General Electric Refrigerators

Offer these vital advantages---

The outstanding merit of the General Electric Refrigerator was universally recognized the very day it was first announced. This refrigerator—the product of fifteen years of intensive research and development-completely revolutionized the art of refrigeration by embodying the following important features:

> An hermatically sealed, dust-proof mechanism. An easily accessible temperature control. A mechanism that requires no oiling. All troublesome machinery eliminated. A new standard of quiet operation. Mounted on legs with broom-room underneath. No installation problems whatever. A sanitary, porcelain chilling chamber. The entire mechanism mounted on top. Absolutely no radio interference. Maximum food storage space in the cabinet, An appreciably lower cost of operation. A radically improved type of cabinet. An unqualified two-year service guarantee,

Eureka Springs **PURE** Ozarka Water

Drink---Eureka Springs OZARKA Water

The U. S. Geological Survey accredits OZARKA water "the purest natural water known to scientists." It is neither medicated or treated, but is pure, clear and sparkling and espcially beneficial to the kidneys. Few people drink sufficient water. Physicians are agreed that fifty per cent of the diseases of today would be prevented by copious drinking of pure water.

The reputation of Eureka Springs as a health resort, due to its magic waters, is not only nation wide—it is world renowned. OZARKA is the registered name of the famous Eureka Springs water, pure, radio-active and health producing.

Acres of Seedbedfor the price of One

I'S NO SECRET to anyone that the way to make more profit in farming is to cut cost of production. And one sure way to do this is to save money and time on the big job of plowing. You can do it just as thousands of wheat growers are—with the Case Wheatland Disk Plow.

It's an actual fact that in many cases you can prepare a better seed bed than with moldboard plowing—and at greatly reduced cost. No more power is needed -no more help. Just hitch your tractor to the Wheatland—do the job in about one-third the time-and put the savings in your pocket.

Don't delay putting this money-saving plow to work for you. Come in and see it—ask for interesting, illustrated literature. We're here to give you the best service possible—make us prove it.
