The cooler the home, the warmer the marriage.

Marriages may be made in heaven, but it's hard to keep them heavenly when it's hotter than blazes.

That's where central gas air conditioning comes in. It can bring you together. All summer long. As close as you want. All summer long.

And it won't cost you much either. In fact, if you have gas heating in your home, you could easily have half a central air conditioning system already. Because you may be able to use the duct work and furnace blower you already have. That saves about fifty percent on installation costs.

That's just part of the savings. Gas costs less to operate than electricity. And gas air conditioning owners get special low rates during the long hot summer months.

But you'll save more than money with gas. You'll save time and energy, too. Because with central gas air conditioning there are fewer moving parts. Fewer breakdowns. Fewer repairs.

This summer, have central gas air conditioning installed. For love's sake.

See Your Gas Air Conditioning Dealer.

Warnie May Observes 92nd Birthday At Annual Family Reunion

OPLIN — A longtime resident of this community celebrated his 92nd birthday last weekend. Warnie May welcomed his children and many friends to his farm home, west of Oplin, for the celebration of this annual affair.

Family and friends gathered for barbecue, beans and basket lunches, tasty home made pies served for the noon meal, under the old blackjack trees. The celebration is hosted by the children of Mr. May: Mr. and Mrs. Jack May, Mr. and Mrs. Waldon May and Cotton May, all of the Oplin community. Mr. and Mrs. Slick May of Vega, Alton and Mutt May.

The old time cowboy looks forward each year when he can welcome his children, relatives and friends to his home once again for another birthday. His health remains rather good for his 92 years, and he can still sit under a tree all day and visit with an old-timer, as he did last Sunday. One of his visitors was Hackberry Johnson, who stages buffalo rodeos in New Mexico each year. He is another old timer who still makes many tracks for his age.

Mr. May can tell many interesting stories about his life here in the southern part of Callahan County. The very interesting part of his life is that for the most part, things have not changed — a welcome to his land, a handshake for an old friend, a yard full of grandchildren, and many things remain the same in this life that has had the opportunity to change. However, he chose to keep his way of life the same as it has been for many years.

WHY DO WE STAND WHEN THE FLAG GOES BY?

(Note to Editors: With July 4 upcoming, the following patriotic release may be of interest. It was prepared by Reagan Brown, sociologist with the Texas Agricultural Extension Service, after he heard a young boy ask his dad, "Why do we stand when the flag goes by?")

COLLEGE STATION — At Texas A&M University home football games, the Corps of Cadets always march in to the music of the Aggie Band. At one of these events, recently, I heard a young boy ask his Dad, "Why do the people stand up when the flag goes by?" I didn't hear the father's answer but I began to wonder how I would have answered him.

I think I would have begun by pointing to the live oak trees around the university drill field planted in memory of Texas A&M University students who gave their lives in World War I. After the game I would have taken him by the Memorial Student Center built in memory of over 900 Aggies, the names are on a bronze plaque at the entrance. They gave their lives in the World Wars and those since, I would also have pointed out other memorials on the campus, those that remind us of sacrifices in the most recent wars.

Later, when I could have a quiet time with him, I would talk about Concord's Bridge, Shenandoah Valley, Flanders Field, St. Lo, Guadalcanal, Bastogne, Korea, and Viet Nam. I would mention to him my young Aggie friend, James Ray, '6 of Conroe, who has been a prisoner of North Viet Nam for more than five years. And, of course, all the other young men imprisoned over there.

I would then talk of what our flag represents, what kind of country it flies over. I would remind him that America is the land of the refugee, the land of "the huddled masses longing to be free," and a land dedicated to justice, tranquility, and the general welfare of its people.

I would tell him of the average man and women and the hundreds who have conquered the mountains, prairies, and plains. I would discuss with him how the very lines of the maps have been marked by the blood of hundreds who plowed and planted and fought and planned, and whose offspring have poured their abundance around the world to lift others. Then I would talk of the slant eyes, black faces, Nordic color, Irish enthusiasm, Italian grace, German laughter, Baptists, Catholics, Methodists, Texans, Yankees, Republicans, Democrats, and a thousand and one other tall, short, fat and thin people who call themselves Americans.

We would discuss the "land of the free," "home of the brave," the opportunity to climb the ladder of success according

to ability and desire. Then we would talk of the philosophy of "how you play the game" and about "not who your Mama or Papa is," but what's your "life game plan." I would remind him how each man can worship God as he pleases, sing, whistle, dance, and cheer as his conscience dictates. Next we would discuss our responsibility to our neighbor, to our environment, to the minority, sick, lame, orphan, and those in their golden years.

Yes, as I thought about how I could answer, as I began to enumerate why we stand when the flag goes by, I caught myself standing there in the quietness of my office. The thoughts caught me up in a reverent respect and I wanted to cry out how much I love the land that has done so much for me. I thought of the nine boys in our company, Company G, 272 Infantry, 69th Division, two of them black, who were killed in World War II. I thought of all the schools, jobs, homes, hospitals, and families that make our country not perfect, but far ahead of any other country in the world.

That is the reason why we stand, my boy. So we can get a good look at the red, white and blue as it passes by, representing all of those sacrifices, all those hopes, all of those things we want for future Americans. This flag going by gives you the privilege to keep sitting, if you want to. But if you are part of the fabric of those who have made it possible for you to rise up in respect, you by your actions will trigger a standing ovation. So stand tall when the flag goes by, so it can always pass your way again.

Clyde Fire Dept. Needs Donations

CLYDE — The Clyde Volunteer Fire Department is a volunteer organization supported mainly by donations from those they serve. Members are local citizens interested in the welfare of the community. Funds are almost depleted and a request for your support is being made, in order that they may continue to serve you with fire protection.

Funds received by the Department are used to maintain and operate fire and safety equipment, replace wornout equipment, provide training for new members who are sent for fire fighting training. This training helps lower the key rate and lowers the cost of fire insurance for home owners in the community.

The Department is working on plans for additional housing on the south side of the railroad for some of the trucks, in order to better serve the area, and this will also lower the key rate for residents.

The Department expresses their appreciation for your past support, and are sure they can depend on you to help maintain this very important service.

Your contribution is tax deductible, send it to Clyde Volunteer Fire Department, Clyde, Texas.
