Christmas for Poor Planned By Rotarians

Plans for providing for Crowell's needy families this Christmas were perfected at the luncheon of the Rotary Club Wednesday. General plans for this cause were discussed and President M. S. Henry appointed a committee composed of Leo Spencer, chairman, Eli Smith and Russell Beverly to arrange the finances in a general Good Fellow's fund to which any one in Foard County may contribute. Over seventy dollars has already been contributed to the fund by Rotarians.

T. B. Richmond announced at the luncheon that he would further assist by giving a benefit show Friday night. A committee composed of W. F. Kirkpatrick, Will Womack, H. Schindler and Tom Reeder was appointed to work with the church that each represented, on this cause. This committee will report at the next luncheon the approximate number of families in need and the proper procedure of caring for them.

Mrs. Adolphus Wright and Mrs. A. L. Rucker furnished special musical numbers at the luncheon.

Three Die in Train Wreck Near Dalhart

Two engineers and a fireman were killed and nine persons were injured Sunday morning at 2 o'clock when southbound passenger train No. 2 and a freight train had a head-on collision one and a half miles south of Dalhart on the Fort Worth & Denver Railway.

The dead are: D. W. Robertson of Childress, passenger train engineer; and T. W. Moselworth, Amarillo, freight train engineer, Dave J. Lynch, fireman.

Injured members of the train crew: L. O. Ross, fireman, Amarillo; C. L. Roberts, brakeman; C. W. Moore, Pullman porter, Dallas; W. Jones, Pullman porter, Dallas, and five others suffered minor injuries.

Ross, most seriously injured of the nine, will recover, Dalhart hospital authorities announced this morning.

The collision occurred when the passenger train met the freight train. Officials said the freight train was supposed to have been on a siding when the passenger train passed.

Both locomotives were reduced to junk and fourteen cars of the freight train, the baggage and mail cars and a special car were burned when a gasoline tank car exploded.

The wrecked passenger train was scheduled to arrive in Vernon at 10:14 a. m. Sunday. Passengers were transferred to train No. 8 at Dalhart and the train arrived in Vernon at 6:20 p. m. yesterday. Trains leaving here yesterday were detoured from Amarillo to Dalhart by way of Tucumcari, N. M., over the Rock Island.—Vernon Daily Record.

Crowell Man's Brother Hurt at Breckenridge 13th

Foy Rickard of Breckenridge was seriously injured Thursday of last week when a tractor slipped into gear and ran over the man, breaking one of his legs, crushing a hip and fracturing two ribs.

His brother, Joe Rickard, of Crowell went to see his brother Sunday, returning Monday. He stated that at first it was feared his brother was fatally injured, but that he is now doing all right and he is expected to recover.

GETS FOOT HURT

J. R. Edgin is carrying a pretty sore foot as a result of having dropped a plow beam on it several days ago, mashing the foot badly. For a couple of days the wound pained him severely but he is now getting back to normal and is at work at his shop.

Beats Last Year's Record on Ginning

Last season the News had a little article about the Thalia Gin ginning 50 bales in one day for John Ray. This season the same gin has beat that record slightly, according to George Doty, manager of the gin. Wednesday of this week Mr. Doty ginned 56 bales for Mr. Ray.

Crowell Basketball Team Wins 2 Out of 3

Crowell High School's basketball team journeyed to Childress County last week end and took on three of that county's best teams for practice tilts. The Crowell boys did well winning from Kirkland 14 to 13, and drubbing Childress to the tune of 26 to 13, but they dropped their game to Carey 14 to 15 after tying the game. Middleton for Crowell and McMinn for Kirkland looked the best in the game with Kirkland Saturday afternoon. G. Todd for Crowell and Weathered for Carey stood out in the game at Carey Friday night. While Harper for Crowell and Boyd for Childress were the most prominent in the Childress tilt Saturday night. These games make three out of four won for the Crowell boys.

Kirkland comes to Crowell for a return game Saturday night. The game will be played at 7 o'clock in the school gymnasium. The fact that Kirkland always puts out a good team as was indicated two years ago when they won third place in the state, and that they were nosed out by one point at Kirkland last Saturday the public is assured of a good game. The admission for these games is only 25c and 15c. Vernon comes here for a game Friday night, December 21.

Santa Fe R. R. Co. Installs Sanitary Equipment on Trains

The Santa Fe Railway Company, formerly the Orient R. R., have installed new sanitary equipment in all their passenger and baggage cars, according to Mr. J. M. Dalbey, chief. The new sanitary equipment installed in the trains will be of the best fixtures obtainable, and will add to the fine service which they are making an effort to offer.

The Santa Fe R. R. Co. purchased the stock of the Orient Railway Co. some time ago and are making changes so that they may be able to give a better service. This line hopes, within the near future, to be able to extend their road to Mexico.—Chillicothe News.

Help Advertise Foard County

Some weeks ago the chamber of commerce had printed a lot of folders advertising the resources of this county and Mack Boswell, secretary of the chamber, wants people to help distribute these folders where they will do the most good. They contain in a condensed form a great amount of information. It is not booster stuff, but actual facts that will be worth much to the prospective investor.

The intention is not to distribute these among people just to get rid of them but to place them where they will actually do good. So Mr. Boswell would like for citizens in Crowell and Foard County to take them and send them out to people who you think might be induced to come to Foard County and invest here. It would be an easy matter to drop one of these in an envelope and send it to some person who might be interested. It is a very effective way of distributing literature.

These are beautiful folders and will make a favorable impression on people who have their eyes turned toward this country.

OFFICIAL COUNT GIVES HOOVER GOOD MAJORITY

Austin, Dec. 8.—(AP)—Herbert Hoover received a popular majority of 26,799 votes in Texas, according to official tabulation of votes announced today by Secretary of State Jane Y. McCallum.

Hoover received 367,036 votes, and Smith 340,237. The Communist party candidate received 131, and the Socialist candidate 722.

L. P. H. Club

On Monday evening, December 10, a group of girls met at the home of Miss Lottie Russell for the purpose of organizing a bridge club. Mildred Nicholson was elected president, and Gusta Mae Davis, reporter. The membership of the club includes Misses Mildred Nicholson, Bernice Schlagal, Lottie Russell, Florence Griffith, Jessie Dell Ricks, Althea Saunders, Cornelia Beidleman and Gusta Mae Davis.

The next meeting will be with Miss Cornelia Beidleman on Dec. 17.—Reporter.

Rialto Will Give Benefit Show for Xmas Fund Fri.

The Rialto Theatre has offered its assistance in adding to the Christmas fund for the needy by offering a benefit show Friday night when a liberal part of the funds taken in that night will be turned over to the committee in charge of finance. T. B. Richmond, manager of the theatre, made this announcement at the luncheon of the Rotary Club Wednesday when arrangements were perfected to furnish Christmas cheer for the needy families of Crowell.

One of the best pictures of the year will be shown Friday night at the regular prices and those attending will not only be assured of excellent entertainment but will also be helping to cheer the heart of some needy person this Christmas. The name of the picture is "Power" and has a strong cast and all other features that go to make a good motion picture. William Boyd, Jacqueline Logan and Alan Hale are the featured players of this thrilling picture. The principal part of the story takes place in the vicinity where a huge dam is being constructed, and a number of exciting scenes are enacted high in the air. Dams and dames are the sole cares of the two pals that are the principal players in the picture.

Crowell Girl to Represent T. W. C. Nat'l. Convention

It is an item of glad news to the friends of Miss Dorothy Hinds of Crowell, who is now a student in the T. W. C., Fort Worth, to know that she has been appointed as a representative from that institution to the National Convention of the Y. W. C. A. to be held in Memphis, Tenn., from January 1 to 4, 1929.

Miss Hinds is one of five students selected out of more than three hundred girls to go to represent T. W. C. She has also been appointed from that college as a Sunday School teacher at the Wesley House in Fort Worth, which is a charitable work of the Methodist church. She teaches a class of Mexicans in intermediate grade work.

Miss Hinds is in her freshman year at T. W. C., having graduated in the Crowell High School last term. Crowell people are glad to know that she, with others from our town, are making good in their college work.

Santa Fe Company Ballasting Orient

The Santa Fe Company is now ballasting its newly acquired property known as the Orient. The work is going on on the line near San Angelo, quite a stretch having already been completed. It is said the company intends to ballast the entire line to Wichita, Kansas.

The material is procured in the Sweetwater section of the country.

Over 7,000 Bales Have Been Ginned

According to the government report of the cotton ginned in this county, we have had up to Dec. 1, 7,521 bales, as compared with 17,520 at the same time last year.

There should be at the present time 8,000 or more. There is every reason to believe that we shall get at least 9,000 bales before the season is over, which is 3,000 more than the highest estimate at the opening of the season.

MARRIAGE LICENSE

November 27—E. Williams to Mrs. Ethel May Lookingvill.

December 1—George Riethmayer to Clara Lowke.

December 1—Alexander Endate Oliver to Allie Shultz.

December 3—Claudius Carroll to Venetia Sansing.

December 4—Jim Vasser to Flora Arnold.

December 6—Goldis Davis to Irene Wright.

December 8—Roscoe Pierce to Katie Connors.

December 10—Ben Lowke to Lydia Berk.

Floyd County is to have its annual poultry show on December 10th.

Window Contest Plans Complete For Friday Night

Thirty-seven business firms of Crowell are entered in the Christmas Window Contest that will begin Friday night at 7 o'clock. Most of the windows in town have been decorated and arrangements are practically complete for the opening of this contest in which thirty cash prizes, amounting to fifty dollars will be given for the first thirty complete answers turned into the chamber of commerce. The contest will open at 7 p. m. Friday night and will close at 5 p. m. Wednesday.

Practically every business firm in town is entered in the contest and their names appear on the circular blank appearing on page 8 of this paper. Each window in the contest will have one of the letters appearing on the ballot in their window, and some of the letters will be formed with merchandise, in the decorations and other forms. The sentence of 37 letters "Crowell Christmas Window Shopping Contest," representing one letter for each firm represented in the contest, appears on the blank in vertical form and the name of each merchant and any two articles in his window is to be written on the side of the letter that appears in his window.

The contest not only affords the public the opportunity of viewing the attractive windows but also gives the opportunity of turning the pleasure of window shopping into cash. Many of the merchants will keep their stores open at night from Friday until Christmas for the convenience of Christmas shoppers who find it inconvenient to shop in the day time.

Full rules for the window contest are given on the blank in this paper which may be cut out and used in the contest.

Lee Highway Meeting Held at Ardmore

Over one hundred and fifty delegates were present at a meeting of the Arkansas-Oklahoma-Texas-New Mexico division of the Lee Highway in Ardmore, Okla., last Thursday. The principal purpose of the meeting was to formulate plans for meeting competition with the Broadway of America, a route which follows that of the Lee Highway across the nation, except from Hot Springs, Arkansas, to El Paso, where it breaks off and goes through Dallas, Fort Worth and Abilene to El Paso, Texas cities on the Broadway of America are strongly pushing this route and Crowell and other cities on this division of the Lee Highway are losing much traffic that can be brought over the Lee Highway if sufficient effort is made to secure this travel.

It was pointed out at the meeting that only a few counties across the nation on Lee Highway are unpaved and that prospects are bright for the whole route being paved within a few years. Dr. S. M. Johnson of Washington, general director of the Lee Highway, was present at the meeting in which this division of the Lee Highway was organized.

Roy Johnson of Ardmore, former highway commissioner of Oklahoma and now a prominent oil operator of Oklahoma, was elected president of this division. Peyton B. Randolph of Plainview, was elected the Texas vice president and Clarence Self was elected the Foard County director of the association.

Mack Boswell attended the meeting from Crowell.

CATTLE SHIPMENTS

J. W. Bell shipped a car of cattle up from his ranch in Southwest Texas Thursday of last week to be put on grass here. Mr. Bell also shipped two cars of fat cattle to Fort Worth, and Sam Russell also shipped one car to the same market Saturday of last week. These were going to market.

According to the Floyd County Hesperian, the Floydada High School has met the requirements necessary to admit that school into the Association of Secondary Schools and Colleges of the Southern States.

Walter Cates and family were here from their home near Canyon part of last week visiting relatives. They returned home Sunday.

Another Claim to World's Deepest Well

Santa Rita, Texas, Dec. 10, 1928. Messrs. Kimsey & Klepper, Publishers of Foard County News. Dear Friends:

As I was reading last week's issue of the Foard County News, I noticed an article headed, "The World's Deepest Well at Texon."

After reading said article I feel it my duty to Santa Rita to state that our very dear friend, Mr. Edgar Kimsey of Texon, Texas, overstepped his boundary line. The deepest well in the world is not located at Texon, Texas, and does not belong to the Big Lake Oil Company. But listen to Santa Rita. She's on the map now. Yes, sir, the world's deepest oil well belongs to and was drilled by Group No. 1 Oil Corporation, or in other words, the Texon Oil and Land Company, and is located on their holdings at Santa Rita.

This well is certainly a novelty down in this part of Texas, one of which all the world, especially Texas, should be, and is justly proud to own. It is 8,525 feet deep and continues to flow itself with the clearest oil any one has ever seen coming out of the ground. I am mailing you a small sample so you may see what it actually looks like as it comes from the well. Don't mistake it for bootleg whiskey just because it is colored that way, for it's an honest-to-God sample. It is hard to believe that Texas has an oil well producing such high grade oil. It tests 67 per cent gasoline and is doing better all the time. Today's production was 635 barrels oil. Gas increased to ten million eight hundred and eighty-nine thousand cubic feet. Up to this time we have had to burn what is known as sour gas which filled this place with stinging and disagreeable odor at all times. Some nights we would awaken absolutely smothering, but now, thanks to B1, "The World's Wonder Well," we have good pure sweet gas to burn.

Yours truly,

C. E. BALL,

Box 1102, Best, Texas.

Weighed 3,334 Bales Up to December 10

Last season Public Weigher George Allison weighed more than 13,000 bales of cotton at the yard here, but he does not expect to get more than a third that many bales this season.

Up to Monday of this week he had weighed 3,334 bales and says he expects to get about a thousand bales more. But even with that shortage of weights as compared with last year's, 4,000 bales will be mighty good for the present season. About the time the season opened it was predicted by some that not more than 4,000 bales would be ginned in the county. It looks like we might have twice that amount when the last bale is ginned in the county.

COMMUNITY CLUB

Mrs. Jim Cates was hostess to an especially beneficial meeting on Dec. 5. Roll call was answered with "gems of behavior."

Mrs. Roy C. Steele conducted the lesson on "the well-being of children," and gave the mental and physical causes of unbalanced personality.

Mrs. J. R. Moody in discussing "how to cultivate morals and manners" stressed the importance of the parents being good models. She also showed how morals are an outgrowth of manners.

Mrs. Hubert Brown very ably discussed "objectives and attitudes." She brought out how education should not only provide for the making of a living but also the living happily with one's fellowman.

At the close of the lesson the members and guests enjoyed a Christmas contest and a humorous reading. Also Mrs. Herman Gentry, one of our most efficient members, recited a quaint poem presenting Mrs. Hubert Brown with gifts from the club honoring her service as our president.

A cleverly arranged plate was passed to members and Mesdames E. F. Steele, T. J. Cates, Agnes McLaughlin, Arrie Bell, Emily Wood, P. D. Mosely, Thomas Hughston and Miss Una Miller.—Reporter.

Dr. and Mrs. H. Schindler and Mrs. J. R. Beverly returned Saturday from Dallas where they spent the week. Mrs. Beverly visited in McKinney with friends and also visited a brother in Mabank.

New Kingdom of Cotton Described by Marvin Jones

Following are some extracts taken from a speech made by Hon. Marvin Jones in the House of Representatives Dec. 6, 1928:

Raw cotton being fed into long rows of machines and coming out a product that looks, feels and wears like silk was described as one of the miracles of modern industrial chemistry by Congressman Marvin Jones of Texas, in the House today.

The House listened with much interest to Mr. Jones' description of the great plant at Elizabethton, Tennessee, where this work is now being done.

For several years Mr. Jones has been interested in the finding of new uses for cotton and is the author of the law which authorizes permanent investigation of new uses by the departments of Commerce and Agriculture.

"The process of silk making is attributed to a Chinese Empress in the year 2640 B. C.," said Mr. Jones. The silk worm eats mulberry leaves, spins a cocoon, which contains a silk thread several hundred yards long. This is unwound by hand and woven into cloth.

"For three thousand years China guarded the precious secret. Tradition has it that the eggs of worms and the seeds of the mulberry tree were carried out of China in a hollow bamboo cane. But the west could not rival the cheap labor of the Orient, and for years China and Japan have been selling the United States more than \$400,000,000 worth of silk annually.

"A noted chemist after years of toil has discovered a process similar to that used in the making of the original silk thread.

"The plant where this new product is being made represents an investment of \$20,000,000 is run night and day, employs 2500 people and a new unit is now being installed.

"It uses cotton 'linters,' breaks down the structure, mixes it with chemicals, forces it through the long processing machines, from which it emerges in long silken strands, from which a cloth is woven that requires an expert to distinguish from silk. It is not rayon, which is made from wood pulp and plant fibre but a much finer appearing fabric.

"This is real farm relief. If money is merely loaned to take a million bales of cotton off the market, it must come back on at a later date to again depress the price. But when a new use is found for even a hundred thousand bales, it is taken permanently off the market, which necessarily enhances the price of cotton.

"The South has within her own borders and at her own threshold," said Mr. Jones, "the raw materials for the building of a wonderful prosperity. She has the climate and the power, and her people have the determination to translate these resources into her own development. She is building her own plants and with the strength and sinew of her own fibre, in the loom of her own genius and with the industry of her own hands, she is weaving the garment of her future glory."

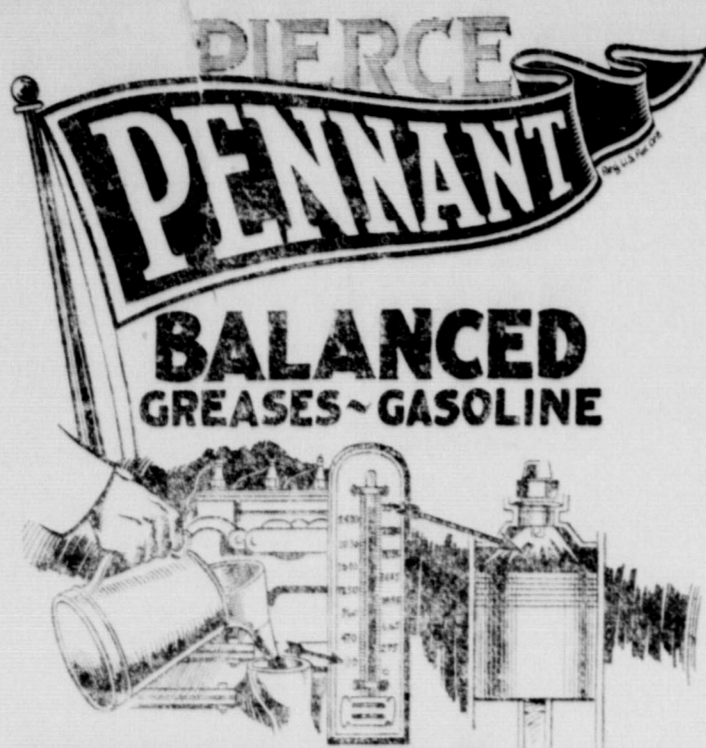

Little Theatre Club Presented Play Mon.

The meeting Monday night of Crowell's Little Theatre Club was well attended and a one-act play, "The Man in the Bowler Hat," was given for the entertainment and study of members. Mrs. Lawrence Kimsey staged the play and was also a member of the cast which presented the play in an excellent manner.

Jimmie Cotten represented the "Man in the Bowler Hat" and Floyd Thomas and Glynn Shults acted as villains. Rob Cooper and Mrs. Kimsey portrayed the part of the disgruntled married couple and Marion Cheek and Doyle Kenner represented the heroine and hero, respectively.

A number of people made application to join the Little Theatre Club at the meeting. The meeting closed following the interpretation of a certain part of a new play by various couples selected from the audience by Thelma Shaw.

It was decided to not give a performance of the club until after the first of the year.

with bronze colored nut baskets marked the places. In one corner of the room was arranged an artificial camp-fire which helped to furnish the light, sending an autumn glow over the entire room.

The guests and hostesses assembled in the hall of the first floor, until time for serving. Eighteen young people gaily dressed and with glad hearts ascended the stairs. The program for the evening was started by a fitting toast "To Thanksgiving," given by Leoma Knox. After the first course Eva Todd gave a clever toast, "Welcome Guests." Between the second and third courses the party was amused by a graceful dance that Charles Ferguson rendered. Between the third and fourth courses passing jokes and touches of humor were given in a gossip form. All four courses were in color harmonizing with autumn. Music was enjoyed through the entire program. The social hour consisted of telling jokes, contests, special music and individual dances.

Included in the guest list were, Messrs. Vance Swaim, Robert Hudson, J. F. Waldron, Jr., Charles Ferguson, Ernest Spears, Ernest Johnson, Jack Welch and Bill Bell.

Hostesses: Misses Elizabeth West, Eva Todd, Opal Barry, Leoma Knox, Bernice Webb, Edith Schooley, Vergie Callaway, Nola Bradford, Arrie Fleeta Beidleman, Lucille Welch, Elsie Faye Roark, and Mary Ragland Thompson.—Contributed.

GOD REST YOU MERRY GENTLEMEN

And Now Comes CHRISTMAS--

with its spirit of festivity and Good Will. Let's make it the happiest ever—for yourselves and others—by doing our Christmas shopping early this year. It is a pleasure to "shop early"—but it becomes a duty at the last minute.

We have the loveliest line of gift goods in our history—and the most remarkable prices. An opportunity to save—and a pleasant time to shop!

There isn't a person on your list that you cannot find a suitable gift for here. Practical things and frivolous things, as your fancy runs. And we will MAKE it pleasant for you to shop here! We have everything to make your package attractive, and we will be glad to wrap them for mailing.

Beginning Friday Night, the 14th, we will be open nights for your convenience.

Blaw & Rosenthal

'TIS THE MERRY CHRISTMAS TIME

week visiting her sister, Mrs. Sam Seales.

W. B. Durham left Wednesday morning for a business trip to Littlefield.

M. J. Phillips and daughter, Miss Della, of Olton visited friends and relatives here Saturday night and Sunday.

Mr. Hartman spent last week-end in Decatur visiting relatives.

Eric Wheeler and family and W. Tarver and family visited J. B. R. Fox near Margaret Sunday. Mr. Fox has been quite ill for several days.

Mrs. Jay Phillips and children of Littlefield visited her mother, Mrs. J. K. Langley, here last week.

Mrs. Truett Neill and Mrs. C. H. Wood were visitors in the Leo Hlavaty home in Vernon Thursday night of last week.

Mr. and Mrs. Hugh Jones of Fargo visited relatives here Sunday.

Mrs. J. C. Jones and children visited her parents, Rev. and Mrs. Frank McNair, in Lockett last week.

C. B. Morris and family and Mr. and Mrs. J. R. Morris went to Fort Worth Wednesday of last week. C. B. and family returned home Thursday, but Mr. and Mrs. J. R. Morris will visit there for several weeks.

Mrs. W. E. Latham of Electra visited her sister, Mrs. J. A. Stovall, from Monday till Wednesday afternoon. She was accompanied to Vernon by Mrs. Stovall and Miss Louise Stovall.

The Lockett B. Y. P. U. put on a program at the Baptist church Sunday afternoon. It was pronounced a success by the large number who attended.

Mrs. T. M. Haney was hostess to the Idle Hour Club last Thursday afternoon. The guests for the afternoon were Mesdames John Rasor of Crowell and E. V. Cato and C. D. Haney. After the club all the members and several other guests went to the home of Mrs. Ray Pyle where a miscellaneous shower was given for the recent bride, Mrs. Eudale Oliver. She received many handsome gifts.

"WINGS" HERE

Lovers of movies, especially those who appreciate the highest class of pictures, are now having the opportunity of seeing "Wings," a Paramount picture shown on the screen at the Rialto Thursday and Friday nights of this week.

This is a picture that wins the praise of people in the larger cities. One magazine writer says: "Wings will do more towards the education of the general public in aviation than any other factor we have yet had."

Not only is the picture one possessing educational value, but is full of thrills throughout and has plenty

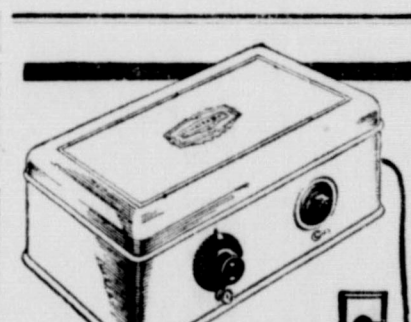

of romance.

The Baltimore Sun says: "You have had your big super-supers of the army, the marines and the navy. But the thrills you got out of the whole trio will be as a tap on the wrist compared to the overwhelming wallop that 'Wings' is going to hand you."

The Boston Herald says: "After seeing 'Wings' one probably will go dashing through the clouds for months without being able to help it or come to earth."

Other favorable comments come from the Chicago Daily News, Tribune and Post and many others.

Judging from the favorable press comments of the country "Wings" is one of the truly great pictures now being put on the screen and it is our privilege to see it right at home.

ter.

Crowell, Texas, December 1928

When we plebeians read of a man with a long list of college degrees running an elevator for a living, as reported in a news item from Chicago the other day, we are inclined to doubt the statistics that tell us about the

glories of higher education.—
Vernon Record.

But that was one way the fellow could get newspaper publicity. Lots of folks get into news columns because they pull some unusual stunt. That fellow who rolled the peanut 11 miles with his nose also got his picture in the paper and no doubt he feels amply paid for the performance of that task. We see where a young lady is defraying her expenses in a college by taking the job of bootblack in a barbershop. Fine looking young lady, she is. It is doubtful if she is forced to black shoes and in all probability she would not do it if the papers had nothing to say about it.

VIVIAN

(By Special Correspondent)

Mr. and Mrs. Charlie Carroll and family and Mr. and Mrs. Claudia Carroll of Gambelville spent Sunday in the home of Mr. and Mrs. Hubert Carroll.

Mr. and Mrs. Lewis Whatley, Beno Whatley and Miss Aline Woodard of Wichita Falls spent Sunday with Mr. and Mrs. J. E. Whatley.

Mrs. J. E. Fish returned home Saturday after spending several days with her son, H. H. Fish, of Paducah.

Mr. and Mrs. Jno. P. Walling and family returned home Thursday of last week after spending several days with relatives in Gainesville.

Miss Irene Patton spent the weekend with her parents, Mr. and Mrs. T. S. Patton, of Crowell.

Miss Lucile Davis of Paducah spent several days of last week visiting Miss Effie McLaren.

Mr. Martin and daughter, Jimmie Ruth, of Wichita Falls visited in the home of Mr. and Mrs. J. E. Whatley Sunday.

Misses Gracie and Ceigal Carroll of Brownfield are here visiting relatives.

visit our showroom and secure complete and detailed information regarding this great new car, which will be ready for delivery beginning January 1st.

Other Outstanding Features

- New heavier crankshaft statically and dynamically balanced.
- New hot-spot manifold.
- New AC gasoline pump with filter.
- New carburetor with accelerating pump.
- New larger chromium plated brass radiator shell.
- New type thermostat cooling system control.
- New two-beam headlights with foot button control.
- New parking lights inside headlights.
- New theft-proof Delco-Remy Electrolock.
- New semi-automatic spark control.
- New flat type, slender rim steering wheel with large horn button in center.
- Beautiful new Fisher bodies. Chromium plated radiator. AC gasoline pump and filter. Hot-spot intake manifold. Adjustable driver's seat in all closed bodies.
- Water temperature indicator on dash.
- Semi-elliptic shock-absorbing springs.
- New 4-wheel brakes, safe—positive—quiet.

The Outstanding Chevrolet has a marvelous new six-cylinder, valve-in-head engine whose perfected design represents over four years of development and testing on the part of Chevrolet and General Motors engineers. It has numerous advancements typified by a non-detonating, high-compression cylinder head—gasoline pump with filter, and automatic rocker arm lubrication. It provides performance the like of which was never before available in the low-price field—marvelous smoothness, tremendous reserve power, and sensationally swift acceleration—all with an economy averaging better than 20 miles to the gallon of gasoline!

Its marvelous new Fisher bodies display a new order of beauty, smartness and luxury.

Additional new features by the score—each an impressive example of automotive progress—contribute to outstanding performance, quiet operation, long life, ease of control and economical ownership.

We cordially invite you to

If We Haven't It—Who Has?

METHODIST CHURCH

The public is invited to attend the following services Sunday at the Methodist church.

Church school at 10 o'clock with special arrangements for worship and facilities for Bible study.

The most convenient hour during the Sabbath has been fixed upon for this school. Recitation rooms, equipment, specially trained teachers in all departments, have been provided. Faithful attendance on the part of all the members of the school is urged and we solicit those who are not members of any school in town to attend ours and find a welcome among us.

Worship at 11 a. m. and 6:45 p. m. We would like to see more of our people at the services of the church. Regular attendance is a good habit and one that should be cultivated.

Junior church services at 11 o'clock. The boys and girls from 7 to 14 years of age are invited to attend this special service.

Young people's meeting at 6 p.m. The regular evening worship in order that all of them may be at liberty to attend. They may make a great contribution to the success of the evening services.

Our first quarterly conference will be held next Wednesday, December 19, 7 p. m.

W. R. McCARTER.

No trespassing—Positively no fishing, hunting or trespassing of any kind will be allowed on the Halsell ranch.—Furd Halsell and Son. tf

Fishermen Distinguish Between Fish Schools

Gloucester, Mass.—An inlander watching a fisherman about his work might credit him with a sixth sense in his uncanny ability to tell whether a school of fish is composed of mackerel or porgies or herring. But it is really simple.

Old fishermen watch the water. If the fish rush along the surface in a body they are mackerel. If they merely ripple the surface in the manner observed when a moving body of water impinges against a counter-current they are porgies or herring.

Veteran seiners nearly always refer to a school of fish as a "pod." Therefore, "We sot 'round a pod" is a common-New England coast colloquialism.

THE SMALL SQUIRREL TEACHES US A LESSON

We all see them in the Fall busily storing nuts away in their hiding place—food for winter months when they will not be able to find it.

But how many men are provident as squirrels? How many are busily storing away money when they are young for the "winter" of life when they will not be able to obtain more? Very few, for most all do not think of the future or adversity until it is upon them.

Wise Men Are Saving Now

They are not delaying until it is too late, they are saving now for the future. Join the ranks if you are not already thrifty and save your surplus earnings for a day when you will need it.

Gifts Delightfully Different

Christmas is not many days away. Right now is the time to do your shopping, while it is yet comparatively early. There is no time like the present to make Christmas selections, for soon the holiday rush will be on, and then it is difficult to get what you want.

Of course you will want the choicest of gifts for your loved ones. You will want something different, something very appropriate, yet out of the ordinary, and something that combines quality with a low price.

This problem is easily solved. Our store is stocked with a complete line of suitable gifts, gifts that are delightfully different, beautiful and useful. Just step into our store some day soon, and make your selections. You will easily find what you want, and the recipient will certainly not be disappointed.

Misses Shaw, Patton, Cryer, White, Black, Ellis and Mrs. J. R. Self of the Crowell school attended the State Teachers Association in San Antonio Thanksgiving week.

For Sale—3 tons Mebane cotton seed, good planting seed at \$50.00 per ton. See A. T. Beazley at Rayland. Address, Vernon, Texas, Route 3. 25p

Mrs. Florence Ragland is here from Pilot Point visiting her daughter, Mrs. C. W. Thompson. She was met in Wichita Falls last Saturday by Mrs. Thompson and Mrs. Pearl Carter.

Highest prices paid for your furs across street from Johnson feed store. Will be there every Saturday. Write me and I will come and get them.—S. B. Middlebrook, Jr., Margaret, Texas, Rt. 1, Box 36. 27

The little child of Mr. and Mrs. Sam Mills underwent an operation for appendicitis one day last week and it is reported to be getting along all right. The operation was performed at Quanah where the family is now residing.

Mr. and Mrs. V. N. Priest and daughter, Sallie Bell, of Vernon visited Mr. Priest's mother Sunday at Margaret, who happened to the misfortune of falling and hurting her arm and shoulder very badly some three weeks ago.

Mr. Goodman of the Goodman & Frantz Furniture Co., and Mr. Ruff Harris, director of the Shrine band, both of Dallas are here visiting in the home of Mr. and Mrs. T. N. Bell. Mr. Bell and his friends have been enjoying a few days hunt.

The News was glad to welcome Sam Acton back on the work for the Southwestern Paper Company. For several months he has been working in another portion of Texas. He is one of the best salesmen the Southwestern ever had in this field.

Last week T. J. Foreman of Brownsville sent his daughter, Mrs. Albert Schooley, a box of grape fruit and in the box was one specially intended for the News, a large, luscious specimen of the fruit of that famous valley. Mr. Foreman knows how much we West Texa's people appreciate grape fruit and we hope that he will send us a box next time.

A petition was circulated some days ago asking for a re-designation of highway 51 from Quanah to Crowell to come by way of Medicine Mound. Quite a number of citizens signed the petition. Later another was circulated asking that the change not be made. It is likely that the route will stand as it is at present for it would be hard to get State and Federal aid on a route so crooked as the change would have brought. It would be fine to have a road across Pease River by way of Margaret to Medicine Mound but in all probability this will have to be a separate road building proposition.

BELL GRAIN CO.

ADELPHIAN CLUB

Mrs. Joe Johnson was hostess to the Adelpian Club Wednesday, the 5th. Mrs. George Self was leader of the third program on Contemporary poetry.

The lives and characteristics of Carl Sandburg, John Gould Fletcher and Rabendranath Tagore, and an example of the type of poetry written by each was given by selected members. Sandburg is known as the laureate of industrial America. Many of the themes of his poems were found in the slums and factories of the cities of the East. His speech is simple, "slangy" and direct.

Tagore, a Hindu, is noted as a poet, philosopher and a writer of religious poetry. His poems are possessive and charming. He has a great appreciation of nature and is known as the interpreter of the east.

Fletcher, an imagist, is dominated by color in his writings. Calm music is expressed in his recent poems. Due to his unusual originality he gains and loses his popularity.

An interesting paper on "Children and Poetry" was given by Mrs. L. A. Andrews. Poetry is a part of children and no child's library should be considered complete without a book of children's poetry.

Lovely refreshments were served to the club members.—Reporter.

ON THE FARM

By the County Agent

There has been a number of inquiries lately coming to the office regarding the poisoning of coyotes. It seems that the wolves have been making raids on the poultry of the county quite frequently. Mr. Tra-week, who lives in the Antelope Flat community, has been forced to build a chicken-proof fence around forty acres of land to protect his chickens and turkeys from the wolves. Mr. Callaway of Foard City, has lost several turkeys lately by the coyotes.

A poisoning campaign would be more successful if several counties would co-operate in distributing the poison baits. The chief objection to the poison method of killing wolves is that dogs will be killed if they eat the baits, however, the dogs may be kept up for a time. If a poisoning campaign is put on in the county it will be necessary for each community to have a committee to oversee the distribution of the baits.

Sweet Clover

Those who have sowed sweet clover broadcast have had considerable difficulty in getting a stand. That also seems to have been the chief difficulty with most every one in this section of the country. There are several planning to plant clover in rows. In some localities it has been a partial success in the short time that it has been tried by that method. It is planted in three foot rows with an ordinary planter using a cane plate that will distribute about eight or nine pounds per acre. It is planted, usually in March, and is barely covered. It is cultivated for a while just as any other feed crop, which gives it time to get set well in the drill row.

It seems that the price will be cheaper on seed this year.

Clover has been fairly successful sowed on creeks and low places in pastures. When once set it furnishes early pasture.

The annual Wilbarger Poultry Show closed at Vernon Saturday afternoon. The Record reports that 205 birds were displayed and that at least 1,000 persons viewed the display.

Fort Worth Star-Telegram and Foard County News one year \$8.20.

Attend Advance Showing of New Chevrolet Six

D. R. Magee of the Allen Chevrolet Co., just returned from Oklahoma City where he attended the advance showing of the new Chevrolet six cylinder car, was enthusiastic in his praise of Chevrolet's new product and of the public reception showered upon it at the Oklahoma City showing.

"Thousands attended the Oklahoma City showing daily, and I had the opportunity of noting the most genuine demonstration of crowd enthusiasm it has ever been my privilege to witness," Mr. Magee said. "If the public's preference for the new Chevrolet is to be indexed by what I observed from the Oklahoma City crowds, I feel certain that 'the Outstanding Chevrolet of Chevrolet History' is destined to go down in automotive history as one of the most sensational of all sales successes.

"Oklahoma City visitors to the showing were outspoken in their admiration of the expensive 'big car' appearance of the new models. They were pleased with the new color combinations and with the elegance of the fittings and upholstery. The feminine showgoers were especially enthusiastic over the appearance and comfort conveniences found in the new Chevrolet.

"The powerful engine with its 32 percent increased horsepower, the product of four years intensive development by Chevrolet and General Motors, was one of the most popular exhibits at the showing. Crowds milled about the engine all day long, and were especially interested in learning that, although it develops more horsepower than its four cylinder predecessor, it can be operated with fuel economy averaging better than 20 miles to the gallon."

Mr. Magee said that the Allen Chevrolet Co. will have the new models on display in their show rooms Jan. 1, when deliveries are scheduled to begin. Fifteen huge Chevrolet factories throughout the country are now pushing production with all the speed possible within the limits of precision manufacturing, Mr. Magee said.

Mr. Magee was accompanied by the other following members of the local Chevrolet organization: John Carter, salesman; J. R. Shannon, salesman; J. R. Roy, shop foreman; and

Why We Do What We Do

by M. K. THOMSON, Ph. D.

WHY WE HAVE PAIN

PAIN is the signal of danger. Some-thing is wrong. Without this warn- ing we might persist and get hurt or killed. If you felt no pain by coming in contact with fire you might burn up before you realize what was hap- pening to you.

Pain is not a feeling. It is a sen- sation. The distinction is that in case of a feeling you have a vague notion of pleasantness or unpleasantness whereas in pain you have a distinct sensory experience. Feelings are not localized and have no specific organs. Pain, like every other sense such as seeing, hearing, etc., is localized in pain cells mostly on the skin and scat- tered throughout the body. They are mostly found on the surface because there is where they are most needed as watch dogs of our health and safety.

Another reason why pain has been confused with feeling is that most pains are unpleasant and unpleasant- ness is a feeling. Feelings of pleasant- ness and unpleasantness are the ac- companiments of all sensory experi- ence of everything we see, hear, feel or touch. Some colors look good to us, others look ugly; musical notes are pleasant; scraping, shrill, loud noises are decidedly unpleasant; soft, smooth, velvety objects are pleasant to the touch; clammy, cold, ragged, sharp, un- even surfaces are unpleasant.

Although most pains are unpleasant, some are neutral and a few are posi- tively pleasant. If you cannot think of a pleasant pain recall the sensation of poking a sore thumb to enjoy the pain.

Pain, then, is not a feeling. It is a sensation. It is usually accompanied by a feeling of unpleasantness but may be neutral or pleasant at times. We have pain to warn us of approaching danger and harm. Pain is our great- est friend in the struggle for existence. In avoiding pain we are compelled to remove the deadly causes.

Margaret Mann

"The dauntless lady" is an espe- cially fitting reference to Margaret Mann, sixty-three-year-old featured motion picture player. She plays "mother parts" in the "movies" and her work is well liked. Miss Mann was born in Aberdeen, Scotland. She, like many others successful in the business, started as an "extra."

SAWS

By Viola Brothers Shore

FOR THE GOOSE—

IF YOUR servants think you're too hard, maybe they're right. If they think you're too easy, they surely are.

A shoemaker always looks at peo- ple's feet—a teacher at their grammar. You might be giving yourself away by the kinda things you always notice about people.

"Girls," remarked Mr. Blotto, "is like mince pie. You got a lot more re- spect for 'em, before you know how they're put together."

"Hm," sniffed the little woman. "I see mighty little mincin' where girls is concerned, these days!"

FOR THE GANDER—

A man that's really set on proposin' to a woman has gotta make it snappy. Otherwise, if she don't want him, she'll beat him to it. And if she does, she will, too.

Ask a man these days how much is one and one and he'll tell you two fingers.

Don't lie to your girl about your money matters. But don't take her into your confidence, neither.

How It Started

By JEAN NEWTON

"JOTTING IT DOWN"

THIS expression is commonly used of something which is to be writ- ten, where the implication is that it will take no time nor effort, that the writing amounts to no more than a scratch or a "jot." We all know that there is a type of person who, not very fond of work himself, has the habit of minimizing anything that he asks other people to do. Accordingly he might request some one to "jot jot down" a dozen pages or more! That, however, would not be in keeping with the meaning or the origin of the phrase.

For the origin of "jotting it down," we must turn simply to the word "jot," derived from the Greek "iota" or "i." It means a tittle, the dot over the "i," or a mark over a letter to distinguish pronunciation, and its sig- nificance extends to anything of slight value or proportions.

Literally "jot down" would mean to make a mark. And it is in the sense of making just a few marks that we today refer to writing something down as "jotting it down."

SOMETHING TO THINK ABOUT

By F. A. WALKER

RIDING FOR A FALL

THE man or woman who cannot hold a good position without plot- ting the fall of others, is riding for a fall.

Should you know a wily intriguer, go far out of your way to avoid him; he forms no more than a hideous back- ground for the daubing of a picture whose horrible drawing and color brings nothing but sorrow. But such pictures sometimes serve a good pur- pose.

There is nothing rightly thought or truthfully written on defamers of characters that does not in some line or another contain a bit of personal experience.

The effect that Machiavellian trick- sters produce on the lives of striving men and women is altogether out of proportion with the cause. So pay no attention to their scandal; carry none of their tales; take no part in their stealthy, selfish schemes, designed to bring some innocent persons into con- tempt and to deprive him or her from making a meager livelihood.

Having no character of his own, the serpent blackens the character of others, smiling as he does it.

He has done it many times, getting harder and more cruel as he proceeds.

There is to him a sort of adven- turous excitement in his dastardly work which he relishes, until, in his sober moment he half suspects that Destiny may at some unexpected mo- ment pounce upon him and compel him to pay heavily for his foul deeds.

And this is exactly what Destiny in- variably does.

No plotter or defamer ever escapes retributive justice.

Whenever you find a plotter who spends half his time looking for vic- tims, you may rest assured that he carries with him a cargo of hate for his fellow workers and mankind gener- ally.

Instead of "boasting" he "knocks." And he never realizes the enormity of his sin, until he in turn is "knocked."

There is but one way to win in any calling, and that is to be honor- able, simple-minded, frank and open- hearted in all your dealings with others.

Do your work well, speak ill of no one and be uniformly kind.

There is the only way to succeed, to win the favor of good, appreciative men and to make a place in life which brings at the time when you most need it generous reward and lasting honor.

MARY'S PARTY

By DOUGLAS MALLOCH

MARY'S party's going to be Wonderful, that's plain to see Every evening father brings Something home, a lot of things: Certain fixtures for the hall, Candy, too, for one and all, Really father's spent a lot, Whether Mary knows or not.

Mary's party will outdo All the other parties, too. Brother drove the car 'way out in the country, all about, Getting leaves of every tint, Giving walls an autumn hint, Berries, too, that shine and gleam, And the dining room's a dream.

Mary's party's almost here. For a week, or very near, Mother's swept and cleaned the place, Washed the curtains, mended lace, Polished silver, baked and cooked— Nothing mother's overlooked.

Yes, they'll soon be saying now Mary's party was a "wow!"

(© 1928, Douglas Malloch.)

SUPERSTITIOUS SUE

SHE HAS HEARD THAT—

When you have a bunch of "boyish bobs" at your party and you dish up a nice large juicy pot of mashed po- tatoes into which you have secretly put a ring—then the girlie who gets that ring may chortle for joy because it's a sign she will be the first to marry.

HONOR CAPITAL PLANNERS, PLEA

Architects Ask for Annual Memorial to L'Enfant, Thornton and Others.

Washington.—A movement for nation-wide memorial services under the direction of chapters of the American Institute of Architects in honor of the leaders in the architectural development of the national capital has been started by the Institute's committee on Plan of Washington and Environs.

The memory of Major Pierre L'Enfant, the Frenchman known as the "Founder of Washington"; of William Thornton, who was of British birth, and of others, will be commemorated annually on Memorial day in co-operation with national bodies and with agencies, federal and state, devoted to architecture and the arts, according to plans sponsored by the committee, of which Horace W. Poussee is chairman.

Parkway Proposed as Memorial.
An open parkway from the Capitol to the Washington monument, to be completed in time for the two hundredth anniversary celebration of George Washington's birth, is also proposed in honor of L'Enfant.

"The Founder of Washington" architects say, is practically unknown to the mass of Americans. Even to the better informed he is a dim figure of tradition. With the development of the Plan of Washington and the prospective expenditure of many millions of dollars by the United States government, L'Enfant, friend and adviser of President Washington, is emerging as an important influence of the early days of the republic.

No portrait of Major L'Enfant exists. W. W. Corcoran, of Washington, who knew him, left a brief description of his appearance. An ideal likeness of L'Enfant has been created by Leon Chatelain, a young Frenchman of Washington, and appears in the form of a medallion on the new Chevy Chase Savings bank in Washington.

Sought Pay for Services.
The services rendered by L'Enfant in preparing a plan for the national capital were of short duration, and for twenty-five years or more he lived in Washington, confessedly seeking what he regarded adequate recompense for his services.

"During these years he was an inmate of the household of Dudley Diggs. He died at Mr. Diggs' home and was buried in the family graveyard, not far from the city of Washington. Later his remains were transferred by order of congress to Arlington Military cemetery, where a monument to him has been erected, the design having been secured through the American Institute of Architects."

Lieutenant Colonel U. S. Grant III, director of public buildings and public parks of the national capital, who is actively co-operating with the Institute in planning the architectural future of Washington, points out that, in compliance with the act of July 16, 1790, President Washington appointed a commission of three to locate and lay out the new federal city, as it was then called.

Washington Chose Site.
"He selected the exact site himself," Colonel Grant relates, "and he further designated Major Charles Pierre L'Enfant, an engineer officer who served with distinction during the Revolution, to prepare a plan for the new capital."

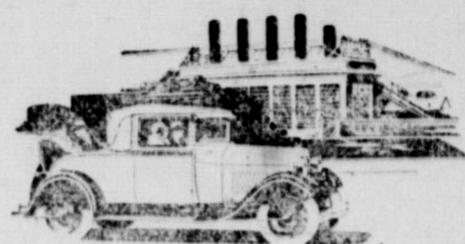

"This seems to have been a most fortunate choice, as the L'Enfant plan has stood the test of a century and a quarter's growth so well that each competent study subsequently made for its revision and extension has resulted in a confirmation of its excellence and a recommendation for the extension of its principles to the remainder of the District of Columbia, for the plan made by Major L'Enfant did not cover the entire territory of the District of Columbia, but only the flat and relatively gently sloping land of the peninsula contained between the Potomac river and its eastern branch (now more generally known as the Anacostia river) at their confluence."

Design Showed Vision.
Architects offer their tribute to L'Enfant in remembrance of his public service. Glenn Brown, past secretary of the Institute, asserts in an Institute symposium on pioneer architecture in America.

"Education in France and quick promotion on Washington's staff proved his efficiency," Mr. Brown continues. "His plan for a federal city larger than London or Paris, when our country had only 3,000,000 inhabitants, and designs for the home of Robert Morris to compete with Versailles indicated his idealism and broad vision."

Acclaimed Century After Death.
"Nearly a hundred years after his death his remains were removed, through the auspices of the American Institute of Architects, from the

The utilities of a city are combined in your motor car

YOUR automobile is something like a miniature city. There is an electric light and power system, a water system, a fuel system.

In the new Ford, you will find each of these systems of the latest design and best materials. Every part has been made to serve you faithfully and well at a minimum of trouble and expense.

Take, for example, the generator—one of the most important parts of the electrical system which supplies the current for lighting and for engine ignition.

In the new Ford, the generator is of the power-house type and is distinctive in many features. It has been specially designed to prevent most forms of trouble. Oiling is necessary only once a year. About the only thing you need do is to have the charging rate changed as the seasons change.

Closely allied to the electrical system is the ignition system. It, too, is of new mechanical design in the new Ford. There is but one high tension cable and that connects the coil with the distributor. Even cables from the distributor to the spark plugs have been eliminated. Special care has also

been taken to make the distributor water-proof, thus preventing short circuits from rain, etc.

The entire electrical and ignition systems of the new Ford are so simple in design and so carefully made that they will give you surprisingly little trouble. Yet that doesn't mean they should be neglected. Certain little attentions are needed from time to time.

The storage battery should be given water and the connections kept clean. The generator charging rate should be changed as indicated. Spark plugs should be cleaned at regular intervals. Distributor points should also be kept clean and the distributor cam given a light film of vaseline every 2000 miles.

These are just little things, but they mean a great deal to your car. You can have them looked after at very small cost by the Ford dealer when you take the car in for oiling and greasing.

A thorough checking-up at regular intervals will lengthen the life of your car and give you many thousands of miles of carefree, economical motoring.

FORD MOTOR COMPANY

MELLY'S NEW SLIPPERS

MELLY had received a beautiful pair of blue slippers upon her birthday. Her mother had made them for her and they had been a great surprise as she had a pair which were still pretty good and she didn't expect another pair just yet.

It was true that she hoped before another year she would have another pair of slippers, but she hadn't expected them so soon. It was so nice, too, to have a beautiful new pair before the others had quite worn out.

Now, if she went anywhere to spend the night with one of her school friends, or if one of her school friends came and spent the night with her—or if she felt she just wanted to dress

Oh, How Soft They Were. Oh, How Warm They Were.

up—she had a beautiful pair of slippers in readiness.

The slippers were bedroom slippers and they were knitted ones. They were magnificent.

They had fluffy, knitted borders, and beautiful blue bows with a little shining button in each bow.

They had soft soles and lovely white fleecy linings. They were warm without being heavy.

And oh, they always were so beautifully made. Some people made things and they didn't fit and you had to pretend to like them. But with mother's things it was different.

She made them so you were proud and not ashamed to wear them. If no one noticed your feet and you were wearing a pair of mother's slippers you at once drew attention to your feet.

Well, several months had gone by and Melly had only worn her slippers once.

She had put them away on the shelf with a big white handkerchief around them so they would keep clean until she began to really wear them quite often.

That was the way her mother did. She kept the slippers in a big white handkerchief while they were waiting for the time when they would be given.

And her mother had a way of hiding the slippers and of making them when no one saw her at it, so that they had always come as a surprise. No one had ever expected their slippers just the time they had been given them, and yet mother made slippers for all of the family.

Once they had discovered how nice they were they never wanted any others.

Yes, Melly had been saving her slippers for very special days to come. Maybe she would save them until she took a little trip to visit a cousin in another month.

One evening it was very cold, and somehow the house was not very warm.

Melly went upstairs. Oh, dear, her feet were so cold and she felt she wouldn't sleep very well with such cold feet.

Then she thought of her beautiful warm slippers.

She took them down from the shelf and took off the white handkerchief, and then she put them on.

First she put one on her right foot and then the other on her left foot.

Oh, how soft they were! Oh, how warm they were! They were just right, warm and soft and comfortable and comforting.

Melly's feet were quite comfortable in a very short time. She was not cold any longer.

"I'll begin to wear them now," Melly said, "for my cold feet would like to receive the attention as much as others who might see me."

And of course they were warm! Oh, Melly dearly loved her new slippers!

They were very superior slippers, but they hadn't any of the cold, distant, uncomfortable manners of some superior creatures and things.

They were friendly slippers. Just as friendly as they could be!

Melly's mother couldn't have made slippers that weren't friendly. Melly knew that.

City Plumbing Co.

From now until the first of the year we will sell the best insulated automatic gas water heaters that are on the market at a ten percent discount, prices ranging from \$30.00 up.

Non-automatics for \$25.00 up.

G. R. WEBSTER, Manager

WHAT'S DOING IN WEST TEXAS

(By West Texas Cham. of Com.)

Shamrock is considering the acquisition of a landing field for airplanes. A one hundred and twenty acre plot in either the regular L shape or a T shaped one of similar size will probably be decided upon by the city manager and other city officials interested.

Idalou carried a \$2,004,000.00 road bond issue on December 1, by an almost unanimous vote. With the new Fort Worth & Denver extension, this road when completed will make the markets very accessible to the Idalou section of the country.

Clifton is to have a modern and electrically operated dry cleaning plant installed in the tailor shop of Sam M. Ringness. This is a service the town has been needing for some time, and Mr. Ringness is receiving congratulations on the installation of it.

Estelline has been doing some improvement on the public square. Elm trees have been set out to replace the maples which died during the year. Shrubbery has been replanted in spots where needed. The grass will be thicker with another year's growth and will not be whipped out with wind and sand.

Ten boys' clubs have been organized by County Agent J. D. Prewitt of Brady, in various communities of McCulloch County. The raising of baby beeves, terracing and other subjects will be taught the 180 boys in these clubs this year.

Cash prizes will be offered at the third Annual Poultry Show of Brewster County to be held in Alpine December 18 and 19. A good purse has already been raised in addition to the \$300.00 subscribed by the Brewster County Chamber of Commerce.

The concrete frame work of the seventh floor of the Petroleum building at Midland has been erected. This floor makes the building the tallest in town, with five more to be erected. The theatre part of the building extends through the fifth floor.

A delegation of Ballinger people including the chief of the fire de-

TALKING TO HIS MULE

Over the hill trailed a man behind a mule drawing a Dixie plow. The clodhopper was "broadcasting."

"Bill, you are a mule, the son of a jackass, and I'm a man made in the image of God. Yet, here we work hitched together year in and year out. I often wonder if you work for me or I work for you. Sometimes I think this is a partnership between a mule and a fool. For surely I work harder than you do. Plowing here we cover the same distance, but you do it on four legs and I on two. So mathematically speaking I do twice as much work per leg as you do."

"Soon we'll be preparing for a corn crop. When the crop is harvested, I give one-third to the landlord for being kind enough to let me use this corner of God's universe. The other third goes to you, and what is left is my share. But while you consume all of your third with the exception of a few cobs, I divide my third among seven children, six hens, two ducks and a banker. Bill you're getting the best of me; it is fair for a mule, the son of a jackass, to rob a

man, the lord of creation, of his substance? And come to think of it, you only help to cultivate the ground. After that I cut, shock and husk it, while you look at me over the pasture fence and 'he-haw' at me.

"All fall and part of the winter the whole family, from granny on down to the baby, pick cotton to help raise money to buy you a new set of harness, and pay interest on the mortgage on you, and by the way, what do you care about the mortgage? It doesn't worry you any. Not a darn bit. You leave that to me, you ungrateful, honery cuss."

"About the only time when I'm your better is on election day, for I can vote and you can't. But if I ever get any more out of politics than you do I can't see where it is," Yancy Bullder.

The expectation that the population of Quitaque will double or treble in the next two or three years is being considered in the six inch water mains being installed over the city. Work in under way on the under ground concrete storage tank.

partment, secretary of the chamber of commerce, city secretary, and others are visiting nearby towns to inspect new city halls, and modern fire stations with the view of making the ones which they will have in the near future the very best.

It will be only a short time before the widening of the road of Highway 28 will be completed east of Thalia in Wilbarger County. It will then be ready to settle for the concrete, the pouring and hardening of which will require several months.

Perryton is experiencing a most substantial building boom. Building includes the erection of one whole

block of business houses on main street, a 75 by 140 foot garage, a new brick Masonic hall, a 50 by 150 two story store and office building, a 70 foot front brick motor company house and other buildings.

Two bottling companies are building plants in Clarendon. Both are brick structures, one of them twenty-five feet wide and extending back to the alley. It is understood that work will be rushed to a finish, and the manufacturing of the bottled drinks started immediately.

A modern produce house has been built and equipped in Pecos at a cost of \$50,000.00. The whole building

is 100 by 175 feet in dimensions and is so built that it will house and refrigerate ten railway cars full of produce at one time. It also has a private ice house and three bungalow homes for employees.

The work of digging of the ditches and laying of the mains for the sewer at Matador has been progressing steadily for a month. It is expected the job will be completed in a short time. Nearly every residence is taking advantage of the opportunity to install this convenience.

It's as good as they say it is—Skidoo, the creamy cleanser.—Ferguson Bros.

SPLINTERS

VOL. 1 December 14, 1928 No. 39

Published in the interest of the people of Crowell and vicinity by the Cicero Smith Lumber Co.

R. J. ROBERTS,
Manager.

Everything, as we see it, points to a good crop for 1929. Wheat is looking good, indications are that we will have plenty of moisture this winter, which is very necessary for the making of good crops.

Seems that Texon Tattler has quit writing Texon Tales since they have that deep oil well down there some where, which is over eight thousand five hundred feet deep. As soon as he gets over the excitement of it all, guess he will be back with some more of his stuff, hope so, any way.

What about a pretty oak floor for a Xmas present? Plenty of time to have floor put down and finished before Xmas. Come and talk with us about it. We have the oak flooring here in stock, all well seasoned. It will surprise you how cheaply it can be done.

Silas Moore of Margaret was in to see us Wednesday, and had some nice things to say about our improvements. We appreciate the nice things said about us by our many friends.

Mr. J. R. Gamble is having a modern filling and service station built on his property adjoining the Lee High Way in the west part of town. Jim Gamble is doing the carpenter work.

Some girls wait until the mistletoe is hung before they will stand to be kissed.

We have a good stock of lump and nut coal on hand of the same good quality we have always had. So, when in need of coal, call on us.

A New York concern is manufacturing wallots to fit in a vest pocket. We suggest that this product be placed on the market after Christmas.
