

THE FOARD COUNTY NEWS

AND CROWELL INDEX

VOLUME XXXVI NO. 16

CROWELL, FOARD COUNTY, TEXAS, FRIDAY, OCTOBER 14, 1927

8 PAGES \$2.00 A YEAR

The Week Will Close with 6,000 Bales Ginned

All the gins in the county except the one at Rayland were visited by a News representative Wednesday morning and the exact number of bales ginned up to that time were given. H. W. Lawson was here from Rayland Monday and stated that they had ginned more than 1100 at that time and would get 1500 by Saturday night. Estimating that the Rayland gin had 1300 bales Wednesday morning, which is approximately correct, we had at that time in the County 5261 bales.

The record for the seven gins in the county was as follows:

Margaret	659
Crowell Gin	501
Blue Gin	137
Farmers Gin	1280
Thalia Farmers Gin	960
Cotton Oil Gin	424
Rayland Farmers Gin	1300

It would be entirely safe to say that the seven gins will have by Saturday night more than 6,000 bales.

Information gathered from the farmers leads one to the conclusion that less than half the crop has been ginned. In many places it will run over that, but in others it will lack much of reaching it, according to our information. This would seem to justify the estimate of something like a 15,000 bale crop for this season. Some farmers place it at 16,000 bales.

There are still some complaint about the worms in the late cotton.

Most of the Wheat Crop Is Now Sowed

According to the estimates of farmers here the wheat crop this fall will be something like normal in acreage.

It has seldom occurred that conditions have favored the wheat farmer more than this fall. In the first place, the crop was rapidly gotten off the ground and preparation for another crop was started early. That is always in favor of a wheat crop. Early plowing and, as a rule, early sowing, are favorable to wheat. The land was practically all prepared early and well. The rains have come and the ground filled with moisture sufficient for the needs of the wheat for many weeks to come. Most of the wheat has been put into the ground and is now growing nicely. Within a very few weeks the entire wheat sections of the county where they are in a body will be one green wheat field.

While we have not had so much moisture this summer and thus far in the fall as we did last year, we have had plenty. There has been little surplus and little wasted. The ground has taken it all up and it is conserved for the winter crops. We are expecting no unusual shortage of moisture this winter, but on the other hand all that is needed to keep the crops growing and make plenty of pasturage for stock.

MOVING TO LUBBOCK

John Shirley was in town Monday and stated that he expected to get away to Lubbock with his family about the middle of the week. He expects to buy property in that town and make it the home indefinitely. He is moving there on account of the splendid school advantages, and also because he thinks the Plains country has a great future.

Mr. Shirley had several business propositions offered him but said he would not make a definite decision as to an acceptance until he had moved.

BLACK

(By Special Correspondent)

Mr. and Mrs. Clyde McKown of Crowell spent Sunday with Mr. McKown's mother, Mrs. G. W. McKown. Mr. and Mrs. Bob Graham of Aspermont spent Sunday night with Mrs. Graham's cousin, Mrs. Ed Andrews.

Mr. and Mrs. Herman Johnson of near Quanah visited in the home of Mr. and Mrs. J. A. White Sunday. Mrs. Ed Andrews and son, William, returned Friday from Wichita Falls where they had spent a few days visiting Mrs. Andrews' niece, Mrs. S. E. Latham.

Our school will open Monday with Misses Pauline Haynes and Juanita Campbell as teachers.

Mr. and Mrs. O. M. Gentry visited Sunday with Mrs. Gentry's father and mother, Mr. and Mrs. P. P. Cooper, of Crowell.

Orient Control Has Passed Into American Hands

Kansas City, Oct. 8.—Control of the Kansas City, Mexico & Orient railroad falls definitely into American hands as a result of the decision in federal court in Topeka today awarding the American note holders' committee 30,315 of the 35,000 shares of the Company's stock offered note holders.

The control of the road, however, according to W. T. Kemper, of Kansas City, president, will be widely scattered, no small group holding a majority of the stock. The largest individual holders of stock, Kemper said, are Herbert F. Hall of Kansas City and R. E. Hodgins of Los Angeles. The apportionment of the federal court gives the American committee control of about 58½ per cent of the stock if the decision ends the fight of British note holders, who held about one-third of the notes of the road, Kemper said.

Carl Zeibig Shows Some Fine Products

Sweet potatoes and peanuts are two farm products which Carl Zeibig never fails to raise. At least he has not failed in several years. That does not mean that he fails on cotton and feed, but it means that these are just a few of the sideline products that help to make the farm a real producer of profits. These are things he can use at home, or if he wants to sell them, he usually finds a ready market, especially for the peanuts. In all probability, whatever his crop of peanuts may be, he will be unable to supply the local demand.

Carl brought to the News office Tuesday some specimens of these and we can say that we do not remember when we saw any finer in appearance. These are both adapted to sandy land and in all probability can be grown almost every year on such lands.

PRETTY GOOD DOPE

The following items, one from the Abilene Times and the other a comment by State Press, are rather interesting to us and maybe they will be to some of our readers:

In a recent address President Coolidge made the statement that of his old home in Vermont was measured by the number of cows they would maintain, that is, some men had eight-cow farms, other men had twelve-cow farms, and others might have had farms that would be known as twenty-cow farms. On these farms all the crops produced are marketed through the medium of the dairy cow.—Abilene Times.

In some of the Southern States a farm is designated as a one-horse or a two-horse or maybe a four-horse farm. This means that if it is a one-horse place the farmer with one plow cultivates it. If a four-horse place, a four plow farmer is in charge. These things grow out of common experience, and are so descriptive they remain intact from generation to generation. Vermont, just to look at it, appears to be a discouraged Commonwealth. It is hilly and rocky and woody and creek, and even in summer it looks portentous of bitter cold weather, which everybody knows will come along ere October ceases. But the Vermont farmers do not feel down-and-out. They have not clamored to their native-son President for Federal aid. They go ahead year after year raking the rocks from their little fields, from their meadows and pastures. They milk their cows not in a spirit of rebellion, as is common to cow milkers in the cotton States. They do their milking in the same spirit that we in Texas do our plowing, as a main part of the day's work. But at the year's end the Vermont milk farmer, if he owns a dozen cows or so and a relatively good acreage of grass and potato land, finds that he has a tangible profit from his twelve months' operation. He keeps it in the savings bank, at about 3 per cent interest, until he accumulates \$500 or \$1,000. Then he buys a bond or a mortgage and puts it away, milking the interest periodically. That is the way John Coolidge, the President's father, did. And the old gentleman left an estate of \$40,000 when he died, after a long life of confident self-sufficiency.—State Press.

Death Claims Another Foard County Pioneer

The death of Mrs. B. J. Glover Saturday evening at 6:30 was a source of sorrow to the family and her many friends in Crowell.

For the last several months Mrs. Glover had been confined to her bed. She was removed from the home here the last of the week to the sanitarium where she could have the services of a nurse.

The maiden name of Mrs. Glover was Miss Cora Graham, and she was born in Hill County, Texas, August 28, 1880, was married to B. J. Glover at Haskell, Texas, October 15, 1897. Eight children were born to this union, seven of whom survive. These are: Duncan, of Montana; Mrs. Ethel Rider, Gilliland, Texas; B. J. Jr., of Crowell; Mrs. Frances Withrow, Truscott, Texas; John and Fred, twin boys, and Helen, the baby girl, all at home here. Also the deceased is survived by six brothers, James, Bob, Will, Dee and Bert, all of Aspermont, Texas, and Rev. Felix Graham, a Nazarene minister, of Los Angeles, California, and by two sisters, Mrs. W. D. Dickenson, Fort Worth; and Mrs. J. M. Allen, Rochester, Texas. All these were present except James and Felix and Mrs. Dickenson. All the children were present at the funeral except Duncan, to whom a message had been sent, but from whom no response had been received at the time of the funeral. It was not thought that he could come, even had he received the message at once.

Mr. Glover and his family moved to Crowell in the year 1902, and for the most part made Crowell, the home thereafter.

Mrs. Glover was converted and joined the Methodist church at the age of 15 and was always thereafter a true and faithful member of the organization and lived a consistent and devoted Christian life. Her friends were numbered by her acquaintances.

Funeral services were held at the Methodist church Monday afternoon at 2 o'clock, conducted by Rev. W. I. Mayhew, pastor of the Methodist church, assisted by Rev. E. L. Mayfield, pastor of the Baptist church. The high esteem with which Mrs. Glover was held was evidenced by the very large congregation that assembled at the service and by the profuse floral offering as tokens of love and respect. Interment took place in the Crowell cemetery.

Chevrolet Caravan On Time Saturday

Allen Chevrolet Company were not just able to figure whether or not the big truck caravan would be here on time Saturday. Conditions had developed to interfere with the schedule as previously mapped out, and the date was necessarily changed, but even then, on account of rain and mud, it was not known for certain that it would reach Crowell as scheduled. It came, however, about 3 o'clock Saturday afternoon, as announced.

The local dealers were largely handicapped to carry out a program planned on account of a heavy rush of business Saturday afternoon, and then, too, the people in charge of the caravan were anxious to complete the trip and stayed here only a short time.

The contest in guessing at the number of the motor in the school truck resulted as follows: J. L. Moore got first prize, \$50 on a new Chevrolet; Mrs. D. B. Miller, second prize, \$25 on a new Chevrolet; and Clint White, third prize, \$25 on a new Chevrolet.

Man in Hospital Is Not John Teal

Sheriff L. D. Campbell, in answer to his request, has received from the sheriff of Los Angeles County, California, complete information about the man who is in the hospital in Los Angeles and he is convinced that he is not John Teal, wanted in Bailey County, Texas.

According to the information furnished by the sheriff, the man who is in the hospital has been reared in Southern California and has a family in that country. His name is Edward Teel, but the name is spelled differently from that of the man wanted here.

Remains of Jas. F. Witherspoon Buried In Quanah Last Friday

Jas. F. Witherspoon, who died Wednesday, October 5, 1927, at his home at 700 Mississippi St., Kern Place, El Paso, was laid to rest in the Quanah cemetery last Friday under the auspices of the Masonic Lodge, a number of Crowell Masons being present.

Mr. Witherspoon was born March 10, 1870, and was a pioneer citizen of Foard County, coming here when a young man and spending many years on the Witherspoon ranch south of town which was owned by his father, the late J. G. Witherspoon. Later he lived in Crowell for a number of years, then going to King County where he was employed by Burk Burnett as bookkeeper for his ranch in that county. He served four years as county judge while living in that county. From King County he and his wife moved to Quanah where Mrs. Witherspoon taught public school music in the Quanah schools, and two years ago they moved to El Paso where they were making their home at the time of his death.

The deceased had been in declining health for a number of years but since moving to El Paso his physical condition had improved wonderfully until about three months ago when his health again began to fail and death came very suddenly and unexpectedly.

He is survived by his wife, Mrs. Janie Witherspoon of El Paso, and one brother, Gordon Witherspoon, of Fort Worth, and a cousin, Mrs. Beatrice Chedister of Hollis, Oklahoma.

Vernon Driver Forces Bandit Car in Ditch

Vernon, Texas, Oct. 12.—Returning late at night from Crowell, where he had made some deliveries, M. C. McNight averted an attempted hold-up between Thalia and Rayland when he crashed the heavy truck he was driving into a sedan in which were four occupants, one of whom had drawn a gun and motioned him to stop. The sedan overturned in the ditch and McNight sped on toward Vernon without stopping.

He was carrying about \$160 which he had collected from his deliveries in Crowell and it is thought the men in the car knew this. The car drove up beside him several times before one of the men finally stepped out on the running board and with drawn gun ordered him to stop, McNight said.

Tax Rolls Will Soon Be Ready

Tax Assessor Claude Callaway advises the News that by the middle of next week the tax rolls will be ready to place in the hands of the collector.

Some have already made inquiry as to taxes but could not pay until the rolls are completed and approved by the commissioners.

We expect next week to publish a report of the assessor showing the amount of taxes to be collected, as well as the tax rate for the year.

MARRIED

Mr. Alton Nicholson and Miss Ledelle Shannon were married at the Baptist parsonage here Sunday night.

Mr. Nicholson is a son of Mr. and Mrs. J. L. Nicholson and is a member of the firm of Nicholson Bros., confectioners. The bride is a daughter of Mr. and Mrs. J. W. Shannon of Paducah.

Crowell will be the home of the newly weds and for the present they are taking rooms in the home of Mr. Nicholson's parents.

GINNERS REPORT

The Government report of ginnings in Foard County up to October 1, shows that this county had ginned 3007 bales, as against 1427 bales at the same date a year ago. The reader will note that we have twice as much cotton ginned now as we had a year ago.

This does not mean, of course, that the crop is greater, but that it is opening earlier. There is quite a lot of late cotton, which, if frost stays off long enough, may mature and make a considerable quantity, but that is uncertain.

U. Company Buys Lake Pauline and Will Build Plant

The West Texas Utilities Company have bought Lake Pauline, 5 miles southeast of Quanah, and will build a large steam turbine power plant at that place. Contract has already been made with the Myers Construction Company of Abilene to build the big \$3,000,000 plant.

The close proximity of the plant to the pipe lines running from the Panhandle oil fields to the coast will bring gas within reach of the plant for use as fuel.

For the service of the employees in the operation of the plant at the lake at least five modern homes will be constructed there. This will be the central plant for this section of West Texas and will be a valuable supplement to the service out of the plants at Cisco and Abilene, which, of course, strengthens protection against interruptions. The ideal location will also make it a favorable meeting place for employees from time to time in their associations, etc.

Nothing definite has yet been given out as to when the construction work is to start on the plant.

Returns from Visit To Georgia Home

F. L. Owenby returned Monday on the stage from a visit to Georgia where he had been visiting since August. He also visited at Murphy, N. C. Blairsville, Ga., was the point visited in his native state.

Mr. Owenby had a great trip and a fine visit, but he thinks he could not be contented to return to the old state to live the remainder of his life. While there have been many improvements along some lines, it is largely the same old state with much of the conditions prevailing that existed 20 years ago. Then, too, many of the old timers have passed away or moved out and practically a new generation has taken their place.

Like most every one, Mr. Owenby returns to Foard County more in love with the state of his adoption and is content to make this his home the balance of his life.

J. ROSS BELL

J. Ross Bell of Paducah Announces for Congress

J. Ross Bell of Paducah has authorized the announcement that he will seek the nomination for Congressman from the 18th Congressional District of Texas, subject to the action of the democratic primaries in 1928.

Mr. Bell is 33 years of age and a life-long democrat. He is a graduate of Cumberland University with the degree of Bachelor of Laws, and began the practice of law at Paducah seventeen years ago. During this time he was District Attorney for the Fifth Judicial District of Texas for eight years, having been elected to this position for four successive terms. He enjoys an extensive law practice throughout West Texas and has many friends and acquaintances who will doubtless welcome the opportunity to support him in his race for Congress. He had considerable solicitation from over the district to enter the race for this office two years ago, but only recently did he decide to make the race.

Mr. Bell will endeavor to see as many of the voters of the district as is possible. He says he will at a later date announce his platform which will contain among other matter which he deems of pressing importance to the people of this district and the country at large.

(a) Legislation by the Congress for the benefit of the agricultural interest of the country and in this connection the passage of laws prohibiting gambling in farm products.

(b) A further restriction of immigration into this country for certain classes.

(c) A curtailment of the present tendency to centralize government at Washington, and a return to the doctrine of State Rights.

(d) Non participation by the government in private business whereby the government becomes a competitor in private business enterprises.

(e) The enactment of laws whereby Congressmen will be prohibited from raising their own salaries without a submission of the matter to the people who pay such salaries.

(f) Federal aid in the conservation of the water power of West Texas.

Return from East Texas Visit Recently

Mr. and Mrs. John Meyers returned last week from a visit of several days to East Texas.

Mr. Meyers says he had a great time and while he was there engaged in one of the popular sports of East Texas, that of squirrel hunting. It would not do to let it get out as to how many squirrels he killed in one day because there is a limit. If we are properly informed it is one sack full, and Mr. Meyers went over that, according to his own story.

East Texas, he says, is in fine condition. The banks have plenty of money and the farmers have cut the cost of cropping to a minimum. Crop conditions in the black land section are not so good.

MARGARET SENIORS MEET

The senior class of Margaret High School held its second meeting Thursday, September 26th.

On that date at 3:00 o'clock the president, Emma Bradford, called the class to order and the minutes of the previous meeting were read by the secretary, Emma Kempf.

The class then decided upon the class motto, flower and colors, which were as follows: Motto, "Onward and Upward!" Colors, White and Gold; Flower, Rose.

The class then adjourned.

It is hoped the college freshmen took enough art in high school to be able to draw money from home.

Premium Quality at Regular Price

No advance in price has been made on new Pennant Gasoline, although the performance it delivers would justify a premium price. There is not only better performance to be had from new Pennant Gasoline but real mileage economy.

The same is true of Pennant Motor Oil. It too, is "balanced". It flows readily at starting temperatures, yet resists thinning by the intense heat of the motor when operating at high speed.

Watch for the green Pennant sign, drive in today, and try out both the "balanced" Pennant Gasoline and the "balanced" Pennant Motor Oil—premium quality at regular price.

FACTS

-AND THE OPEN MIND

THE MOST important element in business success—and the most difficult—is to be sure that you have all the facts before you act.

TO GET them all, from every possible source, is the first objective in General Motors. The Research Laboratories contribute some. These are nuggets, left in the crucible, after hundreds of ideas that looked good have been burned away. The Proving Ground contributes others. Dealers contribute. The public contributes. Every department contributes. Through the whole organization runs a spirit of inquiry and of rigid insistence on proof.

OUT OF such thinking come the new models announced from time to time by Chevrolet, Pontiac, Oldsmobile, Oakland, Buick, LaSalle, Cadillac—all with Fisher Bodies. And by Frigidaire. Each new model is a tested step forward. Nothing goes into it as a result of habit or guess or pride of opinion.

Nothing counts but hard-won facts, gathered and used with an open mind.

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter

Crowell, Texas, October 14, 1927

Governor Moody's action in refusing to commute the death sentence of A. V. Millikin to that of life imprisonment will doubtless meet the approval of the rank of Texas citizens who believe in the enforcement of law.

Two things are always true in advertising, you must have something that the public wants and must sell it at a price the public is willing to pay.

The News is glad to give space to the schools of the county for any school news of interest they may see fit to submit each week for publication.

Sometimes the more limited our money is the more inclined we may be to dispense it freely in order that we appear to have plenty, especially when we are out on a "lark."

MISCELLANEOUS SHOWER

Mrs. S. S. Bell opened her beautiful new home to a bevy of her friends when she honored Mrs. Gordon Bell, a recent bride, with a charming miscellaneous shower.

The guests were greeted at the door by the hostess, who presented them to the receiving line headed by Mrs. John Davis who presented the bride, Mrs. Gordon Bell, and the grandmothers of the groom, Misses Gordon and Bell.

A delightful program, including the following numbers, was given: A piano solo by Miss Mary Sam Crews, a reading by Mrs. I. T. Graves and a vocal solo by Mrs. Baxter Johnson.

A messenger delivered a telegram and a special delivery package for the bride. The telegram was read by Mrs. C. R. Ferguson and contained news of a coming shower and directed the bride to take refuge in the Bank of Crowell.

The dining room had been converted into a "Bank of Crowell" and when the doors were thrown open and the bride and guests invited in, it furnished many surprises for a beautiful array of gifts were "on deposit" for the bride.

West Texas Co. Have Patrolmen on Lines

Effective last week, Mr. McKay of the West Texas Utilities Company and his crew of Hot Wire Linemen with their two ton White truck fully equipped, started patrolling and maintaining the high lines in and out of Crowell.

Due to the ever existing danger of handling these high lines while they are hot with insulated sticks causes the company to call these men the suicide gang.

If your lights ever blink or go out you can bet your bottom dollar that this suicide crew together with the power plant men are doing every thing possible to give you perfect service and are on duty every minute of the year.

This crew sees every wire, every insulator, and every pole for one hundred and fifty miles around here and the rattle snakes that they have to battle with between here and Paducah is a thrill within itself.

Slowing Up?

Waste Poisons in the Blood Make One Tired and Inefficient.

Do you rise lame and stiff? Drag through the day, listless and depressed? Evening find you all worn out?

Have you given any thought to your kidneys?

Sluggish kidneys allow waste poisons to remain in the blood and make one tired and languid with often nagging backache, drowsy headaches and dizziness. A common warning of sluggish kidney action is scanty or burning secretions. Assist the kidneys with Doan's Pills.

Self will visit the sanitarium to consult physicians relative to their health. J. T. Carter will attend the fair.

Mr. and Mrs. V. A. Robinson of Post, Texas, were here last week visiting their daughter, Mrs. Otis Nicholson. Mr. Robinson expects to return to Crowell within the next week or two with a proposition to put up to the city for the buying of the city waterworks. He represents Chicago capitalists who are buying and operating municipal water plants in various sections of the country.

Mr. and Mrs. John Sollis and daughter, Miss Bessie, returned Monday from a visit to their old home in Grayson County where they attended a family reunion at the home of Mr. Sollis' father, B. L. Sollis, at White Mound last Sunday. All members of the family were present except Dave Sollis and family and two other grandchildren. They attended the Red River Fair at Sherman while there. Mr. Sollis reports crop conditions very poor in that country.

The Ways of the Real "HE" Man Away From Home

It's real comical to see men and boys, who, when at home have to ask permission of their women folks to go out in the yard to blow their nose, walk into a public place, looking for all the world as though they were lord of all they survey, and scatter scraps of paper, old cigarette stubs and quids of tobacco all over the floor, and decorate the walls and up in the corners with tobacco juice. That reminds one of the old style polka dot dresses the old maids and grass widows used to wear when they did their hair up with a red string. Enough said.

THE ADELPHIAN CLUB

Miss Inez Sloan was hostess to the Adelpian Club Wednesday afternoon, October 5th.
During the business session, Miss Emily Purcell and Mrs. Lawrence Kinsey were named as the committee to secure magazine subscriptions during the fall.

Mrs. M. S. Henry led an interesting lesson on Hugh Walpole and his novel, "The Cathedral." Interesting facts concerning the life of Walpole, and criticisms of his work were given by club members. Walpole is probably one of the most widely read present-day novelists. Because of the universal appeal of his themes and situations, he bids fair to be one of the lasting writers of this time. "The Cathedral" is considered by some critics as his strongest work. Its aim is three-fold: to give a history of a certain group of people; to be a comment on English life; and to offer a philosophy of life.

Refreshment plates containing shredded chicken, potato chips, olives, cake and iced tea were served by the hostess.

Mrs. J. L. Mayhew was present as guest for the afternoon.

WHAT'S DOING IN WEST TEXAS

(By West Texas Ch. of Commerce)

San Saba—Native varieties of pecans will have an even break with improved or cultivated nuts in the prize lists compiled for the first National Pecan Show to be held November 8 and 9 at San Saba, Texas. Premiums range as high as \$250 and none are less than \$25. Pecan growers of eight states are already taking active interest in the exhibition, and a large attendance is expected. The show is planned by pecan experts of A. & M. College and pecan growers of the South, with whom the San Saba Chamber of Commerce is co-operating.

Lamesa—Between 60 and 100 editors who are members of the West Texas Press Association will hold their annual convention at Lamesa, October 21 and 22. Secretary Wm. A. Wilson of the Lamesa Chamber of Commerce and others are completing arrangements for entertainment of delegates. The chamber of commerce is offering a prize of \$50 in gold for the best article on Lamesa and Dawson County prepared by an editor of the association visiting the convention.

De Leon—General headquarters for workmen on the Comanche County highway being hardsurfaced through the section are being maintained here. Work is to be completed by December.

Olton—The star mail route connecting Littlefield and Olton has been granted by the Postal Department, and became effective October 10. The new route is twenty and one-fifth miles long and will call for three weekly trips. The route has been sought for two years.

Hamlin—The Farm Bureau Cotton Gin is Hamlin's newest enterprise now open for business. It is a purely local business and operated on a business basis by members of the Farm Bureau Cotton Association.

McCamey—Pecos Cavern, situated on the lower bench of a small mesa near McCamey about half a mile off the Girvin road leading into the McCamey-Yates oil field, is being explored by local parties and exploited by them as a rival of the famed Carlsbad Caverns of New Mexico. Wonderful stalagmites and stalactites have been reported to exist.

Vernon—A scientific and industrial survey of Vernon and Wilbarger County is being sponsored by the Vernon Chamber of Commerce as a preliminary step toward a program of industrial expansion for this section. The report from the survey, which will cover agriculture, commerce, and industry, is expected about the first week of January 1928.

Lockney—The city of Lockney has employed a water superintendent who began duties October 1 to take care of the pump station, run the water works system, act as fire chief, read water meters, and look after other such related work.

Claude—The Armstrong County Poultry Association is working out a system of branding poultry of its members as a means of apprehending chicken thieves.

Coahoma—The local water works system is undergoing a thorough repair and remodeling job. A new tank of 6,250 gallons capacity is a part of the program.

MacDowell Club
Saturday afternoon, Oct. 8, the MacDowell Club met in the beautiful new home of Elizabeth Kincaid. After all business had been attended to a very good program was rendered. Lella Ben Allee sang "In a Little Spanish Town" accompanied by Frances Allison and Dessa Housouer on the ukelele. She also sang "Tonight You Belong to Me," accompanied by Frances Allison at piano. Mary Frances Self gave a very interesting opera and Evelyn Sloan gave a piano selection. After the program was brought to a close, we played interesting contests. Mrs. Kincaid and Miss Mary Nell Merriman were delightful guests for the afternoon.

Dainty refreshments were served. Our next meeting will be Oct. 29 at the home of Lella Ben Allee. All new members invited, ages 12 to 18.—Reporter.

SICKLY, PEEVISH CHILDREN
Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 36c., Sold by Fergeson Bros. and Reeder Drug Co.

DON'T LAUGH AT THIS

A magazine recently reprinted an editorial published in a Boston newspaper sixty-one years ago which commended the authorities for arresting one Joshua Coppersmith because he attempted to "extort funds from ignorant and superstitious people by exhibiting a device which he says will convey the human voice any distance over metallic wires so that it will be heard by the listener at the other end."

The Boston editor went on to say that this get-rich-quick schemer-called the instrument a "telephone" which was obviously intended to imitate the word "telegraph" and win the confidence of those who know of the success of the latter instrument without understanding the principles on which it is based.

The wise and far-seeing editor pointed out that well-informed people knew that it was impossible to transmit the human voice over wires as may be done with dots and dashes and signals of the Morse code and concluded by expressing the hope that the fate of this man might be an example to other conscienceless schemers who enrich themselves at the expense of their fellow creatures.

Within a decade after that incident Alexander Graham Bell proved to the world that what the Boston editor and everyone else thought couldn't be done, belonged in the realm of actuality, and today the telephone is only one of many inventions that have been devised for the use of man.

The moral is obvious. The person who closes his mind to new ideas has lost his usefulness. Of course, there are limits beyond which one cannot safely go in accepting things of recent origin at their face value, but to condemn them without a fair hearing is grossly unjust.

The Boston editor was writing his honest views, which were limited by the thought of the time. He was influenced by the same skepticism that prevailed when far-seeing men talked of flying like birds and of hearing sounds thousands of miles distant without the use of wires to transmit the sound.

We may smile in a supercilious way today when we read the editorial written more than a half century ago, but we must remember that though marvelous advancement has been made, all of us are hedged about by the same limitations that hampered the Boston editor. None of us dare forecast what the next half century has in store for mankind.

Thalia High School Cleanings

The Thalia boys' basket ball team is making a fine showing with about ten boys going out this season. For the past years our team has been handicapped, because they could not play during muddy weather and to improve this, with the aid of the faculty and the co-operation of the P. T. A., the team is planning to concrete the court, and then asphalt it. In order to carry out this plan they must raise funds to finance it, and to do this, they will give a carnival, which is being directed by Coach Thomas at the high school auditorium Friday evening, October 21.

Our basket ball girls played their first game of the season with Talmadge last week. The score was 22 to 14, in favor of the Thalia girls.

We are hoping for victory Friday evening, October 14, when our boys will go to Harrold to play their first game of the season.

The P. T. A. will meet Tuesday night, October 11. Among the many things that they plan to do for our school is the installing of a hot lunch counter and plans for same will be perfected at this meeting.

The faculty is giving a play, the date to be announced later. The title of this play is "Daddy," a comedy in three acts, directed by Mr. Thomas Vines, the principal. The cast of characters are, Mrs. Wrexson Brown, just like his fellow men, Mr. Vines, Teddy Brown, his son, pursuing football at college, Miss Mayfield, Paul Chester, a young doctor, Mr. C. A. Thomas, Thompson, the Browns' butler, Mr. J. B. Carter, Mrs. Wrexson Brown, just like her fellow women, Mrs. Mary Lynch, Nellie Brown, her daughter, a debutante, Miss Tommie French, Mrs. Chaester, Mrs. Thomas' sister, pursuing ill health at home, Miss Mattie Reid, Jane, the Browns' cook, Miss Ruth Grimm. The proceeds to be used by the P. T. A. in carrying out their plans for the betterment of the school.

The juniors and seniors and faculty went on a moonlight picnic Monday night, October 10, at Mule creek. After lunch many games were played. During the rest period stories and jokes were told. The picnic broke up with nine rabs for the seniors.—Reporter.

ODD FELLOW AND REBEKAH DAY AT DALLAS FAIR

In honor of an interstate contest to be held in Dallas Wednesday, October 19th, between the Champion degree teams of Pauls Valley Lodge No. 20, I. O. O. F., Paul's Valley, Okla., and Dallas Lodge No. 44, Dallas, Texas, which will bring thousands of Odd Fellows to Dallas to see the contest in Odd Fellow degree work, the State Fair has designated October 19th as Odd Fellow and Rebekah Day at the Fair. All Odd Fellows and Rebekahs in Texas and Oklahoma, with their families and friends are invited to attend the Fair at this time. Odd Fellows and Rebekahs, make your plans to attend. Talk to other Odd Fellows and Rebekahs of this great interstate contest and make up a delegation from each of your lodges and come. There will be something doing every minute you are in Dallas to entertain you.

A special session of the Grand Lodge of Texas I. O. O. F. will be held at 10 a. m. at the Odd Fellow building of Dallas Lodge No. 44 at 309 S. Pearl Street. Our Grand Master, C. A. Wheeler, has appointed a statewide committee to give this occasion publicity and Past Grand Master G. W. Backus, Vernon, Texas, was assigned this part of the jurisdiction.

There will also be a notable day at Ennis on Tuesday the 18th as the cornerstone for the new Old Folks Home at Ennis will be laid on that day. All Odd Fellows and Rebekahs who possibly can are requested to be present on this occasion.

BELL-WOOD WEDDING

The marriage of Mr. Gordon Bell of Crowell to Miss Estelle Wood of Uvalde, was solemnized at the Baptist church in that city on September 29th at 4:30 in the afternoon. The groom was accompanied to Uvalde by his father, T. N. Bell, and brother, Alton, the latter acting as best man in the wedding. Mrs. Wayne Fisher of Uvalde was matron of honor, wearing a blue afternoon dress with hat to match; the bridesmaid wore a blue dress with hat to match and silver shoes. Miss Hallie Beth Willingham, niece of the bride, was junior bridesmaid. Flower girls were Ann Kennedy and Sara Belle Smith. J. E. Willingham and Tete Brewster were ushers. All attendants carried colonial bouquets.

The bride was beautiful in a dress of blue, silver hat and silver shoes. The groom is the oldest son of Mr. and Mrs. T. N. Bell of this city and is connected with the Bank of Crowell. Mrs. Bell is the daughter of C. E. Wood of Uvalde.

The happy young couple spent a short honeymoon in Dallas on their way home, arriving in Crowell last Friday and are living at the Bell home in East Crowell.

Berlin Firemen Free

Entangled Swallow

Berlin.—The Berlin fire department, known in the largon of the street as the "maid for everything," recently performed a stunt which would gladden the heart of any humane society official.

Pedestrians passing a coffee shop on Krausenstrasse, in the center of the business district, noticed that a swallow was caught by the wing in the eaves-holdings. All the bird's efforts to free itself were vain. Some one turned in a fire alarm.

The fire department, which has caught swarming bees, helped people who have forgotten their keys and removed the debris after auto collisions, added a new page of honor to its record by restoring liberty to the frightened little swallow.

"I agree with George White that Luckies are the best"

Said Flo Brooks to Lou Holtz while waiting for their cue to appear in "Manhattan Story."

George White,
Producer of
George White's Scandals,
writes:

"In the theatre world, Luckies have become almost universal. Stage folks are very critical—voices must be kept in condition, throat irritation is a handicap. In 'George White's Scandals,' most actors and actresses whose voices are important smoke Luckies both for voice protection and finer flavor. For these reasons I prefer them, too."

You, too, will find that LUCKY STRIKES give the greatest pleasure—Mild and Mellow, the finest cigarettes you ever smoked. Made of the choicest tobaccos, properly aged and blended with great skill, and there is an extra process—"IT'S TOASTED"—no harshness, not a bit of bite.

"It's toasted"

No Throat Irritation—No Cough.
