## GRAHAM PURCELL WINS RACE FOR CONGRESS

Judge Graham B. Purcell was installed as Congressman from the 13th District of Texas in Washington, D. C., Monday after he decisively defeated Joe B. Meissner in the special run-off election last Saturday.

Purcell, a Democrat in the tradition of Vice President Lyndon Johnson and the late Speaker of the House Sam Rayburn, held nearly a 10,000-vote lead over his opponent. Foard County went very heavily for Purcell by giving him 327 votes to Meissner's 98.

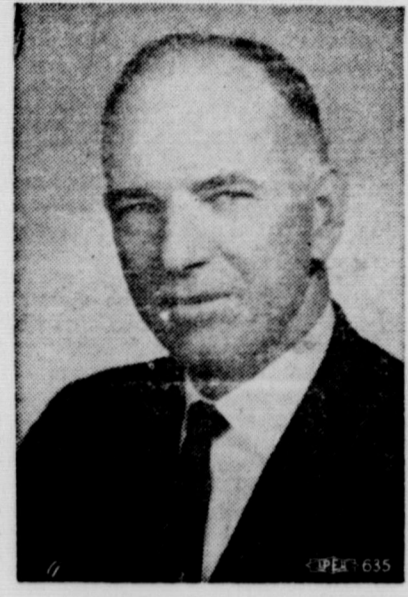

He polled 81.3 per cent of the votes in the county.

Saturday's election ended a campaign that attracted national interest since the line was clearly drawn between Democrat and Republican.

Purcell, 42, termed himself, in the words of Speaker Rayburn, as "a Democrat without apology, without prefix and without suffix."

Meissner, 36, announced as a Republican, but did not stress his party affiliation to a great extent in the race.

Judge Purcell, his wife and their two oldest children, flew to Washington Sunday.

## Cage Teams Break Even in Contests During Past Week

The Crowell High School basketball teams broke even in conference games last week. Both teams, boys and girls, lost to Munday here on Tuesday night, and won over Chillicothe at Chillicothe on Friday night. Thanks to the Paducah teams, for their victories over Munday on Friday night, which throws the western half of district 11A into a three-way race between Crowell, Paducah and Munday. The Crowell teams travel to both of these places this week.

Coach Jack Carroll's belles dropped a heartbreaker to Munday by two points, but defeated the Chillicothe team 38 to 33. The Crowell boys lost to the Moguls by the count of 57 to 49, and won over the Eagles by the score of 71 to 49.

Cloma Brown and Betty Kajs led in scoring for the Crowell girls. Pat Penick led in scoring for Munday with 18 points. Mary Davis scored 11 points for Chillicothe.

The Wildcats were not hawking the ball off of the backboards with usual ability against the Munday boys. Pete Alcala scored 20 points for the Moguls. Claude Sellers did not come through with his high scoring for the Cats, Edward Kajs, Crowell forward, led in scoring at Chillicothe with 20 points. Noel King scored 18 points for Chillicothe.

The Crowell "B" string came through with victories over both Munday and Chillicothe to keep its district record perfect. Larry Andrews and Kenny Ownbey looked the best for the Wildkittens.

The representative for the western half of district 11A should be determined this week. The regular schedule will be closed out with Chillicothe here next Tuesday night.

## Cecil Davis Elected Chief of Crowell Fire Department

New officers for the Crowell Volunteer Fire Department—were elected in December—were installed at the regular meeting of the department January 25.

The officers installed to serve this year are: Cecil Davis, chief; Travis Veceera, assistant chief; Frank Cooper, secretary; and Bill Lynch, assistant secretary. Pat Pittillo was appointed as fire marshal for the year.

The retiring chief, Mr. Pittillo, did an excellent job as head of the fire department last year, and through his efforts, the key rate for Crowell was reduced during the year.

At the last meeting, some defective hose on the Jeep truck was replaced.

Seventeen members were present.

## 2 WILDCATS NOW BEING DRILLED

James Blair Baker of Wichita Falls, has staked a 2,350-foot Tannehill sand wildcat four miles southeast of the Effie Bell pool and six miles southwest of Thalia.

It is the No. 1 Brown-Cates, 329 feet from north and 990 feet from east lines of section 344, block A, H&TC survey.

G. E. Kadane & Sons of Wichita Falls are now drilling a 5,700-foot Mississippi wildcat, the No. 1. J. R. Russell, 6,603 feet from south and 5,847 feet from west lines of Matthew Earle survey, 7,500 feet east of the East Effie Bell pool and 3 1/2 miles southeast of Crowell.

## 1961 FOARD SAVINGS BOND SALES \$177,661

During 1961, citizens of Foard County purchased \$177,661 in Savings Bonds, which represents 161.5 per cent of the county's sales goal of \$110,000. Foard County was the highest of 19 counties which went over 100 per cent in Area V.

December sales in this county were \$16,668.

The total bond purchases in Texas during 1961 were \$155,694,292 which represents 94.3 per cent of the goal for the state. Sales for 1961 represent approximately a 2 per cent increase over 1960 for the state.

Nationally, 1961 bond sales were 4 per cent above 1960, and at the same time, redemptions were 10 per cent below 1960.

## P-TA-Sponsored Pancake Party to Be Held Thursday, Mar. 1

The second annual P-TA-sponsored Aunt Jimma Pancake Party in Crowell will be held on Thursday, March 1 from 5:30 to 7:30 p. m., according to an announcement made this week by Norman Davis, president of the Crowell Parent-Teacher Association.

Mr. Davis said that proceeds from the supper will be divided equally between the Crowell P-TA and the new Community Center.

Admission prices have been set at \$1.00 for adults, and 50c for children under 10.

## Wiser Than We Think

"The old philosopher who claims we would be a stronger nation if we went without a few more meals and enjoyed fewer luxuries, may have been wiser than the present generation of Americans seems to think."—Winslow, Ariz., Mail.

A large number of Foard County's residents are expected to be on hand to give blood when the Red River Regional Blood Bank makes its first visit to Crowell tomorrow, Friday, February 2.

Blood taken at that time will be used to replenish supplies already drawn by Foard County residents, and will be added to this county's blood credit at the bank, which has headquarters in Wichita Falls.

It is still not too late for those who so desire to call the Medical & Surgical Clinic and make an appointment to give blood tomorrow.

Four persons per hour can give blood and the appointment system should eliminate any delay on the part of the donor.

The bloodmobile will be located in the basement of the First Baptist Church and the hours will be from 11 a. m. to 5 p. m.

Some of the dietary instructions for those who plan to give blood are: eat normally up to four hours before donation. Eat some of the following non-fatty foods during the four hours before donation if you are hungry: fruits, fruit juices, vegetables, cereals with skim milk, bread, toast (no butter), coffee or tea (no cream), carbonated beverages, white meat of chicken (not fried), haddock, halibut, cod (broiled, not fried).

Avoid fatty foods during the four hours before donation, such as: cream, whole milk, butter, margarine, cheese, salad dressing, nuts, most meats, ice cream, chocolate, fried foods, pastries (cake, pie, etc.).

It was decided by local medical people at a meeting last fall that Foard County residents would be greatly benefitted by participating in the program, and the local hospital has been drawing blood from the bank when needed since then.

The bloodmobile will be brought to Foard County about every six months to draw sufficient amount of blood from voluntary donors to supply the needs.

The blood bank in Wichita Falls has an arrangement with all other blood banks in the nation. Blood drawn in this community will be put to our credit so that if one is anywhere in the United States, and has an accident, he can have needed blood. It will no longer be necessary for donors to go to Wichita Falls or any other city to give blood.

All those physically able are urged to participate in this life-saving cause.

#### Conservation and the Population Explosion

In a world divided by two ways of life—democratic and communist—many problems will necessarily arise. Foremost, today, is the problem of the exploding population. Conservation is the only solution to this problem, and conservation may well be the deciding factor of whether democracy or communism will control the world. Small countries, faced with a population crisis will support the country that can feed her masses. This opens the way for the democratic countries, because the communist countries aren't producing—aren't conserving—aren't planning for the future. Therefore, the survival of the world, tomorrow, may depend upon the greatest democracy, America, and America's survival will depend upon her agriculture.

Many Americans are not aware of the urgency of proper conservation practices because there are no food shortages here—in fact, there are many surpluses. However, these surpluses will gradually decrease as the population begins its climb toward explosion, unless the Americans begin now to face the problem realistically.

In meeting the conservation needs, common problems will arise. Will the future American generations be able to cope with these problems? They shall not unless America begins, today, to search for the solution—the solu-

tion that must develop in stages. This is a vital job, one that must require conservation not only of the soil, but also of the other resources—water, air, forests. Through united efforts, the Americans of today can pave the way for the generations of tomorrow to meet successfully the problem of conservation in an exploding population.

### Sports in Shorts

Sports fans, this week's sports news comes to you from Bedouinville. I am now one of the socially elite group, Connoisseurs Anonymous. Yes, the virus is taking its toll among CHS students. We must rebel against this vicious foe, the common cold. In these immortal words, a virus sufferer addressed his doctor, "Give me a prescription and I'll be in debt!" I usually overheard some nurses talking the other day. One was speaking to the other about the section of the hospital where Barry Barber and James Borchardt are. One nurse said to another, "In this ward are the dangerous cases. They're about well."

Well, Crowell fans were a little "sick" last week as the A team lost a hard-fought battle with Monday. The Monday team was blessed with two "Wild the Soil" men who could almost cram the ball while standing flat-footed. However, Crowell got back on the winning column with a victory over Chillicothe. The girls now have an impressive one game winning streak. Congratulations! This week we again tangle with Monday in a "do or die" game there on Friday night. Let's all go and help cheer the Wildcats to a victory.

### FFA Boys Attend Stock Show

Friday, Jan. 4, at 2:00 p. m., the Crowell FFA boys, accompanied by Mr. Myers and Mr. Graves, left for Fort Worth to attend the annual FFA Stock Show. The group had reservations at the Westshore Hotel.

On Saturday morning, the boys observed the fairgrounds and the prize show animals. Some of the boys went to the rodeo, and there they saw Dan Blocker and Lorne Green of "Bonanza" and Miss Texas. Part of the group returned to Crowell Saturday afternoon, and part remained until Sunday.

The FFA boys who went were Olin Smith, Mike Cates, Tony McCarty, Ed Harris, Ken Farrington, Mike Gambie, Sonny Clinton, Rocky Trawsek, Olin Johnson, David Denton, Seth Halbert, Lynn Myers, Jewell Harris, John C. Borchardt, Kenneth Campbell.

### Peruvian Girl Speaks to the Spanish Class

Friday, the Spanish Class was privileged to have Marion Brown from Peru speak to them. She told about the Inca, the schools, the people, and the country in general. Although her home is in Peru, she is attending the University of

Dallas and was visiting with Cecilia Drabek. The Spanish students are grateful to Cecilia and to Marion for the interesting information about Peru.

### Library News

Recently, the library has brought two new books about President John F. Kennedy. One of these books is "John Kennedy, A Political Profile," by James MacGregor Burns. The story opens with the founding of the Kennedy dynasty in Boston and concludes with the ending of John F. Kennedy as the President of the United States. Included in the book are Kennedy's childhood experiences, his years at Harvard, his heroic experiences with the Navy in World War II, his congressional appointment from Massachusetts, his senatorial service, and his presidential campaign. Not only is the story of a remarkable man, and his remarkable family, but also it is an absorbing and significant addition to American biography.

### Students Enter Contest

It will soon be February 15! This is a date that has become outstanding among the junior and senior students of each school year; it marks the deadline for entering the "Save the Soil and Save Texas" essay contest sponsored by the Fort Worth Press.

The title this year is "Conservation and the Population Explosion." The state winner will receive \$100.00 to be used for a western vacation or to be applied toward a college education. The winner will also be honored at the state-wide conservation awards dinner in Fort Worth on May 4. Fifty additional winners will get trophies and medals and will receive honors at five regional awards dinners.

Students are keeping their fingers crossed, hoping their luck won't run out and that again there'll be a CHS winner.

Students from our school have entered the contest for many years. With the exception of one year, there have been one or more area winners, and in 1957, Elizabeth Davis won state.

### Six Ways to Make People Like You

1. Become genuinely interested in other people.
2. Smile.
3. Remember that a man's name is to him the sweetest and most important sound in the English language.
4. Be a good listener. Encourage others to talk about themselves.
5. Talk in terms of the other man's interests.
6. Make the other person feel important—and do it sincerely.

### Menu

Monday: light bread, fried chicken, gravy, creamed potatoes, lettuce and tomato salad, and peach halves.  
 Tuesday: corn meal muffins, pinto beans, hot tamales, buttered corn, cheese and crackers, carrot strips, and cookies.  
 Wednesday: light rolls, meat loaf, whole potatoes with butter,

whole green beans, cabbage, carrot and celery salad, and cherry cobbler.  
 Thursday: hot dogs, potato salad, peanut butter with hi-lo crackers, and apple sauce cake.  
 Friday: hot biscuits, salmon croquettes, white beans, candied sweet potatoes, celery strips, jelly with fruit, and cookies.

### The Blab

We hope that the boys enjoyed last week's hay, girls, what if we had to do this all of the time? Faucy and Chuck were seen at the Plaza Monday night.

At the show Sunday were Lynda - Bob, Bryant - Carolyn.

Seen together Sunday were Ruthie D. - Bobby C., Sharon G. - Donald W.

Seen in Quahok a lot are Jimmy P. and Jerry L. Could Linda M. and Ann J. be the reasons? Bobby B. has been seen in Quahok seeing Norman Lou. Oh, excuse us, Bobby, we forgot about Betna.

Sharon, why did you scream at the airport? The woolybuggers know.

Couples seen dragging around Sunday were Bob - Ely, Carolyn - Bryant, Carra - Ronnie.

Alta and Larry went skating in Wichita Falls Saturday night. Something new? Ask Mary Sue.

### Downgrading American Teachers

"Supporters of Federal intervention in public school education are downgrading the achievements of American teachers, school boards and communities. . . . The truth is that there are more classrooms, more teachers, a lower pupil-teacher ratio, and a higher level of education in the United States than ever before in history."—Menville, Ia., Record.

## Two Minutes With the Bible

Rightly Dividing the Word of Truth

St. Paul wrote to Timothy, many centuries ago: "All Scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness" (II Tim. 3:16).

The apostle referred, of course, to the sacred Scriptures, also called "the Word of God." All of it, he says, is "God-breathed" and profitable, to "teach," to "reprove," to "correct," and to "instruct."

But why, then, have so many heresies and false teachings sprung up through the years—all based upon the Bible? And why have so many thousands of sincere people been led astray by these false teachings?

The reason is that teachers and followers alike have failed to heed another important statement which Paul made in this same letter prior to his declaration that all Scripture is inspired of God and profitable. This statement is found in Chapter 2, Verse 15:

"Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the Word of truth."

We must study to rightly divide the Word of truth for the reason that if we do not do so we can pervert the truth and it to teach error. Through centuries God has often rebuked His dealings with mankind, religious rites which were mandated in Old Testament are positively forbidden in present dispensation of grace.

In Old Testament times, example, animal sacrifices required for acceptance with God, but some years after the death of Christ, Paul was sent forth to preach the gospel, and he declared that "We have redemption through Christ's blood, the forgiveness of sins according to the riches of His grace" (Eph. 1:7). "Being justified freely by God's grace, through the redemption that is in Christ Jesus" (Eph. 3:24).

Calling all businessmen! All businesses, said district rector Ellis Campbell Jr. of Inland Revenue Service, must file February 28, 1962, annual information returns covering payments made in 1961 of salaries, wages, fees, commissions, and other compensation for personal services totaling \$600 or more to the extent reported on Form W-2. Dividends of \$10 or more must be shown.

"Also include payments of interest, rents, royalties, annuities, pensions, and other fixed or terminable income totaling \$10 or more," the IRS representative said.

"Use Forms 1099 and 1099 file these returns," Mr. Campbell added.

## Mrs. U. S. Savings Bonds of 1962

Blonde, blue-eyed Mrs. Emily Terrall, of St. Helens, Oregon, is the new "Mrs. United States Savings Bonds of 1962." As a Treasury volunteer Goodwill Ambassador, she will tour the nation during the coming year in the promotion of Savings Bonds. The 37-year-old housewife won the title from among 51 state contestants for the "Mrs. America" title in competition just closed at Fort Lauderdale, Fla., where she appeared as "Mrs. Oregon." The Terrall family is no stranger to Savings Bonds. Husband of the new "Mrs. Savings Bonds" is an industrial engineer, and buys bonds regularly on the Payroll Savings Plan. Mrs. Terrall, an alumna of the University of Washington, has been active in the PTA-sponsored school stamp program. And needless to say, their three sons—aged 7, 9 and 12—are all avid stamp buyers. Mrs. Terrall is the fifth winner of the "Mrs. Savings Bonds" title. She succeeds Mrs. Vivian Ackerman, of Tucson, Arizona. SP-361-C-2 col.

TPA

TEXAN OF THE YEAR

AWARD

Presented to

**VAN CLIBURN**

of Kilgore

THIS AWARD is presented to Van Cliburn, one of the great pianists of all time, by the Daily, Weekly and Semi-Weekly Newspapers of Texas represented by the Texas Press Association. It is presented in appreciation of the high honor and distinction he has brought to his beloved Lone Star State.

After winning numerous competitive awards in his own country, Van Cliburn rocketed to worldwide fame when he won the Tchaikovsky Competition in Moscow in 1958.

Since then, this modest young Texan has shown that he is an artist of which his State and Nation can be extremely proud. Additional evidence of his superior talent came with the recent announcement that a million copies of his recordings had been sold . . . the first classical album ever to achieve this milestone.

For his great talent, his humility of spirit, the gracious charm of his personality, his Texas pride, his contributions as an international ambassador of goodwill, and the fame he has brought to our State, we salute Van Cliburn as "Texan of the Year."

Presented by The Texas Press Association on Jan. 20, 1962 at TPA's Mid-Winter Convention in San Antonio, Texas.

### New Classification in Draft Law Created

A new major amendment to the draft regulations which will affect thousands of draft-age men was explained this week by Col. Morris S. Schwartz, state Selective Service director.

The new amendment, authorized by Presidential executive order, creates a new draft classification immediately.

The new classification is 1-Y. Men found not qualified by the armed forces for military service under current physical, mental and moral standards, but who are considered to be qualified to serve in time of war or national emergency declared by Congress will be placed in the new class.

Previously, these men were placed in class 4-F. Only men not qualified for any military service will be placed in class 4-F hereafter.

A large number of the state's 40,000 4-Fs will qualify for the

new class 1-Y, Col. Schwartz predicted.

The new classification permits ready identification, day by day, of men who are considered to be qualified and available in an emergency, and thus facilitates more rapid mobilization of manpower in case of need, the state Selective Service director said.

### Nitrogen Suggested for Small Grains

Been wondering how to increase the forage or grain yields of your small grain crop? R. J. Mears, extension agronomist, says nitrogen, applied before the plants begin to joint but late enough to avoid the danger of a hard freeze, is the answer.

If the crop has been grazed, much of the available nitrogen has been utilized by the plants and removed by animals. Grain crops need nitrogen at this time to stimulate additional growth for maximum yields, explains Mears.

Nitrogen applications also increase the protein levels of grain, and in wheat improves the baking quality of the flour.

Application rates of 20 to 40 pounds of nitrogen per acre will usually pay big dividends if moisture is adequate, says the specialist. For specific application recommendations, consult your local county agent.

### Must Accept Rules

"New York Supreme Court... has acted to make permanent a temporary injunction prohibiting Newburgh, N. Y., from proceeding with a drastic overhauling of the city's public welfare program aimed at reducing welfare costs and keeping chiselers from relief rolls. In the court's opinion, the program violated both state and Federal laws.

"So the Newburgh case serves as a particularly sharp reminder that when states and localities agree to accept Federal funds they must also accept the Govern-

ment's rules for their use, no matter how sound local plans for the money's disbursement may be."—Chester, S. C., Reporter.

### Loses a Battle

"Every time a piece of socialist legislation gets through Congress, the United States loses a battle. Every time a leftwing professor, arguing against... a free enterprise economic system captures the minds of some college students, another battle is lost."—Hagerstown, Md., Morning Herald.

### Awards Certificate

"The American Foundation for the Blind has awarded its Certificate of Merit to the Association of American Railroads and the National Bus Traffic Association for making it possible for blind persons to take along a sighted companion free of charge on most railroads and buses."—Alma, Mich., Record.

### Officers Crack Large Burglary and Safe Cracking Operation

Texas Rangers, sheriffs, city police and other local law enforcement officers have cracked what has been described as one of the most extensive burglary and safe-cracking operations in modern-day Texas history.

The apprehension of James Hugh Leggett of Abilene by Rangers and local officers Monday night of last week, and his subsequent statement climaxed a state-wide investigation involving more than 200 burglaries in some 75 counties.

Leggett, 33, is an ex-convict with a long record, having been sentenced to five years in prison in 1947 for burglary in Lubbock County, two years for burglary in Lubbock County in 1950, and five years for assault with intent to murder in Lubbock County in 1953.

Burglary charges have been filed on Leggett in Big Spring, Vernon, Austin, Georgetown, Gatesville and in Bell County. Charges have been filed in Austin naming four men and a 20-year-old woman in connection with seven safe burglaries in the Austin area alone.

Three members of the alleged ring—Harold Lee Merrifield, 27, Rowell Pershing Leggett, 23, and his 20-year-old wife, Sue Ann Leggett—were charged in Austin last week end following the capture of Leggett and Merrifield in a food store. The woman was arrested when she was found sleeping in the get-away car parked nearby. These arrests led to the subsequent arrest of Merrifield's brother, Jessie Merrifield, 28, of Killbuck, and, finally, James Hugh Leggett in Abilene.

Texas Rangers said most of the burglaries occurred in the past two years, and that all of them are still outstanding under the statutes of limitation. It was pointed out that each of the persons charged was not necessarily involved in every job. They said that there is no way to estimate the total "take" of the burglary ring, but that it would probably run into many thousands of dollars.

The case is still under investigation, and before it is completed, Rangers from each of the six companies in the state will be working on it in cooperation with sheriffs and police departments and constables across the state.

Col. Homer Garrison Jr., Director of the Texas Department of Public Safety and Chief of the Texas Rangers, described the law enforcement operation as follows:

"This is another typical example of the efficiency of our system of local and state law enforcement—a case where officers at every level of government worked hand in hand in a coordinated effort to protect the people of Texas against organized lawlessness.

"This massive burglary and safe-cracking operation could not have been broken up without the splendid cooperation of all officers at all levels."

In most of the more than 200

burglaries, the thieves entered the establishments or homes either by back doors or through windows. Their "MO" (Modus Operandi) in cracking safes was mainly by "peeling" the safe doors, rather than by another popular method of "knocking knobs."

Most frequent victims of the ring were automobile dealers, feed stores, packing plants, milk companies, lumber yards, grocery stores, office buildings, lending establishments, and beauty colleges. Even schools were "hit."

Almost simultaneously with the cracking of the Leggett ring, Rangers and local officers in the Waco area apprehended another gang of burglars and cleared 16 burglaries in Bell County, one in Coryell County, two in Lampasas County, three in Falls County, and 11 in McLennan County. Both gangs were operating out of Bell County at one time or another.

### Do You Know This Man?

A reader has sent us the following word picture of a twentieth century American:

A young man lived with his parents in a public housing development. He attended public school, rode the free school bus, and participated in the free lunch program. He entered the army, then upon discharge retained his national service insurance. He then enrolled in the state university, working part time in the state capitol to supplement his GI education check.

Upon graduation he married a public health nurse and bought a farm with an FHA loan; and then obtained an RFC loan to go into business. A baby was born in the county hospital. He bought a ranch with the aid of the veterans' land program and obtained emergency feed from the government.

Later he put part of his land in the soil bank, and the payments soon paid off his farm and ranch. His father and mother lived very comfortably on the ranch on their social security and old-age assistance checks. REA lines supplied electricity; the government helped clear his land.

The county agent showed him how to terrace it; then the government built him a fish pond and stocked it with fish. The government guaranteed him a sale for

his farm products at highest prices.

Books from the public library were delivered to his door. He banked money which a government agency insured. His children grew up, entered public schools, ate free lunches, rode free school buses, played in public parks, swam in public pools, and joined the FFA. He owned an automobile so he favored the Federal highway program.

He signed a petition seeking Federal assistance in developing an industrial project to help the economy of his area. He was a leader in obtaining the new post office and Federal building, and went to Washington with a group to ask the government to build a great dam costing millions so that the area could get "cheap electricity."

He petitioned the government to give the local air base to the county. He was also a leader in the movement to get his specific type of farming special tax write-offs and exemptions. Of course, he belonged to several farmers' organizations, but denied that they were pressure groups.

Then, one day, he wrote to his Congressman: "I wish to protest these excessive government expenditures and attendant high taxes. I believe in rugged individualism. I think people should stand on their own two feet without expecting handouts.

"I am opposed to all socialist trends, and I demand a return to the principles of our Constitution and the policies of States Rights."

Do you happen to know this man?—The Brookville American, Brookville, Pennsylvania.

"We have been a nation blessed. We must have won favor in His eyes, otherwise we would not have prospered as we have. We should proclaim to the world that we are Americans—a free people, proud of our heritage, and that we are prepared to defend it."—Gillespie, Ill., News.

### March of Dimes Mothers Hold Key In Fight Against Crippling Disease

Some two million Marching Mothers, wearing the symbolic Golden Key of Hope, will appear on America's doorsteps toward the end of January asking support for the 1962 New March of Dimes fight against crippling birth defects, arthritis and polio.

Why do these women brave winter weather to ask their neighbors for funds?

Mrs. Phyllis Sublett of Evansville, Ind., does it because experience with her fourth child, three-year-old Stevie, who was born with a birth defect, has shown her the need to have medical help more readily available in the community when an imperfect child is born.

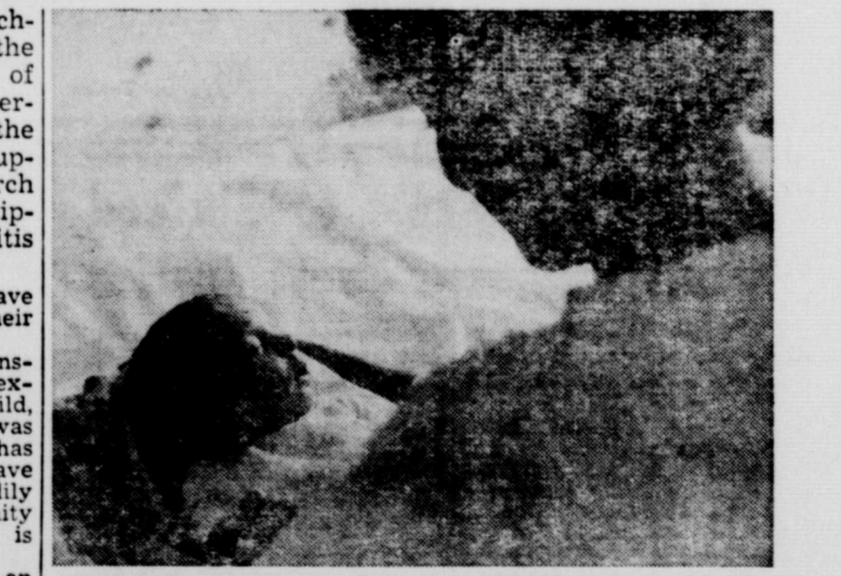

"Stevie was born with an open spine and water on the brain in 1958, the year The National Foundation expanded its program to include birth defects," says Mrs. Sublett. "I had never heard of either condition. Since then I have learned that these malformations, and hundreds of other birth defects, afflict one out of every 16 babies born in this country each year.

"These children need help, their parents need to know where to find the specialists who can give prompt and effective treatment. I know now that the March of Dimes supports work in clinics to improve treatment, in laboratories to find the causes, and is building a network of diagnostic and treatment centers to make new knowledge available to everyone, not just those fortunate enough to live close to great medical institutions.

"The March of Dimes already supports nearly 50 centers throughout the country, and many more are being planned.

"That's why I'm in the Mothers' March—to let people know this help and hope exists. I want to ask their support so the 250,000 American babies born each year with birth defects need not go through life helplessly disabled for lack of proper treatment."

In Denton, Tex., Mrs. Mona Grisham says, "Until our lit-

"IS MY BABY ALL RIGHT?"—More than 250,000 mothers of babies born with birth defects in the U. S. each year hear a heartbreaking reply to this question. Marching mothers will seek public support late in January for March of Dimes research and patient aid to control crippling birth defects and rheumatoid arthritis, just as polio has been controlled.

the Sandra developed juvenile rheumatoid arthritis, I'd always thought arthritis was something you got when you reached old age. Now I know that thousands of children are stricken with it each year. It can twist and cripple little bodies with permanent disability if it's not caught and treated in time.

"I've seen the wonders accomplished at Arthritis Clinical Study Center at Parkland Hospital in Dallas supported by the March of Dimes, and I know that doctors in the laboratory there and elsewhere are working hard to find out what causes arthritis and how it can be prevented or cured. I'm a Marching Mother because I know firsthand how important this work is."

Marching Mothers across the nation have similar reasons. Mrs. George Dibbon of Kansas City, who lost a child born with a birth defect, marched actively until the past year. But then her own arthritis forced her to "retire" to a quieter paperwork and record-keeping job for the Mothers' March.

In Tustin, Calif., Mrs. Polly Spangler has been confined to a wheelchair since a paralytic polio attack in 1954. Yet she, too, enthusiastically works for the Mothers' March via the telephone, and prepares marchers' kits for distribution.

Multiply these shining examples by thousands, and you have the reasons for the scope of success of the traditional Mothers' March for the New March of Dimes. Mothers' March volunteers know there is a need for the cause they support, and they are determined to make every one of the 40,000,000 households they call on aware of the magnitude of the problem.

Mothers' March volunteers will be identified by a distinctive badge bearing the Golden Key of Hope, symbolizing medical progress against crippling diseases. Each will give those who open the doors a valuable health information slip summarizing basic information about birth defects, the most important unmet childhood medical problem today; as well as arthritis and rheumatic disease which afflict 11,000,000 Americans.

## Highlights AND Sidelights

TEXAS PRESS ASSOCIATION

Austin, Tex.—Gov. Price Daniel's long fight over reporting unclaimed property to the state for escheat has ended at last.

So has the argument over rural roads policy.

But the scrap over the question of what to do about regulating loans, interest rates and lenders is not yet settled. And it may not be for a long, long time.

The Legislature has settled the escheat and road policy questions. Also it has partially solved the advertising program for tourists, juvenile parole and repair of the San Jacinto Monument.

Money problems were eased when Comptroller Bob Calvert estimated that the escheat reporting law passed last year will yield at least \$300,000 during the next 20 months. He put no estimate on the bank reporting law just laid on Governor Daniel's desk for certain signature into law.

When the Legislature meets, growing Texas brings a pack of problems to Austin for it to solve.

High Plains irrigation farmers are quarreling with their gas company. They want its rates regulated. Sen. Andy Rogers of Childress and Rep. H. G. Wells of Tullia tussled a bill through both houses to let the farmers appeal to the Railroad Commission, just as cities can do, if the gas company increases its rates.

San Angelo and Edinburg got favorable reports from the Commission on Higher Education on making San Angelo College and Pan American College, now locally supported, part of the state system of colleges in 1955.

They came to Austin to get the Legislature to pass the necessary laws, and make the state take over support of the colleges. House of Representatives went along with both proposals.

But Sen. W. T. Moore of Bryan, down in A&M country, thinks Texas has enough state colleges already. So, he used the filibuster to fight the two new college bills to a standstill.

**WAY TO ROADS PAVED**—State Highway Commissioner Herb Petry Jr. complimented the Legislature on passage of the Farm-to-Market Road bill. He announced new projects as soon as Governor Daniel's signature was on the bill.

The Commission approved \$135,000 worth of surfacing work on highways in Cameron and Hidalgo counties and an \$82,000 highway contract in Cameron County. Within the next 40 days they will try to schedule more than \$1,000,000 of work on US 83 in the Valley and \$500,000 for road

work in the Valley.

Senators Bob Baker of Houston and Nevelle Colson of Navasota appeared before the Highway Commission to urge approval of a four-lane highway between Hempstead and Houston. The Senators reminded the Commission that they had helped pass the road bill which frees funds for primary roads.

**NO RELIEF IN SIGHT**—Many legislators were hoping to go home at the end of the week, but as soon as they processed pending bills, other bills were submitted.

At the end of the week, Governor Daniel submitted additional subjects: Authority for the Texas Employment Commission to enter into a compact with other states; financing of the Texas Securities Commission; an appropriation to the Department of Banking; and amendments to the Penal Code.

House members held a Friday session for the first time this month, and resigned themselves to working right through the last of the 30 days of the called session.

**INEQUITIES STUDY PROPOSED**—Rep. W. S. Healy of Paducah introduced a resolution that the House Committee on Privileges, Suffrage and Elections study election "inequities" in the Constitution, and report its findings to the next legislature.

Healy said he didn't think it fair that while the law requires district and county officials to resign upon announcement of their candidacy for another office, it does not require this same action by all state officials.

**COBB JOINS INDUSTRIAL GROUP**—Bill B. Cobb of Austin, who has been serving as chief examiner of the Legislative Budget Board, will leave that post on February 1.

Harry W. Clark, executive director of the Texas Industrial Commission, has picked Cobb as his assistant.

In keeping with recommendations made by the Texas Research League, Cobb's prime duty will be to organize and design research projects, supervise community development efforts and direct the advertising program of the industrial commission.

**A ROSE BY ANY NAME**—Don Yarborough, Houstonian who is supposed to have liberal backing in Harris County and labor support on a statewide basis, told Capital newsmen he will run for governor. U. S. Senator Ralph Yarborough, who was supported by liberals in two gubernatorial campaigns, decided not to enter

this race.

Candidates already in the race include Democrats Will Wilson, Marshall Formby and John Connally and Republican Jack Cox.

District Judge Otis T. Dunagan of Tyler paid the State Democratic Executive Committee the \$1,000 filing fee and became a candidate for Judge of the Court of Criminal Appeals. Judge W. A. Morrison of Austin, now serving on the high court, is his only opponent so far.

The committee received \$800 filing fees from: L. B. Hightower of Beaumont, running for re-election as Chief Justice of the 9th Court of Civil Appeals; Spurgeon E. Bell of Houston, for re-election as Chief Justice of the First Court of Civil Appeals; and Tom F. Coleman of Houston, candidate for the unexpired term of First Court of Civil Appeals Associate Justice Phil D. Woodruff.

State Treasurer Jesse James also became an official candidate for re-election.

**SHORT SNORTS** — State Building Commission reports that as of August 31, \$958,750 had been expended for purchases of land within one and one-half blocks east and west of Congress Avenue. . . . Land Commissioner Jerry Sadler's report on "land office business" during 1961 states "that his department received more than \$127,000,000 in Veterans Land Board fees, recording fees, trust accounts and other items.

## Steakley Announces to Succeed Self As Supreme Court Justice

Judge Zollie Steakley of the Texas Supreme Court today announced his candidacy for Associate Justice of the Supreme Court, Place 3, in the Democratic primary.

Judge Zollie Steakley

Steakley will run to succeed himself and will be seeking his first full elective term as a member of the Supreme Court. He was named by Gov. Price Daniel in January, 1961, to succeed Chief Justice Robert W. Calvert, when Calvert assumed the office of retiring Chief Justice J. E. Hickman.

Steakley's work on the Court has drawn praise from his fellow judges and lawyers, as well as the press.

His opinions as the newest member of the Supreme Court, have received unanimous concurrence by his Associates, with the exception of a single dissent.

Steakley is a member of the Executive Committee of the Judicial Section of the State Bar of Texas. Recently he was selected to attend the Appellate Judges Seminar, for members of State Supreme Courts and the United States Courts of Appeals, to be held in New York City during July.

In announcing his candidacy Judge Steakley said: "I still say, as I said when I became a member of the Supreme Court, that this is the highest responsibility that can come to a Texas lawyer. It is my purpose and desire to continue this service to the utmost of my ability and dedication."

Steakley engaged in the private practice of law in Sweetwater and Austin following his graduation from the Law School at the University of Texas in 1932.

He served as an Assistant Attorney General of Texas for more than three years in the early 40's and as Secretary of State from 1957 to 1961.

He is a veteran of World War II, having served in the United States Navy.

Steakley is an active Baptist layman and is the current Chairman of the Christian Education Commission of the Baptist General Convention of Texas. He is a past President of the Austin Lions Club and a past District Governor of Lions International.

He is presently serving as General Chairman of Austin Brotherhood Week sponsored by the National Conference of Christians and Jews, Inc.

Steakley also is a graduate of Hardin-Simmons University of Abilene.

## 20-Hour Work Week

"A labor union is negotiating for a 20-hour work week, and it is wondered if the 20 hours will include time traveling to and from work, coffee breaks, lunch period, and liberal intervals for goofing off."—Alamo, Texas, News.

## Home Demonstration Notes

JANET CARROLL

Thinking of redecorating all or part of your home? If you are, you would do well to read a recent publication which deals with the beautification of windows and glass walls, important parts of any room.

There are few set rules for window decoration, but window treatments should help control light and heat as well as enhance the beauty of the room in which they are used. Each window of group of windows contribute to the comfort, utility, beauty and joy of the home.

How is this accomplished? By utilizing the basic art concepts of harmony, proportion, balance, rhythm and emphasis.

When choosing draperies, consider the room, proportions, exposure, view, walls, floors, furnishings, accessories and the amount of surface which needs to be draped. Remember that the walls and floor form the background, which is the basis for pattern and color selection. A room's location also plays an important role in the selection of color. South and west rooms are usually more pleasant when done in cool, quiet tints, while north and east rooms are better in the warm colors.

Valances or cornices can make windows that are too tall or too narrow seem shorter. They may also be used to cover and conceal the rods and fixtures at the top of draperies. Lighting fixtures may be installed behind them to add soft lighting to the room.

There are many combinations for decorating rooms and each person must choose the one which is most pleasing personally.

Before you make your choice, come by for a copy of "Beautiful Your Windows and Glass Walls," or call 684-2752 and we will mail one to you.

## Still Designated as a Depressed Area

"In the Shasta-Cascade wonderland of northern California, the officials of Trinity County are in a state of considerable confusion. Some time ago, centralists from Washington told the county it could apply for help as a depressed area—thus qualifying for low interest loans, technical assistance, urban renewal money and relief to blighted industries.

"But let Editor William F. Asbury of the Weaverville, Calif., Weekly Trinity Journal tell the facts of life: 'No one applied for help—and we were still designated as a depressed area!'"

"P. S. On the masthead of the Weekly Trinity Journal appears this biblical proverb: 'Where there is no vision, the people perish.'—Nogales, Ariz., Herald.

## Game Arrests for December Take Upswing

Violations of game and fish law took a big upturn in December according to Howard Dodge, executive secretary of the Game and Fish Commission.

Game wardens arrested 517 persons, and courts assessed fines amounting to \$21,077.34 in December.

Reports of the wardens for December showed 262 hunters hunted illegally, took, or possessed deer in violation. Headlighting was the principal offense, with 13 persons so charged. There were 40 charges filed against persons who had failed to properly tag deer as prescribed by law. Other were fined for exceeding bag limits, hunting on game preserve, hunting with dogs, killing deer and possession of deer with evidence of sex removed.

Fines assessed in courts throughout the state ranged from \$5 to \$200. The courts revoked licenses of more than 30 hunters who were charged during December. It is the privilege of the court to suspend the license of a hunter.

Various fines were assessed in areas noted for an abundance of wildlife.

## New Arthritis Test Developed By March of Dimes Research

A new and sensitive blood test for diagnosing rheumatoid arthritis in children was one of the medical achievements of 1961 highlighted by The National Foundation in a year-end review of progress by March of Dimes-supported scientists.

The report by Dr. Thomas M. Rivers, vice president for medical affairs of The Foundation, cited accomplishments related to birth defects, virus diseases, polio and genetics as well as arthritis.

Dr. Rivers also noted that 1961 will be memorable because of the licensing by the U. S. Government of two of the three component types of Sabin oral polio vaccine which, like the Salk killed-virus vaccine, was developed with money given to the March of Dimes.

The new arthritis test was developed by Dr. Morris Ziff and his research associates at the University of Texas Southwestern Medical School in Dallas in their studies. The test proved positive in 76 per cent of children with rheumatoid arthritis. By contrast, other tests currently in use seldom pinpoint the disease in more than 20 per cent of youngsters known to have it, according to Dr. Rivers.

Dr. Rivers pointed out that few people realize how very serious rheumatoid arthritis can be in children, or how common it is among them. It is estimated that there are about 30,000 children under 15 in the U. S. who have it, many of whom are severely crippled, he said.

It is also suspected many other youngsters may have the disease, with perhaps only minor or vague pains and no clear-cut symptoms to label arthritis as the culprit.

The arthritis test, which is particularly sensitive in detecting an unusual blood factor frequently found in persons with rheumatoid arthritis, may fill its greatest role in uncovering undiagnosed rheumatic diseases in children.

This could be vitally important, because the earlier diagnosis is made and treat-

ment started, the better the chances for prevention of disability in young victims of the disease.

A second scientific achievement highlighted in The Foundation's year-end review was a special field study which disclosed that a great many birth defects are not detectable in early life but may remain hidden until infants reach the age of one or two.

This report was made by a research team headed by Dr. Frank R. Lock of the Bowman Gray School of Medicine, Winston-Salem, N. C.

Among the other developments singled out in the March of Dimes' research progress report were the following:

1. Dr. Joseph L. Melnick of Baylor University has come up with two chemical discoveries that promise major improvements in the manufacture of oral polio vaccines. It had previously been necessary to keep

such vaccines in deep freeze until just a few days before use. With the new chemical treatment, however, they can be kept at room temperature for as long as a month. The second chemical improvement removes undesirable viruses that contaminate the vaccine at certain stages of preparation.

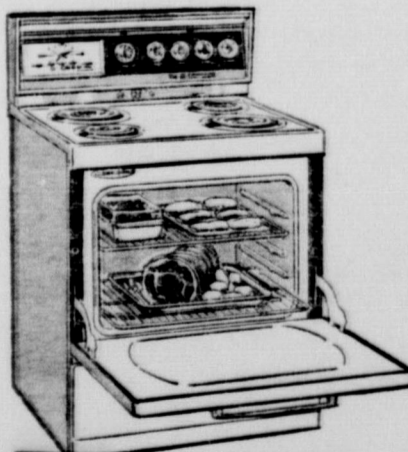

2. A new radioactive method of detecting how viruses are formed inside cells was reported by Dr. Councilman Morgan and associates at Columbia University. Another group of workers at the University of Michigan described similar results with techniques involving use of fluorescent materials.

3. Additional evidence that one of the intestinal viruses may also cause an infectious heart disease, sometimes fatal in infants, has been obtained by Dr. George Dempster and colleagues at the University of Saskatchewan.

### Report Required from Some Social Security Beneficiaries

Most social security beneficiaries whose earnings exceed \$1200 for the year are required to file a report with the Social Security Administration within three and one-half months after the close of the year. Erton F. Tate, manager of the Wichita Falls social security office, said this week.

Tate explained this means a report is required between January 1 and April 15, 1962, for each beneficiary under age 72 who had total earnings for 1961 of over \$1200. The report is not required from beneficiaries who were over age 72 all months of 1961. Earnings all through the year in which age 72 is reached can affect benefits and a report is required for the year in which age 72 is reached if the yearly earnings exceed \$1200.

"In figuring your total earnings for the year, you must include all wages earned as an employee, plus the net earnings you derived from self-employment," Tate said. "Do not count annuities, pensions, or income from investments."

"The whole picture can be summed up this way: First, be sure to notify the Social Security Administration as soon as you know you are likely to earn over \$1200 in the year, whether it is at the start or well along in the year. Second, when the year closes, if you have earned over \$1200 in that year or told the social security people you expected to do so, be sure to make your annual report by April 15 of the next year."

federal government.

Now the Administration is seeking an increase in the limit of the national debt. Undoubtedly an increase is necessary. But what about looking for ways to cut unnecessary expenditures?

For example, how about Congress passing a law making grant-in-aid programs subject to periodical review and justification? Legislation to this effect has been introduced.

Unless programs are reviewed regularly, how can we know if they are still worth their cost? (Some have endured for decades.) Termination of outmoded grant-in-aid programs would contribute toward balancing the budget, keeping taxes from rising, and checking inflation.

### Sweet Potato Weevils Hit by Cold Weather

Winter weather causes plenty of damage, but it can also bring some benefits. The USDA says the recent hard freeze could help sweet potato growers in seven Southeastern states.

In these states the bitter weather reduced populations of the sweet potato weevil to the lowest point in years. Furthermore, if farmers act now to give nature an assist, they may be able to kill still more weevils.

Farmers and handlers should apply insecticides to sweet potatoes in storage to kill the weevils that may have survived in bins and warehouses. An intensive effort between now and planting time will result in better control of this pest than has been possible for years.

Texas Tech Spends \$526,000 for Food

Texas Tech's raw food budget
is nearly \$526,000.

Students this year will consume
1,225,000 pounds of meat, 124-
890,000 gallons of milk and 8,113
gallons of oil.

It would take a freight train 170 cars
long to transport the \$544,000 pounds
of food served in Tech's nine dormitories.

It would require 1,025 beef
steers weighing 1,000 pounds each
and a herd of 180 dairy cattle
to supply Tech's meat and milk needs.

Need Grows for Operating Equipment

As Texas Tech grows, so does
its need for operating equipment.
At last inventory, there were more
than 70,000 individual pieces of
equipment, ranging from an electronic
microscope to a 40-cent war
surplus chair.

Furnitures last year ranged from
a nuclear engineering analyzer
computer to 12 inches of such

issue of The Foard County News:

Joe Ward of Crowell preached
for the revival at the Christian
Church in Truett Sunday night
while the evangelist, C. V. Allen,
was with the Christian Endeavor
in Benjamin.

Miss Kate White became the
wife of W. A. Pulliam in a wedding
at the University Baptist
Church at Abilene on Jan. 31 at
high noon. The ceremony was
conducted by Rev. C. A. Powell.
Mr. and Mrs. Pulliam are now
making their home at Vega.

Boas and Dew, dry goods merchants
of Graham, have purchased
the stock and fixtures of Blaw &
Rosenthal and are opening a bankrupt
sale here Friday morning of this
week.

Miss Bonnie Norris, daughter
of Mr. and Mrs. S. E. Norris, and
Glen Jones of the Foard County
community were married Thursday
afternoon, Jan. 28, at the
Baptist parsonage. Mr. and Mrs.
Jones are now living on a farm
about 12 miles southwest of Crowell.

Cotton plantings in Foard County
for the 1931 crop amounted to
11,929 bales, compared with
4,298 bales for the same time
last year.

Drilling on the Texas oil test
on the L. K. Johnson ranch has
been discontinued and work on
plugging the hole and pulling the
test is now taking place. The
test was drilled to a depth below
four thousand feet.

Elb Scales of Crowell authorized
the News to announce his candidacy
for the office of public
weigher of Precinct No. 1.

Mr. and Mrs. J. R. Beverly
spent Saturday night in Truett,
guests of Mr. and Mrs. Marion
Hughton.

Crowell did not play at Plainview

That Time May Be Coming

"Many newspapers have made
a great issue out of public power.
We wonder what some editors
would say if the United States
Government should set up its own
wire service and publish its own
newspaper."

"That time may be coming. The
history of an expanding government,
such as our Federal government
now is, shows such government
recognized as 'harmful.'—
Denver, Colo., Mining Record.

Must Be Preserved

"Our government based on the
Constitution of the United States
must be preserved. We are the
only of every Nation in the
World, and the Nation most
desirable to be conquered since we
are in this position. No other form
of government can present this
way of life nor the opportunities
guaranteed by our Constitution."—
Anaheim, Calif., Bulletin.
