours through 21-64-inch choke from open hole at 6079-6123 feet. With packer on casing, tubing pressure was 105 pounds. Gas-oil ratio was 380-1. Pay section was treated with 500 gallons of mud acid.

Texaco's No. 2 M. E. Raspberry was finished for a calculated daily flowing potential of 150 barrels of 40 gravity crude with gas-oil ratio of 360 to 1. Location is in section 23, block A, SPRR survey. Operator used packer on casing and 150 pounds pressure on tubing. Pay section at 6140-45 feet was acidized with 500 gallons and total depth was 6150 feet.

4-H Club Members to Appear on T. V. Tuesday, May 7th

Misses Margie Raspberry and Kay Johnson and George Morgan and Duane Johnson, all members of the Foard County Junior Leaders 4H Club, will appear on the Channel 3 TV program, RFD-3, next Tuesday, May 7, according to Mrs. Mary D. Brown, County Home Demonstration Agent.

This program is on from 11:30 a. m. until 12:30 p. m., now due to a recent time change. Their demonstration will be on insecticides and their uses.

RETURNS FROM EUROPE

Mrs. W. B. Tysinger returned last Thursday night from a six-weeks tour of Europe. In the time, she visited ten European countries. She sailed from New York on the Queen Elizabeth and returned on the Queen Mary.

AWARDED SCHOLARSHIP

A. B. Martin Jr., teacher in the Gilliland School for the past three years, has been awarded a Coe Foundation Scholarship to study American history and secondary education at the first summer session of 1957 in Abilene Christian College. The scholarship will cover cost of tuition, fees, and board for the six weeks term.

The Coe Foundation operates out of New York City and awarded a total of 50 scholarships for teachers in Texas.

TEEN-TORIAL SATISFIED

I saw a thought in print the other day, and it made good sense. "We ought always to be satisfied with what we have, but never with what we are."

I saw several points with which I was in accord spring up in my mind.

Money doesn't have a heart, but I do.

Money can't get sick and go to a hospital, but I can.

Money hasn't a mind to lose, but I have.

Money cannot obey God. This

I am able to do. Money is free to do evil things, but by my conscience, which money has not, I am not free.

A human being can always reach out a little further to perfect itself. Material possessions are man made. If we spend our time building material goods, then what of us?

Few of us are satisfied with what we have. Many of us are satisfied with what we are.

What satisfies you?

ESSE'S MESSES

It's me again. And I'm "all wet" today.

What would you do if a three-day vacation from school were suddenly thrust upon you, and all you could do was hibernate inside till the rain stopped?

Listen to the radio? What about the static? Phonographs don't make static.

—But who wants to hear phonograph records all day? Not only am I "all wet," but also I am a "wet blanket."

Well, I hope you found something to do. I had plenty, but I won't know whether I did it or not till this is already published.

Such is life.

GEORGE'S GAGS

Since there is nothing more to do today, I am reprinting some old jokes. The "Crowell High News" published them in The Foard County News on December 17, 1936. Since there is a certain charm to age, we'll leave the names of the old "gags" in the paper. Do some of our readers remember them?

Garrett (Middlebrook): Does your father object to my staying

so late? Lois Evelyn (Norris): Oh, no. He says it serves me right for letting you hang around.

Henry Black: I see that in South Africa a single spearhead will often purchase a wife.

Ann Mabe: That's nothing. I know of instances in this country where a bone head got one.

Marvin McKown: Did you take your usual two weeks' camping trip this year?

John Lee Orr: No, we just left our house doors open, removed the window screens, and got the same effect.

TURN BACK THE CLOCK

On December 17, 1936, there was (probably) the same Thursday morning rush to read the school paper, then known as the "Crowell High News."

The staff at that time included Glen Don Reeder, editor; Edin Hutcheson, assistant editor; Lois Evelyn Norris, joke editor; H. K. Edwards, sports editor; Myrtle McKown, exchange; Henry Black, faculty advisor; Evelor Cauthon, Beulah Ivie, Frances Davis and Camille Graves, reporters; and Juanita Brown, typist.

In this paper were found articles about FFA, basketball, a VA field trip, new library books, the football banquet, an ex-student, Geraldine Carter, who played lead role in "The Enemy" at North Texas State College, an assembly program presented by Miss Vera Patton (who is now our own sponsor, Mrs. Vera Manard), the jokes (elsewhere in this paper), a scandal called "Snooping" and a "Can You Feature" article.

Like this: Can You Feature—

James Long reporting to Span-

OFFICIAL 1937 BASEBALL SEASON OPENER — A big smile on his face, Pres. Eisenhower grips the ball and gets set to "shoot" as he throws out the first ball to officially open the 1937 baseball season at the Washington - Baltimore game in Griffith Stadium in Washington.

RIVERSIDE

MRS. CAP ADKINS

Gilroy Rummel of Wellington visited Mr. and Mrs. August Rummel Tuesday.

Mr. and Mrs. Edward Raska and family of Electra spent the week end with her parents, Mr. and Mrs. Henry Bice.

Mr. and Mrs. Grover Phillips have returned from an extended visit with their son, Raymond Phillips, and family of Knoxville, Tenn.

Mr. and Mrs. James Bowers and Janie and Mr. and Mrs. L. Kempf all spent Sunday with their sister and daughter, Mrs. Floyd Ferguson, and husband of Crowell.

August Rummel and Adolph Bodling were visitors in Wellington Wednesday.

Ward Kuehn visited his uncle, Tom Ward, and family of Chillicothe Sunday.

Mr. and Mrs. Leon Taylor visited his sister, Mrs. Earl Stine, and family of Quanah Sunday.

H. C. Payne of Floydada visited his parents, Mr. and Mrs. Coy Payne, during the week end.

Mr. and Mrs. James Bice have returned to their home at Dumas after visiting their parents, Mr. and Mrs. Henry Bice, last week. Their son, Monte Ray, remained for a longer visit.

Mrs. James Bowers and Mrs. Grover Moore attended the federation meeting at Crowell Friday.

Mrs. Everett Close and son of Vernon and her mother, Mrs. Charlie Blevins of Thalia, visited Mr. and Mrs. Robert Hudgens Wednesday.

Mr. and Mrs. August Rummel

BEG YOUR PARDON

As you all probably know by now, it rained. If our paper seems skimpy, it's for a reason. The "old hands" had no way of furnishing us with their usual columns.

We'll see you next Thursday, and we hope we can give you more and better reading matter at that time.

KEYHOLE KAPERS

The rain sure was a big scandal squasher. Of course there was the usual Saturday night court house square commotion.

What did Patsy Mechell and LaVoy Rummel get into Saturday night? R. H. McCoy and Company have gained the eye of one prominent citizen of Crowell. When will he be good?

I sure wish I knew what everybody did. What did you do? The biggest scandal I know is the outrageous size of this article.

ANNUAL STAFF

This deadline week, and the rain has dampened our spirits, but we hope to have our "Roundup" all rounded up on time. Git along little dogies! Time's a-wastin'!

MARKETTA'S MUMBLINGS

If you lived so far out of town, and it was raining, and they had called off school.

You'd be mumbling, too.

Learning as You Save

The New York Stock Exchange recently issued a report on investment clubs—and it's quite a story. These clubs consist of groups of friends who decided to start investing together to get practical investment experience and to put their money to work. As a rule, the members meet once a month and invest a set sum, such as \$10 or more, in a stock of their choice.

This idea is not new—one club has been in operation for over 27 years. But, with the growth of the American economy and the increased interest in investing, the number of clubs has grown fast. Now, it is estimated, there are some 10,000 clubs in operation, with more than 100,000 members.

A soundly conceived investment club can be a great and valuable educator. The point is that the members must have a sincere desire to learn—not to get rich quick—even as they accumulate funds for worthwhile objectives.

It is reported that only two out of 12 investment club members have had any previous investment experience. The clubs are organized so as to give these beginners the experience they need—and that they do so successfully is indicated by the fact a very large percentage of the members go on to invest on their own account.

There has been a very marked growth in share ownership by people of modest means. The investment club is a valuable stimulant to that healthy trend.

Home Demonstration Notes

MRS. MARY D. BROWN

All this wonderful rain should certainly give the shrubs and trees you have set out a head start. Next month my demonstration will be on controlling the insects on them. A lot of us sit by and watch the insects ruin our flowers and shrubs each year simply because we don't know what to do about them. Actually if you keep 4 insecticides and use them properly, you can control almost any bug or insect that attacks shrubs and ornamental trees. Come to club and find out what these insecticides are and how to use them.

Also next Tuesday, May 7, Kay Johnson, Margie Rasberry, Duane Johnson and George Morgan will give a demonstration on Channel 3 TV on the RFD program on insecticides and their use. Their program starts at 11:30 so plan now to see it.

Next month at your leader meeting you will learn how to plant and grow annual flowers so all in all it looks as if we will be busy in our yards next month.

Cheese Barbecue

3 tablespoons chopped green pepper, 1/2 cup chopped onion, 2 hard cooked eggs, chopped, 3 tablespoons chopped stuffed olives (optional), 3 tablespoons catsup.

visited Mr. and Mrs. Ewald Graf of Hinds Thursday.

Mr. and Mrs. Loyd Whitten of Crowell visited Sunday with his parents, Mr. and Mrs. R. G. Whitten.

Louis Ward of Wichita Falls visited his parents, Mr. and Mrs. Frank Ward, Monday.

Mr. and Mrs. Bert Cerveney and girls of Vernon visited her parents, Mr. and Mrs. John Matus, Sunday.

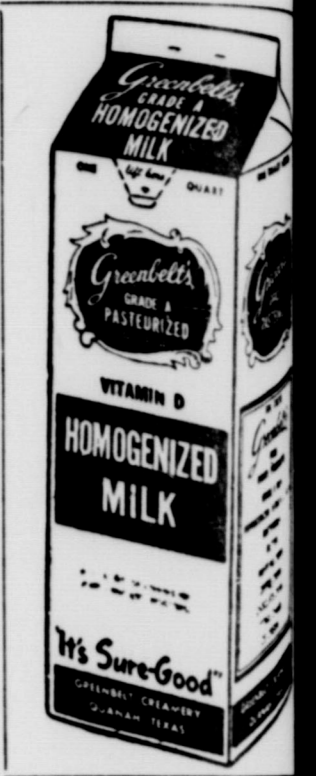

Mrs. Marjorie Ferguson of Foard City visited Monday with her sister, Mrs. Delmar McBeath, and family.

Mrs. Delmar McBeath and daughter, Brenda, visited Mrs. Kenneth Bingham in Crowell Friday.

1 tablespoon melted butter, 1 1/2 cups grated cheese, 6 hamburger buns. Combine the ingredients and put 1/4 cup cheese on each bun. Place on cookie sheet under a broiler, and toast about 5 minutes. Serve at once. Makes 6 sandwiches.

SITE BOUGHT IN 1905 Rear Admiral Albert A. Smith took official possession of the land for the Navy on July 1, 1910. Navy-minded citizens of the chants Club of Chicago \$175,000 to buy the original 172 acres. They transferred the land to the United States for \$1.00 and other good and valuable consideration." — 200 trained men and women Navy in 46 years.

TRAINED 125,000 SAILORS Great Lakes trained 125,000 sailors for World War I, a million for World War II. Peak strength of the corps 103,706 on March 19, 1942. Listed men and women 97.8 per cent of total personnel on that date.

West Texas Utilities Company

Water Safety Aims Stressed

Recent fatalities among fishermen and other water sports followers prompted Howard D. Dodgen, executive secretary of the Texas Game and Fish Commission, to stress the dangers of aquatic activities. He said fishing has been "altogether too good to have our people neglected by unnecessary regulations."

Dodgen said, of the first

dozen water fatalities reported this spring, most were attributed to carelessness of one sort or another.

One trotline fisherman fell out of his boat while alone and drowned.

One young man drowned when a boat containing four fishermen upset. The other three swam to safety. The victim couldn't make it because he had broken an arm and had his limb in a cast.

One fisherman drowned when a sudden storm upset his boat.

One fisherman drowned because he tried to use a motor too heavy

for his small boat.

One man died when he fell off his water skis and was struck on the head by a propeller of a following boat.

One man drowned when he stood up and fell out of a boat which lurched when a companion tried to start their outboard motor.

Mr. Dodgen pointed out that fishing from a boat "is a very safe sport when ordinary safety rules are observed."

He suggested that boat occupants always wear life jackets.

A person normally has twelve

pairs of ribs.

CLASSROOM BLACKOUT

Keep students in the dark if you want them to see the light. Teachers will find this easy thanks to a new drapery material just developed, which makes it possible to darken classrooms adequately during daytime slidefilm and movie showings. The soft, lightweight fabric is made in four layers: a decorated and textured vinyl, a second layer of black vinyl plastic for opacity, a base fabric, and a backing of neutral beige vinyl. These drapes (resistant to fire, tearing, shrinking, stretching and discoloration) rate oil a good report—"A" for achievement.

ROCK 'N ROLL OBJECTOR—Redheaded songwriter Gloria Parker, who owns one share of stock, shattered the calm of the 200 million dollar Columbia Broadcasting Company's annual meeting in New York by proposing a resolution knocking rock 'n roll music. Gloria demanded that CBS "divest itself immediately" of its interest in Broadcast Music, Inc., a firm that is "pushing rock 'n roll."

News from the Congress

by Congressman Frank Icard

Another attempt will be made during this session of Congress to settle the controversy concerning the regulation of natural gas which has been going on since the Supreme Court held several years ago that the production and gathering of natural gas was subject to federal regulations. To everyone who is familiar to any degree with the production of natural gas, it is evident that it is not a product which should be regulated by the Federal Power Commission. During the last session of Congress, a bill was passed which would have freed the industry of this control; however, it was vetoed by the President. Recently Congressman Oren Harris of Arkansas, introduced a bill which deals with this problem. Hearings have been set on it before the Interstate and Foreign Commerce Committee of the House beginning May 7. The effects of this new Harris bill would not be to free producers from control by the Federal Power Commission but it does provide that in fixing the price for natural gas at the well, the producer shall receive a "reasonable market value" for the gas, and it also provides a means for cutting much of the red tape that now exists in the Federal Power Commission's regulations and control. There is some doubt, of course, as to whether or not this legislation will pass both the House and Senate before adjournment; however, it appears that there is at least a fifty-fifty chance that it will be acted on by the House. While the new bill is not as desirable as the one passed by the Congress during the last session, its passage would mean a considerable improvement over present conditions.

This is the beginning of the tourist season in Washington and already the school children are beginning to flock into the Capitol. It is estimated that between now and the end of the summer, over a million of them will visit the capitol.

Congress has been in recess this week which has given everybody a chance to go home for a few days. I enjoyed the opportunity I had to visit at the Denton Centennial very much. It was marked by an outstanding parade as well as a beautiful pageant.

BABY OWES \$1,939!

"The tax bite on earnings is only the annual story of what government seems to be costing," writes Sam M. Jones in National Review. "Behind it lies a debt so large today that every baby is born owing the government \$1,939 before he lets out his first howl. If he is a member of a family of four, his paper will represent a government debt of \$7,738."

This, of course, is in a large measure the sad fruits of wars and depressions and other calamities. But it is also, in considerable part, the fruit of waste and duplication in government activities—and, more important, of a philosophy of super-government that ignores the eternal principle that government should not do for people what people can do for themselves. It is to that principle that we need to return, and to start repairing the incredibly costly damage that has been done in terms of depreciating value of money and weakening of representative government.

SUBMARINE ENTHUSIAST

Robert Fulton, inventor of the steamboat, was an avid submarine enthusiast. He built several submersible warships, one of which was known as the Nautilus.

Fish swim upstream because it is easier to obtain food than by swimming downstream.

Bass Are Favorite Game Fish of America

Polls reveal that bass are the favorite game fish of American anglers. Pan fish come next on the list, with trout running third. But, says Jason Lucas, angling editor of Sports Afield Magazine, the term "pan fish" is meaningless, for it includes totally unrelated small species caught by entirely different methods.

In place of pan fish, Lucas lists crappies. In fact, he says, in the sections of the country where they're plentiful, they might even rate a first place.

Crappies are the ideal fish for anglers who haven't the time—or perhaps the desire—to study the more intricate aspects of fishing necessary for catching bass. Also, says Lucas, crappie fishing is ideal for the family outing. It is often possible to catch six nice crappies during the same time required to catch one small bass.

Crappies vary in the fight they offer an angler. Sometimes they give practically no resistance, while on other occasions they will fight like tigers. And nobody knows the answer to their inconsistency.

The best way to fish for crappies is by using a fly rod. Playing a fish on this light tackle seems to make big ones out of little ones. The most sport is derived by using small poppers on the surface. These, however, are generally successful only rather late in the evening. Begin with one on a No. 8 hook, and then see if a little larger one will do better. Remember that crappies have small mouths.

Perhaps most important is the retrieve. A crappie will rarely take anything moving fast. The slower you retrieve, the more you'll catch, says Lucas. Let the lure lie there, twitching it only enough to form tiny ripples.

Crappies may not be the gamiest fish in the world, but coming hot off the skillet, coated with cracker crumbs, they take a high place for good eating among our game fish.

FASTER UNDER WATER

Modern submarines can travel faster submerged than on the surface. They can fully submerge in less than one minute.

"The Jazz Singer" starring Al Jolson was the first talking picture.

PETROLEUM PUSH FOR PORTABLE POWER PLANT

A portable power plant recently developed is capable of supplying emergency power to a good-sized community. The plant employs a petroleum-gas turbine, which has the advantages of being light and compact, quickly put into service and loaded, eliminating the need of water for cooling, and providing good heat efficiency. The 5,000-kilowatt plant is mounted on two 54-foot-long railway cars, and can be put in operation in five hours by a crew of ten. Emergency or not, petroleum is often the power that spins the turbine that brings electricity into American homes.

ABOUT YOUR HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M.D., Commissioner

Bacteria are the most numerous forms of plant life, and it's little wonder: under favorable conditions a single bacterium can become 536,000 in 15 short hours. Why is it then, constantly surrounded and assaulted by them as we are, that we don't fall victims of their attacks more often? Because six conditions must be present in any disease infection.

First, there must be a reservoir of germs; second, there must be a mode of transmission; third, there must be a susceptible host; fourth, there must be a mode of entry into the host; fifth, there must be favorable conditions for growth; and sixth, there must be a mode of exit. If any of these conditions is lacking, there is no disease.

Consider the human body as a fort surrounded by bacterial enemies. Always there is skirmishing with some of the commoner varieties, and sometimes they overwhelm by their numbers and strength. But as long as the outer wall remains intact, battlements manned with defenders, the fort is safe.

The sum total of human defensive forces is called resistance. "Immunity" to this or that specific disease is part of the defensive pattern. It varies in different persons and at different times in the same person. Some people are born with a "natural" immunity to certain diseases. Others get an "acquired" immunity through shots or by recovering from an actual infection.

The skin and the mucous membrane which lines all body openings is the human body's "outer ramparts" in the defense against organisms. Nothing is really "inside" the body until it has pierced either the outer layers of skin or a mucous membrane. As mechanical barriers, skin and membrane can withstand repeated onslaughts of germs without harmful results. But they can do more than that. Under normal conditions, the chemical action of secretions — sweat, saliva, mucous, gastric juices — can either kill or disarm germs.

But sometimes, perhaps through a simple scratch, or when germ loads are too numerous to turn back, external defenses are breached. When this happens white corpuscles are called on. White cells have the power to engulf and destroy germs. With the aid of a microscope it is possible to actually watch a white cell "consume" germs such as those which cause tetanus.

Natural resistance can be lost or weakened by a variety of bad habits. Malnutrition will weaken it, but so will overeating which taxes the liver and kidneys and clogs the blood with wastes. Worry is another friend of disease germs, and impure air, dissipation, lack of bodily cleanliness, want of proper exercise, continuous work unrelieved by open air recreation all will lessen natural resistance to disease.

In The News... 30 YEARS AGO

News items below were taken from the issue of The Foard County News of Friday, April 29, 1927:

While the wheat crop is not suffering very badly, it is showing signs of a need of rain, so some of the farmers say.

The polo game at the Minnick Ranch Sunday afternoon drew a large crowd from Crowell and other nearby towns, as well as a number from distant places. One of the interesting features of the afternoon was the steeple chase, something many of the people had never seen before. Fort Reno won Sunday's game over Wichita Falls, 10 to 7.

Foard County's \$400,000 road bond election Wednesday went over by a good strong majority.

A letter was received Monday from I. Fisch stating that he would soon return to open up his store. He has been in New York City for the past three or four months.

Cameramen representing Pathe News and Fox News were here Sunday to take pictures of the polo tournament at the Minnick Ranch. It would be conservative to say that these pictures will be shown before 75 million people a week, and Crowell will be given as the center near which they were made.

The barn at the home of C. A. Sallis a few miles northeast of Crowell was destroyed by fire Wednesday morning.

The rural telephone line of the Haskell Telephone Company running to the Vivian community is almost completed. It is estimated to cost the company about \$3,000.

The 82nd birthday of "Uncle" Jimmy Ashford, pioneer blacksmith, was celebrated at his home here last Sunday.

A special feature at the polo grounds Sunday will be stunt flying by Ray Shifflett. The banner act mystery will be "Stealing a Ride in an Airplane," when he will land Rosie Durand on the ground from his plane while flying at 50 miles per hour.

Mrs. J. R. Hutchison of San Dimas, Calif., arrived here Sunday night to visit her mother, Mrs. R. P. Womack, who is seriously ill.

Mr. and Mrs. Clyde Burnett of Benjamin were among the many visitors at the polo game Sunday.

Sam Lance and family of Chillicothe were here Wednesday attending the polo game.

UNPOPULAR "TEAMSTER"—Miss Helen Canfield may be the prettiest egg candler teamster union member in Scranton, Pa., but she is no threat now in a union popularity contest. The boys have given her a "wide berth" since she started to tell her story to the Senate Labor Rackets Committee. She told the committee that she and her friend, Paul Bradshaw, made tape recordings of conversations about a dynamiting plot aimed at a non-union contractor.

H. D. COUNCIL MEETS

The Foard County Home Demonstration Council met Saturday afternoon, April 27, in the office of Mrs. Mary Brown, H. D. agent. Seventeen members and 3 visitors were present representing all 7 clubs. Meeting was called to order by Mrs. Fred Trawick. Opening exercise was given by Mrs. Glenn Jones of Foard City. Minutes were read by Mrs. Clarence Garrett. Monthly reports were given by each club. Margaret Club during the month of March was host to the county-wide all-day meeting, piped water into the community house, installing of sink, Plan social and dinner for National H. D. week.

Gambleville's club bought shoes and made an Easter dress. Had one picnic.

Thalia met at an all-day meet-

ing and made colored aluminum trays. Foard City had two regular meetings, set out 12 shrubs around Foard City Church. Six of these were purchased by the club, one by Mrs. Mary Brown and the others by neighbors. Quilted 4 quilts, worked at the memorial plot in the Crowell cemetery, purchased 10 feet of fence around cemetery. 5 members to attend meeting at Margaret. Plan to display a poster for National H. D. week.

Riverside club had 2 regular meetings with 24 members and 7 visitors, junior leaders' social and 8 members to attend all-day meeting at Margaret.

West Side Club had 2 meetings with 16 members present and 8 visitors for a total of 24. One new member, Mrs. L. G. Simmons, and 6 members attended meeting at Margaret. Plans were made for National HD week of electric demonstration.

Vivian had 2 regular meetings with 24 members, 13 visitors, with a total of 37, 2 games were played, 3 songs, 1 family party, and

4 quilts quilted with a total of 27 members and 12 visitors at quiltings. Poster for HD week.

Reports of THDA meeting were given by Mrs. S. E. Tate and Mrs. A. B. Calvin. Outstanding events were given by members of Council. Arrangements were made to swap June demonstration by agent. Each club should elect nominee for THDA state meeting which will be July 30-August 2 in Houston.

Council adjourned to meet again May 18.

145 ACRES UNDER ROOF

There are a total of 145 acres under roof at Great Lakes Naval Training Center. If all the buildings could be combined into one structure, it would be a building 25 feet wide, 13 feet tall, and 100 miles long.

FLEW OVER ANTARCTIC

On Dec. 5, 1929, a Marine aviator, Captain Alton N. Parker, became the first pilot to fly over the Antarctic Continent.

Sandy Sanford to Coach West Team Greenbelt Bowl

Coach of the west team 1957 Greenbelt Bowl game will be H. A. "Sandy" Sanford, head football coach at State College in Stephenville, Texas. Sanford came to Tarleton from Paragould, Ark., where he was head coach and athletic director in the high school. He won one state and two national championships. His 1948 school team was the undefeated team in Arkansas.

The Greenbelt Bowl game will be played on August 16 at Dallas.

15 STORIES TALL

The super-carried USS Al is almost 10 stories high to flight deck, with a superstructure, giving it an all height of approximately 15 stories.

Fountain of Freedoms... a Free Press

THE history of the press, since its development five centuries ago, has been a history of restraint. It is natural for men in authority to resent the sting of criticism. It is human for them to be ambitious, and to seek to entrench themselves. Hence rulers often avoid criticism and disagreement by stifling it. But the courageous men who founded this new nation sought here full freedom for each individual. When they established a constitution, aware of the human frailty even of rulers elected from among them, their First Amendment provided that "Congress shall make no law... abridging the freedom of speech and of the press..." With the widespread education and enlightenment that resulted, the people here have advanced farther toward all freedoms than the people of any other nation. The beacon of this Western World, marks for all nations the start of the path to Freedom: Freedom of Speech and of the Press.

by VERN SANFORD
Texas Press Association

Austin, Texas — Worst drought

in Texas history is broken. After seven pinched years farmers look out over soggy fields and talk of "bumper crops."

But the troublesome drought had a troublesome end. Tornadoes, cloudbursts, hail and floods brought loss of lives and property damage in the millions.

Spring planting is reported far behind schedule in many areas. In others, washed-out fields will have to be re-sown. And despite the deluge, some dry pockets were noted by agriculture officials, notably in far West and Southwest

commissioners out of office. Gov. Daniel has strongly urged starting over with a "clean slate." He reportedly has said he will call a special session if a reorganization bill isn't passed.

COMMISSION, COKE BATTLE — Physicians Life & Accident Insurance Co. and the Board of Insurance Commissioners have locked horns in court.

Commission has revoked the license of the firm headed by Former Gov. Coke Stevenson. It charged the company with being fraudulently organized, illegally operated and insolvent. It obtained a court order temporarily restraining the firm from doing business.

Company countered with a suit to restrain the commission from interfering with its operation. It blamed its insolvency on a Commission-approved contract by which physicians bought worthless assets through the state liquidator. It termed the Commission action "capricious, unreasonably arbitrary."

NATUROPATHS ASK HELP — Texas Naturopathic Association has asked Governor Daniel to help clear the confusion surrounding their right to practice.

Law passed in 1949 creating a board to license naturopaths has been declared invalid in court. Efforts to get new laws touched off the legislative bribery charges and investigations.

Governor Daniel said he would ask for an attorney general's opinion.

Meanwhile, naturopaths have been coming in batches to talk to the Travis County grand jury. Some had charged publicly that money had been "extorted" from their association to stave off unfavorable legislation. TNA President Howard Harman said he doubted there was enough evidence to convict anyone.

SHORT SNORTS — Toppled by Senate committee was the bill to prevent "loss leader" advertising by retailers. Small grocers had pushed the measure to ban limited sales of below-cost items.

A new House member, Rep. Harold H. Coley, 35-year-old Comroe radio man, took office for the session's opening week. He replaces James E. Cox. Speaker Waggoner Carr was praised and piled with gifts from fellow members and constituents on Speakers' Day.

Senate President Pro Tempore Otis Lock is to receive customary "governor for a day" honors Friday. His office places him third in line to the governorship.

Portrait of Lt. Gen. Ernest O. Thompson is to be painted and hung with those of other notables in the Senate chamber. Texas Independent Producers and Royalty Owners will honor Thompson on May 22 with a silver plaque marking his 15th anniversary on the Railroad Commission. Senate confirmation of J. M. Patterson as chairman of the Board of Control and 36 others wrapped up.

CAUSE OF HEART TROUBLE

More than 90 per cent of all heart disease is caused by hardening of the arteries. High blood pressure and rheumatic fever. Research supported by the Texas Heart Fund, is seeking the causes, cures and preventions of these conditions.

LOTS OF WATER

Great Lakes Naval Training Center, world's largest, consumes 2,600,000,000 gallons of water a year, enough to float 180 ships the size of USS Saratoga, world's largest aircraft carrier.

Seventy-two per cent of the earth's surface is water.

Longhorn Cavern Deemed Million Years in Making

Texas Longhorn Cavern, spectacular scenic masterpiece of Nature, was at least a million years in the making, geologists estimate.

The huge cavern is awesome evidence of the changes wrought through the ages by variations in climate, earth movements, the rise and fall of the seas and the slow solution of limestone by water.

Longhorn Cavern, located near Burnet in the Highland Lakes region northwest of Austin, is one of the state's favorite attractions for tourists and sightseers. Guided tours are conducted daily through the explored portions of the cave, which is one of the world's largest.

Richard W. Rush, assistant professor of geology at the University of Texas, has traced the sequence of events which led to the development of the cavern from the time when Texas lay beneath a huge sea, approximately a half-billion years ago.

The stone in which the cavern was eventually carved out was formed from limy muds deposited at the bottom of this sea. Over countless centuries this mud deposit gradually rose out of the sea, only to sink beneath it again, a process which was repeated a number of times.

Finally slow uplift raised Texas above the sea for the last time and the limestone which had hardened from the mud deposits lay exposed to the elements for over sixty million years.

At that time Central Texas was a humid swampland in which gigantic dinosaurs and other reptilian monsters roamed.

The actual beginnings of Longhorn Cavern probably occurred during the Ice Age, when the northern part of the United States

was covered by glaciers, more than a million years ago.

As the glaciers retreated, about 50,000 years ago, the climate of Texas became drier and the ground water level began to drop, dissolving the limestone as it fell.

Underground streams flowing through the cave helped to carve out the labyrinthian passageways and huge rooms, until the cavern was excavated to its most remote chamber, an eerie 130 feet below the surface of the earth.

Prehistoric cavernmen probably sought refuge in the subterranean depths of the cavern to avoid being devoured by the fearsome mammals which ranged the countryside in dim ages past.

The main approach to the cavern entrance is through a collapsed sink or deep depression in the limestone, with remnants of the original roof preserved as a natural bridge over the steps leading to the cave mouth.

The scenic beauty of the cavern is heightened by the sparkling displays of calcite crystals, the unusual shapes formed of flint and the clusters of stalactites and stalagmites which in some instances have fused to form impressive columns.

THIS WEEK -In Washington

With Clinton Davidson

When a small-town lawyer from the Midwest comes to Washington to ride herd on the nation's fastest growing industry, the temptation to become a high-brow bureaucrat is almost irresistible.

It was just a year and a few days ago that James R. Durfee, who practiced law in Antigo, Wis., for 25 years, became Chairman of the Civil Aeronautics Board. He is one who successfully resisted the temptation.

Civil aviation has been growing like Topsy in the past 10 years and Durfee believes, will grow even more rapidly in the years ahead. Recently we talked with him about aviation, a subject he knows well and likes to talk about.

Durfee still talks at the leisurely pace of a country lawyer, but his mind works with the speed of the coming jet age of aviation. And that age, he says, will really be something to behold.

Huge jet airlines flying 600 or more miles an hour at tremendous heights will be safer and more economical than present type planes, Durfee predicted. U. S. companies already have ordered more than \$2 billion worth of such planes and will be flying them in less than two years.

Transcontinental passengers will be able to board a plane in New York, for example, at 8 a. m., EST, and be in San Francisco at 2 a. m., PST, an elapsed time of four hours. The result will be a remarkable increase in air travel, Durfee predicts.

That prediction becomes more significant when you see official figures showing that people traveled almost as many miles by air last year as by train. The figures for 1956 were 22.3 billion air passenger miles and 23.6 billion miles by train. Airline travel increased by almost 400 per cent between 1947 and 1956.

Commercial aviation... in miles flown and passengers and freight carried... has increased by 200 per cent in the past 10 years, Durfee estimated. The increase in the next 10 years, he thinks, will be even greater.

The Civil Aeronautics Board is the public's watchdog to see that necessary safety rules are adopted and that fares charged are reasonable. It also passes on applications for new air routes. It is, in effect, an arm of Congress with authority to establish operational standards and procedures.

At a time when most Washington agencies have doubled and quadrupled their number of employees, CAB is doing a greatly expanded job with fewer employees than it had 10 years ago. During the decade the number decreased from 640 to 625.

Durfee emphasizes that the CAB's purpose is not to manage the airlines, but to "regulate rates and fares and to compel the carriers to provide services adequate to meet the needs of those who wish to travel by air."

"It is not by accident," he says, "that this balance between private initiative and protection of the public has resulted in the best airline system in the world, operated at the lowest overall level of rates and fares."

Durfee sees the rapid expansion of commercial aviation as one of the greatest forces for world peace. "For centuries, man has dreamed of flight through the air, just as he dreamed of peace among nations. The first has become reality. In the air age, we may find the vision we need to accomplish our dream of a universal brotherhood of man."

CAUSE MORE DEATHS

Heart diseases cause more deaths in the United States each year than all the other causes combined, according to U. S. Government statistics quoted by the Texas Heart Fund.

FRENCH "HITCH-HIKERS" — Two young butchers help give a lift to a couple of pretty Parisiennes in Paris as the nation's transportation workers go out on strike. The worst French

transportation tie-up in years came to an end only after numerous occurrences of violence throughout the city. The walk-out was called because of a wage dispute.

STREP THROAT

Don't neglect a severe sore throat. Your doctor might find it is a "strep" throat. "Strep" infections can lead to rheumatic fever which is sometimes a fore-

runner of rheumatic heart disease, says the American Heart Association.

For a short period from 1837 to 1837 the United States government was out of debt.

Miss Gail Knox and Louie Le Beau Wed Here Saturday Evening

Miss Gail Knox, daughter of Mr. and Mrs. Gerald Knox, became the bride of Louie Le Beau, son of Mr. and Mrs. Pete Butts of Nocona, Saturday evening, April 27, in the bride's parents' home with Rev. W. B. Fitzgerald officiating.

The double ring ceremony took place before a background of basket arrangements of white stock.

The bride, given in marriage by her father, was attired in a gown of white organza and net, flecked with yellow over taffeta. The dress featured a closely-fitted bodice with a scoop neckline and cap sleeves. She carried a bridal bouquet composed of yellow carnations with satin streamers.

Miss Bettie Linda Knox, sister of the bride, and James Graham of Nocona served as honor attendants.

The reception was held in the Knox home. The table was covered with a white linen cloth centered with an arrangement of white daisies. The three-tiered cake was adorned with little yellow roses topped by the traditional bride and groom.

Miss Pat Guthrie, cousin of the groom, served at the crystal punch service. Mrs. Gerry Knox, sister-in-law of the bride, served the cake, assisted by Miss Roxianne Adkins. Miss Sue Bursey, cousin of the bride, presided at the guest book.

The bride is a graduate of Crowell High School. She was class officer, class favorite, football queen, assistant editor of the school paper, and cheerleader for four years. She is attending Paris Junior College where she is a member of Phi Theta Kappa, a student council representative of the Pen Chat Study Club. She was also cheerleader at the college and was on the basketball team the past year. She is majoring in business. The groom, a graduate of Nocona High School, was active in all sports and is also attending Paris Junior College, where he plays football.

The couple will reside in Paris where they both plan to continue their studies.

Out of town guests who attended the wedding and reception were Mr. and Mrs. Pete Butts, Donnie and Pat Guthrie, Sharon Rich and James Graham, all of Nocona, Mrs. Grace Norman of Lubbock, and Mr. and Mrs. Gerry Knox of Odessa.

SURPRISE BIRTHDAY CELEBRATION

Mrs. T. S. Patton was honored on her eightieth birthday Tuesday afternoon by two daughters, Mrs. Milton Hunter and Mrs. I. B. Lindsey, and a niece, Mrs. Earl Manard, when neighbors surprised Mrs. Patton by gathering in the home of Mrs. Manard for a birthday celebration.

The house was artistically decorated with arrangements of varicolored irises.

Mike Manard, son of Mr. and Mrs. Earl Manard, read a birthday story and also played piano numbers. Gail Lindsay, granddaughter of Mrs. Patton, passed the birthday napkins. Refreshments of the birthday cake and punch were served.

The honoree was the recipient of many pretty and useful gifts from the neighbors.

A tour of the lovely home was made by the guests. Pictures were made of the honor guest, her cake and guests. Mrs. A. S. Hart brought the celebration to a close by reading a humorous poem.

Mrs. Patton is a pioneer resident of Foard County. She and her late husband lived in Crowell for many years. She has, besides the two daughters named, two other daughters, Mrs. Roy Powell of Paducah and Miss Ella Patton of Austin, and a son, Neil Patton, of Dallas.

ADELPHIAN CLUB

"Music Appreciation" was the theme of the Wednesday, April 24, meeting of the Adelpian Club. The members and guests assembled at the club house.

Mrs. Abb Dunn was the leader for the afternoon meeting. She introduced Mrs. C. G. Graves who spoke in regard to "Music in Our Schools." Mrs. Graves introduced the following pupils from her class who sang several numbers: Little Misses Jon Ann Carter, Sandra Chowning, Margaret Collins, Hollis Halbert, Janis James, Lanette Lemons, Billie Sue McClain and Vicki Spikes. Miss Betty Davis played a saxophone solo accompanied at the piano by Shirley Fox. Mrs. Dunn introduced E. L. Rickard, local band director, who gave an interesting talk relative to music in the school from the fourth grade through high school.

Guests included Mesdames Fred Collins, Foster Davis, Clyde James, Woodrow Lemons and Jack Spikes. Hostesses for the afternoon were Mesdames Ray Shirley and Jack Turner.

CO-LABORERS CLASS MEETS

Mrs. Fred Wehba was hostess to twelve members of the Co-Laborers' Class of the Methodist Sunday School who met in a social meeting on Thursday afternoon. Mrs. R. R. Magee and Mrs. C. S. Bartley were assistant hostesses.

The meeting was opened by the group singing "Take the Name of Jesus with You" with piano accompaniment by Mrs. Paul Shirley and directed by Mrs. C. W. Thompson. Continuing the study of the women of the Bible, Mrs. Wehba conducted the lesson on "Huldah and the Virtuous Woman."

Mrs. A. B. Sanders, president of the class, conducted the business meeting at which reports of officers and committee chairmen were given.

Delicious refreshments were served to the members present, and one guest, Mrs. Grady Adcock.

TRUSCOTT H. D. CLUB

The Truscott Home Demonstration Club held its regular meeting April 26 with 8 members and 3 visitors present. M-Sgt. Glen Grace of the Dallas Filter Center gave a talk and showed a film on civil defense.

Tuesday, April 30, was set as day for breakfast to be given in observance of National HD week. The next meeting will be May 9 with Mrs. Farris Caddell as hostess and the program will be a Mother's Day program. Refreshments were served to those present.

RIVERSIDE H. D. CLUB

"Always be sure your curtains are nice and full, even if you have to choose cheaper material to make them so," was advice given to the Riverside Home Demonstration Club ladies when they met at the Riverside school house Tuesday, April 23.

A desire to go home and put up new fluffy, pretty curtains at their windows was felt by the ladies when Mrs. John Ray and Mrs. Monroe Karcher gave the program on "Dress Up your Windows," giving lots of new and helpful ideas, such as disguises for unshapely windows, choosing proper colors to carry out color schemes, best colors for different room locations, etc.

The business meeting was presided over by Mrs. Ewald Schroeder, president, and the collect for club women was repeated in unison. Mrs. C. L. Adkins gave "May Mornings" with its beautiful refreshing thoughts. Mrs. Grover Moore gave an interesting report of the district THDA meeting recently held in Vernon. Mrs. Moore also gave a report on the district 4-H meeting held in Wichita Falls April 13. Plans were made to help the Thalia club give the program at the federation.

Recreation was led by Mrs. Grover Moore.

The next meeting will be on Tuesday, May 7, at the Riverside school house with Mrs. Ewald Schroeder as hostess. The program, "Growing Annual Flowers," will be given by Mrs. James Bowers and Mrs. Dave Shultz.

Refreshments were served to members: Mesdames Monroe Karcher, John Ray, W. A. Mussetter, Ewald Schroeder, S. C. Kuehn, Henry Bico, Grover Moore, Geo. Wesley, Roy Ayers, C. L. Adkins and James Bowers.

WEST SIDE H. D. CLUB

A very pleasant afternoon was spent April 23 when the H. D. Club met in the home of Mrs. S. E. Tate. The meeting was opened with "A Courtesy Reminder," repeated in unison, and the roll call being answered with a joke.

Business was discussed with the next meeting planned to be held at 2:30 p. m. instead of 2:00. Refreshments were served to eight members and five visitors: Mesdames S. E. Tate, W. Thompson, H. Ross, O. Gentry, J. T. King, B. Mathews, E. A. Dunagan, J. B. Weathered and Mike; visitors, Mesdames J. C. Prosser, W. Wells, W. B. Griffin, D. Bowley, A. Jones.

COFFEE HONORS VISITOR

Mrs. S. S. Bell was hostess at her home last Thursday morning at an informal coffee as a compliment to Mrs. C. A. Champion of Chicago, Ill., who, with her family, were house guests of Mr. and Mrs. Arthur Bell. Mrs. Arthur Bell and Mrs. Champion are sisters.

Following introductions and a period of visiting, the guests were served coffee and cookies from a beautifully appointed table by the hostess and her daughter-in-law.

MARGARET W. S. C. S.

The Margaret Methodist W. S. C. S. entertained the Baptist W. M. U. in the home of Mrs. W. A. Dunn on Monday, April 29.

Mrs. W. E. Bradford was in charge of the program which opened with the group singing "Help Somebody Today." The scripture was read by Mrs. G. C. Wesley. Mrs. Truman Boyd led the group in prayer.

The program was on "The Church and Mental Health." Mrs. Bradford presented twelve facts about mental illness. "What is Mental Health?" was discussed by Mrs. Dunn.

Mrs. James Bowers talked on "What is Our Community Doing?" Mrs. Clarence Bounds gave "What Concern Has the Church Shown?" After the program, Mrs. Bradford led the group in several games.

Mrs. Dunn served a delicious refreshment plate to the ten who were present.

COLUMBIAN CLUB

Mrs. Fred Youree was hostess to the Columbian Club at her home on Wednesday, April 24, for the study of "Religions of the World." The devotional, given by Mrs. Hines Clark, consisted of a poem and a prayer by Grace Noll Crowell.

The leader for the study was Mrs. Jack Roberts who introduced a visiting speaker, Mrs. George Giddion of Vernon. She gave a review of the book, "Papa's Wife" which is a vivid picture of the life of the wife of a minister. It was enjoyed by all.

There were fourteen members and two guests, Mrs. Giddion and Miss Mayme Lee Collins, present. The hostess served a delicious refreshment plate.

The next meeting will be Mother's Day tea given for the Junior Columbian Club at the home of Mrs. Karl ten Brink on May 8.

FIRST ENLISTED MAN

When Sgt. James Maguire joined the Naval aviation camp at Annapolis, Md., as a mechanic Nov. 6, 1912, he became the first enlisted man in Marine Corps aviation.

Ireland Island in the Bermudas has the largest floating drydock in the world.

T. E. L. CLASS

The T. E. L. Class of the First Baptist Church met with Mrs. C. L. Cavin April 28 with Mrs. J. L. Bradford as co-hostess. Mrs. Doyle Callaway, president of the class, led in prayer and brought the devotional, using scripture from Mat. 12:23 through 37.

Mrs. C. A. Powell closed this part of the program with prayer. After a short business meeting, Mrs. C. T. Alv led in some Bible

quizes for the social hour. Refreshments were served to 7 members.

Hymn Festival to Be Held in Paducah

In keeping with the National Music Week theme, "Life Means More with Music," the Euterpean Club of Paducah is sponsoring a Hymn Festival at the First Methodist Church on Sunday afternoon,

May 5, at 3 o'clock, it was announced this week. All churches of Cottle County have been invited to participate. So far, four church choirs have indicated they will sing.

A massed choir of all the singers in Cottle County, directed by Mrs. Boyd Loar, with Mrs. T. J. Richards, organist, and Mrs. W. S. Healty, pianist, will sing three

numbers. Visitors are invited to this program.

125 ACRES OF DRILL FIELD

Sailors march too. Great Naval Training Center, largest, has 125 acres of fields.
