Rev. W. J. Mayhew Is Returned Pastor Methodist Church

Rev. W. J. Mayhew is returned to Crowell for the second year as pastor of the Methodist church.

So far as is known Rev. Mayhew has enjoyed as full co-operation as any pastor the church has ever had and his return is according to the wishes of practically all the membership. He did a splendid work here last year and is planning to put into effect a larger program next year. There is every reason to believe and to expect the next conference year to be the greatest in the history of the church. And Rev. Mayhew has a strong following that will work with him to that end.

Other appointments of interest to Crowell and Foard County people are as follows:

Rev. C. E. Jameson, a man reared in Foard County, is reappointed to the Memphis church. Rev. Ed G. Thorp, formerly at Margaret, and for last year pastor at Idalou, is given Littlefield as his appointment. Rev. L. N. Lipscomb, known to many Crowell people, is returned to Plainview, a charge held by him for the last three years. Rev. J. H. Hamblen, former pastor at Crowell, and who has held the Clarendon church for the last three years, was made a presiding elder and goes to the Stamford district. Rev. J. M. Fuller, Crowell pastor for one year, is returned to Seymour for the second year. Rev. T. C. Willett, pastor at Munday for two years after going from Crowell, is transferred to the Sweetwater district and given the charge at Rotan. Rev. W. M. Murrell is returned to Childress for the third year. Rev. T. M. Johnston comes back to Margaret and Thalia for the third year. Rev. O. P. Clark remains presiding elder for the Vernon district.

It was expected that Rev. O. P. Clark would remain another year as presiding elder. This will be his fourth year in this service.

This is a happy arrangement, as is also the fact that Rev. T. M. Johnston is to remain with Thalia and Maraget.

Farmers Report Pickers Scarce

A number of the farmers have recently expressed themselves as thinking it impossible to gather the entire cotton crop on account of the scarcity of pickers. There is a general cry for more pickers and few are to be had. It seems that they are not coming this way and what few pickers the farmers have been able to get do not want to pick cotton but insist on pulling or snapping it. This, of course, makes a poor sample and tends to keep the price down.

One may travel over the country in almost any direction and he will find the fields still white and few pickers. There are literally thousands of bales of cotton all over the country yet to be picked and it looks very much like the entire crop will not be gathered before it is time to plant another crop.

Plans Bill for More Money for Schools

Austin, Texas, Nov. 15.—Representative W. M. Harmon of Waco was in Austin Monday gathering data with which to further his legislative program for the coming regular session of the Legislature. Harmon is especially interested in the stabilization of the available free school fund of the State and proposes to offer a bill in the Fortieth Legislature setting aside all gross production taxes on the natural resources of the State for the benefit of the schools. Harmon said he called on Superintendent Marrs and found him receptive to the proposition. He also said State Comptroller Terrell was in favor of the movement to give the school children of Texas the benefit of the proceeds derived from natural resources and that Terrell suggested further that all State inheritance taxes, now amounting to more than \$1,000,000 a year, be contributed. A number of the members of the next Legislature have promised support of the measure, Harmon said, and he predicts that if it is adopted the per capita apportionment will easily be \$14 to \$15.

Will Have Modern Picture Show Here

T. B. Richmond and W. R. Simpson have leased the W. R. Womson have leased the W. R. Wom-Magee Toggery on the west side of the square and will make it the home for a modern moving picture show.

They are now having the floor taken out and will put in what is known as a lowered floor, that is, the floor will have a decline towards the rear of the building.

A lot of new machinery will be installed, one of which will be a new machine. They are planning to put in also an electric pipe organ. The building will be furnished with modern and comfortable seats and will have a capacity of something like 450, that is with a balcony. This will be practically the same as the seating capacity of the building which they have been occupying since they have been operating the Home Theatre. The expenditure preparatory to the new arrangements will be some \$5,000.

Mr. Richmond has been operating the show here for several months and has been giving Crowell the best pictures ever shown in the town. He understands the business and knows what kind of pictures best for the general public. The consequences are that he is receiving the hearty patronage of our people.

Young Man Drinks Carbolic Acid and Dies Armistice Day

J. E. Tucker, 18, married and living on the B. J. Smith farm in the southwest part of the county, drank carbolic acid about noon November 11th and died, according to reports. He is said to have drunk the poison before any member of the family could interfere.

It is reported that he had previously threatened to commit suicide but that he had been talked out of it, but on the 11th he carried out his threat.

He came originally from Haskell County. No cause is assigned for the drastic act of the man.

Leaguers Put on Fine Play Tuesday Evening, Opera House

The play given Tuesday evening at the opera house by the Leaguers under the direction of Professor T. J. Prestwood was one of the best ever witnessed in our city.

Mr. Prestwood showed himself to be a real director in that kind of training, as the play was well rendered and all the plans well laid for carrying it out in every particular. The play was well received by the large audience that was present to enjoy the occasion and everyone spoke in the highest terms of both the players and the director. They all deserve the highest commendation for their efforts.

It is understood that they intend to carry the play to some of the neighboring towns in the near future.

Community Club

The community Club met in its regular social session at the home of Mrs. Herman Gentry. Mrs. Will Erwin and Mrs. Gentry as hostesses. The evening was enjoyed by various games and contests, after which an elaborate plate lunch was served.

Those present were, Mr. and Mrs. Jim Cates, Mr. and Mrs. Tom Russell, Mr. and Mrs. George Cates, Mr. and Mrs. Hubert Brown, Mr. and Mrs. Jim Shook, Mr. and Mrs. Emmett Blakemore, Mr. and Mrs. Will Erwin, Mr. and Mrs. Herman Gentry. Miss Pauline Ward was a guest of the evening. We hope to have every member present at the next social at the home of Mrs. George Cates Nov. 27, 1926.—Reporter.

LITTLE FIRE SCARE

Just a little while after the hard wind blew up Tuesday night about 7 o'clock the fire department was called out to the home of Boots Gribble. Some trash had been burned the evening before and when the wind blew up the ashes were lifted from the smoldering embers and the fire rekindled. Particles of paper were set on fire and blown against the house. No damage was caused, as the fire was soon put out.

May Have To Await Action of Legislature

According to a letter received by Prof. R. B. Underwood from L. W. Rogers, assistant State Superintendent of Public Instruction, it may be that Crowell will have to wait until the Legislature meets before anything can be done to settle the Crowell situation, and no one can tell just how long it will take for action to be taken by that body. Following is the letter, which is self explanatory:

Referring to your letter of November 8.

The county board of trustees has the authority under the provisions of the rural high school district law, Bulletin 193, to annex common school districts to an independent school district of a scholastic population of 150 or more. The board also has the authority to re-arrange the boundary lines of school districts including independent school districts with the approval of the board of trustees and to transfer territory from a common school district to an independent district, provided the transfer does not result in a decrease in the area of a district having outstanding bonded indebtedness. The county board cannot transfer to an independent district territory that is a part of a district with outstanding bonds.

The adoption of the amendment means that the Legislature no longer has the authority to create school districts by special legislation or to re-arrange school district boundaries, and it will be necessary for the Fortieth Legislature to pass a general law governing the creation of school districts and the re-arrangement of boundary lines by local action. It may, therefore, be advisable for your district to wait until after the enactment of this law to work out the desired changes.

Yours very truly,
L. W. ROGERS,
First Asst. State Superintendent.

Petition for New Railroad Received

Austin, Texas, Nov. 15.—The Railroad Commission has received a copy of the petition to the Interstate Commerce Commission for the construction of a new railroad across the lower Panhandle. It would extend from Ardmore, Okla., to Lubbock, Texas, 265 miles.

The line is to be built by the Ardmore, Vernon & Lubbock Railway Company, and would traverse the counties of Carter, Jefferson, Cottle and Tillman in Oklahoma and Wilbarger, Foard, Cottle, Motley, Dickens, Crosby, King and Lubbock in Texas.

POULTRY ASSOCIATION TO MEET NEXT SATURDAY

The Foard County Poultry Association will have a meeting of its members at Fred Rennels' office in the court house next Saturday afternoon at 2:30 to attend to some important business looking to the coming poultry show here. One matter to be attended to is that of deciding on the premiums to be given at the show.

Those who are pushing the association are anxious that all who can do so attend this meeting. It is very important, possibly more than ever in the history of the county, since the poultry business is growing and is taking its place more with each year as a dependable vocation. They are anxious that a full attendance be had and that something be done to give the poultry business a push forward. It is being given special attention in our neighboring counties and of course Crowell wants to be well along in the ranks of the best in this part of the state. We have the stock and what we want to do is to take the interest it deserves to make the next show the best ever had in Foard County.

WOMAN DIED SATURDAY

Mrs. Mary Ida Bolin died last Saturday and was buried in the Crowell cemetery Sunday, Rev. Thompson of Margaret conducting the services.

The deceased is survived by her husband and some children, one of which is a few weeks old infant.

W. L. Ricks Makes More Improvements at His Dairy Plant

Several improvements have been made recently by W. L. Ricks at his dairy, one of these being the purchase of a registered bull, one of the best to be found in the country. Several weeks ago he bought this animal from A. T. Bryant of McKinney, Texas. Mr. Bryant has been a breeder of registered Jersey cows for several years and is said to have as good grade of Jerseys as can be found anywhere. This is originally imported and is of the Golden Ladd stock.

This animal cost Mr. Ricks \$115.54 laid down. With him and his fine herd of good graded cows Mr. Ricks expects to build up a dairy herd within the next few years that is second to none in this part of the country. He has bought all the good cows he could find and would buy more if they were to be had. He says the farmers have made mistakes in shipping off their Jerseys and that the country has very few good cows.

Another improvement he has made is the installing of a steam bottle washer and also a bottle capper, so that he is operating largely by machinery. For more than a year he has had in operation a milking machine. He is now milking about 35 cows and can not supply the demand for milk.

State Health Nurse Here Inspecting Pupils of Our Public Schools

Miss Jean Campbell, Public Health nurse, working under the direction of the State Health Department at Austin, came last Monday for the purpose of giving the school children of Foard County free medical inspection. The work is being done under the auspices of the Adelphean Club of Crowell. Miss Campbell is working with the children of the Crowell school this week.

The children are examined as to height, weight, condition of tonsils, teeth and eyes, and physical condition in general. In cases of extreme underweight, possible causes are determined and reported. Attention is also called to cases of overweight. Duplicate charts are made containing the information gained about each child through the inspection. One chart is sent into the State Health Department, and the other is retained by the teacher. This chart may serve as a guide to the teacher in conducting the health work with the children. A card containing a report of the inspection of each child will be given the parents. Medical aid and treatment will be advised in all cases where serious or outstanding defects are found.

The teaching of health and personal hygiene is an important phase of the work of the school, and should function in the every day life of every pupil, large or small. The work being done by Miss Campbell in this county and throughout all the communities in which she works, should and will create and augment a keener interest in health work, as well as determine the present health status of the pupils in the schools.

LYCEUM MONDAY NIGHT

What is said to be a very entertaining number of the lyceum course will be that of next Monday night, Daddy Long Legs, at the Methodist church. In another column in this issue of the News will be found a brief description of the play.

This is something different and you will be very highly entertained if you will avail yourself of the opportunity of seeing this play.

MEXICAN BABY DIES

A Mexican baby of a family picking cotton for J. A. White died Sunday and was buried in the Crowell cemetery Monday.

Attends Highway Meeting Tuesday

Jesse Owens attended a call meeting of the Lee Highway Association at Matador Tuesday and returned enthused over the matter of paving our portion of the road.

The object of the meeting, as we understand, was to discuss the matter of paving, and he said most of the counties west of Foard are getting busy and will co-operate in putting on a bond election which was placed for January 4th.

A meeting is to be had here tonight to discuss the advisability of putting on a bond election for this county on the same date. Every one who is interested in putting a paved highway through Foard County should come to the meeting tonight.

Sooner or later Lee Highway is going to have to be paved if it gets the traffic it should get and the counties west of us are coming to realize this fact. Come to the meeting and express yourself on the matter.

NORRIS PAPER DENIED ENTRY

Austin, Nov. 15. (AP)—The Searchlight company of Fort Worth, operating under a Delaware corporation charter, Monday was denied a permit to do business in Texas, by the secretary of state. Application was made by Frank B. Potter of the Fort Worth firm of Dedman and Potter, attorneys.

D. A. Gregg, chief clerk of the secretary of state's office, said the permit was declined on the basis of an opinion rendered by C. M. Cureton, chief justice of the Texas supreme court, when Cureton was attorney general.

Norris Editor
Dr. Frank Norris, Fort Worth Baptist minister, is editor of the newspaper published by the company.

Guy Holcomb, commissioner of the blue sky department, announced that Mr. Potter informed him the company would not attempt to dispose of any of the stock in Texas until a permit to do business in Texas obtained and until a blue sky permit was obtained.

Judge Gregg cited the ruling of law is that where a charter is obtained in a foreign state for the purpose of transacting business in a domestic state and with no bona fide intention of transacting business in the state from which the charter is obtained, that such action is a fraud both upon the state issuing the charter and upon that into which it seeks admission for the transaction of business and a charter obtained under such circumstances and conditions confers no right upon the corporation and is not within the rule of comity between states which permits corporations chartered within one state to transact business in another.

Wind Does Damage to Good Creek Home

A portion of the home of Cecil Dunn in the Good Creek community was blown away when the fierce wind struck his home Tuesday night. Mr. Dunn was in town Wednesday and told of the damage done and was buying some dishes to replace those that were broken.

Margaret School Adding New Course

Vocational agriculture is a new course to be added to the curriculum of the Margaret school.

The course includes home economics for the girls and manual training for the boys. It is a very fine course and Margaret is the only school in the county that has this course taught in its public school.

Equipment for teaching this course is being installed and the course will be open for students in the near future.

MOVED TO OLD STAND

The City Tailors have been occupying the rear end of the building occupied by the Magee Toggery, but now since the latter has closed out its business and the building is to be changed into a theatre, the tailors are moving back to the rear of the building occupied by L. Kamstra.

Mr. and Mrs. Lon Robertson and children of Branson, Colo., are here visiting the Hallmark families.

REV. T. M. JOHNSTON

Rev. T. M. Johnston is returned to Margaret and Thalia Methodist churches for the fourth year, which is a very strong recommendation for him and his faithful work. He has done and is doing a great work at these places and has endeared those people to him. Bro. Johnston has made many friends over the county where he has been.

Crowell Ties Knox City, Six and Six

Crowell and Knox City played a tight game Thursday, Nov. 11, with the final score, 6 to 6. It seemed that Crowell really outplayed them but luck broke with Knox City. Crowell made 12 first downs to Knox City's 3. Norman and Lawson intercepted passes in an open field but both times the referee called them back. Ashford bucked the ball across the line for Crowell's only touchdown. The field had been plowed recently and it was extremely slow. Ashford led in total yardage with 79 yards. Cock second with 49. There were many Crowell people to see the game and it was a real good game. The Knox City students entertained the Crowell boys and all that stayed had an enjoyable evening.

Crowell plays Munday at Crowell Friday and a tight game is expected. Munday is the only team to win from Crowell this year.

Frank Morris Holds Revival in Oklahoma

Frank Morris, 3625 Shenandoah street, lay evangelist of the Methodist Episcopal Church, South, began a three weeks' union revival meeting at Hominy, Okla., Sunday. All of the churches of the city are joining in the meeting.

Mr. Morris has accepted invitations to hold meetings this winter in New Mexico, Virginia and Kansas City. Plans are being made for him to hold a meeting next spring in one of the Dallas churches.—Dallas News.

THANKSGIVING PROGRAM AT VIVIAN SCHOOL HOUSE

A Thanksgiving program will be rendered at the Vivian school house Thanksgiving night. Another feature of the occasion will be a box supper, the proceeds of which will go for the benefit of the school. The Crowell band will furnish music for the evening.

DEMONSTRATING STOVES

The West Texas Utilities Company is enjoying a party this week at its office. The appetizing smells of coockery have drawn pedestrians from far down the street. This means that Miss Mersman is demonstrating to the ladies of Crowell the advantages of electric cooking. Miss Mersman of St. Louis and Mr. Strong of Dallas, representatives of the Hot-point factory, arrived here Monday to conduct an electric range campaign and will remain through Wednesday of next week.

KILLED DOG SUNDAY

When a little dog belonging to Dayton Clapp acted very strangely Sunday Clapp called Sheriff Campbell and Mr. Campbell came and killed the dog. It had been having fits for several days but not until Sunday did Mr. Clapp decide definitely to have the animal killed. It had been a pet of Mr. and Mrs. Clapp's little girl, and fearing that there might have been some danger of rabies the head of the dog was severed and sent to Austin for examination.

Another advantage of the closed cars is you get more mileage out of your cigar or cigarette. A bald man who has to shave every day can't be convinced that nature is so wonderful.

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, November 19, 1926

If present plans are carried out and if they succeed Foard County will again have to consider the matter of paving Lee Highway. The News stands for a bond election for paving but we are making no argument here for the proposition but just calling attention to the movement now on foot to pave. Our readers will remember that a week or two ago the News carried an item relative to what was being planned in the counties west of here. A bond election date has been decided upon, January 4, and the aim is to get a vote on that date for all Texas counties through which Lee Highway passes. It is thought such issue will carry and that the entire section of the highway can be paved across Texas without delay. That will be a big advertisement for the road and will do much to establish it as one of the great trunk lines of the nation.

It is soaking in on many of our people now that there is real money in the poultry business, especially where it receives the proper attention. At times the News is urged to boost the poultry industry. The advice is good but we don't need much of it. We have been boosting the poultry industry to such extent as to entitle us to membership into the society of chicken cranks, as everybody knows, and expect to continue as long as we are running a country sheet. If 250 farms in Foard County were stocked with 1000 purebred chickens it would be worth more to the county than a dozen oil gushers.

That was more than a zephyr that blew up at the rate of 75 miles an hour Tuesday evening about 7 o'clock. Had it been accompanied by a cloud many would have hunted dugouts. The damage was confined to small outbuildings for the most part and amounted to little, but it reminds one that West Texas can do the stunt like it used to.

From the New Methodist Preacher

This is to say to the members of Crowell Methodist church, and to my friends outside of it, that I am delighted that it is to be my privilege to work with you this Conference year. I trust that our relations may be as pleasant this year as they were last. We must help each other if we are to succeed in the great work before us.

Wife and I are visiting our mother and children for a few days before entering upon the year's work. I will also visit the sessions of the Central Texas Conference at Waco. As this is the Conference of which I was a member for a number of years, I am expecting to have an enjoyable visit.

I shall not be in my pulpit next Sunday, but hope to be with you the following Sunday, November 28, and every Sunday thereafter.

May I insist that you be with us in this first Sunday of the new Conference year. This is very important for the reason that we are planning a great forward movement this year. Unless you are present to get the details of this plan you will have to have many things explained afterwards. Please be present at this service, if at all possible.

Again assuring you of my pleasure at being with you again, and trusting I may be able to render you a far better service this year than I did last, I am, with every good wish,
Your friend and brother,
W. J. MAYHEW.

A. L. Davis has purchased the interest of Bill Norman in the White-way Filling Station and is now in charge of the same. He has moved his family to Crowell, occupying the new rent house recently built by Mrs. Flesher in the north part of town. Mr. Norman has not stated what he intends to do.

A letter from Rev. S. A. Taylor recently stated that Mrs. Taylor had improved in health very much since having gone back to Birmingham and that the children are now in good health. This will be a matter of interest to Rev. and Mrs. Taylor's friends here.

A deal has recently been closed whereby C. W. Thompson and J. D. exchange places, Mr. Thompson getting what is known as the Wells' place consisting of the house and 140 acres of land one mile northeast of the court house, while Mr. Johnson becomes owner of Mr. Thompson's home in northwest Crowell. The exchange in residence will be made in the near future.

C. Q. Crawford is now operating the Magnolia Filling Station, having bought the accessories from Paul Logan who operated the business for several months.

People Are Learning the Value of Occasional Use.

EVERYONE knows that a laxative stimulates the bowels. A diuretic performs a similar function to the kidneys. Under the strain of our modern life, our organs are apt to become sluggish and require assistance. More and more people are learning to use Doan's Pills, occasionally, to insure good elimination which is so essential to good health. More than 50,000 grateful users have given Doan's signed recommendations. Scarcely a community but has its representation. Ask your neighbor!

All parents and anyone interested in the welfare of the school please come and help in this worthy organization.—Reporter.

WEST TEXAS NEWS

(By West Texas C. of C.)

Stamford—The West Texas Chamber of Commerce is making an effort to check a new form of "bootlegging" being practiced by unscrupulous hog dealers who are spreading hog cholera through their careless introduction of infected or exposed swine into West Texas and federal aid is being sought by the regional organization in the matter.

Graham—A novel storage system has solved the cotton problem for a farmer in this section. Asa Vaughn and sons of Wilbarger County are using a hay baler to put up their seed cotton as it is picked. Dispensing with the cost of ginning and storage, the cotton seed bales are to be held in Vaughn's barns during the present crisis, and will be released to the market at a later date. When ready for marketing, the cotton seed bales will be loaded and taken to the gin.

Fort Worth—The committee named by the West Texas Chamber of Commerce to investigate the cotton situation in Texas went on record at its recent meeting here as endorsing the Texas Cotton Corporation to be organized with a \$5,000,000 subscribed capital stock by a special cotton committee of the Texas Bankers' Association in accordance with plans adopted by six Southern States for the retirement of 1,250,000 bales of Texas cotton. The committee also adopted a resolution relative to a plan for cotton acreage reduction in the state of Texas to an extent of not less than 25 per cent.

Ballinger—The More Feed, Food and Conservation Campaign of the West Texas Chamber of Commerce is to be launched at the Central West Texas District Convention of that organization which meets here November 15. The movement for living at home and encouraging thrift through more livestock for West Texas farms, involves a contest in which prizes aggregating \$2500 will be awarded by the regional chamber of commerce to farmers in its territory.

Plainview—A new addition to the Missouri hotel here to cost \$5,200 has been planned by its proprietor to consist of ten rooms of brick and tile construction. The improvement program will make the Missouri Hotel a first rate structure, fireproof throughout.

Tulia—In line with the increasing business in the local postoffice, a second regular clerk has been employed by the Tulia postmaster.

Robert Lee—Lights in this community are to be installed upon receipt of a transformer which was ordered some time ago.

Paint Rock—A new produce house has been opened up in this section. It will handle poultry, pecans, wool, mohair, furs and other products.

Big Lake—Conditional acceptance of a bid for the construction of a city hall was made recently by city officials, and work upon the building is expected to start soon.

Odd Mixture of Waters

A strange, three-layer arrangement of water has been revealed by recent hydrographic investigation of the Faroe-Shetland channel, north of Scotland. The layers are so distributed that a swimmer in the channel could take his choice of swimming in Atlantic ocean water at the surface or diving into the Norwegian sea which flows at the bottom, while between top and bottom he could enjoy a mixture of the two kinds of water with a dash of Icelandic Arctic current added to the blend. The observations of the channel have recently been reported to the International Council for the Exploration of the Sea.

Bees on Rampage

A woman in the village of Marbury, Cheshire, England, had three hives of bees, and all went mad recently and attacked her, stinging her severely about the head, limbs and body, and then, turning to the poultry run, they stung to death eight hens and a cockerel.

They then passed on to an adjacent field where they attacked harvesters, causing them to leave their tools in the field in their flight. When evening came on, the entire colony was destroyed to prevent further serious trouble.

Gassed by Cheese

The steamer Suffolk had reached Liverpool and was being unloaded, but the stevedores came up from the hold, complaining of a dreadful odor. The two officers went down into the hold and as, after half an hour, they failed to return, search was made. They were found lying unconscious. One recovered on being brought up on deck, but the other had to be taken to a hospital. They had been gassed by fumes given off by the ship's cargo of cheese.—Chicago Journal.

SERVICE

Housewives Like

When we tell you that our groceries will be delivered at a certain time we do it. Our deliveries start on time and most of our customers, when they place their order, know within a very few minutes of the time it will be delivered. This is a much more satisfactory service than the haphazard way when an order might be delivered in ten minutes or possibly not for several hours.

You can save time if you order by phone. We give you exactly the same service as when you come to the store. Tell us what you want and we will see that you get it.

Heroic Deed Recorded in Letters of Gold

Strongly built upon the last rock on a French coast stands a lighthouse whose light reaches everlastingly to guide sailors through the neighboring reefs.

If, in calm weather, you happened to get near enough to the lighthouse you would see there, written in letters of gold, two names: Andrew Duff, lot, Bertha Duff. That inscription commemorates the deed of two young people who lost their lives to save those of others.

The lighthouse is uninhabited. Its functioning is automatic; the light shines night and day. Once a month, or thereabouts, taking advantage of calm weather, a boat goes out to the lighthouse to renew the stock of candles which is used to feed it. But one night the light went out. A fearful storm was blowing, and doubtless a wave or also a gust of wind, had smashed a pane and blown out the light.

At all costs the damage must be repaired and the lamp relit, but no one dared venture on the wild sea. The official entrusted with this duty was away; he had recently paid his periodical visit, so that his responsibility was covered.

It was his two children, Andrew and Bertha, aged sixteen and fourteen, who volunteered. The sailors in the harbor soon lost sight of the little boat carrying the two children into the darkness. But soon a sigh of relief arose among them when they saw suddenly the light placed the blackness of the night.

But the boat never returned to port.

Venerable Newspaper
The oldest newspaper in the world is probably the Tsen-Fou-Koun-Pao, now the official government journal published in Peking, China. This newspaper recently celebrated its one thousandth anniversary and apparently has made a good start on its second millennium without showing any traces of age. Among the members of its editorial staff is at least one Oxford alumnus who speaks English quite as fluently as he does Chinese.

Good and Evil Omens Surround Honey Bee

Many women are interesting them-
selves in the art and business of bee
keeping, and with skillful manage-
ment it can be made a profitable in-
dustry. Much ancient lore is asso-
ciated with the keeping of honey bees.
They must be told when there is a
death or wedding in the household
and their habits of swarming are
omens of good or evil. If they swarm
on the ground or on a dead tree some-
one is going to die, or there will be a
famine, or something dreadful will
happen. It is astonishing that coun-
try people ever kept bees if they be-
lieved in superstitions so liable at
these to make them uncomfortable.
They do not worry the modern bee-
keeper, for, like everything else, the
business has been modernized and the
old village straw beehive-maker has
gone, together with many of the curi-
ous observances associated with bee
keeping.

Retrospect of Life Not All Sorrowful

In looking backward over life I
sometimes see much of sadness, and
feel life to be a rather sorrowful
thing; but far, far oftener it is the
laughter that I hear, and it is smil-
ing faces that look into mine. Even
men who are hateful, even the mem-
ories of merciless drivers, are soft-
ened for the reason that time effaces
their evil, bringing out more and
more whatever of pleasantness they
had in them. There were very, very
few indeed who meant the evil. At
any rate, time shall give them the
benefit of the doubt.

Judgment is a poor thing as from
man toward man, isn't it? Though I
have known human devils, for whom
in my heart I can find no respect or
love, perhaps the Almighty can. I do
not doubt that such is the case, and
to him I will leave the judgments.—
Bill Adams in Adventure Magazine.

Head-Hunting Still Carried On as Rite

The savage inhabitants of the
Dutch island of Nias, off the coast of
Sumatra, still practice head-hunting
and decorate their homes with human
skulls.

Despite the efforts of missionaries
and government officials, says Dr. A.
Ponsel, a returned explorer, they seize
upon any excuse—the completion of
a new house or a new village, the
death of a chieftain, or some other
person of importance—to indulge in
gargantuan feasts, followed by ex-
peditions in search of human heads,
and culminating in wild dances which
continue through the night.

A head-hunter's party begins with
a feast of pork and rice. The host
provides no plates, but compels his
guests to eat from a pig trough—a
subtle inference that if they return
from the expedition without any
heads hanging from their belts they
will be regarded as no better than
pigs. Further, he expects them to
take an oath to the effect that if they
fail to bring home some heads he may
take theirs, and those of their women
and children.

When an important person dies the
number of heads required to subli-
mate his spirit varies according to the rank
and power of the deceased.

Mutual Pair of Gloves

General C. and General H. had each
lost an arm for glory in the Civil
war. They took it as a matter of
course and were profoundly grateful
for their joint good fortune in that
General C. had lost his right arm and
General H. had sacrificed his left.

They were neighbors and friends.
One year they observed a special
occasion with all suitable dignity. On
a certain morning General H. would
approach the fence of General C. and,
having arrived, would lean thereon
until General C. appeared. After a
formal salute General C. would say to
General H.:

"General, isn't it about time we went
to buy ourselves a new pair of
gloves?"

And off they would march to buy one
pair of gloves for two heroes.—

Suffered weak, nervous

"I WAS in a very weakened,
run-down condition, surely
in need of a tonic and build-

Anna, Texas. "I was so weak
I had to go to bed, and kept

"I suffered with my back so
much. I was very nervous,
couldn't rest good at night. I

"I had read so much of
Cardui, I thought best to use
it. I took seven or eight bot-

taken them I was stronger
than I had been in several
years. I can highly recom-
mend Cardui."

Thousands of other women
have found that the tonic ef-
fects of the purely vegetable
ingredients of Cardui were
just what they needed to help
restore their appetites, to help
bring them easily and natu-
rally back to normal health

been found to be of great
benefit in many common fe-
